Item 8.01 Other Events

At today's Annual Meeting of Shareholders of CH Energy Group, Inc. (the "Company"), Steven V. Lant, Chairman of the Board, President and Chief Executive Officer of the Company will make the following comments:

"I'd like to now comment on our outlook for 2007:

On February 14, we announced earnings guidance for 2007, indicating we believed our earnings would probably be lower in 2007 than in 2006. One factor in thinking this - at the time - was the

effect of the extremely warm winter weather we experienced in December and January, which depressed sales of natural gas and fuel oil, in particular.

I'm pleased to say that the weather pattern changed dramatically, and we no longer expect a negative effect on earnings from the mild winter. Later this week, we will adjust our earnings guidance accordingly. I now believe 2007 EPS will come in close to the 2006 level, despite the effect of a lower allowed return on equity at Central Hudson and fewer one-time and unusual contributions to earnings than we had in 2006. More hopefully, I already see sources of earnings:

- o Griffith acquisitions
- o Lyonsdale profitability
- o Central Hudson rate base growth

Already I see sources of earnings growth for 2008. They include three recent acquisitions by Griffith, which increased its customer base by 17% and which we expect to be accretive to earnings in 2008. We expect greater profitability from our Lyonsdale biomass plant, as we receive revenue from NYSERDA for providing renewable energy. And I expect increasing earnings from Central Hudson as its rate base and customer base grows and as the three year rate increase continues to phase in."

The Company's Annual Meeting of Shareholders will be held on Tuesday, April 24, 2007 beginning at 10:30 a.m. eastern time. The meeting, including Mr. Lant's full remarks, will be webcast live in listen-only mode, and can be accessed in the Investor Relations section of the Company's website at www.CHEnergyGroup.com. The webcast will be available for replay after April 24 for approximately 30 days.
