NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACTIVITIES

NATURE OF BUSINESS

Employment Solutions, Inc., a South Carolina corporation ("Employment Solutions"), the Company's only business, is in the business of locating and providing labor to industrial companies.

BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements at November 30, 2003 have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB and Item 310(b) of Regulation S-B. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments including normal recurring accruals considered necessary for a fair presentation have been included. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-KSB for the year ended August 31, 2003.

NET INCOME (LOSS) PER COMMON SHARE

Basic net income (loss) per common share is computed on the basis of the weighted average number of common shares outstanding in accordance with Statement of Financial Accounting Standards (SFAS) No. 128, Earnings per Share. The treasury stock method is used to compute the effect of stock options on the weighted average number of common shares outstanding for the diluted method. Since the Company incurred a loss during the three months ended November 30, 2003, the effect of the stock options on the treasury stock method was anti-dilutive for the three months ended November 30, 2003. Under the treasury stock method, the number of shares used in computing diluted earnings per share for the three months ended November 30, 2002 included the incremental shares in which the average market price during the three months ended November 30, 2002 exceeded the exercise price of the option.
