## **CORPORATE GOVERNANCE**

### **Director Independence**

We are authorized by our Bylaws to maintain a Board of Directors comprised of a minimum of three directors and no more than nine directors. Our Board currently consists of five directors, three of whom, Messrs. Norton, Patterson and Cowan, are independent as defined under rules promulgated by the Securities and Exchange Commission (SEC) and the Nasdaq Stock Market. In accordance with the independence standards of the Nasdaq Stock Market, a director must be determined to have no personal, professional, familial or other relationship with the Company other than as a director. Our directors are elected for three year terms, or until an earlier resignation, death or removal. There are no family relationships among any of our directors or officers.

### **Board of Directors and Board Committees**

The Board of Directors held four regularly scheduled meetings during the last full fiscal year and three special meetings. No director attended less than 75% of the aggregate of such meetings and meetings held by committees of the Board on which he served. We do not have a formal policy regarding attendance by members of the Board of Directors at our annual meeting of stockholders, but strongly encourage directors to attend all meetings. All members of our Board of Directors attended the 2007 Annual Meeting of Stockholders.

The standing committees of the Board are as follows: Audit Committee (established in accordance with Section 3(a)(58)(A) of the Exchange Act), Nominating and Governance Committee, and Compensation Committee. The Board has adopted a charter for its Audit Committee and its Nominating and Governance Committee, which are available on our website at [www.meadowvalley.com](http://www.meadowvalley.com) by following the link Investor Information. The Compensation Committee is not operating under a written charter. Stockholders may also receive a free copy of the committee charters by sending a written request to 4602 E. Thomas Road, Phoenix, Arizona 85018, Attention: Secretary, or calling (602) 437-5400.

In November 2007, the Board established the Special Committee comprised of the Company's independent directors. The committee was created based upon the disclosure that a management backed group was and currently is exploring the possibility of tendering an offer to purchase the Company's common stock. The Special Committee is reviewing the Company's strategic alternatives and how its strategic alternatives maximize stockholder value. The Special Committee will also evaluate any acquisition proposals that may be received as a result of this process or as a result of any management backed acquisition proposal or any other third party proposal.

In evaluating the suitability of potential nominees for membership on the Board, the Nominating and Governance Committee will consider the Board's current composition, including expertise, diversity, and balance of inside, outside and independent directors, and consider the general qualifications of the potential nominees, such as:

The Nominating and Governance Committee will also see that all necessary and appropriate inquiries are made into the backgrounds of such candidates. Other than the foregoing, there are no stated minimum criteria for director nominees, although the Nominating and Governance Committee may also consider such other factors as it may deem to be in the best interests of the Company and its stockholders.

**EXECUTIVE COMPENSATION**  
**Compensation Discussion and Analysis**

**Overview of Executive Compensation Program**

The Compensation Committee of the Board is responsible for assisting the Board in defining and overseeing the Company's general compensation practices. During fiscal 2007, the Compensation Committee finalized the executive compensation package, based on the recommendation from FMI Management Consulting ( FMI ).

The persons who served as our Chief Executive Officer and Chief Financial Officer during 2007, as well as other individuals named in our Summary Compensation Table for 2007, are referred to as the named executive officers throughout this section of our Annual Report on Form 10-K.

**Executive Summary**

As discussed in more detail below, the following actions concerning the compensation of the Company's named executive officers were taken for fiscal 2007:

Alan Terril resigned as Vice President and Chief Operating Officer.

Bradley E. Larson, Kenneth D. Nelson, David D. Doty, Robert Bottcher and Robert Terril received a salary increase during fiscal 2007.

Bradley E. Larson, Kenneth D. Nelson, David D. Doty, Robert Bottcher and Robert Terril received incentives pursuant to the Company's Non-Equity Incentive Plan (the Incentive Plan ).

Robert Bottcher, Arizona Area President of Meadow Valley Contractors, Inc, and Robert Terril, Nevada Area President of Meadow Valley Contractors, Inc., were included as named executive officers for 2007.

**Oversight of Executive Compensation Program and Role of Executive Officers in Compensation Decisions**

While the Compensation Committee approves all aspects of our executive compensation program, it reports to the full Board of Directors on a regular basis and seeks approval for certain actions. The Committee coordinates with its consultants and management to obtain marketplace and internal data analyses, project reports and program recommendations to assist the Compensation Committee in making executive compensation decisions. Our Chief Executive Officer and, in some cases, other executive officers make recommendations to the Compensation Committee with respect to various elements of executive compensation.

**Compensation Objectives and Philosophy**

The Company's primary objectives when determining compensation for its named executive officers are to:  
set levels of annual salary, non-equity incentives and equity compensation that are competitive and that will attract and retain superior executives, taking into account the difficult industry conditions and competitive environment that the Company faces,

incorporate a performance-based component to executive compensation by linking the incentive compensation to the Company's financial and operational performance, and

provide long-term equity-based compensation, thereby further aligning the interests of the Company's executives with those of its other stockholders.

These objectives are designed to reward each executive's (1) past individual performance and contribution to the Company's corporate performance, (2) level and scope of responsibility and experience, and (3) ability to influence the Company's future growth and profitability.

**Table of Contents**

**Components of 2007 Executive Compensation**

Our executive compensation has three main parts: a salary paid in cash, an annual non-equity cash incentive plan, in which payment is contingent on the financial performance of the Company, and a long-term equity incentive that the Company provides through the award of options to purchase the Company's common stock. The salary component is intended to reward executives for their current, day-to-day work. The cash incentive bonus is intended to be a reward for the executive's contribution to the financial success of the Company in a given year. Awards of equity are intended to create longer-term incentive for the executive to remain with the Company since the benefit is realized, if the Company is successful, over a multi-year period similar to our stockholders.

***Annual Salary***

Because an executive's annual salary is meant to reflect his value to the Company on a day-to-day basis, it is a fixed, predetermined element of his compensation. When the Compensation Committee reviews the level of an executive's salary for a possible increase at the end of the term of his employment agreement or on an annual basis if no employment agreement is in place, that review is based on two main factors: his prior salary and the salary range of executives in comparable companies at a comparable level of responsibility. The Compensation Committee members take an executive's prior salary into account because they believe that it reflects the assessment of prior boards and/or compensation committees of the executive's value to the Company. Compensation levels of comparable companies are obtained from industry trade publications, management consulting firms such as FMI and other public companies similar to our size and industry. In addition, the Compensation Committee provides its knowledge of construction industry compensation levels gained in the course of the work each independent director performs in their daily business activity.

***Non-Equity Incentive Plan***

Previously, the amount of cash incentive executive management could earn was derived from a formula principally based upon the Company's income before income taxes. For the 2007 fiscal year, the amount of executive management cash incentive payable in 2008 was derived from a formula principally based upon the Company's return on net assets. The Compensation Committee established a minimum return on net assets of 7.4% in order for non-equity incentive compensation to be paid in 2008. The Compensation Committee adopted 7.4% as a minimum return on net assets based upon the results of the compensation review and analysis performed by FMI and the Company's own analysis of its weighted average cost of capital, industry comparisons, growth rates and market conditions the Company is experiencing.

The measurement of the return on net assets for each of the four profit centers eligible for non-equity cash incentive (Area) is the adjusted income from operations for the Area divided by one fourth of the Company's net assets. The Company's net assets are its total assets less current liabilities, long-term debt and deferred income taxes. Income from operations from each Area is determined and then corporate general and administrative expenses are allocated to all Areas. The resulting adjusted Area operating income is subtracted from the calculated minimum adjusted Area operating income derived from the minimum return of 7.4%. The resulting difference, if any, is aggregated into a combined total and 30% of this excess adjusted Area operating income, net of corporate general and administrative expenses, is determined for possible bonus payout. The 30% allocation of this excess combined adjusted Area operating income to create an incentive bonus pool was established and approved by the Compensation Committee.

Of the amount allocated to the bonus pool, the Compensation Committee established that 60% be allocated to Area incentive bonus, 30% be allocated to corporate bonus and the remaining 10% be allocated for a discretionary pool. Amounts in the Area pool and the corporate pool are distributed pro-rata by each individual's annual salary within the respective pools to participants until amounts in the respective pools are exhausted or until amounts distributed individually reach the participant's maximum cap determined by a percent of the participant's annual salary. These maximum allocations of annual salary vary by position and are reviewed and approved annually by the Compensation Committee.

**Table of Contents**

Maximum non-equity incentive compensation amounts for the following named executives are expressed as a percentage of their respective annual salaries:

Name and Principal Position	Maximum of Non-Equity Cash Incentive as a Percent of Annual Salary
Bradley E. Larson, President and Chief Executive Officer (Principal Executive Officer)	115%
David D. Doty, Chief Financial Officer, Secretary and Treasurer (Principal Financial Officer)	70%
Kenneth D. Nelson, Vice-President and Chief Administrative Officer	110%
Robert Bottcher, Arizona Area President Meadow Valley Contractors, Inc. (a Meadow Valley Corporation wholly owned subsidiary)	65%
Robert Terril, Nevada Area President Meadow Valley Contractors, Inc. (a Meadow Valley Corporation wholly owned subsidiary)	65%

The Compensation Committee authorizes the payment of incentive amounts and, if applicable, makes any decisions on discretionary amounts, when the results for the year in question are known, typically in late February or early March of the following year. Incentive amounts for 2007 were approved in March 2008. The *Summary Compensation Table for 2007*, below, shows the total 2007 cash incentive amounts of each named executive officer.

**Equity Incentive Plan**

The award of an option to buy the Company's common stock is a long-term element of compensation since on the date of the award, the exercise price, or purchase price, of the shares subject to the option is the same as the price of those shares on the open market. The recipient of a stock option will only realize its value if the market price of the shares increases over the life of the option, the award gives the executive an incentive to remain with the Company and aligns his interests with those of our stockholders.

The Company calculates the value of a stock option award on the date of its grant under accounting requirements that involve the use of a complex formula consisting of estimates about the Company, its stock price and the likelihood of the option holder forfeiting the stock option. The dollar amount shown in the *Summary Compensation Table for 2007*, below, for stock option awards is the value of the options computed under FAS 123R.

In determining the size of a stock option award, the Compensation Committee takes into account both the value of the award to the recipient and the corresponding accounting cost to the Company.

**Other Compensation**

The only other forms of compensation of the executive officers are the personal use of Company vehicles, disability and term life insurance and other benefits made available to all salaried employees and the perquisites shown in the *Summary Compensation Table for 2007*, below, in the column labeled *All Other Compensation*. A detailed description of the perquisites is shown in footnote 3 to the table. The payment of Messrs. Larson, Nelson, Bottcher and Terril's term life insurance premiums is a benefit that has been provided to them by the Company for many years and was established when the Company determined to carry a key officer life policy on each of the executives in the same amounts as the policy provided each officer. This benefit is also applicable to Mr. Doty, however, no amounts were paid in 2007 for term life insurance on his behalf.

**Table of Contents**

***Overall Compensation Levels***

As with salary, the Company attempts to provide its executives with a total compensation package that is comparable to their peers in the industry and that the members of the Compensation Committee believe in their personal judgment and based on their business experience is fair and appropriate for the executive's level of responsibility and contribution to the Company. The Compensation Committee, which consists of only our independent members of the Board of Directors, makes the final determination of the compensation of the named executive officers. However, the Committee discusses their compensation recommendations for each executive officer with the Chief Executive Officer in advance of making a decision.

***Employment Agreements***

Messrs. Larson, Doty, Nelson, Bottcher and R. Terril currently are employed by the Company through employment agreements. In November 2006, the Company entered into two-year employment agreements with Messrs. Bottcher and Terril and three-year employment agreements with Messrs. Larson, Doty and Nelson, of which Messrs. (1) This column represents the aggregate dollar amount of the awards granted in each respective year. Therefore, the values shown here are not representative of the amounts that may eventually be realized by an executive. Pursuant to the rules of the Securities and Exchange Commission, we have provided a grant date fair value for option awards in accordance with the provisions of Statement of Financial Accounting Standards No. 123(R), Share-based Payments.

For option awards, the fair value is estimated as of the date of grant using the Black-Scholes option pricing model, which requires the use of certain assumptions, including the risk-free interest rate, dividend yield, volatility and expected term. The risk-free interest rate is based on the yield at the date of grant of a U.S. Treasury security with a maturity period equal to or approximating the option's expected term. The dividend yield assumption is based on our historical dividend payouts, which is zero. The volatility assumption is based on the historical volatility of our common stock over a period equal to the option's expected term or trading stock's trading history which ever is

**Equity Incentive Plans*****Meadow Valley Corporation Equity Incentive Plan:***

In 2005, the 2004 Equity Incentive Plan ( 2004 Plan ) was ratified by the stockholders. The 2004 Plan permits the granting of any or all of the following types of awards: (1) incentive and nonqualified stock options, (2) stock appreciation rights, (3) stock awards, restricted stock and stock units, and (4) other stock or cash-based awards. In connection with any award or any deferred award, payments may also be made representing dividends or their equivalent.

The 2004 Plan authorizes the issuance of up to 1,200,000 shares of common stock, all of which were previously reserved for issuance under the Company's prior plan. Shares of common stock covered by an award granted under the 2004 Plan will not be counted as used unless and until they are actually issued and delivered to a participant. Shares relating to awards granted under the 2004 Plan that are forfeited, settled for cash or otherwise terminated and shares withheld by or tendered to the Company in connection with the exercise of an option or other award granted under the 2004 Plan or in connection with the satisfaction of tax withholding obligations relating to awards or exercises of options or other awards are available for grant under the 2004 Plan. Awards made or adjusted to assume or convert awards in connection with acquisition transactions will not reduce the number of shares authorized for issuance under the 2004 Plan. The shares of stock deliverable under the 2004 Plan will consist of authorized and unissued shares. The plan administrator may adjust the aggregate number of shares or the awards under the plan in the event of a change affecting shares of common stock, such as stock dividends, recapitalization, reorganization or mergers.

The 2004 Plan is administered by the Compensation Committee of the Board of Directors which was comprised of non-employee directors. The 2004 Plan has no fixed termination date. The Company's Board of Directors or the committee may generally amend, alter, suspend, discontinue or terminate all or a portion of the 2004 Plan at any time, as long as the rights of a participant are not materially impaired without the participant's consent, subject to stockholder approval to the extent necessary to comply with applicable law, stock exchange rule or regulatory

requirements or, as determined by the committee, to qualify with tax requirements.

**Table of Contents**

In 2007, we granted, under the 2004 Plan, an aggregate of 15,000 stock options to independent directors at an exercise price of \$13.88.

We have reserved 1,200,000 shares of our common stock for issuance under the 2004 Plan. As of December 31, 2007, 150,149 shares were available for future grant under the 2004 Plan. The common terms of the stock options are from five to ten years and generally, may be exercised after issuance as follows: 33.3% after one year of continuous service, 66.6% after two years of continuous service and 100% after three years of continuous service. The exercise price of each option is no less than the market closing price of the Company's common stock on the date of grant. The Company's Board of Directors has full discretion to modify these terms.

***Ready Mix, Inc. Equity Incentive Plan:***

In January 2005, RMI adopted an equity incentive plan, which we refer to as RMI's Plan, which provides for the grant of options intended to qualify as incentive stock options and non-statutory stock options within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended, together with the grant of bonus stock and stock appreciation rights at the discretion of RMI's Board of Directors. Incentive stock options are issuable only to RMI's eligible officers, directors and key employees. Non-statutory stock options are issuable only to RMI's non-employee directors and consultants.

RMI's Plan is administered by RMI's Compensation Committee. Currently, RMI has 673,000 shares of common stock reserved for issuance under RMI's Plan. Under RMI's Plan, RMI's Board of Directors determines which individuals shall receive options, grants or stock appreciation rights, the time period during which the rights may be exercised, the number of shares of common stock that may be purchased under the rights and the option price.

With respect to stock options, the per share exercise price of the common stock may not be less than the fair market value of the common stock on the date the option is granted. No person who owns, directly or indirectly, at the time of the granting of an incentive stock option, more than 10% of the total combined voting power of all classes of RMI's stock is eligible to receive incentive stock options under RMI's Plan unless the option price is at least 110% of the fair market value of RMI's common stock subject to the option on the date of grant. The option price for non-statutory options is established by RMI's Board and may not be less than 100% of the fair market value of RMI's common stock subject to the option on the date of grant.

No options may be transferred by an optionee other than by will or the laws of descent and distribution, and during the lifetime of an optionee, the option may only be exercisable by the optionee. Options may be exercised only if the option holder remains continuously associated with RMI from the date of grant to the date of exercise, unless extended under RMI's Plan grant. Options granted under RMI's Plan expire five years after the date of the option grant and the exercise date of an option is not longer than five years from the date of grant, but can be shorter when established by the plan administrator. Any options that expire unexercised or that terminate upon an optionee's ceasing to be employed by us become available once again for issuance. Shares issued upon exercise of an option rank equally with other shares then outstanding.

Initially, RMI reserved 675,000 shares of common stock for issuance to officers, directors and employees under RMI's Plan described above. Options will be issued to employees and executive officers based on the recommendation of RMI's compensation committee of the Board of Directors according to the following:

employees holding positions of responsibility with RMI whose performance can have a significant effect on RMI's success; and

non-employee directors.

Currently, RMI has granted under RMI's Plan an aggregate of 386,125 options to purchase common stock to officers, directors and employees at an exercise price ranging from \$6.40 to \$12.85. Typically, the options are exercisable from the grant date as follows: 33% of the options are exercisable after one year of continuous service to us, 66% after two years of continuous service and 100% after three years of continuous service. RMI's Board of Directors has full discretion to use different vesting schedules for each grant made under RMI's Plan.

The Audit Committee has concluded that the provision of services by Semple, Marchal & Cooper, LLP are compatible with maintaining their independence and has approved the above mentioned services performed.

**Audit Committee Approval of Audit and Non-Audit Service**

The Audit Committee has a Pre-approval Policy ( Policy ) governing the approval of all audit and non-audit services performed by the independent registered public accountants in order to ensure that the performance of such services does not impair the independent registered public accountants.

According to the Policy, the Audit Committee will annually review and pre-approve the services and fees that may be provided by the independent registered public accountants during the following year. The Policy specifically describes the services and fees related to the annual audit, other services that are audit-related, preparation of tax returns and tax related compliance services and all other services that have the pre-approval of the Audit Committee. The term of any general pre-approval is 12 months from the date of pre-approval, unless the Audit Committee specifically provides for a different period.

Any service to be provided by the independent registered public accountants that has not received general pre-approval under the Policy is required to be submitted to the Audit Committee for approval prior to the commencement of a substantial portion of the engagement. Any proposed service exceeding pre-approved cost levels is also required to be submitted to the Audit Committee for specific approval.

The services provided by our independent registered public accountants during the year ended December 31, 2007 were all pre-approved by the Audit Committee.

The Audit Committee will revise the list of general pre-approved services from time to time based on subsequent determinations. The Committee does not delegate its responsibilities to pre-approve services performed by the independent registered public accountant to management.
