REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Participants and the Administrator of
West Contract Manufacturing Savings and Retirement Plan:

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of the West Contract Manufacturing Savings and Retirement Plan (the “Plan”) (formerly known as the Tech Group Puerto Rico Savings and Retirement Plan), as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the financial statements). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Plan’s management. Our responsibility is to express an opinion on the Plan’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Supplemental Information

The supplemental information in the accompanying schedule of assets (held at end of year) as of December 31, 2017, has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

WEST CONTRACT MANUFACTURING
SAVINGS AND RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2017 AND 2016

NOTE A - Description of Plan

The following description of the West Contract Manufacturing Savings and Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s current provisions.

General

The Plan is a defined contribution plan that was established January 1, 1993, and subsequently amended. Full-time employees of West Contract Manufacturing LLC (the “Employer”) (formerly known as (mfg.) Tech Group Puerto Rico LLC) who are at least eighteen years of age are immediately eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended, and is designed to comply with Section 1081.01(d) of the Puerto Rico Internal Revenue Code of 2011 (the “Code”), as amended. Effective November 30, 2016, the name of the Plan was changed from the “Tech Group Puerto Rico Savings and Retirement Plan” to the “West Contract Manufacturing Savings and Retirement Plan.”

Master Trust

Effective January 3, 2011, West Pharmaceutical Services, Inc. (the “Company” or “Plan Administrator”) entered into an agreement with Vanguard Fiduciary Trust Company (“VFTC”) to form a master trust (“Master Trust”) to hold certain investments of the Plan and the West Pharmaceutical Services, Inc. 401(k) Plan on a commingled basis, for investment purposes only. The sole investment in the Master Trust is common stock of the Company (the “West Stock Fund”). See Note C for more information regarding the Master Trust.

Automatic Enrollment

Employees hired on January 1, 2017 or later are automatically enrolled in the Plan 30 days following their date of hire at a pre-tax contribution rate of 3% of eligible compensation. Employees may choose to decline participation by contacting The Vanguard Group, recordkeeper for the Plan.

Employee Contributions

Eligible employees may contribute up to 50% of pre-tax annual compensation and 10% of after-tax annual compensation, provided such contributions do not exceed the limits of the Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Company Matching Contributions

The Company matches 100% of the first 3% of compensation that a participant contributes to the Plan and 50% of the next 2% of compensation contributed to the Plan.

Non-Elective Company Contributions

Effective January 1, 2017, employees were entitled to receive a Non-Elective Company Contribution equal to 1% of their eligible compensation. The Non-Elective Company Contribution will be 2% in 2018 and 3% in 2019. Employees must be employed on December 31 or have terminated employment during the year due to death, total and permanent disability or have reached age 55 with at least 10 years of service to be eligible for the annual Non-Elective Company

Contribution.

The Non-Elective Company Contribution is made annually and will be allocated to participant accounts no later than the March 15 that follows the end of the previous calendar year.

Investments

The Plan offers mutual funds and the West Stock Fund as investment options for participants. The Company's Investment Committee periodically reviews and may make changes to the investment alternatives available.

Participants may change or transfer their investment options at any time. Participants may not allocate future contributions to, or make purchases into, the West Stock Fund if their current balance in the fund exceeds 20% of their total account balance. Company matching contributions and Non-Elective Company Contributions are invested according to the investment allocations made for participant contributions.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each account is self-directed and is credited with the participant's contribution, the Company's matching contribution and any applicable Non-Elective Company Contribution, and an allocation of Plan earnings (losses). Participant accounts are charged with certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and Company matching contributions, plus earnings thereon. Participants become vested in the Non-Elective Company Contribution after completing three years of service with the Company. All contributions are 100% vested when a participant reaches age 65, dies or becomes totally and permanently disabled.

Notes Receivable from Participants

Participants may borrow from their fund accounts a maximum amount equal to the lesser of \$50,000 or 50% of the vested portion of their account balances. The loans are secured by the balance in the participant's account. Loan terms generally range from one to five years, except for loans to purchase a principal residence which may be repaid over fifteen years, and bear interest at the prevailing interest rate determined by the Plan Administrator on the date the loan is made. At December 31, 2017 and 2016, the interest rate on outstanding loans ranged from 4.25% to 5.25% and 4.25% to 4.50%, respectively. Principal and interest are paid ratably through payroll deductions.

Benefits

Benefits are payable upon termination of a participant's employment, or termination of service due to death, disability or retirement. Participants may make annual in-service withdrawals in accordance with the provisions outlined in the Plan document. Generally, any benefit due shall be paid as soon as administratively feasible.

NOTE B - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying footnotes. Actual results could differ from these estimates.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. See Note D for discussion of fair value measurements, with the exception of the Master Trust, which is discussed in Note C. Purchases and sales of investments are recorded on a trade-date basis. The Plan presents in its statements of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of both realized and unrealized gains and losses.

Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Interest income is accrued when earned.

Payment of Benefits

Benefits are recorded when paid. Delinquent notes receivable from participants are treated as distributions based upon the terms of the Plan document.

Plan Expenses

Administrative expenses of the Plan are paid jointly by participants and the Employer.

New Accounting Pronouncement

In February 2017, the Financial Accounting Standards Board issued guidance to clarify presentation requirements for an employee benefit plan's interest in a master trust. This guidance also requires more detailed disclosures of an employee benefit plan's interest in a master trust. Entities should apply these amendments retrospectively to each period for which financial statements are presented. This guidance is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. Management believes that the adoption of this guidance will not have a material impact on the Plan's financial statements.

NOTE C - Master Trust

As mentioned in Note A, a portion of the Plan's investments are held in a Master Trust, commingled with assets of another Company-sponsored retirement plan. The sole investment in the Master Trust is the West Stock Fund.

The total fair value of the Master Trust's investment in the West Stock Fund, as of December 31, 2017 and 2016, was \$44,560,650 and \$45,767,757, respectively. The West Stock Fund is valued at the year-end unit closing price, which is comprised of the quoted market price of the Company stock plus an uninvested cash portion, which is considered a Level 1 fair value measurement.

The Plan's share of the Master Trust's net assets and investment activities is based upon the total of each individual participant's share of the Master Trust. The Plan's interest in the net assets of the Master Trust was 0.30% and 0.23% as of December 31, 2017 and 2016, respectively.

NOTE D - Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

The following fair value hierarchy classifies the inputs to valuation techniques used to measure fair value into one of three levels:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs that reflect the reporting entity's own assumptions.

The following tables summarize the Plan's investments, excluding the Master Trust, that are measured at fair value on a recurring basis:

| | Basis of Fair Value Measurements | | | Balance at December 31, 2017 |
|---------------------------|----------------------------------|---------|---------|------------------------------|
| | Level 1 | Level 2 | Level 3 | |

The valuation methodologies used for assets measured at fair value are as follows:

Mutual funds: Valued at quoted market prices, which represent the net asset value (“NAV”) of shares held by the Plan at year-end.

NOTE E - Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

NOTE F - Related Party Transactions

The Plan invests in shares of mutual funds, which are managed by VFTC, a subsidiary of The Vanguard Group, Inc. VFTC acts as custodian for these investments, as well as the West Stock Fund, as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. In addition, loans to participants qualify as party-in-interest transactions.

NOTE G - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, participants’ accounts will be distributed in accordance with the provisions of the Plan.

NOTE H - Tax Status

The Plan obtained its latest determination letter on September 17, 1993, in which the Puerto Rico Department of Treasury (“Treasury”) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended and restated since receiving the determination letter. However, the Plan Administrator and the Plan’s tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan’s financial statements. On July 15, 2014, the Plan Administrator filed a request for a determination letter from the Treasury on the amended Plan, and is currently awaiting a response.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or Treasury. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2017, there were no uncertain positions taken or expected to be taken that

require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations prior to 2014.
