**Item 7.01. Regulation FD Disclosure.**

On November 2, 2006, Forest announced that it had formed a new subsidiary, Forest Alaska Operating LLC ( Alaska ), and had transferred the majority of the assets associated with its Alaska business unit to Alaska as of October 31, 2006. The new subsidiary intends to attempt to obtain \$375 million of term loan financing to fund a \$350 million distribution to Forest and to provide working capital for Alaska's operations. Forest will indirectly own 100% of the interests in Alaska and the term loans will be secured by Alaska's assets and will be non-recourse to Forest.

Forest also announced that the new subsidiary initially had approximately 32 MMBoe of estimated proved reserves, and production of approximately 6,000 Boe/d, as of September 30, 2006. These estimated proved reserves are based on a recently received updated reserve report prepared by Forest's independent reserve engineers, DeGolyer and MacNaughton ( D&M ). D&M's report, which was prepared as of June 30, 2006, states that Forest's estimated proved reserves in the State of Alaska increased by 12 MMBoe since Forest's 2005 year-end reserve report. A copy of the press release is included as Exhibit 99.1 to this report.
