**Potential persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB control number.**

**Item 8.01 Other Events**

Little Squaw Gold Mining Company (LITS:OTC.BB) ( Little Squaw or the Company ) announces that it has acquired the Pedra de Fogo ( Rock of Fire ) gold exploration property in Goias State, south central Brazil. The property covers about 45 square miles (115 square kilometers) of highly prospective geologic terrain within the Crixas mining district, which has yielded over 3.5 million ounces of gold. The property is located near the town of Reisopolis and road access is excellent to most areas of interest.

The Pedra de Fogo property contains strong and continuous geochemical gold anomalies in stream sediments that the Company has confirmed through extensive due diligence sampling.

The mineral rights are secured by federal mining claim concessions, in which the Company can earn a 100 percent interest, subject to a 3 percent retained royalty.

A copy of the press release is attached hereto as Exhibit 99.1
