New Jersey Mining Company

Notes to Consolidated Financial Statements (Unaudited)

1.

The Company and Significant Accounting Policies:

These unaudited interim consolidated financial statements have been prepared by the management of New Jersey Mining Company (the Company) in accordance with accounting principles generally accepted in the United States of America for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete consolidated financial statements. In the opinion of the Company's management, all adjustments (consisting of only normal recurring accruals) considered necessary for a fair presentation of the interim consolidated financial statements have been included.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities known to exist as of the date the financial statements are published, and the reported amounts of revenues and expenses during the reporting period. Uncertainties with respect to such estimates and assumptions are inherent in the preparation of the Company's financial statements; accordingly, it is possible that the actual results could differ from these estimates and assumptions, which could have a material effect on the reported amounts of the Company's financial position and results of operations. Operating results for the three and nine month periods ended September 30, 2017 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2017.

For further information refer to the financial statements and footnotes thereto in the Company's audited financial statements for the year ended December 31, 2016 as filed with the Securities and Exchange Commission.

Principles of Consolidation

At September 30, 2017 and December 31, 2016, the consolidated balance sheet includes the accounts of the Company and its majority-owned subsidiary, the New Jersey Mill Joint Venture (NJMJV). The consolidated statements of operations and cash flows for the period ended September 30, 2017 includes the same companies.

Intercompany accounts and transactions are eliminated. The portion of entities owned by other investors is presented as non-controlling interests on the consolidated balance sheets and statements of operations.

Revenue Recognition

Revenue is recognized when title and risk of ownership of metals or metal bearing concentrate have passed and collection is reasonably assured. Revenue from the sale of metals may be subject to adjustment upon final settlement of estimated metal prices, weights and assays, and are recorded as adjustments to revenue in the period of final settlement of prices, weights and assays; such adjustments are typically not material in relation to the initial invoice amounts. Revenues from mill operations and custom milling are recognized in the period in which the milling is completed, concentrates are shipped, and collection of payment is deemed probable.

Pre-Development Activities

Pre-development activities involve cost incurred that may ultimately benefit production, such as underground ramp development, pumping, and open pit development, which are expensed due to the lack of evidence of economic development, which is necessary to demonstrate future recoverability of these expenses. These costs are charged to operations as incurred.

Inventory

Inventory is stated at the lower of full cost of production or estimated net realizable value based on current metal prices. Costs consist of mining, transportation, and milling costs including applicable overhead, depreciation, depletion and amortization relating to the operations. Costs are allocated based on the stage at which the ore is in the production process.

Fair Value Measurements

When required to measure assets or liabilities at fair value, the Company uses a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used. The Company determines the level within the fair value hierarchy in which the fair value measurements in their entirety fall. The categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Level 1 uses quoted prices in active markets for identical assets or liabilities, Level 2 uses significant other observable inputs, and Level 3 uses significant unobservable inputs. The amount of the total gains or losses for the period are included in earnings that are attributable to the change in unrealized gains or losses relating to those assets and liabilities still held at the reporting date.

New Jersey Mining Company**Notes to Consolidated Financial Statements (Unaudited)**

At September 30, 2017 and December 31, 2016, the Company determined fair value on a recurring basis as follows:

	September 30, 2017	December 31, 2016	Fair Value Hierarchy
Forward gold contracts-liability (Note 11)	\$ 1,101,897	\$ 1,386,228	2

Concentration

During the fourth quarter 2016 and through the nine months ended September 30, 2017, the Company has sold all of its gold concentrate product to a concentrate broker, H&H Metals Corp.

Reclassifications

Certain prior period amounts have been reclassified to conform to the 2017 financial statement presentation. Reclassifications had no effect on net loss, stockholders' equity, or cash flows as previously reported.

2.

Going Concern

The Company's cash flow is directly related to revenues generated from production and milling activities. The Company has experienced operating losses and negative operating cash flows prior to and during the ramp up of production activities at the Golden Chest Mine. In addition to cash flow from operations, ongoing operations are dependent on the Company's ability to obtain public equity financing by the issuance of capital and to generate profitable operations in the future.

The Company is currently producing from the open-pit at the Golden Chest Mine and began underground operations in early November 2017. In addition, during the first three quarters of 2017, production has generated positive cash flow of \$231,785 and planned production for the next 18 months indicates the trend to improve. The Company has also been successful in raising required capital to commence production and fund ongoing operations, completing a

forward gold sale of \$1.2 million in 2016 and closing private placements of \$1.4 million in the first quarter of 2017. The Company also completed a private placement on October 20, 2017 using the proceeds to reduce debt and pay off the remaining balance on the Golden Chest Mine project.

As a result of its planned production, equity sales and ability to restructure debt, management believes cash flows from operations and existing cash are sufficient to conduct planned operations and meet contractual obligations for the next 12 months.

3.

Related Party Notes Payable

At September 30, 2017 and December 31, 2016, the Company had the following notes and interest payable to related parties:

	September 30, 2017	December 31, 2016
Mine Systems Design (MSD), a company in which our Company's Vice President owns 10.4%, 12% interest, monthly payments of \$4,910 through October 2018	\$ 80,729	\$ 115,868

Current portion	207,760	567,580
Long term portion	\$ 697,985	\$ 513,715

New Jersey Mining Company**Notes to Consolidated Financial Statements (Unaudited)**

Related Party interest expense for the three and nine month periods ending September 30, 2017 and 2016 is as follows:

September 30, 2017		September 30, 2016	
3 months	9 months	3 months	9 months
\$ 13,001	\$ 41,970	\$ 16,806	\$ 45,770

During the quarter ended March 31, 2017 in conjunction with a private placement (Note 9), the Company issued 1,000,000 units of its common stock and warrants with a combined value of \$100,000 in exchange for \$95,734 in principal and \$4,266 in accrued interest on a note payable due to John Swallow, the Company's president.

On August 8, 2017, notes with Mr. Swallow were amended to extend the balloon payments on both notes to February 2019.

4.**Joint Ventures**

For joint ventures in which the Company holds more than 50% of the voting interest and has significant influence, the joint venture is consolidated with the presentation of non-controlling interest. For joint ventures in which the Company does not have joint control or significant influence, the cost method is used. For those joint ventures in which there is joint control between the parties, and the Company has significant influence, the equity method is utilized.

At September 30, 2017 and December 31, 2016, the Company's percentage ownership and method of accounting for each joint venture is as follows:

September 30, 2017**December 31, 2016**

Joint Venture	% Ownership	Significant Influence?	Accounting Method	% Ownership	Significant Influence?	Accounting Method
New Jersey Mill Joint Venture(NJMJV)	65%	Yes	Consolidated	65%	Yes	Consolidated
Butte Highlands Joint Venture (BHJV)	50%	No	Cost	50%	No	Cost

New Jersey Mill Joint Venture Agreement

At September 30, 2017 and December 31, 2016, an account receivable existed with Crescent Silver, LLC, the other joint venture participant (Crescent), for \$7,727 and \$2,888, respectively, for shared operating costs as defined in the JV agreement.

Crescent s non-controlling interest in the JV changed from December 31, 2016 to September 30, 2017 as follows:

Balance December 31, 2016	\$	3,142,312
Contribution from non-controlling interest		22,630
Net loss attributable to non-controlling interest		(43,107)
Balance September 30, 2017	\$	3,121,835

Butte Highlands JV, LLC (BHJV)

On January 29, 2016, the Company purchased a 50% interest in Butte Highlands JV, LLC (BHJV) from Timberline Resources Corporation for \$225,000 in cash and 3,000,000 restricted shares of the Company s common stock valued at \$210,000 for a total consideration of \$435,000. Highland Mining, LLC (Highland) is the other 50% owner and manager of the joint venture. Under the agreement, Highland will fund all future project exploration and mine development costs. The agreement stipulates that Highland is manager of BHJV and will manage BHJV until such time as all mine development costs, less \$2 million are distributed to Highland out of the proceeds from future mine production. The Company has determined that because it does not currently have significant influence over the joint venture s activities, it accounts for its investment on a cost basis. The Company purchased the interest in the BHJV to provide additional opportunities for exploration and development and expand the Company s mineral property portfolio.

New Jersey Mining Company**Notes to Consolidated Financial Statements (Unaudited)****5.****Earnings per Share**

For the three month period ending September 30, 2017, stock options of 2,750,000 and warrants of 1,200,000 are included in the calculation of diluted income per share. For the nine month period ended September 30, 2017, stock options of 3,250,000 and warrants of 1,200,000 warrants are included in the calculation of diluted income per share.

Excluded from the diluted earnings per share calculations for both the three and nine months ending September 30, 2017 were 2,725,000 stock options and 6,387,500 warrants. These stock options and warrants were excluded because the exercise prices were greater than the average trading prices of the Company's common stock for the periods.

For the three and nine month periods ending September 30, 2016, all outstanding stock options and warrants were excluded from the computation of diluted loss per share, as net losses for those periods would cause their conversion and exercise to have no effect on the calculation of loss per share.

6.**Property, Plant, and Equipment**

Forward Gold Contracts

On July 13, 2016, the Company entered into a forward gold contract with Ophir Holdings LLC ("Ophir"), a company owned by three of the Company's officers, for net proceeds of \$467,500 to fund startup costs at the Golden Chest. The contract calls for the Company to deliver a total of 500 ounces of gold to the purchasers with quarterly payments equivalent to \$25,000 in ounces starting February 1, 2017 until all other investors in forward gold contracts are paid in full at which time the quarterly payments will increase to the equivalent of \$75,000 in ounces until the remaining balance is paid in full as gold is produced from the Golden Chest Mine and New Jersey Mill. During the first nine months of 2017, the Company paid the equivalent of 60.5 gold ounces to Ophir. At September 30, 2017, future gold deliveries are 439.5 ounces due.

On July 29, 2016, the Company entered into forward gold contracts through GVC Capital LLC (GVC) for net proceeds of \$772,806 to fund startup costs at the Golden Chest. The agreement calls for the Company to deliver a total of 904 ounces of gold to the purchasers in quarterly payments starting December 1, 2016 for a period of two years as gold is produced from the Golden Chest Mine and New Jersey Mill. During the first nine months of 2017, the Company paid the equivalent of 337.5 gold ounces to GVC. At September 30, 2017, future gold deliveries are 113 ounces due in the remainder of 2017 and 339 ounces due in 2018.

The gold to be delivered does not need to be produced from the Golden Chest property. In addition, the counterparties can request cash payment instead of gold ounces for each quarterly payment. The cash payments are based on average gold prices for the applicable quarter. The contracts are accounted for as derivatives requiring their value to be adjusted to fair value each period end. The change in balance for the forward gold contracts for the nine months ended September 30, 2017 and 2016 is as follows:

		2017		2016
Beginning balance	\$	1,386,228		-
Proceeds from contracts		-	\$	1,240,306

Plan of Operation

New Jersey Mining Company is an emerging gold producer focused on diversifying and building its asset base and cash flows through a portfolio of mineral properties located in historic producing gold districts in Idaho and Montana.

The Company's plan of operation is to generate positive cash flow while reducing debt and growing its production and asset base over time while being mindful of corporate overhead. Management is focused on utilizing its in-house skillsets to identify, acquire and/or develop quality assets that have production and resource potential, preferably having considerable prior investment and development.

The Company's properties include: the Golden Chest Mine (currently in production), the New Jersey Mill, (majority ownership interest), and a 50% carried to production interest in the past producing Butte Highlands Mine located in Montana. In addition to its producing and near-term production projects, New Jersey Mining Company has additional exploration prospects, including the McKinley and Eastern Star located in Central Idaho, and additional holdings near the Golden Chest in the Murray Gold Belt.

Highlights during the first nine months of 2017 include:

For the three and nine months ended September 30, 2017 approximately 8,314 and 21,840 tonnes of ore, respectively, from the open pit have been processed through the New Jersey Mill. For the three month period ending September 30, 2017 the average head grade was 4.29 grams per tonne (gpt) gold with average gold recoveries of 83.1% and 952 ounces were recovered. For the nine month period ending September 30, 2017 the average head grade was 4.55 gpt gold with average gold recoveries of 84.6% and 2,700 ounces were recovered.

Dewatering of the underground mine and installation of permanent mining equipment and ventilation is complete with underground operations scheduled to commence in November.

Identified expansion potential of open pit area at the Golden Chest Mine.

Closed private placements of \$1.14 million with participation from management and strategic shareholders including the Company's concentrate broker H&H Metals Corp.

Acquired additional equipment in support of underground operations at the Golden Chest Mine.

Total liabilities reduced \$745,638 as compared to December 31, 2016.

The Company has made a variety of equipment purchases in 2017 as the open pit continues to evolve and preparations are made for underground production. Included in these equipment purchases was a Wagner 14-ton underground haul truck purchased in September 2017 for \$125,000 of which \$112,500 was financed with a 20 month note payable and \$6,020/month payments.

Results of Operations

There was \$1,266,139 and \$3,218,147 in revenue in the three and nine-month periods respectively ending September 30, 2017 compared to \$52,354 and \$144,632 for the comparable periods in 2016. The revenue in 2017 was from mining and milling of ore from the Golden Chest Mine whereas minimal activity occurred in the first nine months of 2016. The net income attributable to the Company of \$144,407 and \$81,935 for the three and nine month periods ending September 30, 2017 compared to the net loss of (\$838,458) and (\$1,167,317) in the comparable periods of 2016 are a result of operations at the Golden Chest property and New Jersey mill in 2017.

The Company began ramp up, production, and milling of ore from the Golden Chest property open pit in the fourth quarter of 2016 and continued production throughout the first nine months of 2017. The Company plans to continue mining the open pit and add production from the underground workings in the fourth quarter of 2017.

Gold Sales

Gold sales income increased by \$1,220,285 and \$3,094,629 in the three and nine month periods, respectively of 2017 compared to the equivalent periods in 2016 as a result processing ore from the Golden Chest

Milling Income

Milling income decreased in 2017 compared to 2016 as a result of termination of the Skookum lease in September 2015.

Production

Production costs increased in 2017 compared to 2016 as a result of production at the Golden Chest and the associated milling.

Predevelopment expenses

Predevelopment expenses decreased in 2017 compared to 2016 as costs related to pumping and other activities being done in preparation for underground mining which is to commence in the fourth quarter near completion.

Exploration

Exploration cost decreased in 2017 compared to 2016 as a result the Company's focus on development in support of production at the Golden Chest.

Depreciation

Depreciation increased in 2017 compared to 2016 as a result of units of production depreciation calculations as the mill and Golden Chest as production of ore proceeds in 2017.

Accounting and Legal Services

Accounting and legal services expenses were higher in the nine month periods of 2017 compared to the comparable period of 2017 as a result of increased activity including seeking a listing on the Canadian Stock Exchange and services related to collection of debt owed the company by Premium Exploration.

General and Administrative Expenses

General and administrative expenses were higher in 2017 compared to the comparable period of 2016 as a result of increased activity.

Timber Income

No timber was harvested from the Company's property in 2017.

Interest Income

Interest income increased in 2017 as compared to 2016 as a result of the collection of debt owed the Company by Premium Exploration.

Change in Fair Value of Forward Gold Contracts

Change in fair value of forward gold contracts is lower in 2017 compared to 2016 as a result of a lower debt balance that requires adjustment to market value in 2017.

Financial Condition and Liquidity

	For the Periods Ended	
	September 30	
	2017	2016
Net cash provided (used) by:		
Operating activities	\$ 231,785	\$ (453,716)
Investing activities	(75,914)	(411,347)
Financing activities	(61,441)	1,285,902
Net change in cash and cash equivalents	94,430	420,839
Cash and cash equivalents, beginning of period	154,833	62,275
Cash and cash equivalents, end of period	\$ 249,263	\$ 483,114

The Company's cash flow is directly related to revenues generated from production. The Company has experienced operating losses and negative operating cash flows prior to and during the ramp up of production activities at the Golden Chest Mine. In addition to cash flow from operations, ongoing operations are dependent on the Company's ability to obtain public equity financing by the issuance of capital and to generate profitable operations in the future.

The Company is currently producing from the open-pit at the Golden Chest Mine and preparing to begin production underground, which is scheduled for November 2017. In addition, during the first nine months of 2017, production has generated positive cash flow of \$231,785 and planned production for the next 18 months indicates the trend to improve. The Company has also been successful in raising required capital to commence production and fund ongoing operations, completing a forward gold sale of \$1.2 million in 2016 and closing private placements of \$1.4 million in the first quarter of 2017. Subsequent to September 30, 2017 The Company completed a private placement of \$310,000 using the proceeds to reduce debt and pay off the remaining balance on the Golden Chest Mine property.

As a result of its planned production, equity sales and ability to restructure debt, management believes cash flows from operations and existing cash are sufficient to conduct planned operations and meet contractual obligations for the next 12 months.

Changes in Financial Condition

The Company maintains an adequate cash balance by increasing or decreasing its discretionary expenditures as limited by availability of cash from operations or from financing activities. The cash balance at September 30, 2017 was \$249,263 compared to \$154,833 at the end of 2016.

Cash and Cash Equivalents

Item 4.

MINE SAFETY DISCLOSURES

Pursuant to Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act), issuers that are operators, or that have a subsidiary that is an operator, of a coal or other mine in the United States are required to disclose in their periodic reports filed with the SEC information regarding specified health and safety violations, orders and citations, related assessments and legal actions, and mining-related fatalities. During the quarter ended September 30, 2017, the Company had no citations for a violation of mandatory health or safety standards that could significantly and substantially (S&S citation) contribute to the cause and effect a mine safety or health hazard under section 104 of the Federal Mine Safety and Health Act of 1977. There were no legal actions, mining-related fatalities, or similar events in relation to the Company's United States operations requiring disclosure pursuant to Section 1503(a) of the Dodd-Frank Act.
