SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

x QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended June 30, 2015

OR

.. TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

Commission File Number 0-29480

HERITAGE FINANCIAL CORPORATION
(Exact name of registrant as specified in its charter)

Washington
(State or other jurisdiction of
incorporation or organization)

91-1857900
(I.R.S. Employer
Identification No.)

201 Fifth Avenue SW, Olympia, WA
(Address of principal executive offices)
(360) 943-1500
(Registrant's telephone number, including area code)

98501
(Zip Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer x
Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the last practicable date:

As of July 30, 2015 there were 29,954,942 shares of the registrant's common stock, no par value per share, outstanding.

FORWARD LOOKING STATEMENTS:

“Safe Harbor” statement under the Private Securities Litigation Reform Act of 1995: This Quarterly Report on Form 10-Q (“Form 10-Q”) contains forward-looking statements that are subject to risks and uncertainties, including, but not limited to: our ability to successfully integrate any assets, liabilities, customers, systems, and management personnel we have acquired, including those from the Cowlitz Bank, Pierce Commercial Bank, Northwest Commercial Bank, Valley Community Bancshares and Washington Banking Company transactions described in this Form 10-Q, or may in the future acquire, into our operations and our ability to realize related revenue synergies and cost savings within expected time frames or at all, and any goodwill charges related thereto and costs or difficulties relating to integration matters, including but not limited to customer and employee retention, which might be greater than expected; the credit risks of lending activities, including changes in the level and trend of loan delinquencies and write-offs and changes in our allowance for loan losses and provision for loan losses that may be effected by deterioration in the housing and commercial real estate markets, which may lead to increased losses and non-performing assets in our loan portfolio, and may result in our allowance for loan losses no longer being adequate to cover actual losses, and require us to increase our allowance for loan losses; changes in general economic conditions, either nationally or in our market areas; changes in the levels of general interest rates, and the relative differences between short and long term interest rates, deposit interest rates, our net interest margin and funding sources; risks related to acquiring assets in or entering markets in which we have not previously operated and may not be familiar; fluctuations in the demand for loans, the number of unsold homes and other properties and fluctuations in real estate values in our market areas; results of examinations of us by the Board of Governors of the Federal Reserve System and of our bank subsidiary by the Federal Deposit Insurance Corporation (“FDIC”), the Washington State Department of Financial Institutions, Division of Banks or other regulatory authorities, including the possibility that any such regulatory authority may, among other things, require us to increase our allowance for loan losses, write-down assets, or change our regulatory capital position or affect our ability to borrow funds or maintain or increase deposits, which could adversely affect our liquidity and earnings; legislative or regulatory changes that adversely affect our business including changes in regulatory policies and principles, or the interpretation of regulatory capital or other rules including as a result of Basel III; our ability to control operating costs and expenses; the impact of the Wall Street Reform and Consumer Protection Act and the implementing regulations; further increases in premiums for deposit insurance; the use of estimates in determining fair value of certain of our assets, which estimates may prove to be incorrect and result in significant declines in valuation; difficulties in reducing risk associated with the loans on our Condensed Consolidated Statements of Financial Condition; staffing fluctuations in response to product demand or the implementation of corporate strategies that affect our workforce and potential associated charges; failure or security breach of computer systems on which we depend; our ability to retain key members of our senior management team; costs and effects of litigation, including settlements and judgments; our ability to implement our expansion strategy of pursuing acquisitions and de novo branching; increased competitive pressures among financial service companies; changes in consumer spending, borrowing and savings habits; the availability of resources to address changes in laws, rules, or regulations or to respond to regulatory actions; adverse changes in the securities markets; inability of key third-party providers to perform their obligations to us; changes in accounting policies and practices, as may be adopted by the financial institution regulatory agencies or the Financial Accounting Standards Board, including additional guidance and interpretation on accounting issues and details of the implementation of new accounting methods; and other economic, competitive, governmental, regulatory, and technological factors affecting our operations, pricing, products and services and other risks detailed from time to time in our filings with the Securities and Exchange Commission including our Annual Report on Form 10-K for the year ended December 31, 2014.

The Company cautions readers not to place undue reliance on any forward-looking statements. Moreover, you should treat these statements as speaking only as of the date they are made and based only on information then actually known to the Company. The Company does not undertake and specifically disclaims any obligation to revise any forward-looking statements to reflect the occurrence of anticipated or unanticipated events or circumstances after the date of such statements. These risks could cause our actual results for future periods to differ materially from those

expressed in any forward-looking statements by, or on behalf of, us, and could negatively affect the Company's operating results and stock price performance.

As used throughout this report, the terms "we", "our", "us", or the "Company" refer to Heritage Financial Corporation and its consolidated subsidiaries, unless the context otherwise requires.

HERITAGE FINANCIAL CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the Three and Six Months Ended June 30, 2015 and 2014

(Unaudited)

(1) Description of Business, Basis of Presentation, Significant Accounting Policies and Recently Issued Accounting Pronouncements

(a) Description of Business

Heritage Financial Corporation ("Heritage" or the "Company") is a bank holding company that was incorporated in the State of Washington in August 1997. The Company is primarily engaged in the business of planning, directing and coordinating the business activities of its wholly-owned subsidiary, Heritage Bank (the "Bank"). The Bank is a Washington-chartered commercial bank and its deposits are insured by the FDIC under the Deposit Insurance Fund. The Bank is headquartered in Olympia, Washington and conducts business from its 67 branch offices located throughout Washington State and the greater Portland, Oregon area. The Bank's business consists primarily of commercial lending and deposit relationships with small businesses and their owners in its market areas and attracting deposits from the general public. The Bank also makes real estate construction and land development loans and consumer loans and originates first mortgage loans on residential properties primarily located in its market area. The Company has expanded its footprint through mergers and acquisitions. The largest of these transactions was the strategic merger with Washington Banking Company ("Washington Banking") and its wholly owned subsidiary bank, Whidbey Island Bank ("Whidbey"). Effective May 1, 2014, Washington Banking merged with and into Heritage and Whidbey merged with and into Heritage Bank and this transaction is referred to herein as the "Washington Banking Merger". In connection with the Washington Banking Merger, Heritage also acquired as a subsidiary the Washington Banking Master Trust, a Delaware statutory business trust. Pursuant to the merger agreement, Heritage assumed the performance and observance of the covenants to be performed by Washington Banking under an indenture relating to \$25.0 million in trust preferred securities issued in 2007 and the due and punctual payment of the principal of and premium and interest on such trust preferred securities. For additional information, see Note 9, Junior Subordinated Debentures.

(b) Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with the accounting principles generally accepted in the United States ("GAAP") for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. It is recommended that these unaudited Condensed Consolidated Financial Statements and accompanying Notes be read with the audited Consolidated Financial Statements and the accompanying Notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014 ("2014 Annual Form 10-K"). In management's opinion, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015. In preparing the unaudited Condensed Consolidated Financial Statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and disclosures. Estimates related to the allowance for loan losses, other than temporary impairments in the fair value of investment securities, expected cash flows of purchased credit impaired loans and related indemnification asset, fair value measurements, stock-based compensation, impairment of goodwill and other intangible assets and income taxes are particularly subject to change. Management believes that the judgments, estimates and assumptions used in the preparation of the financial statements are appropriate based on the facts and circumstances at the time. Actual results, however, could differ from those estimates.

Certain prior period amounts have been reclassified to conform to the current period's presentation. Reclassifications had no effect on prior periods' net income or stockholders' equity.

(c) Significant Accounting Policies

The significant accounting policies used in preparation of the Company's Condensed Consolidated Financial Statements are disclosed in the 2014 Annual Form 10-K. There have not been any material changes in the Company's significant accounting policies from those contained in the 2014 Annual Form 10-K.

(d) Recently Issued Accounting Pronouncements

Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU" or "Update") 2014-09, Revenue from Contracts with Customers, was issued in May 2014. Under this Update, FASB created a new Topic 606 which is in response to a joint initiative of FASB and the International Accounting Standards Board to clarify the principles for recognizing revenue and to develop a common revenue standard for U.S. GAAP and international financial reporting standards that would:

Remove inconsistencies and weaknesses in revenue requirements.

Provide a more robust framework for addressing revenue issues.

Improve comparability of revenue recognition practices across entities, industries, jurisdictions, and capital markets.

Provide more useful information to users of financial statements through improved disclosure requirements.

Simplify the preparation of financial statements by reducing the number of requirements to which an entity must refer.

The Update is effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. Early application is not permitted. The Company is currently evaluating the impact that this Update will have on its Condensed Consolidated Financial Statements.

FASB ASU 2014-11, Transfers and Servicing: Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures, was issued in June 2014. This Update aligns the accounting for repurchase-to-maturity transactions and repurchase agreements executed as a repurchase financing with the accounting for other typical repurchase agreements, such as secured borrowings. The guidance eliminates sale accounting and supersedes the guidance under which a transfer of a financial asset and a contemporaneous repurchase financing could be accounted for on a combined basis as a forward agreement. The Update requires new and expanded disclosures that are effective for interim or annual reporting periods beginning after December 15, 2014, with certain requirements applicable for periods beginning after March 31, 2015. The adoption of this Update did not have a material impact on the Company's Condensed Consolidated Financial Statements.

(2) Investment Securities

The Company's investment policy is designed primarily to provide and maintain liquidity, generate a favorable return on assets without incurring undue interest rate and credit risk, and complement the Bank's lending activities. Securities are classified as either available for sale or held to maturity when acquired.

(a) Securities by Type and Maturity

The amortized cost, gross unrealized gains, gross unrealized losses and fair values of investment securities available for sale at the dates indicated were as follows:

	Securities Available for Sale June 30, 2015			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
	(In thousands)			
U.S. Treasury and U.S. Government-sponsored agencies	\$26,339	\$113	\$(6)) \$26,446
Municipal securities	172,837	2,246	(873)) 174,210

14

Table of Contents

The Company has evaluated these securities and has determined that, other than certain private residential collateralized mortgage obligations discussed below, the decline in their value is temporary. The unrealized losses are primarily due to increases in market interest rates and larger spreads in the market for mortgage-related products. The fair value of these securities is expected to recover as the securities approach their maturity date and/or as the pricing spreads narrow on mortgage-related securities. The Company has the ability and intent to hold the investments until recovery of the market value which may be the maturity date of the securities.

During the three months ended June 30, 2015, the Company sold its entire portfolio of private residential collateralized mortgage obligations with a carrying value of \$829,000, all of which were classified as held-to-maturity. Since acquisition these securities had been downgraded below the Company's acceptable investment grades. As a result of these downgrades and the effects of Basel III on the risk-weighting of sub-investment grade securities, the Company's intent to hold these securities changed and management elected to divest of its interest in the downgraded securities. The Company recorded a realized loss of \$125,000 on this sale. The Company's intent and ability to hold the remaining held-to-maturity securities was not impacted by this sale.

Prior to the sale of the securities noted above, to analyze the unrealized losses, the Company estimated expected future cash flows of the private residential collateralized mortgage obligations by estimating the expected future cash flows of the underlying collateral and applying those collateral cash flows, together with any credit enhancements such as subordinated interests owned by third parties, to the security. The expected future cash flows of the underlying collateral are determined using the remaining contractual cash flows adjusted for future expected credit losses (which considers current delinquencies and nonperforming assets, future expected default rates and collateral value by vintage and geographic region) and prepayments. The expected cash flows of the security are then discounted at the interest rate used to recognize interest income on the security to arrive at a present value amount. The average prepayment rate and average discount rate used in the valuation of the present value as of June 30, 2014 were 6.0% and 9.4%, respectively.

For the six months ended June 30, 2015, there were no private residential collateralized mortgage obligations determined to be other-than-temporarily impaired and the Company recorded no unrealized losses for the six months ended June 30, 2015 in earnings or other comprehensive income. In comparison, for the six months ended June 30, 2014, there were four private residential collateralized mortgage obligations determined to be other-than-temporarily impaired. All unrealized losses for the three and six months ended June 30, 2014 were deemed to be credit related, and the Company recorded the impairment in earnings.

The following table summarizes activity for the six months ended June 30, 2014 related to the amount of impairments on held to maturity securities:

	Life-to-Date Gross Other-Than-Temporary Impairments	Life-to-Date Other-Than-Temporary Impairments Included in Other Comprehensive Income	Life-to-Date Net Other-Than-Temporary Impairments Included in Earnings
	(In thousands)		
December 31, 2013	\$2,603	\$1,152	\$1,451
Subsequent impairments	45	—	45
June 30, 2014	\$2,648	\$1,152	\$1,496

(c) Pledged Securities

Table of Contents

The following table summarizes the amortized cost and fair value of available for sale and held to maturity securities that are pledged as collateral for the following obligations at June 30, 2015 and December 31, 2014:

	June 30, 2015		December 31, 2014	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
	(In thousands)			
Washington and Oregon state to secure public deposits	\$ 195,548	\$ 197,810	\$ 150,507	\$ 153,785
Federal Reserve Bank of San Francisco and FHLB to secure borrowing arrangements	512	513	4,430	4,460
Repurchase agreements	31,612	31,801	43,676	44,457
Other securities pledged	15,073	15,162	14,828	14,922
Total	\$ 242,745	\$ 245,286	\$ 213,441	\$ 217,624

At June 30, 2015 and December 31, 2014, the total carrying value of pledged securities was \$245.0 million and \$216.7 million, respectively.

(3) Noncovered Loans Receivable

The Company originates loans in the ordinary course of business and has also acquired loans through FDIC-assisted and open bank transactions. Loans that are not covered by FDIC shared-loss agreements are referred to as "noncovered loans." Disclosures related to the Company's recorded investment in noncovered loans receivable generally exclude accrued interest receivable and net deferred loan origination fees and costs because they are insignificant.

Loans acquired in a business combination may be further classified as "purchased" loans. Loans purchased with evidence of credit deterioration since origination for which it is probable that not all contractually required payments will be collected are accounted for under FASB Accounting Standards Codification ("ASC") 310-30, Loans and Debt Securities Acquired with Deteriorated Credit Quality. These loans are identified as "purchased credit impaired" ("PCI") loans. Loans purchased that are not accounted for under FASB ASC 310-30 are accounted for under FASB ASC 310-20, Receivables—Nonrefundable Fees and Other Costs and are referred to as "non-PCI" loans.

(a) Loan Origination/Risk Management

The Company categorizes loans in one of the four segments of the total loan portfolio: commercial business, one-to-four family residential, real estate construction and land development and consumer. Within these segments are classes of loans to which management monitors and assesses credit risk in the loan portfolios. The Company has certain lending policies and procedures in place that are designed to maximize loan income within an acceptable level of risk. Management reviews and approves these policies and procedures on a regular basis. A reporting system supplements the review process by providing management with frequent reports related to loan production, loan quality, concentrations of credit, loan delinquencies, and nonperforming and potential problem loans. The Company also conducts internal loan reviews and validates the credit risk assessment on a periodic basis and presents the results of these reviews to management. The loan review process complements and reinforces the risk identification and assessment decisions made by loan officers and credit personnel, as well as the Company's policies and procedures. A discussion of the risk characteristics of each loan portfolio segment is as follows:

Commercial Business:

There are three significant classes of loans in the commercial portfolio segment: commercial and industrial loans, owner-occupied commercial real estate and non-owner occupied commercial real estate. The owner and non-owner occupied commercial real estate are both considered commercial real estate loans. As the commercial and industrial loans carry different risk characteristics than the commercial real estate loans, they are discussed separately below. Commercial and industrial. Commercial and industrial loans are primarily made based on the identified cash flows of the borrower and secondarily on the underlying collateral provided by the borrower. The cash flows of borrowers,

however, may not be as expected and the collateral securing these loans may fluctuate in value. Most commercial and industrial loans are secured by the assets being financed or other business assets such as accounts receivable or inventory and may include a personal guarantee; however, some short-term loans may be made on an unsecured basis. In the case of loans secured by accounts receivable, the availability of funds for the repayment of these loans may be substantially dependent on the ability of the borrower to collect amounts due from its customers.

Table of Contents

Commercial real estate. The Company originates commercial real estate loans within its primary market areas. These loans are subject to underwriting standards and processes similar to commercial and industrial loans, in addition to those of real estate loans. These loans are viewed primarily as cash flow loans and secondarily as loans secured by real estate. Commercial real estate involves more risk than other classes of loans in that the lending typically involves higher loan principal amounts, and payments on loans secured by real estate properties are dependent on successful operation and management of the properties. Repayment of these loans may be more adversely affected by conditions in the real estate market or the economy. Owner-occupied commercial real estate loans are generally of lower credit risk than non-owner occupied commercial real estate loans as the borrowers' businesses are likely dependent on the properties.

One-to-Four Family Residential:

The majority of the Company's one-to-four family residential loans are secured by single-family residences located in its primary market areas. The Company's underwriting standards require that single-family portfolio loans generally are owner-occupied and do not exceed 80% of the lower of appraised value at origination or cost of the underlying collateral. Terms of maturity typically range from 15 to 30 years. Historically, the Company sold most single-family loans in the secondary market and retained a smaller portion in its loan portfolio. From the second quarter of 2013 until May 1, 2014, the Company only originated single-family loans for its loan portfolio. As a result of the Washington Banking Merger, since May 1, 2014 the Company is originating and selling a majority of its single-family mortgages.

Real Estate Construction and Land Development:

The Company originates construction loans for one-to-four family residential and for five or more family residential and commercial properties. The one-to-four family residential construction loans generally include construction of custom homes whereby the home buyer is the borrower. The Company also provides financing to builders for the construction of pre-sold homes and, in selected cases, to builders for the construction of speculative residential property. Substantially all construction loans are short-term in nature and priced with variable rates of interest. Construction lending can involve a higher level of risk than other types of lending because funds are advanced partially based upon the value of the project, which is uncertain prior to the project's completion. Because of the uncertainties inherent in estimating construction costs as well as the market value of a completed project and the effects of governmental regulation of real property, the Company's estimates with regard to the total funds required to complete a project and the related loan-to-value ratio may vary from actual results. As a result, construction loans often involve the disbursement of substantial funds with repayment dependent, in part, on the success of the ultimate project and the ability of the borrower to sell or lease the property or refinance the indebtedness. If the Company's estimate of the value of a project at completion proves to be overstated, it may have inadequate security for repayment of the loan and may incur a loss if the borrower does not repay the loan. Sources of repayment for these types of loans may be pre-committed permanent loans from approved long-term lenders, sales of developed property or an interim loan commitment from the Company until permanent financing is obtained. These loans are closely monitored by on-site inspections and are considered to have higher risks than other real estate loans due to their ultimate repayment being dependent upon successful completion of the construction project, interest rate changes, government regulation of real property, general economic conditions and the availability of long-term financing.

Consumer:

The Company originates consumer loans and lines of credit that are both secured and unsecured. The underwriting process for these loans ensures a qualifying primary and secondary source of repayment. Underwriting standards for home equity loans are significantly influenced by statutory requirements, which include, but are not limited to, a maximum loan-to-value percentage of 80%, collection remedies, the number of such loans a borrower can have at one time and documentation requirements. To monitor and manage consumer loan risk, policies and procedures are developed and modified, as needed. The majority of consumer loans are for relatively small amounts disbursed among many individual borrowers which reduces the credit risk for this type of loan. To further reduce the risk, trend reports are reviewed by management on a regular basis.

As a result of the Washington Banking Merger, the Company is originating indirect consumer loans. These loans are for new and used automobile and recreational vehicles that are originated indirectly by selected dealers located in the Company's market areas. The Company has limited its purchase of indirect loans primarily to dealerships that are established and well known in their market areas and to applicants that are not classified as sub-prime.

Table of Contents

Noncovered loans receivable at June 30, 2015 and December 31, 2014 consisted of the following portfolio segments and classes:

	June 30, 2015 (In thousands)	December 31, 2014
Commercial business:		
Commercial and industrial	\$551,989	\$551,343
Owner-occupied commercial real estate	565,721	535,742
Non-owner occupied commercial real estate	676,872	616,757
Total commercial business	1,794,582	1,703,842
One-to-four family residential	67,083	63,540
Real estate construction and land development:		
One-to-four family residential	41,693	46,749
Five or more family residential and commercial properties	66,024	61,360
Total real estate construction and land development	107,717	108,109
Consumer	270,175	250,323
Gross noncovered loans receivable	2,239,557	2,125,814
Net deferred loan fees	64	(937)
Noncovered loans receivable, net	2,239,621	2,124,877
Allowance for loan losses	(22,779)	(22,153)
Noncovered loans receivable, net of allowance for loan losses	\$2,216,842	\$2,102,724

(b) Concentrations of Credit

Most of the Company's lending activity occurs within Washington State, and to a lesser extent Oregon. The Company's primary market areas are concentrated along the I-5 corridor from Whatcom County to Clark County in Washington State and Multnomah County in Oregon, as well as other contiguous markets. The Washington Banking Merger allowed the expansion of the Company's market area north of Seattle, Washington to the Canadian border. The majority of the Company's loan portfolio consists of (in order of balances at June 30, 2015) non-owner occupied commercial real estate, owner-occupied commercial real estate and commercial and industrial. As of June 30, 2015 and December 31, 2014, there were no concentrations of loans related to any single industry in excess of 10% of the Company's total loans.

(c) Credit Quality Indicators

As part of the on-going monitoring of the credit quality of the Company's loan portfolio, management tracks certain credit quality indicators including trends related to (i) the risk grade of the loans, (ii) the level of classified loans, (iii) net charge-offs, (iv) nonperforming loans, and (v) the general economic conditions of the United States of America, and specifically the states of Washington and Oregon. The Company utilizes a risk grading matrix to assign a risk grade to each of its loans. Loans are graded on a scale of 0 to 10. A description of the general characteristics of the risk grades is as follows:

Grades 0 to 5: These grades are considered "pass grade" and include loans with negligible to above average but acceptable risk. These borrowers generally have strong to acceptable capital levels and consistent earnings and debt service capacity. Loans with the higher grades within the "pass" category may include borrowers who are experiencing unusual operating difficulties, but have acceptable payment performance to date. Increased monitoring of financials and/or collateral may be appropriate. Loans with this grade show no immediate loss exposure.

Grade 6: This grade includes "Watch" loans and is considered a "pass grade". The grade is intended to be utilized on a temporary basis for pass grade borrowers where a potentially significant risk-modifying action is anticipated in the near term.

Grade 7: This grade includes "Other Assets Especially Mentioned" ("OAEM") loans in accordance with regulatory guidelines, and is intended to highlight loans with elevated risks. Loans with this grade show signs of deteriorating profits and capital, and the borrower might not be strong enough to sustain a major setback. The borrower is typically higher than normally leveraged, and outside support might

Table of Contents

be modest and likely illiquid. The loan is at risk of further decline unless active measures are taken to correct the situation.

Grade 8: This grade includes “Substandard” loans in accordance with regulatory guidelines, which the Company has determined have a high credit risk. These loans also have well-defined weaknesses which make payment default or principal exposure likely, but not yet certain. The borrower may have shown serious negative trends in financial ratios and performance. Such loans may be dependent upon collateral liquidation, a secondary source of repayment or an event outside of the normal course of business. Loans with this grade can be placed on accrual or nonaccrual status based on the Company’s accrual policy.

Grade 9: This grade includes “Doubtful” loans in accordance with regulatory guidelines, and the Company has determined these loans to have excessive credit risk. Such loans are placed on nonaccrual status and may be dependent upon collateral having a value that is difficult to determine or upon some near-term event which lacks certainty. Additionally, these loans generally have a specific valuation allowance or have been partially charged-off for the amount considered uncollectible.

Grade 10: This grade includes “Loss” loans in accordance with regulatory guidelines, and the Company has determined these loans have the highest risk of loss. Such loans are charged-off or charged-down when payment is acknowledged to be uncertain or when the timing or value of payments cannot be determined. “Loss” is not intended to imply that the loan or some portion of it will never be paid, nor does it in any way imply that there has been a forgiveness of debt. Numerical loan grades for all commercial business loans and real estate construction and land development loans are established at the origination of the loan. Prior to November 2014, one-to-four family residential loans and consumer loans (“non-commercial loans”) were not numerically graded at origination date as these loans were determined to be “pass graded” loans. A numeric grade was assigned to these non-commercial loans if subsequent to origination, the credit department evaluated the credit and determined it necessary to classify the loan. Subsequent to November 2014, non-commercial loans were designated a loan grade “4” at origination date to reflect a “pass grade”. The Bank follows the FDIC’s Uniform Retail Credit Classification and Account Management Policy for subsequent classification in the event of payment delinquencies or default. Loan grades are reviewed on a quarterly basis, or more frequently if necessary, by the credit department. Typically, an individual loan grade will not be changed from the prior period unless there is a specific indication of credit deterioration or improvement. Credit deterioration is evidenced by delinquency, direct communications with the borrower, or other borrower information that becomes known to management. Credit improvements are evidenced by known facts regarding the borrower or the collateral property. The loan grades relate to the likelihood of losses in that the higher the grade, the greater the loss potential. Loans with a pass grade may have some estimated inherent losses, but to a lesser extent than the other loan grades. The OAEM loan grade is transitory in that the Company is waiting on additional information to determine the likelihood and extent of the potential loss. The likelihood of loss for OAEM graded loans, however, is greater than Watch graded loans because there has been measurable credit deterioration. Loans with a Substandard grade are generally loans for which the Company has individually analyzed for potential impairment. For Doubtful and Loss graded loans, the Company is almost certain of the losses, and the unpaid principal balances are generally charged-off to the realizable value.

Table of Contents

The following tables present the balance of the noncovered loans receivable by credit quality indicator as of June 30, 2015 and December 31, 2014.

	June 30, 2015				
	Pass	OAEM	Substandard	Doubtful	Total

Noncovered potential problem loans are loans classified as OAEM or worse that are currently accruing interest and are not considered impaired, but which management is monitoring because the financial information of the borrower causes concern as to their ability to meet their loan repayment terms. Noncovered potential problem loans also include PCI loans as these loans continue to accrete loan discounts established at acquisition based on the guidance of ASC

310-30. Noncovered potential problem loans as of June 30, 2015 and December 31, 2014 were \$86.2 million and \$117.3 million, respectively. The balance of noncovered potential problem loans guaranteed by a governmental agency, which guarantee reduces the Company's credit exposure, was \$501,000 and \$2.0 million as of June 30, 2015 and December 31, 2014, respectively.

Table of Contents

(d) Nonaccrual Loans

Nonaccrual noncovered loans, segregated by segments and classes of loans, were as follows as of June 30, 2015 and December 31, 2014:

	June 30, 2015 (In thousands)	December 31, 2014
Commercial business:		
Commercial and industrial	\$2,533	\$3,463
Owner-occupied commercial real estate	1,957	1,163
Non-owner occupied commercial real estate	—	93
Total commercial business	4,490	4,719
One-to-four family residential	—	—
Real estate construction and land development:		
One-to-four family residential	2,489	2,652
Total real estate construction and land development	2,489	2,652
Consumer	19	139
Gross nonaccrual noncovered loans	\$6,998	\$7,510

The Company had \$1.7 million and \$1.6 million of nonaccrual noncovered loans guaranteed by governmental agencies at June 30, 2015 and December 31, 2014, respectively.

PCI noncovered loans are not included in the nonaccrual loan table above because these loans are accounted for under ASC 310-30, which provides that accretable yield is calculated based on a loan's expected cash flow even if the loan is not performing under its conventional terms.

(e) Past due loans

The Company performs an aging analysis of past due loans using the categories of 30-89 days past due and 90 or more days past due. This policy is consistent with regulatory reporting requirements.

Table of Contents

The balances of past due noncovered loans, segregated by segments and classes of loans, as of June 30, 2015 and December 31, 2014 were as follows:

Table of Contents

(f) Impaired loans

Impaired noncovered loans includes nonaccrual noncovered loans and performing troubled debt restructured noncovered loans ("TDRs"). The table below excludes \$624,000, as of June 30, 2015, of certain performing TDR noncovered loans classified as PCI as these loans are recorded at the recorded investment balance and may not have further impairment. The balance of impaired noncovered loans as of June 30, 2015 and December 31, 2014 are set forth in the following tables.

	June 30, 2015

Consumer	124	967	476	904
Total	\$24,505	\$32,932	\$28,199	\$31,911

For the three and six months ended June 30, 2015 and 2014, no interest income was recognized subsequent to a loan's classification as nonaccrual. For the three months ended June 30, 2015 and 2014, the Bank recorded \$224,000 and \$260,000, respectively, of interest income related to performing TDR noncovered loans. For the six months ended June 30, 2015 and 2014, the Bank recorded \$420,000 and \$533,000, respectively, of interest income related to performing TDR noncovered loans.

(g) Troubled Debt Restructured Loans

A troubled debt restructured loan is a restructuring in which the Bank, for economic or legal reasons related to a borrower's financial difficulties, grants a concession to the borrower that it would not otherwise consider. TDRs are considered impaired and are separately measured for impairment under FASB ASC 310-10-35, whether on accrual ("performing") or nonaccrual ("nonperforming") status.

The majority of the Bank's TDR noncovered loans are a result of granting extensions of maturity on troubled credits which have already been adversely classified. The Bank grants such extensions to reassess the borrower's financial status and to develop a plan for repayment. Certain modifications with extensions also include interest rate reductions, which is the second most prevalent concession. Certain TDRs were additionally re-amortized over a longer period of time. The Bank additionally advanced funds to a troubled speculative home builder to complete established projects. These modifications would all be considered a concession for a borrower that could not obtain similar financing terms from another source other than from the Bank.

The financial effects of each modification will vary based on the specific restructure. For the majority of the Bank's TDRs, the noncovered loans were interest-only with a balloon payment at maturity. If the interest rate is not adjusted and the modified terms are consistent with other similar credits being offered, the Bank may not experience any loss associated with the restructure. If, however, the restructure involves forbearance agreements or interest rate modifications, the Bank may not collect all the principal and interest based on the original contractual terms. The Bank estimates the necessary allowance for loan losses on noncovered TDRs using the same guidance as used for other noncovered impaired loans.

Table of Contents

The recorded investment balance and related allowance for loan losses of performing and nonaccrual TDR noncovered loans as of June 30, 2015 and December 31, 2014 were as follows:

	June 30, 2015		December 31, 2014	
	Performing TDRs	Nonaccrual TDRs	Performing TDRs	Nonaccrual TDRs
	(In thousands)			
TDR noncovered loans	\$ 19,783	\$ 4,288	\$ 18,764	\$ 5,010
Allowance for loan losses on TDR noncovered loans	2,280	282	1,908	1,033

The unfunded commitment to borrowers related to noncovered TDRs was \$376,000 and \$1.8 million at June 30, 2015 and December 31, 2014, respectively.

Noncovered loans that were modified as TDRs during the three and six months ended June 30, 2015 and 2014 are set forth in the following tables:

	Three Months Ended June 30, 2015		2014	
	Number of Contracts (1)	Outstanding Principal Balance (1)(2)	Number of Contracts (1)	Outstanding Principal Balance (1)(2)
	(Dollars in thousands)

Consumer	1	38	3	219
Total TDR noncovered loans	31	\$12,514	18	\$4,938

Number of contracts and outstanding principal balance represent loans which have balances as of period end as (1)certain loans may have been paid-down or charged-off during the three and six months ended June 30, 2015 and 2014.

Includes subsequent payments after modifications and reflects the balance as of period end. As the Bank did not forgive any principal or interest balance as part of the loan modification, the Bank's recorded investment in each loan at the date of modification (pre-modification) did not change as a result of the modification (2)(post-modification), except when the modification was the initial advance on a one-to-four family residential real estate construction and land development loan under a master guidance line. There were no advances on these types of loans during the three and six months ended June 30, 2015. During both the three and six months ended June 30, 2014, the Company's initial advance at the time of modification on these construction loans totaled \$45,000 and the total commitment amount was \$190,000.

Of the 20 noncovered loans modified during the three months ended June 30, 2015, 9 loans with a total outstanding principal balance of \$4.0 million had no prior modifications. Of the 18 noncovered loans modified during the three months ended June 30, 2014, 4 loans with a total outstanding principal balance of \$761,000 had no prior modifications. The remaining noncovered loans included in the tables above for the six months ended June 30, 2015 and 2014 were previously reported as noncovered TDRs. The Bank typically grants shorter extension periods to continually monitor the troubled credits despite the fact that the extended date might not be the date the Bank expects the cash flow. The Company does not consider these modifications a subsequent default of a noncovered TDR as new loan terms, specifically maturity dates, were granted. The potential losses related to these loans would have been considered in the period the loan was first reported as a noncovered TDR and adjusted, as necessary, in the current periods based on more recent information. The related specific valuation allowance at June 30, 2015 for noncovered loans that were modified as TDRs during the three months ended June 30, 2015 and during the six months ended June 30, 2015 was \$1.2 million and \$1.3 million, respectively.

The noncovered loans modified during the previous twelve months ended June 30, 2015 and 2014 that subsequently defaulted during the three and six months ended June 30, 2015 and 2014 are included in the following tables:

Table of Contents

	Three Months Ended June 30, 2015		2014	
	Number of Contracts	Outstanding Principal Balance	Number of Contracts	Outstanding Principal Balance
	(Dollars in thousands)			
Commercial business:				
Commercial and industrial	1	\$57	3	\$790

Real estate construction and land development:				
One-to-four family residential	1	865	—	—
Total real estate construction and land development	1	865	—	—
Total	2	\$922	4	\$792
	Six Months Ended June 30, 2015		2014	
	Number of Contracts	Outstanding Principal Balance	Number of Contracts	Outstanding Principal Balance
	(Dollars in thousands)			
Commercial business:				
Commercial and industrial	1	\$57	3	\$790
Non-owner occupied commercial real estate	0	—	1	2
Total commercial business	1	57	4	792
Real estate construction and land development:				
One-to-four family residential	1	865	—	—
Total real estate construction and land development	1	865	—	—
Total	2	\$922	4	\$792

The one-to-four family residential real estate construction loan totaling \$865,000 included in the above table defaulted during the three months ended June 30, 2015 because it was past its modified maturity date, and the borrower had not repaid the credit. The Bank does not intend to extend the maturity date. All other loans included in the table above for both periods defaulted as the loans were greater than 90 days past due. The Bank had a specific valuation allowance at June 30, 2015 related to the credits which defaulted during the three months ended June 30, 2015 of \$5,000.

(h) Purchased Credit Impaired Loans

The Company acquired PCI noncovered loans in the Washington Banking Merger and in previously completed acquisitions which are accounted for under FASB ASC 310-30. These previous acquisitions include the FDIC-assisted acquisitions of Cowlitz Bank ("Cowlitz") and Pierce Commercial Bank ("Pierce") on July 30, 2010 and November 8, 2010, respectively. In addition, the Company completed the acquisitions of Northwest Commercial Bank ("NCB") on January 9, 2013 and Valley Community Bancshares, Inc. ("Valley") on July 15, 2013.

Table of Contents

The following table reflects the outstanding principal balance and recorded investment at June 30, 2015 and December 31, 2014 of the PCI noncovered loans:

	June 30, 2015		December 31, 2014	
	Outstanding Principal	Recorded Investment	Outstanding Principal	Recorded Investment
	(In thousands)			
Commercial business:				
Commercial and industrial	\$15,338	\$11,775	\$22,144	\$18,040
Owner-occupied commercial real estate	12,435	11,271	18,165	16,208

Five or more family residential and commercial properties	2,263	2,486	2,721	2,963
Total real estate construction and land development	9,724	5,796	11,177	7,186
Consumer	5,158	6,337	5,983	7,055
Gross PCI noncovered loans	\$59,586	\$50,027	\$72,422	\$61,909

On the acquisition dates, the amount by which the undiscounted expected cash flows of the PCI noncovered loans exceeded the estimate fair value of the loan is the "accretable yield". The accretable yield is then measured at each financial reporting date and represents the difference between the remaining undiscounted expected cash flows and the current carrying value of the PCI noncovered loans.

The following table summarizes the accretable yield on the PCI noncovered loans resulting from the Pierce, NCB, and Valley acquisitions and the Washington Banking Merger for the three and six months ended June 30, 2015 and 2014.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
	(In thousands)			
Balance at the beginning of the period	\$14,015	\$7,089	\$12,572	\$7,714
Accretion	(1,030)	(761)	(2,042)	(1,589)
Disposal and other	(1,221)	(703)	(1,505)	(1,336)
Change in accretable yield	—	10,773	2,739	11,609
Balance at the end of the period	\$11,764	\$16,398	\$11,764	\$16,398

(4) Covered Loans Receivable

The Company acquired loans through FDIC-assisted transactions which are covered by FDIC shared-loss agreements. These loans are referred to as "covered loans." Covered loans were acquired in the Cowlitz acquisition in July 2010 and in the Washington Banking Merger in May 2014. Included in the covered loans acquired from Washington Banking were loans Washington Banking had acquired from City Bank in April 2010 and North County Bank in September 2010. As part of the Washington Banking Merger, the shared-loss agreements with these acquisitions were transferred to Heritage Bank.

Loans purchased with evidence of credit deterioration since origination for which it is probable that not all contractually required payments will be collected are accounted for under FASB ASC 310-30, Loans and Debt Securities Acquired with Deteriorated Credit Quality and are identified as PCI loans. Loans purchased that are not accounted for under FASB ASC 310-30 are accounted for under FASB ASC 310-20, Receivables—Nonrefundable Fees and Other Costs and are referred to as "non-PCI" loans.

Disclosures related to the Company's recorded investment in covered loans receivable generally exclude accrued interest receivable because it is insignificant.

28

Table of Contents

(a) Risk Management

The Company categorizes covered loans in the same four segments as the noncovered portfolio: commercial business, real estate construction and land development, one-to-four family residential and consumer.

The recorded investment of covered loans receivable at June 30, 2015 and December 31, 2014 consisted of the following portfolio segments and classes:

	June 30, 2015 (In thousands)	December 31, 2014
Commercial business:		
Commercial and industrial	\$ 16,836	\$ 19,110

Allowance for loan losses	(5,499) (5,576
Covered loans receivable, net	\$ 102,182	\$ 120,624

On April 16, 2015, the 5-year shared-loss period ended for certain non-single family loans, as categorized by the FDIC, in the City Bank portfolio. The Company's recorded investment balance of these loans totaled \$25.4 million at June 30, 2015. Since the end of the shared-loss period, the Company has continued to report these loans as covered loans in the Condensed Consolidated Financial Statements as of and for the three and six months ended June 30, 2015 as these loans are covered under the shared-loss agreement for an additional 3-year shared-recovery period.

At June 30, 2015 and December 31, 2014, the recorded investment balance of loans which are no longer covered under the FDIC shared-loss agreements due to Company modifications, but are included in the covered loan table above as they are included in the loan pool established at the time of acquisition, was \$1.5 million and \$872,000, respectively.

(b) Credit Quality Indicators

The following tables present the recorded invested balance of the covered loans receivable by credit quality indicator as of June 30, 2015 and December 31, 2014.

Table of Contents

	June 30, 2015

Table of Contents

(c) Nonaccrual Loans

The recorded investment balance of nonaccrual covered loans, segregated by segments and classes of loans, were as follows as of June 30, 2015 and December 31, 2014:

	June 30, 2015 (In thousands)	December 31, 2014
Commercial business:		
Commercial and industrial	\$1,820	\$2,321
Owner-occupied commercial real estate	1,087	1,132
Non-owner-occupied commercial real estate	401	424
Total commercial business	3,308	3,877
One-to-four family residential	171	179
Consumer	32	6
Gross nonaccrual covered loans	\$3,511	\$4,062

PCI covered loans are not included in the nonaccrual table above because the loans are accounted for under ASC 310-30, whereby accretable yield is calculated based on a loan's expected cash flow even if the loan is not performing under its conventional terms.

(d) Past Due Loans

The balances of past due covered loans, segregated by segments and classes of loans, as of June 30, 2015 and December 31, 2014 were as follows:

	June 30, 2015						90 Days or More and Still Accruing (1)
	30-89 Days	90 Days or Greater	Total Past Due	Current	Total

(1) Excludes covered PCI loans.

Table of Contents

(e) Impaired Loans

A covered loan, not initially classified as PCI, generally becomes impaired when classified as nonaccrual or when its modification results in a TDR. The table below excludes certain TDR loans totaling \$10.0 million and \$10.3 million as of June 30, 2015 and December 31, 2014, respectively, which are classified as PCI. These PCI loans are recorded at the recorded investment balance and may not have further impairment. Impaired covered loans as of June 30, 2015 and December 31, 2014 are set forth in the following tables.

	June 30, 2015

Real estate construction and land development:				
One-to-four family residential	173	—	105	—
Total real estate construction and land development	173	—	105	—
Consumer	19	7	12	7
Total	\$4,006	\$4,008	\$4,033	\$4,078

For the three and six months ended June 30, 2015 and 2014, no interest income was recognized subsequent to a covered loan's classification as nonaccrual. For the three months ended June 30, 2015 and 2014, the Bank recorded \$26,000 and \$47,000, respectively, of interest income related to performing TDR covered loans. For the six months ended June 30, 2015 and 2014, the Bank recorded \$29,000 and \$95,000, respectively, of interest income related to performing TDR covered loans.

(f) Troubled Debt Restructured Loans

The recorded investment balance and related allowance for loan losses of performing and nonaccrual covered TDRs as of June 30, 2015 and December 31, 2014 were as follows:

	June 30, 2015		December 31, 2014	
	Performing TDRs	Nonaccrual TDRs	Performing TDRs	Nonaccrual TDRs
	(In thousands)			
TDR covered loans	\$10,303	\$1,826	\$10,289	\$2,246
Allowance for loan losses on TDR covered loans	29	2	1	2

There were no unfunded commitments related to credits classified as covered TDRs at June 30, 2015 and December 31, 2014.

Table of Contents

Covered loans that were modified as TDRs during the three and six months ended June 30, 2015 and 2014 are set forth in the following table:

	Three Months Ended June 30, 2015		2014	
	Number of Contracts (1)	Outstanding Principal Balance (1)(2)	Number of Contracts (1)	Outstanding Principal Balance (1)(2)
	(Dollars in thousands)

Total real estate construction and land development	1	418	—	—
Consumer	1	104	—	—
Total TDR covered loans	6	\$8,753	1	\$3,626

Number of contracts and outstanding principal balance represent loans which have balances as of period end as (1)certain loans may have been paid-down or charged-off during the three and six months ended June 30, 2015 and 2014.

(2) Includes subsequent payments after modifications and reflects the balance as of period end. As the Bank did not forgive any principal or interest balance as part of the loan modification, the Bank's recorded investment in each loan at the date of modification (pre-modification) did not change as a result of the modification (post-modification).

All covered loan modified as a TDRs during the three and six months ended June 30, 2015 and 2014 included in the table above were extensions of credits to borrowers with financial difficulties. At June 30, 2015, the loans modified

during the three and six months ended June 30, 2015 had a specific valuation allowance of \$0 and \$28,000, respectively.

There was one commercial and industrial loan of \$1.8 million at June 30, 2015 that was modified during the previous twelve months and subsequently defaulted during both the three and six months ended June 30, 2015 as the borrower did not make specific curtailment payments. The defaulted loan had been written down to net realizable value at December 31, 2014 and no specific allowance for loan losses was recorded as of June 30, 2015. There were no covered loans modified during the previous twelve months ended June 30, 2014 that subsequently defaulted during the three and six months ended June 30, 2014.

Table of Contents

(g) Purchased Credit Impaired Loans

The Company acquired covered loans which the Bank accounts for under FASB ASC 310-30 as they were identified as PCI loans at the time of acquisition.

The following table reflects the outstanding principal balance and recorded investment at June 30, 2015 and December 31, 2014 of the PCI covered loans:

	June 30, 2015		December 31, 2014	
	Outstanding Principal	Recorded Investment	Outstanding Principal	Recorded Investment
	(In thousands)			
Commercial business:				
Commercial and industrial	\$ 10,324	\$ 8,139	\$ 9,635	\$ 7,134
Owner-occupied commercial real estate	15,431	13,755	23,071	20,666
Non-owner occupied commercial real estate	18,940	19,575	20,607	20,257
Total commercial business	44,695	41,469	53,313	48,057
One-to-four family residential	3,278	2,958	3,837	3,478
Real estate construction and land development:				
One-to-four family residential	—	1,209	103	1,308
Five or more family residential and commercial properties	901	816	2,140	1,802
Total real estate construction and land development	901	2,025	2,243	3,110
Consumer	2,719	2,529	2,945	2,717
Gross PCI covered loans	\$ 51,593	\$ 48,981	\$ 62,338	\$ 57,362

The Bank has the option to modify PCI covered loans; however, modifying the loan may terminate the FDIC shared-loss coverage on those loans. At June 30, 2015 and December 31, 2014, the recorded investment balance of PCI covered loans which are no longer covered under the FDIC shared-loss agreements was \$458,000 and \$476,000, respectively. The Bank continues to report these loans in the covered portfolio as they are in a pool and they continue to be accounted for under FASB ASC 310-30. The FDIC indemnification asset has been adjusted to reflect the change in the loan status.

(h) Accretable Yield

The following table summarizes the accretable yield on the PCI covered loans resulting from the Cowlitz acquisition and Washington Banking Merger for the three and six months ended June 30, 2015 and 2014.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
	(In thousands)

Accretion	(798)) (615)) (1,696)) (1,300)
Disposal and other	(545)) (392)) (899)) (435)
Change in accretable yield	—	3,712	1,042	3,968
Balance at the end of the period	\$ 6,967	\$ 11,768	\$ 6,967	\$ 11,768

Table of Contents

(5) Allowance for Loan Losses

The allowance for loan losses is maintained at a level deemed appropriate by management to provide for probable incurred credit losses in the loan portfolio.

A summary of the changes in the noncovered loans' allowance for loan losses during the three and six months ended June 30, 2015 and 2014 are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
	(In thousands)			
Balance at the beginning of the period	\$22,317	\$22,820	\$22,153	\$22,657
Charge-offs	(1,110) (1,152) (2,545) (1,215
Recoveries of loans previously charged-off	383	331	697	578
Provision for loan losses	1,189	370	2,474	349
Balance at the end of the period	\$22,779	\$22,369	\$22,779	\$22,369

A summary of the changes in the covered loans' allowance for loan losses during the three and six months ended June 30, 2015 and 2014 are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
	(In thousands)			
Balance at the beginning of the period	\$5,499	\$6,567	\$5,576	\$6,167
Charge-offs	—	(775) —	(854
Provision for loan losses	—	321	(77) 800
Balance at the end of the period	\$5,499	\$6,114	\$5,499	\$6,114

The covered loans acquired in the Cowlitz acquisition and Washington Banking Merger (including Washington Banking's prior acquisitions of City Bank and North County Bank and related covered loans) are subject to the Company's internal credit review. If and when credit deterioration occurs subsequent to the acquisition dates, a provision for loan losses will be charged to earnings for the full amount of the covered loan balance without regard to the FDIC shared-loss agreements. The portion of the estimated loss reimbursable from the FDIC is recorded in noninterest income and increases the FDIC indemnification asset.

Table of Contents

The following tables detail activity in the allowance for loan losses disaggregated by segment and class as of and for the three and six months ended June 30, 2015:

(6) FDIC Indemnification Asset

Changes in the FDIC indemnification asset during the three and six months ended June 30, 2015 and 2014 were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
	(In thousands)			
Balance at the beginning of the period	\$692	\$3,969	\$1,116	\$4,382
Additions as a result of the Washington Banking Merger	—	7,407	—	7,407
Cash payments received or receivable from the FDIC	—	(2,365)	(231)	(2,741)
FDIC share of additional estimated (gains) losses	(283)) 469	(352)) 805
Net amortization	(21)) (360)	(145)) (733)
Balance at the end of the period	\$388	\$9,120	\$388	\$9,120

Table of Contents

(7) Other Real Estate Owned

Changes in other real estate owned during the three and six months ended June 30, 2015 and 2014 were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
	(In thousands)			
Balance at the beginning of the period	\$4,094	\$4,284	\$3,355	\$4,559
Additions	85	—	1,813	218
Additions from acquisitions	—	7,121	—	7,121
Proceeds from dispositions	(1,050)	(3,337)	(1,639)	(3,857)
(Loss) gain on sales, net	(27)	38	(97)	65
Valuation adjustment	(85)	—	(415)	—
Balance at the end of the period	\$3,017	\$8,106	\$3,017	\$8,106

At June 30, 2015 and December 31, 2014, the balance of other real estate owned that was covered by shared-loss agreements was \$2.8 million and \$1.2 million, respectively.

(8) Goodwill and Other Intangible Assets

(a) Goodwill

The Company's goodwill represents the excess of the purchase price over the fair value of net assets acquired in the Washington Banking Merger on May 1, 2014, and the acquisitions of Valley on July 15, 2013, Western Washington Bancorp in 2006 and North Pacific Bank in 1998. The Company's goodwill is assigned to the Bank and is evaluated for impairment at the Bank level (reporting unit).

There were no additions to goodwill during the three and six months ended June 30, 2015. The Company recorded \$89.7 million in goodwill for each of the three and six months ended June 30, 2014. For additional information, see Note 14, Business Combination.

At June 30, 2015, the Company's step-one analysis concluded that the reporting unit's fair value was greater than its carrying value and therefore no goodwill impairment charges were required for the three and six months ended June 30, 2015. The Company did not record any goodwill impairment charges for the three and six months ended June 30, 2015 or for the three and six months ended June 30, 2014. Even though there was no goodwill impairment at June 30, 2015, adverse events may impact the recoverability of goodwill and could result in a future impairment charge which could have a material impact on the Company's operating results.

(b) Other Intangible Assets

The other intangible assets represent the core deposit intangible ("CDI") acquired in business combinations. The useful life of the CDI related to the Washington Banking Merger, the acquisitions of Valley, NCB, Pierce, Cowlitz, and Western Washington Bancorp were estimated to be ten, ten, five, four, nine and eight years, respectively.

The following table presents the change in the other intangible assets for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
	(In thousands)			
Balance at the beginning of the period	\$10,362	\$1,459	\$10,889	\$1,615
Additions as a result of acquisitions	—	11,194	—	11,194
Less: Amortization	527	489	1,054	645
Balance at the end of the period	\$9,835	\$12,164	\$9,835	\$12,164

(9) Junior Subordinated Debentures

As part of the Washington Banking Merger, the Company assumed trust preferred securities and junior subordinated debentures with a total fair value of \$18.9 million at May 1, 2014.

Table of Contents

Washington Banking Master Trust ("Trust"), a Delaware statutory business trust, was a wholly-owned subsidiary of Washington Banking created for the exclusive purposes of issuing and selling capital securities and utilizing sale proceeds to acquire junior subordinated debt issued by Washington Banking. During 2007, the Trust issued \$25.0 million of trust preferred securities with a 30-year maturity, callable after the fifth year by Washington Banking. The trust preferred securities have a quarterly adjustable rate based upon the three-month London Interbank Offered Rate ("LIBOR") plus 1.56%. On the Washington Banking Merger date of May 1, 2014, the Company acquired the Trust, which retained the Washington Banking Master Trust name, and assumed the performance and observance of the covenants under the indenture related to the trust preferred securities.

The adjustable rate of the trust preferred securities at June 30, 2015 was 1.84%. The weighted average rate of the junior subordinated debentures was 4.02% and 3.62% for the three months ended June 30, 2015 and 2014, respectively, and 4.54% and 3.62% for the six months ended June 30, 2015 and 2014, respectively. The weighted average rate includes the accretion of the discount established at the merger date which is amortized over the life of the trust preferred securities.

The junior subordinated debentures are the sole assets of the Trust, and payments under the junior subordinated debentures are the sole revenues of the Trust. At June 30, 2015, the balance of the junior subordinated debentures was \$19.3 million. All of the common securities of the Trust are owned by the Company. Heritage has fully and unconditionally guaranteed the capital securities along with all obligations of the Trust under the trust agreements.

(10) Repurchase Agreements

The Company utilizes repurchase agreements with one day maturities as a supplement to funding sources. Repurchase agreements are secured by pledged investment securities available for sale. Under the repurchase agreements the Company is required to maintain an aggregate market value of securities pledged greater than the stated margin balance. The Company is required to pledge additional securities to cover any declines below the stated margin balance. Additional information on total value of securities pledged for repurchase agreements is found in footnote 2: Investment Securities.

The following table presents the Company's repurchase agreement obligations by class of collateral pledged:

	June 30, 2015 (in thousands)
U.S. Treasury and U.S. Government-sponsored agencies	\$—
Municipal securities	—
Mortgage backed securities and collateralized mortgage obligations- residential:	
U.S. Government-sponsored agencies	20,589
Corporate obligations	—
Total borrowings	\$20,589
