Filed Pursuant to Rule 424(b)(2)

Morgan Stanley Finance LLC \$4,549,850 Capped GEARS

Linked to a Basket of International Indices due April 30, 2021

**Fully and Unconditionally Guaranteed by Morgan Stanley**

Principal at Risk Securities

**Investment Description**

These Capped GEARS (the “Securities”) are unsecured and unsubordinated debt securities issued by Morgan Stanley Finance LLC (“MSFL”) and fully and unconditionally guaranteed by Morgan Stanley with returns linked to the performance of a weighted basket of international indices (the “Basket”), consisting of the Nikkei 225 Index, the EURO STOXX 50<sup>®</sup> Index, the Hang Seng Index, the MSCI Emerging Markets Index<sup>SM</sup>, the S&P/ASX 200 Index, the FTSE<sup>®</sup> 100 Index and the Swiss Market Index, each of which we refer to as an “Underlier” and together as the “Underliers.” The Securities provide enhanced returns relative to the Underliers’ actual positive performance up to a Maximum Gain, but

expose investors fully to the Basket’s negative performance at maturity. If the Basket Return is greater than zero, MSFL will pay the Principal Amount at maturity plus a return equal to the product of (i) the Principal Amount multiplied by (ii) the Basket Return multiplied by (iii) the Upside Gearing of 3.0, up to the Maximum Gain of 41.50%. If the Basket Return is zero, MSFL will pay the full Principal Amount at maturity. However, if the Basket Return is negative, MSFL will pay less than the full Principal Amount at maturity, resulting in a loss of principal to investors that is proportionate to the full negative Basket Return. The Securities are for investors who seek an equity basket-based return and who are willing to risk a loss on their principal, forgo current income and upside returns above the Maximum Gain in exchange for the Upside Gearing feature, as applicable at maturity. **Investing in the Securities involves significant risks. You will not receive interest or dividend payments during the term of the Securities. You may lose up to your entire investment in the Securities.**

**All payments are subject to our credit risk. If we default on our obligations, you could lose some or all of your investment. These Securities are not secured obligations and you will not have any security interest in, or otherwise have any access to, any underlying reference asset or assets.**

**Features**

**Enhanced Growth Potential Up to a Cap:** If the Basket Return is greater than zero, the Upside Gearing feature will provide leveraged exposure to any positive Basket Return, up to the Maximum Gain, and MSFL will pay the Principal Amount at maturity plus pay a return equal to the Basket Return multiplied by the Upside Gearing, up to the Maximum Gain. If the Basket Return is less than zero, investors will be fully exposed to the negative Basket Return at maturity.

**Full Downside Market Exposure:** If the Basket Return is negative, investors will be exposed to the full downside performance of the Basket and MSFL will pay less than the full Principal Amount at maturity, resulting in a loss of principal to investors that is proportionate to the negative Basket Return. Accordingly, you may lose some or all of your Principal Amount. Any payment on the Securities is subject to our creditworthiness.

**Key Dates**

|                       |                |
|-----------------------|----------------|
| Trade Date            | April 25, 2019 |
| Settlement Date       | April 30, 2019 |
| Final Valuation Date* | April 26, 2021 |
| Maturity Date*        | April 30, 2021 |

\*Subject to postponement in the event of a Market Disruption Event or for non-Index Business Days. See “Postponement of Final Valuation Date and Maturity Date” under “Additional Terms of the Securities.”

**The Securities are significantly riskier than conventional debt INSTRUMENTS. the terms of the securities may not obligate us TO REPAY any of the PRINCIPAL AMOUNT OF THE SECURITIES. the Securities CAN have downside MARKET risk SIMILAR TO the UNDERLIERS, WHICH CAN RESULT IN A LOSS OF SOME Or all OF YOUR INVESTMENT at maturity. This MARKET risk is in addition to the CREDIT risk INHERENT IN PURCHASING our DEBT OBLIGATIONS. You should not PURCHASE the Securities if you do not understand or are not comfortable with the significant risks INVOLVED in INVESTING IN the Securities. THE SECURITIES WILL NOT BE LISTED ON ANY SECURITIES EXCHANGE.**

**YOU SHOULD CAREFULLY CONSIDER THE RISKS DESCRIBED UNDER “KEY RISKS” BEGINNING ON PAGE 5 OF THIS PRICING SUPPLEMENT IN CONNECTION WITH YOUR PURCHASE OF THE SECURITIES. EVENTS RELATING TO ANY OF THOSE RISKS, OR OTHER RISKS AND UNCERTAINTIES, COULD ADVERSELY AFFECT THE MARKET VALUE OF, AND THE RETURN ON, YOUR SECURITIES.**

**Security Offering**

We are offering Capped GEARS Linked to a Basket of International Indices. The return on the Securities is limited by, and will be subject to, the predetermined Maximum Gain. The Securities are offered at a minimum investment of 100 Securities at the Price to Public listed below.

| Basket                                   | Basket Weighting | Initial Level | Upside Gearing | Maximum Gain                                   | Initial Basket Level | CUSIP     | ISIN         |

| Total                             | \$4,549,850   | \$90,997                             | \$4,458,853                   |

(1) UBS Financial Services Inc., acting as dealer, will receive from Morgan Stanley & Co. LLC, the agent, a fixed sales commission of \$0.20 for each Security it sells. For more information, please see “Supplemental Plan of Distribution; Conflicts of Interest” on page 36 of this pricing supplement.

(2) See “Use of Proceeds and Hedging” on page 35.

The agent for this offering, Morgan Stanley & Co. LLC, is our affiliate and a wholly owned subsidiary of Morgan Stanley. See “Supplemental Plan of Distribution; Conflicts of Interest” on page 36 of this pricing supplement.

Morgan Stanley UBS Financial Services Inc.

**Additional Information about Morgan Stanley, MSFL and the Securities**

Morgan Stanley and MSFL have filed a registration statement (including a prospectus, as supplemented by a prospectus supplement and an index supplement) with the SEC for the offering to which this communication relates. In connection with your investment, you should read the prospectus in that registration statement, the prospectus supplement, the index supplement and any other documents relating to this offering that Morgan Stanley and MSFL have filed with the SEC for more complete information about Morgan Stanley, MSFL and this offering. You may get these documents for free by visiting EDGAR on the SEC website at [www.sec.gov](http://www.sec.gov). Alternatively, Morgan Stanley, MSFL, any underwriter or any dealer participating in this offering will arrange to send you the prospectus, the prospectus supplement and the index supplement if you so request by calling toll-free 1-(800)-584-6837.

You may access the accompanying prospectus supplement, index supplement and prospectus on the SEC website at [www.sec.gov](http://www.sec.gov) as follows:

*References to “MSFL” refer only to MSFL, references to “Morgan Stanley” refer only to Morgan Stanley and references to “we,” “our” and “us” refer to MSFL and Morgan Stanley collectively. In this document, the “Securities” refers to the Cappe GEARs that are offered hereby. Also, references to the accompanying “prospectus”, “prospectus supplement” and “index supplement” mean the prospectus filed by MSFL and Morgan Stanley dated November 16, 2017, the prospectus supplement filed by MSFL and Morgan Stanley dated November 16, 2017 and the index supplement filed by MSFL and Morgan Stanley dated November 16, 2017, respectively.*

You should rely only on the information incorporated by reference or provided in this pricing supplement or the accompanying prospectus supplement, index supplement and prospectus. We have not authorized anyone to provide you with different information. We are not making an offer of these securities in any state where the offer is not permitted. You should not assume that the information in this pricing supplement or the accompanying prospectus supplement, index supplement and prospectus is accurate as of any date other than the date on the front of this document.

The Issue Price of each Security is \$10. This price includes costs associated with issuing, selling, structuring and

hedging the Securities, which are borne by you, and, consequently, the estimated value of the Securities on the Trade Date is less than \$10. We estimate that the value of each Security on the Trade Date is \$9.693.

*What goes into the estimated value on the Trade Date?*

In valuing the Securities on the Trade Date, we take into account that the Securities comprise both a debt component and a performance-based component linked to the Underliers. The estimated value of the Securities is determined using our own pricing and valuation models, market inputs and assumptions relating to the Underliers, instruments based on the Underliers, volatility and other factors including current and expected interest rates, as well as an interest rate related to our secondary market credit spread, which is the implied interest rate at which our conventional fixed rate debt trades in the secondary market.

*What determines the economic terms of the Securities?*

In determining the economic terms of the Securities, including the Upside Gearing and the Maximum Gain, we use an internal funding rate, which is likely to be lower than our secondary market credit spreads and therefore advantageous to us. If the issuing, selling, structuring and hedging costs borne by you were lower or if the internal funding rate were higher, one or more of the economic terms of the Securities would be more favorable to you.

*What is the relationship between the estimated value on the Trade Date and the secondary market price of the Securities?*

The price at which MS & Co. purchases the Securities in the secondary market, absent changes in market conditions, including those related to the Underliers, may vary from, and be lower than, the estimated value on the Trade Date, because the secondary market price takes into account our secondary market credit spread as well as the bid-offer spread that MS & Co. would charge in a secondary market transaction of this type and other factors. However, because the costs associated with issuing, selling, structuring and hedging the Securities are not fully deducted upon issuance, for a period of up to 7 months following the Settlement Date, to the extent that MS & Co. may buy or sell the Securities in the secondary market, absent changes in market conditions, including those related to the Underliers, and to our secondary market credit spreads, it would do so based on values higher than the estimated value. We expect that those higher values will also be reflected in your brokerage account statements.

MS & Co. currently intends, but is not obligated, to make a market in the Securities, and, if it once chooses to make a market, may cease doing so at any time.

Investor Suitability

**The Securities may be suitable for you if:**

.. You fully understand the risks inherent in an investment in the Securities, including the risk of loss of your entire initial investment in the Securities.

.. You can tolerate the loss of some or all of your investment and are willing to make an investment that has similar downside market risk as the Underliers included in the Basket.

.. You understand and accept the risks associated with the Underliers.

.. You are willing to hold the Securities to maturity, as set forth on the cover of this pricing supplement, and accept that there may be little or no secondary market for the Securities.

.. You believe the Basket will appreciate over the term of the Securities and that the appreciation is unlikely to exceed the Maximum Gain of 41.50%.

.. You understand and accept that your potential return is limited by the Maximum Gain, and you are willing to invest in the Securities based on the Maximum Gain of 41.50%.

.. You can tolerate fluctuations of the price of the Securities prior to maturity that may be similar to or exceed the downside fluctuations in the level of the Basket.

.. You do not seek current income from your investment and are willing to forgo dividends paid on the stocks included in the Underliers.

.. You are willing to assume our credit risk, and understand that if we default on our obligations you may not receive any amounts due to you including any repayment of principal.

**The Securities may not be suitable for you if:**

.. You do not fully understand the risks inherent in an investment in the Securities, including the risk of loss of your entire initial investment in the Securities.

..You cannot tolerate the loss of some or all of your investment, or you are not willing to make an investment that has similar downside market risk as the Underliers included in the Basket.

.. You require an investment designed to provide a full return of principal at maturity.

.. You do not understand and accept the risks associated with the Underliers.

..You are unable or unwilling to hold the Securities to maturity, as set forth on the cover of this pricing supplement, or you seek an investment for which there will be an active secondary market.

..You believe that the level of the Basket will decline during the term of the Securities, or you believe the Basket will appreciate over the term of the Securities by a percentage that exceeds the Maximum Gain.

.. You seek an investment that has unlimited return potential without a cap on appreciation.

.. You are unwilling to invest in the Securities based on the Maximum Gain of 41.50%.

..You prefer the lower risk, and, therefore, accept the potentially lower returns, of conventional debt securities with comparable maturities issued by us or another issuer with a similar credit rating.

..You seek current income from your investment or prefer to receive the dividends paid on the stocks included in the Underliers.

..You are not willing or are unable to assume the credit risk associated with us for any payment on the Securities, including any repayment of principal.

**The investor suitability considerations identified above are not exhaustive. Whether or not the Securities are a suitable investment for you will depend on your individual circumstances, and you should reach an investment decision only after you and your investment, legal, tax, accounting and other advisors have carefully considered the suitability of an investment in the Securities in light of your particular circumstances. You should also review “Key Risks” on page 5 of this pricing supplement and “Risk Factors” beginning on page 7 of the accompanying prospectus for risks related to an investment in the Securities. For additional information about the Underliers, see the information set forth under “The Nikkei 225 Index,” “The EURO STOXX<sup>®</sup> 50 Index,” “The Hang Seng Index,” “The MSCI Emerging Markets Index<sup>SM</sup>,” “The S&P/ASX 200 Index,” “The FTSE<sup>®</sup> 100 Index and “The Swiss Market Index” on pages 17, 19, 21, 23, 25, 27 and 29, respectively.**

Final Terms

Issuer Morgan Stanley Finance LLC

Guarantor Morgan Stanley

Issue Price (per Security) \$10.00 per Security

Principal Amount \$10.00 per Security

Term 2 years

Basket The Securities are linked to a weighted basket of indices, each of which we refer to as an "Underlier," as follows:

Nikkei 225 Index 27.50%

EURO STOXX 50<sup>®</sup> Index 22.50%

Hang Seng Index 15%

MSCI Emerging Markets Index<sup>SM</sup> 15%

S&P/ASX 200 Index 10%

FTSE<sup>®</sup> 100 Index 5%

Swiss Market Index 5%

Upside Gearing 3.0

**If the Basket Return is greater than zero**, MSFL will pay you an amount equal to the lesser of:

$\$10 + [\$10 \times (\text{Basket Return} \times \text{Upside Gearing})]$

and

$\$10 + (\$10 \times \text{Maximum Gain})$ .

Payment at Maturity (per Security)

**If the Basket Return is zero**, MSFL will pay you a cash payment of:

\$10 per Security

**If the Basket Return is negative**, MSFL will pay you an amount calculated as follows:

$\$10 + (\$10 \times \text{Basket Return})$

**In this case, you will lose some or all of the principal amount of the Securities in an amount proportionate to the negative Basket Return.**

Basket Return Final Basket Level – Initial Basket Level

Initial Basket Level

Maximum Gain 41.50%, which corresponds to a maximum Payment at Maturity of \$14.15 per Security.

Initial Basket Level 100

On the Final Valuation Date, the Final Basket Level is calculated as:

Edgar Filing: MORGAN STANLEY - Form 424B2

Final Basket Level  $100 \times [1 + (\text{NKY Return} \times 27.50\%) + (\text{SX5E Return} \times 22.50\%) + (\text{HSI Return} \times 15\%) + (\text{MXEF Return} \times 15\%) + (\text{AS51 Return} \times 10\%) + (\text{UKX Return} \times 5\%) + (\text{SMI Return} \times 5\%)]$

Each of the returns set forth in the formula above refers to the return of the relevant Underlier, which represents the percentage change from the Initial Level for that Underlier to the Final Level for that Underlier.

Trade Date April 25, 2019

Settlement Date April 30, 2019

Final Valuation Date April 26, 2021\*

Maturity Date April 30, 2021\*

Initial Level In the case of the Nikkei 225 Index, 22,307.58; in the case of the EURO STOXX 50<sup>®</sup> Index, 3,491.92; in the case of the Hang Seng Index, 29,549.80; in the case of the MSCI Emerging Markets Index<sup>SM</sup>, 1,076.71; in the case of the S&P/ASX 200 Index, 6,382.144\*\*; in the case of the FTSE<sup>®</sup> 100 Index, 7,434.13; and in the case of the Swiss Market Index, 9,694.06.

Final Level With respect to each Underlier, the Closing Level of such Underlier on the Final Valuation Date.

CUSIP / ISIN 61768Y224 / US61768Y2248

Calculation Agent Morgan Stanley & Co. LLC

\*Subject to postponement in the event of a Market Disruption Event or for non-Index Business Days. See ‘Postponement of Final Valuation Date and Maturity Date’ under the ‘Additional Terms of the Securities.’

\*\*April 24, 2019 Closing Level, as April 25, 2019 was not an Index Business Day for AS51.

Investment Timeline

The Initial Levels are observed and the Initial Basket Level is set to 100.

Trade Date

The Maximum Gain is set.

Maturity Date

The Final Basket Level and Basket Return are determined on the Final Valuation Date.

**If the Basket Return is greater than zero**, MSFL will pay you a cash payment per Security equal to the lesser of:

$\$10 + [\$10 \times (\text{Basket Return} \times \text{Upside Gearing})]$

and

$\$10 + (\$10 \times \text{Maximum Gain})$

**If the Basket Return is zero**, MSFL will pay you a cash payment of \$10 per \$10 Security.

**If the Basket Return is negative on the Final Valuation Date**, MSFL will pay you a cash payment at maturity equal to:

$\$10 + (\$10 \times \text{Basket Return})$

**Under these circumstances, you will lose some or all of the principal amount of the Securities in an amount proportionate to the negative Basket Return.**

**INVESTING IN THE SECURITIES INVOLVES SIGNIFICANT RISKS. YOU MAY LOSE SOME OR ALL OF YOUR PRINCIPAL AMOUNT. ANY PAYMENT ON THE SECURITIES IS SUBJECT TO OUR CREDITWORTHINESS. IF WE WERE TO DEFAULT ON OUR PAYMENT OBLIGATIONS, YOU MAY NOT RECEIVE ANY AMOUNTS OWED TO YOU UNDER THE SECURITIES AND YOU COULD LOSE YOUR ENTIRE INVESTMENT.**

## Key Risks

An investment in the Securities involves significant risks. Some of the risks that apply to the Securities are summarized here, but we urge you to also read the “Risk Factors” section of the accompanying prospectus. You should also consult your investment, legal, tax, accounting and other advisers in connection with your investment in the Securities.

**Your investment in the Securities may result in a loss of up to your entire initial investment in the Securities –** The terms of the Securities differ from those of ordinary debt securities in that we will not pay interest or guarantee the payment of any of the Principal Amount at maturity. If the Basket Return is negative, you will be fully exposed to the negative Basket Return and MSFL will pay you less than your principal amount at maturity, resulting in a loss of principal that is proportionate to the decline in the Basket from the Initial Basket Level to the Final Basket Level. **Accordingly, you could lose the entire principal amount of the Securities.**

**The Upside Gearing applies only if you hold the Securities to maturity –** You should be willing to hold your Securities to maturity. If you are able to sell your Securities prior to maturity in the secondary market, the price you receive will likely not reflect the full economic value of the Upside Gearing or the Securities themselves, and the return you realize may be less than 3.0 times the return of the Basket at the time of sale even if such return is positive and does not exceed the Maximum Gain. You can receive the full benefit of the Upside Gearing and earn up to the potential Maximum Gain only if you hold your Securities to maturity.

**The appreciation potential is limited –** The appreciation potential of the Securities is limited by the Maximum Gain of 41.50% (which corresponds to a maximum Payment at Maturity of \$14.15 per Security). Therefore, although the Upside Gearing enhances positive Basket Returns, you will not benefit from any positive Basket Return that, when multiplied by the Upside Gearing, exceeds the Maximum Gain. As a result, any increase in the Final Basket Level over the Initial Basket Level by more than approximately 13.83% of the Initial Basket Level will not further increase the return on the Securities.

**The Securities are subject to our credit risk, and any actual or anticipated changes to our credit ratings or our credit spreads may adversely affect the market value of the Securities –** You are dependent on our ability to pay all amounts due on the Securities at maturity and therefore you are subject to our credit risk. If we default on our obligations under the Securities, your investment would be at risk and you could lose some or all of your investment. As a result, the market value of the Securities prior to maturity will be affected by changes in the market’s view of our creditworthiness. Any actual or anticipated decline in our credit ratings or increase in our credit spreads charged by the market for taking our credit risk is likely to adversely affect the market value of the Securities.

**As a finance subsidiary, MSFL has no independent operations and will have no independent assets –** As a finance subsidiary, MSFL has no independent operations beyond the issuance and administration of its securities and will have no independent assets available for distributions to holders of MSFL securities if they make claims in respect of such securities in a bankruptcy, resolution or similar proceeding. Accordingly, any recoveries by such holders will be limited to those available under the related guarantee by Morgan Stanley and that guarantee will rank *pari passu* with all other unsecured, unsubordinated obligations of Morgan Stanley. Holders will have recourse only to a single claim against Morgan Stanley and its assets under the guarantee. Holders of securities issued by MSFL

should accordingly assume that in any such proceedings they would not have any priority over and should be treated *pari passu* with the claims of other unsecured, unsubordinated creditors of Morgan Stanley, including holders of Morgan Stanley-issued securities.

**..The Securities do not pay interest** – MSFL will not pay any interest with respect to the Securities over the term of the Securities.

**The market price of the Securities may be influenced by many unpredictable factors** – Several factors, many of which are beyond our control, will influence the value of the Securities in the secondary market and the price at which MS & Co. may be willing to purchase or sell the Securities in the secondary market (if at all), including:

o the value of the Underliers at any time,

o the volatility (frequency and magnitude of changes in value) of each of the Underliers,

o dividend rates on the securities included in the Underliers,

o interest and yield rates in the market,

o geopolitical conditions and economic, financial, political, regulatory or judicial events that affect the Underliers or stock markets generally and which may affect the Final Levels,

o the time remaining until the Securities mature, and

o any actual or anticipated changes in our credit ratings or credit spreads.

Some or all of these factors will influence the terms of the Securities at the time of issuance and the price that you will receive if you are able to sell your Securities prior to maturity, as the Securities are comprised of both a debt component and a performance-based component linked to the Underliers, and these are the types of factors that also generally affect the values of debt securities and derivatives linked to the Underliers. For example, you may have to sell your Securities at a substantial discount from the principal amount of \$10 per Security if the values of the Underliers at the time of sale are at, below or moderately above their Initial Levels or if market interest rates rise. You cannot predict the future performance of

the Underliers based on their historical performance. If the Basket Return is negative, you will receive at maturity an amount that is less than the \$10 Principal Amount of each Security by an amount proportionate to the negative Basket Return. Accordingly, you could lose up to your entire initial investment in the Securities. There can be no assurance that there will be any positive Basket Return so that you will receive at maturity an amount that is greater than the \$10 Principal Amount for each Security you hold, or that you will not lose some or all of your investment.

**Changes in the values of one or more of the Underliers may offset changes in the values of the others –**

Movements in the values of the Underliers may not correlate with each other. At a time when the values of one or more Underliers increase, the values of the other Underliers may not increase as much, or may even decline.

Therefore, in calculating the Basket Return, increases in the values of one or more Underliers may be moderated, or wholly offset, by lesser increases or declines in the values of the other Underliers. If the Final Basket Level is less than the Initial Basket Level, you will receive at maturity an amount that is less than the amount of your original investment in the Securities.

**The Underliers are not equally weighted** – The Securities are linked to a basket of six Underliers, and the Underliers have significantly differed weights in determining the level of the Basket. The same percentage change in two of the Underliers could therefore have different effects on the Final Basket Level because of the unequal weighting. For example, if the weighting of one Underlier is greater than the weighting of another Underlier, a 5% decrease in the level of the Underlier with the greater weighting will have a greater impact on the Final Basket Level than a 5% increase in the level of the Underlier with the lesser weighting.

**The amount payable on the Securities is not linked to the levels of the Underliers at any time other than the**

**Final Valuation Date** – The Final Basket Level will be based on the Closing Levels of the Underliers on the Final Valuation Date, subject to postponement for non-Index Business Days and certain Market Disruption Events. Even if some or all of the Underliers appreciate prior to the Final Valuation Date but then drop by the Final Valuation Date, the Payment at Maturity may be significantly less than it would have been had the Payment at Maturity been linked to the levels of the Underliers prior to such drop. Although the actual levels of the Underliers on the stated Maturity Date or at other times during the term of the Securities may be higher than their Final Levels, the Payment at Maturity will be based solely on the Closing Levels of the Underliers on the Final Valuation Date as compared to their Initial Levels.

**The Securities are subject to risks associated with investments in securities linked to the value of foreign equity (and especially emerging markets) securities** –

The Securities are linked to the value of foreign equity securities. Investments in securities linked to the value of foreign equity securities involve risks associated with the securities markets in those countries, including risks of volatility in those markets, governmental intervention in those markets and cross-shareholdings in companies in certain countries. Although the equity securities included in the Underliers are traded in foreign currencies, the value of your Securities (as measured in U.S. dollars) will not be adjusted for any exchange rate fluctuations. Also, there is generally less publicly available information about foreign companies than about U.S. companies that are subject to the reporting requirements of the United States Securities and Exchange Commission, and foreign companies are subject to accounting, auditing and financial reporting standards and requirements different from those applicable to U.S. reporting companies. The prices of securities issued in foreign markets may be affected by political, economic, financial and social factors in those countries, or global regions, including changes in government, economic and fiscal policies and currency exchange laws. In addition, the stocks included in the MSCI Emerging Markets Index<sup>SM</sup> have been issued by companies in various

emerging markets countries, which pose further risks in addition to the risks associated with investing in foreign equity markets generally. Countries with emerging markets may have relatively unstable governments, may present the risks of nationalization of businesses, restrictions on foreign ownership and prohibitions on the repatriation of assets, and may have less protection of property rights than more developed countries. The economies of countries with emerging markets may be based on only a few industries, may be highly vulnerable to changes in local or global trade conditions, and may suffer from extreme and volatile debt burdens or inflation rates. Local securities markets may trade a small number of securities and may be unable to respond effectively to increases in trading volume, potentially making prompt liquidation of holdings difficult or impossible at times. Moreover, the economies in such countries may differ favorably or unfavorably from the economy in the United States in such respects as growth of gross national product, rate of inflation, capital reinvestment, resources, self-sufficiency and balance of payment positions.

**The level of the MSCI Emerging Markets Index<sup>SM</sup> is subject to currency exchange rate risk** – Because the level of the MSCI Emerging Markets Index<sup>SM</sup> is related to the U.S. dollar value of stocks underlying the MSCI Emerging Markets Index<sup>SM</sup>, holders of the Securities will be exposed to currency exchange rate risk with respect to the currencies in which the component securities trade. Exchange rate movements for a particular currency are volatile and are the result of numerous factors specific to that country including the supply of, and the demand for, those currencies, as well as government policy, intervention or actions, but are also influenced significantly from time to time by political or economic developments, and by macroeconomic factors and speculative actions related to each region. Further, currencies of emerging economies are often subject to more frequent and larger central bank interventions than the currencies of developed countries and are also more likely to be affected by drastic changes in monetary or exchange rate policies of the relevant country. The net exposure will depend on the extent to which the currencies of the component countries strengthen or weaken against the U.S. dollar and the relative weight of each currency. If, taking into account such weighting, the dollar strengthens against the currencies of the component securities of the MSCI Emerging Markets Index<sup>SM</sup>, the level of the MSCI Emerging Markets Index<sup>SM</sup> will be adversely affected and the Payment at Maturity on the Securities may be reduced.

Of particular importance to potential currency exchange risk are:

- o existing and expected rates of inflation;
- o existing and expected interest rate levels;
- o the balance of payments; and

the extent of governmental surpluses or deficits in the countries represented in the MSCI Emerging Markets Index<sup>SM</sup> and the United States.

All of these factors are, in turn, sensitive to the monetary, fiscal and trade policies pursued by the governments of the countries represented in the MSCI Emerging Markets Index<sup>SM</sup>, the United States and other countries important to international trade and finance.

**Investing in the Securities is not equivalent to investing in the Underliers or the stocks composing the**

**Underliers** – Investing in the Securities is not equivalent to investing in the Underliers or the stocks that constitute the Underliers. Investors in the Securities will not have voting rights or rights to receive dividends or other distributions or any other rights with respect to the stocks that constitute the Underliers. Investors in the Securities also will not participate in any appreciation of the Basket that, when multiplied by the Upside Gearing, exceeds the Maximum Gain, which could be significant. Additionally, the Underliers are not “total return” indices, which, in addition to reflecting the market prices of the stocks that constitute the Underliers, would also reflect dividends paid on such stocks. The return on the Securities will not include such a total return feature.

**The rate we are willing to pay for securities of this type, maturity and issuance size is likely to be lower than the rate implied by our secondary market credit spreads and advantageous to us. Both the lower rate and the inclusion of costs associated with issuing, selling, structuring and hedging the Securities in the Issue Price reduce the economic terms of the Securities, cause the estimated value of the Securities to be less than the Issue Price and will adversely affect secondary market prices** – Assuming no change in market conditions or any

other relevant factors, the prices, if any, at which dealers, including MS & Co., may be willing to purchase the Securities in secondary market transactions will likely be significantly lower than the Issue Price, because secondary market prices will exclude the issuing, selling, structuring and hedging-related costs that are included in the Issue Price and borne by you and because the secondary market prices will reflect our secondary market credit spreads and the bid-offer spread that any dealer would charge in a secondary market transaction of this type as well as other factors.

The inclusion of the costs of issuing, selling, structuring and hedging the Securities in the Issue Price and the lower rate we are willing to pay as issuer make the economic terms of the Securities less favorable to you than they otherwise would be.

However, because the costs associated with issuing, selling, structuring and hedging the Securities are not fully deducted upon issuance, for a period of up to 7 months following the Settlement Date, to the extent that MS & Co. may buy or sell the Securities in the secondary market, absent changes in market conditions, including those related to the Underliers, and to our secondary market credit spreads, it would do so based on values higher than the estimated value, and we expect that those higher values will also be reflected in your brokerage account statements.

**The estimated value of the Securities is determined by reference to our pricing and valuation models, which may differ from those of other dealers and is not a maximum or minimum secondary market price** – These pricing and valuation models are proprietary and rely in part on subjective views of certain market inputs and certain assumptions about future events, which may prove to be incorrect. As a result, because there is no market-standard way to value these types of securities, our models may yield a higher estimated value of the Securities than those generated by others, including other dealers in the market, if they attempted to value the Securities. In addition, the estimated value on the Trade Date does not represent a minimum or maximum price at which dealers, including MS & Co., would be willing to purchase your Securities in the secondary market (if any exists) at any time. The value of your Securities at any time after the date of this pricing supplement will vary based on many factors that cannot be predicted with accuracy, including our creditworthiness and changes in market conditions. See also “The market price of the Securities may be influenced by many unpredictable factors” above.

**Adjustments to any of the Underliers could adversely affect the value of the Securities** – The Underlier Publisher for each Underlier is responsible for calculating and maintaining such Underlier. The applicable Underlier Publisher may add, delete or substitute the stocks constituting such Underlier or make other methodological changes required by certain corporate events relating to the stocks constituting such Underlier, such as stock dividends, stock splits, spin-offs, rights offerings and extraordinary dividends, that could change the value of the Underlier. The Underlier Publisher may discontinue or suspend calculation or publication of any of the Underliers at any time. In these circumstances, the Calculation Agent will have the sole discretion to substitute a Successor Underlier that is comparable to the discontinued Underlier, and is permitted to consider indices that are calculated and published by the Calculation Agent or any of its affiliates. Any of these actions could adversely affect the value of any of the Underliers and, consequently, the value of the Securities.

**The Securities will not be listed on any securities exchange and secondary trading may be limited** – The Securities will not be listed on any securities exchange. Therefore, there may be little or no secondary market for the Securities. MS & Co. currently intends, but is not obligated, to make a market in the Securities and, if it once chooses to make a market, may cease doing so at any time. When it does make a market, it will generally do so for transactions of routine secondary market size at prices based on its estimate of the current value of the Securities, taking into account its bid/offer spread, our credit spreads, market volatility, the notional size of the proposed sale, the cost of unwinding any related hedging positions, the

time remaining to maturity and the likelihood that it will be able to resell the Securities. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the Securities easily. Since other broker-dealers may not participate significantly in the secondary market for the Securities, the price at which you may be able to trade your Securities is likely to depend on the price, if any, at which MS & Co. is willing to transact. If, at any time, MS & Co. were to cease making a market in the Securities, it is likely that there would be no secondary market for the Securities. Accordingly, you should be willing to hold your Securities to maturity.

**Hedging and trading activity by our affiliates could potentially adversely affect the value of the Securities** – One or more of our affiliates and/or third-party dealers have carried out, and will continue to carry out, hedging activities related to the Securities, including trading in the constituent stocks of the Underliers, in futures or options contracts on the Underliers or the constituent stocks of the Underliers, as well as in other instruments related to the Underliers. As a result, these entities may be unwinding or adjusting hedge positions during the term of the Securities, and the hedging strategy may involve greater and more frequent dynamic adjustments to the hedge as the Final Valuation Date approaches. MS & Co. and some of our other affiliates also trade the constituent stocks of the Underliers, in futures or options contracts on the constituent stocks of the Underliers, as well as in other instruments related to the Underliers, on a regular basis as part of their general broker-dealer and other businesses. Any of these hedging or trading activities on or prior to the Trade Date could have increased the Initial Levels of the Underliers, and, therefore, could have increased the levels at or above which the Underliers must close on the Final Valuation Date so that investors do not suffer a loss on their initial investment in the Securities. Additionally, such hedging or trading activities during the term of the Securities, including on the Final Valuation Date, could adversely affect the Closing Levels of the Underliers on the Final Valuation Date, and, accordingly, the amount of cash payable at maturity, if any.

**Potential conflict of interest** – As Calculation Agent, MS & Co. has determined the Initial Levels, will determine the Final Levels, the Final Basket Level, the Basket Return and whether any Market Disruption Event has occurred and will calculate the amount payable at maturity, if any. Moreover, certain determinations made by MS & Co., in its capacity as Calculation Agent, may require it to exercise discretion and make subjective judgments, such as with respect to the occurrence or non-occurrence of Market Disruption Events and the selection of a Successor Underlier or calculation of the Final Basket Level in the event of a discontinuance of an Underlier or a Market Disruption Event. These potentially subjective determinations may adversely affect the payout to you at maturity, if any. For further information regarding these types of determinations, see “Additional Terms of the Securities—Postponement of Final Valuation Date and Maturity Date,” “—Discontinuance of an Underlier; Alteration of Method of Calculation” and “—Calculation Agent and Calculations” below. In addition, MS & Co. has determined the estimated value of the Securities on the Trade Date.

**Potentially inconsistent research, opinions or recommendations by Morgan Stanley, UBS or our or their respective affiliates** – Morgan Stanley, UBS and our or their respective affiliates may publish research from time to time on financial markets and other matters that may influence the value of the Securities, or express opinions or provide recommendations that are inconsistent with purchasing or holding the Securities. Any research, opinions or recommendations expressed by Morgan Stanley, UBS or our or their respective affiliates may not be consistent with each other and may be modified from time to time without notice. Investors should make their own independent investigation of the merits of investing in the Securities and the Underliers to which the Securities are linked.

**Uncertain Tax Treatment** – Please note that the discussions in this pricing supplement concerning the U.S. federal income tax consequences of an investment in the Securities supersede the discussions contained in the accompanying prospectus supplement.

Subject to the discussion under “What Are the Tax Consequences of the Securities” in this pricing supplement, although there is uncertainty regarding the U.S. federal income tax consequences of an investment in the Securities due to the lack of governing authority, in the opinion of our counsel, Davis Polk & Wardwell LLP (“our counsel”), under current law, and based on current market conditions, each Security should be treated as a single financial contract that is an “open transaction” for U.S. federal income tax purposes.

If the Internal Revenue Service (the “IRS”) were successful in asserting an alternative treatment for the Securities, the timing and character of income on the Securities might differ significantly from the tax treatment described herein. For example, under one possible treatment, the IRS could seek to recharacterize the Securities as debt instruments. In that event, U.S. Holders (as defined below) would be required to accrue into income original issue discount on the Securities every year at a “comparable yield” determined at the time of issuance and recognize all income and gain in respect of the Securities as ordinary income. We do not plan to request a ruling from the IRS regarding the tax treatment of the Securities, and the IRS or a court may not agree with the tax treatment described in this pricing supplement.

In 2007, the U.S. Treasury Department and the IRS released a notice requesting comments on the U.S. federal income tax treatment of “prepaid forward contracts” and similar instruments. The notice focuses in particular on whether to require holders of these instruments to accrue income over the term of their investment. It also asks for comments on a number of related topics, including the character of income or loss with respect to these instruments; whether short-term instruments should be subject to any such accrual regime; the relevance of factors such as the exchange-traded status of the instruments and the nature of the underlying property to which the instruments are linked; the degree, if any, to which income (including any mandated accruals) realized by Non-U.S. Holders (as defined below) should be subject to withholding tax; and whether these instruments are or should be subject to the “constructive ownership” rule, which very generally can operate to recharacterize certain long-term capital gain as ordinary income and impose an interest charge. While the notice requests

comments on appropriate transition rules and effective dates, any Treasury regulations or other guidance promulgated after consideration of these issues could materially and adversely affect the tax consequences of an investment in the Securities, possibly with retroactive effect.

**Both U.S. and Non-U.S. Holders should read carefully the discussion under “What Are the Tax Consequences of the Securities” in this pricing supplement and consult their tax advisers regarding all aspects of the U.S. federal tax consequences of an investment in the Securities as well as any tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.**

Scenario Analysis and Examples at Maturity

The below scenario analysis and examples are provided for illustrative purposes only and are hypothetical. They do not purport to be representative of every possible scenario concerning increases or decreases in the level of the Basket relative to the Initial Basket Level. We cannot predict the Final Basket Level on the Final Valuation Date. You should not take the scenario analysis and these examples as an indication or assurance of the expected performance of the Basket. The numbers appearing in the examples below have been rounded for ease of analysis. The following scenario analysis and examples illustrate the payment at maturity for a \$10.00 security on a hypothetical offering of the Securities, based on the following terms:

Investment term: 2 years

Initial Basket Level: 100

Maximum Gain: 41.50%, which corresponds to a maximum Payment at Maturity of \$14.15 per Security

Upside Gearing: 3

**Example 1— The level of the Basket *increases* to a Final Basket Level of 105.** The Basket Return is greater than zero and expressed as a formula:

$$\text{Basket Return} = (105 - 100) / 100 = 5.00\%$$

Because the Basket Return is greater than zero, the Payment at Maturity for each \$10.00 Principal Amount of Securities is calculated as the lesser of:

(A)  $\$10.00 + (\$10.00 \times \text{Basket Return} \times \text{Upside Gearing})$ , and

(B)  $\$10.00 + (\$10.00 \times \text{Maximum Gain})$

= the lesser of (A)  $\$10.00 + (\$10.00 \times 5\% \times 3.0)$  and (B)  $\$10.00 + (\$10.00 \times 41.50\%)$

= the lesser of (A)  $\$10.00 + (\$10.00 \times 15\%)$  and (B)  $\$10.00 + (\$10.00 \times 41.50\%)$

$$= \$10.00 + (\$10.00 \times 15\%)$$

$$= \$10.00 + \$1.50$$

$$= \$11.50$$

Because the Basket Return of 5.00% multiplied by the Upside Gearing is less than the Maximum Gain of 41.50%, the Payment at Maturity is equal to \$11.50 per \$10.00 Principal Amount of Securities, resulting in a total return on the Securities of 15.00%.

**Example 2— The level of the Basket *increases* to a Final Basket Level of 150.** The Basket Return is greater than zero and expressed as a formula:

$$\text{Basket Return} = (150 - 100) / 100 = 50.00\%$$

Because the Basket Return is greater than zero, the Payment at Maturity for each \$10.00 Principal Amount of Securities is calculated as the lesser of:

$$\begin{aligned} & \text{(A) } \$10.00 + (\$10.00 \times \text{Basket Return} \times \text{Upside Gearing}), \text{ and} \\ & \text{(B) } \$10.00 + (\$10.00 \times \text{Maximum Gain}) \\ & = \text{the lesser of (A) } \$10.00 + (\$10.00 \times 50\% \times 3.0) \text{ and (B) } \$10.00 + (\$10.00 \times 41.50\%) \\ & = \text{the lesser of (A) } \$10.00 + (\$10.00 \times 150\%) \text{ and (B) } \$10.00 + (\$10.00 \times 41.50\%) \\ & = \$10.00 + (\$10.00 \times 41.50\%) \\ & = \$10.00 + \$4.15 \\ & = \$14.15 \end{aligned}$$

Because the Basket Return of 50% multiplied by the Upside Gearing is greater than the Maximum Gain of 41.50%, the Payment at Maturity is equal to \$14.15 per \$10.00 Principal Amount of Securities, the maximum Payment at Maturity on the Securities. This represents the hypothetical maximum amount payable over the 2-year term of the Securities.

**Example 3— The Final Basket Level is equal to the Initial Basket Level of 100.** The Basket Return is zero and expressed as a formula:

$$\text{Basket Return} = (100 - 100) / 100 = 0.00\%$$

$$\text{Payment at Maturity} = \$10.00$$

Because the Basket Return is zero, the Payment at Maturity per Security is equal to the original \$10.00 Principal Amount per Security, resulting in a zero percent return on the Securities.

**Example 4— The level of the Basket *decreases* to a Final Basket Level of 40.** The Basket Return is negative and expressed as a formula:

$$\text{Basket Return} = (40 - 100) / 100 = -60.00\%$$

$$\text{Payment at Maturity} = \$10 + (\$10 \times -60.00\%) = \$4.00$$

Because the Basket Return is negative, at maturity MSFL will pay less than the Principal Amount, resulting in a loss of principal that is proportionate to the negative Basket Return. Therefore, the Payment at Maturity is equal to \$4.00 per \$10.00 Principal Amount of Securities, resulting in a total loss on the Securities of 60.00%.

***If the Final Basket Level is below the Initial Basket Level on the Final Valuation Date, the Securities will be fully exposed to any decline in the Basket, and you will lose some or all of your Principal Amount at maturity.***

*Scenario Analysis – Hypothetical Payment at Maturity for each \$10.00 Principal Amount of Securities.*

| Performance of the Basket* |               | Performance of the Securities |                     |  |
|----------------------------|---------------|-------------------------------|---------------------|--|
| Final Basket Level         | Basket Return | Upside Gearing                | Payment at Maturity | Return on Securities Purchased at \$10.00 <sup>(1)</sup> |
| 200                        | 100.00%       | 3.0                           | \$14.15             | 41.50%   |
| 190                        | 90.00%        | 3.0                           | \$14.15             | 41.50%   |
| 180                        | 80.00%        | 3.0                           | \$14.15             | 41.50%   |
| 170                        | 70.00%        | 3.0                           | \$14.15             | 41.50%   |
| 160                        | 60.00%        | 3.0                           | \$14.15             | 41.50%   |
| 150                        | 50.00%        | 3.0                           | \$14.15             | 41.50%   |
| 140                        | 40.00%        | 3.0                           | \$14.15             | 41.50%   |

| 113.83                     | 13.83%        | 3.0                           | \$14.15             | 41.50%   |
| 110                        | 10.00%        | 3.0                           | \$13.00             | 30.00%   |
| 105                        | 5.00%         | 3.0                           | \$11.50             | 15.00%   |
| 103                        | 3.00%         | 3.0                           | \$10.90             | 9.00%  |
| 100                        | 0.00%         | N/A                           | \$10.00             | 0.00%  |
| 95                         | -5.00%        | N/A                           | \$9.50              | -5.00%   |
| 90                         | -10.00%       | N/A                           | \$9.00              | -10.00%  |
| 80                         | -20.00%       | N/A                           | \$8.00              | -20.00%  |
| 70                         | -30.00%       | N/A                           | \$7.00              | -30.00%  |
| 60                         | -40.00%       | N/A                           | \$6.00              | -40.00%  |
| 50                         | -50.00%       | N/A                           | \$5.00              | -50.00%  |
| 40                         | -60.00%       | N/A                           | \$4.00              | -60.00%  |
| 30                         | -70.00%       | N/A                           | \$3.00              | -70.00%  |
| 20                         | -80.00%       | N/A                           | \$2.00              | -80.00%  |
| 10                         | -90.00%       | N/A                           | \$1.00              | -90.00%  |
| 0                          | -100.00%      | N/A                           | \$0.00              | -100.00%   |

\* The Basket excludes cash dividend payments on stocks included in the Underliers.

(1) This “Return on Securities” is the number, expressed as a percentage, that results from comparing the Payment at Maturity per \$10 Principal Amount Security to the purchase price of \$10 per Security.

**What are the tax consequences of the Securities?**

**Prospective investors should note that the discussion under the section called “United States Federal Taxation” in the accompanying prospectus supplement does not apply to the Securities issued under this pricing supplement and is superseded by the following discussion.**

The following summary is a general discussion of the principal U.S. federal income tax consequences and certain estate tax consequences of the ownership and disposition of the Securities. This discussion applies only to investors in the Securities who:

t purchase the Securities in the original offering; and

t hold the Securities as capital assets within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the “Code”).

This discussion does not describe all of the tax consequences that may be relevant to a holder in light of the holder’s particular circumstances or to holders subject to special rules, such as:

t certain financial institutions;

t insurance companies;

t certain dealers and traders in securities or commodities;

t investors holding the Securities as part of a “straddle,” wash sale, conversion transaction, integrated transaction or constructive sale transaction;

t U.S. Holders (as defined below) whose functional currency is not the U.S. dollar;

t partnerships or other entities classified as partnerships for U.S. federal income tax purposes;

t regulated investment companies;

t real estate investment trusts; or

t tax-exempt entities, including “individual retirement accounts” or “Roth IRAs” as defined in Section 408 or 408A of the Code, respectively.

If an entity that is classified as a partnership for U.S. federal income tax purposes holds the Securities, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and the activities of the

partnership. If you are a partnership holding the Securities or a partner in such a partnership, you should consult your tax adviser as to the particular U.S. federal tax consequences of holding and disposing of the Securities to you.

In addition, we will not attempt to ascertain whether any issuer of any shares to which a Security relates (such shares hereafter referred to as “Underlying Shares”) is treated as a “passive foreign investment company” (“PFIC”) within the meaning of Section 1297 of the Code. If any issuer of Underlying Shares were so treated, certain adverse U.S. federal income tax consequences might apply to a U.S. Holder upon the sale, exchange or settlement of the Securities. You should refer to information filed with the Securities and Exchange Commission or other governmental authorities by the issuers of the Underlying Shares and consult your tax adviser regarding the possible consequences to you if any issuer is or becomes a PFIC.

As the law applicable to the U.S. federal income taxation of instruments such as the Securities is technical and complex, the discussion below necessarily represents only a general summary. Moreover, the effect of any applicable state, local or non-U.S. tax laws is not discussed, nor are any alternative minimum tax consequences or consequences resulting from the Medicare tax on investment income.

This discussion is based on the Code, administrative pronouncements, judicial decisions and final, temporary and proposed Treasury regulations, all as of the date of this pricing supplement, changes to any of which subsequent to the date hereof may affect the tax consequences described herein. Persons considering the purchase of the Securities should consult their tax advisers with regard to the application of the U.S. federal income tax laws to their particular situations as well as any tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.

## General

Although there is uncertainty regarding the U.S. federal income tax consequences of an investment in the Securities due to the lack of governing authority, in the opinion of our counsel, under current law, and based on current market conditions, each Security should be treated as a single financial contract that is an “open transaction” for U.S. federal income tax purposes.

**Due to the absence of statutory, judicial or administrative authorities that directly address the treatment of the Securities or instruments that are similar to the Securities for U.S. federal income tax purposes, no assurance can be given that the Internal Revenue Service (the “IRS”) or a court will agree with the tax treatment described herein. Accordingly, you should consult your tax adviser regarding all aspects of the U.S. federal tax consequences of an investment in the Securities (including possible alternative treatments of the Securities). Unless otherwise stated, the following discussion is based on the treatment of the Securities as described in the previous paragraph.**

## **Tax Consequences to U.S. Holders**

This section applies to you only if you are a U.S. Holder. As used herein, the term “U.S. Holder” means a beneficial owner of a Security that is, for U.S. federal income tax purposes:

t a citizen or individual resident of the United States;

t a corporation, or other entity taxable as a corporation, created or organized in or under the laws of the United States, any state thereof or the District of Columbia; or

t an estate or trust the income of which is subject to U.S. federal income taxation regardless of its source.

### ***Tax Treatment of the Securities***

Assuming the treatment of the Securities as set forth above is respected, the following U.S. federal income tax consequences should result.

*Tax Treatment Prior to Settlement.* A U.S. Holder should not be required to recognize taxable income over the term of the Securities prior to settlement, other than pursuant to a sale or exchange as described below.

*Tax Basis.* A U.S. Holder’s tax basis in the Securities should equal the amount paid by the U.S. Holder to acquire the Securities.

*Sale, Exchange or Settlement of the Securities.* Upon a sale, exchange or settlement of the Securities, a U.S. Holder should recognize gain or loss equal to the difference between the amount realized on the sale, exchange or settlement and the U.S. Holder’s tax basis in the Securities sold, exchanged or settled. Subject to the discussion above regarding the possible application of Section 1297 of the Code, any gain or loss recognized upon the sale, exchange or settlement of the Securities should be long-term capital gain or loss if the U.S. Holder has held the Securities for more than one year at such time, and short-term capital gain or loss otherwise.

### ***Possible Alternative Tax Treatments of an Investment in the Securities***

Due to the absence of authorities that directly address the proper tax treatment of the Securities, no assurance can be given that the IRS will accept, or that a court will uphold, the treatment described above. In particular, the IRS could seek to analyze the U.S. federal income tax consequences of owning the Securities under Treasury regulations governing contingent payment debt instruments (the “Contingent Debt Regulations”). If the IRS were successful in asserting that the Contingent Debt Regulations applied to the Securities, the timing and character of income thereon would be significantly affected. Among other things, a U.S. Holder would be required to accrue into income original issue discount on the Securities every year at a “comparable yield” determined at the time of their issuance, adjusted upward or downward to reflect the difference, if any, between the actual and the projected amount of the contingent payment on the Securities. Furthermore, any gain realized by a U.S. Holder at maturity or upon a sale, exchange or other disposition of the Securities would generally be treated as ordinary income, and any loss realized would be treated as ordinary loss to the extent of the U.S. Holder’s prior accruals of original issue discount and as capital loss thereafter.

Other alternative federal income tax treatments of the Securities are also possible, which, if applied, could significantly affect the timing and character of the income or loss with respect to the Securities. In 2007, the U.S. Treasury Department and the IRS released a notice requesting comments on the U.S. federal income tax treatment of “prepaid forward contracts” and similar instruments. The notice focuses in particular on whether to require holders of these instruments to accrue income over the term of their investment. It also asks for comments on a number of related topics, including the character of income or loss with respect to these instruments; whether short-term instruments should be subject to any such accrual regime; the relevance of factors such as the exchange-traded status of the instruments and the nature of the underlying property to which the instruments are linked; and whether these instruments are or should be subject to the “constructive ownership” rule, which very generally can operate to recharacterize certain long-term capital gain as ordinary income and impose an interest charge. While the notice requests comments on appropriate transition rules and effective dates, any Treasury regulations or other guidance promulgated after consideration of these issues could materially and adversely affect the tax consequences of an investment in the Securities, possibly with retroactive effect. U.S. Holders should consult their tax advisers regarding the U.S. federal income tax consequences of an investment in the Securities, including possible alternative treatments and the issues presented by this notice.

### ***Backup Withholding and Information Reporting***

Backup withholding may apply in respect of the payment on the Securities at maturity and the payment of proceeds from a sale, exchange or other disposition of the Securities, unless a U.S. Holder provides proof of an applicable exemption or a correct taxpayer identification number and otherwise complies with applicable requirements of the backup withholding rules. The amounts withheld under the backup withholding rules are not an additional tax and may be refunded, or credited against the U.S. Holder’s U.S. federal income tax liability, provided that the required information is timely furnished to the IRS. In addition, information returns may be filed with the IRS in connection with the payment on the Securities and the payment of proceeds

from a sale, exchange or other disposition of the Securities, unless the U.S. Holder provides proof of an applicable exemption from the information reporting rules.

### **Tax Consequences to Non-U.S. Holders**

This section applies to you only if you are a Non-U.S. Holder. As used herein, the term “Non-U.S. Holder” means a beneficial owner of a Security that is, for U.S. federal income tax purposes:

- t an individual who is classified as a nonresident alien;
- t a foreign corporation; or
- t a foreign estate or trust.

The term “Non-U.S. Holder” does not include any of the following holders:

t a holder who is an individual present in the United States for 183 days or more in the taxable year of disposition and who is not otherwise a resident of the United States for U.S. federal income tax purposes;

t certain former citizens or residents of the United States; or

t a holder for whom income or gain in respect of the Securities is effectively connected with the conduct of a trade or business in the United States.

Such holders should consult their tax advisers regarding the U.S. federal income tax consequences of an investment in the Securities.

### ***Tax Treatment upon Sale, Exchange or Settlement of the Securities***

*In general.* Assuming the treatment of the Securities as set forth above is respected, and subject to the discussions below concerning backup withholding and the possible application of Section 871(m) of the Code, a Non-U.S. Holder of the Securities generally will not be subject to U.S. federal income or withholding tax in respect of amounts paid to the Non-U.S. Holder.

Subject to the discussions regarding the possible application of Section 871(m) and FATCA, if all or any portion of a Security were recharacterized as a debt instrument, any payment made to a Non-U.S. Holder with respect to the Securities would not be subject to U.S. federal withholding tax, provided that:

t the Non-U.S. Holder does not own, directly or by attribution, ten percent or more of the total combined voting power of all classes of Morgan Stanley stock entitled to vote;

t the Non-U.S. Holder is not a controlled foreign corporation related, directly or indirectly, to Morgan Stanley through stock ownership;

t the Non-U.S. Holder is not a bank receiving interest under Section 881(c)(3)(A) of the Code, and

t the certification requirement described below has been fulfilled with respect to the beneficial owner.

*Certification Requirement.* The certification requirement referred to in the preceding paragraph will be fulfilled if the beneficial owner of a Security (or a financial institution holding a Security on behalf of the beneficial owner) furnishes to the applicable withholding agent an IRS Form W-8BEN (or other appropriate form) on which the beneficial owner certifies under penalties of perjury that it is not a U.S. person.

In 2007, the U.S. Treasury Department and the IRS released a notice requesting comments on the U.S. federal income tax treatment of “prepaid forward contracts” and similar instruments. Among the issues addressed in the notice is the degree, if any, to which any income with respect to instruments such as the Securities should be subject to U.S. withholding tax. It is possible that any Treasury regulations or other guidance promulgated after consideration of this issue could materially and adversely affect the withholding tax consequences of ownership and disposition of the Securities, possibly on a retroactive basis. Non-U.S. Holders should note that we currently do not intend to withhold on any payment made with respect to the Securities to Non-U.S. Holders (subject to compliance by such holders with the certification requirement described above and to the discussions below regarding Section 871(m) and FATCA). However, in the event of a change of law or any formal or informal guidance by the IRS, the U.S. Treasury Department or Congress, we may decide to withhold on payments made with respect to the Securities to Non-U.S. Holders, and we will not be required to pay any additional amounts with respect to amounts withheld. Accordingly, Non-U.S. Holders should consult their tax advisers regarding all aspects of the U.S. federal income tax consequences of an investment in the Securities, including the possible implications of the notice referred to above.

***Section 871(m) Withholding Tax on Dividend Equivalents***

Section 871(m) of the Code and Treasury regulations promulgated thereunder (“Section 871(m)”) generally impose a 30% (or a lower applicable treaty rate) withholding tax on dividend equivalents paid or deemed paid to Non-U.S. Holders with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities (each, an “Underlying Security”). Subject to certain exceptions, Section 871(m) generally applies to securities that substantially replicate the economic performance of one or more Underlying Securities, as determined based on tests set forth in the applicable Treasury regulations (a “Specified Security”). However, pursuant to an IRS notice, Section 871(m) will not apply to securities issued before January 1, 2021 that do not have a delta of one with respect to any Underlying Security. Based on our determination that the Securities do not have a delta of one with respect to any Underlying Security, our counsel is of the opinion that the Securities should not be Specified Securities and, therefore, should not be subject to Section 871(m).

Our determination is not binding on the IRS, and the IRS may disagree with this determination. Section 871(m) is complex and its application may depend on your particular circumstances, including whether you enter into other transactions with respect to an Underlying Security. If withholding is required, we will not be required to pay any additional amounts with respect to the amounts so withheld. You should consult your tax adviser regarding the potential application of Section 871(m) to the Securities.

### ***U.S. Federal Estate Tax***

Individual Non-U.S. Holders and entities the property of which is potentially includible in such an individual’s gross estate for U.S. federal estate tax purposes (for example, a trust funded by such an individual and with respect to which the individual has retained certain interests or powers), should note that, absent an applicable treaty exemption, the Securities may be treated as U.S. situs property subject to U.S. federal estate tax. Prospective investors that are non-U.S. individuals, or are entities of the type described above, should consult their tax advisers regarding the U.S. federal estate tax consequences of an investment in the Securities.

### ***Backup Withholding and Information Reporting***

Information returns may be filed with the IRS in connection with the payment on the Securities at maturity as well as in connection with the payment of proceeds from a sale, exchange or other disposition of the Securities. A Non-U.S. Holder may be subject to backup withholding in respect of amounts paid to the Non-U.S. Holder, unless such Non-U.S. Holder complies with certification procedures to establish that it is not a U.S. person for U.S. federal income tax purposes or otherwise establishes an exemption. Compliance with the certification procedures described above under “ Tax Treatment upon Sale, Exchange or Settlement of the Securities – Certification Requirement” will satisfy the certification requirements necessary to avoid backup withholding as well. The amount of any backup withholding from a payment to a Non-U.S. Holder will be allowed as a credit against the Non-U.S. Holder’s U.S. federal income tax liability and may entitle the Non-U.S. Holder to a refund, provided that the required information is timely furnished to the IRS.

## FATCA

Legislation commonly referred to as “FATCA” generally imposes a withholding tax of 30% on payments to certain non-U.S. entities (including financial intermediaries) with respect to certain financial instruments, unless various U.S. information reporting and due diligence requirements have been satisfied. An intergovernmental agreement between the United States and the non-U.S. entity’s jurisdiction may modify these requirements. FATCA generally applies to certain financial instruments that are treated as paying U.S.-source interest or other U.S.-source “fixed or determinable annual or periodical” income. If the Securities were recharacterized as debt instruments, FATCA would apply to any payment of amounts treated as interest and to payments of gross proceeds of the disposition (including upon retirement) of the Securities. However, under recently proposed regulations (the preamble to which specifies that taxpayers are permitted to rely on them pending finalization), no withholding will apply on payments of gross proceeds. If withholding were to apply to the Securities, we would not be required to pay any additional amounts with respect to amounts withheld. Both U.S. and Non-U.S. Holders should consult their tax advisers regarding the potential application of FATCA to the Securities.

**The discussion in the preceding paragraphs under “What Are the Tax Consequences of the Securities,” insofar as it purports to describe provisions of U.S. federal income tax laws or legal conclusions with respect thereto, constitutes the full opinion of Davis Polk & Wardwell LLP regarding the material U.S. federal income tax consequences of an investment in the Securities.**

### The Nikkei 225 Index

The Nikkei 225 Index is a stock index calculated, published and disseminated by Nikkei Inc. (formerly known as Nihon Keizai Shimbun, Inc.), which we refer to as Nikkei, that measures the composite price performance of selected Japanese stocks. The Nikkei 225 Index currently is based on 225 underlying stocks trading on the Tokyo Stock Exchange (the “TSE”) representing a broad cross-section of Japanese industries. Stocks listed in the First Section of the TSE are among the most actively traded stocks on the TSE. All 225 Nikkei Underlying Stocks are stocks listed in the First Section of the TSE. Nikkei rules require that the 75 most liquid issues (one-third of the component count of the Nikkei 225 Index) be included in the Nikkei 225 Index. Nikkei first calculated and published the Nikkei 225 Index in 1970. The 225 companies included in the Nikkei 225 Index are divided into six sector categories: technology, financials, consumer goods, materials, capital goods/others and transportation and utilities. For additional information about the Nikkei 225 Index, see the information set forth under “Nikkei 225 Index” in the accompanying index supplement.

Nikkei, the publisher of the Nikkei 225 Index, has the copyright to the Nikkei 225 Index. All rights to the Nikkei 225 Index are owned by Nikkei. Nikkei has the right to change the contents of the Nikkei 225 Index and to cease compilation and publication of the Nikkei 225 Index. In addition, Nikkei has no relationship to us or the securities; it does not sponsor, endorse, authorize, sell or promote the securities, and has no obligation or liability in connection with the administration, marketing or trading of the securities or with the calculation of the return on your investment. For more information, see “Nikkei 225 Index” in the accompanying index supplement.

### Historical Information

The following table sets forth the published high and low Closing Levels, as well as the end-of-quarter Closing Levels, of the Nikkei 225 Index for each quarter in the period from January 1, 2014 through April 25, 2019. The Closing Level of the Nikkei 225 Index on April 25, 2019 was 22,307.58. We obtained the information in the table below from Bloomberg Financial Markets, without independent verification. The historical Closing Levels of the Nikkei 225 Index should not be taken as an indication of future performance, and no assurance can be given as to the Closing Level of the Nikkei 225 Index on the Final Valuation Date.

| <b>Quarter Begin</b> | <b>Quarter End</b> | <b>Quarterly High</b> | <b>Quarterly Low</b> | <b>Quarterly Close</b> |
|----------------------|--------------------|-----------------------|----------------------|------------------------|
| 1/1/2014             | 3/31/2014          | 16,291.31             | 14,008.47            | 14,827.83              |
| 4/1/2014             | 6/30/2014          | 15,376.24             | 13,910.16            | 15,162.10              |
| 7/1/2014             | 9/30/2014          | 16,374.14             | 14,778.37            | 16,173.52              |
| 10/1/2014            | 12/31/2014         | 17,935.64             | 14,532.51            | 17,450.77              |
| 1/1/2015             | 3/31/2015          | 19,754.36             | 16,795.96            | 19,206.99              |
| 4/1/2015             | 6/30/2015          | 20,868.03             | 19,034.84            | 20,235.73              |
| 7/1/2015             | 9/30/2015          | 20,841.97             | 16,930.84            | 17,388.15              |
| 10/1/2015            | 12/31/2015         | 20,012.40             | 17,722.42            | 19,033.71              |
| 1/1/2016             | 3/31/2016          | 19,033.71             | 14,952.61            | 16,758.67              |

\* Available information for the indicated period includes data for less than the entire calendar quarter, and, accordingly, the “Quarterly High,” “Quarterly Low” and “Quarterly Close” data indicated are for this shortened period only.

The graph below illustrates the performance of the Nikkei 225 Index from January 1, 2008 through April 25, 2019, based on information from Bloomberg. ***Past performance of the Nikkei 225 Index is not indicative of the future performance of the Nikkei 225 Index.***

### The EURO STOXX 50<sup>®</sup> Index

The EURO STOXX 50<sup>®</sup> Index was created by STOXX Limited, which is owned by Deutsche Börse AG and SIX Group AG. Publication of the EURO STOXX 50<sup>®</sup> Index began on February 26, 1998, based on an initial index value of 1,000 at December 31, 1991. The EURO STOXX 50<sup>®</sup> Index is composed of 50 component stocks of market sector leaders from within the STOXX 600 Supersector Indices, which includes stocks selected from the Eurozone. The component stocks have a high degree of liquidity and represent the largest companies across all market sectors. For additional information about the EURO STOXX 50<sup>®</sup> Index, see the information set forth under “EURO STOXX 50<sup>®</sup> Index” in the accompanying index supplement.

“EURO STOXX 50<sup>®</sup>” and “STOXX<sup>®</sup>” are registered trademarks of STOXX Limited. For more information, see “EURO STOXX 50<sup>®</sup> Index” in the accompanying index supplement.

### The Hang Seng Index

The Hang Seng Index was developed, and is calculated, maintained and published, by Hang Seng Indexes Company (formerly HSI Services Limited), a wholly owned subsidiary of the Hang Seng Bank, and was first calculated and published on November 24, 1969. The Hang Seng Index is a market capitalization weighted stock market index of the Hong Kong Stock Exchange (the “HKSE”) and purports to be an indicator of the performance of the Hong Kong stock market. Only companies with a primary listing on the Main Board of the HKSE are eligible to be constituents of the Hang Seng Index. For additional information about the Hang Seng Index, see the information set forth under “Hang Seng Index” in the accompanying index supplement.

“Hang Seng® Index” is a trademark of Hang Seng Indexes Company. For more information, see “Hang Seng Index” in the accompanying index supplement.

### Historical Information

The following table sets forth the published high and low Closing Levels, as well as the end-of-quarter Closing Levels, of the Hang Seng Index for each quarter in the period from January 1, 2014 through April 25, 2019. The Closing Level of the Hang Seng Index on April 25, 2019 was 29,549.80. We obtained the information in the table below from Bloomberg Financial Markets, without independent verification. The historical Closing Levels of the Hang Seng Index should not be taken as an indication of future performance, and no assurance can be given as to the Closing Level of the Hang Seng Index on the Final Valuation Date.

| <b>Quarter Begin</b> | <b>Quarter End</b> | <b>Quarterly High</b> | <b>Quarterly Low</b> | <b>Quarterly Close</b> |
|----------------------|--------------------|-----------------------|----------------------|------------------------|
| 1/1/2014             | 3/31/2014          | 23,340.05             | 21,182.16            | 22,151.06              |

### The S&P/ASX 200 Index

The S&P/ASX 200 Index is Australia's large-capitalization tradable equity index and Australia's institutional benchmark. The S&P/ASX 200 Index measures the performance of the 200 largest index-eligible stocks listed on the Australian Securities Exchange by float-adjusted market capitalization. Only stocks that are actively and regularly traded are considered for inclusion in the S&P/ASX 200 Index. The index is float-adjusted, and, as of August 2014, covers approximately 80% of Australian equity market capitalization. For additional information about the S&P/ASX 200 Index, see the information set forth under "S&P/ASX 200 Index" in the accompanying index supplement.

"Standard & Poor®," "S&P" and "S&P/ASX 200" are trademarks of S&P Dow Jones Indices LLC. For more information, see "S&P/ASX 200 Index" in the accompanying index supplement.

### Historical Information

The following table sets forth the published high and low Closing Levels, as well as the end-of-quarter Closing Levels, of the S&P/ASX 200 Index for each quarter in the period from January 1, 2014 through April 24, 2019. The Closing Level of the S&P/ASX 200 Index on April 24, 2019 was 6,382.144. We obtained the information in the table below from Bloomberg Financial Markets, without independent verification. The historical Closing Levels of the S&P/ASX 200 Index should not be taken as an indication of future performance, and no assurance can be given as to the Closing Level of the S&P/ASX 200 Index on the Final Valuation Date.

### The FTSE<sup>®</sup> 100 Index

The FTSE<sup>®</sup> 100 Index, which is calculated, published and disseminated by FTSE Russell, is a free-float-adjusted index which measures the composite price performance of stocks of the largest 100 companies (determined on the basis of market capitalization) traded on the London Stock Exchange. The 100 stocks included in the FTSE<sup>®</sup> 100 Index (the “FTSE Underlying Stocks”) are selected from a reference group of stocks trading on the London Stock Exchange which are in turn selected by excluding certain stocks that have low liquidity based on public float, accuracy and reliability of prices, size and number of trading days. The FTSE Underlying Stocks are selected from this reference group by selecting 100 stocks with the largest market value. For additional information about the FTSE<sup>®</sup> 100 Index, see the information set forth under “FTSE<sup>EM</sup> 100 Index” in the accompanying index supplement.

“FTSE<sup>EM</sup>” and “Footse<sup>EM</sup>” are trademarks of London Stock Exchange Plc and The Financial Times Limited. For more information, see “FTSE<sup>EM</sup> 100 Index” in the accompanying index supplement.

### Historical Information

The following table sets forth the published high and low Closing Levels, as well as the end-of-quarter Closing Levels, of the FTSE<sup>®</sup> 100 Index for each quarter in the period from January 1, 2014 through April 25, 2019. The Closing Level of the FTSE<sup>®</sup> 100 Index on April 25, 2019 was 7,434.13. We obtained the information in the table below from Bloomberg Financial Markets, without independent verification. The historical Closing Levels of the FTSE<sup>®</sup> 100 Index should not be taken as an indication of future performance, and no assurance can be given as to the Closing Level of the FTSE<sup>®</sup> 100 Index on the Final Valuation Date.

### The Swiss Market Index

The Swiss Market Index (“SMI”) represents approximately 85% of the free-float capitalization of the Swiss equity market. The Swiss Market Index consists of the 20 largest and most liquid equities of the Swiss Performance Index®. The composition of the Swiss Market Index is reviewed annually, and in order to ensure a high degree of continuity in the composition of the Swiss Market Index, the component stocks are subject to a special procedure for adding them to the Swiss Market Index or removing them based on free-float market capitalization and liquidity. For additional information about the Swiss Market Index, see the information set forth under “Swiss Market Index” in the accompanying index supplement.

SMI® is a trademark of SIX Swiss Exchange. For more information, see “Swiss Market Index” in the accompanying index supplement.

### Historical Information

The following table sets forth the published high and low Closing Levels, as well as the end-of-quarter Closing Levels, of the Swiss Market Index for each quarter in the period from January 1, 2014 through April 25, 2019. The Closing Level of the Swiss Market Index on April 25, 2019 was 9,694.06. We obtained the information in the table below from Bloomberg Financial Markets, without independent verification. The historical Closing Levels of the Swiss Market Index should not be taken as an indication of future performance, and no assurance can be given as to the Closing Level of the Swiss Market Index on the Final Valuation Date.

## Additional Terms of the Securities

If the terms discussed in this pricing supplement differ from those discussed in the prospectus supplement, index supplement or prospectus, the terms contained in this pricing supplement will control.

## Some Definitions

We have defined some of the terms that we use frequently in this pricing supplement below:

“Closing Level” on any Index Business Day means (i) with respect to each of the Nikkei 225 Index, the EURO STOXX 50<sup>®</sup> Index, the Hang Seng Index, the S&P/ASX 200 Index, the FTSE<sup>®</sup> 100 Index and the Swiss Market Index, the closing value of such Underlier, or any Successor Underlier (as defined under “—Discontinuance of an Underlier; Alteration of Method of Calculation” below) published at the regular weekday close of trading on such Index Business Day by the Underlier Publisher for such Underlier, and (ii) with respect to the MSCI Emerging Markets Index<sup>SM</sup>, the closing value of such Underlier or any Successor Underlier reported by Bloomberg Financial Services, or any successor reporting service the Calculation Agent may select, on that Index Business Day. In certain circumstances, the Closing Level for an Underlier will be based on the alternate calculation of such Underlier as described under “—Discontinuance of an Underlier; Alteration of Method of Calculation.”

The Closing Level of the MSCI Emerging Markets Index<sup>SM</sup> reported by Bloomberg Financial Services may be lower or higher than the official Closing Level of such Underlier published by the Underlier Publisher of such Underlier.

“Underlier Publisher” means, with respect to the Nikkei 225 Index, Nikkei Inc. or any successor thereto; with respect to the SX5E Index, STOXX Limited or any successor thereto; with respect to the HSI Index, Hang Seng Indexes Company or any successor thereto; with respect to the MSCI Emerging Markets Index<sup>SM</sup>, MSCI Inc., or any successor thereto; with respect to the S&P/ASX 200 Index, S&P Dow Jones Indices LLC or any successor thereto; with respect to the FTSE<sup>®</sup> 100 Index, FTSE Russell or any successor thereto; and with respect to the Swiss Market Index, SIX Group Ltd. or any successor thereto.

“Index Business Day” means, with respect to each Underlier, a day, as determined by the Calculation Agent, on which trading is generally conducted on the Relevant Exchange, other than a day on which trading on any Relevant Exchange is scheduled to close prior to the time of the posting of its regular final weekday closing price.

t “Market Disruption Event” means, with respect to each Underlier:

(i) the occurrence or existence of any of:

(a) a suspension, absence or material limitation of trading of stocks then constituting 20 percent or more of the value of such Underlier (or Successor Underlier (as defined below under “—Discontinuance of an Underlier; Alteration of Method of Calculation”)) on the Relevant Exchange for such securities for more than two hours of trading or during the one-half hour period preceding the close of the principal trading session on such Relevant Exchange, or

(b) a breakdown or failure in the price and trade reporting systems of any Relevant Exchange as a result of which the reported trading prices for stocks then constituting 20 percent or more of the value of such Underlier (or Successor Underlier) during the last one-half hour preceding the close of the principal trading session on such Relevant Exchange are materially inaccurate, or

(c) the suspension, material limitation or absence of trading on any major U.S. securities market for trading in futures or options contracts or exchange-traded funds related to such Underlier (or Successor Underlier) for more than two hours of trading or during the one-half hour period preceding the close of the principal trading session on such market,

in each case as determined by the Calculation Agent in its sole discretion; and

(ii) a determination by the Calculation Agent in its sole discretion that any event described in clause (i) above materially interfered with our ability or the ability of any of our affiliates to unwind or adjust all or a material portion of the hedge position with respect to the Securities.

For the purpose of determining whether a Market Disruption Event exists at any time with respect to any Underlier, if trading in a security included in such Underlier is materially suspended or materially limited at that time, then the relevant percentage contribution of that security to the value of such Underlier shall be based on a comparison of (x) the portion of the value of such Underlier attributable to that security relative to (y) the overall value of such Underlier, in each case immediately before that suspension or limitation.

For the purpose of determining whether a Market Disruption Event has occurred with respect to any Underlier: (1) a limitation on the hours or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the Relevant Exchange or market, (2) a decision to permanently discontinue trading in the relevant futures or options contract or any exchange-traded fund will not constitute a Market Disruption Event, (3) a suspension of trading in futures or options contracts or exchange-traded funds on such Underlier by the primary securities market trading in such contracts or funds by reason of (a) a price change exceeding limits set by such securities exchange or market, (b) an imbalance of orders relating to such contracts or funds, or (c) a disparity in bid and ask quotes relating to such contracts or funds will constitute a suspension, absence or material limitation of trading in futures or options contracts or exchange-traded funds related to such Underlier and (4) a “suspension, absence or material limitation of

trading” on any Relevant Exchange or on the primary market on which futures or options contracts or exchange-traded funds related to such Underlier are traded will not include any time when such securities market is itself closed for trading under ordinary circumstances.

“Relevant Exchange” means, with respect to each Underlier, the primary exchange(s) or market(s) of trading for (i) any security then included in such Underlier, or any Successor Underlier, and (ii) any futures or options contracts related to such Underlier or to any security then included in such Underlier.

### **Postponement of Final Valuation Date and Maturity Date**

If the scheduled Final Valuation Date is not an Index Business Day with respect to any Underlier or if a Market Disruption Event occurs on such date with respect to any Underlier, the Closing Level with respect to such affected Underlier (but not the unaffected Underliers) for such date will be determined on the immediately succeeding Index Business Day on which no Market Disruption Event occurs with respect to such affected Underlier. The Final Basket Level will be determined on the date on which the Closing Level for each of the Underliers for such date has been determined; provided that the Closing Level for any affected Underlier with respect to the Final Valuation Date will not be determined on a date later than the fifth scheduled Index Business Day after the scheduled Final Valuation Date. If such date is not an Index Business Day or if there is a Market Disruption Event with respect to the affected Underlier on such date, the Calculation Agent will determine the Closing Level of such Underlier on such date in accordance with the formula for calculating such Underlier last in effect prior to the commencement of the Market Disruption Event (or prior to the non-Index Business Day), without rebalancing or substitution, using the closing price (or, if trading in the relevant securities has been materially suspended or materially limited, its good faith estimate of the closing price that would have prevailed but for such suspension, limitation or non-Index Business Day) on such date of each security most recently constituting such Underlier.

If the Final Valuation Date is postponed so that it falls less than two business days prior to the scheduled Maturity Date, the Maturity Date will be the second business day following the Final Valuation Date, as postponed.

### **Alternate Exchange Calculation in case of an Event of Default**

If an event of default with respect to the Securities shall have occurred and be continuing, the amount declared due and payable upon any acceleration of the Securities (the “Acceleration Amount”) will be an amount, determined by the Calculation Agent in its sole discretion, that is equal to the cost of having a Qualified Financial Institution, of the kind and selected as described below, expressly assume all our payment and other obligations with respect to the Securities as of that day and as if no default or acceleration had occurred, or to undertake other obligations providing substantially equivalent economic value to you with respect to the Securities. That cost will equal:

o the lowest amount that a Qualified Financial Institution would charge to effect this assumption or undertaking, plus  
o the reasonable expenses, including reasonable attorneys' fees, incurred by the holders of the Securities in preparing any documentation necessary for this assumption or undertaking.

During the Default Quotation Period for the Securities, which we describe below, the holders of the Securities and/or we may request a Qualified Financial Institution to provide a quotation of the amount it would charge to effect this assumption or undertaking. If either party obtains a quotation, it must notify the other party in writing of the quotation. The amount referred to in the first bullet point above will equal the lowest—or, if there is only one, the only—quotation obtained, and as to which notice is so given, during the Default Quotation Period. With respect to any quotation, however, the party not obtaining the quotation may object, on reasonable and significant grounds, to the assumption or undertaking by the Qualified Financial Institution providing the quotation and notify the other party in writing of those grounds within two business days after the last day of the Default Quotation Period, in which case that quotation will be disregarded in determining the Acceleration Amount.

Notwithstanding the foregoing, if a voluntary or involuntary liquidation, bankruptcy or insolvency of, or any analogous proceeding is filed with respect to MSFL or Morgan Stanley, then depending on applicable bankruptcy law, your claim may be limited to an amount that could be less than the Acceleration Amount.

If the maturity of the Securities is accelerated because of an event of default as described above, we shall, or shall cause the Calculation Agent to, provide written notice to the Trustee at its New York office, on which notice the Trustee may conclusively rely, and to the Depositary of the Acceleration Amount and the aggregate cash amount due, if any, with respect to the Securities as promptly as possible and in no event later than two business days after the date of such acceleration.

#### *Default Quotation Period*

The Default Quotation Period is the period beginning on the day the Acceleration Amount first becomes due and ending on the third business day after that day, unless:

o no quotation of the kind referred to above is obtained, or

o every quotation of that kind obtained is objected to within five business days after the due date as described above.

If either of these two events occurs, the Default Quotation Period will continue until the third business day after the first business day on which prompt notice of a quotation is given as described above. If that quotation is objected to as described above within five business days after that first business day, however, the Default Quotation Period will

continue as described in the prior sentence and this sentence.

In any event, if the Default Quotation Period and the subsequent two business day objection period have not ended before the Final Valuation Date, then the Acceleration Amount will equal the principal amount of the Securities.

*Qualified Financial Institutions*

For the purpose of determining the Acceleration Amount at any time, a Qualified Financial Institution must be a financial institution organized under the laws of any jurisdiction in the United States or Europe, which at that time has outstanding debt obligations with a stated maturity of one year or less from the date of issue and rated either:

○ A-2 or higher by Standard & Poor's Ratings Services or any successor, or any other comparable rating then used by that rating agency, or

○ P-2 or higher by Moody's Investors Service or any successor, or any other comparable rating then used by that rating agency.

**Discontinuance of an Underlier; Alteration of Method of Calculation**

If an Underlier Publisher of the relevant Underlier discontinues publication of such Underlier and the Underlier Publisher or another entity (including MS & Co.) publishes a successor or substitute index that the Calculation Agent determines, in its sole discretion, to be comparable to such discontinued Underlier (such index being referred to herein as a "Successor Underlier"), then any subsequent Closing Level for the discontinued Underlier will be determined by reference to the published value of such Successor Underlier at the regular weekday close of trading on any Index Business Day that the Closing Level for such Underlier is to be determined, and, to the extent the Closing Level of the Successor Underlier differs from the Closing Level of the relevant Underlier at the time of such substitution, proportionate adjustments will be made by the Calculation Agent for purposes of calculating payments on the Securities.

Upon any selection by the Calculation Agent of a Successor Underlier, the Calculation Agent will cause written notice thereof to be furnished to the Trustee, to us and to the Depository, as holder of the Securities, within three business days of such selection. We expect that such notice will be made available to you, as a beneficial owner of such Securities, in accordance with the standard rules and procedures of the Depository and its direct and indirect participants.

If an Underlier Publisher discontinues publication of the relevant Underlier prior to, and such discontinuance is continuing on, the Final Valuation Date and the Calculation Agent determines, in its sole discretion, that no Successor

Underlier is available at such time, then the Calculation Agent will determine the Closing Level for such Underlier for such date. The Closing Level of such Underlier will be computed by the Calculation Agent in accordance with the formula for and method of calculating such Underlier last in effect prior to such discontinuance, using the closing price (or, if trading in the relevant securities has been materially suspended or materially limited, its good faith estimate of the closing price that would have prevailed but for such suspension or limitation) at the close of the principal trading session of the Relevant Exchange on the Final Valuation Date of each security most recently constituting such Underlier without any rebalancing or substitution of such securities following such discontinuance. Notwithstanding these alternative arrangements, discontinuance of the publication of any Underlier may adversely affect the value of the Securities.

If at any time the method of calculating an Underlier or Successor Underlier, or the value thereof, is changed in a material respect, or if an Underlier or Successor Underlier is in any other way modified so that such index does not, in the opinion of the Calculation Agent, fairly represent the value of such index had such changes or modifications not been made, then, from and after such time, the Calculation Agent will, at the close of business in New York City on each date on which the Closing Level for such index is to be determined, make such calculations and adjustments as, in the good faith judgment of the Calculation Agent, may be necessary in order to arrive at a value of a stock index comparable to such Underlier or Successor Underlier, as the case may be, as if such changes or modifications had not been made, and the Calculation Agent will calculate the Closing Level with reference to such Underlier or Successor Underlier, as adjusted. Accordingly, if the method of calculating such Underlier or Successor Underlier is modified so that the value of such index is a fraction of what it would have been if it had not been modified (e.g., due to a split in such index), then the Calculation Agent will adjust such index in order to arrive at a value of such Underlier or Successor Underlier as if it had not been modified (e.g., as if such split had not occurred).

### **Trustee**

The “Trustee” for each offering of notes issued under our Senior Debt Indenture, including the Securities, will be The Bank of New York Mellon, a New York banking corporation.

### **Agent**

The “agent” is MS & Co.

### **Calculation Agent and Calculations**

The “Calculation Agent” for the Securities will be MS & Co. As Calculation Agent, MS & Co. will determine, among other things, the Initial Levels, the Final Levels, the Final Basket Level, the Basket Return and the Payment at Maturity.

All determinations made by the Calculation Agent will be at the sole discretion of the Calculation Agent and will, in the absence of manifest error, be conclusive for all purposes and binding on you, the Trustee and us.

All calculations with respect to the Payment at Maturity will be rounded to the nearest one billionth, with five ten-billionths rounded upward (e.g., .9876543215 would be rounded to .987654322); all dollar amounts related to determination of the

amount of cash payable per Security will be rounded to the nearest ten-thousandth, with five one hundred-thousandths rounded upward (e.g., .76545 would be rounded up to .7655); and all dollar amounts paid on the aggregate number of Securities will be rounded to the nearest cent, with one-half cent rounded upward.

Because the Calculation Agent is our affiliate, the economic interests of the Calculation Agent and its affiliates may be adverse to your interests, as an owner of the Securities, including with respect to certain determinations and judgments that the Calculation Agent must make in determining the Final Basket Level or whether a Market Disruption Event has occurred. See “—Discontinuance of an Underlier; Alteration of Method of Calculation,” and the definition of Market Disruption Event. MS & Co. is obligated to carry out its duties and functions as Calculation Agent in good faith and using its reasonable judgment.

### **Issuer Notice to Registered Security Holders, the Trustee and the Depositary**

In the event that the Maturity Date of the Securities is postponed due to a postponement of the Final Valuation Date, the Issuer shall give notice of such postponement and, once it has been determined, of the date to which the Maturity Date has been rescheduled (i) to each registered holder of the Securities by mailing notice of such postponement by first class mail, postage prepaid, to such registered holder’s last address as it shall appear upon the registry books, (ii) to the Trustee by facsimile confirmed by mailing such notice to the Trustee by first class mail, postage prepaid, at its New York office and (iii) to The Depository Trust Company (the “Depository”) by telephone or facsimile confirmed by mailing such notice to the Depository by first class mail, postage prepaid. Any notice that is mailed to a registered holder of the Securities in the manner herein provided shall be conclusively presumed to have been duly given to such registered holder, whether or not such registered holder receives the notice. The Issuer shall give such notice as promptly as possible, and in no case later than (i) with respect to notice of postponement of the Maturity Date, the business day immediately preceding the scheduled Maturity Date and (ii) with respect to notice of the date to which the Maturity Date has been rescheduled, the business day immediately following the Final Valuation Date as postponed.

The Issuer shall, or shall cause the Calculation Agent to, (i) provide written notice to the Trustee and to the Depository of the amount of cash, if any, to be delivered with respect to each stated principal amount of the Securities, on or prior to 10:30 a.m. (New York City time) on the business day preceding the Maturity Date, and (ii) deliver the aggregate cash amount due with respect to the Securities, if any, to the Trustee for delivery to the Depository, as holder of the Securities, on the Maturity Date.

## Additional Information About the Securities

### Use of Proceeds and Hedging

The proceeds from the sale of the Securities will be used by us for general corporate purposes. We will receive, in aggregate, \$10 per Security issued, because, when we enter into hedging transactions in order to meet our obligations under the Securities, our hedging counterparty will reimburse the cost of the Agent's commissions. The costs of the Securities borne by you and described on page 2 above comprise the Agent's commissions and the cost of issuing, structuring and hedging the Securities. See also "Use of Proceeds" in the accompanying prospectus.

On or prior to the Trade Date, we hedged our anticipated exposure in connection with the Securities, by entering into hedging transactions with our affiliates and/or third party dealers. We expect our hedging counterparties to have taken positions in the constituent stocks of the Underliers, in futures or options contracts on the Underliers or the constituent stocks of the Underliers. Such purchase activity could have increased the Initial Levels of the Underliers, and, therefore, could have increased the levels at or above which the Underliers must close on the Final Valuation Date so that you do not suffer a loss on your initial investment in the Securities. In addition, through our affiliates, we are likely to modify our hedge position throughout the term of the Securities, including on the Final Valuation Date, by purchasing and selling the constituent stocks of the Underliers, futures or options contracts on the Underliers or the constituent stocks of the Underliers, as well as other instruments related to the Underliers that we may wish to use in connection with such hedging activities, including by purchasing or selling any such securities or instruments on the Final Valuation Date. As a result, these entities may be unwinding or adjusting hedge positions during the term of the Securities, and the hedging strategy may involve greater and more frequent dynamic adjustments to the hedge as the Final Valuation Date approaches. We cannot give any assurance that our hedging activities will not affect the levels of the Underliers, and, therefore, adversely affect the value of the Securities or the amount payable at maturity, if any.

### Benefit Plan Investor Considerations

Each fiduciary of a pension, profit-sharing or other employee benefit plan subject to Title I of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") (a "Plan"), should consider the fiduciary standards of ERISA in the context of the Plan's particular circumstances before authorizing an investment in the Securities. Accordingly, among other factors, the fiduciary should consider whether the investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the Plan.

In addition, we and certain of our affiliates, including MS & Co., may each be considered a "party in interest" within the meaning of ERISA, or a "disqualified person" within the meaning of the Internal Revenue Code of 1986, as amended (the "Code"), with respect to many Plans, as well as many individual retirement accounts and Keogh plans (such

accounts and plans, together with other plans, accounts and arrangements subject to Section 4975 of the Code, also “Plans”). ERISA Section 406 and Code Section 4975 generally prohibit transactions between Plans and parties in interest or disqualified persons. Prohibited transactions within the meaning of ERISA or the Code would likely arise, for example, if the Securities are acquired by or with the assets of a Plan with respect to which MS & Co. or any of its affiliates is a service provider or other party in interest, unless the Securities are acquired pursuant to an exemption from the “prohibited transaction” rules. A violation of these “prohibited transaction” rules could result in an excise tax or other liabilities under ERISA and/or Section 4975 of the Code for those persons, unless exemptive relief is available under an applicable statutory or administrative exemption.

The U.S. Department of Labor has issued five prohibited transaction class exemptions (“PTCEs”) that may provide exemptive relief for direct or indirect prohibited transactions resulting from the purchase or holding of the Securities. Those class exemptions are PTCE 96-23 (for certain transactions determined by in-house asset managers), PTCE 95-60 (for certain transactions involving insurance company general accounts), PTCE 91-38 (for certain transactions involving bank collective investment funds), PTCE 90-1 (for certain transactions involving insurance company separate accounts) and PTCE 84-14 (for certain transactions determined by independent qualified professional asset managers). In addition, ERISA Section 408(b)(17) and Code Section 4975(d)(20) provide an exemption for the purchase and sale of securities and the related lending transactions, provided that neither the issuer of the securities nor any of its affiliates has or exercises any discretionary authority or control or renders any investment advice with respect to the assets of the Plan involved in the transaction and provided further that the Plan pays no more, and receives no less, than “adequate consideration” in connection with the transaction (the so-called “service provider” exemption). There can be no assurance that any of these class or statutory exemptions will be available with respect to transactions involving the Securities.

Because we may be considered a party in interest with respect to many Plans, the Securities may not be purchased, held or disposed of by any Plan, any entity whose underlying assets include “plan assets” by reason of any Plan’s investment in the entity (a “Plan Asset Entity”) or any person investing “plan assets” of any Plan, unless such purchase, holding or disposition is eligible for exemptive relief, including relief available under PTCEs 96-23, 95-60, 91-38, 90-1, 84-14 or the service provider exemption or such purchase, holding or disposition is otherwise not prohibited. Any purchaser, including any fiduciary purchasing on behalf of a Plan, transferee or holder of the Securities will be deemed to have represented, in its corporate and its fiduciary capacity, by its purchase and holding of the Securities that either (a) it is not a Plan or a Plan Asset Entity and is not purchasing such Securities on behalf of or with “plan assets” of any Plan or with any assets of a governmental, non-U.S. or church plan that is subject to any federal, state, local or non-U.S. law that is substantially similar to the provisions of Section 406 of ERISA or Section 4975 of the

Code (“Similar Law”) or (b) its purchase, holding and disposition of these Securities will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or violate any Similar Law.

Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries or other persons considering purchasing the Securities on behalf of or with “plan assets” of any Plan consult with their counsel regarding the availability of exemptive relief.

The Securities are contractual financial instruments. The financial exposure provided by the Securities is not a substitute or proxy for, and is not intended as a substitute or proxy for, individualized investment management or advice for the benefit of any purchaser or holder of the Securities. The Securities have not been designed and will not be administered in a manner intended to reflect the individualized needs and objectives of any purchaser or holder of the Securities.

Each purchaser or holder of any Securities acknowledges and agrees that:

the purchaser or holder or its fiduciary has made and shall make all investment decisions for the purchaser or holder and the purchaser or holder has not relied and shall not rely in any way upon us or our affiliates to act as a fiduciary (i) or adviser of the purchaser or holder with respect to (A) the design and terms of the Securities, (B) the purchaser or holder’s investment in the Securities, or (C) the exercise of or failure to exercise any rights we have under or with respect to the Securities;

(ii) we and our affiliates have acted and will act solely for our own account in connection with (A) all transactions relating to the Securities and (B) all hedging transactions in connection with our obligations under the Securities;

(iii) any and all assets and positions relating to hedging transactions by us or our affiliates are assets and positions of those entities and are not assets and positions held for the benefit of the purchaser or holder;

(iv) our interests are adverse to the interests of the purchaser or holder; and

neither we nor any of our affiliates is a fiduciary or adviser of the purchaser or holder in connection with any such (v) assets, positions or transactions, and any information that we or any of our affiliates may provide is not intended to be impartial investment advice.

Each purchaser and holder of the Securities has exclusive responsibility for ensuring that its purchase, holding and disposition of the Securities do not violate the prohibited transaction rules of ERISA or the Code or any Similar Law. The sale of any Securities to any Plan or plan subject to Similar Law is in no respect a representation by us or any of our affiliates or representatives that such an investment meets all relevant legal requirements with respect to investments by plans generally or any particular plan, or that such an investment is appropriate for plans generally or any particular plan. In this regard, neither this discussion nor anything provided in this document is or is intended to be investment advice directed at any potential Plan purchaser or at Plan purchasers generally and such purchasers of these Securities should consult and rely on their own counsel and advisers as to whether an investment in these Securities is suitable.

However, individual retirement accounts, individual retirement annuities and Keogh plans, as well as employee benefit plans that permit participants to direct the investment of their accounts, will not be permitted to purchase or hold the Securities if the account, plan or annuity is for the benefit of an employee of Morgan Stanley or Morgan Stanley Wealth Management or a family member and the employee receives any compensation (such as, for example, an addition to bonus) based on the purchase of the Securities by the account, plan or annuity.

### **Supplemental Plan of Distribution; Conflicts of Interest**

MS & Co. is the agent for this offering. We has agreed to sell to MS & Co., and MS & Co. has agreed to purchase, all of the Securities at the issue price less the underwriting discount indicated on the cover of this document. UBS Financial Services Inc., acting as dealer, will receive from MS & Co. a fixed sales commission of \$0.20 for each Security it sells.

MS & Co. is our affiliate and a wholly owned subsidiary of Morgan Stanley, and it and other affiliates of ours expect to make a profit by selling, structuring and, when applicable, hedging the Securities.

MS & Co. will conduct this offering in compliance with the requirements of Rule 5121 of the Financial Industry Regulatory Authority, Inc. ("FINRA"), regarding a FINRA member firm's distribution of the securities of an affiliate and related conflicts of interest. MS & Co. or any of our other affiliates may not make sales in this offering to any discretionary account.

In order to facilitate the offering of the Securities, the agent may engage in transactions that stabilize, maintain or otherwise affect the price of the Securities. Specifically, the agent may sell more Securities than it is obligated to purchase in connection with the offering, creating a naked short position in the Securities, for its own account. The agent must close out any naked short position by purchasing the Securities in the open market. A naked short position is more likely to be created if the agent is concerned that there may be downward pressure on the price of the Securities in the open market after pricing that could adversely affect investors who purchase in the offering. As an additional means of facilitating the offering, the agent may bid for, and purchase, the Securities or the constituent stocks of the Underliers in the open market to stabilize the price of the Securities. Any of these activities may raise or

maintain the market price of the Securities above independent market levels or prevent or retard a decline in the market price of the Securities. The agent is not required to engage in these activities, and may end any of these activities at any time. An affiliate of the agent has entered into a hedging transaction with us in connection with this offering of Securities. See “—Use of Proceeds and Hedging” above.

## **Form of Securities**

The Securities will be issued in the form of one or more fully registered global securities which will be deposited with, or on behalf of, the Depositary and will be registered in the name of a nominee of the Depositary. The Depositary's nominee will be the only registered holder of the Securities. Your beneficial interest in the Securities will be evidenced solely by entries on the books of the securities intermediary acting on your behalf as a direct or indirect participant in the Depositary. In this pricing supplement, all references to payments or notices to you will mean payments or notices to the Depositary, as the registered holder of the Securities, for distribution to participants in accordance with the Depositary's procedures. For more information regarding the Depositary and book entry notes, please read "Form of Securities—The Depositary" in the accompanying prospectus supplement and "Securities Offered on a Global Basis Through the Depositary" in the accompanying prospectus.

## **Validity of the Securities**

In the opinion of Davis Polk & Wardwell LLP, as special counsel to MSFL and Morgan Stanley, when the Securities offered by this pricing supplement have been executed and issued by MSFL, authenticated by the trustee pursuant to the MSFL Senior Debt Indenture (as defined in the accompanying prospectus) and delivered against payment as contemplated herein, such Securities will be valid and binding obligations of MSFL and the related guarantee will be a valid and binding obligation of Morgan Stanley, enforceable in accordance with their terms, subject to applicable bankruptcy, insolvency and similar laws affecting creditors' rights generally, concepts of reasonableness and equitable principles of general applicability (including, without limitation, concepts of good faith, fair dealing and the lack of bad faith), provided that such counsel expresses no opinion as to (i) the effect of fraudulent conveyance, fraudulent transfer or similar provision of applicable law on the conclusions expressed above and (ii) any provision of the MSFL Senior Debt Indenture that purports to avoid the effect of fraudulent conveyance, fraudulent transfer or similar provision of applicable law by limiting the amount of Morgan Stanley's obligation under the related guarantee. This opinion is given as of the date hereof and is limited to the laws of the State of New York, the General Corporation Law of the State of Delaware and the Delaware Limited Liability Company Act. In addition, this opinion is subject to customary assumptions about the trustee's authorization, execution and delivery of the MSFL Senior Debt Indenture and its authentication of the Securities and the validity, binding nature and enforceability of the MSFL Senior Debt Indenture with respect to the trustee, all as stated in the letter of such counsel dated November 16, 2017, which is Exhibit 5-a to the Registration Statement on Form S-3 filed by Morgan Stanley on November 16, 2017.
