PROXY STATEMENT

For 2011 Annual Meeting of Stockholders

BACKGROUND

This Proxy Statement and the accompanying form of proxy are being furnished in connection with the solicitation by the Board of Directors of Universal Stainless & Alloy Products, Inc., a Delaware corporation ("Universal Stainless" or the "Company"), of proxies to be voted at this Annual Meeting of Stockholders. This Proxy Statement and form of proxy are first being sent or given to the stockholders on or about April 29, 2011. The cost of solicitation of proxies will be borne by Universal Stainless, including expenses incurred in connection with the preparation and mailing of the Proxy Statement. The solicitation will be by mail and may also be made personally and by telephone by directors, officers and employees of Universal Stainless, without any compensation, other than their regular compensation as directors, officers or employees. Arrangements will be made with brokerage houses, banks and other custodians, nominees and fiduciaries for the forwarding of solicitation material to the beneficial owners of the Company's common stock, and Universal Stainless will reimburse them for reasonable out-of-pocket expenses incurred by them in connection therewith.

VOTING PROCEDURES

Who May Vote

Universal Stainless common stockholders of record at the close of business on April 5, 2011 are entitled to vote at the Annual Meeting. Stockholders have one vote per share on each matter being voted on.

Voting Methods

Stockholders of record may complete, sign, date and return their proxy cards in the postage-paid envelope provided. If you sign, date and return your proxy card but do not mark any voting selections, your shares represented by your proxy card will be voted as recommended by the Board of Directors.

If you hold your shares in a broker, bank or other nominee account, you are a beneficial owner of Universal Stainless common stock. In order to vote your shares, you must give voting instructions to the nominee holder of your shares. Universal Stainless asks the nominee holders to obtain voting instructions from the beneficial owners of shares. Proxies that are transmitted by nominee holders on behalf of beneficial owners will be voted as instructed by the nominee holder.

Finally, you may vote in person if you attend the Annual Meeting. You may obtain directions to attend the Annual Meeting and vote in person by contacting Paul A. McGrath, Secretary, at (412) 257-7600.

We urge you to return the proxy card promptly.

Revoking Your Proxy

- notifying the Secretary of Universal Stainless in writing that you have revoked your proxy;
- sending a revised proxy dated later than the earlier proxy; or
- voting in person at the Annual Meeting.

Table of Contents

Quorum and Voting Information

A quorum is required to conduct business at the Annual Meeting. As of the record date, 6,821,464 shares of Universal Stainless common stock were issued and outstanding. A majority of the outstanding shares, present in person or represented by proxy, constitutes a quorum. If you submit a properly executed proxy card, even if you abstain from voting or withhold votes from director nominees, you will be considered part of the quorum. Broker non-votes also count as shares present for purposes of determining whether a quorum is present.

Abstentions are counted in tabulations of the votes cast by stockholders on each proposal (other than with regard to the election of directors) and will have the effect of a negative vote. Brokers who hold shares in street name for customers have the authority to vote only on certain routine matters in the absence of instruction from the beneficial owners. A broker non-vote occurs when the broker does not have the authority to vote on a particular proposal in its discretion in the absence of voting instructions. The ratification of the appointment of Schneider Downs & Co. as the Company's independent registered public accountants is considered a routine matter with respect to which brokers will have the authority to vote in the absence of voting instructions. Brokers will not have the authority in the absence of voting instructions to vote in the election of directors or with respect to the approval of the advisory, non-binding resolution to approve the compensation for the Company's named executive officers or the advisory, non-binding resolution to recommend the frequency of stockholder votes to approve the compensation for the Company's named executive officers. Under applicable Delaware law, broker non-votes will not be counted for purposes of determining whether any proposal has been approved and are not expected to have any effect on the outcome of any proposal to be considered at the Annual Meeting.

The affirmative vote of a plurality of the shares of common stock represented in person or by proxy at the Annual Meeting and entitled to vote thereon is required for the election of directors. With regard to the election of directors, votes may be cast in favor of nominees or withheld.

Each of (i) the approval of the advisory, non-binding resolution to approve the compensation for the Company's named executive officers, (ii) the approval of the advisory, non-binding resolution to recommend the frequency of stockholder votes to approve the compensation for the Company's named executive officers and (iii) the ratification of the appointment of Schneider Downs & Co., Inc. as the Company's independent registered public accounts for 2011 require the affirmative vote of a majority of the shares of common stock present and entitled to vote thereon at the meeting. An abstention will have the effect of a negative vote with respect to these proposals.

Confidential Voting Policy

Universal Stainless maintains a policy of keeping stockholder votes confidential. Overall voting results for the matters considered at the Annual Meeting will be disclosed publicly in accordance with applicable rules and regulations of the Securities and Exchange Commission.

PROPOSALS YOU MAY VOTE ON

1. Election of Directors

There are five nominees for election this year. Detailed information on each nominee is provided under the heading "Nominees for Election as Directors." All directors are elected annually and serve a one-year term, until the next Annual Meeting or until their successors are duly elected and qualified. If any candidate is unable to stand for election at this Annual Meeting, the Board may reduce its size or designate a substitute. If a substitute is designated, shares represented by validly submitted and unrevoked proxies that would have been voted for the original candidate will be voted for the substituted candidate.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR EACH OF THE NOMINEE DIRECTORS.

2. *Approve the Compensation for the Named Executive Officers in an Advisory, Non-Binding Vote*

The recently enacted Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "Dodd-Frank Act") enables our stockholders to vote to approve, on an advisory (non-binding) basis, the compensation of our named executive officers as disclosed in this proxy statement pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the compensation discussion and analysis, the compensation tables and any related material.

As described in detail under the heading "Compensation Discussion and Analysis," our executive compensation programs are designed to provide compensation levels to attract and retain exceptional managerial talent for the present and future and to offer incentive-based programs (i) in order to challenge managers to support the corporate business goals from within their area of authority and (ii) in the interests of Company stockholders. Please read the "Compensation Discussion and Analysis" for additional details about our executive compensation programs, including information about the fiscal year 2010 compensation of our named executive officers.

Highlights of our executive compensation programs include the following:

- the Compensation Committee's intention is for a substantial portion of the named executive officers' compensation to be at risk;
- the balance between annual and longer term compensation achieves consistency in goal setting that considers both short term results and building a platform for future profitable growth;
- incentive compensation is based on measurable and objective financial and business metrics;
- award opportunities under the incentive programs are contingent on meeting performance targets that, in the view of the Compensation Committee, are significant challenges to management; and
- the Company has stock ownership guidelines for its officers, including all of the named executive officers, which call for a minimum level of stock ownership, which is designed to further link their interests to increased stockholder value.

The Compensation Committee continually reviews the compensation programs for our named executive officers to ensure that they achieve the desired goal of offering total compensation consisting of base salary and incentive opportunities that are performance-oriented and linked to the interests of stockholders. We are asking our stockholders to indicate their support for our named executive officer compensation as described in this proxy statement. This proposal, commonly known as a "say-on-pay" proposal, gives our stockholders the opportunity to express their views on our named executive officers' compensation. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the philosophy, policies and practices described in this proxy statement. Accordingly, we will ask our stockholders to vote "FOR" the following resolution at the Annual Meeting:

RESOLVED, that the Company's stockholders approve, on an advisory basis, the compensation of the named executive officers, as disclosed in the Company's Proxy Statement for the 2011 Annual Meeting of Stockholders, pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the compensation discussion and analysis, the compensation tables and any related material disclosed in that proxy statement.

The "say-on-pay" vote is advisory, and therefore not binding on the Company, the Compensation Committee or our Board of Directors. Our Board of Directors and our Compensation Committee value the opinions of our stockholders and to the extent there is any significant vote against the named executive officer compensation as disclosed in this proxy statement, we will consider our stockholders' concerns and the Compensation Committee will evaluate whether any actions are necessary to address those concerns.

Table of Contents

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE APPROVAL, ON AN ADVISORY, NON-BINDING BASIS, OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS, AS DISCLOSED IN THIS PROXY STATEMENT PURSUANT TO THE COMPENSATION DISCLOSURE RULES OF THE SECURITIES AND EXCHANGE COMMISSION, INCLUDING THE COMPENSATION DISCUSSION AND ANALYSIS, THE COMPENSATION TABLES AND ANY RELATED MATERIAL DISCLOSED IN THIS PROXY STATEMENT.

3. Recommend the Frequency of Stockholder Votes to Approve the Compensation of the Company's Named Executive Officers.

The Dodd-Frank Act also enables our stockholders to indicate how frequently we should seek an advisory vote on the compensation of our named executive officers, as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the compensation discussion and analysis, the compensation tables and any related material disclosed in the applicable proxy statement. By voting on this Item 3, stockholders may indicate whether they would prefer an advisory vote on named executive officer compensation once every year, every two years, or every three years.

After careful consideration of this proposal, our Board of Directors has determined that an advisory vote on executive compensation that occurs every year is the most appropriate alternative for the Company at this time, and therefore our Board of Directors recommends that you vote for a one-year interval for the advisory votes on executive compensation.

In formulating its recommendation, our Board of Directors considered that while our executive compensation policies are designed to promote a long-term connection between pay and performance, executive compensation disclosures are made annually, and an annual advisory vote on executive compensation will allow our stockholders to provide us with their direct input on our compensation philosophy, policies and practices as disclosed in the proxy statement every year. We understand that our stockholders may have different views as to what is the best approach for the Company, and we look forward to hearing from our stockholders on this proposal.

You may cast your vote on your preferred voting frequency by choosing the option of one year, two years, three years or abstaining from voting. In the event that none of the options of every one year, every two years or every three years for the frequency of the vote to approve the compensation of our named executive officers receives the required vote for approval, the frequency that receives the highest number of votes will be considered by the Board to be the stockholders' preference, as expressed on an advisory basis. Stockholders are not voting to approve or disapprove the Board's recommendation. Because this vote is advisory and not binding on the Board of Directors or the Company, the Board may decide that it is in the best interests of our stockholders and the Company to hold an advisory vote on executive compensation more or less frequently than the option preferred by our stockholders and may vary its practice based on factors such as discussions with stockholders and the adoption of material changes to our compensation programs.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE OPTION OF ONCE EVERY ONE YEAR AS THE FREQUENCY WITH WHICH STOCKHOLDERS ARE PROVIDED AN ADVISORY VOTE ON EXECUTIVE COMPENSATION, AS DISCLOSED PURSUANT TO THE COMPENSATION DISCLOSURE RULES OF THE SECURITIES AND EXCHANGE COMMISSION, INCLUDING THE COMPENSATION DISCUSSION AND ANALYSIS, THE COMPENSATION TABLES AND ANY RELATED MATERIAL DISCLOSED IN THE APPLICABLE PROXY STATEMENT.

4. Ratification of the Appointment of Schneider Downs & Co., Inc. as the Company's Independent Registered Public Accountants for 2011.

The Audit Committee has appointed Schneider Downs & Co., Inc. (SD) as our independent registered public accountants for 2011. The Board has directed that the appointment of the independent registered public accountants be submitted for ratification by the stockholders at the Annual Meeting. SD has served as our independent registered public accountants since 2003.

Stockholder ratification of the selection of SD as Universal Stainless' independent registered public accountants is not required by Universal Stainless' By-laws or otherwise. However, the Board of Directors is submitting the appointment of SD to the stockholders for ratification as a matter of what it considers to be best practices in corporate governance. If the stockholders fail to ratify the appointment, the Audit Committee will retain discretion as to whether or not to retain SD. Even if the appointment is ratified, the Audit Committee, in its discretion, may direct the appointment of a different independent registered public accounting firm at any time during the year if the Audit Committee determines that such a change would be in the best interest of Universal Stainless and its stockholders.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE RATIFICATION OF THE APPOINTMENT OF SCHNEIDER DOWNS & CO., INC. AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS FOR 2011.

Table of Contents

THE BOARD OF DIRECTORS

The Board of Directors of Universal Stainless held six meetings during 2010. During 2010, the Audit Committee held five meetings; the Compensation Committee held four meetings and the Nominating and Governance Committee held three meetings. Each director attended at least 75% of the meetings of the Board of Directors and each Committee of which he was a member. The Company expects that its directors will attend annual stockholders meetings, and all directors attended our annual meeting of stockholders last year.

The Board of Directors affirmatively has determined that Messrs. Ayers, Dunn and Toledano have no relationship with the Company other than as disclosed in this Proxy Statement and are independent under applicable Nasdaq rules. Mr. Kornblatt is Executive Vice President, Chief Financial Officer and Treasurer of Triumph Group, Inc. which has made purchases from the Company in prior years, although no purchases were made in 2009 or 2010. At this time it is not known if any purchases will be made in 2011. The Board of Directors determined that Mr. Kornblatt's relationship is immaterial because of the relatively small amount of purchases involved historically, as well as the fact that Mr. Kornblatt will not receive any direct benefits from Triumph's ordinary course business transactions with the Company, all of which are expected to be negotiated at arm's-length with Triumph and involve prevailing market prices. As a result, the Board of Directors concluded that this relationship would not impair Mr. Kornblatt's independence and that he also is independent under applicable Nasdaq rules.

As part of regular meetings, the Board of Directors oversees the executive officers' management of risks relevant to the Company. While the full Board of Directors has overall responsibility for risk oversight, the Board of Directors has delegated responsibility related to certain risks to the Audit Committee and the Compensation Committee. The Audit Committee is responsible for overseeing management of risks related to the Company's financial statements and financial reporting process, the qualifications, independence and performance of the Company's independent accountants and the performance of the Company's internal audit function. The Compensation Committee is responsible for overseeing management of risks related to compensation of the Company's executive officers and the Company's equity-based and certain other compensation plans. The full Board of Directors regularly reviews reports from management on various aspects of the Company's business, including related risks, tactics and strategies for addressing them.

Board Leadership Structure

The Board of Directors believes that Mr. Oates's combined role of Chairman and Chief Executive Officer is in the best interests of the Company and its stockholders and that Mr. Oates is the individual best situated to serve as Chairman because of his detailed and in-depth knowledge of the issues, opportunities and challenges facing the Company, his familiarity with the Company's business and industry and his ability to identify strategic priorities essential to the future success of the Company. The Board believes that this structure provides for clear leadership responsibility and accountability, while still providing for effective corporate governance and oversight by a Board of Directors with an independent Lead Director.

Mr. Toledano serves as the Board's Lead Director. Mr. Toledano's responsibilities as Lead Director include the following:

- preside at all meetings of the Board of Directors at which the Chairman is not present, including meetings of independent directors held in executive session;
- have the authority to call meetings of the independent directors when deemed appropriate;
- serve as a liaison between the Chairman and the independent directors;
- consult with the Chairman on agendas and schedules for Board and committee meetings; and
- facilitate communication between the Board of Directors and the Company's senior management.

Table of Contents

The Lead Director assures that appropriate independence is brought to bear on important Board and governance matters. In addition, there is strong leadership vested in and exercised by the independent committee chairs, and each director may request inclusion of specific items on the agendas for Board and committee meetings.

Considering all of the above, the Board of Directors believes a combination of the Chairman and Chief Executive Officer functions is the best Board leadership structure and is in the best interests of the Company and its stockholders at this time.

Committees of the Board of Directors

The standing Committees of the Board of Directors are the Audit Committee, Compensation Committee and Nominating and Governance Committee. The Board of Directors has determined that each member of each of these committees meets the independence standards under applicable Nasdaq rules. The Board of Directors has adopted a written charter for the Audit Committee and the Nominating and Governance Committee. A current copy of the charter for each of these committees is available on the Company's website at www.univstainless.com. The Compensation Committee does not have a written charter.

The Audit Committee currently consists of Mr. Kornblatt as Chairman and Messrs. Ayers, Dunn and Toledano. The Audit Committee reviews the scope and timing of services of Universal Stainless' independent registered public accountants. The Audit Committee reports on Universal Stainless' financial statements following completion of the independent registered public accountants' audit, and Universal Stainless' policies and procedures with respect to internal accounting and financial controls. In addition, the Audit Committee appoints the independent registered public accountants for the ensuing year, and the Chairman of the Audit Committee conducts reviews of the financial reports with management of the Company and the Company's independent registered public accountants. The Audit Committee meets in executive session with the Company's independent registered public accountants at each regularly scheduled Audit Committee meeting. The Board of Directors also has delegated to the Audit Committee responsibility for reviewing and approving related party transactions, which the Company defines as those required to be disclosed by applicable regulations of the Securities and Exchange Commission, as those regulations may be amended or modified from time to time. While the Audit Committee has no written policies for the review and approval of related party transactions, the Audit Committee will analyze any proposed related party transactions against reasonable business practices.

The Compensation Committee currently consists of Mr. Ayers as Chairman, and Messrs. Dunn, Kornblatt and Toledano. The Compensation Committee reviews and authorizes the compensation and benefits of all officers of Universal Stainless, reviews general policy matters relating to compensation and benefits of employees of Universal Stainless, and administers Universal Stainless' Stock Incentive Plan.

The Nominating and Governance Committee currently consists of Mr. Dunn as Chairman, and Messrs. Ayers, Kornblatt and Toledano. The Nominating and Governance Committee recommends candidates to be nominated by the Board of Directors for election by the stockholders to serve on the Board of Directors and creates and maintains the overall corporate governance policies for the Company.

The Nominating and Governance Committee will consider candidates proposed by the stockholders of the Company, taking into consideration the needs of the Board of Directors and the candidate's qualifications. While we do not have a formal diversity policy, in order to find the most valuable talent available to meet these criteria, the Board of Directors generally considers candidates diverse in geographic origin, background and professional experience. Our goal is to include board members with the skills and characteristics that, taken together, will facilitate a strong and effective Board of Directors. The Nominating and Governance Committee considers the particular experience, attributes, reputation and qualifications of directors standing for re-election and potential nominees for election, as well as the needs of our board of directors as a whole and its individual committees. The Nominating and Governance Committee's evaluation process does not vary based on whether the candidate is recommended by a stockholder.

Table of Contents

To have a candidate considered by the Nominating and Governance Committee and the Board of Directors, a stockholder must submit the recommendation in writing to the Company's Secretary at the address given on the first page of this Proxy Statement and must include the following information with the recommendation:

- the name and address of the proposed candidate;
- the proposed candidate's resume or a list of his or her qualifications;
- a description of any relationship that could affect such person's qualification as an independent director;
- a confirmation of such person's willingness to serve as a director if selected by the Nominating Committee and nominated by the Board of Directors;
- the name of the stockholder submitting the name of the proposed candidate; and
- any information about the proposed candidate that would, under the federal proxy rules, be required to be included in the Company's proxy statement if such person were a nominee.

The Company asks that stockholder recommendation and information described above be received by the Company's Secretary not less than 90 days in advance of the anniversary date of the most recent annual meeting of stockholders in order to allow for timely consideration.

Director Compensation

Members of the Board of Directors of Universal Stainless who are employed by Universal Stainless presently receive no additional remuneration for acting as directors. Universal Stainless compensates its non-employee directors at the rate of \$20,000 per year, plus \$2,500 for each regular quarterly meeting of the Board of Directors attended. In addition, Universal Stainless reimburses directors for reasonable out-of-pocket expenses incurred by them in connection with their attendance at Board of Directors and Committee meetings. Each non-employee director is further entitled to a fee of \$750 for attending each meeting held in addition to the regularly scheduled quarterly meetings as referenced above, up to a maximum annual payment of \$10,000 for fees relating to non-scheduled meetings.

The members of the Board of Directors of Universal Stainless who also serve as members of the Audit Committee or Compensation Committee receive \$1,000 for each regularly scheduled Audit Committee or Compensation Committee meeting attended. Two regularly scheduled Audit Committee meetings typically are held in the first quarter of the year, and one meeting typically is held in each of the remaining quarters of the year. Four regularly scheduled Compensation Committee meetings ordinarily are held during the year.

Certain members of the Board of Directors of Universal Stainless are also eligible for the grant of options under the Company's Stock Incentive Plan. Eligible Directors are directors who are not employees of Universal Stainless and do not own in excess of 5% of the Company's outstanding common stock. Eligible Directors are granted options to purchase 10,000 shares per year of common stock in four equal installments of 2,500 shares. The installments are granted on May 31, August 31, November 30 and February 28 of each year. The per share exercise price is equal to the closing price of a share of the Company's common stock on The Nasdaq Global Market for the trading day immediately preceding the date of the grant. Options granted to Eligible Directors vest in three installments beginning on the first anniversary of the grant date, at which time 33% of the options will vest. On the second anniversary of the grant date, an additional 33% of the options will vest, and the remainder of the options will vest on the third anniversary of the grant date. Options granted to Eligible Directors will expire on the tenth anniversary of the grant date. All of the current directors who are not employees of Universal Stainless are Eligible Directors.

If an Eligible Director ceases to serve as a director of Universal Stainless, the options that were previously granted to that director and that are vested as of the date of such cessation may be exercised by the director after the date that the director ceases to be a director of Universal Stainless. If an Eligible Director ceases to serve as a director

of the Company or its subsidiaries due to the Company's mandatory retirement policy for directors, the options that were previously granted to that Eligible Director will continue to vest as specified in the grant and may be exercised by the Eligible Director after the date such Eligible Director ceases to be a director of the Company or its subsidiaries. If an Eligible Director dies while a director of Universal Stainless, the options that have been previously granted to that director and that are vested as of the date of his or her death may be exercised by the administrator of the director's estate, or by the person to whom those options are transferred by will or the laws of descent and distribution. Except as described above, unvested options will expire on the date an Eligible Director ceases to serve as a director of Universal Stainless. In no event, however, may any option be exercised after the expiration date of such option.

Stock Ownership Guidelines

In September 2010, the Board of Directors implemented stock ownership guidelines for the Company's directors. Directors are expected to have direct ownership of at least 5,000 shares of the Company's common stock prior to the later of (i) five years from the date of their initial election to the Board of Directors and (ii) September 2015. Subject to limited exceptions, until a director reaches the applicable ownership amount, the director may not sell shares of the Company's common stock without obtaining prior approval of the Board of Directors. The Board of Directors has determined that each director has achieved the applicable ownership amount to be in compliance with the guidelines or is progressing at a reasonable pace towards compliance in a timely manner.

Mandatory Retirement Policy

The Board of Directors has adopted a mandatory retirement policy with respect to the Company's directors. Under the policy, directors who attain the age of 75 prior to an annual meeting of the Company's stockholders are not eligible to be nominated for re-election to the Company's Board of Directors at that annual meeting.

Stockholder Communications with Directors

The Board of Directors has approved a process for stockholders to communicate with its members. Stockholders and other interested parties who wish to communicate with our directors may address their correspondence to the Board of Directors as a whole, to a particular director, to the non-employee directors as a group or any other group of directors or committee of the Board, in care of Paul A. McGrath, Secretary, Universal Stainless & Alloy Products, Inc. at the address given on the first page of this Proxy Statement. Unless the communication is primarily commercial in nature or pertains to a topic that is irrelevant or improper for director consideration, the Secretary will forward the communication to the director or directors to whom it is addressed. Any communication involving solely a request for information about the Company, such as an inquiry about stock-related matters, may be handled directly by the Secretary.

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Program Objective

The Company's Compensation Committee is responsible for establishing and administering the Company's policies governing the compensation of its executive officers, who are appointed by the Company's Board of Directors. The Compensation Committee is composed entirely of non-employee directors. The primary objective of the Company's executive compensation program is to attract, motivate and retain the executive talent needed to achieve the Company's business strategies and long-range plans and to optimize stockholder value in a competitive environment.

The Compensation Committee employs the following principles to provide an overall framework for the compensation of the Company's executive officers:

- reward outstanding performance;
- motivate executive officers to perform to the fullest of their abilities;
- tie a significant portion of executives' total compensation to the Company's annual and long-term financial performance and the creation of stockholder value;
- encourage executives to manage from the perspective of stockholders as a result of their equity stakes in the Company;
- offer compensation opportunities that attract and motivate the best talent; and
- retain those with leadership abilities and skills necessary for building long-term stockholder value.

Compensation Categories

The Compensation Committee considers all elements of compensation when determining total compensation and the individual components of total compensation. The Compensation Committee allocates total compensation between that being paid currently and long-term compensation, cash and non-cash compensation and equity and other forms of non-cash compensation. The Compensation Committee believes that each of these compensation categories provides incentives and rewards to address different elements of the compensation program's objective, and when considered together serve to achieve the company's overall compensation objectives.

The Compensation Committee examines each of the compensation principles to determine the basis for allocating compensation to each different form of award. For example, the Compensation Committee examines the relationship of the award to the achievement of the Company's long-term goals, management's exposure to downside equity performance risk and the analysis of the cost to the company versus expected benefit to the executive. As part of this analysis, the Compensation Committee believes that a meaningful portion of each executive's compensation should be placed at-risk and linked to the accomplishment of results that are expected to lead to the creation of value for the Company's stockholders from both the short-term and long-term perspectives.

The Compensation Committee recognizes that currently paid cash compensation provides its executives with short-term rewards for success in achieving individual and Company performance goals. Currently paid cash consideration includes base salary and annual cash incentive compensation. The Compensation Committee believes that providing executives with competitive currently paid cash consideration is a central element of attracting, retaining and motivating high quality executives.

The Compensation Committee believes that currently paid non-cash compensation in the form of limited and reasonable perquisites provides its executives with similar benefits as currently paid cash compensation. Items of currently paid non-cash compensation for certain named executive officers include a Company provided vehicle or car allowance, Company sponsored health insurance and other non-cash benefits.

Table of Contents

The Compensation Committee believes that long-term compensation is best provided by stock ownership by management, which ties a significant portion of management's compensation to the Company's long-term performance and success. Equity compensation items such as stock options and the Company's employee stock purchase program align the executive's compensation potential with the performance of the Company and the creation of value for our stockholders.

Compensation Elements

Our executive compensation program consists primarily of the following elements:

Base Salary

Base salary is used to recognize the experience, skills, knowledge and responsibilities required of the executive officers in their roles. When establishing the 2010 base salaries of the executive officers other than the Chief Executive Officer, the Compensation Committee and our Chief Executive Officer considered a number of factors, including the seniority of the individual, the functional role of the position, the level of the individual's responsibility, the historical base salary of the individual, the terms of the individual's employment agreement and the recommendations from the Chief Executive Officer. The Compensation Committee considered these same factors in establishing the base salary of the Chief Executive Officer, as well as additional factors such as the Chief Executive Officer's industry experience and profile. In addition, the Compensation Committee considered competitive market practices with respect to these salaries based on the Compensation Committee members' knowledge of the market and publicly-available data on certain competitor companies provided by management, although it did not set base salaries according to specific benchmarking standards.

The salaries of the executive officers are reviewed on an annual basis, as well as at the time of promotion or other changes in responsibilities, and modified for merit, the general performance of the Company, the executive's success in meeting or exceeding individual performance objectives and if significant corporate goals were achieved. If necessary, the Compensation Committee also reviews base salaries with market levels for the same positions in the companies of similar size to the Company represented in the compensation data it reviews. The terms of the employment agreements with the executive officers are also considered in the annual salary review process. In addition, the Compensation Committee also evaluates the performance of the Company and general market conditions.

Annual Incentive Compensation

In 2010, the Compensation Committee adopted a variable compensation plan that will align the compensation with the performance expectations of the Board of Directors to motivate and reward executive officers and senior management for the achievement of Company performance metrics. The performance metrics are tied to the annual budget. The budget plan for a given fiscal year is developed at the business unit and corporate levels and is then reviewed and approved by our Board of Directors. Each of the executive officers and senior management are eligible for variable compensation expressed as a percentage of their individual base salary. Performance criteria under the Company's variable compensation plan are adjusted to eliminate the effects of accounting changes, unplanned acquisitions and other unforeseen changes that have an effect on the performance measurements. The Company's variable compensation plan also allows the Chief Executive Officer to recommend, and the Compensation Committee to award, additional discretionary bonuses to employees, including executive officers, based on outstanding individual performance.

Table of Contents

In order to align the incentive with the interests of the shareholders, the variable compensation plan is tied to metrics for Earnings per Share (EPS) and Return on Net Assets (RONA). The Compensation Committee considers EPS to be a fair measure of management's performance and RONA to be a fair measurement of longer-term management of the Company's assets. Recognizing that customer retention and growth is important to the long-term performance of the Company, another targeted goal is established for On Time Performance (OTP) based on the importance that OTP has in retaining and acquiring new customers. Each executive is also evaluated on their personal objectives for the year, and a portion of their variable compensation is based on meeting those objectives.

For the Chief Executive Officer, the annual variable compensation metrics include a threshold metric which is equal to 50% of his annual base salary and a target metric which is equal to 100% his annual base salary, with a maximum aggregate amount of annual variable compensation equal to 150% his annual base salary. The other executive officers have annual variable compensation threshold metrics of 33% of their annual base salary and target metrics of 67% of their annual base salaries, with a maximum aggregate amount of annual variable compensation equal to 100% of their annual base salaries. Senior management employees have variable compensation thresholds, targets and maximums that are set by the Chief Executive Officer, with the approval of the Compensation Committee.

The Variable Compensation Plan for 2010 consisted of three weighted components, each with separate metrics for threshold, target and maximum values. The components, metrics and weighting are as follows:

Component	Threshold	Target	Maximum	Weight
Earnings per Share	\$ 0.80	\$ 1.10	\$ 1.60	54%
Return on Net Assets	7%	9%	12.5%	36%
On time Performance Improvement	13%	17%	21%	10%

Management achieved the maximum levels for Earnings per Share, with earnings per share of \$1.93, and Return on Net Assets, with a return on net assets of 14.9%, while falling just short of the On time Performance threshold by less than 1%.

Stock Incentive Plan

The purpose of the Company's Stock Incentive Plan is to provide long term additional incentive for the Company's directors and key employees to further the growth, development and financial success of the Company and its subsidiaries by allowing them to personally benefit through the ownership of the Company's common stock. The Board of Directors also believes that the Stock Incentive Plan enables the Company to obtain and retain the services of the directors and key employees who are considered essential to the Company's long-range success by offering them an opportunity to own shares of the Company's common stock. The Stock Incentive Plan aligns employee's interests with those of the stockholders because options only have realizable value if the price of the Company's stock increases after the options are granted, and the Board of Directors believes that options are the best mechanism for optimizing executive officers' long-term performance incentives given the cyclical nature of the Company's industry.

The number of options granted to an executive officer under the Stock Incentive Plan is intended to reward prior performance and increase the potential of retaining the individual. Generally, the Compensation Committee does not consider an executive officer's equity holdings or previous equity grants in determining the number of equity incentive awards to be granted. The Compensation Committee believes that the Company's executive officers should be fairly compensated each year relative to market pay levels and relative to the Company's other executive officers and their level of responsibility. Moreover, the Compensation Committee believes that the Company's long-term incentive compensation program furthers the Company's emphasis on a positive correlation between compensation and performance.

Table of Contents

The Compensation Committee is the plan administrator for the Stock Incentive Plan. In prior years, the Compensation Committee granted annual stock option awards to executive officers, with the exercise price of the grant being the closing price of the Company's common stock on The Nasdaq Global Market on the trading day immediately preceding the date of grant. This practice was consistent, and no grants were coordinated with the public release of non-public material information. The equity awards made in 2008, 2009, and 2010 are reflected in the Summary Compensation Table below. Generally, grants of stock options are earned on the basis of level of responsibility, continued service to the Company and performance. The stock options generally vest over four years, with one-fourth vesting on each of the first four anniversary dates of the grant, contingent upon the executive officer's continued employment with the Company, with vesting subject to acceleration in limited circumstances. Stock options granted under the Stock Incentive Plan have a maximum life of ten years and an exercise price equal to the closing price of the Company's common stock on The Nasdaq Global Market on the trading day immediately preceding the date of grant.

For accounting purposes, the Company follows the requirements of Financial Accounting Standards Board ASC Topic 718 (formerly FAS 123R) to record compensation expense for its stock option grants. The Company develops the assumptions necessary and the model appropriate to value the awards, as well as the timing of the expense recognition over the requisite service period, generally the vesting period of the award in accordance with FASB ASC Topic 718.

The options received by executive officers have been non-qualified stock options, which only accrue value if the stock price increases following the grant. For non-qualified stock options, the executive officers recognize taxable income from stock option awards when a vested option is exercised. The Company generally receives a corresponding tax deduction for compensation expense in the year of exercise. The amount included in the executive officer's wages and the amount the Company may deduct for federal income tax purposes is equal to the common stock price when the stock options are exercised less the exercise price multiplied by the number of stock options exercised. The Company does not pay or reimburse any executive officer for any taxes due upon exercise of a stock option.

Employee Benefit Plans

The Company provides group life and health insurance plans for its hourly and salary employees. The Company also maintains a 401(k) retirement plan for its hourly and salary employees. Pursuant to the plan, participants may elect to make pre-tax and after-tax contributions to the plan, subject to certain limitations imposed under the plan and the Internal Revenue Code of 1986, as amended. In addition, the Company is required to make periodic contributions to the plans based on service, except as described below.

The Company also participates in the Steelworkers Pension Trust (the Trust), a multi-employer defined-benefit pension plan that is open to all hourly and salaried employees associated with the Bridgeville facility, which includes each of the named executive officers. The Company makes periodic contributions to the Trust based on hours worked at a fixed rate for each hourly employee and a fixed monthly contribution on behalf of each salaried employee. The Company also makes a monthly contribution to the 401(k) retirement plan on behalf of each salaried employee. The amount of the contribution will be dependent upon each salaried employee's contribution to the 401(k) retirement plan. The hourly and salaried employees may continue to make their own contributions to the 401(k) retirement plan.

Employee Stock Purchase Plan

Under the 1996 Employee Stock Purchase Plan, as amended (the Purchase Plan), the Company is authorized to issue up to 150,000 shares of common stock to its full-time employees, nearly all of whom are eligible to participate. Under the terms of the Purchase Plan, employees can choose as of January 1 and July 1 of each year to have up to 10% of their total earnings withheld to purchase up to 100 shares of the Company's common stock each six-month period. The purchase price of the stock is 85% of the lower of its beginning-of-the-period or end-of-the-period market prices. At December 31, 2010, the Company had issued 122,932 shares of common stock since the Purchase Plan's inception.

Executive Severance Arrangements

The Company provides certain severance benefits to its executive officers. These benefits help the Company to attract and retain an appropriate caliber of talent for its senior officer positions. With respect to executive officers, these severance benefits in part are intended to reflect the fact that it may be difficult for these employees to find comparable employment within a short period of time. The Company believes that its severance benefits are consistent with the level of benefits necessary to attract and retain the executive officers. The severance benefits are provided in connection with employment agreements entered into with the executive officer and are more fully described below under Executive Severance Benefits and Potential Payments upon Change of Control.

Other Benefits and Perquisites

The Company provides the opportunity for its executive officers to receive certain perquisites and general health and welfare benefits. The Company offers these benefits to provide an additional incentive for its executives, to remain competitive in the general marketplace for executive talent and to enable its executives to better focus on their performance.

The Company has or may provide the following personal benefits and perquisites to its executive officers:

- eligibility to participate in the Company's health, dental, vision, disability insurance and life insurance programs;
- a Company-provided vehicle or car allowance, along with the reimbursement of expenses related to operating, maintaining and insuring the vehicle;
- select club memberships; and
- in certain circumstances, the reimbursement of relocation expenses.

Stock Ownership Guidelines

In September 2010, the Board of Directors implemented stock ownership guidelines for the Company's executive officers. The executive officers are expected to reach the applicable ownership amounts prior to the later of (i) five years from the date of their appointment or the designation by the Board of Directors causing the individual to become subject to the guidelines, whichever is later, and (ii) September 2015. The Chief Executive Officer is expected to acquire and hold 48,000 shares of the Company's common stock, at least 12,000 of which are to be directly owned and the balance of which may be beneficially owned in the form of stock options or other equity awards. The Chief Financial Officer and other executive officers are expected to acquire and hold 16,000 shares of common stock, at least 4,000 of which are to be directly owned and the balance of which similarly may be beneficially owned. Subject to limited exceptions, until any person subject to the guidelines reaches the applicable ownership amounts, the person may not sell shares of the Company's common stock without obtaining prior approval of the Board of Directors. The Board of Directors has determined that each person subject to the stock ownership guidelines has achieved the applicable ownership amounts to be in compliance with the guidelines or is progressing at a reasonable pace towards compliance in a timely manner. The Board of Directors will continue to monitor best practices and review its the stock ownership guidelines at least once every three years to determine if adjustments to the guidelines are warranted.

Internal Revenue Code Section 162(m) Deductibility Limit

Under Section 162(m) of the Internal Revenue Code, the amount of compensation paid to the Company's named executive officers that is deductible with respect to the Company's corporate taxes is limited to \$1.0 million annually, except for specified performance-based compensation. It is the current policy of the Compensation Committee to maximize, to the extent reasonably possible, the Company's ability to obtain a corporate tax deduction for compensation paid to the Company's executive officers to the extent consistent with the best interests of the Company and its stockholders. However, in certain circumstances, the Committee may determine that it is in the best interests of the Company and its stockholders to provide compensation to the Company's executive officers that is in excess of the deduction limits.
