sales of \$8,600,000 for the same quarter in 2003. The 24% increase in revenues is attributable primarily to an increase in sales from the Company's wholly owned subsidiary Winncom Technologies. For the fourth quarter of 2004, the Company had accruals of \$120,000 for sales bonuses and \$58,000 for the employer stock matching contribution to the Company's 401(k) plan. These bonuses and stock matching contribution are based on audited year-end financial results and can not be determined until those numbers are available. Additionally, an accrual of \$59,000 was booked for construction expenses for a new wireless project currently under development by Winncom Technologies in Kazakhstan. Including these accruals, the Company had a loss of \$53,000 for the quarter ended December 31, 2004 as compared with a loss of \$65,000 for the quarter ended December 31, 2003.

On March 30, 2005, we reported our revenues and earnings for 2004.
