(1)	Senior floating-rate interests often require prepayments from excess cash flows or permit the borrowers to repay at their election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, it is anticipated that the senior floating-rate interests will have an expected average life of approximately two to three years. The stated interest rate represents the weighted average interest rate of all contracts within the senior loan facility. Senior Loans typically have rates of interest which are redetermined either daily, monthly, quarterly or semi-annually by reference to a base lending rate, plus a premium. These base lending rates are primarily the London-Interbank Offered Rate (LIBOR), and secondarily the prime rate offered by one or more major United States banks (the Prime Rate) and the certificate of deposit (CD) rate or other base lending rates used by
	commercial lenders.
(2)	This Senior Loan will settle after January 31, 2008, at which time the interest rate will be determined.
(3)	Unfunded or partially unfunded loan commitments. The Trust may enter into certain credit agreements all or a portion of which may be unfunded. The Trust is obligated to fund these commitments at the borrower s discretion.
(4)	Security valued at fair value using methods determined in good faith by or at the direction of the Trustees.
(5)	Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At January 31, 2008, the aggregate value of the securities is \$19,915,604 or 3.6% of the Trust s net assets.
(6)	Variable rate security. The stated interest rate represents the rate in effect at January 31, 2008.
(7)	Non-income producing security.
(8)	Restricted security.
(9)	Affiliated investment company available to Eaton Vance portfolios and funds which invests in high quality, U.S. dollar denominated money market instruments. The rate shown is the annualized seven-day yield as of January 31, 2008. Net income allocated from the Investment in Cash Management Portfolio for the fiscal year to date ended January 31, 2008 was \$163,125.
