PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1 Organization and Basis of Presentation

PennyMac Mortgage Investment Trust ("PMT" or the "Company") was organized in Maryland on May 18, 2009, and began operations on August 4, 2009, when it completed its initial offerings of common shares of beneficial interest ("shares"). The Company is a specialty finance company, which, through its subsidiaries (all of which are wholly-owned), invests primarily in residential mortgage loans and mortgage-related assets.

The Company's objective is to provide attractive risk-adjusted returns to its investors over the long-term, principally through dividends and secondarily through capital appreciation. The Company intends to achieve this objective largely by investing in distressed mortgage assets and acquiring, pooling, securitizing or selling newly originated prime credit quality residential mortgage loans ("correspondent lending").

The Company operates two segments: investment activities and correspondent lending. The investment activities segment focuses on mortgage assets that are acquired and held for investment purposes and the correspondent lending segment focuses on the purchase for resale of newly originated mortgage loans.

The investment activities segment represents the Company's investments in distressed mortgage loans, real estate acquired in settlement of loans ("REO"), mortgage-backed securities ("MBS") and mortgage servicing rights ("MSRs"). Management seeks to maximize the value of the distressed mortgage loans acquired by the Company through proprietary loan modification programs, special servicing and other initiatives focused on keeping borrowers in their homes. Where this is not possible, such as in the case of many nonperforming mortgage loans, the Company seeks to effect property resolution in a timely, orderly and economically efficient manner, including through the use of resolution alternatives to foreclosure.

The correspondent lending segment represents the Company's operations aimed at serving as an intermediary between mortgage lenders and the capital markets by purchasing, pooling and reselling the loans either directly or in the form of MBS, using the operations of the Company's Manager.

The Company believes that it qualifies, and has elected to be taxed, as a real estate investment trust ("REIT") under the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), beginning with its taxable period ended on December 31, 2009. To maintain its tax status as a REIT, the Company plans to distribute at least 90% of its taxable income in the form of qualifying distributions to shareholders.

The Company is externally managed by an affiliate, PNMAC Capital Management, LLC ("PCM" or the "Manager"), an investment adviser registered with the Securities and Exchange Commission (the "SEC") that specializes in and focuses on residential mortgage loans. Under the terms of a management agreement, PCM is paid a management fee with a base component and a performance incentive component. Determination of the amount of management fees is discussed in Note 3 *Transactions with Related Parties*.

The Company conducts substantially all of its operations and makes substantially all of its investments through its subsidiary, PennyMac Operating Partnership, L.P. (the "Operating Partnership"), and the Operating Partnership's subsidiaries. A subsidiary of the Company is the sole general partner, and the Company is the sole limited partner, of the Operating Partnership.

Table of Contents

PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Note 1 Organization and Basis of Presentation (Continued)

The accompanying consolidated financial statements have been prepared in compliance with accounting principles generally accepted in the United States ("U.S. GAAP") for interim financial information and with the SEC's instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, these financial statements and notes do not include all of the information required by U.S. GAAP for complete financial statements. The interim consolidated information should be read together with the Company's Annual Report on Form 10-K for the year ended December 31, 2011 (the "Annual Report").

Preparation of financial statements in compliance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reporting period. Actual results will likely differ from those estimates.

In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the period ended March 31, 2012 are not necessarily indicative of the results for the year ending December 31, 2012.

Note 2 Concentration of Risks

As discussed in Note 1 *Organization and Basis of Presentation* above, PMT's investing activities are centered in real estate-related assets, a substantial portion of which are distressed at acquisition. Because of the Company's investment strategy, many of the mortgage loans in its targeted asset class are purchased at discounts reflecting their distressed state or perceived higher risk of default, as well as a greater likelihood of collateral documentation deficiencies. Prior to the acquisition of loans or other assets, PCM validates key information provided by the sellers that is necessary to determine the value of the acquired asset. A substantial portion of the non-correspondent lending loans purchased by the Company has been acquired from or through one or more subsidiaries of Citigroup, Inc.

Through its management agreement with PCM and its loan servicing agreements with its loan servicers, primarily an affiliated company, PennyMac Loan Services, LLC ("PLS"), PMT works with borrowers to perform loss mitigation activities. Such activities include the use of loan modification programs (such as the U.S. Department of the Treasury and Housing and Urban Development's Home Affordable Modification Program ("HAMP")) and workout options that PCM believes have the highest probability of successful resolution for both borrowers and PMT. Loan modification or resolution may include PMT accepting a reduction of the principal balances of certain mortgage loans in its investment portfolio. When loan modifications and other efforts are unable to cure distressed loans, the Company's objective is to effect timely acquisition and liquidation of the property securing the mortgage loan.

Because of the Company's investment focus, PMT is exposed, to a greater extent than traditional mortgage investors, to the risks that borrowers may be in economic distress and/or may have become unemployed, bankrupt or otherwise unable or unwilling to make payments when due, and to the effects of fluctuations in the residential real estate market on the performance of its investments. Factors influencing these risks include, but are not limited to:

changes in the overall economy, unemployment and residential real estate values in the markets where the properties securing the Company's mortgage loans are located;

Table of Contents

PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Note 2 Concentration of Risks (Continued)

PCM's ability to identify, and the Company's loan servicers' ability to execute, optimal resolutions of problem mortgage loans;

the accuracy of valuation information obtained during the Company's due diligence activities;

PCM's ability to effectively model, and to develop appropriate model assumptions that properly anticipate, future outcomes;

the level of government support for problem loan resolution and the effect of current and future proposed and enacted legislative and regulatory changes on the Company's ability to effect cures or resolutions to distressed loans; and

regulatory, judicial and legislative support of the foreclosure process, and the resulting impact on the Company's ability to acquire and liquidate the real estate securing its portfolio of distressed mortgage loans in a timely manner or at all.

Due to these uncertainties, there can be no assurance that risk management activities identified and executed on PMT's behalf will prevent significant losses arising from the Company's investments in real estate-related assets.

On December 20, 2011 and July 12, 2011, the Company entered into forward purchase agreements with Citigroup Global Markets Realty Corp. ("CGM"), a subsidiary of Citigroup Inc., to purchase certain nonperforming residential mortgage loans and residential real property acquired in settlement of loans (collectively, the "CGM Assets"). The CGM Assets were acquired by CGM from unaffiliated money center banks. The initial purchase price under the forward commitment on December 20, 2011 was \$22.1 million. The remaining purchase price as of March 31, 2012 is \$20.1 million. Remaining subsequent adjustments may increase the purchase price to \$20.5 million based on the date the purchase is settled. The initial purchase price under the forward commitment on July 12, 2011 was \$172.7 million. The remaining purchase price as of March 31, 2012, is \$98.3 million. Remaining subsequent adjustments may increase the purchase price to \$99.2 million based on the date the purchase is settled.

The Company also pays CGM a cost of carry on the CGM Assets pending purchase through the date such CGM Assets are ultimately acquired. The Company recognized the assets subject to the transactions and the related liability. The CGM Assets are serviced by PLS.

The CGM Assets are included on the Company's consolidated balance sheet as *Mortgage loans under forward purchase agreements at fair value* and *Real estate acquired in settlement of loans under forward purchase agreements* and the related liabilities are included as *Borrowings under forward purchase agreements*. The CGM Assets are being held by CGM within a separate trust entity deemed a variable interest entity. The Company's interest in the CGM Assets is deemed to be contractually segregated from all other interests in the trust. When assets are contractually segregated, they are often referred to as a "silo." The silo consists of the CGM Assets and its related liability. The Company directs all of the activities that drive the economic results of the CGM Assets. All of the changes in the fair value and cash flows of the CGM Assets are attributable solely to the Company, and such cash flows can only be used to settle the related liability.

Table of Contents

PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Note 2 Concentration of Risks (Continued)

As a result of consolidating the silo, the Company's consolidated statement of income for the three months ended March 31, 2012 includes net gain on mortgage loans of \$6.7 million, interest income on mortgage loans of \$502,000, interest expense of \$1.5 million and loan servicing fees expense of \$585,000. The Company received repayments of mortgage loans totaling \$8.7 million and repaid borrowings under the forward purchase agreements totaling \$27.1 million during the three months ended March 31, 2012. The Company has no other variable interests in the trust entity, or other exposure to the creditors of the trust entity which could expose the Company to loss.

On April 13 and April 24, 2012, PCM committed to acquire on the Company's behalf mortgage loans from or through one or more subsidiaries of Citigroup, Inc. with purchase prices totaling approximately \$20.2 million and \$139.2 million, respectively.

On April 27, 2012, the Company, through PCM, completed the purchase of \$56.5 million in fair value of mortgage loans from a subsidiary of Citigroup, Inc.

During the three months ended March 31, 2011, the Company purchased \$243.1 million of mortgage loans at fair value for its investment portfolio. Of that total, \$227.3 million at fair value of mortgage loans were purchased from or through one or more subsidiaries of Citigroup, Inc.

Beginning in the fourth quarter of 2011, the Company's correspondent lending activities have experienced substantial growth. As a result of such growth, the Company's correspondent lending segment contributed approximately 42% of PMT's pre-tax income during the quarter ended March 31, 2012 and the inventory of mortgage loans acquired for sale at fair value represented approximately 12% of the Company's investments at March 31, 2012.

Correspondent lending activities introduce different risks from those posed by investments in distressed assets. The Company's correspondent lending activities and the MSR's that are held in the Company's investment segment that the Company receives as proceeds from such correspondent lending sales are more sensitive to the level and volatility of interest rates. For example, a decline in mortgage rates generally increases the demand for home loans as borrowers refinance, but also generally leads to accelerated payoffs in the Company's mortgage servicing portfolio, which negatively impacts the value of MSR's.

Management attempts to manage the sensitivity of earnings to this risk through the use of derivative financial instruments to moderate the effects of changes in the level and volatility of interest rates on the fair value of the Company's inventory of mortgage loans acquired for sale at fair value and commitments to purchase mortgage loans for sale. The Company does not presently use derivative financial instruments to moderate the effects of changes in the fair value of its investment in MSR's on PMT's earnings.

The success of the Company's interest rate risk management strategies is dependent on management's ability to predict the earnings sensitivity of its loan servicing and loan production operations in various interest rate environments. There are many market factors that affect the performance of the Company's interest rate risk management activities including interest rate volatility, the shape of the yield curve and the spread between mortgage interest rates and United States Treasury or swap rates. The success of this strategy affects PMT's net income and the effect can be either positive or negative, and can be material to the Company.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 2 Concentration of Risks (Continued)**

The correspondent lending segment's ability to sell loans profitably is affected by many factors, including the relative demands for such loans and MBS evidencing interests in such loans, the cost of credit enhancements, investor perceptions of such loans and MBS and the risks posed by such products.

Note 3 Transactions with Related Parties

The Company is managed externally by PCM under the terms of a management agreement that expires on August 4, 2012 and will be automatically renewed for a one-year term each anniversary date thereafter unless previously terminated. The management agreement provides for an annual review of PCM's performance under the management agreement by the Company's independent trustees. PMT's board of trustees reviews the Company's financial results, policy compliance and strategic direction.

As more fully described in the Company's Annual Report, certain of the underwriting costs incurred in the Company's initial public offering ("IPO") were paid on PMT's behalf by PCM and a portion of the underwriting discount was deferred by agreement with the underwriters of the offering. PMT will reimburse PCM the underwriting costs as discussed in Note 25 *Shareholders' Equity*.

PMT pays PCM a base management fee and may pay a performance incentive fee, both payable quarterly and in arrears.

Following is a summary of management fee expense and the related liability recorded by the Company for the periods presented:

	2012	2011
	(in thousands)	
Base management fee	\$ 1,804	\$ 1,549
Performance incentive fee		
Total management fee incurred during the period	1,804	1,549
Fee paid during the period	(1,095)	(1,228)
Fee outstanding at beginning of period	1,095	1,228
Fee outstanding at period end	\$ 1,804	\$ 1,549

Both the management and termination fees are more fully described in Note 4 *Transactions with Related Parties* to the Company's Annual Report.

The Company, through its Operating Partnership, also has a loan servicing agreement with PLS. Servicing fee rates are based on the risk characteristics of the mortgage loans serviced and total servicing compensation is established at levels that management believes are competitive with those charged by other servicers or specialty servicers, as applicable.

Servicing fee rates for nonperforming loans are expected to range between 30 and 100 basis points per year on the unpaid principal balance of the mortgage loans serviced on the Company's behalf. PLS is also entitled to certain customary market-based fees and charges, including boarding and deboarding fees, liquidation and disposition fees, assumption, modification and origination fees and late charges, as well as interest on funds on deposit in custodial accounts. In the event PLS either effects a refinancing

(Unaudited)

Note 3 Transactions with Related Parties (Continued)

of a loan on the Company's behalf and not through a third party lender and the resulting loan is readily saleable, or originates a loan to facilitate the disposition of real estate that the Company has acquired in settlement of a loan, PLS is entitled to receive from the Company market-based fees and compensation.

PLS, on behalf of the Company, currently participates in HAMP (and other similar mortgage loan modification programs), which establishes standard loan modification guidelines for "at risk" homeowners and provides incentive payments to certain participants, including loan servicers, for achieving modifications and successfully remaining in the program. The loan servicing agreement entitles PLS to retain any incentive payments made to it and to which it is entitled under HAMP; provided, however, that with respect to any such incentive payments paid to PLS under HAMP in connection with a mortgage loan modification for which the Company previously paid PLS a modification fee, PLS shall reimburse the Company an amount equal to the lesser of such modification fee or such incentive payments.

In connection with the Company's correspondent lending business, through which the Company acquires mortgage loans originated by correspondent lenders for resale to the government-sponsored agencies such as the Federal National Mortgage Association ("Fannie Mae") or securitization through Government National Mortgage Association ("Ginnie Mae") (Fannie Mae and Ginnie Mae are each referred to as an "Agency" and, collectively, as the "Agencies") and other investors, PLS is entitled to base servicing fees, which range from 4 to 20 basis points per year of the unpaid principal balance of such loans, and other customary market-based fees and charges as described above. PLS also provides certain mortgage banking services, including fulfillment and disposition-related services, to the Company for a fulfillment fee based on a percentage of the unpaid principal balance of the mortgage loans to be sold to non-affiliates where the Company is approved or licensed to sell to such non-affiliate. The fulfillment fee for such services is currently 50 basis points. During the quarter ended March 31 2012 and 2011, the Company recorded fulfillment fees totaling \$6.1 million and \$12,000, respectively.

The Company collects interest income and a sourcing fee of three basis points for each mortgage loan it purchases from a correspondent and sells to PLS for ultimate disposition to a third party where the Company is not approved or licensed to sell to such third party. During the quarters ended March 31, 2012 and 2011, the Company sold loans with unpaid balances totaling approximately \$799.2 million and \$3.5 million and received sourcing fees totaling approximately \$240,000 and \$4,000, respectively. The Company held mortgage loans pending sale to PLS with unpaid balances totaling approximately \$39.5 million and \$44.2 million at March 31, 2012 and December 31, 2011, respectively.

The Company paid servicing and other fees to PLS as described above and as provided in its loan servicing agreement and recorded other expenses, including common overhead expenses incurred on its behalf by PCM and its affiliates, in accordance with the terms of its management agreement.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 3 Transactions with Related Parties (Continued)**

Following is a summary of those expenses for the periods presented:

	Quarter ended March 31,	
	2012	2011
	(in thousands)	
Loan servicing and fulfillment fees payable to PLS	\$ 6,941	\$ 2,171
Reimbursement of expenses incurred on PMTs behalf :		
Compensation	304	128
Other	2,106	659
	2,410	787
Reimbursement of common overhead incurred by PCM and its affiliates	386	587
	\$ 9,737	\$ 3,545
Payments during the period	\$ 5,485	\$ 1,206

Amounts due to affiliates are summarized below as of the dates presented:

	March 31, 2012	December 31, 2011
	(in thousands)	
Contingent offering costs	\$ 2,941	\$ 2,941
Management fee	1,804	1,096
Other expenses	12,602	8,129
	\$ 17,347	\$ 12,166

Amounts due from affiliates totaled \$5.5 million and \$347,000 at March 31, 2012 and December 31, 2011, respectively, and represent amounts receivable pursuant to loan sales to PLS and reimbursable expenses paid on the affiliates' behalf by the Company.

PCM's parent company, Private National Mortgage Acceptance Company, LLC, held 75,000 of the Company's common shares of beneficial interest at both March 31, 2012 and December 31, 2011.

Note 4 Earnings Per Share

Basic earnings per share is determined using net income divided by the weighted-average common shares outstanding during the period. Diluted earnings per share is computed by dividing net income attributable to common shareholders by the weighted-average common shares outstanding, assuming all potentially dilutive common shares were issued. In periods in which the Company records a loss, potentially dilutive common shares are excluded from the diluted loss per share calculation, as their effect on loss per share is anti-dilutive.

During the year ended December 31, 2011, the Company made grants of restricted share units which entitle the recipients to receive dividend equivalents during the vesting period on a basis equivalent to the dividends paid to holders of common shares. For purposes of calculating earnings per

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 4 Earnings Per Share (Continued)**

share, unvested share-based compensation awards containing non-forfeitable rights to dividends or dividend equivalents (collectively, "dividends") are classified as "participating securities" and are included in the basic earnings per share calculation using the two-class method. Under the two-class method, all earnings (distributed and undistributed) are allocated to each class of common shares and participating securities, based on their respective rights to receive dividends.

The following table summarizes the basic and diluted earnings per share calculations for the periods presented:

	Quarter ended March 31,	
	2012	2011
	(in thousands)	
Basic earnings per share:		
Net income	\$ 19,058	\$ 7,645
Effect of participating securities share-based compensation instruments	(213)	(31)
Net income attributable to common shareholders	18,845	7,614
Weighted-average shares outstanding	29,076	21,938
Basic earnings per share	\$ 0.65	\$ 0.35
Diluted earnings per share:		
Net income	\$ 19,058	\$ 7,645
Weighted-average shares outstanding	29,076	21,938
Dilutive potential common shares shares issuable under share-based compensation plan	279	210
Diluted weighted-average number of common shares outstanding	29,355	22,148
Diluted earnings per common share	\$ 0.65	\$ 0.35

Note 5 Loan Sales

The Company purchases and sells mortgage loans into the secondary mortgage market without recourse for credit losses. However the Company maintains continuing involvement with the loans in the form of servicing arrangements and the potential liability under representations and warranties it makes to purchasers and insurers of the loans.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 5 Loan Sales (Continued)**

The following table summarizes cash flows between the Company and transferees upon sale of loans in transactions whereby the Company maintains continuing involvement with the mortgage loan and period-end information relating to such loans:

	Quarter ended March 31, 2012 (in thousands)
Cash flows:	
Proceeds from sales	\$ 1,931,024
Service fees received	\$ 701
Period-end information:	
Unpaid principal balance of loans outstanding at period-end	\$ 1,532,615
Loans delinquent 30 - 89 days	\$ 1,487
Loans delinquent 90 or more days or in foreclosure or bankruptcy	\$

Note 6 Fair Value

The Company's financial statements include assets and liabilities that are measured based on their estimated fair values. The application of fair value estimates may be on a recurring or nonrecurring basis depending on the accounting principles applicable to the specific asset or liability and whether management has elected to carry the item at its estimated fair value as discussed in the following paragraphs.

Fair Value Accounting Elections

Management identified all of its financial assets, including short-term investments, United States Treasury security, MBS, and mortgage loans as well as its securities sold under agreements to repurchase and its MSR's relating to loans with initial interest rates of more than 4.5% that were acquired as a result of its correspondent lending operations to be accounted for at estimated fair value so such changes in fair value will be reflected in income as they occur and more timely reflect the results of the Company's investment performance.

For MSR's relating to mortgage loans with initial interest rates of less than or equal to 4.5% that were acquired as a result of the Company's correspondent lending operations, management has concluded that such assets present different risks to the Company than MSR's relating to mortgage loans with initial interest rates of more than 4.5% and therefore require a different risk management approach. Management's risk management efforts relating to these assets are aimed at moderating the effects of non-interest rate risks on fair value, such as the effect of changes in home prices on the assets' values. Management has identified these assets for accounting using the amortization method. Management's risk management efforts in connection with MSR's relating to mortgage loans with initial interest rates of more than 4.5% are aimed at moderating the effects of changes in interest rates on the assets' values.

For loans sold under agreements to repurchase subject to agreements made beginning in December 2010, REO financed through agreements to repurchase beginning in June 2011 and borrowings under forward purchase agreements beginning in July 2011, management has determined

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 6 Fair Value (Continued)**

that historical cost accounting is more appropriate because under this method debt issuance costs are spread over the term of the debt, thereby matching the debt issuance expense to the periods benefiting from the usage of the debt.

Financial Statement Items Measured at Fair Value on a Recurring Basis

Following is a summary of financial statement items that are measured at estimated fair value on a recurring basis as of the dates presented:

	March 31, 2012

	\$	\$	\$ 52,192	\$ 52,192	\$ (3,423)

Real Estate Acquired in Settlement of Loans

The Company measures its investment in REO at the respective properties' estimated fair values less cost to sell on a nonrecurring basis. The value of the REO is initially established as the lesser of (a) either the fair value of the loan at the date of transfer, (b) the fair value of the real estate less estimated costs to sell as of the date of transfer or (c) the purchase price of the property. REO may be subsequently revalued due to the Company receiving greater access to the property, the property being held for an extended period or management receiving indications that the property's value may not be supported by developing market conditions. Any subsequent change in fair value to a level that is less than or equal to the value at which the property was initially recorded is recognized in *Results of real estate acquired in settlement of loans* in the consolidated statements of income.

Mortgage Servicing Rights at Lower of Amortized Cost or Fair Value

The Company evaluates its MSR at lower of amortized cost or fair value with reference to the assets' fair value. For purposes of performing its MSR impairment evaluation, the Company stratifies its MSR at lower of amortized cost or fair value based on the interest rates borne by the mortgage loans underlying the MSRs. Mortgage loans are grouped into note rate pools of 50 basis points for fixed-rate mortgage loans with note rates between 3% and 4.5% and a single pool for mortgage loans with note rates below 3%. MSRs relating to adjustable rate mortgage loans with initial interest rates of 4.5% or less are evaluated in a single pool. If the fair value of MSRs in any of the note rate pools is below the amortized cost of the MSRs for that pool reduced by any existing valuation allowance, those MSRs are impaired.

When MSRs are impaired, the impairment is recognized in current-period earnings and the carrying value of the MSRs is adjusted using a valuation allowance. If the value of the MSRs subsequently increases, the restoration of value is recognized in current period earnings only to the extent of the valuation allowance.

Management periodically reviews the various impairment strata to determine whether the value of the impaired MSRs in a given stratum is likely to recover. When management deems recovery of the value to be unlikely in the foreseeable future, a write-down of the cost of the MSRs for that stratum to its estimated fair value is charged to the valuation allowance.

Table of Contents

PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Note 6 Fair Value (Continued)

Fair Value of Financial Instruments Carried at Amortized Cost

The Company has debt facilities to finance its investment in nonperforming loans and REO in the form of repurchase agreements and borrowings under forward purchase agreements. As discussed in *Fair Value Accounting Elections* above, management designated these agreements to be accounted for at amortized cost.

Management has concluded that the estimated fair values of *Mortgage loans acquired for sale at fair value sold under agreements to repurchase*, *Mortgage loans at fair value sold under agreements to repurchase*, *Real estate acquired in settlement of loans financed under agreements to repurchase*, *Note payable secured by mortgage loans at fair value* and *Borrowings under forward purchase agreements* approximate the agreements' carrying values due to the agreements' short terms and variable interest rates.

Valuation Techniques and Assumptions

Most of the Company's assets are carried at fair value with changes in fair value recognized in current period results of operations. A substantial portion of those assets are "Level 3" financial statement items which require the use of significant unobservable inputs in its estimation of the assets' values. Unobservable inputs reflect the Company's own assumptions about the factors that market participants use in pricing an asset or liability, and are based on the best information available in the circumstances.

The Manager has assigned the responsibility for estimating the fair values of its "Level 3" financial statement items to a specialized valuation group and has developed procedures and controls governing the valuation process relating to these assets. The estimation of fair values of the Company's financial assets are assigned to the Manager's Financial Analysis and Valuation group (the "FAV group"), which is responsible for valuing and monitoring the Company's investment portfolios as well as the maintenance of the valuation policies and procedures.

The FAV group reports to the Manager's senior management valuation committee, which oversees and approves the valuations. The valuation committee includes the chief executive, financial, investment and credit officers of the Manager. The FAV group monitors the models used for valuation of the Company's "Level 3" financial statement items, including the models' performance versus actual results and reports those results to the valuation committee. The results developed in the FAV group's monitoring activities are used by the FAV group to calibrate subsequent projections used for valuation.

The FAV group is also responsible for reporting to the valuation committee on a monthly basis on the changes in the valuation of the portfolio, including major drivers affecting the valuation and any changes in model methods and assumptions. To assess the reasonableness of its valuations, the FAV group presents an analysis of the effect on the valuation of each of the changes to the significant inputs to the models.

The following describes the methods used in estimating the fair values of Level 2 and Level 3 financial statement items:

Mortgage-Backed Securities

MBS values are presently determined based on whether the securities are issued by one of the Agencies as discussed below:

Agency MBS are categorized as "Level 2" financial statement items. Fair value of Agency MBS is estimated based on quoted market prices for similar securities.

Non-Agency MBS are categorized as "Level 3" financial statement items. Fair value of non-Agency MBS is estimated using broker indications of value. For indications of value received, the FAV group reviews the price indications provided by non-affiliate brokers for completeness, accuracy and consistency across all similar bonds managed by PCM. Bond-level analytics such as yield, weighted average life and projected prepayment and default speeds of the underlying collateral are computed. The reasonableness of the brokers' indications of value and of changes in value from period to period is evaluated in light of the analytical review performed and considering market conditions. The review of the FAV group is reported to PCM's valuation committee as part of their review and approval of monthly valuation results. PCM has not adjusted, and does not intend to adjust, its fair value estimates to amounts different than the brokers' indications of value.

The significant unobservable inputs used in the fair value measurement of the Company's non-Agency MBS are discount rates, prepayment speeds, default speeds and loss severities in the event of default (or "collateral remaining loss percentage"). Significant changes in any of those inputs in isolation could result in a significant change in fair value measurement. Changes in these assumptions are not directly correlated, as they may be separately affected by changes in collateral characteristics and performance, servicer behavior, legal and regulatory actions, economic and housing market data and market sentiment.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 6 Fair Value (Continued)**

Following is a quantitative summary of key inputs used by PCM's valuation staff to evaluate the reasonableness of the fair value of Non-Agency MBS:

Security Class	Key Inputs(1)	Range (Weighted Average)	
		March 31, 2012	December 31, 2011
Non-Agency subprime	Discount rate	2.8% - 29.6% (10.0)%	3.1% - 23.0% (8.0)%
	Prepayment speed(2)	0.1% - 6.6% (3.8)%	0.1% - 8.4% (4.4)%
	Default speed(3)	4.4% - 18.6% (11.3)%	3.6% - 19.8% (12.3)%
	Collateral remaining loss percentage(4)	23.2% - 67.6% (46.1)%	23.9% - 63.7% (47.0)%
Non-Agency Alt-A	Discount rate	4.2% - 7.3% (5.0)%	4.4% - 10.0% (6.2)%
	Prepayment speed(2)	2.2% - 7.7% (5.0)%	0.5% - 8.9% (5.4)%
	Default speed(3)	3.2% - 11.8% (9.9)%	3.0% - 11.5% (9.7)%
	Collateral remaining loss percentage(4)	12.44% - 36.21% (24.8)%	11.4% - 36.4% (26.0)%
Non-Agency prime jumbo	Discount rate	4.7% - 4.7% (4.7)%	6.5% - 6.5% (6.5)%
	Prepayment speed(2)	15.1% - 15.1% (15.1)%	14.3% - 14.3% (14.3)%
	Default speed(3)	1.0% - 1.0% (1.0)%	1.5% - 1.5% (1.5)%
	Collateral remaining loss percentage(4)	0.5% - 0.5% (0.5)%	0.4% - 0.4% (0.4)%

-
- (1) Key inputs are those used to evaluate broker indications of value.
- (2) Prepayment speed is measured using Life Voluntary Conditional Prepayment Rate ("CPR").
- (3) Default speed is measured using Life Constant Default Rate ("CDR").
- (4) The projected future losses on the loans in the collateral groups paying to each bond as a percentage of the current balance of the loans.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Note 6 Fair Value (Continued)

Mortgage Loans

Fair value of mortgage loans is estimated based on whether the mortgage loans are saleable into active markets with established counterparties and transparent pricing:

Mortgage loans that are saleable into active markets, comprised of the Company's mortgage loans acquired for sale at fair value, are categorized as "Level 2" financial statement items and their fair values are estimated using their quoted market or contracted price or market price equivalent.

Loans that are not saleable into active markets are categorized as "Level 3" financial statement items, and their fair values are estimated using a discounted cash flow approach. Inputs to the model include current interest rates, loan amount, payment status and property type, and forecasts of future interest rates, home prices, prepayment speeds, default and loss severities. The valuation process includes the computation by stratum of loan population and a review for reasonableness of various measures such as weighted average life, projected prepayment and default speeds, and projected default and loss percentages. The FAV group computes the effect on the valuation of changes in input variables such as interest rates, home prices, and delinquency status to assess the reasonableness of changes in the loan valuation. The results of the estimates of fair value of "Level 3" mortgage loans are reported to PCM's valuation committee as part of their review and approval of monthly valuation results.

Changes in fair value attributable to changes in instrument-specific credit risk are measured by the change in the respective loan's delinquency status at period-end from the later of the beginning of the period or acquisition date.

The significant unobservable inputs used in the fair value measurement of the Company's distressed mortgage loans at fair value and mortgage loans under forward purchase agreements at fair value, are discount rate, home price projections, voluntary prepayment speeds and default speeds. Significant changes in any of those inputs in isolation could result in a significant change to the loans' fair value measurement. Increases in home price projections are generally accompanied by an increase in voluntary prepayment speeds.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 6 Fair Value (Continued)**

Following is a quantitative summary of key inputs used in the valuation of mortgage loans at fair value:

Key Inputs	Range (Weighted Average)	
	March 31, 2012	December 31, 2011
Discount rate	9.1% - 20.8%	9.1% - 20.8%
	(14.6)%	(14.8)%
Twelve-month projected housing price index change	-1.1% - 1.0%	-0.9% - 2.3%
	(-0.5)%	(-0.3)%
Prepayment speed(1)	0.2% - 6.1%	0.2% - 6.2%
	(2.6)%	(2.1)%
Total prepayment speed(2)	1.0% - 32.5%	1.0% - 33.8%
	(23.5)%	(26.5)%

(1) Prepayment speed is measured using Life Voluntary CPR.

(2) Total prepayment speed is measured using Life Total CPR.

Derivative Financial Instruments

The Company estimates the fair value of an interest rate lock commitment based on quoted Agency MBS prices, its estimate of the fair value of the mortgage servicing rights it expects to receive in the sale of the loans and the probability that the mortgage loan will fund within the terms of the interest rate lock commitment. The Company estimates the fair value of commitments to sell loans based on quoted MBS prices. The Company estimates the fair value of the MBS options and futures it purchases and sells based on observed interest rate volatilities in the MBS market. The Company estimates the fair value of its MBS interest rate swaptions based on quoted market prices.

Real Estate Acquired in Settlement of Loans

REO is measured based on its fair value on a nonrecurring basis and is categorized as a "Level 3" financial statement item. Fair value of REO is determined by using a current estimate of value from a broker's price opinion, a full appraisal or the price given in a current contract of sale.

REO values are reviewed by PCM's staff appraisers when the Company obtains multiple indications of value and there is a significant discrepancy between the values received. PCM's staff appraisers will attempt to resolve the discrepancy between the indications of value. In circumstances where the appraisers are not able to generate adequate data to support a value conclusion, the staff appraisers will order an additional appraisal to resolve the property's value.

Mortgage Servicing Rights

MSRs are categorized as "Level 3" financial statement items. The Company uses a discounted cash flow approach to estimate the fair value of MSRs. The key assumptions used in the estimation of

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 6 Fair Value (Continued)**

the fair value of MSRs include prepayment and default rates of the underlying loans, the applicable discount rate, and cost to service loans. The key assumptions used in the Company's discounted cash flow model are based on market factors which management believes are consistent with assumptions and data used by market participants valuing similar MSRs. The results of the estimates of fair value of MSRs are reported to PCM's Valuation Committee as part of their review and approval of monthly valuation results.

The significant unobservable inputs used in the fair value measurement of the Company's MSRs are pricing spreads, prepayment speeds (or life) and annual per-loan cost of servicing. Significant changes to any of those inputs in isolation could result in a significant change in the MSR fair value measurement. Changes in these key assumptions are not necessarily directly related.

Following are the key assumptions used in determining the fair value of MSRs at the time of initial recognition:

Key Inputs	Quarter ended March 31,			
	2012		2011(3)	
	Amortized Cost	Range (Weighted Average) Fair Value	Amortized Cost	Fair Value
Pricing spread(1)	7.5% - 14.5% (7.5)%	7.5% - 14.5% (8.3)%		
Life (in years)	2.8 - 7.0 (6.5)	2.8 - 7.0 (5.8)		
Annual total prepayment speed(2)	6.7% - 27.4% (7.9)%	7.9% - 27.4% (13.1)%		
Annual per-loan cost of servicing	\$68 - \$140 \$(69)	\$68 - \$140 \$(89)		

- (1) Pricing spread represents a margin that is applied to a reference interest rate's forward rate curve to develop periodic discount rates. The Company applies a pricing spread to the United States Dollar LIBOR curve for purposes of discounting cash flows relating to MSRs acquired as proceeds from the sale of mortgage loans.
- (2) Annual total prepayment speed is measured using Life Total Conditional Prepayment Rate.
- (3) The Company's amount of mortgage servicing rights as of March 31, 2011 was negligible.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 6 Fair Value (Continued)**

Following is a quantitative summary of key assumptions used in the valuation of MSR's, and the effect on the estimated fair value from adverse changes in those assumptions as of the dates presented (weighted averages are based upon unpaid principal balance or fair value where applicable):

Key Inputs	March 31, 2012	Range (Weighted Average)		December 31, 2011
	Amortized cost	Fair value	Amortized cost	Fair value
	(effect on value amounts in thousands)			
Pricing spread(1)	7.5% - 13.9%	7.5% - 13.9%	7.5% - 16.5%	7.5% - 16.5%
	(7.5)%	(8.5)%	(7.5)%	(8.6)%
Effect on value of 5% adverse change	\$(283)	\$(19)	\$(89)	\$(10)
Effect on value of 10% adverse change	\$(558)	\$(37)	\$(176)	\$(20)
Effect on value of 20% adverse change	\$(1,082)	\$(72)	\$(341)	\$(39)
Average life (in years)	2.8 - 7.0	3.1 - 7.0	3.0 - 6.9	1.7 - 6.9
	(6.5)	(6.0)	(6.7)	(5.3)
Prepayment speed(2)	6.7% - 24.2%	7.9% - 24.2%	6.9% - 30.8%	8.4% - 59.0%
	(8.0)%	(13.1)%	(8.2)%	(16.3)%
Effect on value of 5% adverse change	\$(279)	\$(25)	\$(90)	\$(16)
Effect on value of 10% adverse change	\$(548)	\$(49)	\$(178)	\$(31)
Effect on value of 20% adverse change	\$(1,062)	\$(94)	\$(343)	\$(60)
Annual per-loan cost of servicing	\$68 - \$140	\$68 - \$140	\$68 - \$140	\$68 - \$140
	\$(69)	\$(89)	\$(69)	\$(89)
Effect on value of 5% adverse change	\$(102)	\$(8)	\$(30)	\$(4)
Effect on value of 10% adverse change	\$(205)	\$(15)	\$(61)	\$(9)
Effect on value of 20% adverse change	\$(409)	\$(30)	\$(122)	\$(17)

(1) Pricing spread represents a margin that is applied to a reference interest rate's forward rate curve to develop periodic discount rates. The Company applies a pricing spread to the 10-year United States Treasury security curve for purposes of discounting cash flows relating to MSR's acquired as proceeds from the sale of mortgage loans and purchased MSR's not backed by pools of distressed mortgage loans.

(2) Prepayment speed is measured using Life Total CPR.

The preceding sensitivity analyses are limited in that they were performed at a particular point in time; only contemplate the movements in the indicated variables; do not incorporate changes in the variables in relation to other variables; are subject to the accuracy of various models and assumptions used; and do not incorporate other factors that would affect the Company's overall financial performance in such scenarios, including operational adjustments made by management to account for changing circumstances. For these reasons, the preceding estimates should not be viewed as an earnings forecast.

Securities Sold Under Agreements to Repurchase

Fair value of securities sold under agreements to repurchase is based on the accrued cost of the agreements, which approximates the agreements' fair values, due to the agreements' short maturities.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 7 Short-Term Investments**

The Company's short-term investments are comprised of money market accounts deposited with U.S. commercial banks.

Note 8 United States Treasury Security

The Company's investment in a U.S. Treasury security of \$50.0 million as of December 31, 2011 matured on January 19, 2012 and had a coupon interest rate of 0.00%.

Note 9 Mortgage-Backed Securities at Fair Value

Investments in MBS were as follows as of the dates presented:

Security collateral type	Unpaid Balance	Total	March 31, 2012				Non- investment grade	Yield
			Fair value					
			Credit rating					
AAA	AA	BBB						
(in thousands)								
Agency:								
Fannie Mae 30-year fixed	\$ 109,077	\$ 112,179		\$ 112,179	\$	\$		3.14%
Non-Agency:								
Non-Agency subprime	55,042	50,492			348	50,144		9.98%
Non-Agency Alt-A	7,561	7,431	372			7,059		5.01%

	\$ 176,237	\$ 174,604	\$ 372	\$ 116,681	\$ 348	\$ 57,203		5.40%

Security collateral type	Unpaid Balance	Total	December 31, 2011				Non- investment grade	Yield
			Fair value					
			Credit rating					
AAA	AA	BBB						
(in thousands)								
Non-Agency:								
Non-Agency subprime	\$ 63,712	\$ 58,634	\$	\$	\$ 920	\$ 57,714		8.01%
Non-Agency Alt-A	8,910	8,710	440		5,362	2,908		6.23%
Non-Agency prime jumbo	5,624	5,469		5,469				6.51%
	\$ 78,246	\$ 72,813	\$ 440	\$ 5,469	\$ 6,282	\$ 60,622		7.70%

All of the Company's MBS had remaining contractual maturities of more than ten years at March 31, 2012 and at December 31, 2011. At March 31, 2012, the Company had pledged \$62.4 million of its MBS and at December 31, 2011, the Company had pledged all of its MBS to

secure agreements to repurchase.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 10 Mortgage Loans Acquired for Sale at Fair Value**

Mortgage loans acquired for sale at fair value is comprised of recently originated mortgage loans purchased by the Company for resale. Following is a summary of the distribution of the Company's mortgage loans acquired for sale at fair value as of the dates presented:

Loan Type	March 31, 2012		December 31, 2011	
	Fair value	Unpaid principal balance	Fair value	Unpaid principal balance
	(in thousands)			
Government insured or guaranteed	\$ 41,247	\$ 39,524	\$ 46,266	\$ 44,229
Fixed-rate:				
Agency eligible	114,048	110,310	173,457	166,174
Jumbo loans			12,293	11,996
	\$ 155,295	\$ 149,834	\$ 232,016	\$ 222,399

The Company is not approved by Ginnie Mae as an issuer of securities backed by government insured or guaranteed loans. Therefore, the Company transfers such government insured or guaranteed loans that it purchases from correspondent lenders to PLS, which is a Ginnie Mae-approved issuer, for a sourcing fee of three basis points on the unpaid principal balance of each such loan.

Mortgage loans acquired for sale at fair value totaling \$155.3 million and \$231.7 million were pledged to secure sales of loans under agreements to repurchase at March 31, 2012 and December 31, 2011, respectively.

Note 11 Derivative Financial Instruments

Following is a summary of the distribution of the Company's derivative financial instruments which are included in *Other assets* on the consolidated balance sheets as of the dates presented:

Instrument	March 31, 2012		December 31, 2011	
	Notional amount	Fair value	Notional amount	Fair value
	(in thousands)			
Assets:				
Interest rate lock commitments	\$ 890,632	\$ 4,308	\$ 563,487	\$ 5,772
Hedging derivatives:				
MBS put options	75,000	258	28,000	26
MBS call options	15,000	112	5,000	57
MBS swaptions	95,000	3,419		
	185,000	3,789	33,000	83
Forward sales contracts	452,956	1,527	358,291	(3,917)
	\$ 1,528,588	\$ 9,624	\$ 954,778	\$ 1,938

The Company is exposed to price risk relative to its mortgage loans acquired for sale, to the commitments it makes to acquire loans from correspondent lenders and to the holding of Agency MBS.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 11 Derivative Financial Instruments (Continued)**

The Company bears price risk from the time a commitment to purchase a loan is made to a correspondent lender to the time the purchased mortgage loan is sold. Similarly, the Company bears price risk relative to its holdings of Agency MBS during the period it holds such securities. During this period, the Company is exposed to losses if mortgage interest rates rise, because the value of the purchase commitment or mortgage loan acquired for sale declines.

The Company engages in interest rate risk management activities in an effort to reduce the variability of earnings caused by changes in interest rates. To manage this price risk resulting from interest rate risk, the Company uses derivative financial instruments acquired with the intention of moderating the risk that changes in market interest rates will result in unfavorable changes in the value of the Company's interest rate lock commitments, inventory of mortgage loans acquired for sale and Agency MBS. The Company does not use derivative financial instruments for purposes other than in support of its risk management activities.

The following table summarizes the activity for derivative contracts used to hedge the Company's interest rate lock commitments, inventory of mortgage loans acquired for sale and Agency MBS at notional value:

	Balance, Beginning of Period	Additions	Dispositions/ Expirations	Balance, End of Period
(in thousands)				
Quarter ended March 31, 2012				
MBS put options	\$ 28,000	\$ 100,000	\$ (53,000)	\$ 75,000
MBS call options	\$ 5,000	\$ 15,000	\$ (5,000)	\$ 15,000
MBS swaptions	\$	\$ 95,000	\$	\$ 95,000
Forward sales contracts	\$ 358,291	\$ 1,569,763	\$ (1,475,098)	\$ 452,956

As of March 31, 2012 and December 31, 2011, the Company had \$850,000 and \$1.5 million, respectively, on deposit with its derivatives counterparties. Margin deposits are included in *Other assets* on the consolidated balance sheets as of March 31, 2012 and December 31, 2011.

Note 12 Mortgage Loans at Fair Value

Mortgage loans at fair value are comprised of mortgage loans not acquired for resale. Such loans may be sold at a later date pursuant to a management determination that such a sale represents the most advantageous liquidation strategy for the identified loan.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 12 Mortgage Loans at Fair Value (Continued)**

Following is a summary of the distribution of the Company's mortgage loans at fair value as of the dates presented:

Loan Type	March 31, 2012		December 31, 2011	
	Fair value	Unpaid principal balance	Fair value	Unpaid principal balance
	(in thousands)			
Nonperforming loans	\$ 428,068	\$ 826,947	\$ 494,711	\$ 952,473
Performing loans:				
Fixed	116,362	193,919	97,582	162,145

	239,474	397,736	201,555	331,661
	\$ 667,542	\$ 1,224,683	\$ 696,266	\$ 1,284,134

At March 31, 2012, approximately 72% of the mortgage loan portfolio consisted of mortgage loans that were originated between 2005 and 2007. Approximately 74% of the estimated fair value of the mortgage loans in this portfolio was comprised of loans with unpaid-principal-balance-to-current-property-value ratios in excess of 100% at March 31, 2012.

The mortgage loan portfolio consists of mortgage loans originated throughout the United States with loans secured by California real estate comprising approximately 22% of the loan portfolio's estimated fair value at March 31, 2012. The mortgage loan portfolio contained loans from New York, Florida and New Jersey that each represented 5% or more of the portfolio's estimated fair value at March 31, 2012.

At December 31, 2011, approximately 72% of the mortgage loan portfolio consisted of mortgage loans that were originated between 2005 and 2007. Approximately 72% of the estimated fair value of the mortgage loans in this portfolio was comprised of loans with unpaid-principal-balance-to-current-property-value ratios in excess of 100% at December 31, 2011.

The mortgage loan portfolio consisted of mortgage loans originated throughout the United States with loans secured by California real estate that comprised approximately 24% of the loan portfolio's estimated fair value at December 31, 2011. The mortgage loan portfolio contained loans from New York, Florida and New Jersey that each represented 5% or more of the portfolio's estimated fair value at December 31, 2011.

At March 31, 2012 and December 31, 2011, mortgage loans in this portfolio with fair values totaling \$626.0 million and \$607.3 million, respectively, were pledged to secure sales of loans under agreements to repurchase and mortgage loans with fair values totaling \$1.2 million and \$1.9 million, respectively, were held in a consolidated subsidiary of the Company whose stock was pledged to secure financing of the mortgage loans held in that subsidiary.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 13 Mortgage Loans Under Forward Purchase Agreements at Fair Value**

Mortgage loans under forward purchase agreements at fair value are comprised of mortgage loans not acquired for resale. Such loans may be sold at a later date pursuant to a management determination that such a sale represents the most advantageous liquidation strategy for the identified loan.

Following is a summary of the distribution of the Company's mortgage loans under forward purchase agreements at fair value as of the periods presented:

Loan Type	March 31, 2012		December 31, 2011	
	Fair value	Unpaid principal balance	Fair value	Unpaid principal balance
	(in thousands)			
Nonperforming loans	\$ 100,872	\$ 186,345	\$ 121,266	\$ 232,213
Performing loans:				
Fixed	2,252	4,024	3,316	6,084
ARM/hybrid	1,222	1,645	3,965	6,002
Interest rate step-up	684	1,323	763	1,393
	4,158	6,992	8,044	13,479
	\$ 105,030	\$ 193,337	\$ 129,310	\$ 245,692

At March 31, 2012, approximately 75% of the estimated fair value of the mortgage loans under forward purchase agreements consisted of mortgage loans that were originated between 2005 and 2007. Approximately 72% of the estimated fair value of the mortgage loans in this portfolio was comprised of loans with unpaid-principal-balance-to-current-property-value ratios in excess of 100% at March 31, 2012.

Mortgage loans under forward purchase agreements consists of mortgage loans originated throughout the United States with loans secured by California real estate comprising approximately 29% of the loan portfolio's estimated fair value at March 31, 2012. The mortgage loan portfolio contained loans from Florida, New York and New Jersey that each represented 5% or more of the portfolio's estimated fair value at March 31, 2012.

At December 31, 2011, approximately 74% of the estimated fair value of the mortgage loans under forward purchase agreements consisted of mortgage loans that were originated between 2005 and 2007. Approximately 74% of the estimated fair value of the mortgage loans in this portfolio was comprised of loans with unpaid-principal-balance-to-current-property-value ratios in excess of 100% at December 31, 2011.

Mortgage loans under forward purchase agreements consists of mortgage loans originated throughout the United States with loans secured by California real estate that comprised approximately 33% of the loan portfolio's estimated fair value at December 31, 2011. The mortgage loan portfolio contained loans from Florida, New York and New Jersey that each represented 5% or more of the portfolio's estimated fair value at December 31, 2011.

At both March 31, 2012 and December 31, 2011, the entire balance of mortgage loans under forward purchase agreements was subject to borrowings under forward purchase agreements.

Sale proceeds	(26,777)	(13,911)
Balance at period end	\$ 81,209	\$ 31,285

At March 31, 2012, REO with carrying values totaling \$6.0 million were financed under agreements to repurchase and \$43.3 million was held in a consolidated subsidiary of the Company whose stock was pledged to secure financing of the real estate held in that subsidiary. At December 31, 2011, REO with carrying values totaling \$4.3 million were financed under agreements to repurchase and no stock was pledged to secure financing of real estate held in a consolidated subsidiary.

Note 15 Real Estate Acquired in Settlement of Loans Under Forward Purchase Agreements

Following is a summary of the activity in REO under forward purchase agreements for the periods presented:

	Quarter ended March 31,	
	2012	2011
	(in thousands)	
Balance at beginning of period	\$ 22,979	\$
Purchases		53
Transfers from mortgage loans under forward purchase agreements at fair value and advances	5,696	
Results of REO under forward purchase agreements:		
Valuation adjustments, net		(381)
Gain on sale, net		2,101
	1,720	
Sale proceeds		(6,787)
Balance at period end	\$ 23,661	\$

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 15 Real Estate Acquired in Settlement of Loans Under Forward Purchase Agreements (Continued)**

At March 31, 2012, REO under forward purchase agreements totaling \$22.4 million were subject to borrowings under forward purchase agreements. The Company did not have REO under forward purchase agreements during the quarter ended March 31, 2011.

Note 16 Mortgage Servicing Rights

Carried at Fair Value:

The activity in MSR carried at fair value is as follows:

	Quarter ended March 31,	
	2012	2011
	(in thousands)	
Balance at beginning of period	\$ 749	\$
Additions:		
Purchases	20	
MSRs resulting from loan sales	520	40
Total additions	540	40
Change in fair value:		
Due to changes in valuation inputs or assumptions used in valuation model(1)	(64)	
Other changes in fair value(2)	(37)	(3)
	(101)	(3)
Balance at period end	\$ 1,188	\$ 37

(1) Principally reflects changes in discount rates and prepayment speed assumptions, primarily due to changes in interest rates.

(2) Represents changes due to realization of expected cash flows.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 16 Mortgage Servicing Rights (Continued)***Carried at Amortized Cost:*

Application of valuation allowance to write down MSRs with other-than temporary impairment		
Balance at period end		(106)
Mortgage Servicing Rights, net	\$ 17,346	\$
Estimated Fair Value of MSRs at Period End	\$ 17,396	\$

The following table summarizes the Company's estimate of amortization of its existing MSRs carried at amortized cost. This projection was developed using the assumptions made by management in its March 31, 2012 valuation of MSRs. The assumptions underlying the following estimate will change as market conditions and portfolio composition and behavior change, causing both actual and projected amortization levels to change over time. Therefore, the following estimates will change in a manner and amount not presently determinable by management.

12-month period ended March 31,	Estimated MSR Amortization (in thousands)
2013	\$ 1,804
2014	1,786
2015	1,669
2016	1,537
2017	1,411
Thereafter	9,245
Total	\$ 17,452

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 17 Securities Sold Under Agreements to Repurchase at Fair Value**

Following is a summary of financial information relating to securities sold under agreements to repurchase at fair value as of and for the periods presented:

	Quarter ended March 31,	
	2012	2011
	(dollar amounts in thousands)	
Period end balance	\$ 53,068	\$ 88,065
Weighted-average interest rate at end of period	0.99%	1.26%
Weighted-average interest rate during the period	0.90%	1.30%
Average balance of securities sold under agreements to repurchase	\$ 69,030	\$ 95,307
Maximum daily amount outstanding	\$ 115,493	\$ 101,202
Total interest expense	\$ 157	\$ 309
Fair value of securities securing agreements to repurchase at period end	\$ 62,425	\$ 102,195

The repurchase agreements collateralized by securities have an average term of 18 days. All repurchase agreements collateralized by securities matured within 30 days of March 31, 2012 and all such repurchase agreements were subsequently replaced with new repurchase agreements. At March 31, 2012, all non-Agency MBS owned by the Company were pledged under the repurchase agreements and such pledged securities were held by the buyer. All agreements collateralized by MBS are to repurchase the same or substantially identical securities.

The amount at risk (the fair value of the securities pledged plus the related margin deposit, less the amount advanced by the counterparty and accrued interest) relating to the Company's securities sold under agreements to repurchase is summarized by counterparty below as of March 31, 2012:

Counterparty	Amount at risk	Weighted-average repurchase agreement maturity
	(in thousands)	
Wells Fargo Bank, N.A.	\$ 9,350	April 18, 2012

The Company is subject to margin calls during the period the agreements are outstanding and therefore may be required to repay a portion of the borrowings before the respective agreements mature if the value (as determined by the applicable lender) of the MBS or mortgage loans securing those agreements decreases. As of March 31, 2012, the Company did not have any amount on deposit with its securities repurchase agreement counterparties. As of December 31, 2011, the Company had \$3.8 million on deposit with its securities repurchase agreement counterparties. Margin deposits are included in *Other assets* in the consolidated balance sheets.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 18 Mortgage Loans Acquired for Sale Sold Under Agreements to Repurchase**

Following is a summary of financial information relating to mortgage loans acquired for sale sold under agreements to repurchase as of and for the periods presented:

Period end:	Quarter ended March 31,	
	2012	2011
	(dollar amounts in thousands)	
Balance	\$ 143,819	\$ 3,905
Unused amount(1)	\$ 246,181	\$ 71,095
Weighted-average interest rate at end of period	2.27%	2.72%
Weighted-average interest rate during the period(2)	2.11%	2.11%
Average balance of loans sold under agreements to repurchase	\$ 177,864	\$ 3,816
Maximum daily amount outstanding	\$ 263,890	\$ 6,906
Total interest expense	\$ 1,364	\$ 146
Fair value of mortgage loans acquired for sale securing agreements to repurchase at period end	\$ 155,295	\$ 4,405

- (1) The amount the Company is able to borrow under loan repurchase agreements is tied to the fair value of unencumbered mortgage loans eligible to secure those agreements and the Company's ability to fund the agreements' margin requirements relating to the collateral sold.
- (2) Weighted-average interest rate during the period excludes the effect of amortization of debt issuance costs of \$417,000 during the three months ended March 31, 2012.

The repurchase agreements collateralized by loans have an average remaining term of approximately 7.2 months at March 31, 2012. All of the repurchase agreements have maturities of more than 90 days.

The amount at risk (the fair value of the assets pledged plus the related margin deposit, less the amount advanced by the counterparty and accrued interest) relating to the Company's mortgage loans acquired for sale sold under agreements to repurchase is summarized by counterparty below as of March 31, 2012:

Counterparty	Amount at risk	Weighted-average repurchase agreement maturity
	(in thousands)	
Bank of America, N.A.	\$ 6,893	November 5, 2012
Credit Suisse First Boston Mortgage Capital LLC	\$ 6,298	October 30, 2012

The Company is subject to margin calls during the period the agreements are outstanding and therefore may be required to repay a portion of the borrowings before the respective agreements mature if the value (as determined by the applicable lender) of the mortgage loans securing those agreements decreases. As of March 31, 2012 and December 31, 2011, the Company had \$1.9 million and \$1.6 million, respectively, on deposit with its loan repurchase agreement counterparties. Margin deposits are included in *Other assets* in the consolidated balance sheets.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 19 Mortgage Loans at Fair Value Sold Under Agreements to Repurchase**

Following is a summary of financial information relating to mortgage loans at fair value sold under agreements to repurchase as of and for the periods presented:

	Quarter ended March 31,	
	2012	2011
	(dollar amounts in thousands)	
Period end:		
Balance	\$ 282,810	\$ 216,462
Unused amount(1)	\$ 167,190	\$ 133,538
Weighted-average interest rate at end of period	3.85%	3.71%
Weighted-average interest rate during the period(2)	4.07%	4.20%
Average balance of loans sold under agreements to repurchase	\$ 285,817	\$ 173,759
Maximum daily amount outstanding	\$ 299,091	\$ 236,240
Total interest expense	\$ 3,138	\$ 1,823
Fair value of mortgage loans at fair value and REO securing agreements to repurchase at period end	\$ 631,945	\$ 486,470

(1) The amount the Company is able to borrow under loan repurchase agreements is tied to the fair value of unencumbered mortgage loans eligible to secure those agreements and the Company's ability to fund the agreements' margin requirements relating to the collateral sold.

(2) Weighted-average interest rate during the period excludes the effect of amortization of debt issuance costs of \$199,000 during the three months ended March 31, 2012.

The repurchase agreements collateralized by loans have an average remaining term of approximately 2.8 months at March 31, 2012.

Following is a summary of maturities of repurchase agreements by maturity date:

Remaining Maturity at March 31, 2012	Balance
	(in thousands)
Within 30 days	\$ 196,181
30 to 90 days	\$ 12,982
Over 90 days	73,647
	\$ 282,810

The amount at risk (the fair value of the assets pledged plus the related margin deposit, less the amount advanced by the counterparty and accrued interest) relating to the Company's mortgage loans

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 19 Mortgage Loans at Fair Value Sold Under Agreements to Repurchase (Continued)**

at fair value sold under agreements to repurchase is summarized by counterparty below as of March 31, 2012:

Counterparty	Amount at risk (in thousands)	Weighted-average repurchase agreement maturity
Citibank, N.A.	\$ 251,295	April 19, 2013
Wells Fargo Bank, N.A.	\$ 77,622	December 28, 2012
Credit Suisse First Boston Mortgage Capital LLC	\$ 20,530	June 6, 2012

The Company is subject to margin calls during the period the agreements are outstanding and therefore may be required to repay a portion of the borrowings before the respective agreements mature if the value (as determined by the applicable lender) of the loans securing those agreements decreases. As of March 31, 2012 and December 31, 2011, the Company had \$598,000 and \$471,000, respectively, on deposit with its loan repurchase agreement counterparties. Margin deposits are included in *Other assets* in the consolidated balance sheets.

Note 20 Real Estate Acquired in Settlement of Loans Financed Under Agreements to Repurchase

Following is a summary of financial information relating to REO financed under agreements to repurchase as of and for the periods presented:

	Quarter ended March 31,	
	2012	2011
	(dollar amounts in thousands)	
Period end:		
Balance	\$ 21,744	\$
Unused amount(1)	\$ 78,256	\$
Weighted-average interest rate at end of period	3.99%	
Weighted-average interest rate during the period(2)	4.21%	
Average balance of REO sold under agreements to repurchase	\$ 24,589	\$
Maximum daily amount outstanding	\$ 27,494	\$
Total interest expense	\$ 387	\$
Fair value of REO held in a consolidated subsidiary whose stock is pledged to secure agreements to repurchase at period end	\$ 43,269	\$

(1) The amount the Company is able to borrow under REO repurchase agreements is tied to the fair value of unencumbered REO eligible for contribution to the subsidiary securing those agreements and the Company's ability to fund the agreements' margin requirements relating to the underlying collateral.

(2) Weighted-average interest rate during the period excludes the effect of amortization of debt issuance costs of \$125,000 during the three months ended March 31, 2012.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 20 Real Estate Acquired in Settlement of Loans Financed Under Agreements to Repurchase (Continued)**

The repurchase agreement pursuant to which the Company finances REO has an average term of approximately 2.2 months at March 31, 2012.

The amount at risk (the fair value of the assets pledged plus the related margin deposit, less the amount advanced by the counterparty and accrued interest) relating to the Company's REO held in a consolidated subsidiary, the stock of which is pledged to secure agreements to repurchase, is summarized by counterparty below as of March 31, 2012:

Counterparty	Amount at risk (in thousands)	Weighted-average repurchase agreement maturity
Credit Suisse First Boston Mortgage Capital LLC	\$ 22,687	June 6, 2012

The Company is subject to margin calls during the period the agreements are outstanding and therefore may be required to repay a portion of the borrowings before the respective agreements mature if the value (as determined by the applicable lender) of the underlying REOs decreases.

The Company did not have REO financed under agreements to repurchase during the three months ended March 31, 2011.

Note 21 Note Payable Secured by Mortgage Loans at Fair Value

Following is a summary of financial information relating to the note payable secured by mortgage loans at fair value as of and for the periods presented:

	Quarter ended March 31,	
	2012	2011
	(dollar amounts in thousands)	
Period end:		
Balance	\$	\$
Unused amount(1)	\$ 40,000	\$
Weighted-average interest rate at end of period		0.00%
Weighted-average interest rate during the period		6.95%
Average balance of note payable	\$ 6,869	\$
Maximum daily amount outstanding	\$ 28,617	\$
Total interest expense	\$ 113	\$
Fair value of mortgage loans at fair value and REO securing the note payable at period end	\$	\$

(1)

The amount the Company is able to borrow under this lending facility is tied to the fair value of unencumbered mortgage loans eligible to secure the facility and the Company's ability to fund the agreement's margin requirements relating to the collateral pledged.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 21 Note Payable Secured by Mortgage Loans at Fair Value (Continued)**

At March 31, 2012, the Company did not have any borrowings under the note payable. At December 31, 2011, the Company had \$28.6 million borrowings under the note payable and \$237,000 on deposit with its counterparty.

Note 22 Borrowings Under Forward Purchase Agreements

Following is a summary of financial information relating to borrowings under forward purchase agreements as of and for the periods presented:

	Quarter ended March 31,	
	2012	2011
	(dollar amounts in thousands)	
Period end:		
Balance	\$ 127,591	\$
Weighted-average interest rate at end of period	4.24%	
Weighted-average interest rate during the period	4.09%	
Average balance of borrowings under forward purchase agreements	\$ 146,512	\$
Maximum daily amount outstanding	\$ 152,428	\$
Total interest expense	\$ 1,515	\$
Fair value of underlying loans and REO at period end	\$ 127,411	\$

The forward purchase agreements have an average term of approximately 9.0 months at March 31, 2012. Both of the forward purchase agreements have maturities of more than 90 days.

At March 31, 2012, there was no amount at risk (the fair value of the mortgage loans pledged plus the related margin deposit, less the amount advanced by the counterparty and accrued interest) relating to the Company's borrowings under forward purchase agreements.

Note 23 Liability for Representations and Warranties

The Company has liability under the representations and warranties made to purchasers of the loans it sells. In the event of a breach of its representations and warranties, the Company may be required to either repurchase the mortgage loans with the identified defects or indemnify the investor or insurer. In such cases, the Company bears any subsequent credit loss on the mortgage loans. The Company's representations and warranties are generally not subject to stated limits or exposure.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 23 Liability for Representations and Warranties (Continued)**

Following is a summary of the Company's liability for representations and warranties included in accounts payable and accrued liabilities for the periods presented:

	Quarter ended March 31,	
	2012	2011
	(in thousands)	
Balance, beginning of period	\$ 205	\$
Provisions for losses	426	2
Incurred losses		
Balance, end of period	\$ 631	\$ 2

Note 24 Commitments and Contingencies

From time to time, the Company may be involved in various proceedings, claims and legal actions arising in the ordinary course of business. As of March 31, 2012, the Company was not involved in any such proceedings, claims or legal actions that would have a material adverse effect on the Company.

Mortgage Loan Commitments

The following table summarizes the Company's outstanding contractual loan commitments as of the date presented:

	March 31, 2012
	(in thousands)
Commitments to purchase mortgage loans :	
Correspondent lending	\$ 890,632
Other mortgage loans	\$

Note 25 Shareholders' Equity

On November 19, 2010, the Company entered into a Controlled Equity Offering Sales Agreement (the "2010 Sales Agreement") with Cantor Fitzgerald & Co. During the three months ended March 31, 2012, the Company sold a total of 2,531,310 of its common shares under the 2010 Sales Agreement at a weighted average price of \$18.41 per share, providing net proceeds to the Company of approximately \$45.7 million, net of sales commissions. The sales agent received a total of approximately \$917,000, which represents an average commission of approximately 2.0% of the gross sales price.

As more fully described in the Company's Annual Report, certain of the underwriting costs incurred in the Company's IPO were paid on PMT's behalf by PCM and a portion of the underwriting discount was deferred by agreement with the underwriters of the offering. Reimbursement to PCM and payment to the underwriters of the deferred underwriting discount are both contingent on PMT's performance during any full four calendar quarter period during the 24 full calendar quarters after the date of the completion of its IPO, August 4, 2009. If PMT meets the specified performance levels during any full four calendar quarter period during the 24-quarter period, the Company will reimburse

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 25 Shareholders' Equity (Continued)**

PCM approximately \$2.9 million of underwriting costs paid by PCM on the offering date and pay the underwriters approximately \$5.9 million in deferred underwriting discount. If this requirement is not satisfied by the end of such 24-quarter period, the Company's obligation to reimburse PCM and make the conditional payment of the underwriting discount will terminate. Management has concluded that this contingency is probable of being met during the 24-quarter period and has recognized a liability for reimbursement to PCM and payment of the contingent underwriting discount as a reduction of additional paid-in capital.

Note 26 Net Gain on Mortgage Loans Acquired For Sale

Net gain (loss) on mortgage loans acquired for sale is summarized below for the periods presented:

	Quarter ended March 31,	
	2012	2011
	(in thousands)	
Cash gain (loss):		
Sales proceeds	\$ 548	\$ (9)
Hedging activities	(803)	34
	(255)	25
Non-cash gain:		
Change in fair value of commitments to purchase loans	(1,464)	
Receipt of MSR in loan sale transactions	12,929	40
Provision for losses relating to representations and warranties provided in loan sales	(426)	(2)
Change in fair value relating to loans and hedging derivatives held at quarter end:		
Mortgage loans	1,181	16
Hedging derivatives	1,405	4
	2,586	20
	\$ 13,370	\$ 83

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 27 Net Loan Servicing Fees**

Net loan servicing fees is summarized below for the periods presented:

	Quarter ended	
	March 31,	
	2012	2011
	(in thousands)	
Servicing fees(1)	\$ 652	\$
Effect of MSR's:		
Amortization	(248)	
Provision for impairment of MSR's carried at lower of amortized cost or fair value	(106)	
Change in fair value of MSR's carried at fair value	(101)	(3)
	(455)	(3)
Net loan servicing fees	\$ 197	\$ (3)

(1) Includes contractually specified servicing fees.

Note 28 Share-Based Compensation Plan

The Company's equity incentive plan allows for grants of equity-based awards up to a total of 8% of PMT's issued and outstanding shares on a diluted basis at the time of the award. Restricted share units have been awarded to trustees and officers of the Company and to employees of PCM and its affiliates at no cost to the grantees. Such awards generally vest over a one- to four-year period. Expense relating to awards is included in the consolidated statements of income under the caption *Compensation*.

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 28 Share-Based Compensation Plan (Continued)**

The table below summarizes restricted share unit activity and compensation expense for the periods presented:

	Quarter ended March 31,	
	2012	2011
Number of units:		
Outstanding at beginning of period	491,809	272,984
Granted		340,500
Vested	(88,249)	(5,500)
Canceled	(171)	
Outstanding at end of period	403,389	607,984
Weighted Average Grant Date Fair Value:		
Outstanding at beginning of period	\$ 12.57	\$ 6.18
Granted	\$	\$ 16.52
Vested	\$ 17.28	\$ 12.64
Expired or canceled	\$ 3.15	\$
Outstanding at end of period	\$ 11.54	\$ 11.91
Units available for future awards(1)	2,105,000	
Compensation expense recorded during the period	\$ 883,000	\$ 795,000
Unamortized compensation cost at period-end	\$ 2,758,000	

(1)

Based on shares outstanding as of March 31, 2012. Total units available for future awards may be adjusted in accordance with the equity incentive plan based on future issuances of PMT's shares as described above.

Note 29 Income Taxes

The Company has elected to be taxed as a REIT for U.S. federal income tax purposes under Sections 856 through 860 of the Internal Revenue Code. Therefore, PMT generally will not be subject to corporate federal or state income tax to the extent that qualifying distributions are made to shareholders and the Company meets REIT requirements including certain asset, income, distribution and share ownership tests. The Company believes that it has met the distribution requirements, as it has declared dividends sufficient to distribute substantially all of its taxable income. Taxable income will generally differ from net income. The primary difference between net income and the REIT taxable income (before deduction for qualifying distributions) is the income of the taxable REIT subsidiaries ("TRSs") and the method of determining the income or loss related to valuation of the mortgage loans owned by the qualified REIT subsidiary ("QRS"). Other differences between REIT book income and REIT taxable income are not material.

In general, cash dividends declared by the Company will be considered ordinary income to the shareholders for income tax purposes. Some portion of the dividends may be characterized as capital

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 29 Income Taxes (Continued)**

gain distributions or a return of capital. Most of the 2011 distributions and all of the 2010 distributions will be characterized as ordinary income. Approximately 5% of the 2011 distributions will be characterized as long term capital gain.

The Company has elected to treat two of its subsidiaries as TRSs. Income from a TRS is only included as a component of REIT taxable income to the extent that the TRS makes dividend distributions of income to the REIT. No such dividend distributions have been made to date. A TRS is subject to corporate federal and state income tax. Accordingly, a provision for income taxes for the TRSs is included in the consolidated statements of income.

The Company files U.S. federal and state income tax returns for both the REIT and TRSs. These returns for 2009 and forward are subject to examination by the respective tax authorities. No returns are currently under examination.

The following table details the Company's provision for income taxes which relates primarily to the TRSs, for the periods presented:

	Quarter March 31,	
	2012	2011
	(in thousands)	
Current expense:		
Federal	\$ 706	\$ 238
State	245	27
Total current expense	951	265
Deferred expense:		
Federal	3,389	279
State	1,177	97
Total deferred expense	4,566	376
Total provision for income taxes	\$ 5,517	\$ 641

The following table is a reconciliation of the Company's provision for income taxes at statutory rates to the provision for income taxes at the Company's effective rate:

	Quarter ended March 31			
	2012		2011	
	Amount	Rate	Amount	Rate
	(dollars in thousands)			
Federal income tax expense at statutory tax rate	\$ 8,601	35.0%	\$ 2,911	35.0%
Effect of non-taxable REIT income	(3,990)	(16.2)%	(2,520)	(30.3)%
State income taxes, net of federal benefit	925	3.8%	80	1.0%
Other	(19)	(0.1)%	170	2.0%
Provision for income taxes	\$ 5,517	22.5%	\$ 641	7.7%

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 29 Income Taxes (Continued)**

The Company's components of the provision for deferred income taxes are as follows:

	Quarter ended March 31,	
	2012	2011
	(in thousands)	
Real estate valuation loss	\$ (388)	\$ 376
Mortgage servicing rights	5,133	
Other	(179)	
Total provision for deferred income taxes	\$ 4,566	\$ 376

The tax effects of temporary differences that gave rise to deferred income tax assets and liabilities are presented below:

	Quarter ended March 31,	
	2012	2011
	(in thousands)	
Deferred income tax assets:		
Real estate valuation loss	\$ 3,274	\$
Other	265	
Gross deferred tax assets	3,539	
Deferred income tax liabilities:		
Real estate valuation gain		273
Mortgage servicing rights	7,668	
Gross deferred tax liabilities	7,668	273
Net deferred income tax liability	\$ 4,129	\$ 273

The net deferred income tax liability is recorded in *Income taxes payable* in the consolidated balance sheets as of March 31, 2012 and December 31, 2011.

At March 31, 2012 and December 31, 2011, the Company had no unrecognized tax benefits and does not anticipate any increase in unrecognized tax benefits. Should the accrual of any interest or penalties relative to unrecognized tax benefits be necessary, it is the Company's policy to record such accruals in the Company's income tax accounts. No such accruals existed at March 31, 2012 and December 31, 2011.

Note 30 Segments and Related Information

The Company has two business segments: investment activities and correspondent lending.

The investment activities segment represents the Company's investments in distressed mortgage loans, REO, MBS and MSRs. Management seeks to maximize the value of the mortgage loans acquired by the Company through proprietary loan modification programs, special servicing and other initiatives focused on keeping borrowers in their homes. Where this is not possible, such as in the case

Table of Contents**PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)****Note 30 Segments and Related Information (Continued)**

of many nonperforming mortgage loans, the Company seeks to effect property resolution in a timely, orderly and economically efficient manner. The Company also invests in MBS and other mortgage-related real estate and financial assets.

The correspondent lending segment represents the Company's operations aimed at serving as an intermediary between mortgage originators, particularly mortgage lenders, and the capital markets by purchasing, pooling and reselling the loans either directly or in the form of MBS.

Before the third quarter of 2011, the Company's activities were almost exclusively within the investment activities segment. Financial highlights by operating segment for the quarter ended March 31, 2012 are as follows:

Quarter ended March 31, 2012	Investment activities	Correspondent lending (in thousands)	Total
Revenues:			
External			
Net gain on investments	\$ 11,488	\$	\$ 11,488
Interest income	13,638	2,792	16,430
Net gain on mortgage loans acquired for sale		13,370	13,370
Other income	3,900	1,461	5,361

Note 32 Regulatory Net Worth Requirement

PennyMac Corp. ("PMC"), an indirect subsidiary of the Company, is a seller-servicer for Fannie Mae. To retain its status as an approved seller-servicer, PMC is required to meet Fannie Mae's capital standards, which require PMC to maintain a minimum net worth of \$2.5 million. Management believes PMC complies with Fannie Mae's net worth requirement as of March 31, 2012.

Note 33 Subsequent Events

Management has evaluated all events or transactions through the date the Company issued these financial statements. During this period:

On May 3, 2012, the Company's Board of Trustees declared a cash dividend of \$0.55 per share payable on May 31, 2012 to holders of record of the Company's common shares as of May 16, 2012.

On April 13 and 24, 2012, PCM committed to acquire on PMT's behalf mortgage loans with purchase prices totaling \$20.2 million and \$139.2 million, respectively. The pending transactions

Table of Contents

PENNYMAC MORTGAGE INVESTMENT TRUST AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Note 33 Subsequent Events (Continued)

are subject to continuing due diligence, customary closing conditions and obtaining additional capital adequate to fund the acquisitions. There can be no assurance that the committed amount will ultimately be acquired or that the transaction will be completed at all.

On April 20, 2012, the Company entered into an amendment (the "Amendment") to its master repurchase agreement, dated as of December 9, 2010 (the "Citi Repo Facility"), with Citibank, N.A. ("Citi"), pursuant to which PMC may sell, and later repurchase, distressed residential mortgage loans pending the sale, securitization or liquidation of such loans. The Citi Repo Facility is committed for a period of 364 days, and the obligations of PMC are fully guaranteed by the Company and the Operating Partnership.

Under the terms of the Amendment, the termination date was extended until April 19, 2013. Through PMC, the Company is required to pay Citi a commitment fee for, as well as certain other administrative costs and expenses in connection with Citi's structuring, management and ongoing administration of, the Citi Repo Facility. All other terms and conditions of the Citi Repo Facility and the related guaranty remain the same in all material respects.

On April 27, 2012, the Company completed the purchase of \$56.5 million of mortgage loans from a subsidiary of Citigroup, Inc.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

We are a specialty finance company that invests primarily in residential mortgage loans and mortgage-related assets. Our objective is to provide attractive risk-adjusted returns to our investors over the long-term, principally through dividends and secondarily through capital appreciation. We intend to achieve this objective largely by investing in distressed mortgage assets and acquiring, pooling, securitizing or selling newly originated prime credit quality residential mortgage loans ("correspondent lending").

We invest in distressed mortgage loans through direct acquisitions of mortgage loan portfolios from institutions such as banks and mortgage companies. A substantial portion of the nonperforming loans we have purchased has been acquired from or through one or more subsidiaries of Citigroup, Inc.

We seek to maximize the value of the distressed mortgage loans that we acquire using means that are appropriate for the particular loan, including both proprietary and nonproprietary loan modification programs (such as the U.S. Departments of the Treasury and Housing and Urban Development's Home Affordable Modification Program ("HAMP")), special servicing and other initiatives focused on avoiding foreclosure, when possible. When we are unable to effect a cure for a mortgage delinquency, our objective is to effect timely acquisition and/or liquidation of the property securing the loan through the use, in part, of short sales and deed-in-lieu of foreclosure programs. During the quarter ended March 31, 2012, we received proceeds from liquidation, payoffs and sales from our portfolio of distressed mortgage loans and real estate acquired in settlement of loans ("REO") totaling \$68.4 million.

Changes in the mortgage market have significantly reduced the outlets for sales of newly originated mortgage loans by mortgage lenders who have traditionally sold their loans to larger mortgage companies and banks who, in turn, sold those loans to Agencies and other investors or into securitizations. We believe that these changes are due in part to banks' anticipation of regulatory changes to loans and securitization-related capital requirements, along with a focus on retail lending; and that the changes provide us with the opportunity to act as a link between loan originators and the Agency and securitization markets.

During the quarter ended March 31, 2012, we purchased loans with fair values totaling \$1.9 billion in furtherance of our correspondent lending business. To the extent that we purchase loans that conform to standards to be FHA insured or Veterans Administration guaranteed, we sell such loans to PennyMac Loan Services, LLC ("PLS"), which is a licensed Ginnie Mae issuer and seller/servicer. The Company receives a sourcing fee from PLS of three basis points on the unpaid principal balance of each loan that it sells to PLS under such arrangement, and earns interest income on the loan for the time period it holds the loan prior to the sale to PLS. We held an inventory of mortgage loans acquired for sale totaling \$155.3 million at March 31, 2012. To the extent that we transfer these loans into securitizations in the future, we may retain a portion of the securities created in the securitization transaction.

We supplement these activities through participation in other mortgage-related activities, which are in various states of analysis, planning or implementation including:

Acquisition of REIT-eligible MBS. We purchased \$112.4 million of MBS during the quarter ended March 31, 2012. Our portfolio of MBS totaled \$174.6 million at March 31, 2012, including \$62.4 million of securities backed by Alt-A, subprime and jumbo mortgage loans. We believe that our investing in distressed residential mortgage loans and correspondent lending activities provide insight into attractive investment opportunities in certain residential mortgage-backed securities.

Acquisition of MSRs from liquidating and other institutions. We believe that current market conditions may have adversely affected the financial condition and operations of certain owners

Edgar Filing: PennyMac Mortgage Investment Trust - Form 10-Q

Table of Contents

of mortgage assets. Further, regulatory and capital issues may have contributed to their decision to reduce their portfolio of MSR. We believe that MSR investments may allow us to earn attractive current returns and to leverage the loan servicing capabilities and efficiencies of PLS to improve the assets' value. We would also seek to leverage the loan origination capabilities of PLS provided we are able to structure an arrangement, including through the Federal government's Home Affordable Refinance Program ("HARP 2.0"), whereby we could recapture any new MSR created upon PLS's refinance of mortgage loans relating to the acquired MSR.

We also intend to continue to retain the MSR that we receive as a portion of the proceeds from our sale or securitization of mortgage loans through our correspondent lending operation. We received MSR as proceeds on sale of mortgage loans with fair values totaling \$12.9 million during the quarter ended March 31, 2012 and held MSR with carrying values of \$18.5 million as of March 31, 2012.

Providing inventory financing of mortgage loans for mortgage lenders. We believe this activity may result in attractive investment assets for us and supplement and make our correspondent lending business more attractive to lenders from which we acquire newly originated loans.

We are externally managed by PCM, an investment adviser that specializes in, and focuses on, residential mortgage loans. Most of our mortgage loan portfolio is serviced by PLS, an affiliate of PCM.

We conduct substantially all of our operations, and make substantially all of our investments, through our operating partnership and its subsidiaries. We are the sole limited partner and one of our subsidiaries is the sole general partner of our operating partnership.

We believe that we qualify to be taxed as a REIT. We believe that we will not be subject to federal income tax on that portion of our income that is distributed to shareholders as long as we meet certain asset, income and share ownership tests. If we fail to qualify as a REIT, and do not qualify for certain statutory relief provisions, our profits will be subject to income taxes and we may be precluded from qualifying as a REIT for the four tax years following the year we lose our REIT qualification. A portion of our activities, including our correspondent lending business, is conducted in two taxable REIT subsidiaries ("TRSs"), which are subject to corporate federal and state income taxes. Accordingly, we have made a provision for income taxes with respect to the operations of our TRSs. We expect that the effective rate for the provision for income taxes may be volatile in future periods. Our goal is to manage the business to take full advantage of the tax benefits afforded to us as a REIT.

Observations on Current Market Opportunities

The U.S. economy continues its pattern of modest growth as reflected in recent economic data. During the first quarter of 2012, real U.S. gross domestic product expanded at an annual rate of 2.2% compared to 0.4% and 3.0% annual rates for the first and fourth quarters of 2011, respectively. Modest economic growth and pressure on state and federal government spending continued to affect unemployment rates during the first quarter of 2012. The national unemployment rate was 8.2% at March 31, 2012 compared to 8.9% and 8.5% at March 31, 2011 and December 31, 2011, respectively. Although currently in a declining trend, unemployment has persisted at a seasonally adjusted rate above 8% for 38 consecutive months during the period February, 2009 through March, 2012. The continued high unemployment levels are reflected in a continuing high number of personal and business bankruptcy filings as well as high delinquency rates on residential mortgage loans.

Distress in the banking industry persists at historically high levels. However, the number of problem banks as identified by the FDIC is declining. As of December 31, 2011, the most recent date for which problem bank information is available, the FDIC identified 813 problem banks, a decrease from 888 at March 31, 2011 and 884 at December 31, 2010. The number of banks that have been

Table of Contents

seized is also declining with 16 depository institutions seized during the first quarter of 2012 compared to 26 depository institutions seized in the first quarter of 2011 and 18 depository institutions seized in the fourth quarter of 2011.

Residential real estate transactions continue to see low levels of activity as a result of continuing historically high levels of unemployment, restrictive loan underwriting standards and uncertainties about economic prospects. Foreclosure activity decreased by 16% during the first quarter of 2012 as compared to the fourth quarter of 2011 and decreased by 15% during the first quarter of 2011 as compared to the fourth quarter of 2010. During 2011 and continuing into the first quarter of 2012 the level of foreclosure activity has moderated due to lenders addressing legal and documentation issues identified with their foreclosure processes. However, as these issues are remedied, foreclosure activity during 2012 is expected to increase over that of 2011.

Thirty-year mortgage fixed mortgage interest rates ranged from a high of 4.08% to a low of 3.87% during the first quarter of 2012 (Source: Freddie Mac's Weekly Primary Mortgage Market Survey). Interest rates generally trended downward throughout 2011 but remained relatively flat throughout the first quarter of 2012.

Our Manager continues to see substantial volumes of distressed residential mortgage loans (loan pools that consist of either nonperforming loans, troubled but performing loans or a combination thereof) offered for sale by a limited number of sellers. During the first quarter of 2012, our Manager reviewed 25 mortgage loan pools with unpaid principal balances totaling approximately \$4.9 billion. We did not acquire any distressed mortgage loans during the first quarter of 2012; however, on March 28, 2012, our Manager committed on the Company's behalf to acquire mortgage loans with purchase prices totaling approximately \$70.1 million, the transaction being subject to continuing diligence and customary closing conditions. There can be no assurance that the committed amounts will ultimately be acquired or that the transactions will be completed. During the first quarter of 2011, we acquired distressed mortgage loans with unpaid principal balances totaling \$243.1 million, of which \$227.3 million was acquired from or through one or more subsidiaries of Citigroup, Inc.

We believe that the collapse of the independent mortgage company business model that occurred during the recent financial crisis in the United States and the shifting investment and operational priorities of banks and other traditional mortgage lenders have created additional opportunities for our business. Under current market conditions, these opportunities include the purchase from mortgage lenders of newly originated mortgage loans that are eligible for sale to a GSE. The HARP 2.0 program may increase the volume of such newly originated Agency-eligible loans available for purchase. These opportunities also include the purchase of newly originated mortgage loans that can be resold in the non-Agency whole loan market or securitized in the private label market as well as providing inventory financing to originators of such loans. During the three months ended March 31, 2012, we acquired approximately \$1.9 billion in fair value of newly originated mortgage loans and received proceeds of approximately \$1.9 billion on the sale of loans.

(1) Mortgage-backed securities, mortgage loans (excluding correspondent lending loans), REO and MSRs

During the quarter ended March 31, 2012, we recorded net income of \$19.1 million, or \$0.65 per diluted share. Our net income for the first quarter of 2012 reflects net gains on our investments in financial instruments totaling \$24.9 million (comprised of net gain on investments and net gain on mortgage loans acquired for sale), including \$6.7 million of valuation gains on MBS and mortgage loans excluding mortgage loans acquired for sale, supplemented by \$16.4 million of interest income. Our results also reflect the growth in our correspondent lending segment. During the first quarter of 2012, we purchased \$1.9 billion in fair value of newly originated mortgage loans. We recognized gains on such loans totaling approximately \$13.4 million. At March 31, 2012, we held mortgage loans acquired for sale with fair values totaling \$155.3 million.

Table of Contents

During the quarter ended March 31, 2011, we recorded net income of \$7.6 million, or \$0.35 per diluted share. Our net income for the first quarter of 2011 reflected net gains on our investments in financial instruments totaling \$10.0 million (comprised of net gain on investments and net gain on mortgage loans acquired for sale), including \$7.6 million of valuation gains on MBS and mortgage loans excluding mortgage loans acquired for sale, supplemented by \$6.2 million of interest income. During the first quarter of 2011, we purchased \$19.6 million in fair value of newly originated mortgage loans. We recognized gains on such loans totaling approximately \$83,000. At March 31, 2011, we held mortgage loans acquired for sale with fair values totaling \$4.4 million.

Net Investment Income

During the quarter ended March 31, 2012, we recorded net investment income of \$46.6 million, comprised primarily of net gains on investments in financial instruments of \$24.9 million supplemented by \$16.4 million of interest income and \$3.7 million from results of REO. This compares to net investment income of \$17.3 million recognized during the quarter ended March 31, 2011, comprised primarily of \$10.0 million of net gains on investments in financial instruments, supplemented by \$6.2 million of interest income and \$1.1 million of gains from results of REO.

The growth in net investment income reflects the growth in the nonperforming loan portfolio, REOs and correspondent lending activities.

Net Gain (Loss) on Investments

During the quarter ended March 31, 2012, we recognized net gains on financial instruments totaling \$24.9 million compared to \$10.0 million during the quarter ended March 31, 2011. The increase in the first quarter of 2012 as compared to the first quarter of 2011 is due primarily to growth in our portfolio of investments in financial instruments, compounded by a change in the mix of our investments toward a higher concentration of mortgage loans at fair value. We recognized higher fair value returns on our investment in mortgage loans at fair value as compared to MBS. The average portfolio balance of mortgage loans at fair value increased \$309.8 million or 72% during the first quarter of 2012 as compared to the first quarter of 2011.

During the quarter ended March 31, 2012, we recognized net valuation gains on our portfolio of MBS totaling \$357,000 compared to net valuation losses of \$442,000 during the quarter ended March 31, 2011. The valuation gains primarily reflect increased demand for non-Agency MBS during the quarter ended March 31, 2012. The valuation gains we recorded during the quarter ended March 31, 2012, contrast with valuation losses we recorded during the quarter ended March 31, 2011. Those losses reflected, in part, marketplace concerns regarding the potentially growing supply of MBS similar to those we hold as a result of sales by the Federal Reserve Bank and other entities, marketplace discounting of distressed MBS resulting from expectations that involuntary prepayments of

Edgar Filing: PennyMac Mortgage Investment Trust - Form 10-Q

Table of Contents

mortgages underlying the securities may remain slow or slow further due to regulatory actions relating to servicers' foreclosure activities, and marketplace concern regarding servicers' behavior with respect to advancing and modification practices. Valuation of certain MBS also decreased during the quarter ended March 31, 2011, due to reduced credit support from subordinate tranches. The weighted average discount rate of the non-Agency subprime MBS, the most sizable component of our MBS portfolio, increased from 4.1% at March 31, 2011 to 10.0% at March 31, 2012, reflective of these market factors.

Net gains on mortgage loans at fair value and mortgage loans under forward purchase agreements at fair value are summarized below for the periods presented:

	Quarter ended March 31,	
	2012	2011
	(in thousands)	
Valuation changes		
Performing loans	\$ 1,712	\$ (3,348)
Nonperforming loans	4,572	11,342
	6,284	7,994
Payoffs	4,847	1,390
Sales		948
	\$ 11,131	\$ 10,332

The net gains on mortgage loans arising from valuation changes were due primarily to changes in the value of loans as the loans moved through the resolution process and as nonperforming loans were reinstated; improved expectation of the future speed of resolution and of the expected proportion of reinstatement for certain loan pools; and, increased expectation regarding the collectibility of mortgage insurance payments on certain loan pools.

The decrease in the valuation changes in the first quarter of 2012 as compared to the first quarter of 2011 is due to home prices decreasing faster than our expectations over the first quarter of 2012; additionally, in the first quarter of 2011, valuation changes were positively impacted by a reduction of discount rates on our mortgage pools as the result of an observation of the increased demand for distressed mortgage loans and increased transaction prices. The valuation gains in the first quarter of 2012 do not reflect a similar increase.

Edgar Filing: PennyMac Mortgage Investment Trust - Form 10-Q

Table of Contents

Following is a comparison of the valuation techniques and key inputs we use in the valuation of our financial assets that are measured using significant "Level 3" inputs:

Financial Statement Item	Valuation Technique	Key Inputs(1)	Range (Weighted Average)	
			March 31, 2012	December 31, 2011
Mortgage-backed securities(1):	Broker quote(6)			
Non-Agency subprime				
		Discount rate	2.8% - 29.6% (10.0)%	3.1% - 23.0% (8.0)%
		Prepayment speed(2)	0.1% - 6.6% (3.8)%	0.1% - 8.4% (4.4)%
		Default speed(3)	4.4% - 18.6% (11.3)%	3.6% - 19.8% (12.3)%
		Collateral remaining loss percentage(4)	23.2% - 67.6% (46.1)%	23.9% - 63.7% (47.0)%
Non-Agency Alt-A		Discount rate	4.2% - 7.3% (5.0)%	4.4% - 10.0% (6.2)%
		Prepayment speed(2)	2.2% - 7.7% (5.0)%	0.5% - 8.9% (5.4)%
		Default speed(3)	3.2% - 11.8% (9.9)%	3.0% - 11.5% (9.7)%
		Collateral remaining loss percentage(4)	12.4% - 36.2% (24.8)%	11.4% - 36.4% (26.0)%
Non-Agency prime jumbo		Discount rate	4.7% - 4.7% (4.7)%	6.5% - 6.5% (6.5)%
		Prepayment speed(2)	15.1% - 15.1% (15.1)%	14.3% - 14.3% (14.3)%
		Default speed(3)	1.0% - 1.0% (1.0)%	1.5% - 1.5% (1.5)%
		Collateral remaining loss percentage(4)	0.5% - 0.5% (0.5)%	0.4% - 0.4% (0.4)%
Mortgage loans at fair value	Discounted cash flow	Discount rate	9.1% - 20.8% (14.3)%	9.1% - 20.7% (14.4)%
		Twelve-month projected housing price index change	-1.1% - 1.0% (-0.4)%	-0.9% - 2.3% (-0.3)%
		Prepayment speed(5)	0.2% - 6.1% (2.8)%	0.2% - 6.2% (2.3)%
		Total prepayment speed (Life total CPR)	1.0% - 32.5% (22.2)%	1.0% - 33.8% (25.4)%
Mortgage loans under forward purchase agreements at fair value		Discounted cash flow	Discount rate	15.5% - 20.8% (16.6)%
	Twelve-month projected housing price index change		-0.7% - -0.7% (-0.7)%	-0.5% - -0.4% (-0.5)%
	Prepayment speed(5)		0.7% - 1.8% (1.6)%	0.7% - 0.8% (0.8)%
	Total prepayment speed (Life total CPR)		31.4% - 32.5% (32.3)%	30.1% - 33.3% (32.7)%

- (1) With respect to mortgage-backed securities, key inputs are those used to evaluate broker indications of value.
- (2) Prepayment speed is measured using Life Voluntary Conditional Prepayment Rate ("CPR").
- (3) Default speed is measured using Life Constant Default Rate ("CDR").
- (4) The projected future losses on the loans in the collateral groups paying to each bond as a percentage of the current balance of the loans.
- (5) Prepayment speed is measured using Life Voluntary Conditional Prepayment Rate ("CPR").

Table of Contents

(6)

For indications of value received, PCM's Capital Markets and Valuation staff review the price indications provided by non-affiliate brokers for completeness, accuracy and consistency across all similar bonds managed by PCM. Bond-level analytics such as yield, weighted average life and projected prepayment and default speeds of the underlying collateral are computed. The reasonableness of the brokers' indications of value and of changes in value from period to period is evaluated in light of the analytical review performed and considering market conditions. The review of the Capital Markets and Valuation staff is reported to PCM's Valuation Committee as part of its review and approval of monthly valuation results. PCM has not adjusted, and does not intend to adjust, its fair value estimates to amounts different than the brokers' indications of value.

We monitor and value our investments in pools of distressed mortgage loans, with each acquisition being a unique pool. Most of the measures we use to value and monitor the loan portfolio, such as projected prepayment and default speeds and discount rates, are applied or output at the pool level. Since the predominant feature of most of the loan pools we purchase is that they are distressed, the characteristics of the individual loans, such as loan size, loan-to-value ratio and current delinquency status, can vary widely within a pool.

The weighted average discount rate used in the valuation of mortgage loans at fair value decreased slightly from 14.4% at December 31, 2011 to 14.3% at March 31, 2012 due to a decrease in certain pools' discount rates resulting from an increased likelihood of receipt of purchase mortgage insurance payments for those pools.

The weighted average twelve month projected housing price index ("HPI") change slightly worsened from -0.3% at December 31, 2011 to -0.4% at March 31, 2012. This change primarily reflects slight adjustments in the projected housing price bottom during the first quarter of 2012.

The total prepayment speed of our mortgage loans at fair value portfolio decreased from 25.4% at December 31, 2011 to 22.2% at March 31, 2012, primarily due to a greater than expected volume of reinstatements of nonperforming loans and lower than expected rates of defaults of distressed performing loans as well as lengthening of expected liquidation timelines.

While we believe that the Company's current fair value estimates are representative of fair value at the reporting date, the market for our mortgage assets is illiquid with very few market participants. Furthermore, our business strategy is to enhance value during the period in which the loans are held; any resulting appreciation or depreciation in the fair value of the loans is recorded during such holding period and ultimately realized at the end of the holding period.

During the quarters ended March 31, 2012 and 2011, we recognized gains on mortgage loan payoffs as summarized below:

	Quarter ended	
	March 31,	
	2012	2011
	(in thousands)	
Number of loans	185	99
Unpaid principal balance	62,061	\$ 30,413
Gain recognized at payoff	4,847	\$ 1,390

The increase in gains recognized at payoff was due to the higher level of payoff activity in a larger portfolio for the quarter ended March 31, 2012 compared to the quarter ended March 31, 2011.

Edgar Filing: PennyMac Mortgage Investment Trust - Form 10-Q

Table of Contents

During the quarters ended March 31, 2012 and 2011, we recognized gains on sales of distressed mortgage loans as summarized below:

	Quarter ended March 31,	
	2012	2011
	(in thousands)	
Number of loans		13
Unpaid principal balance	\$	\$ 5,524
Gain recognized at sale	\$	\$ 208

The following tables present a summary of loan modifications completed for the periods presented:

Modification type(1)	Quarter ended March 31,			
	2012		2011	
	Number of Loans	Balance of loans(2) (in thousands)	Number of Loans	Balance of loans(2) (in thousands)
Rate reduction	185	\$ 48,913	32	\$ 5,368
Term extension	93	\$ 24,432	10	\$ 2,027
Capitalization of interest and fees	267	\$ 66,055	35	\$ 6,425
Principal forbearance	36	\$ 10,839	4	\$ 684
Principal reduction	138	\$ 34,049	19	\$ 3,957
Total	267	\$ 66,055	35	\$ 6,425

- (1) Modification type categories are not mutually exclusive, and a modification of a single loan may be counted in multiple categories if applicable. The total number of modifications noted in the table is therefore lower than the sum of all of the categories.
- (2) Before modification.

The following table summarizes the average impact of the modifications noted above to the terms of the loans modified for the periods presented:

Dollars in thousands Category	Quarter ended March 31,			
	2012		2011

In the quarter ended March 31, 2012, we earned interest income of \$16.4 million compared to \$6.2 million in the quarter ended March 31, 2011.

In the quarter ended March 31, 2012, we earned interest income of \$574,000 and recognized net fair value gains totaling \$357,000 on our portfolio of MBS. The decrease of \$512,000 in interest income on our MBS during the first quarter of 2012 compared to the first quarter of 2011 is attributable to a decrease in the yield on our portfolio of MBS from 3.86% to 3.10%. This decrease was compounded by a \$39.4 million decrease in the average investment in MBS during the first quarter of 2012 as compared to the first quarter of 2011. These comparisons reflect the net repayments during 2011 through March 31, 2012 of the securities as investments in mortgage loans became a more predominant investment activity.

At March 31, 2012 and December 31, 2011, our portfolio of primarily currently cash flowing, senior priority non-Agency MBS had an average yield of 9.0% and 7.7%, respectively, and an estimated remaining life of approximately 1.1 years and 1.6 years, respectively. We invest in MBS as a complement to our investments in mortgage loans and as a means of ensuring our compliance with REIT tax regulations governing our asset composition.

In the quarter ended March 31, 2012, we recognized interest income on mortgage loans at fair value of \$15.8 million, which compares to \$5.1 million in the quarter ended March 31, 2011. The increase of \$10.7 million in interest income is due primarily to growth in the average balance of our mortgage loan portfolio of \$309.8 million or 72% for the quarter ended March 31, 2012 when compared to the quarter ended March 31, 2011. During the first quarter of 2012, we recognized annualized interest of 6.98% on our portfolio of mortgage loans (excluding mortgage loans acquired for sale at fair value) as measured by the portfolio's average fair value. This compares to 4.72% for the

Table of Contents

first quarter of 2011. The increase in yield in the first quarter of 2012 as compared to the first quarter of 2011 is due primarily to a higher proportion of our investment in such loans being comprised of performing mortgage loans and to increased levels of loan modifications from which we recovered past-due interest during the first quarter of 2012. At March 31, 2012, our investment in performing mortgage loans had a weighted average coupon of 4.27%; at March 31, 2011, our investment in performing mortgage loans had a weighted average coupon of 5.41%.

At March 31, 2012, approximately 68% of the fair value of our portfolio of mortgage loans was nonperforming, which compares to 80% at March 31, 2011. We do not accrue interest on nonperforming loans and generally do not recognize revenues during the period we hold REO. We calculate the yield on our mortgage loan portfolio based on the portfolio's average fair value, which most closely reflects our investment in the mortgage loans. Accordingly, the yield we realize is substantially higher than would be recorded based on the loans' unpaid balances as we purchase our mortgage loans at substantial discounts to their unpaid principal balances.

The revenue benefits of distressed loans and REO generally take longer to realize than those of performing loans due to the time required to work with borrowers to resolve payment issues through our modification programs and to acquire and liquidate the property securing the mortgage loans. The value and returns we realize from these assets are determined by our ability to cure the borrowers' defaults, or when curing of borrower defaults is not a viable solution, by our ability to effectively manage the liquidation process. As a participant in HAMP, we are required to comply with the process specified by the HAMP program before liquidating a loan, and this may extend the liquidation process. At March 31, 2012, we held \$528.9 million in fair value of nonperforming loans and \$104.9 million in carrying value of REO.

Net Gain on Mortgage Loans Acquired for Sale

During the quarter ended March 31, 2012, we recorded a net gain of \$13.4 million on mortgage loans acquired for sale which included approximately \$12.9 million in fair value of MSRs received as part of the proceeds from our correspondent lending loan sales. During the quarter ended March 31, 2011, we recorded a net gain of \$83,000 on mortgage loans acquired for sale.

Edgar Filing: PennyMac Mortgage Investment Trust - Form 10-Q

Table of Contents

Our gains on mortgage loans acquired for sale are summarized below:

	Quarter ended March 31,	
	2012	2011
	(in thousands)	
Cash gain (loss):		
Sales proceeds	\$ 548	\$ (9)
Hedging activities	(803)	34
	(255)	25
Non-cash gain:		
Change in fair value of commitments to purchase loans	(1,464)	
Receipt of MSR in loan sale transactions	12,929	40
Provision for losses relating to representations and warranties provided in loan sales	(426)	(2)
Change in fair value relating to loans and hedging derivatives held at year end:		
Mortgage loans	1,181	16
Hedging derivatives	1,405	4
	2,586	20
	\$ 13,370	\$ 83
Fair value of mortgage loans acquired for sale sold during the period	\$ 1,943,959	\$ 19,195
Fair value of mortgage loans acquired for sale held at period end	\$ 155,295	\$ 4,409

Our gain on mortgage loans acquired for sale includes both cash and non-cash elements. We receive proceeds on sale that include both cash and our estimate of the value of MSRs.

MSRs represent the value of a contract that obligates us to service the mortgage loans we sell on behalf of the purchaser of the loan in exchange for servicing fees and the right to collect certain ancillary income from the borrower. We recognize MSRs at our estimate of the fair value of the contract to service the loans.

We also provide for our estimate of the future losses that we may be required to incur as a result of our breach of representations and warranties provided to the purchasers of the loans we sold.

Our hedging activities relating to our correspondent lending activities primarily involve forward sales of our inventory and commitments to purchase mortgage loans as well as purchases of options to sell and options to purchase MBS. We hedge our investment in Agency MBS using an interest rate swaption agreement. Following is a summary of the notional activity in our hedging derivatives for the period presented:

	Balance, Beginning of Period	Additions	Dispositions/ Expirations	Balance, End of Period
	(in thousands)			
Quarter ended March 31, 2012				
MBS put options	\$ 28,000	\$ 100,000	\$ (53,000)	\$ 75,000
MBS call options	\$ 5,000	\$ 15,000	\$ (5,000)	\$ 15,000
MBS swaptions	\$	\$ 95,000	\$	\$ 95,000
Forward sales contracts	\$ 358,291	\$ 1,569,763	\$ (1,475,098)	\$ 452,956

Table of Contents

Results of Real Estate Acquired in Settlement of Loans

Results from REO includes the gains or losses we record upon sale of the properties as well as valuation adjustments we record during the period we hold those properties. During the quarter ended March 31, 2012, we recorded net gains of \$3.7 million in results of real estate acquired in settlement of loans as compared to net gains totaling \$1.1 million for the quarter ended March 31, 2011. The increase in gain between the first quarter of 2012 and the first quarter of 2011 is primarily due to the increased level of REO activity during the quarter ended March 31, 2012 as compared to the quarter ended March 31, 2011. We recorded a 235% increase in the carrying value of REO, from approximately \$31.3 million to approximately \$104.9 million, from March 31, 2011 to March 31, 2012. This increase reflects both the growth and seasoning of our investments in distressed assets during the period.

Expenses

Our expenses are summarized below for the periods presented:

	Quarter ended March 31,	
	2012	2011
Interest	\$ 6,674	\$ 2,278
Loan fulfillment fees payable to affiliate	6,124	12
Loan servicing fees	4,186	2,206
Management fees	1,804	1,549
Compensation	1,301	1,014
Professional services	442	877
Other	1,543	1,061
Total expenses	\$ 22,074	\$ 8,997

Increased expenses during the quarter ended March 31, 2012 compared to the same period in 2011 were a result of the growth in the Company's investment portfolio, the use of borrowings to finance that growth and to the substantial growth in our correspondent lending activities.

The effects of changes in the composition of our borrowings on our interest expense during the periods presented are summarized below:

	Quarter ended March 31, 2012 vs. Quarter ended March 31, 2011 Increase (decrease) due to changes in		
	Rate	Volume	Total change
Assets sold under agreements to repurchase:			
Securities	\$ (80)	\$ (72)	\$ (152)
Mortgage loans acquired for sale at fair value	(209)	1,427	1,218
Mortgage loans at fair value	68	1,247	1,315
Real estate acquired in settlement of loans		387	387
Note payable secured by mortgage loans at fair value		113	113
Borrowings under forward purchase agreements		1,515	1,515
	\$ (221)	\$ 4,617	\$ 4,396

Edgar Filing: PennyMac Mortgage Investment Trust - Form 10-Q

Table of Contents

During the quarter ended March 31, 2012, we incurred interest expense totaling \$6.7 million as compared to \$2.3 million during the quarter ended March 31, 2011. Our interest cost was 3.71% for the first quarter of 2012 as compared to 3.34% for the first quarter of 2011. The increase in interest expense reflects our increased use of leverage in support of growth of our balance sheet throughout 2011.

Loan fulfillment fees payable to an affiliate represent fees we pay to PLS for the services it performs on our behalf in connection with our acquisition, packaging and sale of mortgage loans. The fee is calculated as a percentage of the unpaid principal balance of the mortgage loan at acquisition. The increase of \$6.1 million in the fee during the quarter ended March 31, 2012 compared to the quarter ended March 31, 2011, is due to the substantial growth in our correspondent lending activities: during the quarter ended March 31, 2012, we sold mortgage loans with unpaid principal balances totaling approximately \$1.9 billion compared to \$19 million during the quarter ended March 31, 2011.

Loan servicing fees also grew substantially from \$2.2 million in the first quarter of 2011 to \$4.2 million in the first quarter of 2012 as our average investment in mortgage loans increased by 72% from the first quarter of 2011 to the first quarter of 2012. Included in loan servicing fees in the first quarter of 2012 and 2011 were activity-based fees of \$1.1 million and \$621,000, respectively, relating to the liquidation of loans.

Compensation expense increased due to the effect on 2012 stock-based compensation expense of restricted share units granted during the first quarter of 2011 to our officers and trustees as well as certain employees of PCM and its affiliates. Professional services expense decreased during the quarter ended March 31, 2012 as compared to the quarter ended March 31, 2011 as there was no significant level of mortgage investment acquisition activity involving assets and transactions which require support in the form of due diligence and legal consultations.

Income Taxes

Our provision for income taxes increased by \$4.9 million for the quarter ended March 31, 2012 as compared to the quarter ended March 31, 2011. Since the activities of the correspondent lending segment reside in our taxable REIT subsidiary, we expect income tax expense to increase as this segment's profit grows. A significant portion of our income tax expense relates to the value of mortgage servicing rights received pursuant to sales of correspondent loans, and is deferred rather than payable currently.

We have elected to treat two of our subsidiaries as TRSs. Income from a TRS is only included as a component of REIT taxable income to the extent that the TRS makes dividend distributions of income to the REIT. No such dividend distributions were made in the first quarter of 2012 or 2011. A TRS is subject to corporate federal and state income tax. Accordingly, a provision for income taxes for the TRSs is included in the accompanying consolidated statements of income.

Edgar Filing: PennyMac Mortgage Investment Trust - Form 10-Q

Table of Contents

In general, cash dividends declared by the Company will be considered ordinary income to the shareholders for income tax purposes. Some portion of the dividends may be characterized as capital gain distributions or a return of capital. Most of the 2011 distributions were characterized as ordinary income. Approximately 5% of the 2011 distribution was characterized as long-term capital gain.

Balance Sheet Analysis

Following is a summary of key balance sheet items as of the dates presented:

	March 31, 2012	December 31, 2011

SHAREHOLDERS' EQUITY	595,956	546,017
Total liabilities and shareholders' equity	\$ 1,378,020	\$ 1,386,062

Total assets remained relatively unchanged during the period from December 31, 2011 to March 31, 2012. During the quarter, we supplemented our financing through issuance of additional common shares for net proceeds of \$45.7 million. We made investments (excluding the purchase of correspondent lending loans) totaling \$112.7 million and received proceeds from sales and repayments of those assets totaling \$79.5 million. We also purchased newly-originated mortgage loans totaling approximately \$1.9 billion and received proceeds (including MSR) from the sale of loans totaling

Edgar Filing: PennyMac Mortgage Investment Trust - Form 10-Q

Table of Contents

approximately \$1.9 billion in our correspondent lending operations. Our non-correspondent lending acquisitions are summarized below.

Asset Acquisitions

Following is a summary of our acquisitions of mortgage investments (excluding correspondent lending mortgage loans) for the periods presented:

	Quarter ended March 31,

MSRs	12,958	40
	\$ 125,394	\$ 243,415

(1) Performance status as of the date of acquisition.

Investment Portfolio Composition

Mortgage Backed Securities

Our portfolio of senior priority MBS is primarily currently cash flowing, is backed by non-Agency subprime, Alt-A and prime jumbo loans and has an average remaining life of approximately 1.1 years. We acquired these securities and the Agency securities to supplement our investments in mortgage loans and to help ensure compliance with the REIT tax regulations relating to our asset composition.

The following is a summary of our portfolio of MBS as of the dates presented:

	March 31, 2012					
	Fair value	Principal	Life (in years)	Average Coupon	Market Yield	
	(dollars in thousands)					
Security collateral type:						
Agency:						
Fannie Mae 30-year fixed	\$ 112,179	\$ 109,077	10.33	3.50%	3.14%

Security collateral type:					
Non-Agency subprime	\$ 58,634	\$ 63,712	1.60	0.64%	8.01%
Non-Agency Alt-A	8,710	8,910	1.69	5.63%	6.23%
Non-Agency prime jumbo	5,469	5,624	0.72	2.72%	6.51%
	\$ 72,813	\$ 78,246	1.55	1.36%	7.70%

The relationship of the fair value of our mortgage loans at fair value (excluding mortgage loans acquired for sale at fair value) to the fair value of the real estate collateral underlying the loans is summarized below:

	March 31, 2012		December 31, 2011	
	Fair values			
	Loan	Collateral	Loan	Collateral
	(in thousands)			
Performing loans	\$ 243,632	\$ 338,455	\$ 209,599	\$ 306,978
Nonperforming loans	528,940	766,847	615,977	905,940
	\$ 772,572	\$ 1,105,302	\$ 825,576	\$ 1,212,918

The collateral values presented above do not represent our assessment of the amount of future cash flows to be realized from the mortgage loans and/or underlying collateral. Future cash flows will be influenced by, among other considerations, our asset disposition strategies with respect to individual loans, the costs and expenses we incur in the disposition process and changes in borrower performance and the underlying collateral values.

Collateral values summarized above are estimated and may change over time due to various factors including our level of access to the properties securing the loans, changes in the real estate market or the condition of individual properties. Collateral values noted do not include any costs that would typically be incurred in obtaining the property in settlement of the loan, readying the property for sale or in the sale of a property.

Following is a summary of the distribution of our mortgage loans at fair value (excluding mortgage loans acquired for sale at fair value) at March 31, 2012 and December 31, 2011:

Loan type	March 31, 2012						December 31, 2011

Correspondent Lending

Following is a summary of our correspondent lending acquisitions for the periods presented:

	Quarter ended March 31,	
	2012	2011
	(in thousands)	
Fair value of correspondent lending loans purchased		
Agency eligible	\$ 1,019,739	\$ 3,788
Government insured or guaranteed	833,104	14,936
Jumbo	5,304	852
	\$ 1,858,147	\$ 19,576

Our ability to continue the expansion of our correspondent lending business is subject to our ability to obtain additional inventory financing and our ability to fund the portion of the loans not financed, either through cash flows from business activities or the raising of additional equity capital. However, there can be no assurance that we will be successful in increasing our borrowing capacity or in obtaining the additional equity capital necessary or that we will be able to identify additional sources of mortgage loans.

Cash Flows

Our cash flows resulted in a net increase in cash of \$1.8 million during the three months ended March 31, 2012. The positive cash flows arose primarily due to the relative stability of our balance sheet during the quarter ended March 31, 2012. Cash provided by operating activities totaled \$56.5 million during the three months ended March 31, 2012. This source of cash was primarily the reduction of our inventory of mortgage loans acquired for sale. While our mortgage loan acquisition activity continued to increase during the quarter ended March 31, 2012, we realized the benefit of increased operational efficiency in the packaging and sale of the mortgage loans, thereby reducing the time we held the loans pending sale. Cash used by operating activities totaling \$27.9 million during the three months ended March 31, 2011 reflects the effects of growth in our operating balance sheet accounts during that period.

Net cash provided by investing activities was \$100.9 million for the three months ended March 31, 2012 due to the maturity of a \$50.0 million United States Treasury security and proceeds of

Edgar Filing: PennyMac Mortgage Investment Trust - Form 10-Q

Table of Contents

\$68.4 million from liquidation activities. This contrasts with cash used by investing activities totaling \$247.8 million during the three months ended March 31, 2011 due to the substantial growth in our investments in distressed mortgage assets during that period.

Approximately 83% of our investments, comprised of non-correspondent lending mortgage loans, MBS, REO and MSRs, were nonperforming assets as of March 31, 2012. Nonperforming assets include mortgage loans delinquent 90 or more days and REO. Accordingly, we expect that these assets will require a longer period to begin producing cash flow and the timing and amount of cash flows from these assets is less certain than for performing assets. During the three months ended March 31, 2012, we transferred \$31.1 million of mortgage loans and advances to REO and realized cash proceeds from the repayments and sale of MBS, mortgage loans at fair values and REO totaling \$11.1 million, \$34.9 million and \$33.6 million, respectively.

Net cash used by financing activities was \$155.6 million for the three months ended March 31, 2012 due to the net repayments of borrowings totaling approximately \$185.6 million. As discussed below in *Liquidity and Capital Resources*, our Manager continues to evaluate and pursue additional sources of financing to provide us with future investing capacity.

Liquidity and Capital Resources

Our liquidity reflects our ability to meet our current obligations (including the purchase of loans from correspondent lenders, our operating expenses and, when applicable, retirement of, and margin calls relating to, our debt), make investments as our Manager identifies them and make distributions to our shareholders. We generally need to distribute at least 90% of our taxable income each year (subject to certain adjustments) to our shareholders to qualify as a REIT under the Internal Revenue Code. This distribution requirement limits our ability to retain earnings and thereby replenish or increase capital to support our activities.

We expect our primary sources of liquidity to be proceeds from or through earnings on our investments, cash flows from business activities, proceeds from borrowings and/or additional equity offerings. We believe our current liquidity is sufficient to meet our short-term liquidity needs.

Our current leverage strategy is to finance our assets where we believe such borrowing is prudent and appropriate. We have made borrowings in the form of borrowings under forward purchase agreements, sales of assets under agreements to repurchase, and a note payable secured by mortgage loans at fair value. To the extent available to us, we expect in the future to obtain long-term financing for assets with estimated future lives of more than one year; this may include term financing and securitization of nonperforming and/or re-performing mortgage loans.

Until attractive long-term financing is procured, we will continue to finance our assets on a short-term basis through agreements to repurchase and other secured lending and structured finance facilities, pending the ultimate disposition of the assets, whether through sale, securitization or liquidation. Because our current debt facilities consist solely of short-term borrowings, we expect to renew these facilities in advance of maturity in order to ensure our ongoing liquidity and access to capital or otherwise allow ourselves sufficient time to replace any necessary financing.

During the three months ended March 31, 2012, we sold a total of 2,531,310 of our common shares under a Controlled Equity Offering Sales Agreement (the "2010 Sales Agreement") with Cantor Fitzgerald & Co. ("Cantor") at a weighted average price of \$18.41 per share, providing net proceeds to us of approximately \$45.7 million net of sales commissions. Cantor received a total of approximately \$917,000, which represents an average commission of approximately 2.0% of the gross sales price per share. The 2010 Sales Agreement with Cantor provides for the sale of common shares having an initial aggregate offering price of up to \$100 million. As of March 31, 2012, common shares having an aggregate offering price of up to \$44.0 million remained available for sale under the 2010 Sales Agreement.

Table of Contents

During 2011, we increased our use of debt financing as a means of extending our balance sheet capacity through the use of repurchase agreements and forward purchase agreements. Our repurchase agreements represent the sales of assets together with agreements for us to buy back the assets at a later date. During the three months ended March 31, 2012, the average balance outstanding under agreements to repurchase MBS and mortgage loans and REO financed under agreements to repurchase totaled \$557.3 million, and the maximum daily amount outstanding under such agreements totaled \$706.0 million. The difference between the maximum and average daily amounts outstanding was due to net liquidations of our investment assets as well as reductions in our average investment in mortgage loans acquired for sale at fair value throughout the period.

The forward purchase agreements represent agreements between us and Citigroup Global Markets Realty Corp. ("CGM"), pursuant to which we agreed to purchase from CGM certain nonperforming residential mortgage loans and residential real property acquired in settlement of loans (collectively, the "CGM Assets"). The CGM Assets were acquired by CGM from unaffiliated large money center banks (the "Initial Sellers"). As part of the agreements and in connection with our purchase of the CGM Assets, CGM assigned, and we assumed, all of CGM's rights and obligations under separate purchase agreements with the Initial Sellers. We recorded the transactions as a purchase of loans. The CGM Assets are serviced primarily by PLS. On the settlement date for any CGM Asset, in addition to the payment of the purchase price, we will reimburse CGM for certain out-of-pocket costs and other expenses, including servicing fees and servicing advances, and a cost of carry incurred by CGM for such CGM Asset.

The total unpaid principal balance of the CGM Assets subject to the forward purchase agreements as of the dates of the respective agreements was approximately \$386.8 million. At March 31, 2012, the unpaid principal balance of remaining commitments under the forward purchase agreements totaled \$233.9 million. The forward purchase agreements mature on June 11, 2012 and December 27, 2012.

Repurchase agreements and the forward purchase agreements represent significant sources of funding for our investment portfolio. As of March 31, 2012, we financed our investments in MBS, mortgage loans at fair value and REO, and our inventory of mortgage loans acquired for sale at fair value, under agreements to repurchase as follows:

	March 31, 2012	December 31, 2011
	(in thousands)	
Assets financed	\$ 1,020,345	\$ 1,222,845
Total assets in classes of assets financed	\$ 1,207,341	\$ 1,283,954
Borrowings	\$ 629,032	\$ 783,740
Percentage of invested assets pledged	85%	95%
Advance rate against pledged assets	62%	64%

The decrease in percentage of invested assets pledged was primarily because we recognized an unsettled purchase of MBS at March 31, 2012. This transaction increased our investments but the MBS were not available for pledging until they were settled after March 31, 2012.

As discussed above, all of our borrowings have short-term maturities:

The transactions relating to securities sold under agreements to repurchase provide for sale to major financial institution counterparties of securities in our investment portfolios at advance rates based on the estimated fair value of the securities sold. The agreements provide for repurchase by us of the securities at a term of three weeks. All transactions relating to MBS sold under agreements to repurchase maturing before the date of this Report have been refinanced by renewing the agreements at maturity.

Edgar Filing: PennyMac Mortgage Investment Trust - Form 10-Q

Table of Contents

The transactions relating to mortgage loans under agreements to repurchase mature between June 6, 2012 and April 19, 2013 and provide for sale to major financial institution counterparties based on the estimated fair value of the mortgage loans sold. The agreements provide for terms of approximately one year. All transactions maturing before the date of this Report have been refinanced by renewing or extending the agreements at maturity.

The transactions relating to REO are secured financings that mature on June 6, 2012 and December 28, 2012 and provide for sale to major financial institution counterparties at advance rates based on the estimated fair value of the REO.

The forward purchase agreements require that we settle the purchase of the CGM Assets on or before the applicable maturity dates of June 11, 2012 and December 27, 2012.

In the event that we fail to settle any CGM Assets on or before the applicable maturity date, the forward purchase agreements provide for a net settlement between us and CGM, in an amount based on the difference between the fair value of such CGM Assets on the date of determination and the sum of the purchase price and reimbursement amounts that would have applied to such CGM Assets had they been purchased on such date.

Any CGM Asset that liquidates prior to its settlement by us will be settled between us and CGM in the month following liquidation, in an amount based on the difference between the liquidation proceeds and the sum of the purchase price and reimbursement amounts that would have applied to such CGM Asset had it been purchased on the liquidation date.

Our settlement of the purchases of the CGM Assets is subject to our obtaining additional capital adequate to fund the transactions. There can be no assurance that the purchase of the CGM Assets will ultimately be settled.

Our debt financing agreements require us and certain of our subsidiaries to comply with various financial covenants. These financial covenants currently include the following:

profitability at each of the Company and our subsidiary, PennyMac Mortgage Investment Trust Holdings I, LLC ("PMITH"), for at least one (1) of the previous two consecutive fiscal quarters, as of the end of each fiscal quarter, and at our subsidiary, PennyMac Corp. ("PMC"), for the prior three (3) calendar quarters;

a minimum of \$10 million in unrestricted cash and cash equivalents among the Company and/or its subsidiaries; a minimum of \$7.75 million in unrestricted cash and cash equivalents between PMC and PMITH; and a minimum of \$7.5 million in unrestricted cash and cash equivalents at PMC;

a minimum tangible net worth for the Company of \$400 million, plus 75% of the total net proceeds received by it in connection with equity issuances after August 18, 2011; a minimum tangible net worth for PMITH of \$195 million; and a minimum tangible net worth for PMC of the sum of (y) \$65 million and (z) 50% of its positive quarterly income after November 2, 2010;

a maximum ratio of total liabilities to tangible net worth of less than 3:1 for the Company, 10:1 for PMC and 5:1 for PMITH; and

at least two warehouse or repurchase facilities that finance amounts and assets similar to those being financed under our existing debt financing agreements.

Although these financial covenants limit the amount of indebtedness we may incur and impact our liquidity through minimum cash reserve requirements, we believe that these covenants currently provide us with sufficient flexibility to successfully operate our business and obtain the financing necessary to achieve that purpose.

Table of Contents

The transactions relating to securities sold under agreements to repurchase contain margin call provisions that, upon notice from the applicable lender at its option, require us to transfer cash or additional securities in an amount sufficient to eliminate any margin deficit. A margin deficit will generally result from any decline in the market value (as determined by the applicable lender) of the assets subject to an agreement to repurchase, although in some instances we may agree with the lender upon certain thresholds (in dollar amounts or percentages based on the market value of the assets) that must be exceeded before a margin deficit will arise. Upon notice from the applicable lender, we will generally be required to satisfy the margin call on the day of such notice or within one business day thereafter, depending on the timing of the notice. At March 31, 2012, our securities sold under agreements to repurchase were sold to one lender. With respect to this agreement, we have agreed with the lender to a threshold of \$250,000 in market value decline that must be exceeded before a margin deficit will arise.

Similarly, the transactions relating to mortgage loans and/or equity interests in special purpose entities holding real property under agreements to repurchase contain margin call provisions that, upon notice from the applicable lender at its option, require us to transfer cash or additional mortgage loans or real property, as applicable, in an amount sufficient to eliminate any margin deficit. A margin deficit will generally result from any decline in the market value (as determined by the applicable lender) of the assets subject to an agreement to repurchase. Upon notice from the applicable lender, we will generally be required to satisfy the margin call on the day of such notice or within one business day thereafter, depending on the timing of the notice.

Our Manager continues to explore a variety of additional means of financing our continued growth, including debt financing through bank warehouse lines of credit, additional repurchase agreements, term financing, securitization transactions and additional equity offerings. However, there can be no assurance as to how much additional financing capacity such efforts will produce, what form the financing will take or that such efforts will be successful. Further, counterparty credit sensitivity and collateral documentation requirements have made it difficult to obtain financing for REO, the result of which could place stress on our capital and liquidity positions at certain times during the foreclosure cycles of the related nonperforming loans.

Off-Balance Sheet Arrangements and Aggregate Contractual Obligations

Off-Balance Sheet Arrangements and Guarantees

As of March 31, 2012, we have not entered into any off-balance sheet arrangements or guarantees.

Contractual Obligations

As of March 31, 2012, all of our known contractual obligations mature within one year. As of March 31, 2012, we had on-balance sheet contractual obligations of \$501.4 million to finance assets under agreements to repurchase with maturities between May 10, 2012 and April 19, 2013, a contractual obligation of \$0 relating to a note payable secured by mortgage loans at fair value maturing on September 26, 2012, and contractual obligations of \$127.6 million relating to forward purchase agreements with maturities between June 11, 2012 and December 27, 2012. All agreements to repurchase that matured between March 31, 2012 and the date of this Report have been renewed or extended and are described in Note 17 *Securities Sold Under Agreements to Repurchase at Fair Value*, Note 18 *Mortgage Loans Acquired for Sale Sold Under Agreements to Repurchase*, Note 19 *Mortgage Loans at Fair Value Under Agreements to Repurchase* and Note 20 *Real Estate Acquired in Settlement of Loans Financed Under Agreements to Repurchase* in the accompanying consolidated financial statements. The contractual obligation relating to the secured lending facility is described in Note 21 *Note Payable Secured by Mortgage Loans at Fair Value* in the accompanying consolidated financial statements. The contractual obligations relating to forward purchase agreements mature on June 11, 2012 and

Edgar Filing: PennyMac Mortgage Investment Trust - Form 10-Q

Table of Contents

December 27, 2012 and are described in Note 22 *Borrowings under Forward Purchase Agreements* in the accompanying consolidated financial statements.

The amount at risk (the fair value of the assets pledged plus the related margin deposit, less the amount advanced by the counterparty and accrued interest) relating to the Company's assets sold under agreements to repurchase is summarized by counterparty below as of March 31, 2012:

Counterparty	Amount at risk (in thousands)
Citibank, N.A.	\$ 251,295
Wells Fargo Bank, N.A.	86,972
Credit Suisse First Boston Mortgage Capital LLC.	49,515
Bank of America, N.A.	6,893
	\$ 394,675

Management Agreement. Pursuant to the management agreement between PCM and us, we pay PCM a base management fee and a performance incentive fee, both payable quarterly and in arrears. The base management fee is calculated at the annual rate of 1.5% of shareholders' equity. "Shareholders' equity" is defined as the sum of the net proceeds from any issuances of our equity securities since inception (weighted for the time outstanding during the measurement period); plus our retained earnings at the end of the quarter (without taking into account any non-cash equity compensation expense incurred in current or prior periods); less any amount we pay for repurchases of our common shares (weighted for the time held during the measurement period); excluding any unrealized gains, losses or other non-cash items that have impacted our shareholders' equity as reported in our consolidated financial statements, regardless of whether those items are included in other comprehensive income or loss or net income; and excluding one-time events pursuant to changes in U.S. GAAP and certain other non-cash charges after discussions between PCM and our independent trustees and approval by a majority of our independent trustees.

The performance incentive fee is calculated at 20% per year of the amount by which "core earnings," on a rolling four-quarter basis and before the incentive fee, exceeds an 8% "hurdle rate." "Core earnings," for purposes of determining the amount of the performance incentive fee, is defined as U.S. GAAP net income (loss) adjusted to exclude non-cash equity compensation expense, unrealized gains and losses or other non-cash items recognized during the period, any conditional payment amounts relating to our IPO paid to PCM and the underwriters of our IPO, and certain other non-cash charges after discussions between PCM and our independent trustees and approval by a majority of our independent trustees. The "hurdle rate" is calculated as the product of (1) the weighted average of the issue price per share of all of our public offerings multiplied by the weighted average number of shares outstanding (including, for the avoidance of doubt, restricted share units) in the four-quarter period and (2) 8%. During our first four quarters, core earnings were calculated based on the annualized results of each of the preceding quarters. For purposes of calculating the incentive fee, to the extent we have a net loss in core earnings from a period prior to the rolling four-quarter period that has not been offset by core earnings in a subsequent period, such loss will continue to be included in the rolling four-quarter calculation until it has been fully offset. This term is not applicable for purposes of determining whether the conditional payment of the underwriting discount is payable.

Under the management agreement, PCM is entitled to reimbursement of organizational and operating expenses, including third party expenses, incurred on our behalf. Our reimbursement obligation is not subject to any dollar limitation. Expenses are reimbursed in cash on a quarterly basis.

Table of Contents

Under the management agreement, PCM may be entitled to a termination fee under certain circumstances. Specifically, the termination fee is payable for (1) our termination of the management agreement without cause or (2) PCM's termination of the management agreement upon a default in the performance of any material term of the management agreement. The termination fee is equal to three times (a) the average annual base management fee and (b) the average annual (or, if the period is less than 24 months, annualized) incentive fee earned by PCM during the prior 24-month period before termination. Under circumstances where the termination fee is payable, we will agree to pay to PCM its portion of the conditional payment of the underwriting discount described below.

Loan Servicing Agreement. For its services under our loan servicing agreement, PLS is entitled to base servicing fees that are competitive with those charged by other servicers or specialty servicers, as applicable. Base servicing fees are calculated as a percentage of the unpaid principal balance of the mortgage loans, with the actual percentage being based on the risk characteristics of the loans in a particular pool. Such risk characteristics include market value of the underlying properties, creditworthiness of the borrowers, seasoning of the loans, degree of current and expected loan defaults, current loan-to-value ratios, borrowers' payment history and debt-to-income levels.

The base servicing fees for nonperforming loans range from 30 to 100 basis points per year of the unpaid principal balance of such loans. PLS is also entitled to certain customary market-based fees and charges, including boarding and deboarding fees, liquidation and disposition fees, assumption, modification and origination fees and late charges, as well as interest on funds on deposit in custodial or escrow accounts.

When PLS effects a refinancing of a loan on our behalf and not through a third party lender and the resulting loan is readily saleable, PLS is entitled to receive from us market-based fees and compensation. Similarly, when PLS originates a loan to facilitate the disposition of real estate that we acquire in settlement of a loan, PLS is entitled to a fee in the same amount.

To the extent we participate in HAMP (or other similar mortgage loan modification programs), PLS is entitled to retain any incentive payments made to it and to which it is entitled under HAMP; provided, however, that with respect to any such incentive payments paid to PLS in connection with a mortgage loan modification for which we previously paid PLS a modification fee, PLS is required to reimburse us an amount equal to the lesser of such modification fee or such incentive payments.

Under the loan servicing agreement, PLS is also entitled to reimbursement for all customary, reasonable and necessary out of pocket expenses incurred by PLS in connection with the performance of its servicing obligations.

In connection with our correspondent lending business, PLS is entitled to base servicing fees, which range from 4 to 20 basis points per year of the unpaid principal balances of such loans, and other customary market-based fees and charges as described above. PLS also provides us with certain mortgage banking services, including fulfillment and disposition-related services, for a fulfillment fee based on a percentage of the unpaid principal balance of the mortgage loans. The fulfillment fee for such services is currently 50 basis points. Since November 1, 2010, we collect interest income and a sourcing fee of three basis points for each mortgage loan we buy from a correspondent and sell to PLS for ultimate disposition to a third party where we are not approved or licensed to sell to such third party. During the quarter ended March 31, 2012, the Company recorded fulfillment fees totaling \$6.1 million.

We paid servicing fees to PLS as described above and as provided in our loan servicing agreement, and recorded other expenses, including common overhead expenses incurred on our behalf by PCM and its affiliates in accordance with the terms of its management agreement.

Conditional Payment of Underwriting Discount. Certain of the underwriting costs incurred in our IPO were paid on our behalf by PCM and a portion of the underwriting discount was deferred by

Table of Contents

agreement with the underwriters of the offering. Reimbursement to PCM and payment to the underwriters of the deferred underwriting discount are both contingent on our performance as follows: we will reimburse PCM approximately \$2.9 million of underwriting costs paid by PCM on the offering date and pay the underwriters approximately \$5.9 million in deferred underwriting discount if, during any full four calendar quarter period during the 24 full calendar quarters after the date of the completion of our IPO, August 4, 2009, our "core earnings" for such four-quarter period and before the incentive portion of PCM's management fee equals or exceeds an 8% incentive fee "hurdle rate" (both defined above). If this requirement is not satisfied by the end of such 24 calendar quarter period, our obligation to reimburse PCM and make the conditional payment of the underwriting discount will terminate. We have concluded that this contingency is probable of being met during the 24-quarter period and have recognized a liability for reimbursement to PCM and payment of the contingent underwriting discount as a reduction of additional paid-in capital.

Quantitative and Qualitative Disclosures About Market Risk

Market risk is the exposure to loss resulting from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices, real estate values and other market-based risks. The primary market risks that we are exposed to are real estate risk, credit risk, interest rate risk, prepayment risk, inflation risk and market value risk. A substantial portion of our investments are comprised of nonperforming loans. We believe that such assets' fair values respond primarily to changes in the fair value of the real estate securing such loans.

The following table summarizes the estimated change in fair value of our portfolio of mortgage loans at fair value and mortgage loans under forward purchase agreements at fair value as of the dates presented, given several hypothetical (instantaneous) changes in home values from those used in the determination of fair value:

Property value shift	-15%	-10%	-5%	+5%	+10%	+15%
(dollar amounts in thousands)						
As of March 31, 2012:

Factors That May Affect Our Future Results

This Report contains certain forward-looking statements that are subject to various risks and uncertainties. Forward-looking statements are generally identifiable by use of forward-looking terminology such as "may," "will," "should," "potential," "intend," "expect," "seek," "anticipate," "estimate," "approximately," "believe," "could," "project," "predict," "continue," "plan" or other similar words or expressions.

Forward-looking statements are based on certain assumptions, discuss future expectations, describe future plans and strategies, contain financial and operating projections or state other forward-looking information. Examples of forward-looking statements include the following:

projections of our revenues, income, earnings per share, capital structure or other financial items;

descriptions of our plans or objectives for future operations, products or services;

forecasts of our future economic performance, interest rates, profit margins and our share of future markets; and

descriptions of assumptions underlying or relating to any of the foregoing expectations regarding the timing of generating any revenues.

Our ability to predict results or the actual effect of future events, actions, plans or strategies is inherently uncertain. Although we believe that the expectations reflected in such forward-looking statements are based on reasonable assumptions, our actual results and performance could differ materially from those set forth in the forward-looking statements. There are a number of factors, many of which are beyond our control, that could cause actual results to differ significantly from management's expectations. Some of these factors are discussed below.

Edgar Filing: PennyMac Mortgage Investment Trust - Form 10-Q

Table of Contents

You should not place undue reliance on any forward-looking statement and should consider the following uncertainties and risks, as well as the risks and uncertainties discussed elsewhere in this Report and as set forth in Item 1A. "Risk Factors" in our Annual Report.

Factors that could cause actual results to differ materially from historical results or those anticipated include, but are not limited to:

changes in our investment objectives or investment or operational strategies, including any new lines of business or new products and services that may subject us to additional risks;

volatility in our industry, interest rates and spreads, the debt or equity markets, the general economy or the residential finance and real estate markets specifically, whether the result of market events or otherwise;

events or circumstances which undermine confidence in the financial markets or otherwise have a broad impact on financial markets, such as a credit downgrade of U.S. Government obligations, the sudden instability or collapse of large depository institutions or other significant corporations, terrorist attacks, natural or man-made disasters, or threatened or actual armed conflicts;

changes in general business, economic, market, employment, consumer confidence and spending habits and political conditions from those expected;

continued declines in residential real estate and significant changes in U.S. housing prices and/or activity in the U.S. housing market;

the availability of, and level of competition for, attractive risk-adjusted investment opportunities in residential mortgage loans and mortgage-related assets that satisfy our investment objectives and investment strategies;

our success in winning bids to acquire loans;

the concentration of credit risks to which we are exposed;

the degree and nature of our competition;

changes in personnel and lack of availability of qualified personnel;

our dependence on PCM, potential conflicts of interest with PCM and its affiliated entities, and the performance of such entities;

the availability, terms and deployment of short-term and long-term capital;

the adequacy of our cash reserves and working capital;

our ability to match the interest rates and maturities of our assets with our financing;

Edgar Filing: PennyMac Mortgage Investment Trust - Form 10-Q

the timing and amount of cash flows, if any, from our investments;

unanticipated increases in financing and other costs, including a rise in interest rates;

the performance, financial condition and liquidity of borrowers;

incomplete or inaccurate information or documentation provided by customers or counterparties, or adverse changes in the financial condition of our customers and counterparties;

the quality and enforceability of the collateral documentation evidencing our ownership and rights in the assets in which we invest;

increased rates of delinquency, default and/or decreased recovery rates on our investments;

our ability to foreclose on our investments in a timely manner or at all;

Edgar Filing: PennyMac Mortgage Investment Trust - Form 10-Q

Table of Contents

increased prepayments of the mortgages and other loans underlying our MBS and other investments;

the degree to which our hedging strategies may or may not protect us from interest rate volatility;

the effect of the accuracy of or changes in the estimates we make about uncertainties and contingencies when measuring and reporting upon our financial condition and income;

our failure to maintain appropriate internal controls over financial reporting;

our ability to obtain and/or maintain licenses and other approvals in those jurisdictions where required to conduct our business;

our ability to comply with various federal, state and local laws that govern our business;

developments in the secondary markets for our mortgage loan products;

legislative and regulatory changes that impact the mortgage loan industry or housing market;

changes in regulations or the occurrence of other events that impact the business, operation or prospects of GSEs or government agencies such as the FHA or Veterans Administration;

the Dodd-Frank Wall Street Reform and Consumer Protection Act and any other legislative and regulatory changes that impact the business, operations or governance of publicly-traded companies;

changes in government support of homeownership;

changes in government or government-sponsored home affordability programs;

changes in governmental regulations, accounting treatment, tax rates and similar matters (including changes to laws governing the taxation of REITs or the exclusions from registration as an investment company);

limitations imposed on our business and our ability to satisfy complex rules for us to qualify as a REIT for U.S. federal income tax purposes and qualify for an exclusion from the Investment Company Act of 1940 (the "Investment Company Act") and the ability of certain of our subsidiaries to qualify as REITs and certain of our subsidiaries to qualify as TRSs for U.S. federal income tax purposes, and our ability and the ability of our subsidiaries to operate effectively within the limitations imposed by these rules;

estimates relating to our ability to make distributions to our shareholders in the future;

Edgar Filing: PennyMac Mortgage Investment Trust - Form 10-Q

the effect of public opinion on our reputation; and

the occurrence of natural disasters or other events or circumstances that could impact our operations.

Other factors that could also cause results to differ from our expectations may not be described in this Report or any other document. Each of these factors could by itself, or together with one or more other factors, adversely affect our business, income and/or financial condition.

Forward-looking statements speak only as of the date they are made, and we undertake no obligation to update any forward-looking statement to reflect the impact of circumstances or events that arise after the date the forward-looking statement was made.

Item 3. *Quantitative and Qualitative Disclosures About Market Risk*

In response to this Item 3, the information set forth on pages 81 and 83 is incorporated herein by reference.

Item 4. *Controls and Procedures*

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. However, no matter how well a control system is designed and operated, it can provide only reasonable, not absolute, assurance that it will detect or uncover failures within the Company to disclose material information otherwise required to be set forth in our periodic reports.

Our management has conducted an evaluation, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Report as required by paragraph (b) of Rules 13a-15 and 15d-15 under the Exchange Act. Based on our evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective, as of the end of the period covered by this Report, to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the applicable rules and forms, and that it is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting during the quarter ended March 31, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
