NEW ENGLAND ACQUISITIONS, INC.
(A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO FINANCIAL STATEMENTS
(Unaudited)

1. Condensed Financial Statements

In the opinion of the Company, the accompanying unaudited condensed financial statements include all adjustments) consisting only of normal recurring accruals) which are necessary for a fair presentation of the results for the periods presented. Certain information and footnote disclosure, normally included in the financial statements prepared in accordance with generally accepted accounting principles, have been

Edgar Filing: NEW ENGLAND ACQUISITIONS INC - Form 10QSB

condensed and omitted. The condensed financial statements should be read in conjunction with the Company's financial statements included in its Annual Report on Form 10-KSB for the year ended March 31, 2002. Reference is also made to Post Effective Amendment Number 5 to the Company's registration statement on Form SB-2. The Company has had no significant operations since inception.

2. Subsequent Events

All of the purchasers of 7,500 of shares of the company's common stock in the initial public offering have confirmed their investment.

On October 7, 2002, the Company, through a newly formed wholly owned subsidiary, consummated its Asset and Rights Purchase Agreement with ADM Tronics Unlimited, Inc. to acquire the right to market and sell three different medical products and entered into a manufacturing agreement with ADM Tronics. As a result, the Company issued 150,375 shares of its common stock to ADM Tronics

On November 3, 2002, 3,007,500 shares and \$15,000 were released from the escrow account at Patriot National Bank. The \$15,000, which was previously reflected as restricted cash, has become operating cash.

Item 2. Management's Plan Of Operation

The following should be read in conjunction with our financial statements and the related note that appear elsewhere in this Quarterly Report.. The discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements.

We have not had any revenues or operations since inception. Our ability to become and continue as a going concern is dependent in significant part upon obtaining additional substantial capital

We have obtained limited rights to sell an ethnic shave cream, a burn lotion and the Aurex-3 device from ADM Tronics Unlimited, Inc. Subject to the availability of sufficient capital, we intend to initially aggressively market the shave cream and the Aurex-3. We have no plans to market the burn lotion. We believe that we will require funding of approximately \$140,000 to aggressively market the products and for working capital during the first year after our acquisition of the products. We believe that we can begin marketing the products within three months from the time we acquire them from ADM Tronics.

We plan to obtain \$150,000 through the private sale of our common stock. We cannot assure you that we will be successful in obtaining any funds or that \$150,000 will be sufficient to fund our initial operations.

If we are successful in obtaining additional capital of \$150,000, we plan to initially utilize a phased communications and distribution strategy to market the ethnic shave cream. We intend to begin with New York City and the Bahamas. In the first phase, a communications piece will be developed and distributed to distribution units and orders will be taken from a website, or by replying to the direct mail campaign. In the second phase, communications will be sent to Philadelphia, Baltimore, Washington, Chicago, Detroit, Houston, Memphis, New Orleans, and, subsequently, Los Angeles. In the third phase, we intend to hire a sales person to visit large distributors to retail stores. Our estimated initial expenditures are \$50,000 for the design and development of our website and its maintenance for the first year, \$2,000 for the purchase of lists, and

Edgar Filing: NEW ENGLAND ACQUISITIONS INC - Form 10QSB

\$15,000 for the development, production and distribution of hard copy and offline mail messages.

7

We also plan to use a similar phased communications and distribution strategy to market the Aurex-3. Our estimated initial expenditures are \$50,000 for the design and development of our website and its maintenance for the first year, and \$15,000 for the development, production and distribution of hard copy and offline mail messages.

If we are only able to obtain additional capital of at least \$70,000, but less than \$140,000, we intend to develop a website and to market the ethnic shave cream and the Aurex-3 through the website and our communications piece. If we are able to obtain additional capital of at least \$140,000, we intend to aggressively market the ethnic shave cream and the Aurex-3.

If we not able to obtain additional capital of at least \$70,000, we intend to market the ethnic shave cream through commissioned sales agents and our sales piece and, to the extent of available capital, engage in additional limited promotional activities.

If we only obtain proceeds of \$50,000 or less, including \$7,500 released to us from the escrow account, the capital will only be sufficient to meet our anticipated capital requirements for less than six months. Even if we are able to obtain additional capital of \$150,000 in addition to the proceeds from the escrow account, we believe that the capital will only be sufficient to meet our anticipated capital requirements for one year. If we exhaust our capital and cannot obtain additional capital, our stockholders can expect to lose all of their investment.

We believe that we can begin marketing products within three months from the time we acquired them from ADM Tronics.

If we cannot obtain any meaningful amounts of capital or if the only funds available to us are those released to us from the escrow account, we will attempt to market the products solely through commissioned sales agents and our sales piece and we will not be able to develop a website. There can be no assurance that we can find suitable sales agents who will work solely on a commission basis or that the products can be sold without any promotional activities on our part, other than the communications piece we intend to develop.

If we do not make minimum royalty payments or purchase certain quantities of products from ADM Tronics within the first year after we acquire its products and continuing in subsequent years, we will lose certain rights of exclusivity. We intend to pay the minimum royalties from revenues derived from sales. We do not know if we will be able to purchase a sufficient number of the Aurex-3 from ADM Tronics to maintain all of the rights we initially receive. We cannot assure you that we will derive any meaningful revenues from the sale of any of the products.

We will reimburse ADM Tronics for an estimated amount of \$4,500 for any tooling or non-recurring engineering services that are required to be secured in support of the manufacturing of our products. Tooling includes molds, plates, screens and other items used to produce components in a manufacturing process. Non-recurring engineering services are services such as drafting, preparation of schematics, evaluations and measurements that are performed prior to manufacturing but are not repeated during the manufacturing process.

8

Edgar Filing: NEW ENGLAND ACQUISITIONS INC - Form 10QSB

We must pay \$25,000 to ADM Tronics in advance of the initiation of production of the burn lotion for ADM Tronics' expenses and establishment of regulatory support and processes for the distribution of the burn lotion by us. If we do not make the payment within one year from the consummation of the transaction with ADM Tronics, we will lose the exclusive rights to the burn lotion. Because we do not have any plans to market the burn lotion, we do not believe that the loss of the exclusive rights would be material to us.

We do not expect to purchase or sell any significant equipment, engage in product research or development and do not expect any significant changes in the number of our employees.

Item 3. Controls and Procedures.

- (a) The registrant's principal executive officer and principal financial officer has evaluated the effectiveness of the registrant's disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) as of a date within 90 days prior to the filing date of this quarterly report and has concluded that disclosure controls and procedures of the registrant have ensured that material information relating to the registrant, including its consolidated subsidiary, is made known to him by others within those entities, particularly during the period in which this quarterly report is being prepared.
