EXPLANATORY NOTE

This Amendment No. 1 on Form 10-K/A (this "Amendment") amends our Annual Report on Form 10-K for the fiscal year ended January 2, 2016, originally filed with the Securities and Exchange Commission on February 24, 2016 (the "Original Filing"). We are filing this Amendment to amend Part III of the Original Filing to include the information required by and not included in Part III of the Original Filing, as we do not intend to file a definitive proxy statement for an annual meeting of stockholders within 120 days of the end of our fiscal year ended January 2, 2016. In addition, in connection with the filing of this Amendment and pursuant to the rules of the United States Securities and Exchange Commission, we are including with this Amendment new certifications of our principal executive officer and principal financial officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002. Accordingly, Item 15 of Part IV has also been amended to reflect the filing of these new certifications.

Except as described above, no other changes have been made to the Original Filing. The Original Filing continues to speak as of the date of the Original Filing, and we have not updated the disclosures contained therein to reflect any events which occurred at a date subsequent to the filing of the Original Filing.

As used in this Amendment, unless the context requires otherwise, "our company," "Summer," "our" and "we" means Summer Infant, Inc. and its consolidated subsidiaries.

Item 11. Executive Compensation.

Executive Summary

We are a premier juvenile products company originally founded in 1985 and create branded juvenile safety and infant care products (targeted for ages 0-3 years) that are intended to deliver a diverse range of parenting solutions to families. Our industry is highly competitive and has many participants, and our ability to compete effectively in our industry is dependent in part on our ability to attract, motivate and retain key management personnel and other qualified employees. The Compensation Committee has approved a pay-for-performance compensation philosophy, which is intended over time to bring base salaries and total executive compensation in line with approximately the median (50th percentile) of the companies represented in our peer group. However, we have not

Table of Contents

been able to compensate our executives at this level in recent years due to our company's financial performance, stock price and the limited pool of shares available for issuance under our equity plans. Short-term incentive compensation, based on the achievement of specified goals and objectives, may be awarded in the form of a cash performance bonus. We also provide equity awards to reward our executives for long-term company performance and to align their interests with the interests of our stockholders. Total compensation may vary significantly from year-to-year based on a combination of total company and individual performance.

In fiscal 2015, our company continued to focus on our core product offerings, phasing out less profitable categories, liquidating related inventory, and improving our balance sheet and working capital positions. As our company executed these initiatives, sales increased slightly while gross margins declined primarily due to the liquidation of closeout inventory as well as the unfavorable effect of currency exchange rates (primarily on Canadian sales). As a result, net sales in fiscal 2015 were relatively flat as compared to fiscal 2014, as reflected in the following chart:

In 2015, we experienced changes in our executive team, as Mr. Stebenne was appointed Chief Executive Officer in May 2015 replacing Ms. Bramson. In addition, our Compensation Committee adjusted our annual incentive bonus program design to provide for potential payouts based on achievement of company-wide performance targets related to pre-bonus adjusted EBITDA, contribution margin and operating cash flow, as further described below. As a result, based on the company's performance in fiscal 2015, we had a modest bonus payout under our annual incentive bonus program equal to approximately 7.5% of target bonus to eligible named executive officers. Our equity awards granted in fiscal 2015 were generally below the market 25th percentile for similar companies due to our stock price.

Table of Contents

The following chart shows the mix of total direct compensation actually earned by our Chief Executive Officer for fiscal 2015.

CEO 2015 Total Direct Compensation(1)

(1) Reflects solely the 2015 compensation of Mr. Stebenne, who was appointed Chief Executive Officer in May 2015.

Compensation Philosophy and Objectives

Our Board has appointed a Compensation Committee consisting of independent directors as required by applicable SEC and Nasdaq Stock Market rules. The Compensation Committee is authorized to determine and approve, or make recommendations to our Board with respect to, the compensation of our Chief Executive Officer and our other executive officers and to grant or recommend the grant of stock-based compensation to our Chief Executive Officer and other executive officers. The Compensation Committee also reviews our compensation policies and practices for all employees.

Our philosophy is to compensate our executives at levels that enable us to attract, motivate and retain highly qualified executives. As our business evolves, we seek to foster a performance-oriented culture, where individual performance is aligned with organizational objectives. We will continue to establish an annual bonus program designed to reward individuals for performance based primarily on our financial results and their achievement of personal and corporate goals that contribute to our long-term goal of building stockholder value. Grants of stock-based awards are intended to provide additional incentive to executives to work to enhance long-term total return to stockholders and to align the interests of our executives with those of our stockholders. Total compensation levels reflect the executive's position, responsibilities, tenure, individual experience and achievement of goals. As a result of our performance-based philosophy, compensation levels may vary from year to year and among our various executive officers with fixed and variable pay components.

Compensation Components

Each year the Compensation Committee reviews the various components of executive compensation to determine an appropriate mix for each named executive officer, as described below. In determining each component of an executive's compensation, numerous factors are considered, including:

the individual's particular background and circumstances, including prior relevant work experience;

the demand for individuals with the individual's specific expertise and experience;

the individual's role with us and the compensation paid to similar positions determined through benchmark studies;

Table of Contents

the individual's performance and contribution to the achievement of company goals and objectives;

comparison to other executives within our company; and

the overall financial performance of our company.

Our policy for allocating between short-term and long-term compensation is to ensure adequate annual cash compensation to attract and retain personnel, while providing incentives (in the form of equity awards) to maximize long-term value for our company and our stockholders. Accordingly, (i) we provide cash compensation in the form of base salary and annual incentive bonuses to meet competitive salary norms and reward company performance on an annual basis and (ii) we provide non-cash compensation in the form of stock-based awards to reward superior performance against long-term objectives.

Base Salary. The Compensation Committee strives to provide salaries to executives that are competitive with those paid by comparable companies for similar work, based on each executive's experience and performance. We target cash compensation at market median levels to help attract and retain executive talent. When setting executive pay, the Compensation Committee considers a combination of factors as outlined in the bulleted list above. In addition, in the case of new hires, the Compensation Committee will also consider the current recruitment market and negotiations with the specific individual.

Following the end of each fiscal year, the Compensation Committee reviews executives' base salaries, and takes into consideration each executive's performance, achievement of specific short-term goals and our company's performance in the prior year. The Compensation Committee also meets with the Chief Executive Officer to review base salary recommendations for other named executive officers, including his performance evaluation of all such persons and the basis of the recommendations, the scope of each person's duties, oversight responsibilities and individual objectives and goals against results achieved for the applicable fiscal year.

Annual Incentive Bonus. Our company generally uses short-term cash-based incentive compensation programs to recognize and reward executives and other employees who contribute meaningfully to an increase in stockholder value and profitability. In general, the funding of the annual incentive bonus pool is dependent upon our company achieving certain financial targets, historically earnings before interest, taxes, depreciation and amortization (before deducting incentive compensation). As further described below, in 2015 the Compensation Committee adjusted our annual incentive bonus program design to provide for potential payouts based on achievement of company-wide performance targets related to pre-bonus adjusted EBITDA, contribution margin and operating cash flow. Each named executive officer typically has the ability to receive up to 200% of his or her target bonus award opportunity based on our company and the individual achieving stretch (or superior) performance levels. The percentage of the bonus actually paid to each named executive officer depends on the attainment of corporate financial targets and individual performance goals.

Long-Term Equity Incentive Awards. The Compensation Committee believes that stock-based compensation ensures that our executives have a continuing stake in the long-term success of our company. In general, long-term incentive awards are targeted between the 25th and 50th percentiles of the compensation peer group with appropriate adjustments for individual and company performance, though historically awards have generally been at or below the 25th percentile market level due to share constraints and stock price. Long-term incentive awards have been in the form of stock options, restricted stock awards, or a combination of both types of awards. Vesting for these awards extends over a four-year period, with 25% of the total number of shares subject to an award vesting each year beginning on the first anniversary of the date of grant. If a named executive officer leaves our company prior to the completion of the applicable vesting schedule, the unvested portion of the option or stock

Table of Contents

grant is forfeited unless otherwise provided in his or her employment agreement or termination agreement. The Compensation Committee also grants equity awards outside of the regular annual grant program for new hires, promotions or other reasons deemed appropriate by the committee.

Perquisites and Fringe Benefits. We provide only certain executive fringe benefits. Our executives receive health and welfare benefits, such as group medical, dental, life and long-term disability coverage, under plans generally available to all other employees. We believe that our executives should be able to provide for their retirement needs from the total annual compensation they earn based on our performance. Accordingly, other than an employer matching contribution under our 401(k) plan, which is the same that we provide all of our employees, we do not offer our executives any nonqualified pension plans, supplemental executive retirement plans, deferred compensation plans or other forms of compensation for retirement. We may provide for fringe benefits, such as auto allowances or commuting benefits, in individually negotiated executive employment agreements in order to attract and retain key executives who are essential to the long-term success of our company.

Role of the Compensation Committee and Management

The Compensation Committee currently determines the compensation of our Chief Executive Officer and our other executive officers. Annually, our Compensation Committee evaluates the performance of our Chief Executive Officer and determines the compensation of our Chief Executive Officer in light of the goals and objectives of our compensation program for that year. Our Compensation Committee annually assesses the performance of our other executive officers and considers recommendations from our Chief Executive Officer when determining the compensation of our other executive officers. As discussed below, the Compensation Committee also considers input from other independent directors, our compensation consultant and benchmarking studies and surveys, but retains absolute discretion as to whether to adopt any recommendations as it deems appropriate.

At the request of our Compensation Committee, our Chief Executive Officer and SVP of Human Resources may attend our Compensation Committee meetings, including meetings at which our compensation consultant is present. This enables our Compensation Committee to review with senior management the corporate and individual goals that are important to achieve our overall success. Although the participation of management could influence performance targets and individual goals, including the targets and goals set for our Chief Executive Officer, our Compensation Committee ultimately makes all determinations regarding individual and corporate goals and targets. Our Chief Executive Officer does not attend any portion of meetings at which his compensation is discussed.

Additionally, as part of ongoing efforts to drive outstanding operational and financial performance, the Compensation Committee will, in consultation with its independent compensation consultant, consider changes to our compensation programs as appropriate in response to input from stockholders through our annual Say on Pay vote and evolving factors such as the business environment and competition for talent.

The Compensation Committee has authority to retain (at our company's expense) outside counsel, compensation consultants and other advisors to assist as needed. The Compensation Committee considers input and recommendations from our outside compensation consultants in connection with its review of our company's compensation programs and its annual review of the performance of the other executive officers. The Compensation Committee has engaged the services of an independent compensation consultant, Pearl Meyer. As further described below, Pearl Meyer has assisted the Compensation Committee from time to time with executive compensation matters. The Compensation Committee retains Pearl Meyer directly, although in carrying out assignments Pearl Meyer also interacts with management when necessary and appropriate to obtain compensation and performance data. As required under SEC rules, the Compensation Committee reviews the services of its compensation consultants to evaluate whether any conflicts of interest are raised, taking into consideration certain

Table of Contents

factors, including whether the consultant provides any other services to our company, the amount of fees our company pays to the consultant, whether there are any business or personal relationships with an executive officer of our company or with any committee member, and whether the consultant owns any stock of our company. The Compensation Committee determined, based on its evaluation, that the work of Pearl Meyer has not created any conflict of interest. On an annual basis, the Compensation Committee will continue to monitor the independence of its compensation consultants.

Role of the Compensation Consultant

The Compensation Committee retains Pearl Meyer to provide advice on various compensation matters and recommends compensation program designs, including market trends, peer group composition and compensation for our executive officers. Pearl Meyer reports directly to the Compensation Committee, meets the independence requirements of applicable SEC rules and does not provide any other services to our company beyond those requested or approved by the Compensation Committee. Pearl Meyer regularly attends meetings of the Compensation Committee, either in person or by telephone. In 2015, Pearl Meyer assisted the Compensation Committee with the following:

attended Compensation Committee meetings as requested;

provided advice and analysis of the competitiveness of the compensation of the CEO and other senior executives; and

Compensation Benchmarking

In determining compensation levels, the Compensation Committee believes that it is important when making compensation-related decisions to be informed as to the practices of publicly-held companies of similar size, revenue and market focus. As a result, the Compensation Committee relies on its independent compensation consultant to help define the appropriate competitive market using a combination of peer group companies and industry-specific compensation surveys. The company's peer group currently consists of:

Acme United Corporation	Gaiam, Inc.
Black Diamond, Inc.	JAKKS Pacific, Inc.
Cobra Electronics Corp.	Joe's Jeans Inc.
Crown Crafts, Inc.	Leapfrog Enterprises Inc.
CSS Industries Inc.	Nautilus Inc.

Named Executive Officer Compensation in 2015

Our named executive officers for 2015 were Robert Stebenne, Chief Executive Officer (beginning in May 2015), President and Chief Operating Officer, William E. Mote, Jr., Chief Financial Officer; Carol E. Bramson, our former Chief Executive Officer until May 2015; and Kenneth Price, our former President of Global Sales & Marketing until May 2015.

Base Salaries. In 2015, Mr. Stebenne was newly appointed as an executive officer and his base salary was the result of individual negotiation with him. As is our practice, we review base salaries for our existing named executive officers each fiscal year. In 2015, no increases were approved for named executive officers who were not new hires in 2015. Please see the Summary Compensation Table below for the actual amounts paid to our named executive officers in 2015.

Annual Incentive Bonus. In 2015, the Compensation Committee reviewed with input from management and its compensation consultant the structure of our annual incentive bonus program in light of the fact that no payouts had been made in recent years based solely on the achievement of EBITDA targets. The Compensation Committee approved modifications to the design of the annual incentive bonus that are intended to ensure continuing focus on critical financial performance metrics while increasing the potential for meaningful payouts for performance. The Compensation Committee modified the annual incentive bonus program design to be based on achievement of three key metrics, each with a specific weighting: pre-bonus EBITDA, contribution margin and operating cash flow. Each metric is calculated separately, and then results are aggregated to determine funding of the overall bonus pool.

The following table sets forth the weighting of each target, the threshold, target and maximum amounts for each of the three metrics, and the actual results for each metric in 2015:

Performance Metric	Threshold	Target	Maximum	Actual	Weighting
Adjusted EBITDA	\$ 16,065,000	\$ 18,900,000	\$ 26,460,000	\$ 9,697,050	40%
Contribution Margin	\$ 48,331,000	\$ 56,860,000	\$ 79,604,000	\$ 44,170,046	30%
Operating Cash Flow	\$ 8,857,000	\$ 10,420,000	\$ 14,588,000	\$ 9,030,579	30%

Following the end of 2015, the Compensation Committee determined that while the company did not achieve the threshold for payout under the EBITDA and contribution margin metrics, the company did exceed the threshold under the cash flow metric resulting in a 25% achievement payout level for that component. Because the cash flow metric makes up 30% of the overall bonus potential, the final payout to eligible participants was approximately 7.5% of target bonus (30% * 25%).

Long-Term Equity Incentive Awards. For 2015, our annual equity-based incentive compensation awards for executive officers and senior management employees were in the form of restricted stock awards and stock options. The amount of annual equity-based awards granted to executive officers who were not new hires during 2015 reflected the executive's position within our company, their individual performance and equity-based awards by comparable companies for comparable positions, with the goal to bring the executive to within the 25th percentile of such comparable companies. The vesting schedule for our annual equity-based awards is 25% per year, with vesting beginning on the first anniversary of the grant date. The vesting schedule is designed to encourage executives to continue in the employ of our company. Each executive forfeits the unvested portion, if any, of the equity-based awards if the executive's service to our company is terminated for any reason, except as may otherwise be determined by our Board. Mr. Stebenne received an equity grant in connection with his hiring, as further described below.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Independence of Directors

In determining the independence of directors, our Board of Directors analyzes each director's relationship with our company and our subsidiaries to determine whether our directors are independent under the applicable rules of the Nasdaq Stock Market and the SEC. Our Board of Directors has determined that all of our current directors, except Messrs. Almagor and Stebenne, are "independent" within the meaning of the independence rules of the Nasdaq Stock Market and the SEC. Ms. Bramson, who served on our Board of Directors for part of 2015, was not an independent director.

Certain Relationships and Related Transactions

In March 2009, our wholly owned subsidiary, Summer Infant (USA), Inc. ("Summer USA"), entered into a definitive agreement with Faith Realty II, LLC, a company whose members are Jason P. Macari, our former Chief Executive Officer and a former director, and his spouse. Under this agreement, Faith Realty purchased our corporate headquarters located at 1275 Park East Drive, Woonsocket, Rhode Island for \$4,052,500 and subsequently leased the headquarters back to Summer USA. The lease, which was last amended in May 2015, provides for an initial term ending on March 31, 2018 that may be extended at Summer USA's election for one additional term of three years upon twelve months' prior notice. The annual rent for the last two years of the initial term is set at \$429,000 and the annual rent for the extension period, if elected, is set at \$468,000. Audit Committee Policy on Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditors

The Audit Committee pre-approves all audit and permissible non-audit services provided by the independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. Pre-approval is generally provided for up to one year, and any pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The independent registered public accounting firm and management are required to periodically report to the Audit Committee regarding the extent of services provided by the independent registered public accounting firm in accordance with the pre-approval, and the fees for the services performed to date.
