Item 2.02. Results of Operations and Financial Condition.

On October 6, 2015, Allegheny Technologies Incorporated (“ATI” or the “Company”) issued a press release commenting on third quarter 2015 expected financial results. A copy of the press release is attached hereto as Exhibit 99.1.

Item 8.01. Other Events.

Effective with the third quarter 2015, the Company changed its method of determining business unit performance as internally reported to its senior management, CEO, and Board of Directors. Segment operating profit is now reported excluding all effects of LIFO inventory accounting and any related changes in net realizable value inventory reserves which offset the Company’s aggregate net debit LIFO valuation balance.

Additionally, segment operating profit is now measured including all retirement benefit expense attributable to the business unit, for both current and former employees. Previously, ATI excluded defined benefit pension expense and all defined benefit and defined contribution postretirement medical and life insurance expense from segment operating profit. This change better aligns comparative operating performance following the 2014 U.S. defined benefit pension freeze for all non-represented employees and the change in 2015 to a company-wide defined contribution retirement plan structure. Under the Company’s previous reporting methodology, defined contribution retirement plan expense remained in segment operating results whereas defined benefit plan costs were excluded. Operating results for business segments, corporate and closed company and other expenses now include all applicable retirement benefit plan costs for pension and other postretirement benefits.

Management considers these changes to be a more useful method of measuring business unit financial performance based on changes to retirement benefit plans and the impact of the Company’s aggregate net debit LIFO position.

The following segment reporting information reflects this new internal management reporting basis of segment operating profit and is filed as part of this Current Report on Form 8-K.
