**Report of Independent Auditors**

To the Participants and Administrator of

AGL Resources Inc. Retirement Savings Plus Plan

In our opinion, the accompanying statement of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the AGL Resources Inc. Retirement Savings Plus Plan (the "Plan") as of December 31, 2002 and the changes in net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion. The financial statements of the Plan as of December 31, 2001 and for the year then ended were audited by other independent accountants whose report dated May 17, 2002 expressed an unqualified opinion on those statements.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of *Schedule of Assets (Held at End of Year)* is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**1. PLAN DESCRIPTION**

The following brief description of the AGL Resources Inc. (the Company ) Retirement Savings

Plus Plan (the Plan ) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

## **General**

The Plan was adopted effective January 1, 1986, to provide tax-deferred savings and matching employer contributions to eligible employees. The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ( ERISA ). Generally, all employees age 21 or older who have completed 30 days of service with the Company are eligible to participate in the Plan.

## **Administration**

The Plan is administered by the Plan's Administrative Committee (the Committee ) appointed by the Board of Directors of the Company. The Committee is authorized to employ agents, as they may require, to carry out the provisions of the Plan. The operating expenses of the Plan are paid by the participants. The Committee is authorized to employ agents, as it may require, to carry out the provisions of the Plan. The operating expenses of the Plan are disbursement, withdrawal and INVESCO Retirement Trust transactions fees; and loan issuance and maintenance charges. These expenses are paid by the Plan's participants on a per transaction basis.

The Committee has engaged a trustee to maintain a trust under which contributions to the Plan are invested in various investment funds and a Company common stock fund and from which disbursements are made, at the Committee's request, for the purpose of making distributions and other disbursements. Effective October 1, 2001, a new trustee was appointed, and all investments were transferred into similar funds unless the participant instructed otherwise.

Effective May 1, 2002, the Board of Directors of the Company approved an amendment to the Plan to allow Plan participants to direct all balances, including funds invested in the Company's stock fund, into any investment alternatives available under the Plan.

## **Contributions**

Eligible participants can elect to contribute to the Plan through payroll deduction an amount ranging from 1% to 15% of compensation on a before-tax basis and from 1% to 10% of compensation on an after-tax basis, up to a combined total of 15%. The Company's employer matching contribution percentage is calculated based upon the following terms:

For employees less than 50 years old on July 1, 2000, the Company contributes an amount equal to 65% of the participant's before-tax contributions up to 8% of the participant's total compensation.

For employees equal to or older than 50 as of July 1, 2000, the Company matches 65% of the participant's before tax contributions up to the first 6% of the participant's total compensation until June 30, 2010, after which time the Company will match up to the first 8% of the participant's total compensation.

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2002 AND 2001

Any forfeited amounts, resulting from employees terminating prior to completion of the vesting period, will be used to reduce future employer contributions. Forfeitures were \$53,605 and \$97,274 in 2002 and 2001, respectively.

Effective October 1, 2000, the Company acquired Virginia Natural Gas, Inc. ( VNG ). Assets in the following VNG plans were rolled over into the Plan: Virginia Natural Gas, Inc. Hourly Savings Plan ( Hourly Savings ); Virginia Natural Gas, Inc. Employee Savings Plan ( Employee Savings ); and System Thrift Plan of Consolidated Natural Gas Company ( System Thrift ).

Effective January 1, 2002, all former participants in the Hourly Savings, Employee Savings, and System Thrift Plans became subject to the same contribution, matching, and vesting guidelines as all other Company employees.

Through December 31, 2001, individuals who previously participated in the Hourly Savings and Employee Savings Plans could elect to contribute from 2% to 10% of compensation on a before-tax basis and up to 16% on an after-tax basis. The Company match was 50% of the first 6% of employee contributions. Through December 31, 2001, individuals who previously participated in the System Thrift Plan could elect to contribute from 2% to 10% of compensation on a before-tax basis and up to 16% on an after-tax basis. The Company match varied from 1% to 10% based on years of service.

### **Distributions**

A participant's after-tax contributions may be withdrawn upon written request, or upon a participant's authorization on the voice response unit or the website of the plan administrator. A participant's before-tax contributions and employer matching contributions may be withdrawn upon termination of employment. Also, while employed by the Company, participants may withdraw before-tax contributions for hardship cases. Additionally, participants greater than age 59½ are permitted to take a distribution from the Plan without an early withdrawal penalty.

### **Participant Accounts**

Each participant's account is credited with the participant's contributions and allocations of the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances as defined. A participant is entitled to the benefits that can be provided from their vested account.

### **Loans**

Participants may borrow against their account balance. The minimum loan amount is \$1,000 and may not exceed the lesser of \$50,000 or 50% of the participant's vested account balance. ### **Vesting**

All amounts are allocated to a participant's before-tax and after-tax contributions account and rollover contribution account. A participant's contribution is vested immediately. A participant's matching contributions account is vested upon occurrence of any one of the following:

- Attainment of age 65 while employed by the Company
- Death while employed by the Company
- Permanent disablement while employed by the Company
- Completion of three years of vesting service

Partial vesting occurs during the three years of vesting service as follows:

3	100%

Individuals who previously participated in the Hourly Savings and Employee Savings Plans are vested at the earlier of age 55, completion of 5 years of service, retirement, death, disability, or termination due to Company ordered reductions in work force.

Individuals who previously participated in the System Thrift Plan are vested upon 60 months of participation, or upon the earlier of completion of five years of service or age 65.

In connection with the sale of Utilipro, Inc. a former subsidiary of the Company, in February 2001, employees of Utilipro, Inc. ceased participation in the Plan as it relates to future contributions, and all accounts of such participants became 100% vested effective March 1, 2001.

## **2. Summary Of Significant Accounting Policies**

### **Basis of Accounting**

The accounts of the Plan are maintained, and the accompanying financial statements have been prepared, on the accrual basis of accounting.

### **Investment Valuation and Income Recognition**

Short-term investments are valued at estimated fair value as determined by the trustee based upon the fair value of underlying assets. Current market values of actively traded securities were determined based upon market quotations received by the trustee. Participant loans are valued at cost, which approximates fair value.

## **AGL RESOURCES INC. RETIREMENT SAVINGS PLUS PLAN**

### **NOTES TO FINANCIAL STATEMENTS**

**AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2002 AND 2001**

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates. The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of assets available for plan benefits.

### **Payment of Benefits**

Benefits are recorded when paid.

### 3. Plan Termination

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan was terminated, the trustee would be instructed to continue and maintain separate plan accounts for each participant to accumulate earnings and profits until distribution of benefits under the provisions of the Plan were allowable. In the event of the Plan termination, participants would become 100% vested in their employer contributions.

### 4. Investments

The following presents the fair values of investments that represent 5% or more of the Plan's assets as of December 31, 2002 and 2001:

	Shares/Units		Amount
