**Item 2.02. Results of Operations and Financial Condition.**

In June 2008, the Financial Accounting Standards Board ( FASB ) issued FASB Staff Position ( FSP ) No. EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities* ( FSP EITF 03-6-1 ), which addressed whether instruments granted in share-based payment transactions are participating securities prior to vesting and, therefore, need to be included in the earnings allocation in computing earnings per share under the two-class method described in Statement of Financial Accounting Standards No. 128, *Earnings per Share*. Restricted stock issued under Forest Oil Corporation's ( Forest ) stock incentive plans has the right to receive non-forfeitable cash dividends, participating on an equal basis with common stock. Phantom stock units issued to directors under Forest's stock incentive plans also have the right to receive non-forfeitable cash dividends, participating on an equal basis with common stock, while phantom stock units issued to employees do not participate in dividends. Stock options issued under Forest's stock incentive plans do not participate in dividends. Therefore, restricted stock and phantom stock units issued to directors are participating securities and earnings are allocated to both common stock and these participating securities in the earnings per share calculations under FSP EITF 03-6-1. However, these participating securities do not have a contractual obligation to share in Forest's losses in such periods where a net loss was recognized. Therefore, in periods of net loss, none of the loss is allocated to these participating securities.

FSP EITF 03-6-1 was effective for financial statements issued for fiscal years beginning after December 15, 2008 and interim periods within those years. Forest adopted FSP EITF 03-6-1 as of January 1, 2009. The table below sets forth Forest's as reported basic and diluted earnings per common share ( EPS ) for each of the five years in the period ended December 31, 2008 as well as an as adjusted basic and diluted earnings per common share for the same periods had FSP EITF 03-6-1 been adopted on January 1, 2004.

The information in this Item 2.02 is to be considered filed under the Securities Exchange Act of 1934.

**Item 8.01. Other Events**

As part of its long term incentive compensation program, Forest has periodically granted to its employees stock options, restricted stock (to U.S. employees), and phantom stock units (to Canadian employees). Although no individual awards have yet been determined, the Compensation Committee of Forest's Board of Directors has given preliminary approval to a grant to all employees, including officers, that we expect will involve a total of approximately 780,000 shares of restricted stock, approximately 80,000 phantom stock units that may be settled upon vesting in either Forest common stock or cash (at Forest's discretion), and approximately 260,000 phantom stock units that may only be settled in cash. We expect that this grant will be completed in May 2009.
