Security Capital Corporation and Subsidiaries

Notes to the Condensed Consolidated Financial Statements

## (1) Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial statements and the instructions for Form 10-Q. The interim financial statements are unaudited. In the opinion of management, all adjustments (which consist only of normal recurring adjustments) necessary to present fairly the financial position and results of operations for the interim periods presented have been made. Due to the seasonality of the seasonal products segment, the interim results of the Company are not indicative of full year results. Also working capital levels for this segment historically fluctuate substantially during different points of the year. This segment ships products throughout the year, with approximately 56% of its shipments in the third quarter and provides extended payment terms to some of its customers for seasonal merchandise and, accordingly, collects a substantial portion of its accounts receivable in the fourth calendar quarter. As a result of this sales pattern, a substantial portion of its revenues is typically recorded in the third and fourth calendar quarters. Also due to this seasonal pattern, the seasonal products segment has greater working capital needs in its peak season, experiences higher borrowing levels during the first and second quarters of the year as the segment funds its inventory build-up and experiences greater cash availability in its fourth calendar quarter. The balance sheet at December 31, 2000 has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. It is suggested that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in the Annual Report of Security Capital Corporation on Form 10-K for the year ended December 31, 2000. Certain prior amounts have been reclassified to conform with current period classifications.

## (2) Organization And Description of Business

Security Capital Corporation ( Security Capital ) operates as a holding company that participates in the management of its subsidiaries while encouraging operating autonomy and preservation of entrepreneurial environments. Currently, Security Capital has four portfolio operating subsidiaries (together with Security Capital, referred to as the Company ), known as WC Holdings, Pumpkin, Possible Dreams and Primrose. As a result of a December 2000 acquisition through a 100%-owned subsidiary, WC Holdings, Inc., Security Capital Corporation has an 80% equity interest in Health Power, Inc., which provides services to corporations and their employees primarily relating to industrial health and safety, industrial medical care, workers' compensation insurance and the direct and indirect costs associated therewith. Health Power's activities are primarily centered in Ohio, Virginia, Maryland and, to a lesser extent, in other Middle Atlantic states, Indiana, Colorado and Washington. Pumpkin is an 80%-owned subsidiary in the business of designing and distributing pumpkin carving kits and related accessories. Pumpkin distributes its products primarily throughout the United States and also in Canada and Europe. Possible Dreams is a wholly-owned subsidiary that operates as a designer, importer and distributor of collectible figurines and giftware. Possible Dreams distributes its products throughout the United States. Primrose is a 98%-owned subsidiary involved in the franchising of educational child care centers. Primrose also operates one child care center. Currently, Primrose schools are located throughout the United States except in the Northeast and Northwest.

<b>Total</b>	<b>\$ (193)</b>	<b>\$ (235)</b>	<b>\$ 105</b>	<b>\$ (294)</b>

## (5) Acquisition of Health Power, Inc.

In December 2000, the Company formed WC Holdings, Inc., a wholly owned subsidiary, which, in turn, purchased an 80% interest in Health Power, Inc. Subsequent to the December 31, 2000 allocation of the purchase price, the Company paid an additional \$131,000 in acquisition related expenses which have been allocated to goodwill at September 30, 2001.

The following unaudited pro forma financial information presents the combined results of the Company as if the acquisition of Health Power, Inc. had taken place at January 1, 2000. The pro forma amounts give effect to certain adjustments, including the amortization of goodwill and intangibles, increased interest expense and income tax effects. This pro forma information does not necessarily reflect the results of operations as they would have been if the business had been managed by the Company throughout these periods and is not indicative of results that may be obtained in the future:

Basic	\$	0.43	\$	0.62
Diluted	\$	0.40	\$	0.58

(6) Acquisition of Trigon Administrators, Inc.

On April 1, 2001, the Company's subsidiary, Health Power, acquired 100% of the common stock of Trigon Administrators, Inc., a third party administration (or TPA) provider in Virginia and Maryland. The entire purchase price paid for the acquisition - \$6,000,000 - was financed through Health Power's revolving line of credit. Subsequent adjustments to the purchase price reduced it to \$5,541,000. During the third quarter of 2001, Health Power converted the \$5,347,000 revolver balance still outstanding from the total \$6,000,000 it had drawn in April to term debt. This conversion was accomplished by increasing the existing term loan with Bank One which is senior term debt payable in monthly installments through January 2007. It carries a rate of prime minus ½% or LIBOR plus 175 basis points (5.5% at September 30, 2001). The acquisition has been accounted for as a purchase, a preliminary allocation of the purchase price to the net assets acquired has been completed, and \$4,614,000 has been allocated to goodwill based upon this preliminary assessment.

## (7) Segment Disclosure

The Company has an employer cost containment-related services segment, a seasonal products segment and an educational services segment. The employer cost containment-related services segment consists of WC Holdings, the seasonal products segment consists of Pumpkin and Possible Dreams and the educational services segment consists of Primrose. Management evaluates the performance of its segments based upon segment income or Adjusted EBITDA, defined for the purposes of the segment disclosures as earnings before interest, taxes, depreciation, amortization, minority interest, management fees and non-recurring charges or gains. Adjusted EBITDA is used to evaluate performance because the Company believes that it is a good measurement of its ability to generate cash flow and is a financial indicator of value and ability to incur and service debt. Adjusted EBITDA is not a substitute for operating income or cash flow from operating activities in accordance with accounting principles generally accepted in the United States.

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,

## (8) Income Taxes

The Company has recorded income tax expense at an effective rate of 45% and 38% for the nine month periods ended September 30, 2001 and 2000, respectively, representing the Company's estimate of its annual effective income tax rate. The 2001 effective rate reflects the fact that the Company is amortizing goodwill that is not deductible for income tax purposes. This goodwill was acquired in the fourth quarter of 2000.

## (9) Earnings Per Share

Diluted earnings per share reflect per share amounts that would have resulted if dilutive potential common stock had been converted to common stock. The following reconciles amounts reported in the financial statements:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2001	2000	2001	2000
(in thousands, except per share amounts)				
<b>Diluted Earnings:</b>				
Net income available to common stockholders	\$ 3,717	\$ 2,909	\$ 3,734	\$ 2,298
Preferred stock accretion	89	78	259	227
Net income	3,806	2,987	3,993	2,525
Options settled at subsidiaries	(90 )	(117 )	(151 )	(117 )
Diluted earnings	\$ 3,716	\$ 2,870	\$ 3,842	\$ 2,408
<b>Diluted Weighted Average Shares Outstanding:</b>				
Common stock	6,442	6,442	6,442	6,442
Preferred stock	500	500	500	500

Edgar Filing: SECURITY CAPITAL CORP/DE/ - Form 10-Q

Options	434	-	208	-
Diluted weighted average shares outstanding	7,376	6,942	7,150	6,942
Diluted Earnings Per Share	\$ 0.50	\$ 0.41	\$ 0.54	\$ 0.35

Certain subsidiary options and warrants were excluded from the computation of diluted EPS because their inclusion would have had an antidilutive effect on consolidated EPS.

(10) Stock and Stock Options

WC Holdings Options to acquire 1,281 shares of Health Power, an 80%-owned subsidiary of WC Holdings, at approximately \$694 per share, the fair value at the date of the grant, were granted to subsidiary employees during the first quarter of 2001. All such options vest over a five-year period with the exception of one grant of 360 options which vests over an eight-year period but is subject to certain acceleration provisions. If all such outstanding options had been vested and exercised at September 30, 2001, the Company's ownership share of Health Power would have been 73.47%.

Primrose Holdings - On April 3, 2001, the Company exercised its call provision relating to shares of Primrose Holdings, Inc. owned by a then exiting officer. The Company repurchased 100 shares, or 0.3%, of Primrose Holdings, Inc. from this officer for \$50,000, increasing its direct ownership to 98.5%. The Company also cancelled options held by the same former officer for 346.67 shares of Primrose Holdings, Inc. on June 18, 2001. On September 30, 2001, the Company also cancelled options held by another former officer for 288.89 shares of Primrose Holdings, Inc.

Pumpkin Options to acquire nine shares of Pumpkin were settled for cash at their existing liability value of \$82,000 on June 7, 2001 when the holder exercised her right to settle the options for cash. On July 1, 2001, the Company granted options to acquire 27 shares of Pumpkin at the fair market value on the date of the grant, which was \$9,111 per share. If all such outstanding options had been vested and exercised at September 30, 2001, the Company's ownership share of Pumpkin would have been 75.25%.

Security Capital Pursuant to the provisions of the 2000 Long-Term Incentive Plan, on May 16, 2001, the Company granted options to acquire 24,000 shares of its Class A common stock at the market price at the date of the grant, which was \$10.31. On September 7, 2001, the Company granted options to acquire 24,000 shares of its Class A common stock at the market price at the date of the grant, which was \$12.69. Both of these option grants, subject to termination of the grantees' directorships, expire 10 years from the date of the grant, are not transferable other than on death, and are exercisable in three equal annual installments commencing on the date of grant. On July 19, 2001, the Company granted options to acquire 237,000 shares of its Class A common stock at the market price at the date of the grant, which was \$10.85. These options, subject to termination of the grantees' employment, expire 10 years from the date of the grant, are not transferable other than on death, and are exercisable in five equal annual installments commencing one year from the date of grant. On August 17, 2001, 8,000 unvested options held by a resigning director were cancelled pursuant to the provisions of his stock option grant certificate as issued under the 2000 Long-Term Incentive Plan.

-

(11) New Capital Lease

During the first quarter of 2001, Possible Dreams entered into a capital lease for computer equipment that expires in December 2006. At September 30, 2001, property and equipment included the equipment under this capital lease with a cost of \$606,734. Possible Dreams will begin amortizing this cost over the 60-month lease term beginning on the date of final installation of the equipment, currently scheduled for January 1, 2002.

Future minimum lease payments with respect to such lease are as follows:

2002	\$	138,696
2003		138,696
2004		138,696
2005		138,696
2006		138,696
		693,480
Less amounts representing interest		(86,746 )
	\$	606,734

(12) Debt

On March 31, 2001, the Company's subsidiary, Health Power, amended its existing loan agreement, the original terms of which are outlined in the notes to the Company's Annual Report on Form 10-K for the year ended December 31, 2000. The only significant terms which were altered as a result of this amendment related to the lender's consent to the Trigon acquisition discussed in Note 6 of the Notes to the Condensed Consolidated Financial Statements in this Report on Form 10-Q, the lender's consent to the use of \$6,000,000 of Health Power's revolving line of credit to pay for such acquisition and the amendment of the ratio of funded indebtedness to EBITDA covenant.

On June 13, 2001, Pumpkin entered into a three-year loan agreement with LaSalle Business Credit, Inc. The total credit facility is \$10,000,000, consisting of a maximum term loan amount of \$2,500,000 and a revolving loan commitment of \$7,500,000. The amount Pumpkin is allowed to draw on the revolver is limited by a borrowing base defined by specific accounts receivable and inventory levels. The agreement also provides for seasonal overadvances from April 1<sup>st</sup> through July 31<sup>st</sup> of each year during the peak of the inventory build-up period.

On June 14, 2001, Pumpkin used the new financing facilities to retire all amounts owing to Banc of America Commercial Finance Corporation (\$3,247,001, including \$900,000 to repurchase the full amount of outstanding warrants) and to pay the closing costs of the refinancing. The term loan is a 24-month obligation with monthly payments due July 1, 2001 through June 1, 2003. This term note bears interest at the prime rate or the LIBOR rate plus 2.5%. Principal repayments are due as follows: \$625,000 in 2001, \$1,250,000 in 2002 and \$625,000 in 2003. The revolver bears interest at the prime rate or the LIBOR rate plus 2.5% and runs for three years through June 2004.

During the third quarter of 2001, the Company's subsidiary, Health Power, Inc., converted the \$5,347,000 revolver balance still outstanding from the total \$6,000,000 it had drawn in April to acquire 100% of the common stock of Trigon Administrators, Inc., a TPA administrator in Virginia and Maryland, to term debt. This conversion was accomplished by increasing the existing term loan with Bank One which is senior term debt payable in monthly installments through January 2007. It carries a rate of prime minus ½% or LIBOR plus 175 basis points (5.5% at September 30, 2001).

On August 8, 2001, the Company's subsidiary, Possible Dreams, amended its existing loan agreement to modify the minimum EBITDA and total debt coverage ratio covenants for September 30, 2001 and for all future periods covered by the loan agreement (through April 1, 2003).

The Company's subsidiary, Primrose, has reclassified all of its term debt, \$8,078,000 at September 30, 2001, to current debt because of present debt covenants which the Company believes Primrose will not be in compliance with at March 31, 2002. However, the Company intends to refinance this debt prior to March 2002.

(13) New Accounting Pronouncements

In June 2001, the Financial Accounting Standards Board issued SFAS No. 141, "Business Combinations", and SFAS No. 142, "Goodwill and Other Intangible Assets", effective for fiscal years beginning after December 15, 2001 for pre-July 1, 2001 goodwill and other intangibles.

## Edgar Filing: SECURITY CAPITAL CORP/DE/ - Form 10-Q

(Acquisitions made after June 30, 2001 would be subject to the new rules immediately, but the Company has not had any to date.) Under the new rules, all goodwill and those intangible assets deemed to have indefinite lives will no longer be amortized but will be subject to annual impairment tests in accordance with the Statements. Other intangible assets will continue to be amortized over their useful lives..

The Company will apply the new rules on accounting for goodwill and other intangible assets beginning in the first quarter of 2002 and beginning immediately for any 2001 acquisitions occurring after June 30, 2001 (of which there have been none to date). Beginning January 1, 2002, the Company will no longer amortize goodwill or any indefinite-lived intangible assets. During 2002, the Company will perform the first of the required impairment tests of goodwill and indefinite-lived intangible assets.

(14) Directors

**Change in Security Capital Board of Directors** On August 17, 2001, Craig R. Stapleton resigned from the Company's Board of Directors to become United States Ambassador to the Czech Republic. To fill the vacancy created by Mr. Stapleton's departure, on September 7, 2001, the Board named John H. F. Haskell, Jr. to fill Mr. Stapleton's unexpired term. This term will run until the 2002 Annual Meeting of Stockholders.

(15) Subsequent Events

**Security Capital Corporation employee stock options** Pursuant to the provisions of the 2000 Long-Term Incentive Plan, an exiting director chose to exercise 16,000 vested options to purchase the Company's Class A common stock in October 2001. This resulted in a net increase in Class A shares outstanding of 8,278. These options would have otherwise expired 90 days after the August 17<sup>th</sup> termination of his directorship (November 15, 2001). The remaining 8,000 options held by this former director were not vested and were cancelled on August 17, 2001 pursuant to the provisions of his stock option grant certificate as issued under the 2000 Long-Term Incentive Plan.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion should be read in conjunction with the financial statements of the Company and the related notes thereto appearing elsewhere in this Report on Form 10-Q. Additional information concerning factors that could cause results to differ materially from those forward-looking statements is contained under Part II Item 5. Other Information.

**Results of Operations**

Security Capital reported net income of \$3,806,000 and \$3,993,000 for the three and nine month periods ended September 30, 2001, respectively. This compares to net income of \$2,987,000 and \$2,525,000 for the same periods of the prior year. The Company reported basic net earnings per common share of \$0.58 for both the three and nine month periods ended September 30, 2001 as compared to basic net earnings per common share of \$0.45 and \$0.36 for the comparable periods of 2000. The primary reason for the increase in net income and net earnings per common share was the inclusion in the 2001 results of the employer cost containment-related services segment, acquired in late December 2000.

The Company's revenues increased by \$15,003,000 or 74% and by \$39,666,000 or 117% to \$35,312,000 and \$73,440,000 for the three and nine month periods ended September 30, 2001, respectively, as compared to the same periods of the prior year, primarily due to the acquisition of the employer cost containment-related services segment. Without taking into consideration the acquisition of this segment, revenues increased by \$1,077,000 or 5% and by \$65,000 or 0.2% to \$21,386,000 and \$33,839,000 for the three and nine month periods ended September 30, 2001, respectively, as compared to the same periods of the prior year.

The Company's seasonal products segment revenues increased by \$994,000 or 5% to \$19,549,000 for the three month period ended September 30, 2001 as compared to the same period of the prior year. This increase stemmed from the timing of sales which came in later in the current year than they did in the previous year.

Conversely, the Company's seasonal products segment revenues decreased by \$552,000 or 2% to \$28,114,000 for the nine month period ended September 30, 2001 as compared to the same period of the prior year. The decrease in this segment's revenues on a year-to-date basis when compared to the same period of the prior year was due to the impact that the economic slowdown has had on the retail market.

## Edgar Filing: SECURITY CAPITAL CORP/DE/ - Form 10-Q

The educational services segment revenues increased by \$83,000 or 5% and by \$617,000 or 12% to \$1,837,000 and \$5,725,000 for the three and nine month periods ended September 30, 2001, respectively, due to same school revenue increases coupled with the revenue contribution made by the 13 new schools opened since September 2000. As an additional performance measure of the increasing success of the educational services segment's concept, the Company monitors the revenues generated by its franchisees. Total educational system revenue, or gross revenue of all educational-based child care center franchises, increased by \$2,835,000 or 16% and by \$9,539,000 or 18% to \$20,675,000 and \$62,611,000 for the three and nine month periods ended September 30, 2001, respectively, as compared to the same periods of the prior year. These increases were generated as a result of a 16% increase in the number of educational-based childcare centers, which was 94 and 81 as of September 30, 2001 and 2000, respectively.

Selling, general and administrative expense increased by \$9,927,000 or 233% and by \$28,142,000 or 272% to \$14,191,000 and \$38,478,000 for the three and nine month periods ended September 30, 2001, respectively, as compared to the same periods of the prior year, primarily due to the acquisition of the employer cost containment-related services segment. Without taking into consideration the acquisition of this segment, selling, general and administrative expense increased by \$29,000 or 1% and by \$296,000 or 3% for the three and nine month periods ended September 30, 2001, as compared to the same periods of the prior year. The seasonal products segment's selling, general and administrative expense decreased by \$194,000 or 5% and by \$263,000 or 3% for the three and nine month periods ended September 30, 2001, respectively, as compared to the same periods of the prior year, primarily attributable to lower commission expense associated with lower sales volumes. On the other hand, the educational services segment's selling, general and administrative expense increased by \$202,000 or 39% and by \$618,000 or 41% for the three and nine month periods ended September 30, 2001, respectively, as compared to the prior year, due to an increase in staff to accommodate this segment's growth in the number of operating locations.

Amortization and depreciation expense increased by \$879,000 or 146% and by \$2,650,000 or 148% to \$1,480,000 and \$4,438,000 for the three and nine month periods ended September 30, 2001, respectively, as compared to the same periods of the prior year, primarily due to the amortization of goodwill associated with the acquisition of the employer cost containment-related services segment. Without taking into consideration the acquisition of this segment, amortization and depreciation expense increased by \$19,000 or 3% and by \$88,000 or 5% for the three and nine month periods ended September 30, 2001, as compared to the same periods of the prior year, entirely due to the seasonal products segment's amortization expense related to the goodwill it acquired at the end of 2000. The educational services segment amortization and depreciation expense was basically unchanged from the comparable three and nine month periods of the prior year. As discussed in Note 13 of the Notes to the Condensed Consolidated Financial Statements in this Report on Form 10-Q, the Financial Accounting Standards Board's newly-issued SFAS No. 141 and SFAS No. 142 have had no impact on the 2001 amortization expense of the Company but will result in reduced amortization expense during 2002.

Interest expense increased by \$626,000 or 66% and by \$2,054,000 or 86% to \$1,570,000 and \$4,438,000 for the three and nine month periods ended September 30, 2001, respectively, as compared to the same periods of the prior year primarily due to the acquisition of the employer cost containment-related services segment. Without taking into consideration the acquisition of this segment, interest expense decreased by \$214,000 or 23% and by \$280,000 or 12% for the three and nine month periods ended September 30, 2001, respectively, as compared to the same periods of the prior year, with the major factors being lower interest rates on all of the Company's variable debt and reduced average debt levels in the educational services segment.

Income tax expense increased by \$1,166,000 or 52% and by \$2,121,000 or 112% to \$3,410,000 and \$4,014,000 for the three and nine month periods ended September 30, 2001, respectively, as compared to the same periods of the prior year due both to the beneficial pre-tax income effects of adding the employer cost containment-related services segment in December 2000 combined with the jump in the effective tax rate from 38% to 45% for the nine month periods ended September 30, 2000 and 2001, respectively. This increase in the effective tax rate in 2001 reflects the Company's amortization of goodwill acquired in the December 2000 acquisition, which is non-deductible for income tax purposes.

## Seasonality

The seasonal products segment consists of Possible Dreams and Pumpkin. This segment experiences a significant seasonal pattern in its working capital requirements and operating results. In 1999 and 2000, the seasonal products segment received orders representing approximately 36% and 37% of its annual bookings during the first and second quarters, respectively. Possible Dreams and Pumpkin ship products throughout the year, with approximately 56% of their combined shipments in the third quarter. Temporary employees are hired to accommodate peak shipping periods. This segment provides extended payment terms to some of its customers for seasonal merchandise and, accordingly, collects a substantial portion of its accounts receivable in the fourth calendar quarter. Due to the seasonal pattern, the seasonal products segment has had greater working capital needs in its peak season and has experienced greater cash availability in its fourth calendar quarter. As a result of this sales pattern, a substantial portion of its revenues is typically recorded in the third and fourth calendar quarters. The Company expects this seasonal pattern to continue for the foreseeable future. The seasonal products segment has historically financed its operations through internally-generated cash flow and short term seasonal borrowings.

## Liquidity and Capital Resources

Cash and cash equivalents decreased by \$5,379,000 from \$5,777,000 at December 31, 2000 to \$398,000 at September 30, 2001. This decrease was primarily attributable to seasonal increases of working capital.

The Company's consolidated working capital decreased by \$2,702,000, from a deficit of \$7,354,000 at December 31, 2000 to a deficit of \$10,056,000 at September 30, 2001. The most significant contributor to this decrease was the \$5,371,000 reclassification to current debt as discussed in Note 12 of the Notes to the Condensed Consolidated Financial Statements in this Report on Form 10-Q. This decrease was partially offset by an increase in accounts receivable and inventory levels and a decrease in the unearned revenue liability due to seasonal patterns within the Company's businesses.

The Company maintains four revolving lines of credit, with a total of \$13,027,000 outstanding and \$11,673,000 available at September 30, 2001. Borrowings under the revolving lines of credit may be limited to a borrowing base as defined in the notes to the audited financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2000 and, with respect to Pumpkin, in Note 12 of the Notes to the Condensed Consolidated Financial Statements in this Report on Form 10-Q.

Total term debt, exclusive of original issue discount but inclusive of capital lease obligations, increased by \$1,207,000 from \$43,334,000 at December 31, 2000 to \$44,541,000 at September 30, 2001 due to the conversion of the revolver in the employer cost containment-related services segment (as discussed in Note 12 of the Notes to the Condensed Consolidated Financial Statements in this Report on Form 10-Q) and the new capital lease at Possible Dreams (as discussed in Note 11 of same) as offset by scheduled payments on all term debt. Term debt in the aggregate carried an approximate 8.97% weighted average borrowing rate at September 30, 2001 and an approximate 10.19% weighted average borrowing rate for the nine month period ended September 30, 2001. Current maturities of term debt, exclusive of original issue discount but inclusive of current capital lease obligations, were \$15,613,000 at September 30, 2001.

Term debt has certain covenants at the subsidiary operating company level, the more significant of which require the subsidiary operating companies to maintain minimum earnings before interest, taxes, depreciation and amortization ("EBITDA"), leverage ratios, interest coverage ratios, fixed charge ratios and maximum lease expenses.

## Edgar Filing: SECURITY CAPITAL CORP/DE/ - Form 10-Q

The Company's subsidiary, Possible Dreams, entered into a capital lease for an information system to replace its current system during the first quarter of 2001. The total net present value reflected in the September 30, 2001 balance sheet as both a fixed asset and a liability was \$606,734. The system is currently being installed, and it is anticipated that it will be fully operational by January 1, 2002 when the lease payments and depreciation of the fixed asset will begin. The Company expects no additional major capital expenditures during the calendar year 2001.

As discussed in Note 12 of the Notes to the Condensed Consolidated Financial Statements in this Report on Form 10-Q, Pumpkin refinanced its term and revolving debt during the second quarter thereby eliminating dilutive bank warrants and significantly lowering interest expense.

On April 1, 2001, the Company's subsidiary, Health Power, acquired 100% of the common stock of Trigon Administrators, Inc., a TPA administrator in Virginia and Maryland. The entire purchase price paid for the acquisition - \$6,000,000 - was financed through Health Power's revolving line of credit. Subsequent adjustments to the purchase price reduced it to a \$5,541,000. In conjunction with this purchase, Health Power's loan agreement was amended during the first quarter of 2001, and Health Power converted the revolver balance to term during the third quarter of 2001, both of which are outlined in Note 12 of the Notes to the Condensed Consolidated Financial Statements in this Report on Form 10-Q.

Excess of cost over the fair value of net assets acquired (goodwill) is amortized on a straight-line basis over 20 to 25 years. Management continues to believe that the amortization periods utilized are appropriate.

In June 2001, the Financial Accounting Standards Board issued SFAS No. 141, Business Combinations, and SFAS No. 142, Goodwill and Other Intangible Assets, effective for fiscal years beginning after December 15, 2001. Under the new rules, all goodwill and those intangible assets deemed to have indefinite lives will no longer be amortized but will be subject to annual impairment tests in accordance with the Statements. Other intangible assets will continue to be amortized over their useful lives.

The Company will apply the new rules on accounting for goodwill and other intangible assets beginning in the first quarter of 2002. Beginning January 1, 2002, the Company will no longer amortize goodwill or any indefinite-lived intangible assets. During 2002, the Company will perform the first of the required impairment tests of goodwill and indefinite-lived intangible assets.

The Company's quarterly and annual revenues and other operating results have been and will continue to be affected by a wide variety of factors that could have a material adverse effect on the Company's financial performance during any particular quarter or year. Such factors include, but are not limited to, those listed under Item 5. of Part II of this Report on Form 10-Q. The seasonal products segment businesses introduced a number of new products in its target markets in 2001 which are expected to enhance future revenues and liquidity of the Company. However, there can be no assurance that these businesses will be able to implement their plans to introduce such products in a timely fashion, or that such products will meet the expectations of the Company for either revenues or profitability. The Company believes that cash flows from operating activities and the successful introduction of its new products and continued growth of its franchises, as well as its available borrowings under the revolving credit facilities, will be adequate to meet the Company's debt service obligations, working capital needs and planned capital expenditures for at least the next 12 months, although there can be no assurance in this regard.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

Market risk represents the risk of loss that may impact the consolidated financial position, results of operations or cash flows of the Company. The Company is exposed to market risk associated with changes in interest rates. The Company's notes payable and long-term debt bear interest primarily at variable rates. The Company is subject to increases and decreases in interest expense on its variable rate debt resulting from fluctuations in the interest rates on such debt. The effect of a one percentage point change in interest rates would have increased or decreased interest expense by approximately \$401,000 and \$350,000 for the three and nine month periods ended September 30, 2001, respectively.

## **PART II OTHER INFORMATION**

## **Item 4. Submission of Matters to a Vote of Security Holders**

(a) The Company held its 2001 Annual Meeting of Stockholders (the Annual Meeting ) on July 19, 2001.

(b) The following directors were elected at the Annual Meeting: Brian D. Fitzgerald, A. George Gebauer, Samuel B. Fortenbaugh III, M. Paul Kelly and Craig R. Stapleton. They were the only directors of the Company until September 7, 2001 as discussed in Item 5. of Part II of this Report on Form 10-Q.

(c) Set forth below is a description of the one matter voted upon at the Annual Meeting, including the number of votes cast for, as well as the number of votes withheld and broker non-votes, as to each nominee for election as a director.

Election of five directors, each to serve until the next Annual Meeting of Stockholders and until his successor is duly elected and qualified.

Nominees	Votes For	Votes Withheld	Broker- Non-Votes
Brian D. Fitzgerald	6,203,209	24,014	0
A. George Gebauer	6,203,209	24,014	0
Samuel B. Fortenbaugh III	6,203,276	23,947	0
M. Paul Kelly	6,203,276	23,947	0
Craig R. Stapleton	6,203,276	23,947	0

**Item 5. Other Information**

At the Annual Meeting of the Company's Board of Directors held on July 19, 2001, the Board of Directors elected Brian D. Fitzgerald as Chairman of the Board, President and Chief Executive Officer, A. George Gebauer as Vice Chairman of the Board and Secretary and William R. Schlueter as Vice President, Chief Financial Officer, Treasurer and Assistant Secretary of the Company.

On August 17, 2001, Craig R. Stapleton resigned from the Company's Board of Directors to become United States Ambassador to the Czech Republic. To fill the vacancy created by Mr. Stapleton's departure, on September 7, 2001, the Board named John H. F. Haskell, Jr. to fill Mr. Stapleton's unexpired term. This term will run until the next Annual Meeting of Stockholders and until his successor is duly elected and qualified.

This filing contains "forward-looking" statements within the meaning of the "safe harbor" provision of the Private Litigation Reform Act of 1995. Such statements are based on management's current expectations and are subject to a number of factors and uncertainties which could cause actual results to differ materially from those described in the forward-looking statements. Such factors and uncertainties include, but are not limited to: future legislative changes which could impact the laws governing workers' compensation insurance in Ohio and the other states in which our employer cost containment-related services segment operates, the level of orders that are received and shipped by the Company in any given quarter, the rescheduling and cancellation of orders by customers, the availability and cost of materials, the Company's ability to enhance its existing products and to develop, manufacture and successfully introduce and market new products, new product developments by the Company's competitors, market acceptance of products of both the Company and its competitors, competitive pressures on prices, the ability to attract and maintain qualified personnel, significant damage to or prolonged delay in operations at the manufacturing facilities of the Company's suppliers, interest rate and foreign exchange fluctuations, political stability in the Pacific Rim, and the Company's ability to attract qualified franchisees.

**Item 6. Exhibits and Reports on Form 8-K**

(a) Exhibits: None

(b) Reports on Form 8-K: None

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.
