AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.

(Exact Name of Registrant as Specified in Its Charter)

Delaware

(State or Other Jurisdiction of Incorporation or
Organization)

36-3161171

(I.R.S. Employer Identification No.)

One Dauch Drive, Detroit, Michigan

(Address of Principal Executive Offices)

48211-1198

(Zip Code)

(313) 758-2000

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one): Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of October 25, 2007, the latest practicable date, the number of shares of the registrant's Common Stock, par value \$0.01 per share, outstanding was 53,514,588 shares.

Internet Website Access to Reports

The website for American Axle & Manufacturing Holdings, Inc. is www.aam.com. Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13 or 15(d) of the Exchange Act are available free of charge through our website as soon as reasonably practicable after they are electronically filed with, or furnished to, the Securities and Exchange Commission. The Securities and Exchange Commission also maintains a website at www.sec.gov that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC.

CAUTIONARY STATEMENTS

Certain statements in this Quarterly Report on Form 10-Q (Quarterly Report) are forward-looking in nature and relate to trends and events that may affect our future financial position and operating results. Such statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. The terms “will,” “expect,” “anticipate,” “intend,” “project” and similar words or expressions are intended to identify forward-looking statements. These statements speak only as of the date of this Quarterly Report. The statements are based on our current expectations, are inherently uncertain, are subject to risks and should be viewed with caution. Actual results and experience may differ materially from the forward-looking statements as a result of many factors, including, but not limited to:

- reduced purchases of our products by General Motors Corporation (GM), Chrysler LLC (Chrysler) or other customers;
- reduced demand for our customers’ products (particularly light trucks and SUVs produced by GM and Chrysler);
 - our ability and our suppliers’ ability to maintain satisfactory labor relations and avoid work stoppages;
 - our customers’ and their suppliers’ ability to maintain satisfactory labor relations and avoid work stoppages;
 - our ability to achieve cost reductions through ongoing restructuring actions;
 - additional restructuring actions that may occur;
 - our ability to achieve the level of cost reductions required to sustain global cost competitiveness;
 - supply shortages or price increases in raw materials, utilities or other operating supplies;
- our ability and our customers’ and suppliers’ ability to successfully launch new product programs on a timely basis;
 - our ability to attract new customers and programs for new products;
 - our ability to develop and produce new products that reflect market demand;
 - our ability to respond to changes in technology or increased competition;
- adverse changes in laws, government regulations or market conditions including increases in fuel prices affecting our products or our customers’ products (including the Corporate Average Fuel Economy regulations);
- adverse changes in the economic conditions or political stability of our principal markets (particularly North America, Europe, South America and Asia);
- liabilities arising from legal proceedings to which we are or may become a party or claims against us or our products;
- risks of noncompliance with environmental regulations or risks of environmental issues that could result in unforeseen costs at our facilities;
-

availability of financing for working capital, capital expenditures, R&D or other general corporate purposes, including our ability to comply with financial covenants;

- our ability to attract and retain key associates;
- other unanticipated events and conditions that may hinder our ability to compete.

It is not possible to foresee or identify all such factors and we make no commitment to update any forward-looking statement or to disclose any facts, events or circumstances after the date hereof that may affect the accuracy of any forward-looking statement.

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2007 (Unaudited)

1. ORGANIZATION AND BASIS OF PRESENTATION

Organization American Axle & Manufacturing Holdings, Inc. (Holdings) and its subsidiaries (collectively, we, our, us or AAM) is a premier Tier I supplier to the automotive industry and a worldwide leader in the manufacture, engineering, design and validation of driveline and drivetrain systems and related components and chassis modules for light trucks, sport utility vehicles (SUVs), passenger cars and crossover vehicles. Driveline and drivetrain systems include components that transfer power from the transmission and deliver it to the drive wheels. Our driveline, drivetrain and related products include axles, chassis modules, driveshafts, power transfer units, transfer cases, chassis and steering components, driving heads, crankshafts, transmission parts and metal-formed products. In addition to locations in the United States (U.S.) (Indiana, Michigan, New York and Ohio), we have offices or facilities in Brazil, China, England, Germany, India, Japan, Luxembourg, Mexico, Poland, Scotland and South Korea.

Basis of Presentation We have prepared the accompanying interim condensed consolidated financial statements in accordance with the instructions to Form 10-Q under the Securities Exchange Act of 1934. These condensed consolidated financial statements are unaudited but include all adjustments which we consider necessary for a fair presentation of the information set forth herein. Results of operations for the periods presented are not necessarily indicative of the results for the full fiscal year.

Trade Payable Program Liability In 2007, we terminated our supplier payment program. As of September 30, 2007, there was no outstanding balance under this program.

Income Tax Expense (Benefit) Income tax expense (benefit) was an expense of \$2.9 million in the third quarter of 2007 and \$14.8 million in the first nine months of 2007 as compared to a benefit of \$49.0 million in the third quarter of 2006 and \$38.9 million in the first nine months of 2006. Our effective income tax rate was 18.2% in the third quarter of 2007 and 19.1% in the first nine months of 2007 as compared to a benefit of 43.8% in the third quarter of 2006 and 53.4% in the first nine months of 2006. The change in our tax rate is primarily the result of recognizing income tax expense for current income in 2007 as compared to the recognition of the income tax benefit for losses in 2006. In addition, the tax rate in 2007 reflects an increase in income in jurisdictions which carry lower overall effective tax rates.

The balance sheet at December 31, 2006 presented herein has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (GAAP) for complete consolidated financial statements.

In order to prepare the accompanying interim condensed consolidated financial statements, we are required to make estimates and assumptions that affect the reported amounts and disclosures in our interim condensed consolidated financial statements. Actual results could differ from those estimates.

For further information, refer to the audited consolidated financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2006.

Effect of New Accounting Standards In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" (FIN 48). FIN 48 clarifies the criteria for recognition of income tax benefits in accordance with Statement of Financial Accounting Standards (SFAS) No. 109, "Accounting for Income Taxes." We adopted FIN 48 on January 1, 2007 and the impact of adoption was not

material. As of the date of adoption, our unrecognized tax benefits attributable to uncertain tax positions were approximately \$26 million. We remain subject to income tax examinations in the U.S. for years after 2003 and in Mexico for years after 2001.

Table of Contents

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

In September 2006, the FASB issued Statement No. 157, “*Fair Value Measurements*” (SFAS 157). This statement clarifies the definition of fair value and establishes a fair value hierarchy. SFAS 157 is effective for us on January 1, 2008 and we are currently assessing the impact of this statement.

In February 2007, the FASB issued Statement No. 159, “*The Fair Value Option for Financial Assets and Financial Liabilities*” (SFAS 159). This statement permits entities to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. SFAS 159 is effective for us on January 1, 2008 and we are currently assessing the impact of this statement.

2. RESTRUCTURING ACTIONS

In 2006, we took certain restructuring actions to realign and resize our production capacity and cost structure. As part of these actions, we incurred charges for one-time termination benefits. At December 31, 2006, our liability related to these benefits was \$36.4 million.

In 2007, we incurred charges for one-time termination benefits related to ongoing restructuring actions. In addition, we continue to make payments related to the charges incurred in 2006. A summary of this activity for the nine months ended September 30, 2007 is shown below (in millions):

Accrual as of December 31, 2006	Charges	Cash Utilization	Non-Cash Accrual Adjustments	Accrual as of September 30, 2007
\$36.4	\$12.3	\$(31.9)	\$(2.5)	\$14.3

In September 2007, we offered the Buffalo Separation Program (BSP) to all hourly associates represented by the United Automobile, Aerospace and Agricultural Implement Workers of America (UAW) at our Buffalo Gear, Axle & Linkage facility in Buffalo, New York. This voluntary separation program offered retirement or buyout incentives to approximately 650 eligible hourly associates. These associates have until November 15, 2007 to decide whether to participate. As of September 30, 2007, approximately 20 associates have elected early participation in this program and have waived the requisite consideration period. We recorded expense of \$2.0 million for the estimated postemployment costs of these associates in the third quarter of 2007. We will record the remaining liability for the BSP when the final acceptance rates are known in the fourth quarter of 2007.

In 2007, approximately 90 associates represented by the International Association of Machinists (IAM) at our Tonawanda, New York and Detroit, Michigan facilities participated in a voluntary separation incentive program (VSIP) and elected to terminate employment with AAM. We recorded expense of \$7.4 million for the estimated postemployment costs of this VSIP in 2007 and we paid \$6.2 million of these costs as of September 30, 2007. Of the remaining one-time termination benefit charges recorded in the first nine months of 2007, \$2.9 million related to service earned in the period for estimated future transition payments to certain salaried associates who will terminate employment on or around December 31, 2007.

We expect to make approximately \$7 million in payments related to the remaining restructuring accrual in the fourth quarter of 2007. We will continue to make payments related to this accrual through 2010.

In addition to the one-time termination benefits, we have also incurred charges related to the redeployment of assets to support ongoing capacity utilization initiatives. For the three and nine months ended September 30, 2007, we have

expensed \$5.7 million and \$7.2 million, respectively.

6

Table of Contents

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3. SUPPLEMENTAL UNEMPLOYMENT BENEFITS

In the third quarter of 2006, we recorded a \$91.2 million charge to cost of sales relating to supplemental unemployment benefits (SUB) estimated to be payable to the UAW represented associates who are expected to be permanently idled through the end of the collective bargaining agreement that expires in February 2008. The collective bargaining agreement between AAM and the UAW contains a SUB provision, pursuant to which we are required to pay eligible idled workers certain benefits. As of December 31, 2006, the liability for SUB was \$13.2 million.

In the first nine months of 2007, we paid \$8.1 million of SUB to workers deemed to be permanently idled and adjusted our accrual to reflect our current estimate of SUB costs to be paid to these workers through February 2008. At September 30, 2007, the accrual for SUB was \$6.1 million.

4. INVENTORIES

We state our inventories at the lower of cost or market. The cost of our U.S. inventories is determined principally using the last-in, first-out method (LIFO). The cost of our foreign and indirect inventories is determined principally using the first-in, first-out method (FIFO). We classify indirect inventories, which include perishable tooling, machine repair parts and other materials consumed in the manufacturing process but not incorporated into our finished products, as raw materials. When we determine that our gross inventories exceed usage requirements, or if inventories become obsolete or otherwise not saleable, we record a provision for such loss as a component of our inventory accounts.

Inventories consist of the following:

	September 30,	December 31,
	2007	2006
	<i>(in millions)</i>	
Raw materials and work-in-progress	\$ 244.7	\$ 220.6
Finished goods	58.9	26.3
Gross inventories	303.6	246.9
LIFO reserve	(15.4)	(13.8)
Other inventory valuation reserves	(40.1)	(34.7)
Inventories, net	\$ 248.1	\$ 198.4

Table of Contents

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

5. LONG-TERM DEBT

Long-term debt consists of the following:

	September 30, 2007	December 31, 2006
<i>(in millions)</i>		
Revolving Credit Facility	\$ -	\$ 100.0
7.875% Notes	300.0	-
5.25% Notes, net of discount	249.8	249.8
2.00% Convertible Notes	2.7	2.7
Term Loan due 2010	-	250.0
Term Loan due 2012	250.0	-
Uncommitted lines of credit	-	33.5
Foreign credit facilities and other	40.8	33.7
Capital lease obligations	2.3	2.5
Long-term debt	\$ 845.6	\$ 672.2

The Revolving Credit Facility provides up to \$600.0 million of revolving bank financing commitments through April 2010 and bears interest at rates based on LIBOR or an alternate base rate, plus an applicable margin. At September 30, 2007, we had \$570.2 million available under the Revolving Credit Facility. This availability reflects a reduction of \$29.8 million for standby letters of credit issued against the facility.

The Revolving Credit Facility provides back-up liquidity for our foreign credit facilities and uncommitted lines of credit. We intend to use the availability of long-term financing under the Revolving Credit Facility to refinance any current maturities related to such debt agreements that are not otherwise refinanced on a long-term basis in their respective markets. Accordingly, we have classified \$37.8 million of current maturities as long-term debt.

In the first quarter of 2007, we issued \$300.0 million of 7.875% senior unsecured notes due 2017 (7.875% Notes). Net proceeds from these notes were used for general corporate purposes, including payment of amounts outstanding under our Revolving Credit Facility. We paid debt issuance costs of \$5.2 million related to the 7.875% Notes.

The 2.00% Convertible Notes, as of the date of this filing, are convertible into cash at the option of the holder.

On June 14, 2007, we entered into a \$250.0 million senior unsecured term loan that matures in June 2012 (Term Loan due 2012). Borrowings under the Term Loan due 2012 bear interest payable at rates based on LIBOR or an alternate base rate, plus an applicable margin. Proceeds from the Term Loan due 2012 were used for general corporate purposes, including the payment of amounts outstanding under the senior unsecured term loan scheduled to mature in April 2010 (Term Loan due 2010). We paid \$2.3 million in debt issuance costs related to the Term Loan due 2012.

On June 28, 2007, we voluntarily prepaid amounts outstanding under our Term Loan due 2010. Upon repayment of the Term Loan due 2010, we expensed \$3.0 million of unamortized debt issuance costs and \$2.5 million of prepayment premiums. We had been amortizing the debt issuance costs over the expected life of the borrowing.

Table of Contents

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

We have hedged a portion of our interest rate risk by entering into an interest rate swap with a notional amount of \$200.0 million as of September 30, 2007. The notional amount reduces to \$100.0 million in 2008 and expires in April 2010. The interest rate swap converts variable rate financing based on 3-month LIBOR into fixed U.S. dollar rates.

In the third quarter of 2007, we had access to \$60.0 million of uncommitted bank lines of credit, all of which was available at September 30, 2007.

We utilize local credit facilities to finance the operations of certain foreign subsidiaries. At September 30, 2007, \$40.8 million was outstanding under these facilities and an additional \$115.6 million was available.

The weighted-average interest rate of our long-term debt outstanding at September 30, 2007 was 7.8% as compared to 8.0% at December 31, 2006.

6. EMPLOYEE BENEFIT PLANS

The components of net periodic benefit cost consist of the following:

	Pension Benefits			
	Three months ended		Nine months ended	
	September 30,		September 30,	
	2007	2006	2007	2006
<i>(in millions)</i>				
Service cost	\$ 5.4	\$ 8.4	\$ 16.1	\$ 25.2
Interest cost	8.6	8.4	25.9	25.1
Expected asset return	(9.5)	(7.9)	(28.5)	(23.6)
Amortized loss	0.4	1.4	1.1	4.0
Amortized prior service cost	0.6	0.7	1.8	2.3
Special termination benefits	0.3	-	0.7	-
Net periodic benefit cost	\$ 5.8	\$ 11.0	\$ 17.1	\$ 33.0

	Other Postretirement Benefits (OPEB)			
	Three months ended		Nine months ended	
	September 30,		September 30,	
	2007	2006	2007	2006
<i>(in millions)</i>				
Service cost	\$ 6.5	\$ 10.3	\$ 19.4	\$ 30.9
Interest cost	7.0	8.1	21.0	24.1

Amortized prior service credit	(0.8)	(0.4)	(2.3)	(1.1)
Special termination benefits	0.4	-	0.4	-
Net periodic benefit cost	\$ 13.1	\$ 19.4	\$ 38.5	\$ 58.1

Table of Contents

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

We adopted the measurement date provisions of FASB Statement No. 158, “*Employers Accounting for Defined Benefit Pension and Other Postretirement Plans*,” as of January 1, 2007, which requires companies to measure a plan’s assets and obligations that determine its funded status as of the end of the fiscal year. As a result of this adoption, we recorded a net transition adjustment of \$12.0 million in the first quarter of 2007 to the opening retained earnings balance related to the net periodic benefit cost for the period between September 30, 2006 and January 1, 2007.

In the second quarter of 2007, we recorded an adjustment related to the completion of our valuation for pension and other postretirement benefit assets and obligations as of January 1, 2007. This adjustment resulted in an increase in postretirement benefits and other long-term liabilities of \$15.7 million, a decrease in accumulated other comprehensive income of \$10.2 million and an increase in deferred income taxes of \$5.5 million.

In the first nine months of 2007, we recorded \$1.1 million of expense for special termination benefits related to ongoing restructuring activities. In the third quarter of 2007, we offered the Buffalo Separation Program to all hourly associates represented by the UAW at our Buffalo Gear, Axle & Linkage facility in Buffalo, New York. Depending on the acceptance rate of this program, we expect to record special termination benefits and a curtailment of certain benefits under our U.S. hourly defined benefit pension and OPEB plans in the fourth quarter of 2007.

7. COMPREHENSIVE INCOME (LOSS)

Comprehensive income consists of the following:

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2007	2006	2007	2006
	<i>(in millions)</i>			
Net income (loss)	\$ 13.1	\$ (62.9)	\$ 62.5	\$ (33.9)
Defined benefit plans, net of tax	0.2	-	(9.6)	-
Foreign currency translation adjustments, net of tax	5.8	2.2	16.2	8.2
Loss on derivatives, net of tax	(1.5)	(1.2)	(0.7)	(2.4)
Comprehensive income (loss)	\$ 17.6	\$ (61.9)	\$ 68.4	\$ (28.1)

Table of Contents

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

8. EARNINGS (LOSS) PER SHARE (EPS)

The following table sets forth the computation of our basic and diluted EPS:

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2007	2006	2007	2006
<i>(in millions, except per share data)</i>				
Numerator				
Net income (loss)	\$ 13.1	\$ (62.9)	\$ 62.5	\$ (33.9)
Denominator				
Basic shares outstanding -				
Weighted-average shares outstanding	51.3	50.3	51.0	50.3
Effect of dilutive securities				
Dilutive stock-based compensation	1.7	-	1.6	-
Diluted shares outstanding -				
Adjusted weighted-average shares after assumed conversions	53.0	50.3	52.6	50.3
Basic EPS	\$ 0.26	\$ (1.25)	\$ 1.23	\$ (0.67)
Diluted EPS	\$ 0.25	\$ (1.25)	\$ 1.19	\$ (0.67)

Basic and diluted loss per share in the three and nine months ended September 30, 2006 are the same because the effect of potential dilutive securities would have been antidilutive. This effect would have been 1.0 million and 0.9 million shares for the three and nine months ended September 30, 2006, respectively.

Certain exercisable stock options were excluded in the computations of diluted EPS because the exercise price of these options was greater than the average period market prices. The number of stock options outstanding, which were not included in the calculation of diluted EPS, was 1.9 million at September 30, 2007 and 4.7 million at September 30, 2006. The ranges of exercise prices related to the excluded exercisable stock options were \$26.02 - \$40.83 at September 30, 2007 and \$18.40 - \$40.83 at September 30, 2006.

AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

9. SHARE-BASED COMPENSATION

On March 14, 2007, we granted approximately 0.3 million stock options to executive officers under our 1999 Stock Incentive Plan. These options will be expensed over the expected vesting period, which is three years.

We estimated the fair value of our employee stock options on the date of grant using the Black-Scholes option-pricing model with the following assumptions:

	2007	2006
Expected volatility	44.26 %	41.31 %
Risk -free interest rate	4.46 %	4.78 %
Dividend yield	2.30 %	3.70 %
Expected life of options	8 years	7 years
Weighted-average grant-date fair value	\$ 11.13	\$ 5.33

We also award performance accelerated restricted stock and restricted stock units (PARS and RSUs, respectively) under our 1999 Stock Incentive Plan. We granted approximately 0.8 million PARS and 0.1 million RSUs on March 14, 2007 with a grant-date fair value of \$26.02. The PARS and RSUs vest over three to five years contingent upon the satisfaction of future financial performance targets specified by the awards. The unearned compensation associated with the PARS and RSUs is expensed over the expected vesting period of each grant.

10. LEGAL PROCEEDINGS

In the third quarter of 2006, we recognized a favorable outcome of \$9.1 million, associated with the resolution of various legal proceedings and claims, net of costs incurred to resolve these matters. A benefit of \$9.8 million resulting from this outcome was recorded to Other Income; other costs incurred to resolve these matters were recognized in cost of sales and selling, general and administrative expenses.

11. SUPPLEMENTAL GUARANTOR CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

Holdings has no significant assets other than its 100% ownership in AAM, Inc. and no direct subsidiaries other than AAM, Inc. Holdings fully and unconditionally guarantees the 5.25% Notes and the 7.875% Notes, which are senior unsecured obligations of AAM, Inc. The 2.00% Convertible Notes are senior unsecured obligations of Holdings and are fully and unconditionally guaranteed by AAM, Inc.

The following Condensed Consolidating Financial Statements are included in lieu of providing separate financial statements for Holdings and AAM, Inc. These Condensed Consolidating Financial Statements are prepared under the equity method of accounting whereby the investments in subsidiaries are recorded at cost and adjusted for the parent's share of the subsidiaries' cumulative results of operations, capital contributions and distributions, and other equity changes.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion and analysis (MD&A) should be read in conjunction with the unaudited condensed consolidated financial statements and notes appearing elsewhere in this Quarterly Report and our Annual Report on Form 10-K for the year ended December 31, 2006.

Unless the context otherwise requires, references to "we," "our," "us" or "AAM" shall mean collectively (i) American Axle & Manufacturing Holdings, Inc. (Holdings), a Delaware corporation, and (ii) American Axle & Manufacturing, Inc. (AAM, Inc.), a Delaware corporation, and its direct and indirect subsidiaries. Holdings has no subsidiaries other than AAM, Inc.

COMPANY OVERVIEW

We are a premier Tier I supplier to the automotive industry and a worldwide leader in the manufacture, engineering, design and validation of driveline and drivetrain systems and related components and chassis modules for light trucks, sport utility vehicles (SUVs), passenger cars and crossover vehicles. Driveline and drivetrain systems include components that transfer power from the transmission and deliver it to the drive wheels. Our driveline, drivetrain and related products include axles, chassis modules, driveshafts, power transfer units, transfer cases, chassis and steering components, driving heads, crankshafts, transmission parts and metal-formed products.

We are the principal supplier of driveline components to General Motors Corporation (GM) for its rear-wheel drive (RWD) light trucks and SUVs manufactured in North America, supplying substantially all of GM's rear axle and front four-wheel drive/all-wheel drive (4WD/AWD) axle requirements for these vehicle platforms. Sales to GM were approximately 77% of our total net sales in the first nine months of 2007 as compared to 76% for the full-year 2006.

We are the sole-source supplier to GM for certain axles and other driveline products for the life of each GM vehicle program covered by a Lifetime Program Contract (LPC). Substantially all of our sales to GM are made pursuant to the LPCs. The LPCs have terms equal to the lives of the relevant vehicle programs or their respective derivatives, which typically run 6 to 12 years, and require us to remain competitive with respect to technology, design and quality. We have been successful in competing, and we will continue to compete for future GM business upon the expiration of the LPCs.

We are also the principal supplier of driveline system products for the Chrysler Group's heavy-duty Dodge Ram full-size pickup trucks (Dodge Ram program) and its derivatives. Sales to Chrysler LLC (Chrysler) were approximately 12% of our total net sales in the first nine months of 2007 as compared to 14% for the full-year 2006.

In addition to GM and Chrysler, we supply driveline systems and other related components to PACCAR Inc., Ford Motor Company, SsangYong Motor Company, Harley-Davidson and other original equipment manufacturers (OEMs) and Tier I supplier companies such as The Timken Company, Jatco Ltd., Koyo Machine Industries Co., Ltd. and Hino Motors, Ltd. Our net sales to customers other than GM were \$562.1 million in the first nine months of 2007 as compared to \$561.4 million for the first nine months of 2006.

Table of Contents

RESULTS OF OPERATIONS — THREE MONTHS ENDED SEPTEMBER 30, 2007 AS COMPARED TO THREE MONTHS ENDED SEPTEMBER 30, 2006

Net Sales Net sales were \$774.3 million in the third quarter of 2007 as compared to \$701.2 million in the third quarter of 2006.

As compared to the third quarter of 2006, our sales in the third quarter of 2007 reflect approximately flat production volumes for the major full-size truck and SUV programs we currently support for GM and Chrysler and an increase of approximately 25% in products supporting GM's mid-size light truck and SUV programs.

Our content-per-vehicle (as measured by the dollar value of our products supporting GM's North American light truck platforms and the Dodge Ram program) increased 8.2% to \$1,303 in the third quarter of 2007 as compared to \$1,204 in the third quarter of 2006. The increase is due primarily to the impact of new AAM content appearing on GM's full-size pickup trucks. The increase in content-per-vehicle also reflects an increase of 4WD/AWD penetration rate to 62.8% in the third quarter of 2007 as compared to 58.0% in the third quarter of 2006.

Gross Profit (Loss) Gross profit (loss) was a profit of \$80.7 million in the third quarter of 2007 as compared to a loss of \$62.0 million in the third quarter of 2006. Gross margin was 10.4% in the third quarter of 2007 as compared to a negative 8.8% in the third quarter of 2006. The increase in gross profit and gross margin in the third quarter of 2007 reflects the impact of higher sales, productivity gains and structural cost reductions resulting from the special attrition program and other ongoing restructuring actions.

In the third quarter of 2007, we expensed \$1.0 million of supplemental unemployment benefits and other related benefit costs for associates on layoff as compared to \$113.9 million in the third quarter of 2006. The charges in the third quarter of 2006 included a special charge of \$91.2 million relating to supplemental unemployment benefits estimated to be payable to UAW represented associates who were expected to be permanently idled through the end of the current collective bargaining agreement that expires in February 2008.

Gross profit in the third quarter of 2007 reflects approximately \$7.8 million in special charges, which includes \$5.7 million of costs related to the redeployment of assets to support ongoing capacity utilization initiatives and \$2.1 million of costs related to incremental attrition program activity, net of accrual adjustments. The increase in gross profit was partially offset by an increase in non-cash expenses related to depreciation and stock-based compensation. The gross profit in the third quarter of 2007 also reflects an estimated \$2.8 million impact of lost sales and other costs and expenses related to the work stoppage experienced by GM during the last week of the quarter. Gross profit in the third quarter of 2006 includes a special charge of \$1.9 million related to estimated postemployment costs for associates at our European operations.

Selling, General and Administrative Expenses (SG&A) SG&A (including research and development (R&D)) was \$52.0 million or 6.7% of net sales in the third quarter of 2007 as compared to \$48.0 million or 6.8% of net sales in the third quarter of 2006. The increase in SG&A in the third quarter of 2007 reflects higher profit sharing accruals and stock-based compensation expense due to increased profitability and stock price appreciation. R&D spending was \$22.2 million in the third quarter of 2007 as compared to \$20.5 million in the third quarter of 2006.

Operating Income (Loss) Operating income (loss) was income of \$28.7 million in the third quarter of 2007 as compared to a loss of \$110.0 million in the third quarter of 2006. Operating margin was 3.7% in the third quarter of 2007 as compared to negative 15.7% in the third quarter of 2006. The increases in operating income and operating margin were due to the factors discussed in Gross Profit (Loss) and SG&A.

Net Interest Expense Net interest expense was \$11.5 million in the third quarter of 2007 as compared to \$11.7 million in the third quarter of 2006.

Other Income (Expense) Other income (expense) was an expense of \$1.2 million in the third quarter of 2007 compared to income of \$10.1 million in the third quarter of 2006. Other income (expense) in the third quarter of 2006 includes \$9.8 million associated with the resolution of legal proceedings and claims during the third quarter of 2006, net of costs incurred to resolve these matters.

Income Tax Expense (Benefit) Income tax expense (benefit) was an expense of \$2.9 million in the third quarter of 2007 as compared to a benefit of \$49.0 million in the third quarter of 2006. Our effective income tax rate was 18.2% in the third quarter of 2007 as compared to a benefit of 43.8% in the third quarter of 2006. The change in our tax rate is primarily the result of recognizing income tax expense for current income in the third quarter of 2007 as compared to the recognition of the income tax benefit for losses in the third quarter of 2006. In addition, the tax rate in the third quarter of 2007 reflects an increase in income in jurisdictions which carry lower overall effective tax rates.

Net Income (Loss) and Earnings (Loss) Per Share (EPS) Net income (loss) was income of \$13.1 million in the third quarter of 2007 as compared to a loss of \$62.9 million in the third quarter of 2006. Diluted earnings (loss) per share were earnings of \$0.25 in the third quarter of 2007 as compared to a loss of \$1.25 in the third quarter of 2006. Net income (loss) and EPS for the third quarters of 2007 and 2006 were primarily impacted by the factors discussed in Gross Profit (Loss), SG&A and Other Income (Expense).

Table of Contents

RESULTS OF OPERATIONS — NINE MONTHS ENDED SEPTEMBER 30, 2007 AS COMPARED TO NINE MONTHS ENDED SEPTEMBER 30, 2006

Net Sales Net sales were \$2,493.0 million in the first nine months of 2007 as compared to \$2,410.6 million in the first nine months of 2006.

As compared to the first nine months of 2006, our sales in the first nine months of 2007 reflect approximately flat production volumes for the major full-size truck and SUV programs we currently support for GM and Chrysler and a decrease of approximately 14% in products supporting GM's mid-size light truck and SUV programs.

Our content-per-vehicle (as measured by the dollar value of our products supporting GM's North American light truck platforms and the Dodge Ram program) increased 6.7% to \$1,291 in the first nine months of 2007 as compared to \$1,210 in the first nine months of 2006. The increase is due primarily to the impact of new AAM content appearing on GM's full-size pickup trucks. The increase in content-per-vehicle also reflects an increase in the 4WD/AWD penetration rate to 63.5% in the first nine months of 2007 as compared to 60.9% in the first nine months of 2006.

Gross Profit Gross profit was \$278.6 million in the first nine months of 2007 as compared to \$91.4 million in the first nine months of 2006. Gross margin was 11.2% in the first nine months of 2007 as compared to 3.8% in the first nine months of 2006. The increase in gross profit and gross margin in the first nine months of 2007 reflects the impact of higher sales, productivity gains and structural cost reductions resulting from the special attrition program and other ongoing restructuring actions.

In the first nine months of 2007, we expensed \$6.9 million of supplemental unemployment benefits and other related benefit costs for associates on layoff as compared to \$149.8 million in the first nine months of 2006. The charges in the first nine months of 2006 included a special charge of \$91.2 million relating to supplemental unemployment benefits estimated to be payable to UAW represented associates who were expected to be permanently idled through the end of the current collective bargaining agreement that expires in February 2008.

Gross profit in the first nine months of 2007 also includes approximately \$17.7 million in special charges, which includes \$7.2 million of costs related to the redeployment of assets to support ongoing capacity utilization initiatives and \$10.5 million of costs related to incremental attrition program activity, net of accrual adjustments. The increase in gross profit was partially offset by an increase in non-cash expenses related to depreciation and stock-based compensation. Gross profit in the first nine months of 2006 includes a special charge of \$1.9 million related to estimated postemployment costs for associates at our European operations.

Selling, General and Administrative Expenses (SG&A) SG&A (including research and development (R&D)) was \$155.1 million or 6.2% of net sales in the first nine months of 2007 as compared to \$145.9 million or 6.1% of net sales in the first nine months of 2006. The increase in SG&A in the first nine months of 2007 reflects higher profit sharing accruals and stock-based compensation expense due to increased profitability and stock price appreciation. R&D was \$61.9 million in the first nine months of 2007 as compared to \$60.6 million in the first nine months of 2006.

Operating Income (Loss) Operating income (loss) was income of \$123.5 million in the first nine months of 2007 as compared to a loss of \$54.5 million in the first nine months of 2006. Operating margin was 5.0% in the first nine months of 2007 as compared to negative 2.3% in the first nine months of 2006. The increases in operating income and operating margin were due to the factors discussed in Gross Profit and SG&A.

Net Interest Expense Net interest expense was \$40.8 million in the first nine months of 2007 as compared to \$27.0 million in the first nine months of 2006. The increase in net interest expense was principally due to higher interest rates and higher average outstanding borrowings.

Debt Refinancing and Redemption Costs We expensed \$5.5 million of unamortized debt issuance costs and premiums in the first nine months of 2007 related to the voluntary prepayment of our Term Loan due 2010. We had been amortizing the debt issuance costs over the expected life of the borrowing. This compares to \$2.7 million of unamortized debt issuance costs that we expensed in the first nine months of 2006, related to the cash conversion of a portion of our 2.00% Convertible Notes due 2024.

Other Income Other income in the first nine months of 2007 was \$0.1 million compared to income of \$11.4 million in the first nine months of 2006. Other income in the first nine months of 2006 includes a \$9.8 million benefit associated with the resolution of legal proceedings and claims during the third quarter of 2006, net of costs incurred to resolve these matters.

Income Tax Expense (Benefit) Income tax expense (benefit) was an expense of \$14.8 million in the first nine months of 2007 as compared to a benefit of \$38.9 million in the first nine months of 2006. Our effective income tax rate was 19.1% in the first nine months of 2007 as compared to a benefit of 53.4% in the first nine months of 2006. The change in our tax rate is primarily the result of recognizing income tax expense for current income in the first nine months of 2007 as compared to the recognition of the income tax benefit for losses in the first nine months of 2006. In addition, the tax rate for the first nine months of 2007 reflects an increase in income in jurisdictions which carry lower overall effective tax rates.

Net Income (Loss) and Earnings (Loss) Per Share (EPS) Net income (loss) was income of \$62.5 million in the first nine months of 2007 as compared to a loss of \$33.9 million in the first nine months of 2006. Diluted earnings (loss) per share were earnings of \$1.19 in the first nine months of 2007 as compared to a loss of \$0.67 in the first nine months of 2006. Net income (loss) and EPS for the first nine months of 2007 and 2006 were primarily impacted by the factors discussed in Gross Profit, SG&A, Net Interest Expense and Other Income.

Table of Contents

LIQUIDITY AND CAPITAL RESOURCES

Our primary liquidity needs are to fund capital expenditures, debt service obligations, working capital investments and our quarterly cash dividend program. We also need to fund ongoing attrition programs and may need to fund additional restructuring actions. We believe that operating cash flow, available cash balances and borrowings under our Revolving Credit Facility will be sufficient to meet these needs.

Operating Activities Net cash provided by operating activities was \$331.6 million in the first nine months of 2007 as compared to \$161.7 million in the first nine months of 2006. The primary factors impacting cash flow in the first nine months of 2007 as compared to the first nine months of 2006 were:

- higher net income;
- increased customer collections;
- cash payments related to attrition programs;
- lower operating lease payments;
- receipt of customer payments to implement customer capacity programs; and
- lower tax payments.

Our regulatory pension funding requirements in 2007 are less than \$5 million. At our discretion, we may contribute amounts in excess of these requirements. We expect our cash outlay for other postretirement benefit obligations in 2007 to be between \$5 million and \$10 million.

Buffalo Separation Program In September 2007, we offered the Buffalo Separation Program (BSP) to all hourly associates represented by the United Automobile, Aerospace and Agricultural Implement Workers of America (UAW) at our Buffalo Gear, Axle & Linkage facility in Buffalo, New York. This voluntary separation program offered retirement or buyout incentives to approximately 650 eligible hourly associates. These associates have until November 15, 2007 to decide whether to participate. As of September 30, 2007, approximately 20 associates have elected early participation in this program and have waived the requisite consideration period. We recorded expense of \$2.0 million for the estimated postemployment costs and \$0.7 million for special termination benefits related to these associates in the third quarter of 2007. We will record the remaining liability for the BSP when the final acceptance rates are known in the fourth quarter of 2007.

We could incur special charges of as much as \$85 million for the BSP, including pension and other postretirement benefit curtailments and special termination benefits. We could make as much as \$45 million of payments related to this program in the fourth quarter of 2007 and intend to utilize current cash balances to fund this program.

Investing Activities Capital expenditures were \$132.9 million in the first nine months of 2007 as compared to \$243.5 million in the first nine months of 2006. We expect our capital spending in 2007 to be in the range of \$200 million to \$210 million. These expenditures support our realignment and resizing initiatives, customer capacity programs, the future launch of passenger car and crossover vehicle programs within our new business backlog and the continued development of our facilities in China and Poland.

Financing Activities Net cash provided by financing activities was \$149.3 million in the first nine months of 2007 as compared to \$111.4 million in the first nine months of 2006. Total long-term debt outstanding increased \$173.4 million in the first nine months of 2007 to \$845.6 million as compared to \$672.2 million at year-end 2006.

In the first half of 2007, we issued \$300.0 million of 7.875% senior unsecured notes due 2017 (7.875% Notes). Net proceeds from these notes were used for general corporate purposes, including payment of amounts outstanding under our Revolving Credit Facility. We paid debt issuance costs of \$5.2 million related to the 7.875% Notes.

On June 14, 2007, we entered into a \$250.0 million senior unsecured term loan that matures in June 2012 (Term Loan due 2012). Borrowings under the Term Loan due 2012 bear interest payable at rates based on LIBOR or an alternate base rate, plus an applicable margin. Proceeds from the Term Loan due 2012 were used for general corporate purposes, including the payment of amounts outstanding under the unsecured term loan scheduled to mature in April 2010 (Term Loan due 2010). We paid \$2.3 million in debt issuance costs related to the Term Loan due 2012.

On June 28, 2007, we voluntarily prepaid amounts outstanding under our Term Loan due 2010. Upon repayment of the Term Loan due 2010, we expensed \$3.0 million of unamortized debt issuance costs and \$2.5 million of prepayment premiums. We had been amortizing the debt issuance costs over the expected life of the borrowing.

At September 30, 2007, we had \$570.2 million available under the Revolving Credit Facility. This availability reflects a reduction of \$29.8 million for standby letters of credit issued against the facility. We also utilize foreign credit facilities and uncommitted lines of credit to finance working capital needs. At September 30, 2007, \$40.8 million was outstanding and \$175.6 million was available under such agreements.

The weighted-average interest rate of our long-term debt outstanding in the first nine months of 2007 was 8.1% as compared to 6.8% for the year ended December 31, 2006.

Table of Contents

CYCLICALITY AND SEASONALITY

Our operations are cyclical because they are directly related to worldwide automotive production, which is itself cyclical and dependent on general economic conditions and other factors. Our business is also moderately seasonal as our major OEM customers historically have a two-week shutdown of operations in July and an approximate one-week shutdown in December. In addition, our OEM customers have historically incurred lower production rates in the third quarter as model changes enter production. Accordingly, our third quarter and fourth quarter results may reflect these trends.

LITIGATION AND ENVIRONMENTAL MATTERS

We are involved in various legal proceedings incidental to our business. Although the outcome of these matters cannot be predicted with certainty, we do not believe that any of these matters, individually or in the aggregate, will have a material adverse effect on our financial condition, results of operations or cash flows.

We are subject to various federal, state, local and foreign environmental and occupational safety and health laws, regulations and ordinances, including those regulating air emissions, water discharge, waste management and environmental cleanup. We will continue to closely monitor our environmental conditions to ensure that we are in compliance with all laws, regulations and ordinances. GM has agreed to indemnify and hold us harmless against certain environmental conditions existing prior to our purchase of the assets from GM on March 1, 1994. GM's indemnification obligations terminated on March 1, 2004 with respect to any new claims that we may have against GM. We have made, and will continue to make, capital and other expenditures (including recurring administrative costs) to comply with environmental requirements. Such expenditures were not significant in the first nine months of 2007, and we do not expect such expenditures to be significant for the remainder of 2007.

EFFECT OF NEW ACCOUNTING STANDARDS

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, "*Accounting for Uncertainty in Income Taxes*" (FIN 48). FIN 48 clarifies the criteria for recognition of income tax benefits in accordance with Statement of Financial Accounting Standards No. 109, "*Accounting for Income Taxes.*" We adopted FIN 48 on January 1, 2007 and the impact of adoption was not significant. As of the date of adoption, our unrecognized tax benefits attributable to uncertain tax positions were approximately \$26 million. We remain subject to income tax examinations in the U.S. for years after 2003 and in Mexico for years after 2001.

In September 2006, the FASB issued Statement No. 158, "*Employers Accounting for Defined Benefit Pension and Other Postretirement Plans*" (SFAS 158). This statement amends FASB Statement Nos. 87, 88, 106 and 132R. We adopted the balance sheet recognition provisions of SFAS 158 on December 31, 2006. The effective date for plan assets and benefit obligations to be measured as of the date of the fiscal year-end statement of financial position is January 1, 2008. We elected to early adopt the measurement date provisions on January 1, 2007. As a result, we recorded a transition adjustment of \$12.0 million in the first quarter of 2007 to the opening retained earnings balance related to the net periodic benefit cost for the period between September 30, 2006 and January 1, 2007.

In September 2006, the FASB issued Statement No. 157, "*Fair Value Measurements*" (SFAS 157). This statement clarifies the definition of fair value and establishes a fair value hierarchy. SFAS 157 is effective for us on January 1, 2008 and we are currently assessing the impact of this statement.

In February 2007, the FASB issued Statement No. 159, "*The Fair Value Option for Financial Assets and Financial Liabilities*" (SFAS 159). This statement permits entities to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. SFAS 159 is effective for us on January

1, 2008 and we are currently assessing the impact of this statement.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

MARKET RISK

Our business and financial results are affected by fluctuations in world financial markets, including interest rates and currency exchange rates. Our hedging policy has been developed to manage these risks to an acceptable level based on management's judgment of the appropriate trade-off between risk, opportunity and cost. We do not hold financial instruments for trading or speculative purposes.

Currency Exchange Risk Because a majority of our business is denominated in U.S. dollars, we currently do not have significant exposures relating to currency exchange risk. From time to time, we use foreign currency forward contracts to reduce the effects of fluctuations in exchange rates, primarily relating to the Mexican Peso, Euro, Pound Sterling, Brazilian Real and Canadian Dollar. At September 30, 2007, we had currency forward contracts with a notional amount of \$58.9 million outstanding.

Future business operations and opportunities, including the expansion of our business outside North America, may further increase the risk that cash flows resulting from these activities may be adversely affected by changes in currency exchange rates. If and when appropriate, we intend to manage these risks by utilizing local currency funding of these expansions and various types of foreign exchange contracts.

Interest Rate Risk We are exposed to variable interest rates on certain credit facilities. From time to time, we use interest rate hedging to reduce the effects of fluctuations in market interest rates. Generally, we designate interest rate swaps as effective cash flow hedges of the related debt and reflect the net cost of such agreement as an adjustment to interest expense over the lives of the debt agreements. We have hedged a portion of our interest rate risk by entering into an interest rate swap with a notional amount of \$200.0 million as of September 30, 2007. This notional amount reduces to \$100.0 million in December 2008 and expires in April 2010. The interest rate swap converts variable rate financing based on 3-month LIBOR into fixed U.S. dollar rates. The pre-tax earnings and cash flow impact of a one-percentage-point increase in interest rates (approximately 12.9% of our weighted-average interest rate at September 30, 2007) on our long-term debt outstanding at September 30, 2007 would be approximately \$0.9 million on an annualized basis.

Item 4. Controls and Procedures

Under the direction of our Chief Executive Officer and Chief Financial Officer, we evaluated our disclosure controls and procedures and internal control over financial reporting and concluded that (1) our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) were effective as of September 30, 2007, and (2) no change in internal control over financial reporting occurred during the quarter ended September 30, 2007 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****Item 1A. Risk Factors**

There were no material changes from the risk factors previously disclosed in our December 31, 2006 Form 10-K.

Item 2. Changes in Securities, Use of Proceeds and Issuer Purchases of Equity Securities

In the third quarter of 2007, the Company withheld and repurchased shares to pay taxes due upon the vesting of certain individuals' restricted stock. The following table provides information about our equity security purchases during the quarter ended September 30, 2007:

ISSUER PURCHASES OF EQUITY SECURITIES

Period	Total Number of Shares (Or Units) Purchased	Average Price Paid per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
July 2007	66,666	\$28.72	-	-
August 2007	937	\$19.45	-	-
September 2007	-	-	-	-

Item 6. Exhibits

Exhibits required by Item 601 of Regulation S-K are listed in the Exhibit Index.
