### To our Shareholders:

On September 30, 2007, the net asset value (NAV) per share of the Fund was \$15.34. During the twelve-month period ended September 30, 2007, total return at net asset value of your Fund was 19.51%. During the most recent six-month period ended September 30, 2007, total return at net asset value of your Fund was 11.22%. The total investment return at market was 10.56% during the twelve-month period ended September 30, 2007 and was 1.56% during the six-month period ended September 30, 2007. Comparisons to relevant indices are listed below:

	Six months Ended	Fiscal Year Ended
Investment Returns	9/30/07	9/30/07
Investment Return at Market	+ 1.56%	+10.56%
Net Asset Value	+11.22%	+19.51%
NASDAQ Biotech Index (NBI)	+ 9.96%	+13.27%
S&P 500 Index	+ 8.44%	+16.44%

During both the fiscal year and six month period ending September 30, 2007, the NAV of the Fund exceeded both its NBI benchmark and the S&P 500 Index. In addition, during this period, the discount at which the Fund's shares trade increased. As of September 30, 2007 the Fund traded at a discount of 11.80% compared to a year earlier when the discount was 4.66%. Such widening of discount was observed in many other closed end funds during fiscal 2007, probably resulting from recent dynamics in the U.S. credit markets. Though we are unaware of any significant credit exposure in our portfolio, our Fund's discount may have been negatively affected by this general trend. The discount may have also been adversely affected by what we perceive as a recent trend in sentiment away from higher volatility investments. Our Fund typically exhibits greater volatility than the broad market indices.

During the twelve-month period ending September 30, 2007, a number of broad trends have been observed in the healthcare sector. In general, the biotechnology, managed care, pharmacy benefit manager, diagnostics and life science tool sub-sectors have been among the best performers during the twelve month period while the healthcare provider and small developing biotech sub-sectors have been among the weakest performers.

During the last twelve months, merger and acquisition activity has been a major theme in the healthcare sector in general and in the biotech sub-sector, particularly. The planned or completed acquisition of Fund holdings, such as MedImmune, Inc. and Cytyc

1

Corporation for example, has had positive effect on the NAV of the Fund. We believe that other acquisitions within the sector, including the acquisitions of Caremark Rx, Inc., Organon BioSciences N.V. and New River Pharmaceuticals Inc. by CVS Corporation, Schering-Plough Corporation and Shire Plc, respectively, have helped to create general market interest in healthcare.

As always, specific clinical and marketing events, both positive and negative, have had significant apparent impact on interest in healthcare. The approval and rapid launch of Merck & Co.'s Januvia has been impressive. On the other hand, the apparent failure to attain market adoption by Pfizer Inc./Nektar Therapeutics's inhaled insulin product, Exubera, has been a significant disappointment.

We have also observed a general developing interest in technologies related to RNAi therapeutics and similar target-specific approaches. Alnylam Pharmaceuticals, Inc., Isis Pharmaceuticals, Inc. and Sangamo Biosciences, Inc. are all relatively early stage companies developing technologies and/or products in this area of science. Most have exhibited significant increases in the price of their stock over the last year. Sirna Therapeutics, Inc., a company developing related technologies, was acquired by Merck & Co., Inc. (Please note that regarding the above discussion of the companies mentioned, the Fund owned positions in Cytyc Corporation, Shire Plc and Alnylam Pharmaceuticals, Inc. at fiscal year end.)

During the report period the Centers for Medicare & Medicaid Services (CMS) reimbursement for products marketed by a number of companies including the anemia treating drugs sold by Amgen, Inc., the largest component of the NBI index, came under great debate. CMS reimbursement of other products made by such companies as Sepracor Inc., Cephalon, Inc. and Endo Pharmaceuticals Holdings was also affected. Separately, there were a number of developments affecting the way Hepatitis C may be treated in the future. These developments have had material impact on Idenix Pharmaceuticals Inc., Vertex Pharmaceuticals, Inc., Schering-Plough Corporation, Human Genome Sciences, Inc. and others.

Within the last year, several of our private venture companies have either attained public listing or have declared their intention to do so. In particular, Masimo Corporation has completed a very successful IPO and Cougar Biotechnology, Inc. completed a reverse merger which resulted in a public listing. Concentric Medical, Inc. and CardioNet, Inc. made S-1 filings with the Securities Exchange Commission (SEC), each declaring its intention to undertake an IPO.

During the twelve-month period ending September 30, 2007, Align Technology, Inc., MedImmune, Inc., Zix Corporation, ACADIA Pharmaceuticals, Inc., and Conor Medsystems, Inc. produced the greatest positive impact on the Fund's NAV. Note that ACADIA Pharmaceuticals, Inc., Conor Medsystems, Inc. and Zix Corporation were originally restricted investments. Amgen, Inc., Emageon, Inc., and Idenix Pharmaceuticals Inc. had the largest negative effect on Fund NAV among the public portfolio. Write downs of venture investments in Raven biotechnologies, Inc. and OmniSonics Medical Technologies, Inc. also had significant negative impact on NAV.

During the twelve-month period ended September 30, 2007, within the public portfolio, the Fund established positions in several companies including Applera Corp.-Applied Biosystems Group, Becton, Dickinson, and Company, BioMarin Pharmaceutical Inc., PerkinElmer, Inc. and Thermo Fisher Scientific Inc. During the same twelve-month period the Fund exited its position in several companies including MedImmune, Inc., Natus Medical, Inc., Theravance, Inc., United Therapeutics Corp. and ZymoGenetics, Inc. The Fund exited its position in Conor Medsystems, Inc. when it was acquired by Johnson & Johnson and also exited its position in Myogen, Inc. when it was acquired by Gilead Sciences, Inc.

During the same twelve-month period, within the venture portfolio, the Fund established a position in Athersys, Inc., FlowCardia, Inc., Magellan Biosciences, Inc. and Xoft, Inc. and made follow on investments in Agensys, Inc., CardioNet, Inc., Ceres, Inc., Matritech Inc., TargeGen, Inc. and Xanthus Life Sciences, Inc. Also, Cougar Biotechnology, Inc. exited the Fund's venture portfolio when its registration statement was declared effective by the SEC and the company's shares became publicly traded. The Fund wrote off its venture position in Galileo Pharmaceuticals, Inc. and Therion Biologics Corporation.

Please note that during this report period, the Fund began to engage in options transactions.

As always, if you have questions, please feel free to call us at (617)772-8500.
