CONTROLS AND PROCEDURES

A. Evaluation of Disclosure Controls and Procedures

The term disclosure controls and procedures is defined in Rules 13a-14(c) and 15d-14(c) of the Securities Exchange Act of 1934, as amended (the Exchange Act). These rules refer to the controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Furthermore, we have designed our disclosure controls and procedures to ensure that information that we are required to disclose in our report is accumulated and communicated to management (including our Chief Executive Officer and Chief Financial Officer) in a manner that permits timely decisions to be made regarding required disclosure.

Our Chief Executive Officer and our Chief Financial Officer have evaluated the effectiveness of our disclosure controls and procedures as of a date within 90 days prior to the date of the filing of this annual report, and they have concluded that such disclosure controls and procedures were effective at ensuring that they were alerted in a timely manner as to all material information that we are required to include in our reports with the Securities and Exchange Commission.

B. Changes in Internal Controls

We maintain a system of internal accounting controls that is designed to provide reasonable assurance that our books and records accurately reflect our transactions and that our established policies and procedures are followed. Since the date of the evaluation of our disclosure controls and procedures by our Chief Executive Officer and Chief Financial Officer, there have been no significant changes to our internal controls or in other factors that could significantly affect our internal controls subsequent to the date of the most recent evaluation.
