IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS FOR THE ANNUAL MEETING OF SHAREHOLDERS TO BE HELD ON MAY 20, 2009:

This Proxy Statement and the accompanying annual report are available at: www.proxydocs.com/mmsi and www.proxyvote.com

Among other things, this Proxy Statement contains information regarding:

- Date, time and location of the Annual Meeting;
- Matters being submitted to the shareholders; and
- Information concerning voting in person at the Annual Meeting.

METHOD FOR ELECTRONIC VIEWING, PRINTING OF THE PROXY MATERIALS:

The record date for the Annual Meeting is March 25, 2009. Shareholders of record on the record date will be entitled to notice and to vote, in person or by proxy, at the Annual Meeting and any adjournments or postponements thereof.

The Company has chosen the Internet as a method of providing access to its proxy materials, including its Annual Report, to each shareholder of record in a fast and efficient manner. This reduces the amount of paper necessary to produce these materials, as well as the costs associated with mailing these materials to all shareholders.

Accordingly, on April 9, 2009, the Company will begin mailing Notices Regarding Internet Availability of Proxy Materials (the Notices), to all shareholders of record as of March 25, 2009, and post its proxy materials on the websites referenced in the Notices (www.proxydocs.com/mmsi and www.proxyvote.com).

As described in the Notices, all shareholders may choose to access the Company's proxy materials on the websites referred to in the Notices or may request to receive a printed set of the Company's proxy materials. In addition, the Notices and websites provide information regarding how shareholders may request to receive proxy materials in printed form by either mail or electronically via e-mail. This proxy statement contains additional information regarding the proposals to be considered at the Annual Meeting, and shareholders are encouraged to read it in its entirety.

METHODS OF VOTING

Shareholders can vote by proxy by means of the telephone or the Internet, by requesting a printed copy of this Proxy Statement and then voting by mail, or by attending the Annual Meeting and voting in person. If a Shareholder requests a printed copy of this Proxy Statement, a proxy card (the Proxy) will also be mailed to the shareholder. If a shareholder votes his, her or its proxy by telephone, the Internet or by returning the Proxy to the Company before the Annual Meeting, the individuals designated in the Proxy will vote as the Proxy directs. If a shareholder votes by telephone or over the Internet, the shareholder does not need to return the Proxy. Telephone and Internet voting facilities for shareholders of record will be available 24 hours a day, and will close at 10:00 a.m., Eastern Time, on May 20, 2009. If a shareholder holds shares of the Company's common stock in street name, the shareholder must either instruct his, her or its broker or nominee as to how to vote such shares or obtain a Proxy, executed by the broker or nominee, to be able to vote at the Annual Meeting.

- **Voting by Mail.** If a shareholder chooses to vote by mail, simply mark the enclosed Proxy and complete, sign, date and mail it in the postage-paid envelope provided. The Proxy must be completed, signed and dated by the shareholder or the shareholder's authorized representative.
 - **Voting by Telephone.** Shareholders can vote by following the instructions included in the Notices and calling toll-free 1-866-390-5395 or 1-866-390-5396. Voice prompts will instruct shareholders to vote their shares and confirm that their vote has been properly recorded.
-

- **Voting over the Internet.** Registered and beneficial shareholders can vote on the Internet by following the instructions included in the Notices and accessing the Internet at www.proxydocs.com/mmsi or www.proxyvote.com. As with telephone voting, shareholders can confirm that their votes have been properly recorded.

- **Voting in Person at the Annual Meeting.** If a shareholder plans to attend the Annual Meeting and vote in person, the Company will provide a ballot at the Annual Meeting. If shares are registered directly in a shareholder's name, the shareholder is considered the shareholder of record and has the right to vote in person at the Annual Meeting. If shares are held in the name of a broker or other nominee, the shareholder is considered the beneficial owner of shares held in street name. As a beneficial owner, if the shareholder wishes to vote at the Annual Meeting, the shareholder will need to bring to the Annual Meeting a legal proxy from the broker or other nominee authorizing the shareholder to vote those shares.

The Company provides Internet proxy voting to allow shareholders to vote their shares on-line, with procedures designed to ensure the authenticity and correctness of proxy vote instructions. However, please be aware that shareholders must bear any costs associated with their Internet access, such as usage charges from Internet access providers and telephone companies.

If shares are held by a broker or other intermediary, the beneficial shareholder must either instruct the broker or intermediary as to how to vote such shares or obtain a proxy, executed in the shareholder's favor by the broker or intermediary, to be able to vote such shares at the Annual Meeting in person or by proxy.

If a shareholder receives more than one Notice, the shareholder's shares are registered in more than one name or are registered in different accounts. Shareholders should follow the voting instructions on each Notice to ensure that all of their shares are voted.

In addition to the solicitation of proxies by use of the mail and the Internet, the directors, officers and employees of the Company, without receiving additional compensation, may solicit proxies personally or by telephone, electronic mail or facsimile. Arrangements will be made with brokerage firms and other custodians, nominees and fiduciaries for the forwarding of solicitation materials to the beneficial owners of the shares of Common Stock held by those persons, and the Company will reimburse those brokerage firms, custodians, nominees and fiduciaries for reasonable out-of-pocket expenses incurred by them in connection therewith. The Company has engaged The Proxy Advisory Group, LLC, to assist in the solicitation of proxies and provide related advice and informational support, for a services fee and the reimbursement of customary disbursements that are not expected to exceed \$14,500.

VOTING

Edgar Filing: MERIT MEDICAL SYSTEMS INC - Form DEF 14A

The Board of Directors has fixed the close of business on March 25, 2009 as the record date for determination of shareholders entitled to receive notice of and to vote at the Annual Meeting (the Record Date). As of the Record Date, there were issued and outstanding 27,908,863 shares of Common Stock. The holders of record of the shares of Common Stock on the Record Date entitled to be voted at the Annual Meeting are entitled to cast one vote per share on each matter submitted to a vote at the Annual Meeting.

Proxies

Shares of Common Stock that are entitled to be voted at the Annual Meeting and are represented by properly executed proxies will be voted in accordance with the instructions on those proxies. If no instructions are indicated, those shares will be voted FOR the election of each of the two director nominees identified in this Proxy Statement, FOR the proposal to amend the Merit Medical Systems, Inc. 2006 Long-Term Incentive Plan (the 2006 Incentive Plan), FOR the ratification of the appointment of Deloitte & Touche LLP (Deloitte) to serve as the Company 's independent registered public accounting firm for the year ending December 31, 2009, and, in the discretion of the proxy holder, as to any other matters that may properly come before the Annual Meeting. The Company is not currently aware of any other matters to be presented at the Annual Meeting.

A shareholder who has executed and returned a proxy may revoke it at any time prior to its exercise at the Annual Meeting by executing and returning a proxy bearing a later date by mail, by voting via the Internet, by filing with the Secretary of the Company, at the address set forth above, a written notice of revocation bearing a later date than the proxy being revoked, or by voting the Common Stock covered thereby in person at the Annual Meeting. In order to revoke a proxy executed with respect to shares held in street name, the shareholder must contact the appropriate broker or nominee.

Vote Required

A majority of the issued and outstanding shares of Common Stock entitled to vote, represented in person or by proxy, is required for a quorum at the Annual Meeting. Abstentions and broker non-votes, which are indications by a broker that it does not have discretionary authority to vote on a particular matter, will be counted as represented for the purpose of determining the presence or absence of a quorum. Under the Utah Revised Business Corporations Act, once a quorum is established, shareholder approval with respect to a particular proposal is generally obtained when the votes cast in favor of the proposal exceed the votes cast against the proposal.

Holders of shares of Common Stock are entitled to one vote at the Annual Meeting for each share of Common Stock held of record on the Record Date. In the election of directors, shareholders will not be allowed to cumulate their votes. The two nominees receiving the highest number of votes will be elected. Approval of the proposal to amend the 2006 Incentive Plan and the proposal to ratify the appointment of Deloitte to serve as the independent registered public accounting firm of the Company for the year ending December 31, 2009 requires that the votes cast in favor of each proposal must exceed the votes cast against the proposal. Accordingly, abstentions and broker non-votes will not affect the outcome of the election of directors or the proposals to amend the 2006 Incentive Plan and ratify the appointment of the Company's independent registered public accounting firm. Any other matter presented for approval by the shareholders at the Annual Meeting will generally be approved if the number of votes cast in favor of a matter exceeds the number of votes cast in opposition. With respect to any such matter, abstentions and broker non-votes are not likely to affect the outcome of a vote on such matter.

PROPOSAL NO. 1 ELECTION OF DIRECTORS

At the Annual Meeting, two directors of the Company are to be elected to serve until the annual meeting of the Company's shareholders in 2012 and until their successors are duly elected and qualified. If either of the nominees should be unavailable to serve, which is not now anticipated, the proxies solicited by this Proxy Statement will be voted for other persons as may be designated by the Board of Directors. The two nominees receiving the highest number of votes at the Annual Meeting will be elected.

Classification of Board of Directors

The Company's Articles of Incorporation, as amended, provide for the classification of the Board of Directors, also known as a staggered board. The directors of the Company are divided into three classes, with the directors in each class serving a three-year term. The classes are staggered, with the terms of one-third of the directors, as near as possible, expiring at each annual shareholders meeting. Stillabower, M.D. The Nominating Committee met once in 2008. The Board of Directors has adopted a Nominating and Corporate Governance Committee Charter, a copy of which is available on the Company's Internet website, www.merit.com.

Nomination Process

The policy of the Nominating Committee is to consider properly-submitted shareholder recommendations for candidates to serve as directors of the Company. In evaluating those recommendations, the Nominating Committee seeks to achieve a balance of knowledge, experience and capability on the Board and to address the membership criteria described below. Any shareholder wishing to recommend a candidate for consideration by the Nominating Committee should submit a recommendation in writing indicating the candidate's qualifications and other relevant biographical information and provide confirmation of the candidate's consent to serve as a director. This information should be addressed to Rashelle Perry, Chief Legal Officer of the Company, at 1600 West Merit Parkway, South Jordan, Utah 84095.

The Nominating Committee reviews the appropriate skills and characteristics required of directors in the context of the current composition of the Board of Directors. There is currently no set of specific minimum qualifications that must be met by a nominee recommended by the Nominating Committee, as different factors may assume greater or lesser significance at particular times and the needs of the Board of Directors may vary in light of its composition and the Nominating Committee's perceptions about future issues and needs. Among the factors the Nominating Committee considers are independence, diversity, skills, integrity, policy-making experience, ability to work constructively with the Company's management and directors, capacity to evaluate strategy and reach sound conclusions, availability of time and awareness of the social, political and economic environment.

The Nominating Committee utilizes a variety of methods for identifying and evaluating director-nominees. The Nominating Committee assesses the appropriate size of the Board of Directors, and whether any vacancies on the Board of Directors are expected due to retirement or otherwise. In the event that vacancies are anticipated, or otherwise arise, the Nominating Committee considers various potential candidates for director. Candidates may come to the attention of the Nominating Committee through various means, including current directors, professional search firms, shareholder recommendations or other referrals. Candidates are evaluated at meetings of the Nominating Committee, and may be considered at any point during the year. All director-nominee recommendations which are properly submitted to the Nominating Committee are aggregated and considered by the Nominating Committee at a meeting prior to the issuance of the proxy statement for the next annual meeting of shareholders. Any materials provided by a shareholder in connection with the recommendation of a director candidate are forwarded to the Nominating Committee, which considers the recommended candidate in light of the director qualifications discussed above. To date, the Nominating Committee has not engaged a professional search firm to assist in identifying qualified candidates for service on the Board of Directors.

Executive officers and directors are required by Commission regulations to furnish the Company with copies of all Section 16(a) reports they file. Based solely upon a review of the copies of those forms and written representations from the Company s executive officers and directors, the Company believes that all Section 16(a) reports required to be filed by the Company s officers and directors during the year ended December 31, 2008 were filed.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis is designed to provide information regarding the Company's philosophy and objectives underlying its compensation policies, the processes the Company follows in setting compensation, and the components of compensation that the Company utilizes in compensating its senior executive officers. This discussion is focused on the Company's named executive officers (NEOs) listed in the Summary Compensation Table and other compensation tables beginning on page 14, which should be read in conjunction with this discussion.

Executive Summary

Under the oversight of the Compensation Committee of the Board of Directors (the Committee), the Company's compensation philosophy is to offer compensation programs to the NEOs that:

- Focus executives on achieving or exceeding measurable performance targets;
- Encourage continuation of the Company's entrepreneurial spirit;
- Attract and retain highly-qualified and motivated executives;
- Promote the Company's guiding principles for adherence to a high ethical environment, as well as health and safety standards; and
- Align compensation with shareholder value.

In meeting these objectives, the Committee strives to align the interests of management and shareholders and maximize shareholder value.

The compensation programs specific to the NEOs are overseen by the Committee. In pursuit of the Company's compensation philosophy and objectives, the Committee believes that the compensation packages provided to the NEOs should include both cash and equity-based compensation, generally in the form of stock options. Base pay and benefits are set at levels considered necessary to attract and retain qualified and effective executives. Variable incentive pay is used to align the compensation of the NEOs with the Company's short-term business and performance objectives, such as income and overall financial performance. Equity awards are used to retain key employees and to motivate executives to create long-term shareholder value.

Process for Establishing Compensation

Procedure. The Committee has oversight responsibility for establishing the Company's compensation practices for the Company's CEO and the other NEOs. Performance reviews of the Company's CEO are based on the Company's performance that year, compared with the Company's performance objectives. Performance reviews of other NEOs are based on the CEO's evaluation of individual performance, as well as Company performance for that year. With respect to the compensation levels for the other NEOs, the Committee considers input and recommendations from the CEO. While the CEO makes recommendations concerning salary adjustments, cash bonus programs or award amounts for the other NEOs, the Committee maintains the ability to modify those recommendations.

Role of Consultants. With respect to the year ended December 31, 2008, the Committee obtained assistance from an independent compensation consulting firm to review the Company's compensation program for the NEOs and to advise the Committee as to the prospective implementation of new programs, modification of existing programs, and appropriate compensation levels for our NEOs. The Committee engaged Hay Group, Inc., a global human resources consulting firm, (Hay Group) to serve as its independent advisor and compensation consultant. The Chairman of the Committee worked directly with Hay Group to determine the scope of the work to be provided to assist the Committee in its decision-making processes. The engagement included provision of benchmark comparative data for the NEOs with respect to base salaries, annual cash bonuses, long-term incentives, and equity incentives, as well as review of current employment arrangements,

incentive plan designs and comparative data regarding severance, change in control, benefits and perquisites. At the direction of the Committee, Hay Group also met with management to gain a better understanding of the Company's past compensation policies and practices and to facilitate development of new approaches to executive compensation. Hay Group provided the Committee with relevant market data and alternatives to consider when making compensation decisions for the NEOs.

Benchmarking. In evaluating compensation of the NEOs for the year ended December 31, 2008, the Committee took into account executive compensation data which it believed was representative of executive compensation paid in the medical products industry, primarily by reviewing public disclosure of other public companies, as filed with the U.S. Securities and Exchange Commission. The Committee also considered, among other factors, the Company's performance and relative shareholder return, the value of similar incentive awards to executive officers at comparable companies, the awards given to the NEOs in past years, the Company's performance targets for the year ended December 31, 2008, and other factors considered relevant by the Committee. Initially, the Committee considered increasing some elements of the 2008 NEO compensation packages to what it viewed as the median level of compensation packages for similarly-titled executive officers of other medical device or medical products industries with annual revenues, size and other factors similar to those of the Company. Upon further review and after further discussions with the CEO regarding revenue targets, the Committee adopted a more conservative approach to the NEO compensation packages, and, in an effort to increase shareholder return, decided not to implement those compensation increases.

For 2008, the Hay Group presented, and the Committee analyzed, executive officer compensation data for the following benchmark companies (the Compensation Peer Group), which the Committee believes are generally comparable to the Company, and which the Committee believes are seeking to attract and retain senior executives with backgrounds and experience which are comparable with the qualifications of the Company's senior executive officers.

Align Technology Inc	Haemonetics Corp	Neogen Corp
Angiodynamics Inc	ICU Medical Inc	NPS Pharmaceuticals Inc
Arrow International Inc	Immucor Inc	Nutraceutical International Corp
Atrion Corp	Inverness Medical Innovations Inc	Orasure Technologies Inc
Cantel Medical Corp	Kensey Nash Corp	Polymedica Corp
Conceptus Inc	Lifecore Biomedical Inc	Regeneration Technologies Inc
Conmed Corp	Medical Action Industries Inc	Sonosite Inc

Cynosure Inc	Microtek Medical Holdings, Inc	Theragenics Corp.
Datascope Corp	Myriad Genetics Inc	Utah Medical Products Inc.
DJO Inc	National Dentex Corp	West Pharmaceutical Services Inc

At the end of 2008, Arrow International Inc., DJO Inc. and Microtek Medical Holdings, Inc. were no longer considered peer companies for benchmarking purposes, due to mergers or the suspension of public trading in their capital stock.

While the Committee evaluated the executive compensation levels at Compensation Peer Group companies, the Committee compensation decisions with regard to the NEOs for 2008 were based on objective and subjective evaluations of the individual NEOs, with some reference to comparative data, but without any specific comparative targets.

Other Considerations. As in past years, for the year ended December 31, 2008, the Committee also relied on its experience and judgment in making executive compensation decisions after reviewing the performance of the Company for 2008 and evaluating the NEO's performance and responsibilities with the Company and current compensation arrangements. The compensation program for the NEOs and the Committee assessment process have been designed to be flexible in an effort to respond to the evolving business environment and individual circumstances relative to individual performance, and internal equity for compensation levels among the Company's executives.

The Company's executive compensation program is divided into two general categories, fixed and variable pay. Fixed pay consists of base salary and provides the NEOs with a level of assured cash compensation appropriate for their positions within the Company. Variable pay includes annual cash bonus awards and annual performance-based equity

awards, each as explained in more detail below. The Committee believes that a portion of total compensation should be at-risk to the NEOs and tied to the Company's achievement of its performance goals.

Generally, at the beginning of each year, the Company's CEO identifies performance goals which are intended to align the efforts of the Company's executives, including the NEOs, with the Company's achievement of its strategic business plan. The CEO then reviews those performance goals with the Committee. Those goals then become targets for the variable pay component of the Company's executive compensation program. Because the performance goals are generally established at the beginning of each year and market conditions fluctuate throughout the year, the performance goals may not correspond to subsequent annual earnings estimates released by the Company.

Pay Mix

The allocation between cash, non-cash, short-term and long-term incentive compensation is influenced by the practices of subjective and objective analysis conducted by the Committee and the Company's CEO, including their review of the compensation practices disclosed by the Compensation Peer Group, and reflects the Committee's determination of the appropriate compensation mix among base pay, annual cash incentives and long-term equity incentives. Actual cash and equity incentive awards are set as a result of the performance of the Company or the individual NEO, depending on the position of the NEO, the type of award and the Company's performance, compared to established goals. For 2008, the elements of the compensation mix for the NEOs included:

- Base salary, which is designed to attract and retain executives over time;
- Annual cash incentive bonus compensation, which is designed to focus on business objectives established by the Committee and CEO for a particular year;
- Long-term incentive compensation, consisting primarily of stock options, which is designed to focus executives on the long-term success of the Company as reflected in increases in the market price of the Common Stock;
- Broad-based employee retirement, welfare and fringe benefits programs, and other personal benefits; and
- Executive deferred compensation and post-retirement medical benefits.

Fixed Compensation

Base Salary

The Committee does not use a specific formula for evaluating individual performance of the NEOs. Instead, the performance of the NEOs other than the Company's CEO is assessed by the CEO based upon each NEO's contributions to the Company's business success. The performance of the Company's CEO is assessed by the Committee in formal and informal meetings with the CEO, as well as executive sessions conducted by the Committee. The criteria used in evaluating individual NEO performance, including that of the CEO, vary depending on the executive's function, but generally include:

- Leadership inside and outside the Company;

- Advancing the Company's interests with customers, vendors and in other strategic business relationships;

- Product quality and development;

- Advancement in skills and responsibility; and

- The Company's financial results.

The Committee analyzes each NEO's base salary in light of individual performance and may evaluate the median salary range paid by the Compensation Peer Group. Although the Committee believes that competitive base salaries are necessary to attract and retain a highly qualified and effective executive team, it also believes that a portion of executive compensation should be based on performance. Based on the Committee's evaluation, the Committee approved the NEO base salaries for the year ended December 31, 2008 which are reflected in the Summary Compensation Table set forth on page 14 below.

In February 2009, the Committee reviewed the performance of the Company and the NEOs, which included the criteria described above, and established the following base salary amounts for the NEOs for the year ending December 31, 2009: Fred P. Lampropoulos, \$460,000; Martin R. Stephens, \$350,000; Kent W. Stanger \$255,000; Arlin D. Nelson, \$200,000; and Rashelle Perry 200,000.

Broad-Based Benefits Programs

The Company offers certain broad-based benefits programs, including benefits such as health, dental, disability and life insurance, health care reimbursement accounts, paid vacation time and discretionary Company contributions to a 401(k) profit sharing plan. Benefits are provided to the Company's executives in accordance with practices within the marketplace. The Committee believes such benefits are a necessary element of compensation in attracting and retaining employees. In addition, the NEOs receive limited perquisites in order to achieve a competitive pay package as detailed in the Summary Compensation Table.

Deferred Compensation Plan and Early Retiree Program

The Company provides a non-qualified deferred compensation plan for the benefit of certain of its highly-compensated management employees, including the NEOs. Under the non-qualified deferred compensation plan, eligible executives may elect in advance of each calendar year to defer up to 100% of their cash salary and bonus compensation earned with respect to such year. Amounts deferred are credited to an unfunded liability account maintained by the Company on behalf of the applicable NEO, which account is deemed invested in and earns a rate of return based upon certain notational and self-directed investment options offered under the plan. In its discretion, the Company can credit each eligible participant's account under the deferred compensation plan with an employer matching contribution; however, the Company has never made such a matching contribution. Participant account balances under the deferred compensation plan are fully-vested and will be paid by the Company to each participant upon retirement or separation from employment, or on other specified dates, in a lump sum or in installments according to a schedule elected in advance by the participant.

Effective in 2007, the Company also adopted an early retiree program allowing certain Company executive employees, including the NEOs, to continue to purchase health benefits through the Company at the rate available to current Company employees plus ten percent (the Early Retiree Program). The Early Retiree Program applies only to retirees who serve as vice presidents of the Company (or in a higher ranking position) at the time of their retirement. In order to participate in the Early Retiree Program, executive retirees must meet specific criteria, such as having a minimum of ten years of service with the Company, being at least 45 years old at the time of their retirement, and having participated in the Company-sponsored medical plan for a minimum of two years prior to retirement date. Retiree coverage ceases when the participant elects any other group health insurance coverage or when the participant becomes eligible for Medicare.

The Company and its subsidiaries do not maintain any other executive pension or retirement plans for the NEOs.

Variable Compensation

In general, the Company's variable compensation programs are designed to align the interests of the Company's executive officers, including the NEOs, with the Company's operating and financial results.

Annual Incentive Cash Bonuses

It is the Company's general practice to provide NEOs with the opportunity to earn annual incentive cash bonus compensation under programs that reward attainment of key Company objectives. The objectives that underlie the Company's annual incentive compensation programs may vary between years and between the NEOs, but generally include objectives that reward attainment of targeted sales and earnings levels. In setting the bonus amounts that a NEO is eligible

to earn for achieving specified objectives, the Committee and the Company's CEO review bonus and total cash compensation levels at or near the median of the Compensation Peer Group and published survey data. Bonus opportunities for achieving objectives are generally established for each NEO based on job scope and contribution. Executives have the opportunity to earn discretionary bonuses for extraordinary performance, as determined by the Committee and/or the CEO.

The decision as to whether to provide an annual incentive cash bonus program to NEOs for any year, the type and funding of any program offered, and the objectives that underlie any program, are subject to the discretion of the CEO and the Committee and reflect their assessment of general and industry specific conditions existing during the applicable period. The Committee and/or the CEO may also exercise discretion based on their assessment of the NEO's contribution and accountability for the objectives that are the subject of the bonus and any other factors the Committee and/or the CEO considers relevant.

For 2008, the Company's CEO and the Committee set internal company goals the achievement of which enabled the NEOs to earn a cash bonus under the Company's incentive bonus program. For 2008, the NEOs, other than Marty Stephens, were eligible to receive an incentive bonus if the Company achieved aggregate goals established by the Committee in the following categories: sales, gross margins, profits, inventory reduction and cost savings. Mr. Stephens was eligible to receive his targeted level of incentive bonus if the divisions over which he had supervision achieved certain targeted sales levels for 2008. The Committee believes that the 2008 annual cash bonus opportunities were highly effective motivators for management employees and were instrumental in influencing Company performance in 2008. Because the Company materially exceeded the targeted levels of sales, gross margins, profits and cost reduction for 2008, the NEOs (other than Mr. Stephens) earned the full amount of their targeted incentive bonuses for 2008 notwithstanding the Company's failure to meet its inventory reduction goal. Likewise, Mr. Stephens earned the full amount of his targeted incentive bonus for 2008 based on the sales revenue from the divisions over which he had oversight. Incentive bonus amounts earned by the NEOs for 2008 are reported under the heading "Non-Equity Incentive Plan Compensation" in the Summary Compensation Table that appears on page 14 below.

Performance Bonuses

In addition to the cash bonus opportunities under the incentive cash bonus program described above, the CEO or Committee (for the CEO himself) may choose to reward extraordinary performance and achievements by awarding discretionary bonuses to the NEOs and other executives from time to time that are not part of the annual incentive plan or any other plan. With respect to the NEOs, any discretionary bonuses awarded based on exceptional performance rather than pre-determined performance criteria during 2008 are reported under the heading "Bonus" in column (d) of the Summary Compensation Table that appears on page 14 below. There is no expectation that all NEOs will receive discretionary performance bonuses in any particular year, and the criteria for such bonuses are not established in advance. For the year ended December 31, 2008, based upon its review of the Company's performance and Mr. Lampropoulos' leadership in achieving that performance, the Committee awarded to Mr. Lampropoulos a discretionary performance bonus in the amount of \$97,500. The Company did not pay any other discretionary performance bonuses during 2008.

Long-Term Incentive Compensation

Long-term equity awards, in the form of stock options, have been granted at the Committee's discretion to the NEOs annually in an effort to provide long-term performance-based compensation, to encourage the NEOs to continue their engagement with the Company throughout the vesting periods and to align management and shareholder interests. In making awards under the 2006 Incentive Plan, the Committee considers grant size, the appropriate combination of equity-based awards, the impact of the grant on the Company's financial performance, as determined in accordance with the requirements of SFAS 123(R), and the corresponding compensation value used by the Company in determining the amount of the awards (which may vary from the SFAS 123(R) expense). The amount of long-term equity awards granted to the NEOs is generally based upon the Committee's assessment of each NEO's expected future contributions to the Company. The Company generally grants

Edgar Filing: MERIT MEDICAL SYSTEMS INC - Form DEF 14A

long-term equity awards at the regularly scheduled Compensation Committee meeting held in May or December of each year, but may vary the date of grant from year to year. As reported in the Grants of Plan-Based Awards table set forth on page 16 below, each NEO received stock option grants in 2008: Fred P. Lampropoulos received options for 55,000 shares; Kent W. Stanger received options for 35,000 shares; Martin R. Stephens received options for 20,000 shares; Arlin D. Nelson received options for 25,000 shares; and Rashelle Perry received options for 20,000 shares.

Options under the 2006 Incentive Plan have been granted to NEOs with an exercise price equal to the closing price per share on the date of grant, (or if the market was closed on that date, with the most immediately available recent closing price), and have historically vested on an immediate, three-year, or five-year pro-rated basis. The 2006 Incentive Plan allows for a minimum three-year vesting schedule, although vesting of options may accelerate upon a change in control of the Company. The Company has not granted options with an exercise price below 100% of the trading price of the underlying shares of Common Stock on the date of grant or granted options that are priced on a date other than the grant date (unless granted on a Saturday or day when the market is closed). Stock options only have a value to the extent the value of the underlying shares of Common Stock on the exercise date exceeds the exercise price. Accordingly, stock options provide compensation to the NEOs only if the underlying share price increases over the option term.

Other

Employment Agreements

The Committee has determined that executive employment agreements are a necessary component of the Company's compensation package in order to provide competitive compensation arrangements, particularly because such agreements are standard in the Company's industry. Moreover, the Committee believes that the change in control provisions within the agreements help to attract and retain the Company's NEOs by reducing the personal uncertainty and anxiety that arises from the possibility of a future business combination.

On December 31, 2008, the Company entered into amended and restated employment agreements (collectively, the *Employment Agreements*) with each of the NEOs updating and superseding their prior employment agreements. The new *Employment Agreements* continue the at will employment status of the NEOs and do not alter their base salaries or entitlement to bonuses, long-term equity compensation, employee benefit plan coverage or perquisites. Rather, the new *Employment Agreements* were entered into principally to bring the agreements into compliance with the requirements of Section 409A of the Internal Revenue Code of 1986, as amended (the *Code*) applicable to severance pay, to provide that any severance benefits payable on account of a separation from service other than in connection with a *Change in Control* (as defined in the *Employment Agreements*) are at the sole discretion of the Company, and to provide gross-up payments to the NEOs in the event that their severance payments following a *Change in Control* are subject to federal excise taxes under Section 4999 of the Code. Additional information regarding the level of severance payable in connection with a *Change in Control* is set forth on page 21 below.

The initial rates of annual base salaries set forth in the *Employment Agreements* are \$460,000 for Mr. Lampropoulos; \$230,000 for Mr. Stanger; \$350,000 for Mr. Stephens; \$200,000 for Mr. Nelson; and \$175,000 for Ms. Perry. The amount of the base salary payable to each NEO is subject to change based on salary increases subsequent to December 31, 2008, and review by the Compensation Committee on an annual basis.

In addition to an annual base salary payable by the Company to the NEOs, the *Employment Agreements* also provide that the NEOs shall receive an annual cash bonus in an amount to be determined in the sole discretion of the Board of Directors (which has delegated that authority to the Compensation Committee); provided, however, for fiscal years ending after a *Change in Control*, the annual bonus must be at least equal to an NEO's average annual cash bonus for the last three full fiscal years ending prior to the *Change in Control*. The NEOs (and to the extent applicable, their spouses and eligible dependants) are eligible to participate in all incentive, savings and retirement, medical insurance, prescription insurance, dental insurance, term life insurance, long-term disability insurance and other employee benefit plans, policies or arrangements maintained by the Company for its employees generally and, at the discretion of the Compensation Committee, in incentive stock option and other benefit plans maintained by the Company for Company executives. The *Employment Agreements* also provide for certain fringe benefits, paid vacation, the furnishing of office and support staff and the reimbursement of business expenses incurred by the NEOs, all in accordance with the Company's established policies.

Edgar Filing: MERIT MEDICAL SYSTEMS INC - Form DEF 14A

The terms of the Employment Agreements reflect in part the concern of the Compensation Committee that any future threatened or actual change in control of the Company, such as an acquisition or merger, could cause disruption and harm to the Company in the event of the resulting loss of any of its key executives. The change in control provisions in the Employment Agreements are intended to provide a measure of incentive and security to the executives through the resolution of the threat or through a change in control. The Committee believes that such agreements should not include provisions that would obligate a potential acquirer of the Company to make large payouts to the NEOs simply because a change in control has occurred. Because of this concern, the occurrence of a change in control event alone will not trigger any payment obligations to the NEOs under their respective Employment Agreements. Additional change in control

payment obligations under the Employment Agreements only arise in the event the NEO's employment is terminated without Cause in connection with the change in control or the NEO resigns for Good Reason (as defined in the Employment Agreements) in connection with a change in control. Thus, the Compensation Committee regards the employment agreements as double trigger change in control agreements. Details of these agreements are provided below.

Tax Deductibility and Executive Compensation

Section 162(m) of the Code imposes a \$1 million annual limit on the amount that a public company may deduct for compensation paid to the company's CEO during a tax year or to any of the company's three other most highly compensated executive officers who are still employed at the end of the tax year. The limit does not apply to compensation that meets the requirements of Code Section 162(m) for qualified performance-based compensation (i.e., compensation paid only if the executive meets pre-established, objective goals based upon performance criteria approved by the Company's shareholders).

The Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Code and attempts, to the extent practical, to implement compensation policies and practices that maximize the potential income tax deductions available to the Company by qualifying such policies and practices as performance-based compensation exempt from the deduction limits of Section 162(m). In certain situations, the Committee may approve compensation that will not meet the requirements of Code Section 162(m) in order to ensure competitive levels of total compensation for its executive officers. No NEO's compensation in 2008 exceeded the \$1 million deduction limit.

Nonqualified Deferred Compensation for 2008

Pursuant to the Merit Medical Systems, Inc. Deferred Compensation Plan ("Deferred Compensation Plan"), NEOs may elect prior to the beginning of each calendar year to defer the receipt of base salary and bonuses earned for the ensuing calendar year. Amounts deferred are credited to an unfunded liability account maintained by the Company on behalf of the applicable NEO, which account is deemed invested in and earns a rate of return based upon certain notational, self-directed investment options offered under the Deferred Compensation Plan. The NEO's accounts under the Deferred Compensation Plan may also be credited with a discretionary employer matching contribution, although no such discretionary contribution was made for 2008 or any other time since the Deferred Compensation Plan's inception. Participant account balances under the Deferred Compensation Plan are fully-vested and will be paid by the Company to each NEO upon retirement or separation from employment, or on other specified dates certain, in a lump sum form or in installments according to a schedule elected in advance by the participant.

Potential Payments Upon Termination or Change in Control

Employment Agreements. On December 31, 2008, the Company entered into, amended and restated Employment Agreements (the Employment Agreements) with each of the NEOs as described in the Compensation Discussion and Analysis commencing on page 7 above. The

Edgar Filing: MERIT MEDICAL SYSTEMS INC - Form DEF 14A

Employment Agreements provide payments and benefits in the event of termination of employment under certain circumstances, including in connection with a change in control as follows:

(a) Other Than in Connection with a Change in Control. If an Executive's employment with the Company is terminated for any reason, voluntarily or involuntarily, with or without Cause (as defined below), other than in Connection with a Change in Control (as defined below), the Company is obligated to pay the Executive a lump sum cash payment equal to his or her accrued and unpaid base salary and any accrued vacation pay earned but not yet paid through the date of termination, to the extent not already paid, plus a lump sum cash payment equal to the Executive's accrued annual bonus earned for the Company's last fiscal year ending immediately prior to the Executive's date of

termination, to the extent not already paid (the sum of such payments hereinafter referred to as the Accrued Obligations). Any further severance benefit is solely at the discretion of the Company. A termination is deemed to be in Connection with a Change in Control if it occurs on or within two years after the date of a Change in Control or, in the case of involuntary termination without Cause, within six months prior to a Change in Control and in anticipation of the Change in Control. A Change in Control means: (i) the acquisition in one or more integrated transactions by any individual, entity or group of beneficial ownership of 20% or more of either the then outstanding shares of common stock of the Company or the combined voting power of the then outstanding voting securities of the Company entitled to vote generally in the election of directors; (ii) individuals who as of December 31, 2008 constitute the Board of Directors (the Incumbent Board), cease for any reason to constitute at least a majority of the Board of Directors; provided, however, that any individual who becomes a director subsequent to December 31, 2008 whose election, or nomination for election by the Company's shareholders, was approved by a vote of at least a majority of the directors then comprising the Incumbent Board shall be considered as though such individual were a member of the Incumbent Board; (iii) consummation of a reorganization, merger or consolidation or sale or other disposition of all or substantially all of the assets of the Company, subject to certain exceptions set forth in the Employment Agreements; and (iv) the approval by the shareholders of the Company of a complete liquidation or dissolution of the Company.

(b) For Good Reason or Without Cause in Connection with a Change in Control. If an NEO's employment with the Company is terminated by the NEO for Good Reason (as defined below) in Connection with a Change in Control or by the Company without Cause in Connection with a Change in Control, the Company is obligated to: (i) pay to the NEO any Accrued Obligations to the extent not already paid; (ii) pay to the NEO a cash severance benefit equal to two times (three times solely in the case of Mr. Lampropoulos) the sum of (A) the NEO's annual base salary then in effect, and (B) the NEO's average annual bonus for the last three full fiscal years ending prior to the Change in Control; (iii) continue to provide group health benefits to the NEO and/or NEO's eligible spouse and dependent children for two years (three times solely in the case of Mr. Lampropoulos) after the date of the NEO's termination; (iv) provide the NEO with certain outplacement services at the Company's expense; and (v) pay or provide to the NEO certain other accrued benefits to the extent not already paid or provided.

For purposes of the Employment Agreements, Cause means: (i) the willful and continued failure of an NEO to perform his or her duties after a written demand for substantial performance specifically identifying the deficiencies in the Executive's performance has been delivered to the NEO by the Board of Directors or, in the case of all NEOs other than Mr. Lampropoulos, the Company's Chief Executive Officer; (ii) the willful engaging by an NEO in illegal conduct, intentional misconduct or gross negligence which materially and demonstrably injures the Company; or (iii) violation of written Company policies prohibiting workplace discrimination, sexual harassment and alcohol or substance abuse. For purposes of the Employment Agreements, Good Reason means: (i) the Company's assignment to the NEO upon or within two years after a Change in Control of any duties inconsistent with or that diminishes the NEO's duties, authority or responsibilities under the terms of the NEO's Employment Agreement; (ii) the Company's failure to comply with certain compensation provisions in the Employment Agreements; (iii) the Company requiring the NEO to relocate to another office or location upon or within two years of a Change in Control; (iv) the failure by the Company to require any successor entity to comply with the terms of a respective Employment Agreement; or (v) the NEO's voluntary resignation for any reason, in the NEO's sole discretion, within 30 days after the date of a Change in Control.

(c) For Cause or Without Good Reason Following a Change in Control. If the Company terminates an NEO's employment for Cause on or after the date of a Change in Control, the Company must pay to the NEO his or her annual base salary and accrued vacation and continue to pay and/or provide certain other welfare benefits to the extent not already provided and/or unpaid. If an NEO voluntarily terminates his or her employment without Good Reason upon or following a Change in Control, the Company is obligated to pay the NEO for Accrued Obligations and to provide certain other accrued benefits to the extent not already paid and/or provided.

(d) Upon Death or Disability. Upon an NEO's death or disability other than in Connection with a Change in Control, the Company is obligated to pay the NEO (or the NEO's estate) an amount equal to Accrued Obligations plus any additional severance benefits approved by the Compensation Committee. If an NEO's employment is terminated after the date of a Change in Control by reason of the NEO's death, the Company must also continue to provide certain other benefits to the NEO's family for a stated period. If an NEO's employment is terminated after the date of a Change in Control by reason of the NEO's disability, the Company must also continue to provide certain welfare benefits.

If a Change in Control with respect to the Company results in compensatory payments to an NEO, including severance benefits and acceleration of vesting of a NEO's stock options, and if the value of such severance benefits and option acceleration exceeds 2.99 times the NEO's average W-2 compensation with the Company for the five taxable years preceding the year of the Change in Control (the Base Period Amount), the Change in Control related payments and option acceleration would result in an excess parachute payment under Code Section 280G. A NEO would be subject to a 20% excise tax, and the Company would be unable to deduct, the amount by which such parachute payments to a NEO exceed the NEO's Base Period Amount. The Employment Agreements provide that in the event any payments made to an NEO, when added to all other parachute payments to the NEO within the meaning of Section 280G of the Code, result in the payment of an excess parachute payment to the NEO within the meaning of Section 280G and 4999 of the Code, then: (i) the cash payments owed to the NEO shall be reduced by the minimum amount necessary to avoid the imposition of an excise or penalty tax on the NEO, provided such reduction does not exceed \$1,000, or (ii) in all other cases, the Company must pay to the NEO an additional amount (on a fully-grossed-up, after tax basis) sufficient to put the NEO in the same after-tax position that the NEO would have been in had payments under the respective Employment Agreement not been subject to the excise tax under Code Section 4999 (a Tax Gross-Up Payment).

Accelerated Stock Option Vesting Upon a Change in Control. Under the Company's 2006 Incentive Plan and prior stock option plan, all otherwise unvested stock options held by NEOs become fully vested upon a change in control as defined below, without regard to whether the NEO terminates employment. The Company's stock option plans generally define a change in control as (i) certain changes in the majority of the Board of Directors within a 24 month period; (ii) the acquisition by any person of 50% or more of the Common Stock or other voting securities; (iii) consummation of a merger or reorganization of the Company in which neither the Company nor another entity controlled by the Company's shareholders is the surviving entity; (iv) a sale or other disposition of all or substantially all of the Company's assets to another entity that is not controlled by the Company's shareholders; or (v) shareholder approval of a liquidation of the Company or (vi) any other event the Board of Directors determines to be a Change in Control. As discussed in greater detail in the section of this Proxy Statement entitled Proposal 2 Amendment of the Merit Medical Systems, Inc. 2006 Long-Term Incentive Plan, the Board of Directors has approved, and intends to submit to the Company's shareholders at the Annual Meeting, a proposal to amend the 2006 Incentive Plan. If approved, the proposed amendment would modify the definition of a Change in Control under the 2006 Incentive Plan. See Proposal 2 Amendment of the Merit Medical Systems, Inc. 2006 Long-Term Incentive Plan and Appendix A to this Proxy Statement set forth below. Additionally, in the case of stock options granted, such options remain exercisable following a change in control for their entire original term notwithstanding termination of the option holder's employment prior to the scheduled option expiration date.

Amounts Payable Upon a Change in Control without Termination of Employment.

The following table shows for each NEO the intrinsic value of his or her otherwise unvested stock options on December 31, 2008 that would have vested had a change in control within the meaning of the Employment Agreements occurred on that date, calculated by multiplying the number of underlying shares by the closing price of Common Stock on the last trading day of 2008 and by then subtracting the applicable option exercise price:

(a)	(b) Intrinsic Value of Stock Options \$
Name	
Fred Lampropoulos	480,530
Kent W. Stanger	317,330
Martin R. Stephens	143,450
Arlin D. Nelson	180,800
Rashelle Perry	116,800

The Employment Agreements do not provide for any additional payments to the NEOs merely upon a Change in Control absent a termination of employment of the NEOs.

Amounts Payable upon Termination of Employment

Termination Without Cause or For Good Reason In Connection with a Change in Control. The following table shows the amounts that would be payable to each NEO if the Company had undergone a Change in Control within the meaning of the Employment Agreements on December 31, 2008 and the NEO's employment with the Company terminated voluntarily for Good Reason or involuntarily without Cause on December 31, 2008. The following amounts are in addition to accrued vacation and distributions from the Company's 401(k) Plan that are payable to all salaried employees upon termination of employment:

(a) Name	(b) Salary and Bonus Continuation \$	(c) Health Plan Coverage Plan Continuation \$	(d) Deferred Compensation Plan \$ (1)	(e) Total \$
Fred Lampropoulos	625,625			625,625

Arlin D. Nelson	242,144			242,144
Rashelle Perry	219,141		184,869	404,010

(1) The amounts shown in column (c) represents the intrinsic value of the otherwise unvested stock options held by NEOs on December 31, 2008 calculated by multiplying the number of shares underlying such options by the closing price of Company shares on December 31, 2008, the last trading day of 2008 (\$17.93 a share), and by then subtracting the applicable exercise price.

(2) The amounts in column (d) represent the estimated future cost of providing continuing Company-paid coverage under the Company's group health, disability and life insurance plans for the applicable severance period. The estimated amounts are based upon December 31, 2008 actual premium rates, plus a 10% assumed rate of annual premium cost increases.

(3) The amounts in column (e) represent the account balance in each NEO's Deferred Compensation Plan account as of December 31, 2008.

(4) The amounts in columns (b) and (f) for Martin R. Stephens do not include an additional \$317,446 that also would have been payable to Mr. Stephens as a Tax Gross-Up Payment under his Employment Agreement had he been terminated without Cause or resigned for Good Reason in connection with a Change in Control on December 31, 2008. None of the other NEOs would have received a Tax Gross-Up Payment as a result of their termination without Cause or resignation for Good Reason in connection with a Change in Control on December 31, 2008 because the value of their December 31, 2008 Change in Control related severance benefits and option acceleration would have been less than 2.99 times their applicable Base Period Amounts.

Termination Without Cause or For Good Reason (Other Than in Connection with a Change in Control). The following table shows the amounts that would be payable to each NEO if the NEO's employment with the Company had terminated voluntarily for good reason or involuntarily without Cause, other than in connection with a Change in Control, on December 31, 2008 and the Company had exercised its discretion to pay severance equal to one year's salary and average bonus. The following amounts are in addition to accrued vacation and distributions from the Company's 401(k) Plan that are payable to all salaried employees upon termination of employment:

(a) Name	(b) Salary and Bonus Continuation \$	(c) Stock Option Vesting Acceleration \$ (1)	(d) Health Plan Coverage Continuation \$ (2)	(e) Deferred Compensation Plan \$ (3)	(f) Tax Gross-up

Rashelle Perry	438,282	116,800	1,710	184,869	

- (1) Assumes the Company had exercised its discretion to pay severance equal to one year's salary and prior year's annual bonus.
- (2) The amounts in column (d) represent the account balance in the NEO's Deferred Compensation Plan account as of December 31, 2008.

Termination on Account of Death, Disability, Involuntary Termination For Cause or Voluntary Resignation Without Good Reason. If on December 31, 2008 a NEO had died, his or her employment had been terminated on account of disability, his or her employment had been terminated for cause or he or she had voluntarily resigned without good reason, whether or not in connection with a change in control, he or she would have been entitled to receive only: (a) his or her accrued salary and bonus earned through December 31, 2008; (b) accrued but unpaid vacation pay through December 31, 2008; (c) distribution of his or her vested account balance from the Company's 401(k) Plan; (d) the payment of insured benefits, if applicable, under the Company's broad-based long-term disability insurance or group term life insurance plans; and (e) distribution of his or her Deferred Compensation Plan account balance.

DIRECTOR COMPENSATION

PROPOSAL NO. 2 AMENDMENT OF THE MERIT MEDICAL SYSTEMS, INC. 2006 LONG-TERM INCENTIVE PLAN

General

Since 2006, the Company has operated the Merit Medical Systems, Inc. 2006 Long-Term Incentive Plan (the "2006 Incentive Plan"), which provides opportunities for the Company's employees and other eligible participants to receive equity-based awards designed to align the interests of participants with the long-term objectives of the Company. In preparation for the Annual Meeting, the Board of Directors reviewed the Company's experience with the 2006 Incentive Plan, as well as prior equity-based award plans maintained by the Company. The Board of Directors concluded that the operation of equity-based award plans has been beneficial to the Company and its shareholders. Among other benefits, the ability of the Company to grant equity-based awards to plan participants has enhanced the Company's efforts to attract and retain qualified employees and directors. In the course of its review, the Board of Directors was informed by the Company's management that as of December 31, 2008, there were only 487,500 shares of Common Stock available for issuance under the 2006 Incentive Plan, in addition to 206,619 shares of Common Stock available for issuance under the Merit Medical Systems, Inc. Stock Incentive Plan (the "2004 Incentive Plan"). Given the limited number of awards which remain available for grant under the 2006 Incentive Plan, the Board of Directors determined that amendment of the 2006 Incentive Plan for the purpose of increasing the number of award available for grant thereunder is in the best interests of the Company and its shareholders.

In the course of reviewing the 2006 Incentive Plan, the Board of Directors also considered the existing definition of "Change in Control" under the 2006 Incentive Plan. The Board of Directors concluded that the interests of the Company's shareholders may be better served by amending the 2006 Incentive Plan to modify the definition of Change in Control. The Board of Directors concluded that eliminating its discretionary authority to determine that certain non-specified events constitute a Change in Control for purposes of the 2006 Incentive Plan would add greater certainty to the administration of the 2006 Incentive Plan and serve as less of a deterrent to potential change in control transactions. The Board of Directors contemporaneously concluded that reducing the stock transfer threshold for determination of a Change in Control to 30% of the total voting power of the Company's outstanding securities represented a reasonable estimate of the percentage of stock ownership which, if transferred, would have the effect of changing control of the Company's operations.

Proposed Amendment

Edgar Filing: MERIT MEDICAL SYSTEMS INC - Form DEF 14A

Based upon the foregoing review, in April 2009, the Board of Directors approved a Second Amendment to the 2006 Incentive Plan, which provides for (i) an increase in the number of shares of Common Stock authorized for the grant of awards under that plan from 1,500,000 shares to 3,000,000 shares, and (ii) modification of the definition of Change in Control to eliminate the discretionary ability of the Company's Board of Directors to determine that certain events constitute a Change in Control and to lower the stock transfer threshold for determination of a Change in Control from 50% of the total voting power of the Company's outstanding securities to 30% of the total voting power of the Company's outstanding securities. The Second Amendment to the 2006 Incentive Plan is subject to approval by the Company's shareholders at the Annual Meeting. A copy of the Second Amendment to the 2006 Incentive Plan is set forth on [Appendix A](#) to this Proxy Statement.

The action of the Board of Directors to amend the 2006 Incentive Plan is subject to approval of the Company's shareholders prior to May 31, 2009. In the event that the shareholders of the Company do not approve the proposed amendment to the 2006 Incentive Plan on or before May 31, 2009, the 2006 Incentive Plan will continue in effect, and the Board of Directors, through its Compensation Committee, will continue to administer the 2006 Incentive Plan and grant awards thereunder; *provided, however*, that (i) the maximum number of shares of Common Stock that would be authorized for issuance under the 2006 Incentive Plan would remain at 1,500,000, and (ii) the definition of Change in Control would not be modified as currently proposed by the Board of Directors.

Plan Summary

The following description summarizes the principal features of the 2006 Incentive Plan, but is qualified in its entirety by reference to the full text of the 2006 Incentive Plan as filed with the Securities and Exchange Commission.

Purpose. The purpose of the 2006 Incentive Plan is to assist the Company and its subsidiaries in attracting and retaining selected individuals to serve as directors, employees, consultants and advisors. The Board of Directors believes that such individuals will contribute to the Company's success in achieving its long-term objectives, which will inure to the benefit of all shareholders of the Company, through the incentives inherent in the awards granted under the 2006 Incentive Plan.

Eligibility. All directors, employees, consultants and advisors of the Company and its subsidiaries are eligible to receive awards under the 2006 Incentive Plan.

Administration. The 2006 Incentive Plan is administered by the Compensation Committee of the Board of Directors. The Compensation Committee has the authority to interpret and construe the provisions of the 2006 Incentive Plan and to make all decisions and determinations relating to the operation of the 2006 Incentive Plan, including the authority and discretion to: (i) select the individuals to receive stock option grants or other awards; (ii) determine the time or times when stock option grants or other awards will be granted and will vest; and (iii) establish the terms and conditions upon which awards may be exercised.

Duration. The 2006 Incentive Plan became effective on May 25, 2006 and continues until May 25, 2016.

Shares Subject to Plan. A maximum of 1,500,000 shares of Common Stock are currently authorized for issuance under the 2006 Incentive Plan; provided, however, that if the proposed amendment of the 2006 Incentive Plan is approved at the Annual Meeting, the maximum number of shares of Common Stock authorized for issuance under the 2006 Incentive Plan will be increased to 3,000,000. Any shares subject to options or stock appreciation rights are counted against the shares available for issuance as one share for every share subject thereto. Any shares subject to awards other than options or stock appreciation rights are counted against the shares available for issuance as two shares for every one share subject thereto. If an award under the 2006 Incentive Plan is forfeited, expires or is settled in cash, the subject shares are again available for grant under the 2006 Incentive Plan (such forfeited or settled shares, Recycled Shares). To the extent that a share that was subject to an award that counted as one share against the 2006 Incentive Plan reserve becomes a Recycled Share, the 2006 Incentive Plan is credited with one share. To the extent that a share that was subject to an award that counted as two shares against the 2006 Incentive Plan reserve becomes a Recycled Share, the 2006 Incentive Plan is credited with two shares. The following types of shares of Common Stock may not become again available for grant under the 2006 Incentive Plan: (i) shares tendered by the participant or withheld by the Company in payment of the purchase price of an option or in satisfaction of any tax withholding obligation; (ii) shares repurchased by the Company with option proceeds; or (iii) shares subject to a stock appreciation right that are not issued in connection with the stock settlement of the stock appreciation right on exercise thereof.

In the event the outstanding shares of Common Stock are increased, decreased, changed into, or exchanged for a different number or kind of shares or securities through reorganization, merger, recapitalization, reclassification, stock split, reverse stock split or similar transaction (a Recapitalization), the maximum number of shares available for issuance under the 2006 Incentive Plan will be proportionately adjusted.

Awards Under the 2006 Incentive Plan

The 2006 Incentive Plan provides for the following types of awards (Awards): (i) stock options; (ii) stock appreciation rights; (iii) restricted stock; (iv) stock units (including restricted stock units); and (v) performance awards.

Stock Options. The Compensation Committee may from time to time award options to any participant subject to the limitations described above. Stock options give the holder the right to purchase shares of the Common Stock within a specified time at a specified price. Two types of stock options may be granted under the 2006 Incentive Plan: incentive stock options, or ISOs, which are subject to special tax treatment as described below, and nonstatutory options, or NSOs. Eligibility for ISOs is limited to employees of the Company and its subsidiaries. The exercise price of an option cannot be less than the fair market value of a share of Common Stock at the time of grant. The expiration dates of options cannot be more than seven years after the date of the original grant. Other than pursuant to a Recapitalization, the Compensation Committee may not without the approval of the Company's shareholders (a) lower the option price of an option after it is granted, (b) cancel an option when the option price exceeds the fair market value of the underlying shares in exchange for another Award, or (c) take any other action with respect to an option that may be treated as a repricing under the rules and regulations of The Nasdaq Stock Market.

Stock Appreciation Rights. The Compensation Committee may grant stock appreciation rights under the 2006 Incentive Plan. A stock appreciation right entitles the holder upon exercise to receive an amount in cash, shares of Common Stock, other property, or a combination thereof (as determined by the Compensation Committee), computed by reference to appreciation in the value of the Common Stock. The exercise price of a stock appreciation right cannot be less than the fair market value of a share of Common Stock at the time of grant. The expiration dates of stock appreciation rights cannot be more than seven years after the date of the original grant.

Restricted Stock. The Compensation Committee may grant restricted shares of Common Stock to such persons, in such amounts, and subject to such terms and conditions (including the attainment of performance criteria) as the Compensation Committee determines in its discretion. Awards of restricted shares of the Common Stock may be made in exchange for services or other lawful consideration. Generally, awards of restricted shares of Common Stock are subject to the requirement that the shares be forfeited to the Company unless specified conditions are met. Except for certain limited situations, grants of restricted shares of Common Stock will have a vesting period of not less than three years. Subject to these restrictions, conditions and forfeiture provisions, any recipient of an award of restricted stock will have all the rights of a shareholder of the Company, including the right to vote the shares.

Stock Units. The Compensation Committee may grant stock units, including restricted stock units, having a value equal to an identical number of shares of Common Stock to such persons, in such amounts, and subject to such terms and conditions (including the attainment of performance criteria) as the Compensation Committee determines in its discretion. If the requirements specified by our Compensation Committee are met, the grantee of such units will receive shares of Common Stock, cash, other property, or any combination thereof, equal to the fair market value of the corresponding number of shares of Common Stock.

Performance Awards. The Compensation Committee may also make awards of performance shares or performance units subject to the satisfaction of specified performance criteria. Performance awards may be paid in shares of Common Stock, cash, other property, or any combination thereof. The performance criteria governing performance awards may be based upon one or any combination of the following: gross sales; net sales; revenue; revenue growth; operating income; pre- or after-tax income (before or after allocation of corporate overhead and bonus); net earnings; earnings per share; net income; division, group or corporate financial goals; return on equity; total shareholder return; return on assets or net assets; attainment of strategic and operational initiatives, including product development and introduction, facility expansion and business acquisitions; appreciation in and/or maintenance of the price of the Common Stock or any other publicly-traded securities of the Company; market share; gross profits; earnings (including earnings before taxes, earnings before interest and taxes or earnings before interest, taxes, depreciation and amortization); economic value-added models; comparisons with various stock market indices; reductions

in costs; cash flow (before or after dividends) cash flow per share (before or after dividends); return on capital (including return on total capital or return on invested capital; cash flow return on investment; improvement in or attainment of expense levels or working capital levels; cash margins; returns on inventory; inventory turnover; inventory management; other inventory measures; and revenue per employee.

Limitations on Grants

Subject to adjustment for a Recapitalization, no 2006 Incentive Plan participant may be granted (i) options or stock appreciation rights during any rolling 36-month period with respect to more than 600,000 shares of Common Stock or (ii) restricted stock, restricted stock units, or performance awards that are denominated in shares of Common Stock in any rolling 36-month period with respect to more than 300,000 shares of Common Stock (the Limitations). Additionally, the maximum dollar value payable to any participant in any rolling 12-month period with respect to performance awards is \$10,000,000. If an Award is cancelled, the cancelled Award shall continue to be counted toward the applicable Limitations.

General Provisions

Unless authorized by the Compensation Committee in the agreement evidencing an award granted under the 2006 Incentive Plan, Awards may not be transferred other than by will or the laws of descent and distribution, and may be exercised during the participant's lifetime only by the participant or the participant's guardian or legal representative. The Board of Directors may, from time to time, alter, amend, suspend or terminate the 2006 Incentive Plan. No grants may be made under the plan following the date of termination, although grants made prior to that date may remain outstanding following the termination of the 2006 Incentive Plan until their scheduled expiration date.

Certain Federal Income Tax Consequences

Tax Consequences to Participants

The following is a brief summary of certain of United States federal income tax consequences relating to awards under the 2006 Incentive Plan. This summary is not intended to be complete and does not describe state, local, foreign, or other tax consequences. The tax information summarized is not tax advice.

Nonqualified Stock Options (NSOs). In general, (i) no income will be recognized by an optionee at the time an NSO is granted; (ii) at the time of exercise of an NSO, ordinary income will be recognized by the optionee in an amount equal to the difference between the option price paid for the shares of Common Stock and the fair market value of the shares, if unrestricted, on the date of exercise; and (iii) at the time of sale of shares of Common Stock acquired pursuant to the exercise of an NSO, appreciation (or depreciation) in value of the shares after the date of exercise will be treated as either short-term or long-term capital gain (or loss) depending on how long the shares have been held.

Incentive Stock Options (ISOs). No income will be recognized by an optionee upon the grant of an ISO. In general, no income will be recognized upon the exercise of an ISO. However, the difference between the option price paid and the fair market value of the shares at exercise may constitute a preference item for the alternative minimum tax. If shares of Common Stock are issued to the optionee pursuant to the exercise of an ISO, and if no disqualifying disposition of such shares is made by such optionee within two years after the date of the grant or within one year after the transfer of such shares to the optionee, then upon sale of such shares, any amount realized in excess of the option price will be taxed to the optionee as a long-term capital gain and any loss sustained will be a long-term capital loss.

Edgar Filing: MERIT MEDICAL SYSTEMS INC - Form DEF 14A

If shares of Common Stock acquired upon the timely exercise of an ISO are disposed of prior to the expiration of either holding period described above, the optionee generally will recognize ordinary income in the year of disposition in an amount equal to the excess (if any) of the fair market value of such shares at the time of exercise (or, if less, the amount realized on the disposition of such shares if a sale or exchange) over the option price paid for such shares. Any further gain (or loss) realized by the participant generally will be taxed as short-term or long-term capital gain (or loss) depending on the holding period.

Stock Appreciation Rights. No income will be recognized by a participant in connection with the grant of a stock appreciation right. When the appreciation right is exercised, the participant normally will be required to include as taxable ordinary income in the year of exercise an amount equal to the amount of cash received and the fair market value of any unrestricted shares of Common Stock or other property received on the exercise.

Restricted Stock. The recipient of restricted shares of Common Stock generally will not be subject to tax until the shares are no longer subject to forfeiture or restrictions on transfer for purposes of Section 83 of the Code (the *Restrictions*). At such time the recipient will be subject to tax at ordinary income rates on the fair market value of the restricted shares (reduced by any amount paid by the participant for such restricted shares). However, a recipient who so

elects under Section 83(b) of the Code within 30 days of the date of transfer of the shares will have taxable ordinary income on the date of transfer of the shares equal to the excess of the fair market value of such shares (determined without regard to the Restrictions) over the purchase price, if any, of such restricted shares. Any appreciation (or depreciation) realized upon a later disposition of such shares will be treated as long-term or short-term capital gain (or loss) depending upon how long the shares have been held. If a Section 83(b) election has not been made, any dividends received with respect to restricted shares that are subject to the restrictions generally will be treated as compensation that is taxable as ordinary income to the participant.

Restricted Stock Units. Generally, no income will be recognized upon the award of restricted stock units. The recipient of a stock unit award generally will be subject to tax at ordinary income rates on any cash received and the fair market value of any unrestricted shares of Common Stock or other property on the date that such amounts are transferred to the participant under the award (reduced by any amount paid by the participant for such restricted stock units).

Performance Awards. No income generally will be recognized upon the grant of a performance award. Upon payment in respect of a performance award, the recipient generally will be required to include as taxable ordinary income in the year of receipt an amount equal to the amount of cash received and the fair market value of any nonrestricted shares of Common Stock or other property received.

Tax Consequences to the Company

To the extent that a participant recognizes ordinary income in the circumstances described above, the Company or the subsidiary for which the participant performs services will be entitled to a corresponding deduction provided that, among other things, (i) the income meets the test of reasonableness, (ii) is an ordinary and necessary business expense, (iii) is not an excess parachute payment within the meaning of Section 280G of the Code, and (iv) is not disallowed by the \$1 million limitation on certain executive compensation under Section 162(m) of the Code.

Value of Benefits

The Company is unable to determine the amount of benefits that may be received by participants under the 2006 Incentive Plan if the proposed amendment is approved, as grants of awards are discretionary with the Compensation Committee.

Certain Interests of Directors

Edgar Filing: MERIT MEDICAL SYSTEMS INC - Form DEF 14A

In considering the recommendation of the Board of Directors with respect to the proposal to amend the 2006 Incentive Plan, shareholders should be aware that the members of the Board of Directors have certain interests, which may present them with conflicts of interest in connection with such proposal. As discussed above, directors are eligible to receive awards under the 2006 Incentive Plan. The Board of Directors recognizes that adoption of the 2006 Incentive Plan may benefit the Company's directors and their successors, but believes that approval of the 2006 Incentive Plan will advance the Company's interests and the interests of its shareholders by encouraging directors, employees, consultants and advisors to make significant contributions to the Company's long-term success.

The Board of Directors believes the amendment of the 2006 Incentive Plan is in the best interests of the Company and its shareholders, and therefore unanimously recommends that the shareholders vote FOR approval of the proposal to amend the 2006 incentive Plan.

PROPOSAL NO. 3 RATIFICATION OF APPOINTMENT OF INDEPENDENT

REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee has recommended, and the Board of Directors has appointed, the firm of Deloitte & Touche LLP, (Deloitte) independent registered public accountants, to audit the financial statements of the Company for the year ending December 31, 2009, subject to ratification by the Company's shareholders. Deloitte has acted as the independent public accounting firm for the Company since 1987. The Board of Directors anticipates that one or more representatives of Deloitte will be present at the Annual Meeting, will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

The Board of Directors recommends that shareholders vote FOR ratification of the appointment of Deloitte & Touche LLP as the Company's independent registered public accounting firm.

Pre-Approval Policies and Procedures

The Audit Committee ensures that the Company engages its independent registered public accounting firm to provide only audit and non-audit services that are compatible with maintaining the independence of its public accountants. The Audit Committee approves or pre-approves all services provided by the Company's public accountants. Permitted services include audit and audit-related services, tax and other non-audit related services. Certain services are identified as restricted. Restricted services are those services that may not be provided by the Company's external public accountants, whether identified in statute or determined in the Company's opinion to be incompatible with the role of an independent auditor. All fees identified in the preceding table were approved by the Audit Committee. During 2008, the Audit Committee reviewed all non-audit services provided by the Company's independent registered public accounting firm, and concluded that the provision of such non-audit services was compatible with maintaining the independence of the external public accountants.
