**j2 GLOBAL COMMUNICATIONS, INC.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**MARCH 31, 2006**  
**(UNAUDITED)**

**NOTE 1 — BASIS OF PRESENTATION**

j2 Global Communications, Inc. (“j2 Global” or the “Company”) is a Delaware corporation founded in 1995. The Company leverages the power of the Internet to provide outsourced, value-added messaging and communications services to individuals and businesses throughout the world. j2 Global offers faxing and voicemail solutions; hosted email services and bundled suites of certain of these services. j2 Global markets its services principally under the brand names eFax<sup>®</sup>, jConnect<sup>®</sup>, UniFax<sup>™</sup>, Onebox<sup>®</sup>, Electric Mail<sup>®</sup> and eVoice<sup>®</sup>.

The accompanying interim condensed consolidated financial statements include the accounts of j2 Global and its direct and indirect wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

The accompanying interim condensed consolidated financial statements are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) including those for interim financial information and with the instructions for Form 10-Q and Article 10 of Regulation S-X issued by the Securities and Exchange Commission (“SEC”). Accordingly, they do not include all of the information and note disclosures required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been reflected in these interim financial statements. These financial statements should be read in conjunction with the audited financial statements and related notes for the year ended December 31, 2005 included in the Company’s Annual Report on Form 10-K filed with the SEC on March 27, 2006.

The results of operations for these interim periods are not necessarily indicative of the operating results for the full year or for any future period.

*Stock-based compensation*

Effective January 1, 2006, the Company adopted the provisions of Statement of Financial Accounting Standards No. 123(R), “Share-Based Payment” (SFAS 123(R)), which requires all share-based payments to employees, including grants of employee stock options and purchases under certain employee stock purchase plans, to be recognized as compensation expense in the results of operations. Share-based compensation expense as required by SFAS 123(R) is recognized over the requisite employee service period based on the grant date fair value of those awards.

The Company adopted SFAS 123(R) using the modified prospective method and accordingly, the consolidated financial statements for prior periods have not been restated to reflect, and do not include, the impact of SFAS 123(R). Stock-based compensation expense recognized during the first quarter of 2006 applies to unvested stock options granted prior to December 31, 2005 based on the grant date fair value estimated in accordance with the original provisions of SFAS 123, “Accounting for Stock-Based Compensation” (SFAS 123), and any new share-based awards granted subsequent to December 31, 2005, based on the grant date fair value estimated in accordance with SFAS 123(R). Additionally, stock-based compensation expense recognized during the first quarter of 2006 has been reduced by estimated pre-vesting forfeitures. SFAS 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The prospective application of SFAS 123(R) had a material impact on the Company’s consolidated financial positions, results of operations and cash flows. See Note 3 regarding the Company’s stock-based compensation assumptions and expenses, including pro forma

disclosures for prior periods as if the Company had recorded stock-based compensation expense. The cumulative effect upon adoption of SFAS 123(R) was not material.

## NOTE 2 — USE OF ESTIMATES

The preparation of consolidated financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net revenue and expenses during the reporting period. On an ongoing basis, management evaluates its estimates, including those related to revenue recognition, allowances for doubtful accounts and the valuation of deferred income taxes, tax contingencies, stock-based compensation expense and long-lived and intangible assets and goodwill.

## NOTE 3 — STOCK-BASED COMPENSATION

The Company's stock-based compensation plans include the Second Amended and Restated 1997 Stock Option Plan and the 2001 Employee Stock Purchase Plan (discussed below).

Effective January 1, 2006, the Company adopted SFAS 123(R), applying the modified prospective method. Prior to the adoption of SFAS 123(R), the Company applied the provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees", (APB 25) in accounting for stock options, and accordingly, no compensation cost was recognized for stock option grants other than for its restricted stock awards.

Under the modified prospective method, SFAS 123(R) applies to new awards and to the unvested portion of awards that were outstanding on January 1, 2006 and to awards that are subsequently modified, repurchased or cancelled. Compensation cost recognized in the first quarter of fiscal 2006 includes compensation cost for all share-based awards granted prior to, but not yet vested as of January 1, 2006, based on the grant-date fair value estimated in accordance with the original provisions of SFAS 123, and compensation cost for all share-based awards granted subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of SFAS 123(R). Prior periods were not restated to reflect the impact of adopting the new standard.

The following table represents the stock-based compensation expense that was included in cost of revenues and operating expenses in the accompanying condensed consolidated statements of operations for the three month period ended March 31, 2006 (in thousands):

|                                       |    |       |
|---------------------------------------|----|-------|
| Cost of revenues                      | \$ | 109   |
| Sales and marketing                   |    | 265   |
| Research, development and engineering |    | 110   |
| General and administrative            |    | 940   |
|                                       | \$ | 1,424 |

The Company receives a tax deduction for certain stock option exercises during the period the options are exercised, generally for the excess of the fair value of stock at the date of exercise over the exercise price of the options. Prior to the adoption of SFAS 123(R), the Company presented all tax benefits resulting from the exercise of stock options as operating cash flows in the statements of cash flows. SFAS 123(R) requires cash flows resulting from excess tax benefits to be classified as part of cash flows from financing activities. Excess tax benefits are realized tax benefits from tax deductions for exercised options in excess of the deferred tax asset attributable to stock compensation costs for such options. In accordance with SFAS 123(R), the Company reported \$482,000 of excess tax benefits as financing cash flows for the three months ended March 31, 2006. The total tax benefit realized from stock option exercises for the three months ended March 31, 2006 and 2005 was \$0.5 million and \$1.3 million, respectively. Cash received from stock option exercises was \$183,000 and \$311,000 for the three months ended March 31, 2006 and 2005, respectively.

Prior to January 1, 2006, the Company applied the intrinsic value-based method of accounting prescribed by APB 25, and related interpretations to account for its stock option plans, but disclosed the pro forma effect on net earnings and net earnings per share as if compensation expense had been recognized based on the fair value-based

method at the date of grant for stock options awarded consistent with the provisions of SFAS 123. The Company's reported and pro forma information for the three months ended March 31, 2005 was as follows (in thousands, except per share amount):

*Second Amended and Restated 1997 Stock Option Plan (1997 Plan)*

The 1997 Plan was adopted in November 1997 and has twice been amended and restated. This Plan provides for the granting of incentive stock options, nonqualified stock options and restricted stock awards. Options under the 1997 Plan may be granted at exercise prices determined by the Compensation Committee of the Board of Directors, or the Board of Directors as a whole, provided that the exercise prices shall not be less than the fair market value of the Company's Common Stock on the date of grant for incentive stock options and not less than 85% of the fair value of the Company's Common Stock on the date of grant for non-statutory stock options. Under the Plan, 5 million authorized shares of Common Stock were reserved for issuance upon exercise of options or as restricted stock. At March 31, 2006, there were 34,603 shares available for future awards under the Plan. At the Company's 2006 Annual Meeting of Shareholders, held May 3, 2006, the Company's shareholders approved a proposal to increase the number of shares of Common Stock authorized for use under the 1997 Plan to 6 million.

The Company uses the Black-Scholes option pricing model to calculate the fair-value of each option grant. The expected volatility for the first quarter of 2006 was based on historical volatility of the Company's traded stock. The Company elected to use the simplified method for estimating the expected term as allowed by Staff Accounting Bulletin (SAB) No. 107, "Share-Based Payment". Under the simplified method, the expected term is equal to the midpoint between the vesting period and the contractual term of the stock option. The risk-free interest rate is based on U.S. Treasury zero-coupon issues with a term equal to the expected term of the option assumed at the date of grant. Forfeitures are estimated at the date of grant based on historical experience. The following weighted average assumptions were used for the respective periods.

For the three months ended March 31, 2006, the Company granted 50,000 options to purchase shares of Common Stock pursuant to the Plan to new members of management. The stock options have a vesting period of five-years and expire 10 years from the date of grant. The weighted-average grant-date fair values of stock options granted during the three months ended March 31, 2006 and 2005 was \$35.62 and \$18.03, respectively. The aggregate intrinsic value of options exercised during the three months ended March 31, 2006 and 2005 was \$1.9 million and \$3.5 million, respectively, determined as of the date of option exercise. As of March 31, 2006, there was approximately \$16.9 million of total unrecognized compensation cost related to unvested share-based arrangements granted under the 1997 Plan. The cost is expected to be recognized over a weighted-average period of 4.0 years.

#### *Restricted Stock*

The Company has awarded restricted shares of Common Stock to executive officers and directors of the Company pursuant to the 1997 Plan. Restricted stock grants are generally measured at fair value on the date of grant based on the value of the award and are recognized as stock-based compensation expense generally over a five year vesting period. The Company granted 16,670 shares of restricted stock to new members of management pursuant to the 1997 Plan during the three months ended March 31, 2006. As of March 31, 2006, the Company has unrecognized stock-based compensation of \$6.2 million associated with these awards. The cost is expected to be recognized a weighted-average period of 4.5 years.

The following table represents restricted stock activity for the three months ended March 31, 2006:

|                              | Shares  | Weighted-Average<br>Grant-Date<br>Fair Value |

Upon the adoption of SFAS 123(R) on January 1, 2006, the Company reclassified the unrecognized deferred compensation costs associated with restricted stock granted to certain employees of approximately \$5.8 million with a corresponding reduction to the Company's additional paid-in capital.

*2001 Employee Stock Purchase Plan (Purchase Plan)*

The Purchase Plan provides for stock purchases by all eligible employees. Under the Purchase Plan, eligible employees can have up to 15% of their earnings withheld, up to certain maximums, to be used to purchase shares of the Company's Common Stock at certain plan-defined dates. Through the offering period ended April 30, 2006, the

price of the Common Stock purchased under the Purchase Plan for the offering periods is equal to 90% of the lower of the fair market value of the Common Stock on the commencement date of each three-month offering period or the specified purchase date. For the three months ended March 31, 2006 and 2005, 3,264 and 4,563 shares were purchased under the plan, respectively. Cash received upon the issuance of common stock under the plan was \$130,000 and \$124,000 for the three months ended March 31, 2006 and 2005, respectively. Effective May 1, 2006, the Company's Board of Directors removed the compensatory features of the Purchase Plan by changing the purchase price of a share of Common Stock for each offering period to 95% of its fair market value at the end of the offering period.

#### NOTE 4 - EARNINGS PER COMMON SHARE

Basic earnings per share is computed on the basis of the weighted average number of common shares outstanding. Diluted earnings per share is computed on the basis of the weighted average number of common shares outstanding plus the dilutive effect of common stock equivalents using the "treasury stock" method. The components of basic and diluted earnings per share are as follows:

|                                                                | <b>Three Months Ended March 31,</b>             |             |

The components of comprehensive income were net earnings and accumulated other comprehensive income. The change in accumulated other comprehensive income for all periods presented resulted from foreign translation gains and losses and the unrealized gains and losses in marketable securities. Comprehensive income for the three months ended March 31, 2006 and 2005 is as follows (in thousands):

## NOTE 6 - GOODWILL AND PURCHASED INTANGIBLE ASSETS

Goodwill represents the excess of the purchase price over the fair value of the net tangible and identifiable intangible assets acquired in a business combination. Intangible assets resulting from the acquisitions of entities accounted for using the purchase method of accounting are estimated by management based on the fair value of assets acquired. Identifiable intangible assets subject to amortization are being amortized using the straight-line method over estimated useful lives ranging from two to twenty years.

In November 2005, the Company purchased substantially all of the assets and operations of a European provider of fax-to email and unified messaging services. The purchase price (in U.S. dollars), including acquisition costs, was approximately \$3.1 million. As of March 2006, the Company has not completed the allocation of excess aggregate purchase price between goodwill and identifiable intangible assets.

The changes in carrying amount of goodwill and other intangible assets for the three months ended March 31, 2006 are as follows (in thousands):

|                                           | <b>Balance as of<br/>January 1,<br/>2006</b> | <b>Additions</b> | <b>Amortization</b> | <b>Foreign<br/>Exchange<br/>Translation</b> | <b>Balance as of<br/>March 31,<br/>2006</b> |
