SONICS & MATERIALS, INC.  
NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS  
September 30, 2001  
(Unaudited)

NOTE 1: BASIS OF PRESENTATION

The accompanying financial statements for the interim periods are unaudited and reflect all adjustments (consisting only of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial position and operating results for the interim periods. These financial statements should be read in conjunction with the financial statements and notes thereto, together with the management's discussion and analysis, contained on Form 10-KSB for the year ended June 30, 2001. The results of operations for the three months ended September 30, 2001 are not necessarily indicative of the results for the entire fiscal year ending June 30, 2002.

The accompanying financial statements reflect the consolidated operations of Sonics & Materials, Inc., and its wholly-owned subsidiary Tooltex, Inc. through the date of the sale of 90% of the common stock of Tooltex, Inc. on August 21, 2001. All significant intercompany accounts and transactions have been

## Edgar Filing: SONICS & MATERIALS INC - Form 10QSB

eliminated in consolidation.

### NOTE 2: SALE OF TOOLTEX STOCK

On August 21, 2001, the Company sold a 90% interest in the stock of Tooltex to PK Spur Co. (PK), an Ohio corporation owned by the president of Tooltex, and his wife. In consideration, PK issued a \$125,000 promissory note, payable in 23 installments of \$2,000 including interest at 7% per annum commencing in October 2001, with a final balloon payment of outstanding principal and accrued interest. The note is guaranteed by the president and Tooltex, and is secured by a security interest in certain Tooltex assets. In conjunction with the sale, the Company and Tooltex entered into a representation and distribution agreement pursuant to which Tooltex will sell and distribute the Company's products.

The Company changed the accounting for its investment in Tooltex from the consolidation to the cost method, effective on the date of sale. Tooltex reported sales of approximately \$90,000 and a net loss of approximately \$25,000 in the quarter ended September 30, 2001.

### NOTE 3: SALE OF COMPANY FACILITY

On August 31, 2001, the Company sold to Acme Realty (Acme), a New York general partnership, its manufacturing facility located in Newtown, Connecticut for \$4,000,000 in cash, less expenses of \$244,000. The Company used the proceeds to pay outstanding Industrial Revenue Bond principal and accrued interest totaling \$3,289,000, and to increase working capital. In conjunction with the sale, the Company entered into a triple net lease with Acme for an initial term of ten years plus two five-year renewal options. The Company recorded a deferred gain on the sale of \$337,000, which will be amortized over the lease term.

Following is a schedule of minimum lease payments due under the operating lease for the property:

Years ending June 30,	
2002	\$ 328,292
2003	323,185
2004	316,813
2005	326,522
2006	336,304
thereafter	1,903,843
	-----
	\$3,534,959
	-----

### NOTE 4: NET INCOME PER SHARE

Net income per share is based on the weighted average number of common and common equivalent shares outstanding during the period, calculated using the treasury stock method. Stock options are antidilutive for all periods and accordingly, are not included in the per share computations.

### NOTE 5: LOAN COVENANTS

The Company's credit facility contains a loan covenant that requires it to maintain a fixed charge coverage ratio of at least 1.10 on a quarterly basis and 1.40 on a trailing six-month basis, a minimum tangible net worth of at least \$5,150,000 and a maximum leverage ratio of 1.50. At September 30, 2001, the Company was in violation of the trailing six-month fixed charge coverage ratio test and the minimum tangible net worth requirement. The bank has provided a waiver of these violations as of September 30, 2001.

7

Any statements in this filing that are not statements of historical fact are forward-looking statements that are subject to a number of important risks and uncertainties that could cause actual results to differ materially. Specifically, any forward looking statements in this filing related to the Company's objectives for future growth, profitability and financial returns are subject to a number of risks and uncertainties, including, but not limited to, risks related to a growing market demand for Sonics' existing and new products, continued growth in sales and market share of Sonics and its Ultra Sonic Seal line of products, pricing, market acceptance of existing and new products, a fluctuation in the sales product mix, general economic conditions, competitive products, and product technology development. There can be no assurance that such objectives will be achieved.

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS

The following information should be read in conjunction with the unaudited financial statements included herein, see Item 1, and the financial information contained in the Company's latest annual report on Form 10-KSB for the year ended June 30, 2001.

#### RESULTS OF OPERATIONS

## Edgar Filing: SONICS & MATERIALS INC - Form 10QSB

THREE MONTHS ENDED SEPTEMBER 30, 2001 COMPARED TO THE THREE MONTHS ENDED SEPTEMBER 30, 2000

During the current fiscal quarter, the Company sold 90% of its wholly-owned subsidiary, Tooltex, Inc. This transaction affects the comparison of all components of the income statement since Tooltex, Inc. activity is included in the first quarter of fiscal 2001 whereas its activity in the current fiscal quarter is included only through the date of sale which was August 21, 2001. Tooltex reported sales of approximately \$90,000 and a net loss of approximately \$25,000 in the quarter ended September 30, 2001.

NET SALES. Overall, net sales declined 24.1% compared with the first quarter of fiscal year 2000. The drop in sales was caused by both a weakening economy, which specifically impacted the plastics welding product line, as well as the reduction in Tooltex, Inc. revenue due to the sale of that subsidiary in August 2001.

COST OF SALES AND GROSS PROFITS. Gross profits declined \$262,000 in the current quarter. The same factors affecting net sales carried through to resulting gross profits. Gross profit margins were maintained at the same overall levels as existed in the first quarter of fiscal year 2001.

SELLING EXPENSES. Selling expenses declined 43.3% in the current fiscal quarter compared with the the first quarter of fiscal year 2001. Reductions in the sales force during the prior fiscal year as well as significant reductions in commissions, advertising and trade show expenses accounted for most of this decline.

### GENERAL & ADMINISTRATIVE EXPENSES.

A decline of \$56,000 or 19.8% took place during the current fiscal quarter compared with the first quarter of fiscal year 2001. Most of this reduction is due to the sale of the Company's wholly-owned subsidiary, Tooltex, Inc. in August 2001.

RESEARCH AND DEVELOPMENT EXPENSES. This category of operating expense did not change significantly between the two reported periods.

OPERATING INCOME. Operating income for the current quarter increased \$11,000 in last year's comparable quarter to \$107,000 in the current period. The principal reason for this improvement was the reduction of expenses which more than offset the decline in sales.

OTHER INCOME (EXPENSE). Gains in other income resulted from the interest rate declines (from a prime rate of 9.5% during the first quarter of the prior fiscal year to 6% by the end of the current quarter) and the elimination of Industrial Revenue Bond indebtedness relating to the real estate sold in August 2001.

8

### LIQUIDITY AND CAPITAL RESOURCES

The benefits resulting from the Company's continuing expense reduction program, the sale of its manufacturing facility in Newtown, CT, and the sale of Tooltex, Inc., became more fully realized by the end of the first quarter of fiscal year 2002. Several positive results have been achieved, which are evident in comparing the September 30, 2001 balance sheet with the balance sheet at the close of the previous quarter. Specifically, the Company's debt/equity ratio improved significantly during this quarter, declining from 1.2x at June 30, 2001 to 0.4x at September 30, 2001. In addition, working capital levels increased by approximately \$657,000 raising the current ratio from 2.6x at June 30, 2001 to 3.4x in the current quarter.

## Edgar Filing: SONICS & MATERIALS INC - Form 10QSB

The Company's principal outside source of working capital is a \$1,500,000 bank credit facility (the "Line of Credit"). The Line of Credit bears interest at the bank's base lending rate (6% at September 30, 2001). Advances under the Line of Credit are at the bank's sole discretion. The entire principal balance of the Line of Credit, which at September 30, 2001 was \$790,000, is due and payable upon the demand of the bank. The borrowings under the Line of Credit may be prepaid in whole or in part, without premium or penalty, at any time. Indebtedness under the Company's Line of Credit and the term loan are secured by substantially all of the assets of the Company. The credit agreement also subjects the Company to various covenants, including restrictions on future borrowings and encumbrances, and the maintenance of minimum tangible net worth, leverage and fixed charge coverage ratios, as defined.

The Company's credit facility contains a loan covenant that requires it to maintain a fixed charge coverage ratio of at least 1.10 on a quarterly basis, at least 1.40 on a trailing six-month basis, a minimum tangible net worth of at least \$5,150,000 and a maximum leverage ratio of 1.50. At September 30, 2001, the Company was in violation of the trailing six-month fixed charge coverage ratio test and the minimum tangible net worth requirement. The bank has provided a waiver of these violations as of September 30, 2001.

### IMPACT OF INFLATION

The Company does not believe that inflation significantly affected its results of operations for the current fiscal quarter.

### MARKET RISK

The Company does not hold or trade derivative instruments. Financial instruments subject to changes in interest rates consist primarily of floating rate debt. Due to the repayment in August 2001 of its Industrial Development Bonds, the Company's exposure to interest rate fluctuations is not material. The Company's transactions are generally conducted and its accounts are denominated in U.S. dollars. Consequently, exposure to foreign risk is not significant.

### RECENTLY ISSUED PRONOUNCEMENTS

In June 2001, the FASB issued SFAS No. 141, Business Combinations, which addressed the initial recognition and measurement of goodwill and other intangible assets acquired in a business combination. SFAS No. 141 requires the purchase method of accounting to be used for business combinations initiated after June 30, 2001 and eliminates the pooling of interest method. The adoption of this statement is not expected to have a material impact on the Company's financial position or results of operations.

In June 2001, the FASB issued SFAS No. 142, Goodwill and Other Intangible Assets, which addressed the recognition and measurement of goodwill and other intangible assets subsequent to their acquisition. SFAS No. 142 also addressed the initial recognition and measurement of intangible assets acquired outside of a business combination whether acquired individually or with a group of other assets. SFAS No. 142 provides that intangible assets with finite useful lives be amortized and that intangible assets with indefinite lives and goodwill will not be amortized, but will rather be tested at least annually for impairment. Although SFAS No. 142 is not required to be adopted by the Company until fiscal 2003, its provisions must be applied to goodwill and other intangible assets acquired after June 30, 2001. As of September 30, 2001, the Company does not have any goodwill or other intangible assets relating to business combinations that were accounted for under APB Opinion No. 16. Accordingly, the adoption of SFAS No. 142 is not expected to have a material impact on the Company's financial position or results of operations.
