Chairman's
LETTER TO SHAREHOLDERS

Sidebar text: "PORTFOLIO DIVERSIFICATION IS A RECOGNIZED WAY TO TRY TO REDUCE
SOME OF THE RISK THAT COMES WITH INVESTING."

Once again, I am pleased to report that over the six-month period covered by
this report your Fund continued to provide you with attractive monthly tax-free
income. For more details about the management strategy and performance of your
Fund, please read the Portfolio Managers' Comments, the Dividend and Share Price
Information, and the Performance Overview sections of this report.

Municipal bonds can be an important building block in a well balanced investment
portfolio. In addition to providing attractive tax-free monthly income, a
municipal bond investment like your Fund may help you achieve and benefit from
greater portfolio diversification. Portfolio diversification is a recognized way
to try to reduce some of the risk that comes with investing. I encourage you to
contact your personal financial advisor who may help explain this important
investment strategy.

Nuveen Investments is pleased to offer you choices when it comes to receiving
your fund reports. In addition to mailed print copies, you can also sign up to
receive future Fund reports and other Fund information by e-mail and the
Internet. Not only will you receive the information faster, but this also may
help lower your Fund's expenses. The inside front cover of this report contains
information on how you can sign up.

We are grateful that you have chosen us as a partner as you pursue your
financial goals, and we look forward to continuing to earn your trust in the
months and years ahead. At Nuveen Investments, our mission continues to be to
assist you and your financial advisor by offering investment services and
products that can help you to secure your financial objectives.

Sincerely,

/s/ Timothy R. Schwertfeger

Portfolio Managers'
COMMENTS

Portfolio managers Tom Spalding and John Miller review key investment strategies and the six-month performance of NUV and NMI. With 29 years of investment experience at Nuveen, Tom has managed NUV since its inception in 1987. John, who has 13 years of municipal market experience, including 10 years with Nuveen, assumed portfolio management responsibility for NMI in 2001.

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THE SIX MONTHS ENDED APRIL 30, 2006?

During this reporting period, we saw a general increase in interest rates, although rates at the longer end of the yield curve remained more stable than those at the short end throughout much of the period. Between November 1, 2005 and April 30, 2006, the Federal Reserve implemented four increases of 0.25% each in the fed funds rate, raising this short-term target by 100 basis points--from 3.75% to 4.75%. (On May 10, 2006, the fed funds rate was increased by another 25 basis points to 5%, making the Fed's 16th consecutive quarter-point hike since June 2004.) In contrast, the yield on the benchmark 10-year U.S. Treasury note ended April 2006 at 5.06%, up from 4.55% six months earlier, while the yield on the Bond Buyer 25 Revenue Bond Index, a widely followed measure of longer-term municipal market rates, was 5.22% at the end of April 2006, an increase of just two basis points from the beginning of November 2005. As interest rates increased, bond valuations generally declined, and the yield curve flattened as short-term rates approached the levels of longer-term rates.

In this environment, one of our key strategies continued to be careful duration management. Depending on the individual needs of each Fund, our purchase activity focused on attractively priced bonds maturing in 15 to 20 years in NUV and 20 to 30 years in NMI. As the period progressed, we started to see more opportunities to add value at the longer end of the curve, and we began to find bonds beyond the 20-year range for NUV's portfolio. The longer durations of the bonds we added to both of these Funds enabled us to maintain the Funds' durations within our preferred strategic range and contributed to their performance for the period.

In looking for potential purchase candidates, we kept an opportunistic eye toward all types of issuance that we believed could add value to the Funds' portfolios and keep the Funds well diversified geographically. Overall, portfolio activity was relatively light during this period. This was due in part to the fact that these Funds entered the reporting period fully invested and with routine call exposure. Another factor was the 5.5% decline in municipal supply during this six-month period compared with the same period 12 months earlier (November 2004-April 2005). The decrease in supply was even more evident during the first four months of 2006, when new issuance dropped almost 25% from the levels of January-April 2005. At the same time, demand for municipal bonds continued to be diverse and broad-based, with retail investors, property and casualty insurance companies, and third-party investors--such as hedge funds and arbitrage accounts--all participating in the market.

1 Duration is a measure of a bond's price sensitivity as interest rates change, with longer duration bonds displaying more sensitivity to these changes than bonds with shorter durations.

Edgar Filing: NUVEEN MUNICIPAL INCOME FUND INC - Form N-CSRS

4

In general, much of the new supply was highly rated and/or insured, and the majority of our new purchases in NUV during this time were higher-rated credits. While we continued to emphasize maintaining the Fund's weightings of bonds rated BBB or lower and nonrated bonds, tighter supply meant fewer opportunities to find additional lower-rated issues that we believed represented value for shareholders. One of the few lower quality areas where we did find opportunities to add value in NUV was the tobacco sector, and we purchased selected tobacco issues to maintain the Fund's exposure to this sector.

In NMI, which can invest up to 25% of its portfolio in below investment-grade quality bonds that typically offer higher yields (with typically higher risk), our focus was also on credit and security selection. During the past six months, the enormous demand for high-yield paper--and the outperformance of the high-yield sector of the market--created an environment that enabled us to concentrate on finding bonds that we believed demonstrated the potential for strengthening credit quality. Because the majority of our purchases for NMI were at the longer end of the yield curve, which remained relatively stable during this period, interest rate movements did not have a major impact on the management of NMI during this period. Our preferred areas of the market during this time included healthcare, especially situations that we considered to be good candidates for return to investment-grade status, and industrial development/resource recovery bonds. Most of the cash we redeployed during this period came from bond call proceeds and sinking fund payments.

HOW DID THE FUNDS PERFORM?

Individual results for these Funds, as well as relevant benchmark and peer group information, are presented in the accompanying table.

Fund in this report.

- 2 The Lehman Brothers Municipal Bond Index is an unleveraged, unmanaged national index comprising a broad range of investment-grade municipal bonds. Results for the Lehman index do not reflect any expenses.
- 3 The Lipper General and Insured Unleveraged Municipal Debt Funds category average is calculated using the returns of all exchange-traded closed-end funds in this category for each period as follows: 6 months, 8; 1 year, 8; 5 years, 8; and 10 years, 8. Fund and Lipper returns assume reinvestment of dividends.

5

For the six months ended April 30, 2006, the total returns on net asset value (NAV) for both NUV and NMI exceeded the return on their Lehman Brothers municipal benchmark. NUV also outperformed the average return for the Lipper peer group for this period, while NMI slightly underperformed this average.

During this reporting period, positive contributors to the Funds' returns included yield curve and duration positioning, exposure to lower-rated credits, and pre-refunding activity.

As the yield curve continued to flatten over the course of this period, yield curve and duration positioning played important roles in the Funds' performances. On the whole, shorter maturity bonds were the most impacted by recent changes in the yield curve. As a result, these bonds generally underperformed both intermediate and long bonds, with credits having the longest maturities posting the best returns for this period. Yield curve positioning or, more specifically, greater exposure to those parts of the yield curve that performed well helped the performances of these two Funds both in absolute terms and relative to the Lehman municipal index, in which exposures to the various maturity groupings are more evenly weighted across the entire yield curve.

With bonds rated BBB or lower and nonrated bonds generally outperforming other credit quality sectors during this period, both of these Funds benefited from their allocations of lower-quality credits. The performance of this sector was largely the result of investor demand for the higher yields typically associated with lower-quality bonds, which drove up their value and kept credit spreads narrow. As of April 30, 2006, allocations of bonds rated BBB and lower and nonrated bonds accounted for 22% of NUV's portfolio, of which 8% was allocated to subinvestment grade credits (rated BB or lower). In addition to its 34% holding of bonds rated BBB, NMI held 9% in bonds rated BB or lower and 8% in nonrated bonds, some of which Nuveen has determined to be of investment-grade quality.

Among the lower-rated holdings making contributions to the Funds' cumulative returns for this period were health care bonds (including hospitals) and tobacco credits backed by the 1998 master tobacco settlement agreement.

In addition, NUV benefited from its exposure to subinvestment-grade American and Continental airline bonds, which performed very well during this period amid some signs of recovery in the airline industry. These two airlines in particular have been successful in lowering their cost structures, reducing capacity, and increasing passenger revenues despite rising energy costs. NUV also held BB-rated bonds issued for the Pocahontas Parkway Association (Virginia), where the rights to manage and maintain the highway

6

Edgar Filing: NUVEEN MUNICIPAL INCOME FUND INC - Form N-CSRS

were purchased by Transurban Group, Australia's second largest toll road operator. As part of the purchase agreement, Transurban is required to build an extension linking the parkway with Richmond's airport and pay off all existing debt. We believe this could make the Pocahontas bonds an ideal candidate for advance refunding.⁴

In NMI, the top performing holdings for this reporting period were all lower-rated credits offering defensive structures, two factors that contributed to performance in the current environment. These included B1 rated bonds issued for Stillwater Mining Company (Montana), which mines platinum and palladium. This holding performed well due to its high coupon and relatively short maturity, which combined to create a cushion in the rising interest rate environment. In addition, this issue is sensitive to commodity prices, which rose significantly during this period. Another top holding that performed well financially during this period and offered the defensive structure provided by the combination of high coupon and short maturity included BBB rated bonds issued for Ogden Haverhill (Massachusetts), a cogeneration/waste energy plant (also held by NUV).

During this period, the performances of NUV and NMI were also positively influenced by their weightings of zero coupon bonds. This was particularly true in NUV, where zero coupon bonds made up much of the Fund's allocation to longer maturity bonds. Zeros have no fixed coupon rates, do not make periodic interest payments, and therefore typically have very long initial maturities. Because there are no coupon payments to reduce the impact of interest rate changes, these bonds tend to be very sensitive to changes in interest rates. For the six months ended April 30, 2006, zero coupon bonds in the Lehman Municipal Bond Index outperformed the general market by 95 basis points.

We also continued to see a number of advance refundings during this period, especially in NUV, which benefited the Funds through price appreciation and enhanced credit quality. However, as the yield curve flattened, more lower coupon bonds were being pre-refunded, which meant that, in general, the positive impact from refinancings was less than in the previous reporting period.

While advance refundings generally enhanced total return performance for this six-month period, the rising interest rate environment--especially at the short end of the yield curve--meant that the Funds' holdings of older, previously pre-refunded bonds tended to underperform the general municipal market, due primarily to the shorter effective maturities of these bonds. NMI also experienced a very small number of calls on its sinking fund bonds, which resulted in a flat return on these issues for this period.

- 4 Advance refundings, also known as pre-refundings or refinancings, occur when an issuer sells new bonds and uses the proceeds to fund principal and interest payments of older existing bonds. This process often results in lower borrowing costs for bond issuers.

HOW WERE THE FUNDS POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF APRIL 30, 2006?

Even though lower-rated credits continued to perform well during this period, we believed that maintaining strong credit quality was an important requirement. As

Edgar Filing: NUVEEN MUNICIPAL INCOME FUND INC - Form N-CSRS

of April 30, 2006, NUV held 67% of its portfolio in bonds rated AAA/U.S. guaranteed and AA. NMI, which can invest up to 25% of its portfolio in below investment-grade quality bonds, held 83% of its portfolio in investment-grade securities, including a 35% allocation to bonds rated AAA/U.S. guaranteed and AA.

As of April 30, 2006, potential call exposure for the period May 2006 through the end of 2007 totaled 18% in NUV and 17% in NMI. The number of actual bond calls in these Funds depends largely on future market interest rates.

8

Dividend and Share Price INFORMATION

The dividend of NUV remained stable throughout the six-month reporting period ended April 30, 2006. However, the income stream of NMI was impacted as the proceeds from older, higher-yielding bonds that were called were reinvested into investment-grade bonds generally offering lower yields. This resulted in one monthly dividend reduction in NMI during this period.

Due to capital gains generated by normal portfolio activity, shareholders of these Funds received capital gains and/or net ordinary income distributions at the end of December 2005, as follows:

	LONG-TERM CAPITAL GAINS (PER SHARE)	ORDINARY INCOME (PER SHARE)
NUV	\$0.0204	\$0.0039
NMI	--	\$0.0018

NUV and NMI seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of April 30, 2006, both NUV and NMI had positive UNII balances for financial statement purposes and positive UNII balances, based upon our best estimate, for tax purposes.

At the end of the reporting period, the Funds' share prices were trading at discounts to their NAVs as shown in the accompanying chart:

	4/30/06 DISCOUNT	6-MONTH AVERAGE DISCOUNT
NUV	-5.62%	-5.22%
NMI	-5.55%	-5.84%

Notes to FINANCIAL STATEMENTS (Unaudited)

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The funds (the "Funds") covered in this report and their corresponding New York Stock Exchange symbols are Nuveen Municipal Value Fund, Inc. (NUV) and Nuveen Municipal Income Fund, Inc. (NMI). The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end, diversified management investment companies.

Edgar Filing: NUVEEN MUNICIPAL INCOME FUND INC - Form N-CSRS

Each Fund seeks to provide current income exempt from regular federal income tax by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities or certain U.S. territories.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors. When market price quotes are not readily available (which is usually the case for municipal securities), the pricing service or, in the absence of a pricing service for a particular security, the Board of Directors of the Funds, or its designee, may establish fair market value using a wide variety of market data including yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from securities dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant by the pricing service or the Board of Directors' designee. Temporary investments in securities that have variable rate and demand features qualifying them as short-term investments are valued at amortized cost, which approximates market value.

Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Investments purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At April 30, 2006, there were no such outstanding purchase commitments in either of the funds.

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

Federal Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal income tax, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

Dividends and Distributions to Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with

Edgar Filing: NUVEEN MUNICIPAL INCOME FUND INC - Form N-CSRS

federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

32

Derivative Financial Instruments

The Funds may invest in certain derivative financial instruments including futures, forward, swap and option contracts, and other financial instruments with similar characteristics. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not invest in any such instruments during the six months ended April 30, 2006.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Indemnifications

Under the Funds' organizational documents, their Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results may differ from those estimates.

2. FUND SHARES

Neither Fund engaged in transactions in its own shares during the six months ended April 30, 2006, nor during the fiscal year ended October 31, 2005.

3. INVESTMENT TRANSACTIONS

Purchases and sales (including maturities but excluding short-term investments) during the six months ended April 30, 2006, were as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Purchases	\$51,272,359	\$3,640,518
Sales and maturities	43,204,360	1,495,000

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to the treatment of paydown gains and losses, timing differences in recognizing taxable market discount and timing differences in recognizing

Edgar Filing: NUVEEN MUNICIPAL INCOME FUND INC - Form N-CSRS

certain gains and losses on investments transactions.

At April 30, 2006, the cost of investments was as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Cost of investments	\$1,813,546,980	\$81,245,827

Gross unrealized appreciation and gross unrealized depreciation of investments at April 30, 2006, were as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Gross unrealized:		
Appreciation	\$137,217,936	\$5,245,382
Depreciation	(1,412,957)	(231,416)
Net unrealized appreciation (depreciation) of investments	\$135,804,979	\$5,013,966

The tax components of undistributed net investment income and net realized gains at October 31, 2005, the Funds' last tax year end, were as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Undistributed net tax-exempt income *	\$7,818,624	\$241,511
Undistributed net ordinary income **	752,964	13,932
Undistributed net long-term capital gains	3,970,072	--

* Undistributed net tax-exempt income (on a tax basis) has not been reduced for the dividend declared on October 3, 2005, paid on November 1, 2005.

** Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

33

Notes to
FINANCIAL STATEMENTS (Unaudited) (continued)

The tax character of distributions paid during the Funds' last tax year ended October 31, 2005, was designated for purposes of the dividends paid deduction as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Distributions from net tax-exempt income	\$91,241,029	\$4,284,126
Distributions from net ordinary income **	1,228,245	1,623
Distributions from net long-term capital gains	10,898,238	--

** Net ordinary income consists of taxable market discount income and net

Edgar Filing: NUVEEN MUNICIPAL INCOME FUND INC - Form N-CSRS

short-term capital gains, if any.

At October 31, 2005, the Funds' last tax year end, Municipal Income (NMI) had an unused capital loss carryforward of \$8,204,024, available to be applied against future capital gains, if any. If not applied, \$116,138, \$7,005,363, \$916,759 and \$165,764 of the carryforward will expire in the years 2008, 2011, 2012 and 2013, respectively.

5. MANAGEMENT FEES AND OTHER TRANSACTIONS WITH AFFILIATES

Each Fund's management fee is separated into components - a complex-level component, based on the aggregate amount of all fund assets managed by Nuveen Asset Management (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc., a specific fund-level component, based only on the amount of assets within each individual fund and for Municipal Value (NUV) a gross interest income component. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

Municipal Value's (NUV) annual fund-level fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets of the Fund as follows:

AVERAGE DAILY NET ASSETS	MUNICIPAL VALUE (NUV) FUND-LEVEL FEE RATE
For the first \$500 million	.1500%
For the next \$500 million	.1250
For net assets over \$1 billion	.1000

In addition, Municipal Value (NUV) pays an annual management fee, payable monthly, based on gross interest income as follows:

GROSS INTEREST INCOME	MUNICIPAL VALUE (NUV) GROSS INCOME FEE RATE
For the first \$50 million	4.125%
For the next \$50 million	4.000
For gross income over \$100 million	3.875

Municipal Income's (NMI) annual fund-level fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets of the Fund as follows:

AVERAGE DAILY NET ASSETS	MUNICIPAL INCOME (NMI) FUND-LEVEL FEE RATE
For the first \$125 million	.4500%
For the next \$125 million	.4375
For the next \$250 million	.4250
For the next \$500 million	.4125
For the next \$1 billion	.4000
For the next \$3 billion	.3875
For net assets over \$5 billion	.3750

Edgar Filing: NUVEEN MUNICIPAL INCOME FUND INC - Form N-CSRS

The annual complex-level fee, payable monthly, which is additive to the fund-level fee and for Municipal Value (NUV) gross interest income fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as stated in the table below. As of April 30, 2006, the complex-level fee rate was .1888%.

COMPLEX-LEVEL ASSETS (1)	COMPLEX-LEVEL FEE RATE
For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600
For the next \$3 billion	.1425
For the next \$3 billion	.1325
For the next \$3 billion	.1250
For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150
For Managed Assets over \$91 billion(2)	.1400

(1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.

(2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors who are affiliated with the Adviser or to their Officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors has adopted a deferred compensation plan for independent Directors that enables Directors to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

6. SUBSEQUENT EVENT - DISTRIBUTIONS TO SHAREHOLDERS

The Funds declared dividend distributions from their tax-exempt net investment income which were paid on June 1, 2006, to shareholders of record on May 15, 2006, as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Dividend per share	\$.0390	\$.0420

Reinvest Automatically
EASILY AND CONVENIENTLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN EXCHANGE-TRADED CLOSED-END FUNDS
DIVIDEND REINVESTMENT PLAN

Your Nuveen Exchange-Traded Closed-End Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

Edgar Filing: NUVEEN MUNICIPAL INCOME FUND INC - Form N-CSRS

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

GLOSSARY OF TERMS USED IN THIS REPORT

AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

AVERAGE EFFECTIVE MATURITY: The average of all the maturities of the bonds in a Fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

MODIFIED DURATION: Duration is a measure of the expected period over which a bond's principal and interest will be paid, and consequently is a measure of the sensitivity of a bond's or bond Fund's value to changes when market interest rates change. Generally, the longer a bond's or Fund's duration, the more the price of the bond or Fund will change as interest rates change.

MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD): An investment's current annualized dividend divided by its current market price.

NET ASSET VALUE (NAV): A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any MuniPreferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

TAXABLE-EQUIVALENT YIELD: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

During this reporting period, the registrant's Board of Directors implemented a change to the procedures by which shareholders may recommend nominees to the registrant's board of directors by amending the registrant's by-laws to include a provision specifying the date by which shareholder nominations for election as director at a subsequent meeting must be submitted to the registrant. Shareholders must deliver or mail notice to the registrant not less than forty-five days nor more than sixty days prior to the first anniversary date of the date on which the registrant first mailed its proxy materials for the prior year's annual meeting; provided, however, if an only if the annual meeting is not scheduled to be held within a period that commences thirty days before the first anniversary date of the annual meeting for the preceding year and ends thirty days after such anniversary date (an annual meeting date outside such period being referred to as an "Other Annual Meeting Date" hereafter), the shareholder notice must be given no later than the close of business on the date forty-five days prior to such Other Annual Meeting Date or the tenth business day following the date such Other Annual Meeting Date is first publicly announced or disclosed. The shareholder's notice must be in writing and set forth the name, age, date of birth, business address, residence address and nationality of the person(s) being nominated and the class or series, number of all shares of the registrant owned of record or beneficially by each such person(s), any other information regarding such person required by Item 401 of Regulation S-K or Item 22 of Rule 14a-101 (Schedule 14A) under the Securities Exchange Act of 1934, as amended, any other information regarding the person(s) to be nominated that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitation of proxies for election of directors, and whether such shareholder believes any nominee is or will be an "interested person" (as that term is defined in the Investment Company Act of 1940, as amended) of the registrant or sufficient information to enable the registrant to make that determination and the written and signed consent of the person(s) to be nominated.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form.

Edgar Filing: NUVEEN MUNICIPAL INCOME FUND INC - Form N-CSRS

(a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable to this filing.

(a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT attached hereto.

(a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons: Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.
