SHAREHOLDER LETTER

September 30, 2008 (Unaudited)

To our Investors:

The underlying value of the Clough Global Opportunities Fund, defined as the change in net asset value adjusted for reinvested distributions, is down 37.3% for the calendar year-to-date period through October 31, 2008. The return on the Fund's market price for the same period was -37.2%. The Morgan Stanley World Index declined 38.3% and the S&P 500 declined 32.8% over the same period. Since inception, the Fund's compound annual total return including distributions is -9.5% compared to -11% for the Morgan Stanley World Index and -9.4% for the S&P 500 through October 31, 2008. The Fund's compound annual return since inception on market price is -16.6%

The last six months have been particularly challenging for global investors and our Funds have not been immune. The well publicized and analyzed credit crisis emanating from the US and other highly indebted large economies pressured all asset classes. Equity, corporate bonds and commodity markets virtually all declined, across nearly all geographic regions. Much of these declines were driven by forced selling as part of an ongoing deleveraging process.

This difficult period has undoubtedly created many investment opportunities for our Funds. The ongoing deflation of the credit structure in the developed world will moderate and legitimate investment cycles should reemerge. We believe that equities provide a far better value proposition today and we have begun to move our equity allocations higher. One thing we feel certain of is debt will not be so easily accessible in the future, and the default structure will migrate to other sectors of the economy besides housing. All of this implies a long period of weak economic activity so having a global perspective and a willingness to focus the Fund on a narrow list of themes that provide an earnings tailwind will be critical to performance.

First, we think equities in emerging markets, which benefit from high levels of private savings and low debt levels, will bottom first and lead global markets higher. Asia and Brazil remain our areas of greatest interest and both rallied strongly in early November. Brazil's market in particular intrigues us. We believe equities are cheap there and corporate activity is awakening. Banco Itau is acquiring Unibanco, creating South America's largest financial institution. Our investment focus there is on the banking and consumer sectors. Even as developed economies slow, Brazil's well capitalized banking sector continues to grow in excess of 20% annually.

Secondly, we think global infrastructure could be a major market theme looking ahead. We are beginning to build an important position in a group of industrial stocks which we believe will be beneficiaries of such a pickup. President Elect Obama has announced federal government spending on infrastructure will accelerate as the needs are legion and a new administration will have every incentive to bring forth stimulus spending in response to the credit crisis. Other governments will likely join in. Strong investment

www.cloughglobal.com

spending is already being planned in emerging economies. China is reducing interest rates and in contrast to a year ago when government policy was aimed at slowing real estate development, policy today has turned 180 degrees to regenerate both investment and exports. What makes the theme especially appealing is that many infrastructure stocks are down 60-80% off their highs and in many cases are back to their 2002-2003 levels. Alcoa and Freeport-McMoran both trade at just 0.7 price-to-book ratio (ratio of market price to book value). Because the recent cycle has been so strong their balance sheets are flush with cash.

Thirdly, the stocks of oil and gas producers are close to a bottom, we think. The world's large oil fields are depleting and the sharp drop in energy prices has slowed much of the investment in new wells. Over time, that will only exacerbate supply problems while softer commodity prices have already begun to stimulate demand.

Finally, a number of large capitalization issues that generate high free cash flow levels appear to have begun to bottom. Because of the overall equity market collapse, many stocks offer free cash flow yields of 8% or higher.

The dislocation in credit markets has also provided opportunities for us to enhance the yield generated by our asset allocation to fixed income markets. Corporate bond yields, both investment grade and non-investment grade, have increased significantly as structured finance vehicles such as Collateralized Loan Obligations (CLOs) are being forced to unwind and the bonds they hold search for a home. We have historically not had significant exposure to corporate credit, as we have generally not felt the risk adjusted returns were sufficiently attractive. That is no longer the case. We are seeing similarly attractive yield and return opportunities from high quality mortgage bonds which are also trading at much higher than normal spreads. We expect to shift the portfolio into these higher yielding securities over the coming months.

Ultimately the economy cannot operate properly until the financial system is functioning again. Central banks are generally slow to respond to deflationary pressures. The strong dollar and weak gold price attest to the fact that when the Fed reflate to stem a credit collapse, the results are not inflationary. Central banks appear to be coming to realize that the process of stuffing liquidity into the financial system did not undue the logjam which was restricting credit. It may have forestalled an immediate meltdown because it relieved short term funding needs, but it did not address the more fundamental issue of solvency and declining asset values. Now Federal Reserve spokespeople are signaling that quantitative easing is being considered, if not already being effectively put in place. Yield curves are still inverted in the U.K. and in Europe and that signals that money rates have a long way to fall there as well.

We believe there are two dynamics the financial markets have to navigate through. First, the demise of the large broker dealers did more than end an era on Wall Street.

Edgar Filing: Clough Global Opportunities Fund - Form N-CSRS

It removed liquidity and depth from the markets and minor changes in sentiment are now reflected in large changes in price so market volatility has picked up dramatically. Secondly, the economy has to negotiate its way through a major debt liquidation for the first time in decades and that signals a long period of weak earnings.

Investors responded to these factors by liquidating securities of all stripes in October and our question is where did they put the money? We think money rates will decline to near zero and remain there for years as banking system consolidation picks up, reducing the need for, and price of deposits. Yields on high quality long-term bonds will also likely decline to unattractive levels. Leveraged investment strategies in both fixed income and private equity may never be what they were. We believe that leaves global equities as the default strategy, the only securities class that offers reasonably high returns. As money rates fall, equities are likely to be the prime beneficiaries. We believe the Fund is invested in the areas to which the money will migrate.

If you have any questions or comments, please feel free to call me 877-256-8445 or visit the website at www.cloughglobal.com.

Sincerely,

Charles I. Clough, Jr.

Clough Capital Partners, L.P. is a Boston-based investment management firm that has approximately \$3.1 billion under management. For equities, the firm uses a global and theme-based investment approach based on identifying chronic shortages and growth opportunities. For fixed-income, Clough believes changing economic fundamentals help reveal potential global credit market opportunities based primarily on flow of capital into or out of a country. Clough was founded in 2000 by Chuck Clough and partners James Canty and Eric Brock. These three are the portfolio managers for the Clough Global Opportunities Fund.

STATEMENT OF CASH FLOWS

For the Six Months Ended September 30, 2008 (Unaudited)

CASH FLOWS FROM OPERATING ACTIVITIES:	
Net decrease in net assets from operations	\$ (166,141,665)
Adjustments to reconcile net increase in net assets from operations to net cash provided by operating activities:	
Purchase of investment securities	(1,086,686,012)
Proceeds from disposition of investment securities	1,218,237,397
Net proceeds from short-term investment securities	70,996,356
Net realized loss from investment securities	29,656,776
Net change in unrealized depreciation on investment securities	179,461,652
Premium amortization	165,401
Discount amortization	(80,047)
Decrease in deposits with brokers for shorts and written options	33,515,518
Increase in receivables on investments sold	(59,887,140)
Increase in dividends receivable	(17,378)
Decrease in interest receivable	192,462
Decrease in other assets	230,376
Increase in interest due on loan payable	877,016
Decrease in securities sold short	(38,944,939)
Increase in options written	7,624,250
Decrease in payable for investment securities purchased	(53,336,950)
Decrease in accrued investment advisory fee	(209,891)
Decrease in accrued administrative fee	(67,165)
Increase in accrued trustee fee	8,062
Increase in dividends payable short sales	58,129
Decrease in other payables	(16,130)
Net decrease in cash	135,636,078
Cash Flows From Financing Activities:	
Net proceeds from bank borrowing	354,280,588
Redemption of auction market preferred shares	(450,379,543)
Cash distributions paid	(43,216,783)
Net Cash Used in Financing Activities	(139,315,738)
Net decrease in cash	(3,679,660)
Cash and foreign currency, beginning balance	5,393,666
Cash and foreign currency, ending balance	1,714,006
Supplemental Disclosure of Cash Flow Information:	
Cash paid during the period for interest from bank borrowing:	\$ (4,362,605)

Edgar Filing: Clough Global Opportunities Fund - Form N-CSRS

Average market value per share (6)	(5) \$	25,000	\$	25,000
------------------------------------	--------	--------	----	--------

* Based on average shares outstanding

- (1) Total investment return is calculated assuming a purchase of a common share at the opening on the first day and a sale at closing on the last day of each period reported. Total investment return on net asset value excludes a sales load of \$0.90 per share for the period, effectively reducing the net asset value at issuance from \$20.00 to \$19.10. Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment returns do not reflect brokerage commissions on the purchase or sale of the Fund's common shares. Total investment returns for less than a full year are not annualized. Past performance is not a guarantee of future results.
- (2) Annualized.
- (3) Ratios do not reflect dividend payments to preferred shareholders.
- (4) Calculated by subtracting the Fund's total liabilities (excluding Preferred Shares) from the Fund's total assets and dividing by the number of preferred shares outstanding.
- (5) All series of AMPS issued by the Fund were fully redeemed, at par value, on May 23, 2008. A borrowing facility replaced the AMPS, as the Fund's form of leverage, May 23, 2008.
- (6) Based on monthly prices.

See Notes to Financial Statements

NOTES TO FINANCIAL STATEMENTS

September 30, 2008 (Unaudited)

1. SIGNIFICANT ACCOUNTING AND OPERATING POLICIES

Clough Global Opportunities Fund (the Fund) is a closed-end management investment company that was organized under the laws of the state of Delaware by an Agreement and Declaration of Trust dated January 12, 2006. The Fund is a non-diversified series with an investment objective to provide a high level of total return. The Declaration of Trust provides that the Trustees may authorize separate classes of shares of beneficial interest.

Security Valuation: The net asset value per Share of the Fund is determined no less frequently than daily, on each day that the American Stock Exchange (the Exchange) is open for trading, as of the close of regular trading on the Exchange (normally 4:00 p.m. New York time). Trading may take place in foreign issues held by the Fund at times when the Fund is not open for business. As a result, the Fund's net asset value may change at times when it is not possible to purchase or sell shares of the Fund. Securities held by the Fund for which exchange quotations are readily available are valued at the last sale price, or if no sale price or if traded on the over-the-counter market, at the mean of the bid and asked prices on such day. Debt securities for which the over-the-counter market is the primary market are normally valued on the basis of prices furnished by one or more pricing services at the mean between the latest available bid and asked prices. As authorized by the Trustees, debt securities (other than short-term obligations) may be valued on the basis of valuations furnished by a pricing service which determines valuations based upon market transactions for normal, institutional-size trading units of securities. Short-term obligations maturing within 60 days are valued at amortized cost, which approximates value, unless the Trustees determine that under particular circumstances such method does not result in fair value. Over-the-counter options are valued at the mean between bid and asked prices provided by dealers. Financial futures contracts listed on commodity exchanges and exchange-traded options are valued at closing settlement prices. Securities for which there is no such quotation or valuation and all other assets are valued at fair value in good faith by or at the direction of the Trustees.

Foreign Securities: The Fund may invest a portion of its assets in foreign securities. In the event that the Fund executes a foreign security transaction, the Fund will generally enter into a forward foreign currency contract to settle the foreign security transaction. Foreign securities may carry more risk than U.S. securities, such as political, market and currency risks.

The accounting records of the Fund are maintained in U.S. dollars. Prices of securities denominated in foreign currencies are translated into U.S. dollars at the closing rates of exchange at period end. Amounts related to the purchase and sale of foreign securities and investment income are translated at the rates of exchange prevailing on the respective dates of such transactions.

The effect of changes in foreign currency exchange rates on investments is included with the fluctuations arising from changes in market values of securities held and reported with all other foreign currency gains and losses in the Fund's Statement of Operations.

Edgar Filing: Clough Global Opportunities Fund - Form N-CSRS

A foreign currency contract is a commitment to purchase or sell a foreign currency at a future date, at a negotiated rate. The Fund may enter into foreign currency contracts to settle specific purchases or sales of securities denominated in a foreign currency and for protection from adverse exchange rate fluctuation. Risks to the Fund include the potential inability of the counterparty to meet the terms of the contract.

The net U.S. dollar value of foreign currency underlying all contractual commitments held by the Fund and the resulting unrealized appreciation or depreciation are determined

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

September 30, 2008 (Unaudited)

using prevailing forward foreign currency exchange rates. Unrealized appreciation and depreciation on foreign currency contracts are reported in the Fund's Statement of Assets and Liabilities as a receivable or a payable and in the Fund's Statement of Operations with the change in unrealized appreciation or depreciation. There were no outstanding foreign currency contracts for the Fund as of September 30, 2008.

The Fund may realize a gain or loss upon the closing or settlement of the foreign transaction. Such realized gains and losses are reported with all other foreign currency gains and losses in the Statement of Operations.

Fair Valuation: If the price of a security is unavailable in accordance with the Fund's pricing procedures, or the price of a security is suspect, e.g., due to the occurrence of a significant event, the security may be valued at its fair value determined pursuant to procedures adopted by the Board of Trustees. For this purpose, fair value is the price that the Fund reasonably expects to receive on a current sale of the security. Due to the number of variables affecting the price of a security, however; it is possible that the fair value of a security may not accurately reflect the price that the Fund could actually receive on a sale of the security. As of September 30, 2008, securities which have been fair valued represented 2.03% of the Fund's net assets.

The Fund adopted the provisions of Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157 (FAS 157), Fair Value Measurements, on April 1, 2008. FAS 157 established a three-tier hierarchy to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability that are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability that are developed based on the best information available.

Various inputs are used in determining the value of each Fund's investments as of the reporting period end. These inputs are categorized in the following hierarchy under applicable financial accounting standards:

Level 1 Quoted prices in active markets for identical investments

Level 2 Other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

Edgar Filing: Clough Global Opportunities Fund - Form N-CSRS

The following is a summary of the inputs used to value the Fund's investments as of September 30, 2008.

Valuation Inputs	Investments in Securities at Value	Other Financial Instruments* Unrealized Appreciation (Depreciation)
Level 1 - Quoted Prices	\$ 841,210,968	\$
Level 2 - Other Significant Observable Inputs	\$ 225,233,731	\$
Level 3 - Significant Unobservable Inputs	\$ 570,000	\$
Total	\$ 1,067,014,699	\$

* Other financial instruments include futures, forwards and swap contracts.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

September 30, 2008 (Unaudited)

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	Investments in Securities	Other Financial Instruments (OFI)	OFI Market Value
Balance as of 3/31/08	\$ 2,250,000		
Realized gain/(loss)			
Change in unrealized appreciation/(depreciation)	(1,680,000)		
Net purchases/(sales)			
Transfers in and/or out of level 3			
Balance as of 9/30/08	\$ 570,000		

Options: The Fund may purchase or write (sell) put and call options. One of the risks associated with purchasing an option among others, is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of premium and change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of call options is increased by premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current value of the option written. Premiums received from writing options that expire unexercised are treated by the Fund on the expiration date as realized gains from investments. The difference between the premium and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund, as writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option. Written and purchased options are non-income producing securities.

Written option activity for the six months ended September 30, 2008 was as follows:

Written Call Options	Contracts	Premiums
Outstanding, March 31, 2008	12,000	\$ 3,315,791
Positions opened	4,703	4,228,046
Closed	(10,703)	(4,404,005)
Outstanding, September 30, 2008	6,000	\$ 3,139,832
Market Value, September 30, 2008		\$ (1,020,000)

Written Put Options	Contracts	Premiums
Outstanding, March 31, 2008	18,600	\$ 9,781,050

Edgar Filing: Clough Global Opportunities Fund - Form N-CSRS

Positions opened	24,200	12,221,655
Exercised	(10,000)	(3,362,481)
Expired	(16,600)	(8,379,265)
Outstanding, September 30, 2008	16,200	\$ 10,260,959
Market Value, September 30, 2008		\$ (16,179,000)

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

September 30, 2008 (Unaudited)

Short Sales: The Fund may sell a security it does not own in anticipation of a decline in the fair value of that security. When the Fund sells a security short, it must borrow the security sold short and deliver it to the broker-dealer through which it made the short sale. A gain, limited to the price at which the Fund sold the security short, or a loss, unlimited in size, will be recognized upon the termination of the short sale.

Income Taxes: The Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Effective April 1, 2007, the Fund adopted FASB Interpretation No. 48 (FIN 48) Accounting for Uncertainty in Income Taxes, which requires that the financial statement effects of a tax position taken or expected to be taken in a tax return be recognized in the financial statements when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. Management has concluded that the Fund has taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of FIN 48. The Fund files income tax returns in the U.S. federal jurisdiction and Colorado. The statute of limitations on the Fund's federal and state tax filings remains open for the fiscal years ended March 31, 2008 and March 31, 2007.

Distributions to Shareholders: The Fund intends to make a level dividend distribution each quarter to Common Shareholders after payment of interest on any outstanding borrowings or dividends on any outstanding preferred shares. The level dividend rate may be modified by the Board of Trustees from time to time. Any net capital gains earned by the Fund are distributed at least annually to the extent necessary to avoid federal income and excise taxes. Distributions to shareholders are recorded by the Fund on the ex-dividend date. The Fund has applied to the Securities and Exchange Commission for an exemption from Section 19(b) of the 1940 Act and Rule 19b-1 thereunder permitting the Fund to make periodic distributions of long-term capital gains, provided that the distribution policy of the Fund with respect to its Common Shares calls for periodic (e.g., quarterly/monthly) distributions in an amount equal to a fixed percentage of the Fund's average net asset value over a specified period of time or market price per common share at or about the time of distribution or pay-out of a level dollar amount.

Securities Transactions and Investment Income: Investment security transactions are accounted for as of trade date. Dividend income is recorded on the ex-dividend date. Certain dividend income from foreign securities will be recorded as soon as the Fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date and may be subject to withholding taxes in these jurisdictions. Interest income, which includes amortization of premium and accretion of discount, is accrued as earned. Realized gains and losses from securities transactions and unrealized appreciation and depreciation of securities are determined using the highest cost basis for both financial reporting and income tax purposes.

Edgar Filing: Clough Global Opportunities Fund - Form N-CSRS

Use of Estimates: The Fund's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. This requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from these estimates.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

September 30, 2008 (Unaudited)

Recent Accounting Pronouncements: In March 2008 the FASB issued FASB Statement No. 161, Disclosures about Derivative Instruments and Hedging Activities (SFAS No. 161), which is intended to improve financial reporting about derivative instruments and hedging activities. It is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The Fund is currently evaluating the potential impact, if any, the adoption of SFAS No. 161 will have on the Fund's financial statements.

2. TAXES

Net unrealized appreciation/depreciation of investments based on federal tax cost as of September 30, 2008 were as follows:

Gross appreciation (excess of value over tax cost)	\$	21,636,881
Gross depreciation (excess of tax cost over value)		(234,527,533)
Net unrealized depreciation		(212,890,652)
Cost of investments for income tax purposes	\$	1,279,905,351

3. CAPITAL TRANSACTIONS

Common Shares: There are an unlimited number of no par value common shares of beneficial interest authorized. Of the 51,736,859 common shares outstanding on September 30, 2008, ALPS Fund Services (ALPS) owned 5,236 shares.

Transactions in common shares were as follows:

	For the Six Months Ended September 30, 2008	For the Year Ended March 31, 2008
Common shares outstanding - beginning of period	51,736,859	51,736,859
Common shares issued as reinvestment of dividends		
Common shares outstanding - end of period	51,736,859	51,736,859

Preferred Shares: In April 2008 the Fund announced its intent to redeem all outstanding shares of its Auction Market Preferred Shares (AMPS). Proper notice was sent to AMPS holders on or before May 22, 2008, and all outstanding AMPS issued by the Fund were redeemed at par, in their entirety, pursuant to their terms.

The Fund obtained overnight collateralized financing to provide new funding in order to redeem the AMPS and provide up to 33% leverage to the Fund going forward. The Fund's Board of Trustees approved the refinancing at a Special Meeting of the Board of Trustees on April 9, 2008. The overnight facility is expected to lower the costs of leverage. Also see Note 6 Leverage, for further information on the borrowing facility used by the Fund as of September 30, 2008.

4. PORTFOLIO SECURITIES

Purchases and sales of investment securities, other than short-term securities, for the year ended September 30, 2008 aggregated \$1,086,686,012 and \$1,218,237,397, respectively. Purchases and sales of U.S. government and agency securities, other than short-term securities, for the year ended September 30, 2008 aggregated \$125,412,610 and \$124,157,226, respectively.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

September 30, 2008 (Unaudited)

5. INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENTS

Clough Capital Partners L.P. (Clough) serves as the Fund's investment adviser pursuant to an Investment Advisory Agreement (Advisory Agreement) with the Fund. As compensation for its services to the Fund, Clough receives an annual investment advisory fee of 1.00% based on the Fund's average daily total assets, computed daily and payable monthly. ALPS serves as the Fund's administrator pursuant to an Administration, Bookkeeping and Pricing Services Agreement with the Fund. As compensation for its services to the Fund, ALPS receives an annual administration fee of 0.32% based on the Fund's average daily total assets, computed daily and payable monthly. ALPS will pay all expenses incurred by the Fund, with the exception of advisory fees, trustees' fees, portfolio transaction expenses, litigation expenses, taxes, cost of preferred shares, expenses of conducting repurchase offers for the purpose of repurchasing fund shares, and extraordinary expenses.

6. LEVERAGE

On April 29, 2008 the Fund entered into an overnight collateralized lending arrangement (borrowing facility). The Fund may draw or pay certain amounts on a daily basis to maintain leverage in the Fund near its anticipated level of 33% of total assets. The Fund has pledged all securities in its portfolio as collateral for the borrowing facility. As of September 30, 2008 the market value of the securities pledged as collateral for the borrowing facility totaled \$801,379,044. The Fund pays interest at a rate of 85 bps per annum above the current U.S. Federal Funds rate. For the six months ended September 30, 2008 the average cost of borrowing was 2.83% and the average outstanding principal amount was \$363,701,547.

7. OTHER

The Independent Trustees of the Fund receive a quarterly retainer of \$3,500 and an additional \$1,500 for each meeting attended. The Chairman of the Board of Trustees receives a quarterly retainer of \$4,200 and an additional \$1,800 for each meeting attended. The Chairman of the Audit Committee receives a quarterly retainer of \$3,850 and an additional \$1,650 for each meeting attended.

DIVIDEND REINVESTMENT PLAN

September 30, 2008 (Unaudited)

Unless the registered owner of Common Shares elects to receive cash by contacting The Bank of New York Mellon (the Plan Administrator or BNY Mellon), all dividends declared on Common Shares will be automatically reinvested by the Plan Administrator for shareholders in the Fund's Dividend Reinvestment Plan (the Plan), in additional Common Shares. Shareholders who elect not to participate in the Plan will receive all dividends and other distributions in cash paid by check mailed directly to the shareholder of record (or, if the Common Shares are held in street or other nominee name, then to such nominee) by BNY Mellon as dividend disbursing agent. You may elect not to participate in the Plan and to receive all dividends in cash by contacting BNY Mellon, as dividend disbursing agent, at the address set forth below. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional Common Shares for you. If you wish for all dividends declared on your Common Shares to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each Common Shareholder under the Plan in the same name in which such Common Shareholder's Common Shares are registered. Whenever the Fund declares a dividend or other distribution (together, a Dividend) payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Shares. The Common Shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Shares from the Fund (Newly Issued Common Shares) or (ii) by purchase of outstanding Common Shares on the open market (Open-Market Purchases) on the American Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commissions per Common Share is equal to or greater than the net asset value per Common Share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per Common Share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Share on the payment date. If, on the payment date for any Dividend, the net asset value per Common Share is greater than the closing market value plus estimated brokerage commissions, the Plan Administrator will invest the Dividend amount in Common Shares acquired on behalf of the participants in Open-Market Purchases. In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the Common Shares trade on an ex-dividend basis or 30 days after the payment date for such Dividend, whichever is sooner (the Last Purchase Date), to invest the Dividend amount in Common Shares acquired in Open-Market Purchases. If, before the Plan Administrator has completed its Open-Market Purchases, the market price per Common Share exceeds the net asset value per Common Share, the average per Common Share purchase price paid by the Plan Administrator may exceed the net asset value of the Common Shares, resulting in the acquisition of fewer Common Shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator

is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at the net asset value per Common Share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per Common Share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common Shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of Common Shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Plan.

There will be no brokerage charges with respect to Common Shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. Participants that request a sale of Common Shares through the Plan Administrator are subject to brokerage commissions.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, The Bank of New York Mellon, 101 Barclay Street, New York, New York 10286, 11E, Transfer Agent Services, 800 433-8191.

FUND PROXY VOTING POLICIES & PROCEDURES

September 30, 2008 (Unaudited)

Fund policies and procedures used in determining how to vote proxies relating to portfolio securities and a summary of proxies voted by the Fund for the period ended June 30, 2008 are available without a charge, upon request, by contacting the Fund at 1-877-256-8445 and on the U.S. Securities and Exchange Commission's (Commission) website at <http://www.sec.gov>.

PORTFOLIO HOLDINGS

September 30, 2008 (unaudited)

The Fund files its complete schedule of portfolio holdings with the Commission for the first and third quarters of each fiscal year on Form N-Q within 60 days after the end of the period. Copies of the Fund's Forms N-Q are available upon request, by contacting the Fund at 1-877-256-8445 and on the Commission's website at <http://www.sec.gov>. You may also review and copy form N-Q at the Commission's Public Reference Room in Washington, D.C. For more information about the operation of the Public Reference Room, please call the Commission at 1-800-SEC-0330.

For	45,605,677	45,603,760
Withheld	1,166,203	1,168,120
Withheld from Director	13,159	15,076

INVESTMENT ADVISORY AGREEMENT

September 30, 2008 (Unaudited)

On July 9, 2008, the Board of Trustees met in person to, among other things, review and consider the renewal of the Advisory Agreement. In its consideration of the Advisory Agreement, the Trustees, including the non-interested Trustees, considered in general the nature, quality and scope of services to be provided by Clough.

Prior to the beginning of their review of the Advisory Agreement, counsel to the Fund, who also serves as independent counsel to the non-interested Trustees, discussed with the Trustees their fiduciary responsibilities in general and also specifically with respect to the renewal of the Advisory Agreement.

Mr. Canty, as Partner of Clough, next presented Clough's materials regarding consideration of renewal of the Advisory Agreement. Mr. Canty stated that included in the Board materials were responses by Clough to a questionnaire drafted by legal counsel to the Fund to assist the Board in evaluating whether to renew the Advisory Agreement (the 15(c) Materials). Mr. Canty noted that the 15(c) Materials were extensive, and included information relating to the Fund's investment results; portfolio composition; advisory fee and expense comparisons; financial information regarding Clough; descriptions such as compliance monitoring; and portfolio trading practices and information about the personnel providing investment management services to the Fund, and the nature of services provided under the Advisory Agreement.

Mr. Canty discussed the organizational structure of Clough and the qualifications of Clough and its principals to act as the Fund's adviser. He reviewed the professional experience of the portfolio managers, referring the Trustees to the biographies of Chuck Clough, Eric Brock, and himself, Partners at Clough, emphasizing that Mr. Clough, Mr. Brock, and he each had substantial experience as an investment professional. Mr. Canty stated that Clough is the investment adviser to the Fund, the Clough Global Allocation Fund and the Clough Global Equity Fund, all closed-end funds. The Trustees, all of whom currently serve as Trustees for the Fund, the Clough Global Allocation Fund and the Clough Global Equity Fund, acknowledged their familiarity with the expertise and standing in the investment community of Messrs. Clough, Canty, and Brock, and their satisfaction with the expertise of Clough and the services provided by Clough to the Fund. The Trustees concluded that the portfolio management team was well qualified to serve the Fund in those functions.

Mr. Canty then reviewed Clough's current staffing as well as future staffing plans. He described Clough's procedures relating to compliance and oversight with respect to Clough's brokerage allocation policies. He discussed Clough's order management systems that contain pre-trade compliance functions that review each trade against certain

of the Fund's investment restrictions and applicable 1940 Act and Internal Revenue Code restrictions, and the efforts that Clough's Chief Compliance Officer will undertake to summarize monthly for Clough's management and quarterly for the Trustees any violations that may occur, as well any other violations detected through the manual monitoring that supplements the order management system's testing. He also reviewed the adequacy of Clough's facilities. Mr. Canty further discussed the portfolio turnover rates of the Fund. The Trustees concluded that Clough appeared to have adequate procedures and personnel in place to ensure compliance by Clough with applicable law and with the Fund's investment objectives and restrictions.

Mr. Canty next reviewed the terms of the Advisory Agreement, stating that Clough would receive a fee of 1.00% of the average daily total assets of the Fund. He then discussed the fees charged by Clough to other clients for which it provides comparable services. Mr. Canty discussed the actual dollar amount of management fees paid under the Advisory Agreements. The Trustees then reviewed Clough's income statement for the year ended December 31, 2007, and its balance sheet as of that date. The Trustees further reviewed a profit and loss analysis as it relates to Clough's advisory businesses.

Mr. Canty discussed the possible benefits Clough may accrue because of its relationship with the Fund as well as potential benefits that accrue to the Fund because of its relationship with Clough. Mr. Canty stated that Clough does not realize any direct benefits due to the allocation of brokerage and related transactions on behalf of the Fund.

The Board of Trustees reviewed and discussed materials prepared and distributed in advance of the meeting regarding the comparability of the investment advisory fees of the Fund with the investment advisory fees of other investment companies, which had been prepared at the request of ALPS by Lipper Analytical Services (Lipper). Lipper's report contained information regarding investment performance, comparisons of cost and expense structures of the Fund with other funds' cost and expense structures, as well as comparisons of the Fund's performance with the performance during similar periods of members of an objectively identified peer group and related matters.

As the Fund is unique in the marketplace, Lipper had a difficult time presenting a large peer group for comparison. The Trustees compared fees from eleven (11) closed-end investment companies versus the Fund's fees. The investment advisory fee for this group ranged from 0.500% to 1.050%, with a median of 0.876%. The total expenses for this group ranged from 0.619% to 1.332%, with a median of 1.081%. The Fund's total expenses were 1.332%.

The Trustees stated that the objectives of the funds in the analysis differed from the Fund's objectives and policies. In conjunction with Lipper's reports, the Trustees also reviewed a comparative fund universe prepared by Clough. The Trustees believed that the Lipper report, augmented by Clough's analysis, provided a sufficient comparative universe.

The Trustees reviewed the performance comparison between the Fund versus eleven (11) closed-end funds. For the one year ended performance as of May 31, 2008, the performance data ranged from a high of 13.14% to a low of -5.83% with a median of 7.00%. The Fund's performance during such time period was 12.88%. The Trustees then reviewed the performance comparison for the closed-end funds versus the Fund from the Fund's inception through May 31, 2008. The performance data ranged from a high of 17.23% to a low of 7.81% with a median of 10.65%. The Fund's performance during such time period was 12.54%.

At this point, Mr. Burke and Mr. Canty, both interested persons of the Fund, as well as the other representatives of ALPS and Clough, left the meeting. The non-interested Trustees, with the assistance of legal counsel, reviewed and discussed in more detail the information that had been presented relating to Clough, the Advisory Agreement and Clough's profitability.

Mr. Burke, Mr. Canty, and the representatives of ALPS rejoined the meeting. The Board of Trustees of the Fund, present in person, with the non-interested Trustees present in person voting separately, unanimously concluded that the investment advisory fee of 1.00% of the Fund's total assets are fair and reasonable for the Fund and that the renewal of the Advisory Agreement is in the best interests of the Fund and its shareholders.

TRUSTEES & OFFICERS

September 30, 2008 (Unaudited)
