SHAREHOLDER LETTER

2

March 31, 2010

To our Shareholders:

During the 12 months ended March 31, 2010, the Clough Global Equity Fund's (the "Fund") total return, assuming reinvestment of all distributions, was 43.62% based on net asset value and 58.80% based on the market price of the stock. That compares with a 49.72% return for the S&P 500 for the same period. Since the Fund's inception on April 27, 2005, the total growth in net asset value assuming reinvestment of all distributions has been 32.36%, this compares to a cumulative total return of 12.17% for the S&P 500 through March 31, 2010. The Fund's compound annual return since inception is 5.86% compared to 2.36% of the S&P 500 through March 31, 2010. Total distributions since inception have been \$8.23 per share, and based on the current dividend rate of \$0.29 per share, offer a yield of 8.09% on market price as of March 31, 2010, of \$14.33.

In coming months we think the combination of a shortage of yield in the bond markets, a decline in stock market volatility and strong corporate cash flows will provide ongoing support for equities. We believe our strategy of identifying global profit cycles and having the patience to allow the financial markets time to recognize them should be quite effective in a low interest rate world.

We see three reasons for the yield shortage. First, household debt declined 1.7% in 2009. It was the first decline since 1945 according to a report in Barron's. Residential mortgages make up approximately 75% of consumer credit and represent a major source of yield. However, new mortgage supply is dependent upon the combination of new housing investment and inflation of the housing stock. Housing is still depreciating and loan to value ratios are declining so neither new construction nor inflation is likely to reemerge anytime soon. This suggests little new yield supply will emerge on the mortgage front.

Secondly, the contraction of the banking system is visibly underway. Bank loans fell 9% year on year in February according to the Federal Reserve, and such declines are rare in the postwar period. According to the Wall Street Journal, the total number of retail bank branches will actually decline this year. Banks are aggressively pruning their sprawling operations to get rid of locations deemed unattractive. Deposit rates are likely to remain at liquidation levels until the process is complete, a multi-year undertaking in our judgment.

Third, US business cash flow is strong. Again, according to the Wall Street Journal, non-financial businesses alone in the US have \$932 billion in cash. With so much of the corporate capital stock overbuilt, investment is likely to remain weak, businesses are likely to be managed for cash and debt is likely to be liquidated. In a nutshell so long as private debt is declining, the shortage of yield will only worsen and the forced migration of investment capital abroad will likely be sustained.

Moreover, the deleveraging going on in the economy is translating to the financial markets. The decline in financial market leverage and the lessening of speculative capital should bring about a decline in market volatility going forward. That seems equity bullish to us. Recent evidence of this is the continued decline in volatility in the face of the threats of sovereign collapse and recent dollar strength. People own a lot less stock than they used to and that alone reduces selling pressure.

That leaves the economy with two pillars of stranded capital: (1) the large stock of household savings trapped at the money rate; and (2) the pile of excess reserves at the Fed. The common

March 31, 2010

fear is that private lending will revive and bring about the inflation event the world believes is coming. We don't think that is likely for a simple reason. The base effect of today's huge private debt structure limits additional borrowing because the cost of servicing already existing debt restricts its further expansion. We think the real macro risk is the US recovery decelerates and deflationary pressures reignite. As we opined in earlier communications this is not necessarily bearish for equities, particularly where investment and capacity is reduced and productivity is upgraded, nor will it short circuit the emergence of new profit cycles in which we are investing.

It also suggests that capital will be available where good returns exist at very low cost. What is so encouraging in the face of this is the number of emerging profit cycles we see in the world.

We still believe the major investment story is emerging world consumption. Asian assets in particular will be the key beneficiary of low money rates in the developed economies. Predictions of a China credit bubble and a coming investment collapse remain a constant staple in the popular media and we still think these analyses are too simplistic. In China, for example, the bank credit to GDP (gross domestic product) ratio is the lowest of all the major economies. Office building is 3% of GDP and urbanization still creates a continuing housing shortage and the need to invest.

We have argued first of all that China's huge domestic savings rate, its foreign reserve holdings and the high down payments required to purchase real estate all argue against widespread credit defaults. Household debt in China is around 17% of GDP compared to almost 100% in the US. And our belief is that its high investment rate is still adding to the economy's productivity. A recent Morgan Stanley research report notes how low China's capital to labor ratio is when compared to other economies. For example fixed capital formation per capita in China is only 14%, 11%, 6% and 4% respectively of that in Taiwan, Korea, the US and Japan. Of those four economies, only in the US and Japan are capital stock additions largely offsetting depreciation of the current capital stock. To us that suggests that return on investment is still strong in China, and as its capital to labor ratio rises, so will productivity. Since there is so much stranded capital in the world's financial markets, the needed capital will likely be available to China at low cost. To look at China's capital formation or debt growth in the eyes of western standards is not a valid approach. For one, as China moves from an importer to an exporter of higher value capital goods, there is even more need for domestic capital investment. And as China's consumers gradually adopt more of a credit culture, personal income growth of 10-12% should easily turn into consumption growth in the mid-teens. To us the popular negativism about China simply increases the potential upside for stocks. Fortunately we are able to invest substantial research resources into trying to find the best investment opportunities not only in China but across the Asian consumer economies.

Bank credit is also growing rapidly in Brazil. In 2009 it grew 15%. Since credit and profit growth are highly correlated we think a strong profit uptrend is likely. Real interest rates are still high (almost 4%) and mortgage activity is beginning to emerge. If real interest rates decline, domestic demand should surge. Mortgage debt is 3% of GDP and has a long way to rise.

We have also maintained our energy investments. There is an enduring value to long lived oil reserves at a time most are in unstable political hands. We believe oil production from current fields will soon peak and global oil supplies will gradually tighten. These barrels can be replaced

March 31, 2010

but only at much higher costs and we have positioned the portfolio to potentially benefit from the spending necessary to develop them. Moreover cost inflation is beginning to emerge in the deep water drilling sector and consolidation is beginning in both the oil and oil service industries. Exxon Mobil's acquisition of XTO Resources and Schlumberger's recent bid for Smith International put all of this in the spotlight.

Other themes of note reflected in the Funds are focused on industries where restructuring has reduced capacity and enhanced productivity to the point we think even a modest increase in demand substantially increases profits. For example, if automobile demand simply recovers to the level of scrappage, profitability among the original equipment auto parts companies should rise sharply. In fact it already has even at lower production rates. It is one of the few industries where pricing power is emerging. Pricing power is even beginning to emerge among the tire manufacturers, whose profitability has been held back by raw materials cost increase. We see these cost increases reversing as replacement demand for tires and pricing recover in the months ahead. We think the same dynamics are present in the aerospace industry where a recovery in travel demand after a long period of equipment parts underproduction is bringing on profit recovery.

Finally, our case for a longer period of lower money market rates will support profit recovery across the financial sector and the funds are well represented there. Many life insurers still sell below book value because of lingering balance sheet issues, but the boom in corporate cash flows continues to allow quality spreads to collapse and we suspect many of those stocks will price closer to stated book in the months ahead.

We sincerely appreciate your interest in our Fund. If you have any questions about your investment, please call 1-877-256-8445.

Sincerely,

Charles I. Clough, Jr.

Clough Capital Partners, L.P. is a Boston-based investment management firm that has approximately \$3.0 billion under management. For equities, the firm uses a global and theme-based investment approach based on identifying chronic shortages and growth opportunities. For fixed-income, Clough believes changing economic fundamentals help reveal potential global credit market opportunities based primarily on flow of capital into or out of a country. Clough was founded in 2000 by Chuck Clough and partners James Canty and Eric Brock. These three are the portfolio managers for the Clough Global Equity Fund.

Forward-looking statements are based on information that is available on the date hereof, and neither the fund manager nor any other person affiliated with the fund manager has any duty to update any forward-looking statements. Important factors that could affect actual results to differ from these statements include, among other factors, material, negative changes to the asset class and the actual composition of the portfolio.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

6

March 31, 2010

To the Shareholders and Board of Trustees of Clough Global Equity Fund:

We have audited the accompanying statement of assets and liabilities of Clough Global Equity Fund (the Fund), including the statement of investments, as of March 31, 2010, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for the periods presented. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2010, by correspondence with the custodian and brokers. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Clough Global Equity Fund as of March 31, 2010, the results of its operations and cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for the periods presented, in conformity with accounting principles generally accepted in the United States of America.

Edgar Filing: Clough Global Equity Fund - Form N-CSR

- * *All securities are being held as collateral for borrowings (See note 6), written options and/or short sales as of March 31, 2010.*
- (a) *Non-Income Producing Security.*
- (b) *Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. As of March 31, 2010, these securities had a total value of \$12,206,204 or 4.20% of net assets.*
- (c) *Private Placement; these securities may only be resold in transactions exempt from registration under the Securities Act of 1933. As of March 31, 2010, these securities had a total value of \$265,000 or 0.09% of net assets.*
- (d) *Securities were purchased pursuant to Regulation S under the Securities Act of 1933, which exempts securities offered and sold outside of the United States from registration. Such securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. These securities have been deemed liquid under guidelines approved by the Fund's Board of Trustees. As of March 31, 2010, the aggregate market value of those securities was \$4,067,357, representing 1.40% of net assets.*
- (e) *Floating or variable rate security - rate disclosed as of March 31, 2010.*
- (f) *Less than 0.0005%*
- (g) *Discount at purchase.*
- (h) *Fair valued security; valued in accordance with procedures approved by the Fund's Board of Trustees. As of March 31, 2010, these securities had a total value of \$530,110 or 0.18% of net assets.*

For Fund compliance purposes, the Fund's industry classifications refer to any one of the industry sub-classifications used by one or more widely recognized market indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications for reporting ease. Industries are shown as a percent of net assets. These industry classifications are unaudited.

Average market value per share ⁽⁶⁾

N/A

* *Based on average shares outstanding.*

⁽¹⁾ *Total investment return is calculated assuming a purchase of a common share at the opening on the first day and a sale at closing on the last day of each period reported. Total investment return on net asset value excludes a sales load of \$0.90 per share for the period, effectively reducing the net asset value at issuance from \$20.00 to \$19.10. Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment returns do not reflect brokerage commissions on the purchase or sale of the Fund's common shares. Total investment returns for less than a full year are not annualized. Past performance is not a guarantee of future results.*

NOTES TO FINANCIAL STATEMENTS

1. SIGNIFICANT ACCOUNTING AND OPERATING POLICIES

Clough Global Equity Fund (the Fund) is a closed end management investment company that was organized under the laws of the state of Delaware by an Agreement and Declaration of Trust dated January 25, 2005. The Fund is a non diversified series with an investment objective to provide a high level of total return. The Declaration of Trust provides that the Trustees may authorize separate classes of shares of beneficial interest.

Security Valuation: The net asset value per share of the Fund is determined no less frequently than daily, on each day that the New York Stock Exchange (the Exchange) is open for trading, as of the close of regular trading on the Exchange (normally 4:00 p.m. New York time). Trading may take place in foreign issues held by the Fund at times when the Fund is not open for business. As a result, the Fund's net asset value may change at times when it is not possible to purchase or sell shares of the Fund. Securities held by the Fund for which exchange quotations are readily available are valued at the last sale price, or if no sale price or if traded on the over the counter market, at the mean of the bid and asked prices on such day. Debt securities for which the over the counter market is the primary market are normally valued on the basis of prices furnished by one or more pricing services at the mean between the latest available bid and asked prices. As authorized by the Trustees, debt securities (other than short term obligations) may be valued on the basis of valuations furnished by a pricing service which determines valuations based upon market transactions for normal, institutional size trading units of securities. Short term obligations maturing within 60 days are valued at amortized cost, which approximates value, unless the Trustees determine that under particular circumstances such method does not result in fair value. Over the counter options are valued at the mean between bid and asked prices provided by dealers. Financial futures contracts listed on commodity exchanges and exchange traded options are valued at closing settlement prices. Securities for which there is no such quotation or valuation and all other assets are valued at fair value in good faith by or at the direction of the Trustees.

Foreign Securities: The Fund may invest a portion of its assets in foreign securities. In the event that the Fund executes a foreign security transaction, the Fund will generally enter into a forward foreign currency contract to settle the foreign security transaction. Foreign securities may carry more risk than U.S. securities, such as political, market and currency risks.

The accounting records of the Fund are maintained in U.S. dollars. Prices of securities denominated in foreign currencies are translated into U.S. dollars at the closing rates of exchange at period end. Amounts related to the purchase and sale of foreign securities and investment income are translated at the rates of exchange prevailing on the respective dates of such transactions.

The effect of changes in foreign currency exchange rates on investments is included with the fluctuations arising from changes in market values of securities held and reported with all other foreign currency gains and losses in the Fund's Statement of Operations. A foreign currency contract is a commitment to purchase or sell a foreign currency at a future date, at a negotiated rate. The Fund may enter into foreign currency contracts to settle specific purchases or sales of securities denominated in a foreign currency and for protection from adverse exchange rate fluctuation. Risks to the Fund include the potential inability of the counterparty to meet the terms of the contract.

The net U.S. dollar value of foreign currency underlying all contractual commitments held by the Fund and the resulting unrealized appreciation or depreciation are determined using prevailing forward foreign currency exchange rates. Unrealized appreciation and depreciation on foreign currency contracts are reported in the Fund's Statement of Assets and Liabilities as a receivable or a payable and in the Fund's Statement of Operations with the change in unrealized appreciation or depreciation. There were no outstanding foreign currency contracts for the Fund as of March 31, 2010.

www.cloughglobal.com

Table of Contents

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

25

March 31, 2010

The Fund may realize a gain or loss upon the closing or settlement of the foreign transaction. Such realized gains and losses are reported with all other foreign currency gains and losses in the Statement of Operations.

Fair Valuation: If the price of a security is unavailable in accordance with the Fund's pricing procedures, or the price of a security is unreliable, e.g., due to the occurrence of a significant event, the security may be valued at its fair value determined pursuant to procedures adopted by the Board of Trustees. For this purpose, fair value is the price that the Fund reasonably expects to receive on a current sale of the security. Due to the number of variables affecting the price of a security, however; it is possible that the fair value of a security may not accurately reflect the price that the Fund could actually receive on a sale of the security. As of March 31, 2010, securities which have been fair valued represented 0.18% of the Fund's net assets.

A three-tier hierarchy has been established to classify fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability that are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability that are developed based on the best information available.

Various inputs are used in determining the value of the Fund's investments as of the reporting period end. These inputs are categorized in the following hierarchy under applicable financial accounting standards:

Level 1 - quoted prices in active markets for identical investments

Level 2 - Significant observable inputs (including quoted prices for similar investments, interest rates, prepayments speeds, credit risk, etc.)

Level 3 - Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The following is a summary of the inputs used as of March 31, 2010 in valuing the Fund's investments carried at value:

Investments in Securities at Value*	Level 1	Level 2	Level 3	Total
Common Stocks	\$ 350,639,459	\$ 530,110	\$	\$ 351,169,569
Exchange Traded Funds	10,336,530			10,336,530
Corporate Bonds		49,358,572		49,358,572
Asset/Mortgage Backed Securities		1,949,121		1,949,121
Government & Agency Obligations	10,097,067			10,097,067
Purchased Options	756,327			756,327
Short-Term Investments	37,618,020			37,618,020
TOTAL	\$ 409,447,403	\$ 51,837,803	\$	\$ 461,285,206
Other Financial Instruments*	Level 1	Level 2	Level 3	Total
Options Written	\$ (145,134)	\$	\$	\$ (145,134)
Securities Sold Short	(45,422,306)			(45,422,306)
TOTAL	\$ (45,567,440)	\$	\$	\$ (45,567,440)

* *For detailed Industry descriptions, see the accompanying Statement of Investments*

All securities of the Fund were valued using either Level 1 or Level 2 inputs during the period ended March 31, 2010. Thus, a reconciliation of assets in which significant unobservable inputs (Level 3) were used is not applicable for this Fund.

2010 Annual Report

Table of Contents

NOTES TO FINANCIAL STATEMENTS

26

March 31, 2010

Options: The Fund may purchase or write (sell) put and call options. One of the risks associated with purchasing an option among others, is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of premium and change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of call options is increased by premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current value of the option written. Premiums received from writing options that expire unexercised are treated by the Fund on the expiration date as realized gains from investments. The difference between the premium and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund, as writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option. Written and purchased options are non income producing securities.

Written option activity for the year ended March 31, 2010 was as follows:

	Written Call Options		Written Put Options	
	Contracts	Premiums	Contracts	Premiums
Outstanding, March 31, 2009		\$	1,820	\$ 5,105,687
Positions opened	1,522	741,677	11,086	15,493,456
Exercised				
Expired			(10,248)	(16,836,515)
Closed			(896)	(288,371)
Outstanding, March 31, 2010	1,522	\$ 741,677	1,762	\$ 3,474,257
Market Value, March 31, 2010		\$ 47,849		\$ 97,285

Short Sales: The Fund may sell a security it does not own in anticipation of a decline in the fair value of that security. When the Fund sells a security short, it must borrow the security sold short and deliver it to the broker dealer through which it made the short sale. A gain, limited to the price at which the Fund sold the security short, or a loss, unlimited in size, will be recognized upon the termination of the short sale.

Derivatives Instruments and Hedging Activities: The Fund may write or purchase option contracts to adjust risk and return of their overall investment positions. The following tables disclose the amounts related to the Fund's use of derivative instruments and hedging activities.

The effect of derivatives instruments on the Balance Sheet as of March 31, 2010:

Derivatives not accounted for as hedging instruments	Asset Derivatives		Fair Value
	Balance Sheet Location	Contracts	
Equity Contracts	Investments, at value	3,284	\$ 756,327
TOTAL			\$ 756,327

	Balance Sheet		Fair Value
	Location	Contracts	
Equity Contracts	Options written, at value	3,284	\$ 145,134
TOTAL			\$ 145,134

The number of options contracts held at March 31, 2010 is representative of options contracts activity during the year ended March 31, 2010.

The effect of derivatives instruments on the Statement of Operations for the year ended March 31, 2010:

Derivatives not accounted for as hedging instruments	Location of Gain/(Loss)		
	On Derivatives	Realized Gain/(Loss) On Derivatives	Change in Unrealized Gain/(Loss) On Derivatives
	Recognized in Income	Recognized in Income	Recognized in Income
Equity Contracts	Net realized gain/(loss) on Investment securities and Written options/Net change in unrealized appreciation/(depreciation) on investments, options, securities sold short and translation of assets and liabilities denominated in foreign currencies	\$ (17,111,900)	\$ (3,706,115)
TOTAL		\$ (17,111,900)	\$ (3,706,115)

Income Taxes: The Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

The Fund files income tax returns in the U.S. federal jurisdiction and Colorado. The statute of limitations on the Fund's federal and state tax filings remains open for the fiscal years ended March 31, 2010, March 31, 2009, March 31, 2008 and March 31, 2007.

Distributions to Shareholders: The Fund intends to make a level dividend distribution each quarter to Common Shareholders after payment of interest on any outstanding borrowings or dividends on any outstanding preferred shares. The level dividend rate may be modified by the Board of Trustees from time to time. Any net capital gains earned by the Fund are distributed at least annually to the extent necessary to avoid federal income and excise taxes. Distributions to shareholders are recorded by the Fund on the ex-dividend date. The Fund has received approval from the Securities and Exchange Commission (the Commission) for exemption from Section 19(b) of the Investment Company Act of 1940, as amended (the 1940 Act), and Rule 19b-1 thereunder permitting the Fund to make periodic distributions of long-term capital gains, provided that the distribution policy of the fund with respect to its Common Shares calls for periodic (e.g. quarterly/monthly) distributions in an amount equal to a fixed percentage of the Fund's average net asset value over a specified period of time or market price per common share at or about the time of distributions or pay-out of a level dollar amount. At this time, the Fund has not implemented a managed distribution plan as permitted under the exemption.

Table of Contents

NOTES TO FINANCIAL STATEMENTS

28

March 31, 2010

Securities Transactions and Investment Income: Investment security transactions are accounted for as of trade date. Dividend income is recorded on the ex dividend date. Certain dividend income from foreign securities will be recorded as soon as the Fund is informed of the dividend if such information is obtained subsequent to the ex dividend date and may be subject to withholding taxes in these jurisdictions. Interest income, which includes amortization of premium and accretion of discount, is accrued as earned. Realized gains and losses from securities transactions and unrealized appreciation and depreciation of securities are determined using the highest cost basis for both financial reporting and income tax purposes.

Use of Estimates: The Fund's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. This requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from these estimates.

Credit Risk: Credit risk is the risk that a fixed-income security's issuer will be unable or unwilling to meet its financial obligations (e.g., may not be able to make principal and/or interest payments when they are due or otherwise default on other financial terms) and/or may go bankrupt. The Fund may lose money if the issuer or guarantor of a fixed-income security is unable or unwilling to make timely principal and/or interest payments, or to otherwise honor its obligations.

Credit risk also relates to the risk that a counterparty will be unable or unwilling to meet commitments it has entered into with the Fund (sometimes described as counterparty risk). All securities transactions are cleared through and held in custody by the Fund's prime brokers, which results in concentration of counterparty risk. The Fund is subject to such risk to the extent that these institutions may be unable to fulfill their obligations either to return the Fund's securities or repay amounts owed. This risk, however, is mitigated by the prime broker's rules and regulations governing their business activities, including maintenance of net capital requirements and segregation of customers' funds and securities from holdings of the firm.

2. TAXES

Classification of Distributions: Net investment income (loss) and net realized gain (loss) may differ for financial statement and tax purposes. The character of distributions made during the year from net investment income or net realized gains may differ from its ultimate characterization for federal income tax purposes.

The tax character of the distributions paid by the Fund during the periods ended March 31, 2010 and March 31, 2009 were as follows:

	2010	2009
Distributions paid from:		
Ordinary Income	\$ 6,903,467	\$ 4,919,382
Long Term Capital Gain		8,626,558
Return of Capital	11,472,459	14,168,455
Total	\$ 18,375,926	\$ 27,714,395

www.cloughglobal.com

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

29

March 31, 2010

Components of Earnings: Tax components of distributable earnings are determined in accordance with income tax regulations which may differ from composition of net assets reported under accounting principles generally accepted in the United States. Accordingly, for the period ended March 31, 2010, certain differences were reclassified. The Fund decreased accumulated net investment loss by \$2,372,173, increased accumulated net realized loss by \$2,370,816 and decreased paid in capital by \$1,357. These differences were primarily due to the differing tax treatment of certain investments.

At March 31, 2010, the Fund had available for tax purposes unused capital loss carryovers of \$16,004,793 and 50,205,040, expiring March 31, 2017 and March 31, 2018, respectively.

As of March 31, 2010, the components of distributable earnings on a tax basis were as follows:

Undistributed net investment income	\$
Accumulated net realized loss	(70,456,579)
Unrealized appreciation	42,975,431
Other cumulative effect of timing differences	4,065,993
Total	\$ (23,415,155)

Net unrealized appreciation/depreciation of investments based on federal tax cost as of March 31, 2010, were as follows:

Gross appreciation (excess of value over tax cost)	\$ 67,670,479
Gross depreciation (excess of tax cost over value)	(21,022,155)
Net depreciation (excess of tax cost over value) of foreign currency and derivatives	(3,672,893)
Net unrealized appreciation	\$ 42,975,431
Cost of investments for income tax purposes	\$ 414,737,493

Post October Loss: Under current tax law, capital and currency losses realized after October 31 may be deferred and treated as occurring on the first day of the following fiscal year. For the fiscal year ended March 31, 2010 the Fund elected to defer capital losses occurring between November 1, 2009 and March 31, 2010 in the amount of \$4,246,746 and currency losses of \$151,472.

3. CAPITAL TRANSACTIONS

Common Shares: There are an unlimited number of no par value common shares of beneficial interest authorized.

Transactions in common shares were as follows:

For the Year Ended March 31, 2010	For the Year Ended March 31, 2009
--	--

Edgar Filing: Clough Global Equity Fund - Form N-CSR

Common shares outstanding	beginning of period	17,840,705	17,840,705
Common shares issued as reinvestment of dividends			
Common shares outstanding	end of period	17,840,705	17,840,705

Preferred Shares: In April 2008, the Fund announced its intent to redeem all outstanding shares of its Auction Market Preferred Shares (AMPS). Proper notice was sent to AMPS holders on or before May 5, 2008, and all outstanding AMPS issued by the Fund were redeemed at par, in their entirety, pursuant to their terms.

2010 Annual Report

Table of Contents

NOTES TO FINANCIAL STATEMENTS

30

March 31, 2010

The Fund obtained alternative financing to provide new funding in order to redeem the AMPS and provide up to 33% leverage to the Fund going forward. The Fund's Board of Trustees approved the refinancing in April 2008. See Note 6 Leverage, for further information on the borrowing facility used by the Fund during the year ended, and as of, March 31, 2010.

4. PORTFOLIO SECURITIES

Purchases and sales of investment securities, other than short-term securities, for the year ended March 31, 2010 aggregated \$464,309,898 and \$450,087,720, respectively. Purchases and sales of U.S. government and agency securities, other than short-term securities, for the year ended March 31, 2010 aggregated \$15,339,502 and \$23,298,143, respectively.

5. INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENTS

Clough Capital Partners L.P. (Clough) serves as the Fund's investment adviser pursuant to an Investment Advisory Agreement (Advisory Agreement) with the Fund. As compensation for its services to the Fund, Clough receives an annual investment advisory fee of 0.90% based on the Fund's average daily total assets, computed daily and payable monthly. ALPS Fund Services, Inc. (ALPS) serves as the Fund's administrator pursuant to an Administration, Bookkeeping and Pricing Services Agreement with the Fund. As compensation for its services to the Fund, ALPS receives an annual administration fee of 0.32% based on the Fund's average daily total assets, computed daily and payable monthly. ALPS will pay all expenses incurred by the Fund, with the exception of advisory fees, trustees' fees, portfolio transaction expenses, litigation expenses, taxes, cost of preferred shares, expenses of conducting repurchase offers for the purpose of repurchasing fund shares, and extraordinary expenses.

Both Clough and ALPS are considered to be affiliates of the Fund as defined in the 1940 Act.

6. LEVERAGE

In January 2009, the Fund entered into a Committed Facility Agreement (the Agreement) with BNP Paribas Prime Brokerage, Inc. (BNP) that allows the Fund to borrow up to an initial limit of \$98,200,000 (the Initial Limit). During the year ended March 31, 2010, Fund and BNP amended the Agreement to increase the borrowing limit on several occasions, subject to the applicable asset coverage requirements of Section 18 of the 1940 Act. In April, June and September of 2009 the Fund borrowed additional amounts of \$16,000,000, \$20,200,000, and \$12,600,000, respectively. Borrowings under the Agreement are secured by assets of the Fund. Interest is charged at the three month LIBOR (London Inter bank Offered Rate) plus 1.10% on the amount borrowed and 1.00% on the undrawn balance. The Fund also pays a one time Arrangement fee of 0.25% on (i) the Initial Limit, and (ii) any increased borrowing amount in excess of the Initial Limit, paid in monthly installments for the six months immediately following the date on which borrowings were drawn by the Fund. The Arrangement fee paid for the year ended March 31, 2010 totaled \$244,750 and is included in Other expenses in the Statement of Operations. For the year ended March 31, 2010, the average amount borrowed under the agreement and the average interest rate for the amount borrowed were \$136,987,397 and 1.55% respectively. As of March 31, 2010, the amount of such outstanding borrowings is \$147,000,000. The interest rate applicable to the borrowings on March 31, 2010 was 1.39%.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

31

March 31, 2010

In addition, BNP has the ability to reregister the collateral in its own name or in another name other than the Fund to pledge, re-pledge, sell, lend or otherwise transfer or use the collateral (Hypothecated Securities) with all attendant rights of ownership. The Fund can recall any Hypothecated Securities upon demand and without condition and BNP is obligated to, return such security or equivalent security to the Fund the lesser of five days or the standard market settlement time in the principal market in which the Hypothecated Securities are traded after such request. If the Fund recalls a Hypothecated Security in connection with a sales transaction and BNP fails to return the Hypothecated Securities or equivalent securities in a timely fashion, BNP shall remain liable to the Fund's custodian for the ultimate delivery of such Hypothecated Securities or equivalent securities to the executing broker for the sales transaction and for any buy-in costs that the executing broker may impose with respect to the failure to deliver. If Hypothecated Securities are not returned by BNP to the Fund by the deadline to exercise a corporate action (conversion, sub-division, consolidation, etc.) with respect to such Hypothecated Securities, the Fund can request, and BNP shall, to the extent commercially reasonable under the circumstances, return equivalent securities in such form that will arise if the right had been exercised. The Fund shall also have the right to apply and set off an amount equal to one hundred percent (100%) of the then-current fair market value of such Hypothecated Securities against any amounts owed to BNP under the Agreement. The Fund may, with 30 days notice, reduce the Maximum Commitment Financing (Initial Limit amount plus the increased borrowing amount in excess of the Initial Limit) to a lesser amount if drawing on the full amount would result in a violation of the applicable asset coverage requirement of Section 18 of the 1940 Act. As of March 31, 2010, the value of securities on loan was \$33,033,465.

The Board of Trustees has approved the Agreement. No violations of the Agreement have occurred during the fiscal year ended March 31, 2010.

The Fund receives income from BNP based on the value of the hypothecated securities. This income is recorded as Hypothecated Securities Income in the Statement of Operations. The interest incurred on borrowed amounts is recorded as Interest on Loan in the Statement of Operations, a part of Total Expenses. Total Expenses are used to calculate some of the ratios shown in the Financial Highlights. This differs from the way the dividends paid on the AMPS were recorded in prior years as those amounts were excluded from Total Expenses on the Statement of Operations. This change in presentation, based on accounting principles generally accepted in the U.S., can cause the ratio of expenses to average net assets (as shown in the Financial Highlights) to increase compared to prior fiscal years. This is a reflection of how the information is presented on the financial statements, rather than a true increase in the cost of leverage (financing vs. the AMPS now redeemed).

7. OTHER

The Independent Trustees of the Fund receive a quarterly retainer of \$3,500 and an additional \$1,500 for each board meeting attended. The Chairman of the Board of Trustees receives a quarterly retainer of \$4,200 and an additional \$1,800 for each board meeting attended. The Chairman of the Audit Committee receives a quarterly retainer of \$3,850 and an additional \$1,650 for each board meeting attended.

8. SUBSEQUENT EVENTS

Management has evaluated whether any events or transactions occurred subsequent to March 31, 2010 through the date of issuance of the Fund's financial statements, and determined that there were no other material events or transactions that would require recognition or disclosure in the Fund's financial statements.

2010 Annual Report

DIVIDEND REINVESTMENT PLAN

32

March 31, 2010 (Unaudited)

Unless the registered owner of Common Shares elects to receive cash by contacting The Bank of New York Mellon (the Plan Administrator or BNY Mellon), all dividends declared on Common Shares will be automatically reinvested by the Plan Administrator for shareholders in the Fund's Dividend Reinvestment Plan (the Plan), in additional Common Shares. Shareholders who elect not to participate in the Plan will receive all dividends and other distributions in cash paid by check mailed directly to the shareholder of record (or, if the Common Shares are held in street or other nominee name, then to such nominee) by BNY Mellon as dividend disbursing agent. You may elect not to participate in the Plan and to receive all dividends in cash by contacting BNY Mellon, as dividend disbursing agent, at the address set forth below. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may reinvest that cash in additional Common Shares for you. If you wish for all dividends declared on your Common Shares to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each Common Shareholder under the Plan in the same name in which such Common Shareholder's Common Shares are registered. Whenever the Fund declares a dividend or other distribution (together, a Dividend) payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Shares. The Common Shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Shares from the Fund (Newly Issued Common Shares) or (ii) by purchase of outstanding Common Shares on the open market (Open Market Purchases) on the American Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commissions per Common Share is equal to or greater than the net asset value per Common Share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per Common Share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Share on the payment date. If, on the payment date for any Dividend, the net asset value per Common Share is greater than the closing market value plus estimated brokerage commissions, the Plan Administrator will invest the Dividend amount in Common Shares acquired on behalf of the participants in Open Market Purchases. In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the Common Shares trade on an ex-dividend basis or 30 days after the payment date for such Dividend, whichever is sooner (the Last Purchase Date), to invest the Dividend amount in Common Shares acquired in Open Market Purchases. If, before the Plan Administrator has completed its Open Market Purchases, the market price per Common Share exceeds the net asset value per Common Share, the average per Common Share purchase price paid by the Plan Administrator may exceed the net asset value of the Common Shares, resulting in the acquisition of fewer Common Shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment.

www.cloughglobal.com

Table of Contents

DIVIDEND REINVESTMENT PLAN (CONTINUED)

33

March 31, 2010 (Unaudited)

date. Because of the foregoing difficulty with respect to Open Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at the net asset value per Common Share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per Common Share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common Shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of Common Shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Plan.

There will be no brokerage charges with respect to Common Shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. Participants that request a sale of Common Shares through the Plan Administrator are subject to brokerage commissions.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, The Bank of New York Mellon, 101 Barclay Street, New York, New York 10286, 11E, Transfer Agent Services, 800 433 8191.

FUND PROXY VOTING POLICIES & PROCEDURES

March 31, 2010 (Unaudited)

Fund Policies and procedures used in determining how to vote proxies relating to portfolio securities are available on the Fund's website at <http://www.cloughglobal.com>. Information regarding how the Fund voted proxies relating to portfolio securities held by the Fund for the period ended June 30, 2009, are available without charge, upon request, by contacting the Fund at 1-877-256-8445 and on the Commission's website at <http://www.sec.gov>.

PORTFOLIO HOLDING

March 31, 2010 (Unaudited)

The Fund files its complete schedule of portfolio holdings with the Commission for the first and third quarters of each fiscal year on Form N-Q within 60 days after the end of the period. Copies of the Fund's Form N-Q are available without a charge, upon request, by contacting the Fund at 1-877-256-8445 and on the Commission's website at <http://www.sec.gov>. You may also review and copy Form N-Q at the Commission's Public Reference Room in Washington, D.C. For more information about the operation of the Public Reference Room, please call the Commission at 1-800-SEC-0330.

NOTICE

March 31, 2010 (Unaudited)

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may purchase at market prices from time to time shares of its common stock in the open market.

TAX DESIGNATIONS

March 31, 2010 (Unaudited)

The Fund hereby designates the following as a percentage of taxable ordinary income distributions, or up to the maximum amount allowable, for the fiscal year ended March 31, 2010:

Corporate Dividends Received Deduction	42.14%
Qualified Dividend Income	48.03%

Item 2. Code of Ethics.

- (a) The registrant, as of the end of the period covered by the report, has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller or any persons performing similar functions on behalf of the registrant.
- (b) Not Applicable.
- (c) During the period covered, by this report, no amendments were made to the provisions of the code of ethics adopted in 2 (a) above.
- (d) During the period covered by this report, no implicit or explicit waivers to the provision of the code of ethics adopted in 2 (a) above were granted.
- (e) Not Applicable.
- (f) The registrant's Code of Ethics is attached as an Exhibit 12.A.1 hereto.

Item 3. Audit Committee Financial Expert.

The registrant's Board of Trustees has determined that the registrant has as least one audit committee financial expert serving on its audit committee. The Board of Trustees has designated Richard C. Rantzow as the registrant's audit committee financial expert. Mr. Rantzow is independent as defined in paragraph (a)(2) of Item 3 to Form N-CSR.

Item 4. Principal Accounting Fees and Services.

- (a) Audit Fees: The aggregate fees billed for each of the last two fiscal years for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for fiscal years 2010 and 2009 were \$28,333 and \$28,333, respectively.
- (b) Audit-Related Fees: The aggregate fees billed in each of the last two fiscal years for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of this Item were \$0 in 2010 and \$0 in 2009.

Table of Contents

- (c) Tax Fees: The aggregate fees billed in each of the last two fiscal years for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning were \$2,760 in 2010 and \$4,165 in 2009.
- (d) All Other Fees: The aggregate fees billed in each of the last two fiscal years for products and services provided by the principal accountant, other than the services reported in paragraphs (a) through (c) of this Item were \$0 in 2010 and \$0 in 2009. These services include agreed upon procedures related to the ratings for the Auction Market Preferred Shares.
- (e)(1) Audit Committee Pre-Approval Policies and Procedures: All services to be performed by the Registrant's principal auditors must be pre-approved by the registrant's audit committee.
- (e)(2) No services described in paragraphs (b) through (d) were approved pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.
- (f) Not applicable.
- (g) The aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, and rendered to the registrant's investment adviser, and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for each of the last two fiscal years of the registrant were \$0 for 2010 and \$0 for 2009.
- (h) Not applicable.

Item 5. Audit Committee of Listed Registrant.

The registrant has a separately designated standing audit committee established in accordance with Section 3 (a)(58)(A) of the Exchange Act and is comprised of the following members:

Andrew C. Boynton

Robert L. Butler

Adam D. Crescenzi

John F. Mee

Richard C. Rantzow, Committee Chairman

Jerry G. Rutledge

Item 6. Schedule of Investments.

Schedule of Investments is included as part of the Report to Stockholders filed under Item 1 of this form.

Table of Contents

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

Attached, as Exhibit Item 7, is a copy of the registrant's policies and procedures.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a)(1) As of: March 31, 2010

Portfolio Managers Name	Title	Length of Service	Business Experience: 5 Years
Charles I. Clough, Jr.	Partner and Portfolio Manager	Since Inception	Founding Partner Clough Capital Partners LP. Portfolio Manager for pooled investment accounts, separately managed accounts, and investment companies for over ten years.
Eric A. Brock	Partner and Portfolio Manager	Since Inception	Founding Partner Clough Capital Partners LP. Portfolio Manager for pooled investment accounts, separately managed accounts, and investment companies for over ten years.
James E. Canty	Partner and Portfolio Manager	Since Inception	Founding Partner of Clough Capital LP. Portfolio Manager, Chief Financial Officer and General Counsel for pooled investment accounts, separately managed accounts, and investment companies for over ten years. Mr. Canty is currently a member of the Board of Directors of Clough Offshore Fund, Ltd and Board of Trustees of Clough Global Equity Fund and Clough Global Opportunities Fund. Because of his affiliation with Clough, Mr. Canty is an interested Trustee of the Fund.

Table of Contents

(a)(2) As of March 31, 2010, the Portfolio Managers listed above are also responsible for the day-to-day management of the following:

Portfolio Managers Name	Registered Investment Companies	Other Pooled Investment Vehicles ⁽¹⁾	Other Accounts⁽²⁾	Material Conflicts If Any ⁽³⁾
Charles I Clough, Jr.	4 Accounts	4 Accounts	3 Accounts	See below ⁽³⁾
	\$ <u>2,115.2</u> million	\$ <u>700.4</u> million	\$ <u>221.3</u> million	
	Total Assets	Total Assets	Total Assets	
Eric A. Brock	4 Accounts	4 Accounts	3 Accounts	See below ⁽³⁾
	\$ <u>2,115.2</u> million	\$ <u>700.4</u> million	\$ <u>221.3</u> million	
	Total Assets	Total Assets	Total Assets	
James E. Canty	4 Accounts	4 Accounts	3 Accounts	See below ⁽³⁾
	\$ <u>2,115.2</u> million	\$ <u>700.4</u> million	\$ <u>221.3</u> million	
	Total Assets	Total Assets	Total Assets	

⁽¹⁾ The advisory fees are based in part on the performance for each account.

⁽²⁾ The advisory fee is based in part on the performance for two accounts totaling \$215.8 million in assets.

⁽³⁾ Material Conflicts:

Material conflicts of interest may arise as a result of the fact that the Portfolio Managers also have day-to-day management responsibilities with respect to both the Fund and the various accounts listed above (collectively with the Fund, the Accounts). These potential conflicts include:

Limited Resources. The Portfolio Managers cannot devote their full time and attention to the management of each of the Accounts. Accordingly, the Portfolio Managers may be limited in their ability to identify investment opportunities for each of the Accounts that are as attractive as might be the case if the Portfolio Managers were to devote substantially more attention to the management of a single Account. The effects of this potential conflict may be more pronounced where the Accounts have different investment strategies.

Limited Investment Opportunities. If the Portfolio Managers identify a limited investment opportunity that may be appropriate for more than one Account, the investment opportunity may be allocated among several Accounts. This could limit any single Account's ability to take full advantage of an investment opportunity that might not be limited if the Portfolio Managers did not provide investment advice to other Accounts.

Different Investment Strategies. The Accounts managed by the Portfolio Managers have differing investment strategies. If the Portfolio Managers determine that an investment opportunity may be appropriate for only some of the Accounts or decide that certain of the Accounts should take different positions with respect to a particular security, the Portfolio Managers may effect transactions for one or more Accounts which may affect the market price of the security or the execution of the transaction, or both, to the detriment or benefit of one or more other Accounts.

Table of Contents

Variation in Compensation. A conflict of interest may arise where Clough or Clough Associates, LLC, as applicable, is compensated differently by the Accounts that are managed by the Portfolio Managers. If certain Accounts pay higher management fees or performance-based incentive fees, the Portfolio Managers might be motivated to prefer certain Accounts over others. The Portfolio Managers might also be motivated to favor Accounts in which they have a greater ownership interest or Accounts that are more likely to enhance the Portfolio Managers' performance record or to otherwise benefit the Portfolio Managers.

Selection of Brokers. The Portfolio Managers select the brokers that execute securities transactions for the Accounts that they supervise. In addition to executing trades, some brokers provide the Portfolio Managers with research and other services which may require the payment of higher brokerage fees than might otherwise be available. The Portfolio Managers' decision as to the selection of brokers could yield disproportionate costs and benefits among the Accounts that they manage, since the research and other services provided by brokers may be more beneficial to some Accounts than to others.

(a)(3) Portfolio Manager Compensation as of March 31, 2010.

The Portfolio Managers each receive a fixed base salary from Clough. The base salary for each Portfolio Manager is typically determined based on market factors and the skill and experience of each Portfolio Manager. Additionally, Clough distributes its annual net profits to the three Portfolio Managers, with Mr. Clough receiving a majority share and the remainder being divided evenly between Mr. Brock and Mr. Canty.

(a)(4) Dollar Range of Securities Owned as of March 31, 2010.

Portfolio Managers	Dollar Range of the Registrant's Securities Owned by the Portfolio Managers	
Charles I. Clough, Jr.	Over \$1,000,000	
Eric A. Brock	\$50,001	\$100,000
James E. Canty	\$50,001	\$100,000

Item 9. Purchases of Equity Securities by Closed-End Management Investment Companies and Affiliated Purchasers.

None

Item 10. Submission of Matters to Vote of Security Holders.

Table of Contents

There have been no material changes by which shareholders may recommend nominees to the Board of Trustees.

Item 11. Controls and Procedures.

- (a) The registrant's principal executive officer and principal financial officer have concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) are effective based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.

- (b) There was no change in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940, as amended) during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12. Exhibits.

- (a)(1) The Code of Ethics that applies to the registrant's principal executive officer and principal financial officer is attached hereto as Exhibit 12.A.1.

Table of Contents

(a)(2) The certifications required by Rule 30a-2(a) of the Investment Company Act of 1940, as amended, and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto as Ex-99.Cert.

(a)(3) Not applicable.

(b) A certification for the Registrant's Principal Executive Officer and Principal Financial Officer, as required by Rule 30a-2(b) of the Investment Company Act of 1940, as amended, and Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto as Ex-99.906Cert.

(c) The Proxy Voting Policies and Procedures is attached hereto as Ex99. Item 7.
