The identity of the vote of any stockholder is not disclosed except as may be necessary to meet legal requirements.

2

Governance of the Company

Board of Directors

The Board of Directors is responsible for broad corporate policy and the overall performance of the Company. Members of the Board are kept informed of the Company's business by various documents sent to them before each meeting and oral reports made to them during these meetings by the Chairman and Chief Executive Officer and other corporate executives. They are advised of actions taken by the Audit, Compensation, Corporate Governance, Environmental Policy and Strategic Direction Committees and the Office of the Chief Executive. In addition, the directors receive written reports from the businesses when they propose actions for Board approval. Directors have access to all books, records and reports, and members of management are available at all times to answer their questions.

In 2000, six meetings of the Board were held. Each director attended at least 75% of the aggregate number of meetings of the Board and the committees of the Board. Attendance at these meetings averaged 94% among all directors in 2000. Directors fulfill their responsibilities not only by attending Board and committee meetings but also through communication with the Chairman and Chief Executive Officer and other members of management relative to matters of mutual interest and concern to the Company.

Office of the Chief Executive

The Office of the Chief Executive has responsibility for the overall direction and operations of all the businesses of the Company, including corporate financial performance, environmental leadership and safety, and development of global talent. All five members are employees and one is a director. Audit Committee Report

The Audit Committee of the Board of Directors (the "Committee") assists the Board in fulfilling its oversight responsibilities with respect to the external reporting process and the adequacy of the Company's internal controls. Specific responsibilities of the Committee are set forth in the Audit Committee Charter adopted by the Board. The charter is attached to this proxy statement as Appendix "A".

The Committee is comprised of five directors, all of whom meet the standards of independence adopted by the New York Stock Exchange. The Committee recommends to the Board, subject to stockholder ratification, the appointment of the Company's independent accountants.

Management is responsible for the Company's financial statements and reporting process, including the system of internal controls. PricewaterhouseCoopers LLP (PwC), the Company's independent accountants, has responsibility for performing

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form DEF 14A

an independent audit of and expressing an opinion on the consolidated financial statements of the Company. The Committee has reviewed and discussed the

5

audited financial statements of the Company for the year ended December 31, 2000 with management and with representatives of PwC.

The Committee has also discussed with PwC matters required to be discussed by Statement on Auditing Standards No. 61 (Communications with Audit Committees), as amended. The Committee has received from PwC the written disclosures required by Independence Standards Board Standard No.1 (Independence Discussions with Audit Committees) and has discussed with PwC its independence. The Committee has satisfied itself as to the independence of PwC.

Based on the Committee's review of the audited financial statements of the Company, and on the Committee's discussions with management of the Company and with PwC, the Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2000.

Directors' Compensation

Directors who are employees of the Company receive no additional compensation for their service on the Board or committees. Each director who is not an employee of the Company is paid as follows:

Annual Retainer	\$35,000
Committee Chairs	\$15,000
Members of Strategic Direction Committee	\$ 9,000
Members of Other Committees	\$ 6,000

Each director who is not an employee also receives an annual grant of 700 shares of DuPont Common Stock.

Under the DuPont Stock Accumulation and Deferred Compensation Plan for Directors, a director may defer all or part of the Board and committee fees in cash or stock units until a specified year, until retirement as a director or until death. Annual stock grants may also be deferred but only as stock units. Interest accrues on deferred cash payments and dividend equivalents accrue on deferred stock units. Nine directors elected to defer payment of directors' fees or the annual stock grant for 2001.

The Company's retirement income plan for nonemployee directors was discontinued in 1998. Nonemployee directors who began their service on the Board before the plan's elimination will continue to be eligible to receive benefits under the plan provided they have served as a director for at least five years. Annual benefits payable under the plan equal one-half of the annual Board retainer (exclusive of any committee compensation and annual

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form DEF 14A

stock grants) in effect at the director's retirement. Benefits are payable for the lesser of life or ten years.

6

The Directors' Charitable Gift Plan was established to improve the competitiveness of Board compensation. After the death of a director, the Company will donate five consecutive annual installments up to \$200,000 each to tax-exempt educational institutions or charitable organizations recommended by the director and approved by the Company. A director is fully vested in the Plan after five years of service as a director or upon death or disability. The Plan is unfunded. The Company may fund the Plan through the purchase of life insurance policies on directors. The Company would own and be the sole beneficiary of such policies. The directors do not receive any personal financial or tax benefit from this program because any charitable, tax deductible donations and insurance proceeds accrue solely to the benefit of the Company. Employee directors may participate in the Plan if they pay their allocable cost. The Company also maintains \$300,000 accidental death, dismemberment and disability insurance on nonemployee directors.

Directors' Retirement Policy

The Company's retirement policy for directors provides that no director may stand for reelection to the Board after reaching age 70. All employee directors retire from the Board when they retire from employment with the Company with the exception of former Chief Executive Officers. The Board at its discretion may in unusual circumstances, and for a limited period, ask a Board member to stand for reelection after the prescribed retirement date.

7

1 - ELECTION OF DIRECTORS

The 12 nominees for election as directors are identified on pages 8 through 11. All nominees are now members of the Board of Directors. The Board knows of no reason why any nominee would be unable to serve as a director. If any nominee should for any reason become unable to serve, the shares represented by all valid proxies will be voted for the election of such other person as the Board of Directors may designate following recommendation by the Corporate Governance Committee, or the Board may reduce the number of directors to eliminate the vacancy.

Executive Compensation

The Compensation Committee (the "Committee") is responsible for establishing executive compensation policies and programs for employees who participate in the Company's Variable Compensation Plan and Stock Performance Plan. The Committee recommends to the Board specific individual compensation actions for the Chairman and Chief Executive Officer (CEO).

The Company's executive compensation policy is to attract, reward and retain management who will achieve the business objectives of the Company, and to provide competitive total annual compensation based on positions of equivalent responsibility within a self-constructed group of peer companies.

When determining variable compensation the Committee evaluates the Company's corporate performance and annual compensation against the peer group, which are the same companies included in the peer group index used in the stock performance graph shown on page 20. The policy also provides for competitive long-term compensation opportunity when compared with other major industrial companies, including many of those shown in the peer group index.

Stock Ownership Guidelines

The Committee believes in management maintaining a significant equity position in the Company. Stock ownership guidelines are in place to better align executive officers and other senior managers with the interests of stockholders and to encourage a long-term focus in managing the Company. Stock ownership requirements vary from a minimum of five times base salary for the CEO to one and one-half times for Vice Presidents.

Components of Compensation

Compensation for executive officers consists of several components: salary, variable compensation, stock options and, under limited circumstances, restricted stock.

13

Salary

Consistent with the Company's policy, salaries are about the average of the peer group. Salary increases for executive officers are based on individual contribution and position relative to the average of the peer group. This is the same approach as used for other salaried employees.

Variable Compensation Plan

The Variable Compensation Plan (VCP) provides approximately 8,400 DuPont employees, including executive officers, with total annual compensation that varies up or down based on the performance of the Company, the performance of their business unit and their individual contribution. Typically, 25% of variable compensation is paid in DuPont Common Stock, and senior management employees have the choice of receiving up to 100% in stock.

As approved by stockholders, the VCP limits the annual maximum funding to 20% of consolidated net income after deducting 6% of net capital employed. Each year the Committee reviews operating results, excluding all one-time items, in determining the overall limit on variable compensation. This ensures that the amount available for variable compensation fluctuates in relation to the Company's operating results.

In determining VCP payments to participants for 2000, the Committee used a

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form DEF 14A

formula which consisted of equally weighted components of earnings per share (EPS) versus the prior year and return on investors' capital (ROIC) versus the average of the peer group. The formula may be adjusted based on a qualitative assessment of corporate financial performance compared with the peer group.

Variable compensation differentiation by business unit is based on underlying after-tax operating income, cash flow from operations, revenue growth, and Six Sigma performance versus each unit's commitments for the year. In addition, payments may be differentiated by business unit based on a qualitative assessment of performance in such areas as workplace environment, treatment and development of people, strategic staffing, safety, and environmental stewardship.

The Committee approved average corporate grants that were 96% of 1999 levels. In arriving at the level of payments for 2000, the Committee considered that 2000 EPS (excluding one-time items) represented a six percent increase over 1999, average business unit performance was 106% of commitment, and ROIC was below the average of the peer group. Payments among businesses ranged from 58% to 151% of the average.

Variable compensation payments for 2000 were 41% of the maximum amount available under the VCP limit. Over the past ten years, the Committee has approved payments on average of 51% of the maximum available.

Stock Performance Plan

Stock options are granted to provide an incentive primarily for employees responsible for the growth and success of the Company. Stock option grants are also intended to encourage the ownership of DuPont stock and thereby further the identity of interests of optionees with those of the Company's stockholders.

14

About 1,900 employees, including executive officers, key leaders in all global regions and middle management, received grants in 2000.

The Committee has established stock option targets for each participating level of responsibility within the Company based on a survey conducted by Frederic W. Cook & Co., Inc. of 39 large industrial companies. The consulting firm's survey included seven of the peer group companies used for the total annual compensation and stock performance graph referenced above, as well as other publicly traded companies with multibillion dollar revenues. This broader group of companies, rather than the peer group, is used for determining long-term compensation because of the greater variability in value of long-term compensation plans. Corporate financial performance may be considered by the Committee in determining the number of stock options granted. Targets for DuPont are set to be near the median long-term incentive opportunity granted by the survey group.

Stock options are typically granted annually. Individual grants may range from 50% to 150% of the target for each level of responsibility to reflect employees' future potential and individual performance including achievement of critical operating tasks in such areas as organizational capacity and strategic positioning. In addition to annual grants, special stock option grants are made to employees to recognize advancement to key senior management positions and to recognize significant achievements. Typically, annual grants are made at market price on the date of grant and, after they become exercisable over a multiyear vesting period, have value only if the price of DuPont Common Stock has increased to a value greater than at the grant date.

A reload feature is available to facilitate stock ownership by management.

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form DEF 14A

Participants are eligible for reload options upon the exercise of previously granted stock options with the condition that shares received from the exercise are held for at least two years. Reloads are granted as nonqualified stock options at fair market value and have a term equal to the remaining term of the original option. Reload options do not increase the combined number of shares and options held by the executive prior to the exercise.

Restricted stock or stock units may also be granted under the Stock Performance Plan as a component of competitive long-term compensation. Grants are made very selectively to attract, retain or reward individuals in specific situations. Restricted stock is awarded to more closely align the interests of the recipient with the long-term success of the Company. Typically, restricted stock must be held for a minimum period of at least three years.

15

Compensation for the Chief Executive Officer (CEO)

In 1990 the Committee changed the practice of tracking the total annual compensation of CEOs of the peer group to determine the compensation of DuPont's CEO. This was done to address concerns over the upward spiral of CEO compensation and the widening divergence in CEO compensation compared to the compensation of the average employee. To accomplish this, the position of DuPont's Senior Vice President was used as the benchmark tie to the peer group rather than the CEO. The compensation of DuPont's CEO has continued to be impacted by the practice of using the internal benchmark.

Mr. Holliday did not receive a salary increase in 1999. He received a \$40,000 increase effective January 1, 2000, bringing his salary for the year to \$1,040,000. This four percent increase was consistent with the salary adjustments granted to other senior managers. He received a stock option grant of 300,000 options, the target for his level.

Mr. Holliday's variable compensation grant for 2000 of \$1,700,000 was 100% of the target for the CEO position. This grant was based on his strong leadership as reflected in the Company's business results. Meaningful underlying earnings per share growth of six percent was achieved in 2000 for the first time in five years while facing \$1 billion of increased energy and raw materials costs. Mr. Holliday led the organization's successful effort to increase revenue by five percent. He championed the Company's major thrust to improve productivity through the use of Six Sigma and increase revenue through focus on knowledge intensity. Mr. Holliday's 2000 variable compensation grant was consistent with Company performance and with the grants awarded to other corporate employees.

* * * * *

The federal tax laws impose requirements in order for compensation payable to the CEO and certain executive officers to be fully deductible. The Company has taken appropriate actions to preserve its income tax deduction.

The Compensation Committee believes the executive compensation programs and practices described above are competitive. They are designed to provide increased compensation with improved financial results and provide additional opportunity for capital accumulation, but only if shareholder value is increased.

Goodmanson's joining the Company effective May 1, 1999 as a mid-career hire in the position of Executive Vice President, the Company agreed to provide him with a guaranteed annual salary and bonus of \$1,150,020 through December 2001, enhanced severance payments in the event of termination by the Company before May 1, 2004 based on two years' salary at termination plus two times the value of Mr. Goodmanson's last annual variable compensation grant, and other compensation as reflected in the Summary Compensation Table on page 17.

Stock Performance Information

The following graph presents the cumulative, five-year total return for DuPont Common Stock compared with the S&P 500 Stock Index and a peer group of companies. DuPont has used this peer group for several years to compare compensation for senior management, and two of the nine companies are direct competitors. The peer group companies are: Dow, Eastman Kodak, ExxonMobil, Ford, General Electric, International Business Machines, Minnesota Mining and Manufacturing, Union Carbide and Xerox.

[GRAPH]

The graph assumes that the value of DuPont Common Stock, the S&P 500 Stock Index, and the peer group of companies was each \$100 on December 31, 1995 and that all dividends were reinvested. The peer group is weighted by market capitalization.

Retirement Benefits

Retirement benefits for DuPont employees under the DuPont Pension and Retirement Plan are based on an employee's years of service and average monthly pay during the employee's three highest-paid years. "Average monthly pay" includes regular compensation and 100% of annual variable compensation payments, but excludes other bonuses and compensation over the limits imposed by the Internal Revenue Code. The Internal Revenue Code limits the amount of annual benefits that can be paid from the pension trust. Retirement benefits in excess of these limitations are paid from the Company's general revenues under

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form DEF 14A

separate, nonfunded pension restoration plans.

Estimated Annual Retirement Benefits Based on Service of:

Salary and Variable Compensation	30 Years	35 Years	40 Years	45 Years

The table above illustrates the straight life annuity amounts payable under the DuPont Pension and Retirement Plan and pension restoration plans to DuPont employees retiring at age 65 in 2001. As of normal retirement age (65), the years of service credited for retirement benefits for active DuPont employees named in the Summary Compensation Table on page 17 would be as follows: 43 years for C. O. Holliday, Jr., 13 years for R. R. Goodmanson, 40 years for G. M. Pfeiffer, 38 years for S. J. Mobley and 41 years for J. A. Miller, Jr.

2 - RATIFICATION OF INDEPENDENT ACCOUNTANTS

Article III, Section 5, of the Bylaws provides that it shall be the duty of the Audit Committee to employ, subject to stockholder ratification at each annual meeting, independent accountants to audit the books of account, accounting procedures and financial statements of the Company for the year and to perform such other duties as prescribed from time to time by the Audit Committee. On April 26, 2000, the stockholders ratified the appointment by the Audit Committee of PricewaterhouseCoopers LLP (PwC) to perform the functions assigned to it in accordance with the Bylaws.

PwC has served as independent accountants of the Company continuously since 1954. It is believed that its knowledge of the Company's business gained through this period of service is most valuable. Partners and employees of the firm who work on the Company's account are periodically changed, thus giving the Company the benefit of new thinking and approaches in the audit area.

During 2000, PwC audited the Company's annual consolidated financial statements and those of a significant majority of its subsidiaries, reviewed financial information in filings with the Securities and Exchange Commission and other regulatory agencies, and provided various nonaudit services, including benefit plan administration services, tax services and other business advisory services. When appropriate, the Company seeks competitive bids for nonaudit

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form DEF 14A

services.

Fees for services provided by PwC were as follows:

Audit Fees	\$7 million
Financial Information Systems	
Design & Implementation Fees	None
All Other Fees	\$30 million

Subject to ratification by the holders of DuPont Common Stock, the Audit Committee has reemployed PwC as independent accountants to audit the Company's consolidated financial statements for the year 2001 and to render other services as required of them.

Representatives of PwC are expected to be present at the meeting and will have an opportunity to address the meeting and respond to appropriate questions.

The Board of Directors recommends that you vote "FOR" the following resolution:

RESOLVED: That the action of the Audit Committee in employing PricewaterhouseCoopers LLP as independent accountants for the year 2001 to perform the functions assigned to them in accordance with Article III, Section 5, of the Bylaws of E. I. du Pont de Nemours and Company hereby is ratified.

3 - STOCKHOLDER PROPOSAL ON POLITICAL NONPARTISANSHIP

Mrs. Evelyn Y. Davis, Watergate Office Building, 2600 Virginia Avenue, N.W., Suite 215, Washington, DC, owner of 300 shares of DuPont Common Stock, has given notice that she will introduce the following resolution and statement in support thereof:

RESOLVED: That the stockholders of DuPont, assembled in Annual Meeting in person and by proxy, hereby recommend that the Corporation affirm its political nonpartisanship. To this end the following practices are to be avoided:

- (a) The handing of contribution cards of a single political party to an employee by a supervisor.
- (b) Requesting an employee to send a political contribution to an individual in the Corporation for a subsequent delivery as part of a group of contributions to a political party or fund raising committee.
- (c) Requesting an employee to issue personal checks blank as to payee for subsequent forwarding to a political party, committee or candidate.
- (d) Using supervisory meetings to announce that contribution cards of one party are available and that anyone desiring cards of a different party will be supplied one on request to his supervisor.
- (e) Placing a preponderance of contribution cards of one party at mail station locations.

Stockholder's Statement

REASONS: The Corporation must deal with a great number of governmental units,

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form DEF 14A

commissions and agencies. It should maintain scrupulous political neutrality to avoid embarrassing entanglements detrimental to its business. Above all, it must avoid the appearance of coercion in encouraging its employees to make political contributions against their personal inclination. The Troy (Ohio) News has condemned partisan solicitation for political purposes by managers in a local company (not DuPont). And if the Company did not engage in any of the above practices to disclose this to ALL shareholders in each quarterly report. Last year the owners of 36,952,400 shares, representing approximately 5.6% of shares voting, voted FOR this resolution.

If you AGREE, please mark your proxy FOR this resolution.

Position of the Board of Directors

The Board of Directors
recommends that you vote
"AGAINST" this proposal.

DuPont's policy is that no overt or indirect pressure in any form is to be directed toward employees to make any political contribution or participate in the support of a political party or the political candidacy of any individual. At the same time, employees are encouraged to exercise their responsibilities as citizens and to vote and be involved in the political process.

The Board believes that the Company's policy goes further than the proposal and accomplishes the purpose of the proposal to avoid coercion of employees and embarrassment to the Company.

4 - STOCKHOLDER PROPOSAL ON EMPLOYMENT MATTERS

Thomas T. Gniewek, Jr. of 123 Norwood Drive, Camden, Tennessee 38320, owner of 1,334 shares of DuPont Common Stock, has given notice that he will introduce the following resolution and statement in support thereof:

RESOLVED: Stockholders request the Board of Directors prepare a report, at reasonable cost and excluding confidential information, to be made available to shareholders four months from the date of the annual meeting on our progress in response to the Glass Ceiling Commission's business recommendations including a review of:

- (1) Steps Company has taken to use the Glass Ceiling Commission Report and management's recommendations flowing from it.
- (2) Company-wide policies addressing leadership development, employee mentoring, workforce diversity initiatives and family friendly programs.
- (3) Explanations of how executive compensation packages and performance evaluations integrate Company efforts in breaking the glass ceiling.
- (4) The top one hundred or one percent of Company wage earners broken down by gender.

Stockholder's Statement

The term "glass ceiling" was first used in a 1985 Wall Street Journal article to describe an artificial barrier to the advancement of women into corporate management positions. Senator Robert Dole introduced the Glass Ceiling Act, as part of Title II of the Civil Rights Act of 1991. President Bush signed the 1991

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form DEF 14A

Civil Rights Act establishing a bipartisan twenty-nine member Glass Ceiling Commission. The Commission was charged with preparing recommendations on the glass ceiling issue for the President and corporate leaders.

In 1991, then Secretary of Labor Lynn Martin completed the Glass Ceiling Initiative Report. Senator Dole praised the report, "[this] confirm[s] what many of us have suspected all along--the existence of invisible, artificial barriers blocking women and minorities from advancing up the corporate ladder to management and executive level positions" and "for this Senator, the issue boils down to ensuring equal access and equal opportunity."

Chairperson of the Glass Ceiling Commission Robert Reich stated, "The glass ceiling is not only an egregious denial of social justice that affects two-thirds of the population, but a serious economic problem that takes a huge financial toll on American business." And ". . . we need to attract and retain the best, most flexible workers and leaders available, for all levels of the organization."

The stated vision of the Glass Ceiling Commission is "a national corporate leadership fully aware that shifting demographics and economic restructuring make diversity at management and decision making levels a prerequisite for the

24

long term success of the United States in domestic and global market places." The report revealed that women made up 47.5 percent of the total workforce and earned over half of all Masters degrees, yet 95 percent of senior-level managers remain men. Women today earn about \$.72 for every dollar earned by men.

The Glass Ceiling Commission Report, released in 1995, confirms inclusiveness in the workplace has had a positive impact on the bottom line. A 1993 study of the Standard and Poor 500 companies revealed, ". . . firms that succeed in shattering their own glass ceiling racked up stock-market records that were really two and one half times better than otherwise comparable companies."

We believe top management positions should more closely reflect the people in the workforce and marketplace if our Company is going to remain competitive.

Position of the Board of Directors

The Board of Directors
recommends that you vote
"AGAINST" this proposal.

DuPont shares a commitment to diversity in the composition of its workforce. This commitment is grounded in the knowledge that diversity makes DuPont a better, more competitive company. DuPont recognizes that a diverse workforce generates diverse thinking and new and different perspectives, which result in the innovative products and services the Company offers.

DuPont has long been considered a leader in the area of workplace diversity and its efforts have been well publicized. In addition, the Company has earned international recognition for its pioneering race and gender awareness programs, recruitment efforts, mentoring and leadership development initiatives, and policies for working parents. The Company has made continuing progress in recruiting, hiring, developing and promoting white women and people of color. DuPont remains committed to further enhancing and expanding these efforts.

The composition of the Company's workforce and DuPont's sustained commitment to diversity are evidence of the effectiveness of the Company's efforts to ensure

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form DEF 14A

fair treatment of all individuals in hiring and advancement. The Board therefore believes that the Company is addressing the objectives of the proposal.

25

5 - STOCKHOLDER PROPOSAL ON PLANT CLOSURE

The International Brotherhood of DuPont Workers, P.O. Box 16333, Louisville, Kentucky, owner of 60 shares of DuPont Common Stock, has given notice that it will introduce the following resolution and statement in support thereof:

RESOLVED: That the stockholders of E. I. du Pont de Nemours and Company, assembled in annual meeting and by proxy, hereby request that the Board of Directors consider the following nonbinding proposal: That it create a committee, with members drawn from the employee work force of DuPont, the union leadership of DuPont, the management of DuPont, and any necessary independent consultants, to report to the Board of Directors regarding the impact to communities as a result of the closure of DuPont plants and alternatives that can be developed to help mitigate the impact of such closure in the future.

Stockholder's Statement

DuPont continues to close or sharply reduce the size of a great number of its plants across the United States. Over the last decade, total U.S. employment has been cut from about 100,000 to just over 56,000.

Employees who lost their jobs as a result of these plant closures had often been with DuPont for many years. Yet once terminated, these employees could expect to receive a pension reduced 5% for each year they were under the age of 58 and 5% for each year of service less than 27. In short, pensions were slashed and the communities the plants were located in were devastated.

Astonishingly, the original writers of the pension plan did not envision plant closures as a likely occurrence. Indeed, the plan summary, as written in 1979, states that it was "very unlikely" that an employee would be forced into retirement because of a severe downturn in business or a plant shutdown. For this reason, it was envisioned that reductions in pension would occur only when an employee voluntarily retired or where an employee was terminated for cause. Yet it is plant reductions and closures that have caused such dramatic reductions in employment since the mid-1980's. And because of the harsh impact of such a layoff on an employee's pension, the communities in which the plants are located have suffered accordingly.

There are other, equally substantial costs to the community when a plant is closed. In a number of locations there have been environmental issues that have made it virtually impossible for a closed plant to be put to productive use. The community is left with not only an eyesore, but one that cannot be put to use for substantial economic benefit. The buildings simply remain, undergoing gradual deterioration.

DuPont often concludes that it has no option but to close a plant, particularly those in its old line industries such as fibers and chemicals. For this reason, it is imperative that attention be paid to the impact of these closures on the communities in which the plants are located. Establishing the proposed

26

committee will be a first step toward understanding and dealing with future

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form DEF 14A

plant closings.

This proposal was voted on at the 2000 Annual Meeting and received support from 9.5% of the shareholders who voted. It warrants the support of all shareholders.

Position of the Board of Directors

The Board of Directors
recommends that you vote
"AGAINST" this proposal.

DuPont shares the proponent's desire to minimize the potential impact on employees and communities where a plant reduction or closure occurs. In the limited circumstances where reduction or closure of a DuPont facility has been necessary, DuPont has worked closely with local community leaders, union representatives and other affected parties to address concerns. The Board of Directors believes it already receives appropriate information about plant closings and reductions, and therefore believes the proposed report to the Board is unnecessary.

DuPont provides a wide range of resources and benefits to employees impacted by a plant closure or reduction. Employment opportunities at other DuPont facilities are communicated to employees so they can take advantage of such positions if they wish to continue their employment with the Company at another location. If employees do not continue employment with DuPont at another facility, the Company offers a comprehensive separation package, including, among other benefits, Career Transition Financial Assistance. In addition to severance payments, outplacement assistance, education and retraining grants of up to \$5,000 per employee and continuation of health care benefits are provided for a transition period.

It is the Company's practice to provide the community affected by a plant closure or reduction with significant advance notice of the decision, and to communicate and work closely with community leaders to help minimize any impact the reduction or closure may have on the community at large.

6 - STOCKHOLDER PROPOSAL ON INTERNATIONAL WORKPLACE STANDARDS

The International Brotherhood of Teamsters General Fund, 25 Louisiana Avenue, NW, Washington, DC, owner of 90 shares of DuPont Common Stock, has given notice that it will introduce the following resolution and statement in support thereof:

RESOLVED: That the Board of Directors of E. I. du Pont de Nemours and Company (DuPont) shall adopt, implement and enforce the workplace Code of Conduct (Code) as based on the International Labor Organization's (ILO) Conventions 29, 87, 98, 100, 105, 111, 135 and 138 on workplace human rights, which include:

- No use of child labor.
- No discrimination or intimidation in employment. DuPont shall provide equality of opportunity and treatment regardless of race, color, sex, or other distinguishing characteristics.
- All workers have the right to form and join unions and to bargain collectively.
- Workers' representatives shall not be subject to discrimination and have access to all workplaces necessary in carrying out their representation functions.

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form DEF 14A

- No use of forced, including bonded or voluntary prison, labor. Employment shall be freely chosen.

Stockholder's Statement

As a global institution, DuPont and its international operations and sourcing arrangements are exposed to sundry risks. Adoption of this proposal manages the risk of being a party to serious human rights violations in the workplace.

DuPont operates or has business relationships in a number of countries, including China, Indonesia and Thailand, where, the U.S. State Department, Amnesty International, and/or Human Rights Watch indicate law and/or public policy do not adequately protect human rights. To wit:

Thailand: "Forced labor and illegal child labor also remain problems." (1999 Country Reports on Human Rights Practices: Thailand, U.S. Department of State)

Indonesia: "Reports of violence against women, including rape, were received throughout the year. In some cases women were raped or held in sexual slavery in retaliation for the political activities of their male relatives. There were persistent reports of sexual violence against women in refugee camps in West Timor." (Amnesty International Annual Report 2000: Indonesia)

China: "Violence against women, including coercive family planning practices-- which sometimes include forced abortion and forced sterilization; prostitution; discrimination against women; trafficking in women and children; abuse of children; and discrimination against the disabled and minorities are all problems. The Government continued to restrict tightly worker rights, and forced labor in prison facilities remains a serious problem. Child labor persists." (1999 Country Reports on Human Rights Practices: China, U.S. Department of State)

The success of DuPont's operations depends on consumer and governmental good will. Brand name is a significant asset. DuPont benefits from adopting

28

and enforcing the Code ensuring that it isn't associated with human rights violations. This protects DuPont's brand names and/or its relationships with customers and the numerous governments under which DuPont operates and with which it does business.

Additionally, institutional investors are increasingly concerned with the impact of company workplace practices on shareholder value. Several of the world's largest pension funds have adopted responsible contractor and workplace practice guidelines. Adopting the Code increases attractiveness to the institutional investor community.

The shareholders urge the Board to issue annual reports on the status of DuPont's adoption, implementation and enforcement of the above-stated code.

Position of the Board of Directors

The Board of Directors
recommends that you vote
"AGAINST" this proposal.

DuPont is committed to conducting its business affairs with the highest ethical standards, and works diligently to be a respected corporate citizen throughout the world. The Company has had in place for many years an Ethics Policy, Mission Statement and Code of Business Conduct addressing many of the issues

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form DEF 14A

covered in the standards proposed for adoption. These corporate policies and procedures are applicable to all employees in all DuPont businesses around the globe.

The Company's Business Conduct Guide, for example, emphasizes the responsibility of each employee to comply with all applicable laws and stresses the Company's zero tolerance policy on discrimination and harassment. The Ethics Policy requires employees to confirm on an annual compliance statement that they have conducted business in accordance with the Company's standards.

The proposal also calls for a series of annual reports on the status of the adoption, implementation and enforcement of the proposed code. This data gathering and report preparation would duplicate many aspects of the annual compliance statements and would thus impose a significant and unnecessary cost on the Company without providing shareholders or employees with any additional benefit.

The Company is supportive of the general intent of the proposal and similar international workplace standards suggested by other organizations for adoption. The Company reviews on an ongoing basis codes offered by a wide variety of organizations, and examines its own policies and practices in light of the provisions of the proposed codes. The Company also meets with advocates of codes to explore issues of mutual concern. These efforts will continue. The Company therefore believes adoption of the proposed code is unnecessary.

Other Matters

The Board of Directors knows of no other proposals that may properly be presented for consideration at the meeting but, if other matters do properly come before the meeting, the persons named in the proxy will vote your shares according to their best judgment.
