Item 1.01. Entry into Material Definitive Agreement.

The disclosure set forth below under Item 2.01 of this Current Report on Form 8-K (this Report) is hereby incorporated herein by reference in its entirety.

Item 2.01. Completion of Acquisition or Disposition of Assets.

On October 24, 2005, Nitches, Inc. (Nitches) acquired from Haresh Tharani, Victor Lee, Manu Mirchandani, Eitan Haber, and Mahesh Tharani the (Sellers) the remaining balance of seventy-two percent (72%) of the issued and outstanding stock of Designer Intimates, Inc., a Delaware corporation (Designer Intimates) which Nitches did not own, resulting in Nitches owning one hundred percent (100%) of Designer Intimates.

In October 2002, the Company acquired a 28% interest in Designer Intimates, which owns 100% of NAP, Inc., a New York-based intimate apparel company. Designer Intimates had acquired NAP from its founders and obtained a credit line of approximately \$12 million from HSBC which was later assumed by CIT, secured by the inventory and accounts receivable of NAP and the guarantees of shareholders of Designer Intimates. Nitches guaranteed \$3 million of this credit line and this guaranty formed the consideration from Nitches for its 28% ownership interest in Designer Intimates.

Nitches has reported any income or loss from the ongoing operation of Designer Intimates using the equity method of accounting, whereby Nitches' 28% interest in Designer Intimates has been reported as a single line item on the Consolidated Statement of Income. Furthermore, Nitches has reported the financial statements of Designer Intimates in the notes to Nitches Consolidated Financial Statements.

Designer Intimates is a New York City based importer and distributor of women's sleepwear, robes, loungewear, swimwear and intimate apparel; men's sleepwear, robes, and loungewear; and infant's and children's sleepwear and robes. Designer Intimates owns the brand Anne Lewin, and also sells product under the Argentovivo, Princess Tam Tam, Bacirubati, Derek Rose, Crabtree & Evelyn, Bill Blass, Dockers, and Vasserette brands through licensing or distribution agreements. These products are sold to better departments stores, boutiques, moderate department stores, and national and regional discount department stores and chains. The company further has private label sales to Disney, Victoria's Secret, and other select specialty stores.

The assets of Designer Intimates include finished goods inventory, customer lists, customer orders, trade names, brand licenses, brand distribution agreements, office leases in New York City and Atlanta, and office equipment, furniture and fixtures, all of which Nitches intends to continue to use.

The aggregate purchase price for the acquisition was \$1,800,000. Nitches issued to the Sellers 180,000 restricted shares of its common stock at a value of \$5.10 per share and \$882,000 of preferred stock. As a result of this transaction, none of the Sellers will have greater than 10% of the shares outstanding. None of the Sellers will serve on the board of directors or as officers of Nitches.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEAR ENDED AUGUST 31, 2005

1. Nature of business:

The consolidated financial statements include the accounts of Designer Intimates, Inc. and its wholly owned subsidiary, NAP, Inc. (collectively the Company). The Company is engaged in the design and importation of women and men's apparel for sale to select retailers throughout the United States. All significant intercompany accounts, transactions and balances have been eliminated in consolidation.

2. Business acquisition:

Effective September 30, 2002, Designer Intimates, Inc. acquired all of the outstanding common stock of NAP, Inc. for \$11,860,000 utilizing financing from a factor. The fair value of tangible net assets acquired was \$7,914,122. The excess of the purchase price over the fair value of tangible net assets acquired of \$3,945,878, consisted of goodwill of \$2,547,878 and other intangible assets of \$1,398,000. In connection with this acquisition, Designer Intimates, Inc. obtained a credit line from a factor that is collateralized by the inventory and accounts receivable of NAP, Inc. and the guarantees of the principal shareholders of Designer Intimates, Inc. On October 3, 2002, Nitches, Inc. (Nitches) acquired a 28% interest in Designer Intimates, Inc. Nitches has guaranteed \$3,000,000 of the credit line and this guarantee formed the consideration from Nitches for its 28% ownership interest.

3. Summary of significant accounting policies:

a. Principles of consolidation:

The consolidated financial statements include the accounts of Designer Intimates, Inc. and its wholly owned subsidiary, NAP, Inc. All significant inter-company transactions and balances are eliminated in consolidation.

b. Financial instruments:

Financial instruments consist of accounts receivable and accounts payable. The carrying amount approximates fair value because of their short maturity.

YEAR ENDED AUGUST 31, 2005

3. Summary of significant accounting policies: (Continued)

c. Inventories:

Inventories, consisting mostly of finished goods, are stated at the lower of cost or market. Cost is determined using the first-in, first-out method.

d. Equipment and leasehold improvements:

Equipment and leasehold improvements are stated at cost, less accumulated depreciation and amortization. Depreciation of equipment and furniture is provided for by the straight-line method over the estimated useful lives of the assets ranging from five to seven years. Leasehold improvements are amortized using the straight-line method over the lesser of the estimated useful life of the improvement or the term of the related lease.

e. Goodwill:

The Company accounts for goodwill in accordance with Statement of Financial Accounting Standards No. 142. Goodwill is not amortizable over the periods benefited, but instead is subject to periodic testing for impairment. Goodwill is tested for impairment on an annual basis or during the year that an event occurs or circumstances change that would reduce the fair value below its carrying amount.

f. Other intangible assets subject to amortization:

Other intangible assets consist of non-competitive agreements, which are being amortized over three years.

g. Impairment of long-lived assets:

The Company evaluates the recoverability of long-lived assets, at each balance sheet date, using certain financial indicators such as historical and future ability to generate cash flows from operations. The Company's policy is to record an impairment loss in the period when it is determined that the carrying amount of the assets may not be recoverable. At August 31, 2005, no long-lived assets were deemed to be impaired.

3. Summary of significant accounting policies: (Continued)

h. Income taxes:

Deferred tax assets are recognized for deductible temporary differences, operating loss, tax credit carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax basis. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

i. Earnings per share:

The computation of net loss per common share is based on the weighted average number of common shares outstanding plus common share equivalents arising from dilutive stock options, if any. The weighted average number of common shares and common share equivalents outstanding for basic and diluted earnings per share was 300 for fiscal 2005.

j. Use of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting year. Actual results could differ from those estimates.

k. Revenue recognition:

The Company recognizes revenue when merchandise is shipped to its customers and title has passed. The Company provides an allowance at the time of shipment for estimated sales returns and allowances.

3. Summary of significant accounting policies: (Continued)

l. Concentration of credit risk:

i. Cash:

The Company maintains its cash accounts in various commercial banks. Accounts at each bank are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$100,000. Cash balances are periodically maintained in amounts in excess of FDIC insured limits.

ii. Accounts receivable:

Concentration of credit risk with respect to receivables is limited to a diversified customer base, which is not concentrated in any one geographical area. For the year ended August 31, 2005, sales to two customers approximated 43% of total sales of the Company. At August 31, 2005, one of these customers accounted for approximately 42% of factored receivables. The Company sells substantially all of its receivables to a factor (note 4).

m. Shipping and handling costs:

Shipping and handling costs incurred are included in selling, general and administrative expenses. Shipping and handling costs were approximately \$154,000 for the year ended August 31, 2005.

n. Advertising:

3. Summary of significant accounting policies: (Continued)

p. Recently issued accounting pronouncements:

In May 2005, the FASB issued SFAS No. 154, Accounting Changes and Error Corrections (SFAS 154) which replaces APB Opinion No. 20 Accounting Changes and SFAS No. 3, Reporting Accounting Changes in Interim Financial Statements - An Amendment of APB Opinion No. 28. SFAS 154 requires retrospective application to prior periods financial statements of a voluntary change in accounting principal unless it is not practical. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005 and is required to be adopted by the Company in the first quarter of fiscal 2007. Although the Company will continually evaluate its accounting policies, management does not currently believe adoption will have a material impact on the Company's results of operations, cash flows or financial position.

In December 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 153, Exchanges of Nonmonetary Assets (SFAS No. 153) which eliminates the exception of nonmonetary exchanges of similar productive assets and replaces it with a general exception of exchanges of nonmonetary assets that do not have commercial substance. SFAS No. 153 will be effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The Company does not believe the adoption will have a material impact on the Company's results of operations, cash flows or financial position.

4. Due from factor:

In October 2002, pursuant to a factoring agreement, the Company transferred substantially all of NAP's accounts receivable to the factor. In addition, starting in October 2002, all of the Company's accounts receivable have been sold to the factor without recourse as to bad debts, but with recourse as to customer claims. Factor commissions are charged primarily at the rate of .3% of 1% of sales. Amounts advanced by the factor to the Company in anticipating of collection incur interest at the prime rate which was 6.25% at August 31, 2005. The company's obligation to the factor is collateralized by substantially all of NAP's assets and is guaranteed by the Company's principal shareholders (note 2). The initial term of the agreement is through December 31, 2006 and provides for early termination fees.

Notes To Consolidated Financial Statements

Note 1. Significant Accounting Policies

Acquisition: Effective September 30, 2002, Designer Intimates, Inc. acquired all of the outstanding common stock of Nap, Inc. for \$11,860,000 utilizing financing from a factor. The fair value of tangible net assets acquired was \$7,914,122. The excess of the purchase price over the fair value of tangible net assets acquired of \$3,945,878, consisted of goodwill of \$2,547,878 and other intangible assets of \$1,398,000. In connection with this acquisition, Designer Intimates, Inc. obtained a credit line from a factor that is collateralized by the Inventory and accounts receivable of NAP, Inc. and the guarantees of the principal shareholders of Designer Intimates, Inc. On October 3, 2002, Nitches, Inc. acquired a 28% interest in Designer Intimates, Inc. Nitches has guaranteed \$3 million of the credit line and this guarantee formed the consideration from Nitches for its 28% ownership interest.

Principal Business Activities: The consolidated financial statements include the accounts of Designer Intimates, Inc. and its wholly-owned subsidiary, NAP, Inc. (collectively the Company). The Company is engaged in the design and importation of women and men's apparel for sale to select retailers throughout the United States. All significant intercompany accounts, transactions and balances have been eliminated in consolidation.

Revenue Recognition: The Company recognizes revenue when merchandise is shipped to its customers. The Company provides an allowance at the time of shipment for estimated sales returns and allowances.

Inventories: Inventories are stated at the lower of cost or market; cost is determined using the first-in, first-out method.

Equipment and Leasehold Improvements: Equipment and leasehold improvements are stated at cost, less accumulated depreciation and amortization. Depreciation of equipment and furniture is provided for by the straight-line method over the estimated useful lives of the assets ranging from five to seven years. Leasehold improvements are amortized using the straight-line method over the lesser of the estimated useful life of the improvement or the term of the related lease.

Repairs and maintenance expenditures that do not extend the useful lives of the related assets are expensed as incurred.

Goodwill: The Company accounts for goodwill in accordance with Statements of Financial Accounting Standards No. 141 and No. 142. Goodwill is not amortizable over the periods benefited, but instead is subject to periodic testing for impairment. Goodwill is tested for impairment on an annual basis or during the year that an event occurs or circumstances change that would reduce the fair value below its carrying amount.

Other Intangible Assets Subject to Amortization: Other intangible assets consist of customer production backlog and non-compete agreements, which are being amortized over two months and three years, respectively.

Designer Intimates, Inc.

Notes To Consolidated Financial Statements

Note 1. Significant Accounting Policies (continued)

Impairment of Long-Lived Assets: The Company evaluates the recoverability of long-lived assets, at each balance sheet date, using certain financial indicators such as historical and future ability to generate cash flows from operations. The Company's policy is to record an impairment loss in the period when it is determined that the carrying amount of the asset may not be recoverable. At August 31, 2004, no long-lived assets were deemed to be impaired.

Income Taxes: Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2. Due To Factor

In October 2002, pursuant to a factoring agreement, the Company transferred substantially all of NAP's accounts receivable to the factor. In addition, starting in October 2002, all of the Company's accounts receivable have been sold to the factor without recourse as to bad debts, but with recourse as to customer claims. Factor commissions are charged primarily at the rate of .3 of 1% of sales. Amounts advanced by the factor to the Company in anticipation of collection incur interest at the prime rate which was 4.25% at August 31, 2004. The Company's obligation to the factor is collateralized by substantially all of NAP's assets and is guaranteed by the Company's principal shareholders (see Note 1). The initial term of the agreement is through December 31, 2006 and provides for early termination fees.
