Item 8.01 Other Events.

The following is an update to the disclosures on rate requests in Management's Discussion and Analysis of Financial Condition and Results of Operations Electric Utility under Most recent rate proceedings in HEI's and HECO's Form 10-Q for the quarterly period ended March 31, 2013.

MECO 2012 Test Year Rate Case

On May 31, 2013, the Public Utilities Commission of the State of Hawaii (PUC) issued a final decision and order (D&O) in the Maui Electric Company, Limited (MECO) 2012 test year proceeding which resulted in a reduction in annual revenues from the interim increase primarily related to a lowering of MECO's return on average common equity (ROACE) from 10.0% to 9.0%. See HEI's and HECO's Form 8-K filed on June 4, 2013.

On June 12, 2013, MECO filed a Motion for Partial Reconsideration and Partial Clarification of the final D&O, which primarily requested reconsideration of the findings and conclusions concerning MECO's 9.0% ROACE for the test year and also addressed other matters identified in the D&O, including treatment of Integrated Resource Planning (IRP) costs pending PUC determinations on such costs in a separate IRP proceeding. MECO requested a panel evidentiary hearing on ROACE, curtailment and technical studies, and pension expense. MECO also requested to partially stay the implementation of the final D&O, pending the presentation at an evidentiary hearing on its motion for partial reconsideration of the final D&O related to the ROACE reduction from 10.0% to 9.0% and the PUC's final decision following the hearing. See HEI's and HECO's Form 8-K filed on June 14, 2013.

On July 2, 2013, the PUC issued an order denying MECO's requests for an evidentiary hearing and for partial reconsideration, and dismissed MECO's motion for partial stay. The order granted MECO's motion for partial clarification such that MECO will be allowed to defer IRP costs incurred since June 2012, which to date totaled approximately \$0.7 million, until the level of costs are determined and a method of recovery is decided in the IRP proceeding.

A summary of the final D&O is as follows:

	Final D&O	
	5/31/2013	
Revenue increase	\$	5.3 million (1.3% increase)
ROACE (%)		9.00%
Common equity capitalization (%)		56.86%
Return on average rate base (%)		7.34%
Average rate base amount	\$	393 million

MECO is complying with the PUC's D&O and has filed a refund plan and documentation regarding the re-setting of its target heat rate to take into account the operation of the Auwahi wind farm, and has made its curtailment information readily available to the public on its website. In addition, as required by the D&O, MECO will be filing by September 3, 2013 a System Improvement and Curtailment Reduction Plan. Management cannot predict any actions by the PUC as a result of these filings.
