SEMIANNUAL REPORT

MARCH 31, 2004

Edgar Filing: H&Q HEALTHCARE INVESTORS - Form N-CSRS

To our Shareholders:

At quarter end on March 31, 2004, the net asset value per share of your Fund was \$20.80. During the six month period ending March 31, 2004, total return at net asset value of your Fund was 11.7%, a change that was equal or unfavorable to the comparative indices listed below. During the most recent quarter ending March 31, 2004, total return at net asset value of your Fund was 7.5%, a change that was favorable to all these same indices. The total return at market was 18.7% during the six month period ended March 31, 2004 and was 9.2% during the most recent quarter ended March 31, 2004.

	FISCAL YEAR TO DATE (6 MONTHS)	QUARTER ENDED 3/31/04
	-----	-----
Net Asset Value	+11.7%	+7.5%
AMEX Biotech Index	+16.1%	+7.4%
Dow Jones Industrial Average	+11.7%	-0.9%
NASDAQ Industrials	+19.3%	+4.0%
Russell 2000	+21.0%	+6.0%

In the first calendar quarter of 2004, there were several positive signs for the general economy. Overall economic growth was solid and consumer sales continued to be strong. Rebates, associated with recent tax reductions, are likely to make additional resources available to consumers (although we hope that some of this one time benefit will be allocated to savings). As of May 2004, the Federal Reserve continues to maintain interest rates at historically low levels. And after a relatively long period, it appears that there may be an upward trend in the creation of new jobs. Furthermore, business activity appears to be increasing. First quarter reports from a number of companies and sectors have been positive. All these trends are encouraging for the short term. On the other hand, there are also factors which give us concern. Energy prices are increasing. We believe there is general concern that interest rates, while low, will increase if and when the Federal Reserve reacts to the potential for economic inflation. And, most concerning to us, is the geopolitical situation in general and the conflict in Iraq, in particular. We are unclear about the exit strategy in Iraq and worry about the intermediate term impact on the economy. Overall, we think that the positives outlined above will dominate in the near term but that there will be some volatility in stock prices. In the intermediate term we are less certain.

As for the healthcare sector, we continue to be generally upbeat, particularly in the long term. As we have said several times, demographics favor this sector. The population is getting older and healthcare spending increases as people age. Having said this, the first

1

calendar quarter of 2004 was not a good one for large pharmaceutical companies as they generally lagged the broader market. Apparently, there is concern among investors about product pipelines, pricing power and generic competition in the large pharma group. In our view there is some basis for these concerns. However, we have generally high regard for the management teams of companies in this group and think, on a select basis, that there is opportunity for upside appreciation.

In contrast to the large pharma group, the biotechnology sector performed well in the first quarter. This was likely due to continued evidence of maturation of

Edgar Filing: H&Q HEALTHCARE INVESTORS - Form N-CSRS

the group, as evidenced by product approvals and other positive developments. Two products in the cancer area, Genentech's Avastin and Imclone's Erbitux have been recently approved, and are of particular note. Many analysts believe these will be very successful drugs. We think such approvals are crucial to the general advancement of the group.

The recent development of the initial public offering market for biotechnology stocks is also a good sign for the sector. More than a dozen companies have completed IPOs in recent months after a period of several years in which there was little or no market for such offerings. Furthermore, the stock price of a good number of these stocks has risen since their IPO. A number of other companies are in registration, with the intent to test the public market. We think that the demand for new public companies is good for the sector and encouraging for your Fund.

During the first calendar quarter of 2004, your Fund established positions in Elan, Cyberonics, and Genta and increased its positions in Amgen, Durect, Genzyme, Teva, United Therapeutics and Vivus. Your Fund also made an initial investment in restricted securities of I-Trax and follow on investments in TherOx and Zyomyx. In addition, one of the Fund's venture investments, Novacept, was acquired by Cytoc. The Fund sold out of positions in EP MedSystems and Vicuron Pharmaceuticals and decreased its ownership of deCODE Genetics, Endocardial Solutions and Sontra Medical.

As always, we encourage the Fund's shareholders to contact us with any questions or concerns you may have relating to the Fund.

CHANGE IN INDEPENDENT ACCOUNTANTS

PricewaterhouseCoopers LLP ("PwC") had been selected as the independent

Edgar Filing: H&Q HEALTHCARE INVESTORS - Form N-CSRS

accountants of the Fund for its fiscal year ending September 30, 2004. On May 7, 2004, PwC resigned as the Fund's independent accountants for its fiscal year ending September 30, 2004 effective upon the completion of services related to the Fund's semi-annual financial statements. The reports provided by PwC for the fiscal years ending September 30, 2002 and September 30, 2003 were unqualified and contained no adverse opinion or disclaimer of opinion, nor were the reports modified as to uncertainty, audit scope, or accounting principle. Further, in connection with its audits for the two previous fiscal years and through May 31, 2004, there have been no disagreements between PwC and the Fund on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which disagreements, if not resolved to their satisfaction, would have caused PwC to reference the subject matter of the disagreements in its report on the financial statements for such years. The Fund is currently seeking to retain new independent auditors for its fiscal year ending September 30, 2004.

H&Q HEALTHCARE INVESTORS
NOTES TO FINANCIAL STATEMENTS
March 31, 2004
(UNAUDITED)

(1) ORGANIZATION

H&Q Healthcare Investors (the Fund) is a Massachusetts business trust registered under the Investment Company Act of 1940 as a diversified closed-end management investment company. The Fund's investment objective is long-term capital appreciation through investment in securities of companies in the healthcare industries. The Fund invests primarily in securities of public and private companies that are believed to have significant potential for above-average growth. The Fund was organized on October 31, 1986 and commenced operations on April 22, 1987.

The preparation of these financial statements requires the use of certain estimates by management in determining the entity's assets, liabilities, revenues and expenses. Actual results could differ from these estimates. The following is a summary of significant accounting policies consistently followed by the Fund, which are in conformity with those generally accepted in the United States of America.

INVESTMENT SECURITIES

Investments traded on national securities exchanges or in the over-the-counter market that are National Market System securities are valued at the last sale price or, lacking any sales, at the mean between the last bid and asked prices. Other over-the-counter securities are valued at the most recent bid prices as obtained from one or more dealers that make markets in the securities. As indicated in Note 4, investments for which market quotations are not readily available are valued at fair value as determined in good faith by the Trustees of the Fund. Temporary cash investments with maturity of 60 days or less are valued at amortized cost.

Investment transactions are recorded on a trade date basis. Gains and losses from sales of investments are recorded using the "identified cost"

Edgar Filing: H&Q HEALTHCARE INVESTORS - Form N-CSRS

method. Interest income is recorded on the accrual basis, adjusted for amortization of premiums and accretion of discounts. Dividend income is recorded on the ex-dividend date.

REPURCHASE AGREEMENTS

In connection with transactions in repurchase agreements, the Fund's custodian takes possession of the underlying collateral securities, the market value of which is at least equal to the principal, including accrued interest, of the repurchase transaction at all times. In the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral by the Fund may be delayed or limited.

FEDERAL INCOME TAXES

It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute to its shareholders substantially all of its taxable income and its net realized capital gains, if any. Therefore, no Federal income or excise tax provision is required.

DISTRIBUTIONS

The Fund records all distributions to shareholders from net investment income, if any, and realized gains on the ex-dividend date. Such distributions are determined in conformity with income tax regulations. Due to permanent book/tax differences in accounting for certain transactions, certain distributions may be treated as distributions from capital as opposed to distributions of net investment income or realized capital gains.

15

DISTRIBUTION POLICY

The current distribution policy is to declare distributions in stock. Stock distributions will automatically be paid in newly issued shares of the Fund unless otherwise instructed by the shareholder. Pursuant to an SEC exemptive order, the Fund has implemented a fixed distribution policy that permits the Fund to make quarterly distributions at a rate of 2% of the Fund's net assets to shareholders of record. The Fund intends to use net realized capital gains when making quarterly distributions. This could result in a return of capital to shareholders if the amount of the distribution exceeds the Fund's net investment income and realized capital gains. It is anticipated that net realized capital gains in excess of the total distributed under this policy would be included in the December distribution.

STATEMENT OF CASH FLOWS

The cash amount shown in the Statement of Cash Flows is the amount included in the Fund's Statement of Assets and Liabilities and represents cash on hand at its custodian and does not include temporary cash investments at March 31, 2004.

INDEMNIFICATIONS

Under the Fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into agreements with service providers that may contain indemnification clauses. The Fund's maximum exposure under these

Edgar Filing: H&Q HEALTHCARE INVESTORS - Form N-CSRS

agreements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

(2) SECURITIES TRANSACTIONS

The aggregate cost of purchases and proceeds from sales of investment securities (other than temporary cash investments) for the six months ended March 31, 2004 totaled \$51,839,837 and \$50,981,668, respectively.

At March 31, 2004, the total cost of securities for Federal income tax purposes was \$259,319,440. The net unrealized gain on securities held by the Fund was \$53,497,292, including gross unrealized gain of \$96,363,048 and gross unrealized loss of \$42,865,756.

(3) INVESTMENT ADVISORY FEES AND OTHER TRANSACTIONS WITH AFFILIATES

The Fund has entered into an Investment Advisory Agreement (the Advisory Agreement) with Hambrecht & Quist Capital Management LLC (the Adviser). Pursuant to the terms of the Advisory Agreement, the Fund pays the Adviser a monthly fee at the rate when annualized of (i) 2.5% of the average net assets for the month of its venture capital and other restricted securities up to 25% of net assets and (ii) for the month, for all other assets, 1.0% of the average net assets up to \$250 million, 0.9% of the average net assets for the next \$250 million, 0.8% of the average net assets for the next \$500 million and 0.7% of the average net assets thereafter. The aggregate fee may not exceed a rate when annualized of 1.375%. Certain officers and Trustees of the Fund are also officers of the Adviser.

Trustees who are not affiliates of the Adviser receive an annual fee of \$20,000 plus \$500 for each Committee on which they serve and \$1,000 for each meeting attended.

16

(4) VENTURE CAPITAL AND OTHER RESTRICTED SECURITIES

The Fund may invest in venture capital and other restricted securities if these securities would currently comprise 40% or less of net assets. The value of these securities represents 20% of the Fund's net assets at March 31, 2004.

The value of the venture capital and other restricted securities is determined in good faith by the Trustees. However, because of the inherent uncertainty of valuations, these estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material.

During the six-month period ended March 31, 2004, certain restricted securities were exchanged for cash in connection with a corporate action, a portion of which has been retained by the issuer in an escrow account pending resolution of certain contingencies and whose estimated value of \$582,000 at March 31, 2004 has also been determined by the Trustees. At March 31, 2004, the Fund has a proportionate interest in a 5% interest bearing promissory note due October 31, 2004 from the sale of restricted securities, with a par value of \$121,200 and an estimated value of \$120,000 as determined by the Trustees. The value of the escrow account and note are included in the Receivable for Investments Sold in the Statement of Assets and Liabilities.

The following table details the acquisition date, cost, carrying value per
