NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. BASIS OF PRESENTATION AND ACCOUNTING POLICIES

Basis of Presentation

The interim consolidated financial statements include the accounts of The Travelers Companies, Inc. (together with its subsidiaries, the Company). These financial statements are prepared in conformity with U.S. generally accepted accounting principles (GAAP) and are unaudited. In the opinion of the Company's management, all adjustments necessary for a fair presentation have been reflected. Certain financial information that is normally included in annual financial statements prepared in accordance with GAAP, but that is not required for interim reporting purposes, has been omitted. All material intercompany transactions and balances have been eliminated. The accompanying interim consolidated financial statements and related notes should be read in conjunction with the Company's consolidated financial statements and related notes included in the Company's 2012 Annual Report on Form 10-K.

The preparation of the interim consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim consolidated financial statements and the reported amounts of revenues and claims and expenses during the reporting period. Actual results could differ from those estimates.

Adoption of Accounting Standards Updates

Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income

In February 2013, the Financial Accounting Standards Board (FASB) issued updated guidance to improve the reporting of reclassifications out of accumulated other comprehensive income. The guidance requires an entity to present, either on the face of the statement of income or in the notes, separately for each component of comprehensive income, the current period reclassifications out of accumulated other comprehensive income by the respective line items of net income affected by the reclassification.

The updated guidance is effective prospectively for reporting periods beginning after December 15, 2012. The Company adopted the updated guidance effective March 31, 2013, and such adoption did not have any effect on the Company's results of operations, financial position or liquidity.

Accounting Standard Not Yet Adopted

Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity

In March 2013, the FASB issued updated guidance to resolve diversity in practice concerning the release of the cumulative foreign currency translation adjustment into net income when a parent sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets within a foreign entity. When a company ceases to have a controlling financial interest in a subsidiary within a foreign entity, the company should recognize any related cumulative translation adjustment into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary had resided. Upon the partial sale of an equity method investment that is a foreign entity, the company should release into earnings a pro rata portion of the cumulative translation adjustment. Upon the partial sale of an equity method investment that is not a foreign entity, the company should release into earnings the cumulative translation adjustment if the partial sale represents a complete or substantially complete liquidation of the foreign entity that holds the equity method investment. The updated guidance is effective for the quarter ending March 31, 2014. Early adoption is permitted. The adoption of this guidance is not expected to have a material effect on the Company's results of operations, financial position or liquidity.

Table of Contents

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), (Continued)

1. BASIS OF PRESENTATION AND ACCOUNTING POLICIES, Continued

Nature of Operations

The Company is organized into three reportable business segments: Business Insurance; Financial, Professional & International Insurance; and Personal Insurance. These segments reflect the manner in which the Company's businesses are currently managed and represent an aggregation of products and services based on type of customer, how the business is marketed and the manner in which risks are underwritten. The specific business segments are as follows:

Business Insurance

The Business Insurance segment offers a broad array of property and casualty insurance and insurance-related services to its clients primarily in the United States. Business Insurance is organized into the following six groups, which collectively comprise Business Insurance Core operations: Select Accounts; Commercial Accounts; National Accounts; Industry-Focused Underwriting; Target Risk Underwriting; and Specialized Distribution.

Business Insurance also includes the Special Liability Group (which manages the Company's asbestos and environmental liabilities) and the assumed reinsurance and certain other runoff operations, which collectively are referred to as Business Insurance Other.

Financial, Professional & International Insurance

The Financial, Professional & International Insurance segment includes surety and financial liability coverages, which primarily use credit-based underwriting processes, as well as property and casualty products that are primarily marketed on a domestic basis in the United Kingdom, Canada and the Republic of Ireland, and on an international basis through Lloyd's. The segment includes Bond & Financial Products as well as International. In addition, the Company owns 49.5% of the common stock of J. Malucelli Participações em Seguros e Resseguros S.A. (JMalucelli), its joint venture in Brazil. JMalucelli is currently the market leader in surety in Brazil based on market share, and commenced writing other property and casualty insurance business in 2012. The Company's investment in JMalucelli is accounted for using the equity method and is included in other investments on the consolidated balance sheet.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

On June 10, 2013, the Company entered into a definitive agreement to acquire all of the issued and outstanding shares of The Dominion of Canada General Insurance Company (The Dominion) from E-L Financial Corporation Limited (E-L Financial) for an aggregate cash purchase price of C\$1.125 billion (approximately US\$1.1 billion), subject to adjustment to reflect changes in shareholder's equity prior to the closing, including a downward adjustment to reflect an anticipated pre-closing dividend. The transaction is expected to close in the fourth quarter of 2013, subject to regulatory approvals and other customary closing conditions. The Dominion primarily markets personal lines and small commercial insurance business in Canada.

Personal Insurance

The Personal Insurance segment writes a broad range of property and casualty insurance covering individuals' personal risks. The primary products of automobile and homeowners insurance are complemented by a broad suite of related coverages.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued

3. INVESTMENTS, Continued

Derivative Financial Instruments

The Company uses U.S. Treasury note futures transactions to modify the effective duration of specific assets within the investment portfolio. The Company enters into 90-day futures contracts on U.S. Treasury notes which require a daily mark-to-market and settlement with the broker. At June 30, 2013, March 31, 2013 and December 31, 2012, the Company had \$0, \$2.0 billion and \$800 million notional value of open U.S. Treasury futures contracts, respectively. During the second quarter of 2013, the notional value of U.S. Treasury futures contracts entered into by the Company reached \$2.7 billion. Net realized investment gains in the three months ended June 30, 2013 and 2012 included net gains of \$134 million and net losses of \$13 million, respectively, related to U.S. Treasury futures contracts. Net realized investment gains in the six months ended June 30, 2013 and 2012 included net gains of \$115 million and net losses of \$7 million, respectively, related to U.S. Treasury futures contracts.

4. FAIR VALUE MEASUREMENTS

The Company's estimates of fair value for financial assets and financial liabilities are based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets and requires that observable inputs be used in the valuations when available. The disclosure of fair value estimates in the fair value accounting guidance hierarchy is based on whether the significant inputs into the valuation are observable. In determining the level of the hierarchy in which the estimate is disclosed, the highest priority is given to unadjusted quoted prices in active markets and the lowest priority to unobservable inputs that reflect the Company's significant market assumptions. The level in the fair value hierarchy within which the fair value measurement is reported is based on the lowest level input that is significant to the measurement in its entirety. The three levels of the hierarchy are as follows:

- Level 1 - Unadjusted quoted market prices for identical assets or liabilities in active markets that the Company has the ability to access.
- Level 2 - Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or valuations based on models where the significant inputs are observable (e.g., interest rates, yield curves, prepayment speeds, default rates, loss severities, etc.) or can be corroborated by observable market data.

- Level 3 - Valuations based on models where significant inputs are not observable. The unobservable inputs reflect the Company's own assumptions about the inputs that market participants would use.

Valuation of Investments Reported at Fair Value in Financial Statements

The fair value of a financial instrument is the estimated amount at which the instrument could be exchanged in an orderly transaction between knowledgeable, unrelated, willing parties, i.e., not in a forced transaction. The estimated fair value of a financial instrument may differ from the amount that could be realized if the security was sold in an immediate sale, e.g., a forced transaction. Additionally, the valuation of investments is more subjective when markets are less liquid due to the lack of market based inputs, which may increase the potential that the estimated fair value of an investment is not reflective of the price at which an actual transaction would occur.

For investments that have quoted market prices in active markets, the Company uses the unadjusted quoted market prices as fair value and includes these prices in the amounts disclosed in Level 1 of the hierarchy. The Company receives the quoted market prices from a third party, nationally recognized pricing service (pricing service). When quoted market prices are unavailable, the Company utilizes a pricing service to determine an estimate of fair value, which is mainly used for its fixed maturity investments. The fair value estimates provided from this pricing service are included in the amount disclosed in Level 2 of the hierarchy. If quoted market prices and an estimate from a pricing service are unavailable, the Company produces an estimate of fair value based on internally developed valuation techniques, which, depending on the level of observable market inputs, will render the fair value estimate as Level 2 or Level 3. The Company bases all of its estimates of fair value for assets on the bid price as it represents what a third-party market participant would be willing to pay in an arm's length transaction.

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued

4. FAIR VALUE MEASUREMENTS, Continued

Fixed Maturities

The Company utilized a pricing service to estimate fair value measurements for approximately 98% of its fixed maturities at both June 30, 2013 and December 31, 2012. The pricing service utilizes market quotations for fixed maturity securities that have quoted prices in active markets. Since fixed maturities other than U.S. Treasury securities generally do not trade on a daily basis, the pricing service prepares estimates of fair value measurements for these securities using its proprietary pricing applications, which include available relevant market information, benchmark curves, benchmarking of like securities, sector groupings and matrix pricing. Additionally, the pricing service uses an Option Adjusted Spread model to develop prepayment and interest rate scenarios.

The pricing service evaluates each asset class based on relevant market information, relevant credit information, perceived market movements and sector news. The market inputs utilized in the pricing evaluation, listed in the approximate order of priority, include: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, reference data, and industry and economic events. The extent of the use of each market input depends on the asset class and the market conditions. Depending on the security, the priority of the use of inputs may change or some market inputs may not be relevant. For some securities, additional inputs may be necessary.

The pricing service utilized by the Company has indicated that it will only produce an estimate of fair value if there is objectively verifiable information to produce a valuation. If the pricing service discontinues pricing an investment, the Company would be required to produce an estimate of fair value using some of the same methodologies as the pricing service but would have to make assumptions for market-based inputs that are unavailable due to market conditions.

The fair value estimates of most fixed maturity investments are based on observable market information rather than market quotes. Accordingly, the estimates of fair value for such fixed maturities, other than U.S. Treasury securities, provided by the pricing service are included in the amount disclosed in Level 2 of the hierarchy. The estimated fair value of U.S. Treasury securities is included in the amount disclosed in Level 1 as the estimates are based on unadjusted market prices.

The Company also holds certain fixed maturity investments which are not priced by the pricing service and, accordingly, estimates the fair value of such fixed maturities using an internal matrix that is based on market information regarding interest rates, credit spreads and liquidity. The underlying source data for calculating the matrix of credit spreads relative to the U.S. Treasury curve are the BofA Merrill Lynch U.S. Corporate Index and the BofA Merrill Lynch High Yield BB Rated Index. The Company includes the fair value estimates of these corporate bonds in Level 2, since all significant inputs are market observable.

While the vast majority of the Company's municipal bonds and corporate bonds are included in Level 2, the Company holds a number of municipal bonds and corporate bonds which are not valued by the pricing service and estimates the fair value of these bonds using an internal pricing matrix with some unobservable inputs that are significant to the valuation. Due to the limited amount of observable market information, the Company includes the fair value estimates for these particular bonds in Level 3. The fair value of the fixed maturities for which the Company used an internal pricing matrix was \$80 million at June 30, 2013 and \$102 million at December 31, 2012. Additionally, the Company holds a small amount of other fixed maturity investments that have characteristics that make them unsuitable for matrix pricing. For these fixed maturities, the Company obtains a quote from a broker (primarily the market maker). The fair value of the fixed maturities for which the Company received a broker quote was \$145 million and \$128 million at June 30, 2013 and December 31, 2012, respectively. Due to the disclaimers on the quotes that indicate that the price is indicative only, the Company includes these fair value estimates in Level 3.

Equities - Public Common and Preferred

For public common and preferred stocks, the Company receives prices from a nationally recognized pricing service that are based on observable market transactions and includes these estimates in the amount disclosed in Level 1. When current market quotes in active markets are unavailable for certain non-redeemable preferred stocks held by the Company, the Company receives an estimate of fair value from the pricing service that provides fair value estimates for the Company's fixed maturities. The service utilizes some of the same methodologies to price the non-redeemable preferred stocks as it does for the fixed maturities. The Company includes the fair value estimate for these non-redeemable preferred stocks in the amount disclosed in Level 2.

Table of Contents**THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued****4. FAIR VALUE MEASUREMENTS, Continued***Other Investments*

The Company holds investments in various publicly-traded securities which are reported in other investments. These investments include securities in the Company's trading portfolio, mutual funds and other small holdings. The \$17 million and \$46 million fair value of these investments at June 30, 2013 and December 31, 2012, respectively, was disclosed in Level 1. At June 30, 2013 and December 31, 2012, the Company held investments in non-public common and preferred equity securities, with fair value estimates of \$33 million and \$54 million, respectively, reported in other investments, where the fair value estimate is determined either internally or by an external fund manager based on recent filings, operating results, balance sheet stability, growth and other business and market sector fundamentals. Due to the significant unobservable inputs in these valuations, the Company includes the total fair value estimate for all of these investments at June 30, 2013 and December 31, 2012 in the amount disclosed in Level 3.

Derivatives

At June 30, 2013 and December 31, 2012, the Company held \$19 million and \$21 million, respectively, of convertible bonds containing embedded conversion options that are valued separately from the host bond contract in the amount disclosed in Level 2 fixed maturities.

Fair Value Hierarchy

The following tables present the level within the fair value hierarchy at which the Company's financial assets and financial liabilities reported at fair value are measured on a recurring basis at June 30, 2013 and December 31, 2012. An investment transferred between levels during a period is transferred at its fair value as of the beginning of that period.

(at June 30, 2013, in millions)	Total	Level 1	Level 2	Level 3

Debt	\$ 6,250	\$ 7,715		\$ 7,715	
Commercial paper	\$ 100	\$ 100		\$ 100	

The Company utilized a pricing service to estimate fair value for approximately 94% and 95% of short-term securities at June 30, 2013 and December 31, 2012, respectively. A description of the process and inputs used by the pricing service to estimate fair value is discussed in the *Fixed Maturities* section above. Estimates of fair value for U.S. Treasury securities and money market funds are based on market quotations received from the pricing service and are disclosed in Level 1 of the hierarchy. The fair value of other short-term fixed maturity securities is estimated by the pricing service using observable market inputs and is disclosed in Level 2 of the hierarchy. For short-term securities where an estimate is not obtained from the pricing service, the carrying value approximates fair value and is included in Level 3 of the hierarchy.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

The Company utilized a pricing service to estimate fair value for 100% of its debt, including commercial paper, at both June 30, 2013 and December 31, 2012. The pricing service utilizes market quotations for debt that have quoted prices in active markets. Since fixed maturities other than U.S. Treasury securities generally do not trade on a daily basis, the fair value estimates are based on market observable inputs and disclosed in Level 2 of the hierarchy.

The Company had no material assets or liabilities that were measured at fair value on a non-recurring basis during the six months ended June 30, 2013 or twelve months ended December 31, 2012.

5. GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill

The following table presents the carrying amount of the Company's goodwill by segment at June 30, 2013 and December 31, 2012:

(in millions)	June 30, 2013	December 31, 2012
Business Insurance	\$ 2,168	\$ 2,168
Financial, Professional & International Insurance	557	557
Personal Insurance	613	613
Other	27	27
Total	\$ 3,365	\$ 3,365

5. GOODWILL AND OTHER INTANGIBLE ASSETS, Continued

Other Intangible Assets

The following presents a summary of the Company's other intangible assets by major asset class at June 30, 2013 and December 31, 2012:

(at June 30, 2013, in millions)	Gross Carrying Amount		Accumulated Amortization		Net
Intangibles subject to amortization					
Customer-related	\$ 455	\$	398	\$	\$ 57
Fair value adjustment on claims and claim adjustment expense reserves and reinsurance recoverables (1)	191		106		85
Total intangible assets subject to amortization	646		504		142
Intangible assets not subject to amortization	216				216
Total other intangible assets	\$ 862	\$	504	\$	\$ 358

(at December 31, 2012, in millions)	Gross Carrying Amount		Accumulated Amortization		Net
Intangibles subject to amortization					
Customer-related	\$ 455	\$	383	\$	\$ 72
Fair value adjustment on claims and claim adjustment expense reserves and reinsurance recoverables (1)	191		98		93
Total intangible assets subject to amortization	646		481		165
Intangible assets not subject to amortization	216				216
Total other intangible assets	\$ 862	\$	481	\$	\$ 381

(1) The time value of money and the risk margin (cost of capital) components of the intangible asset run off at different rates, and, as such, the amount recognized in income may be a net benefit in some periods and a net expense in other periods.

The following presents a summary of the Company's amortization expense for other intangible assets by major asset class:

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Customer-related	\$ 8	\$ 7	\$ 15	\$ 18
Fair value adjustment on claims and claim adjustment expense reserves and reinsurance recoverables	4	5	8	10
Total amortization expense	\$ 12	\$ 12	\$ 23	\$ 28

Intangible asset amortization expense is estimated to be \$22 million for the remainder of 2013, \$43 million in 2014, \$23 million in 2015, \$9 million in 2016, and \$8 million in 2017.

7. DEBT

Debt Payment. On March 15, 2013, the Company's \$500 million, 5.00% senior notes matured and were fully paid.

Credit Agreement. On June 7, 2013, the Company entered into a five-year, \$1.0 billion revolving credit agreement with a syndicate of financial institutions, replacing its three-year \$1.0 billion credit agreement that was due to expire on June 10, 2013. Pursuant to the credit agreement covenants, the Company must maintain a minimum consolidated net worth, defined as shareholders' equity determined in accordance with GAAP plus (a) trust preferred securities (not to exceed 15% of total capital) and (b) mandatorily convertible securities (combined with trust

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

preferred securities, not to exceed 25% of total capital) less goodwill and other intangible assets. That threshold is adjusted downward by an amount equal to 70% of the aggregate amount of common stock repurchased by the Company after March 31, 2013, up to a maximum deduction of \$1.75 billion. The threshold was \$15.27 billion at June 30, 2013 and could decline to a minimum of \$13.73 billion during the term of the credit agreement, subject to the Company repurchasing an additional \$2.20 billion of its common stock. In addition, the credit agreement contains other customary restrictive covenants as well as certain customary events of default, including with respect to a change in control, which is defined to include the acquisition of 35% or more of the Company's voting stock and certain changes in the composition of the Company's board of directors. At June 30, 2013, the Company was in compliance with these covenants. Generally, the cost of borrowing under this agreement will range from LIBOR plus 87.5 basis points to LIBOR plus 150 basis points, depending on the Company's credit ratings. At June 30, 2013, that cost would have been LIBOR plus 112.5 basis points, had there been any amounts outstanding under the credit agreement. This credit agreement also supports the Company's commercial paper program.

Table of Contents**THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued****8. SHAREHOLDERS' EQUITY**

Share Repurchase Authorization. The Company's board of directors has approved common share repurchase authorizations under which repurchases may be made from time to time in the open market, pursuant to pre-set trading plans meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934, in private transactions or otherwise. The authorizations do not have a stated expiration date. The timing and actual number of shares to be repurchased in the future will depend on a variety of factors, including the Company's financial position, earnings, share price, catastrophe losses, maintaining capital levels commensurate with the Company's desired ratings from independent rating agencies, funding of the Company's qualified pension plan, capital requirements of the Company's operating subsidiaries, legal requirements, regulatory constraints, other investment opportunities (including mergers and acquisitions and related financings), market conditions and other factors. During the three months and six months ended June 30, 2013, the Company repurchased 3.6 million and 7.3 million shares, respectively, under its share repurchase authorization, for a total cost of \$300 million and \$600 million, respectively. The average cost per share repurchased was \$82.99 and \$81.99, respectively. At June 30, 2013, the Company had \$1.56 billion of capacity remaining under the share repurchase authorization.

Shelf Registration Statement. At the Company's Annual Meeting of Shareholders held on May 22, 2013, the Company's shareholders voted to amend the Company's Articles of Incorporation to provide authority to issue up to five million additional shares of preferred stock. Subsequent to this amendment of the Company's Articles of Incorporation, the Company filed a shelf registration statement with the Securities and Exchange Commission in June 2013 pursuant to which it may publicly sell securities, including the new preferred stock, from time to time. The new shelf registration statement replaced the Company's prior shelf registration statement.

9. EARNINGS PER SHARE

The following is a reconciliation of the net income and share data used in the basic and diluted earnings per share computations for the periods presented:

(in millions, except per share amounts)	Three Months Ended June 30,		Six Months Ended June 30,

The following information relates to fully vested stock option awards at June 30, 2013:

Stock Options	Number	Weighted Average Exercise Price	Weighted Average Contractual Life Remaining	Aggregate Intrinsic Value (\$ in millions)
Vested at end of period (1)	8,658,131	\$ 52.58	5.9 years	\$ 237
Exercisable at end of period	5,743,635	\$ 46.80	4.6 years	\$ 190

(1) Represents awards for which the requisite service has been rendered, including those that are retirement eligible.

The total compensation cost for all share-based incentive compensation awards recognized in earnings was \$29 million and \$28 million for the three months ended June 30, 2013 and 2012, respectively, and \$70 million and \$66 million for the six months ended June 30, 2013 and 2012, respectively. The related tax benefits recognized in the consolidated statement of income were \$10 million for each of the three months ended June 30, 2013 and 2012, and \$24 million and \$23 million for the six months ended June 30, 2013 and 2012, respectively.

The total unrecognized compensation cost related to all nonvested share-based incentive compensation awards at June 30, 2013 was \$166 million, which is expected to be recognized over a weighted-average period of 2.0 years. The total unrecognized compensation cost related to all nonvested share-based incentive compensation awards at December 31, 2012 was \$112 million, which was expected to be recognized over a weighted-average period of 1.7 years.

11. PENSION PLANS, RETIREMENT BENEFITS AND SAVINGS PLANS

The following tables summarize the components of net periodic benefit cost for the Company's pension and postretirement benefit plans recognized in the consolidated statement of income.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

(for the three months ended June 30, in millions)	Pension Plans		Postretirement Benefit Plans	
	2013	2012	2013	2012

12. CONTINGENCIES, COMMITMENTS AND GUARANTEES

Contingencies

The major pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the Company or any of its subsidiaries is a party or to which any of the Company's properties is subject are described below.

Asbestos- and Environmental-Related Proceedings

In the ordinary course of its insurance business, the Company has received and continues to receive claims for insurance arising under policies issued by the Company asserting alleged injuries and damages from asbestos- and environmental-related exposures that are the subject of related coverage litigation, including, among others, the litigation described below. The Company is defending asbestos- and environmental-related litigation vigorously and believes that it has meritorious defenses; however, the outcomes of these disputes are uncertain. In this regard, the Company employs dedicated specialists and aggressive resolution strategies to manage asbestos and environmental loss exposure, including settling litigation under appropriate circumstances.

Asbestos Direct Action Litigation In October 2001 and April 2002, two purported class action suits (*Wise v. Travelers* and *Meninger v. Travelers*) were filed against Travelers Property Casualty Corp. (TPC), a wholly-owned subsidiary of the Company, and other insurers (not including The St. Paul Companies, Inc. (SPC), which was acquired by TPC in 2004) in state court in West Virginia. These and other cases subsequently filed in West Virginia were consolidated into a single proceeding in the Circuit Court of Kanawha County, West Virginia. The plaintiffs allege that the insurer defendants engaged in unfair trade practices in violation of state statutes by inappropriately handling and settling asbestos claims. The plaintiffs seek to reopen large numbers of settled asbestos claims and to impose liability for damages, including punitive damages, directly on insurers. Similar lawsuits alleging inappropriate handling and settling of asbestos claims were filed in Massachusetts and Hawaii state courts. These suits are collectively referred to as the Statutory and Hawaii Actions.

In March 2002, the plaintiffs in consolidated asbestos actions pending before a mass tort panel of judges in West Virginia state court amended their complaint to include TPC as a defendant, alleging that TPC and other insurers breached alleged duties to certain users of asbestos products. The plaintiffs seek damages, including punitive damages. Lawsuits seeking similar relief and raising similar allegations, primarily violations of purported common law duties to third parties, have also been asserted in various state courts against TPC and SPC. The claims asserted in these suits are collectively referred to as the Common Law Claims.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

In response to these claims, TPC moved to enjoin the Statutory Actions and the Common Law Claims in the federal bankruptcy court that had presided over the bankruptcy of TPC's former policyholder Johns-Manville Corporation on the ground that the suits violated injunctions entered in connection with confirmation of the Johns-Manville bankruptcy (the 1986 Orders). The bankruptcy court issued a temporary restraining order and referred the parties to mediation. In November 2003, the parties reached a settlement of the Statutory and Hawaii Actions, which included a lump-sum payment of up to \$412 million by TPC, subject to a number of significant contingencies. In May 2004, the parties reached a settlement resolving substantially all pending and similar future Common Law Claims against TPC, which included a payment of up to \$90 million by TPC, subject to similar contingencies. Among the contingencies for each of these settlements was that the bankruptcy court issue an order, which must become a final order, clarifying that all of these claims, and similar future asbestos-related claims against TPC, as well as related contribution claims, are barred by the 1986 Orders.

On August 17, 2004, the bankruptcy court entered an order approving the settlements and clarifying that the 1986 Orders barred the pending Statutory and Hawaii Actions and substantially all Common Law Claims pending against TPC (the Clarifying Order). The Clarifying Order also applies to similar direct action claims that may be filed in the future. Although the District Court substantially affirmed the Clarifying Order, on February 15, 2008, the Second Circuit issued an opinion vacating on jurisdictional grounds the District Court's approval of the Clarifying Order.

Table of Contents

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued

12. CONTINGENCIES, COMMITMENTS AND GUARANTEES, Continued

On December 12, 2008, the United States Supreme Court granted TPC's Petition for Writ of Certiorari and, on June 18, 2009, the Supreme Court reversed the Second Circuit's February 15, 2008 decision, finding, among other things, that the 1986 Orders are final and therefore may not be collaterally challenged on jurisdictional grounds. The Supreme Court further ruled that the bankruptcy court had jurisdiction to issue the Clarifying Order. However, since the Second Circuit had not ruled on certain additional issues, principally related to procedural matters and the adequacy of notice provided to certain parties, the Supreme Court remanded the case to the Second Circuit for further proceedings on those specific issues.

On March 22, 2010, the Second Circuit issued an opinion in which it found that the notice of the 1986 Orders provided to one remaining objector was insufficient to bar contribution claims by that objector against TPC. TPC's Petition for Rehearing and Rehearing *En Banc* was denied May 25, 2010 and its Petition for Writ of Certiorari and Petition for a Writ of Mandamus were denied by the United States Supreme Court on November 29, 2010.

The plaintiffs in the Statutory and Hawaii actions and the Common Law Claims actions thereafter filed motions in the bankruptcy court to compel TPC to make payment under the settlement agreements, arguing that all conditions precedent to the settlements had been met. On December 16, 2010, the bankruptcy court granted the plaintiffs' motions and ruled that TPC was required to fund the settlements. The court entered judgment against TPC on January 20, 2011 in accordance with this ruling and ordered TPC to pay the settlement amounts plus prejudgment interest. The bankruptcy court's judgment was reversed by the district court on March 1, 2012, the district court having found that the conditions to the settlements had not been met in view of the Second Circuit's March 22, 2010 ruling permitting the filing of contribution claims against TPC. The plaintiffs appealed the district court's March 1, 2012 decision to the Second Circuit Court of Appeals. Oral argument before the Second Circuit took place on January 10, 2013, and the parties await the court's decision.

SPC, which is not covered by the Manville bankruptcy court rulings or the settlements described above, from time to time has been named as a defendant in direct action cases in Texas state court asserting common law claims. All such cases that are still pending and in which SPC has been served are currently on the inactive docket in Texas state court. If any of those cases becomes active, SPC intends to litigate those cases vigorously. SPC was previously a defendant in similar direct actions in Ohio state court, which have been dismissed following favorable rulings by Ohio trial and appellate courts. From time to time, SPC and/or its subsidiaries have been named in similar individual direct actions in other jurisdictions.

Outcome and Impact of Asbestos and Environmental Claims and Litigation. Currently, it is not possible to predict legal outcomes and their impact on the future development of claims and litigation relating to asbestos and environmental claims. Any such development will be affected by future court decisions and interpretations, as well as changes in applicable legislation. Because of these uncertainties, additional liabilities may arise for amounts in excess of the Company's current reserves. In addition, the Company's estimate of ultimate claims and claim adjustment expenses may change. These additional liabilities or increases in estimates, or a range of either, cannot now be reasonably estimated and could

result in income statement charges that could be material to the Company's results of operations in future periods.

Other Proceedings Not Arising Under Insurance Contracts or Reinsurance Agreements

The Company is involved in other lawsuits, including lawsuits alleging extra-contractual damages relating to insurance contracts or reinsurance agreements, that do not arise under insurance contracts or reinsurance agreements. Based upon currently available information, the Company does not believe it is reasonably possible that any such lawsuit or related lawsuits would be material to the Company's results of operations or have a material adverse effect on the Company's financial position or liquidity.

Gain Contingencies

On August 17, 2010, in a reinsurance dispute in New York state court captioned *United States Fidelity & Guaranty Company v. American Re-Insurance Company, et al.*, the trial court granted summary judgment for United States Fidelity and Guaranty Company (USF&G), a subsidiary of the Company, and denied summary judgment for American Re-Insurance Company, a subsidiary of Munich Re (American Re), and three other reinsurers. By order dated October 22, 2010, the trial court

Table of Contents**THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued****12. CONTINGENCIES, COMMITMENTS AND GUARANTEES, Continued**

corrected certain clerical errors and made certain clarifications to the August 17, 2010 order. On October 25, 2010, judgment was entered against American Re and the other three insurers, awarding USF&G \$420 million, comprising \$251 million ceded under the terms of the disputed reinsurance contract plus interest of 9% amounting to \$169 million as of that date. The judgment, including the award of interest, was appealed by the reinsurers to the New York Supreme Court, Appellate Division, First Department. On January 24, 2012, the Appellate Division affirmed the judgment. On January 30, 2012, the reinsurers filed a motion with the Appellate Division seeking permission to appeal its decision to the New York Court of Appeals, and on March 12, 2012, the Appellate Division granted the reinsurers' motion. On February 7, 2013, the Court of Appeals issued an opinion that largely affirmed the summary judgment in USF&G's favor, while modifying in part the summary judgment with respect to two discrete issues and remanding the case to the trial court for determination of those issues. The Company believes it has a meritorious position on each of these issues and intends to pursue its claim vigorously. On March 8, 2013, the reinsurers filed motions with the Court of Appeals to reargue one issue that was decided in USF&G's favor. On March 18, 2013, USF&G filed its opposition to the reinsurers' motions to reargue. On May 2, 2013, the Court of Appeals denied the reinsurers' motions for re-argument. At June 30, 2013, the claim totaled \$482 million, comprising the \$251 million of reinsurance recoverable plus interest amounting to \$231 million as of that date. Interest will continue to accrue at 9% until the claim is paid. The \$251 million of reinsurance recoverable owed to USF&G under the terms of the disputed reinsurance contract has been reported as part of reinsurance recoverables in the Company's consolidated balance sheet. The interest that would be owed as part of any judgment ultimately entered in favor of USF&G is treated for accounting purposes as a gain contingency in accordance with FASB Topic 450, *Contingencies*, and accordingly has not been recognized in the Company's consolidated financial statements.

In an unrelated action, The Travelers Indemnity Company is one of the Settlement Class plaintiffs and a class member in a class action lawsuit captioned *Safeco Insurance Company of America, et al. v American International Group, Inc. et al.* (U.S. District Court, N.D. Ill.) in which the defendants are alleged to have engaged in the under-reporting of workers' compensation premium in connection with a workers' compensation reinsurance pool in which several subsidiaries of the Company participate. On July 26, 2011, the court granted preliminary approval of a class settlement pursuant to which the defendants agreed to pay \$450 million to the class. On December 21, 2011, the court entered an order granting final approval of the settlement, and on February 28, 2012, the district court issued a written opinion approving the settlement. On March 27, 2012, three parties who objected to the settlement appealed the court's orders approving the settlement to the U.S. Court of Appeals for the Seventh Circuit. On January 11, 2013, all parties, including the three parties who had objected to the settlement, filed a Stipulation of Dismissal indicating that there were no longer any objections to the settlement. On March 25, 2013, the Seventh Circuit dismissed the appeals. On April 16, 2013, the Seventh Circuit issued its mandate returning the case to the district court for administration of the settlement. Prior to receiving payment, the Company accounted for its anticipated allocation from the settlement fund as a gain contingency in accordance with FASB Topic 450, *Contingencies*. On June 26, 2013, the Company received payment of approximately \$91 million, comprising 98% of its allocation from the settlement fund. The Company anticipates receiving payment of the remaining 2% (approximately \$2 million, less any additional fees and expenses to be paid from the settlement fund), prior to December 31, 2013. The \$91 million received by the Company in June 2013 was recorded as a gain and is reported in "Other revenues" in the consolidated statement of income in the Company's consolidated financial statements.

Other Commitments and Guarantees

Commitments

Investment Commitments The Company has unfunded commitments to private equity limited partnerships and real estate partnerships in which it invests. These commitments totaled \$1.40 billion and \$1.27 billion at June 30, 2013 and December 31, 2012, respectively.

Guarantees

In the ordinary course of selling business entities to third parties, the Company has agreed to indemnify purchasers for losses arising out of breaches of representations and warranties with respect to the business entities being sold, covenants and obligations of the Company and/or its subsidiaries following the closing, and in certain cases obligations arising from undisclosed liabilities, adverse reserve development, imposition of additional taxes due to either a change in the tax law or an

12. CONTINGENCIES, COMMITMENTS AND GUARANTEES, Continued

adverse interpretation of the tax law, or certain named litigation. Such indemnification provisions generally survive for periods ranging from seven years following the applicable closing date to the expiration of the relevant statutes of limitations, although, in some cases, there may be other agreed upon term limitations or no term limitations. Certain of these contingent obligations are subject to deductibles which have to be incurred by the obligee before the Company is obligated to make payments. The maximum amount of the Company's contingent obligation for indemnifications related to the sale of business entities that are quantifiable was \$471 million at June 30, 2013, of which \$8 million was recognized on the balance sheet at that date.

The Company also has contingent obligations for guarantees related to certain investments, third-party loans related to certain investments, certain insurance policy obligations of former insurance subsidiaries, and various other indemnifications. The Company also provides standard indemnifications to service providers in the normal course of business. The indemnification clauses are often standard contractual terms. Certain of these guarantees and indemnifications have no stated or notional amounts or limitation to the maximum potential future payments, and, accordingly, the Company is unable to develop an estimate of the maximum potential payments for such arrangements. The maximum amount of the Company's obligation for guarantees of certain investments and third-party loans related to certain investments that are quantifiable was \$129 million at June 30, 2013, approximately \$63 million of which is indemnified by a third party. The maximum amount of the Company's obligation related to the guarantee of certain insurance policy obligations of a former insurance subsidiary was \$480 million at June 30, 2013, all of which is indemnified by a third party.

13. CONSOLIDATING FINANCIAL STATEMENTS OF THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

The following consolidating financial statements of the Company have been prepared pursuant to Rule 3-10 of Regulation S-X. These consolidating financial statements have been prepared from the Company's financial information on the same basis of accounting as the consolidated financial statements. The Travelers Companies, Inc. has fully and unconditionally guaranteed certain debt obligations of TPC, which totaled \$700 million at June 30, 2013.

Prior to the merger of TPC and SPC in 2004, TPC fully and unconditionally guaranteed the payment of all principal, premiums, if any, and interest on certain debt obligations of its wholly-owned subsidiary, Travelers Insurance Group Holdings, Inc. (TIGHI). Concurrent with the merger, The Travelers Companies, Inc. fully and unconditionally assumed such guarantee obligations of TPC. TPC is deemed to have no assets or operations independent of TIGHI. Consolidating financial information for TIGHI has not been presented herein because such financial information would be substantially the same as the financial information provided for TPC.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

On June 10, 2013, in connection with the definitive agreement to acquire all of the issued and outstanding shares of The Dominion of Canada General Insurance Company (The Dominion) from E-L Financial Corporation Limited (E-L Financial), The Travelers Companies, Inc. (TRV) provided customary representations and warranties, as well as an unconditional guarantee to E-L Financial of the full and prompt payment of the purchase price when due and the performance of all agreements, covenants, and obligations under the agreement by TRV's subsidiary that was formed to complete the purchase. See Financial, Professional & International Insurance in note 1 to the Company's consolidated financial statements for further information regarding the transaction.

**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS**

The following is a discussion and analysis of the Company's financial condition and results of operations.

FINANCIAL HIGHLIGHTS

2013 Second Quarter Consolidated Results of Operations

- Net income of \$925 million, or \$2.44 per share basic and \$2.41 per share diluted
- Net earned premiums of \$5.60 billion
- Catastrophe losses of \$340 million (\$221 million after-tax)
- Net favorable prior year reserve development of \$192 million (\$125 million after-tax)
- GAAP combined ratio of 94.3%
- Net investment income of \$687 million (\$551 million after-tax)
- Benefit of \$91 million (\$59 million after-tax) from settlement of legal matter
- Benefit of \$63 million from resolution of prior year tax matters
- Operating cash flows of \$722 million
- Net realized investment gains of \$167 million (\$109 million after-tax)

2013 Second Quarter Consolidated Financial Condition

- Total investments of \$71.27 billion; fixed maturities and short-term securities comprised 93% of total investments
- Total assets of \$101.90 billion

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

- Total debt of \$5.85 billion, resulting in a debt-to-total capital ratio of 19.0% (20.1% excluding net unrealized investment gains, net of tax)
- Repurchased 3.6 million common shares for total cost of \$300 million under share repurchase authorization
- Shareholders' equity of \$24.89 billion
- Book value per common share of \$66.65
- Holding company liquidity of \$2.05 billion

The following discussions of the Company's net income and segment operating income are presented on an after-tax basis. Discussions of the components of net income and segment operating income are presented on a pretax basis, unless otherwise noted. Discussions of net income per common share are presented on a diluted basis.

Overview

Diluted net income per share of \$2.41 in the second quarter of 2013 increased by 91% over diluted net income per share of \$1.26 in the same period of 2012. Net income of \$925 million in the second quarter of 2013 increased by 85% over net income of \$499 million in the same period of 2012. The higher rate of increase in diluted net income per share reflected the impact of share repurchases. The increase in net income in the second quarter of 2013 compared with the same period of 2012 primarily reflected the pretax impacts of (i) a decline in catastrophe losses, (ii) higher underwriting margins excluding catastrophe losses and prior year reserve development (underlying underwriting margins), (iii) an increase in net realized investment gains and (iv) a gain from the settlement of a legal proceeding, partially offset by modest declines in (v) net investment income and (vi) net favorable prior year reserve development. The improvement in underlying underwriting

Table of Contents

margins primarily resulted from the impact of earned pricing that exceeded loss cost trends in each of the Company's business segments. Partially offsetting this net pretax improvement was the related tax expense. Additionally, net income in the second quarter of 2013 benefited from a reduction in income tax expense resulting from the resolution of prior year tax matters. The effective tax rate in the second quarter of 2013 was higher than in the same period in 2012. This resulted from interest on municipal bonds, which is effectively taxed at a rate that is lower than the corporate tax rate of 35%, comprising a lower percentage of pretax income in the second quarter of 2013 due to an increase in the underwriting gain, partially offset by the resolution of prior year tax matters discussed above. Catastrophe losses in the second quarters of 2013 and 2012 were \$340 million and \$549 million, respectively. Net favorable prior year reserve development in the second quarters of 2013 and 2012 was \$192 million and \$221 million, respectively.

Diluted net income per share in the first six months of 2013 was \$4.75, compared with diluted net income per share of \$3.29 in the same period of 2012, reflecting net income in the first six months of 2013 of \$1.82 billion, compared with net income of \$1.31 billion in the same period of 2012 and the favorable impact of common share repurchases. The increase in net income primarily reflected the same factors discussed above. Catastrophe losses in the first six months of 2013 were \$439 million, compared with \$717 million in the same period of 2012. Net favorable prior year reserve development in the first six months of 2013 was \$423 million, compared with \$525 million in the same period of 2012.

Revenues*Earned Premiums*

Earned premiums in the second quarter of 2013 were \$5.60 billion, \$74 million or 1% higher than in the same period of 2012. Earned premiums in the first six months of 2013 were \$11.12 billion, \$68 million or less than 1% higher than in the same period of 2012. In the Business Insurance segment, earned premiums in the second quarter and first six months of 2013 increased by 6% and 4% over the respective periods of 2012. In the Financial, Professional & International Insurance segment, earned premiums in the second quarter and first six months of 2013 decreased by 2% and 1% from the respective periods of 2012. In the Personal Insurance segment, earned premiums in both the second quarter and first six months of 2013 decreased by 4% from the respective periods of 2012. Factors contributing to the changes in earned premiums in each segment are discussed in more detail in the segment discussions that follow.

Net Investment Income

The following table sets forth information regarding the Company's investments.

(dollars in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Average investments (a)	\$ 69,701	\$ 69,623	\$ 69,903	\$ 69,555
Pretax net investment income	687	738	1,357	1,478
After-tax net investment income	551	589	1,093	1,182
Average pretax yield (b)	3.9%	4.2%	3.9%	4.2%

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

Average after-tax yield (b)	3.2%	3.4%	3.1%	3.4%
-----------------------------	-------------	------	-------------	------

(a) Excludes net unrealized investment gains and losses, net of tax, and reflects cash, receivables for investment sales, payables on investment purchases and accrued investment income.

(b) Excludes net realized investment gains and losses and net unrealized investment gains and losses, net of tax.

Table of Contents

Net investment income in the second quarter of 2013 was \$687 million, \$51 million or 7% lower than in the same period of 2012. Net investment income in the first six months of 2013 was \$1.36 billion, \$121 million or 8% lower than in the same period of 2012. Net investment income from fixed maturity investments in the second quarter and first six months of 2013 was \$574 million and \$1.16 billion, respectively, \$37 million and \$71 million lower, respectively, than in the same periods of 2012, primarily resulting from lower long-term reinvestment yields available in the market. Net investment income from non-fixed maturity investments in the second quarter and first six months of 2013 was \$120 million and \$212 million, respectively, \$13 million and \$49 million lower, respectively, than in the same periods of 2012, primarily reflecting lower results in the Company's private equity limited partnership investments. The average pretax yield on the total investment portfolio was 3.9% for both the second quarter and first six months of 2013, compared with 4.2% for both of the same periods of 2012, primarily reflecting the decline in both fixed maturity and non-fixed maturity investment income.

Fee Income

The National Accounts market in the Business Insurance segment is the primary source of the Company's fee-based business. The \$23 million and \$38 million increases in fee income in the second quarter and first six months of 2013, respectively, compared with the same periods of 2012 are discussed in the Business Insurance segment discussion that follows.

Net Realized Investment Gains

The following table sets forth information regarding the Company's net realized investment gains.

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Net Realized Investment Gains				
Other-than-temporary impairment losses	\$ (2)	\$ (4)	\$ (7)	\$ (8)
Other net realized investment gains	169	8	184	22
Net realized investment gains	\$ 167	\$ 4	\$ 177	\$ 14

Included in other net realized investment gains in the second quarter and first six months of 2013 were \$134 million and \$115 million, respectively, of net realized gains associated with U.S. Treasury futures contracts (which require daily mark-to-market settlement and are used to shorten the duration of the Company's fixed maturity investment portfolio). At June 30, 2013, the Company had no open Treasury futures contracts.

Other Revenues

Other revenues in the second quarter and first six months of 2013 included a \$91 million gain from the settlement of a legal proceeding. See note 12 of notes to the unaudited consolidated financial statements in this report for further discussion. The remainder of other revenues in all periods presented primarily consisted of premium installment charges.

Claims and Expenses

Claims and Claim Adjustment Expenses

Claims and claim adjustment expenses in the second quarter of 2013 were \$3.53 billion, \$256 million or 7% lower than in the same period of 2012. The decrease primarily reflected (i) a decline in catastrophe losses and (ii) the impact of lower business volume, partially offset by (iii) the impact of loss cost trends and (iv) lower net favorable prior year reserve development. Catastrophe losses in the second quarters of 2013 and 2012 were \$340 million and \$549 million, respectively. Catastrophe losses in the second quarters of both 2013 and 2012 primarily resulted from wind and hail storms in several regions of the United States. In addition, catastrophe losses in the second quarter of 2013 included losses from floods in Alberta, Canada. Net favorable prior year reserve development in the second quarters of 2013 and 2012 was \$192 million and \$221 million, respectively.

Claims and claim adjustment expenses in the first six months of 2013 were \$6.68 billion, \$467 million or 7% lower than in the same period of 2012, primarily reflecting the same factors described above. Catastrophe losses in the first six months of 2013 and 2012 were \$439 million and \$717 million, respectively. Catastrophe losses in the first six months of 2013 included the second quarter storms in the United States and floods in Canada described above, as well as tornadoes and hail storms in the Southeastern United States in the first quarter of 2013. Catastrophe losses in the first six months of 2012 included the second quarter storms described above, as well as tornadoes and hail storms in the Midwest and Southeast regions of the United States in the

Table of Contents

first quarter of 2012. Net favorable prior year reserve development in the first six months of 2013 and 2012 was \$423 million and \$525 million, respectively. Net favorable prior year reserve development in the first six months of 2013 was reduced by a \$42 million charge that was precipitated by legislation in New York enacted during the first quarter of 2013 related to the New York Fund for Reopened Cases for workers compensation. Factors contributing to net favorable prior year reserve development in each segment during these periods are discussed in more detail in the segment discussions that follow.

Amortization of Deferred Acquisition Costs

Amortization of deferred acquisition costs in the second quarter of 2013 was \$950 million, \$26 million or 3% lower than in the same period of 2012. The amortization of deferred acquisition costs in the first six months of 2013 was \$1.90 billion, \$49 million or 3% lower than in the same 2012 period. Amortization of deferred acquisition costs is discussed in more detail in the segment discussions that follow.

General and Administrative Expenses

General and administrative expenses in the second quarter of 2013 were \$931 million, \$38 million or 4% higher than in the same period of 2012. General and administrative expenses in the first six months of 2013 were \$1.85 billion, \$69 million or 4% higher than in the same period of 2012. General and administrative expenses are discussed in more detail in the segment discussions that follow.

Interest Expense

Interest expense in the second quarter and first six months of 2013 was \$86 million and \$178 million, respectively, 10% and 7% lower than the respective periods of 2012, reflecting lower average levels of debt outstanding as a result of debt repayments over the previous twelve months.

Income Tax Expense

Income tax expense in the second quarter of 2013 was \$252 million, \$143 million or 131% higher than in the same period of 2012, primarily reflecting the \$343 million increase in underwriting margins (including the impact of decreases in catastrophe losses and net favorable prior year reserve development), partially offset by a reduction in income tax expense of \$63 million resulting from the resolution of prior year tax matters. Income tax expense in the first six months of 2013 was \$576 million, \$196 million or 52% higher than in the same period of 2012, primarily reflecting the \$552 million increase in underwriting margins (including the impact of decreases in catastrophe losses and net favorable prior year reserve development), partially offset by the resolution of prior year tax matters in the second quarter of 2013.

The Company's effective tax rates in the second quarter and first six months of 2013 were 21% and 24%, respectively. In the second quarter and first six months of 2012, the Company's effective tax rates were 18% and 23%, respectively. The effective tax rates in all periods were lower

than the statutory rate of 35% primarily due to the impact of tax-exempt investment income on the calculation of the Company's income tax provision. In addition, income tax expense in the second quarter and first six months of 2013 was reduced by \$63 million as a result of the resolution of prior year tax matters.

GAAP Combined Ratio

The consolidated GAAP combined ratio of 94.3% in the second quarter of 2013 was 6.2 points lower than the consolidated GAAP combined ratio of 100.5% in the same period of 2012. The consolidated GAAP combined ratio of 91.4% in the first six months of 2013 was 4.9 points lower than the consolidated GAAP combined ratio of 96.3% in the same period of 2012.

The consolidated loss and loss adjustment expense ratio of 62.3% in the second quarter of 2013 was 5.8 points lower than the consolidated loss and loss adjustment expense ratio of 68.1% in the same period of 2012. Catastrophe losses accounted for 6.1 points and 10.0 points of the 2013 and 2012 second quarter loss and loss adjustment expense ratios, respectively. The 2013 and 2012 second quarter loss and loss adjustment expense ratios included 3.5 and 4.0 points of benefit from net favorable prior year reserve development, respectively. The consolidated loss and loss adjustment expense ratio excluding catastrophe losses and prior year reserve development (underlying loss and loss adjustment expense ratio) in the second quarter of 2013 was 2.4 points lower than the 2012 second quarter ratio on the same basis, primarily reflecting the improvement in underlying underwriting margins discussed in the Overview section above.

Table of Contents

The consolidated loss and loss adjustment expense ratio of 59.3% in the first six months of 2013 was 4.8 points lower than the consolidated loss and loss adjustment expense ratio of 64.1% in the same period of 2012. Catastrophe losses accounted for 3.9 points and 6.5 points of the 2013 and 2012 six-month loss and loss adjustment expense ratios, respectively. The 2013 and 2012 six-month loss and loss adjustment expense ratios included 3.8 and 4.8 points of benefit from net favorable prior year reserve development, respectively. The 2013 six-month underlying loss and loss adjustment expense ratio was 3.2 points lower than the 2012 six-month ratio on the same basis, reflecting the same factors discussed above for the second quarter of 2013.

The consolidated underwriting expense ratio of 32.0% for the second quarter of 2013 was 0.4 points lower than the consolidated underwriting expense ratio of 32.4% in the same period of 2012. In the first six months of 2013, the consolidated underwriting expense ratio of 32.1% was 0.1 points lower than the consolidated underwriting expense ratio of 32.2% in the same 2012 period.

Written Premiums

Consolidated gross and net written premiums were as follows:

(in millions)	Gross Written Premiums				
	Three Months Ended June 30,		Six Months Ended June 30,		
	2013	2012	2013	2012	
Business Insurance	\$ 3,344	\$ 3,280	\$ 6,970	\$ 6,709	
Financial, Professional & International Insurance	906	882	1,705	1,673	
Personal Insurance	1,997	2,078	3,760	3,931	
Total	\$ 6,247	\$ 6,240	\$ 12,435	\$ 12,313	

(in millions)	Net Written Premiums				
	Three Months Ended June 30,		Six Months Ended June 30,		
	2013	2012	2013	2012	
Business Insurance	\$ 3,068	\$ 3,026	\$ 6,328	\$ 6,126	
Financial, Professional & International Insurance	849	840	1,496	1,444	
Personal Insurance	1,907	2,002	3,597	3,795	
Total	\$ 5,824	\$ 5,868	\$ 11,421	\$ 11,365	

Gross written premiums in the second quarter of 2013 were virtually level with the same period of 2012. Net written premiums in the second quarter of 2013 were slightly lower than in the same period of 2012. Gross and net written premiums in the first six months of 2013 increased slightly over the same period of 2012. Factors contributing to the changes in gross and net written premiums in each segment are discussed in more detail in the segment discussions that follow.

Table of Contents**RESULTS OF OPERATIONS BY SEGMENT****Business Insurance**

Results of the Company's Business Insurance segment were as follows:

(dollars in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Revenues				
Earned premiums	\$ 3,018	\$ 2,860	\$ 5,960	\$ 5,736

GAAP combined ratio	96.2%	103.0%	92.9%	96.3%

Overview

Operating income in the second quarter of 2013 was \$579 million, \$217 million or 60% higher than operating income of \$362 million in the same period of 2012. The increase in operating income in the second quarter of 2013 compared with the same period of 2012 primarily reflected the pretax impacts of (i) a decline in catastrophe losses, (ii) higher underlying underwriting margins primarily resulting from earned pricing that exceeded loss cost trends and (iii) a gain from the settlement of a legal proceeding, partially offset by (iv) a decline in net investment income. Partially offsetting this net pretax increase was the related tax expense. Additionally, operating income in the second quarter of 2013 benefited from a reduction in income tax expense resulting from the resolution of prior year tax matters. The effective tax rate in the second quarter of 2013 increased over the same period of 2012. This resulted from interest on municipal bonds, which is effectively taxed at a rate that is lower than the corporate tax rate of 35%, comprising a lower percentage of pretax income due to an increase in the underwriting gain, partially offset by the resolution of prior year tax matters described above. Catastrophe losses in the second quarter of 2013 were \$148 million, compared with \$252 million in the same period of 2012. Net favorable prior year reserve development was \$55 million in the second quarter of 2013, compared with \$58 million in the same period of 2012.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

Operating income in the first six months of 2013 was \$1.17 billion, \$195 million or 20% higher than operating income of \$974 million in the same period of 2012, primarily reflecting the same factors described above, as well as a decline in net favorable prior year reserve development. Catastrophe losses in the first six months of 2013 were \$183 million, compared with \$305 million in the same period of 2012. Net favorable prior year reserve development in the first six months of 2013 was \$168 million, compared with \$306 million in the same period of 2012. Net favorable prior year reserve development in the first six months of 2013 was reduced by a \$42 million charge that was precipitated by legislation in New York as described above.

Earned Premiums

Earned premiums in the second quarter of 2013 were \$3.02 billion, \$158 million or 6% higher than in the same period of 2012. Earned premiums in the first six months of 2013 were \$5.96 billion, \$224 million or 4% higher than in the same period of 2012. The increases in both periods of 2013 primarily reflected the impact of an increase in net written premiums over the preceding twelve months.

Table of Contents

Net Investment Income

Net investment income in the second quarter of 2013 was \$502 million, \$34 million or 6% lower than in the same 2012 period. Net investment income in the first six months of 2013 was \$989 million, \$79 million or 7% lower than in the same period of 2012. Refer to the Net Investment Income section of the Consolidated Results of Operations discussion herein for a description of the factors contributing to the decline in the Company's consolidated net investment income in the second quarter and first six months of 2013 compared with the same periods of 2012. In addition, refer to note 2 of notes to the Company's consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 for a discussion of the Company's net investment income allocation methodology.

Fee Income

National Accounts is the primary source of fee income due to its service businesses, which include claim and loss prevention services to large companies that choose to self-insure a portion of their insurance risks, as well as claims and policy management services to workers compensation residual market pools. Fee income in the second quarter and first six months of 2013 increased by \$24 million and \$39 million over the respective periods of 2012, primarily reflecting the impact of higher serviced premium volume in workers' compensation residual market pools and higher claim volume in the large deductible business.

Other Revenues

Other revenues in the second quarter and first six months of 2013 included a \$91 million gain from the settlement of a legal proceeding.

Claims and Expenses

Claims and Claim Adjustment Expenses

Claims and claim adjustment expenses in the second quarter of 2013 were \$2.01 billion, \$41 million or 2% lower than in the same period of 2012, primarily reflecting (i) a decline in catastrophe losses and (ii) the impact of a modest decline in business volume, partially offset by (iii) the impact of loss cost trends. Catastrophe losses in the second quarter of 2013 were \$148 million, compared with \$252 million in the same period of 2012. Net favorable prior year reserve development in the second quarter of 2013 was \$55 million, compared with \$58 million in the same period of 2012. Net favorable prior year reserve development in the second quarter of 2013 was primarily driven by better than expected loss experience in the excess coverages of the general liability product line for accident years 2004 through 2009, reflecting more favorable legal and judicial environments than what the Company previously expected. Net favorable prior year reserve development in the second quarter of 2012 reflected better than expected loss experience in the property product line related to catastrophe losses incurred in 2011 and lower than expected claim department expenses. These factors contributing to net favorable prior year reserve development in the second quarters of 2013 and 2012 were partially offset by \$65 million and \$90 million increases, respectively, to environmental reserves, which are discussed in further detail in the Environmental Claims and Litigation section herein.

Claims and claim adjustment expenses in the first six months of 2013 were \$3.76 billion, virtually level with the same 2012 period. Claims and claim adjustment expenses in the first six months of 2013 were impacted by the same factors described above for the second quarter of 2013, but those impacts were offset by a decline in net favorable prior year reserve development. Catastrophe losses in the first six months of 2013 were \$183 million, compared with \$305 million in the same period of 2012. Net favorable prior year reserve development in the first six months of 2013 was \$168 million, compared with \$306 million in the same period of 2012. Net favorable prior year reserve development in the first six months of 2013 was primarily driven by the same factors described above and by better than expected loss experience for the property product line. Net favorable prior year reserve development in the first six months of 2013 was also reduced by a \$42 million workers' compensation charge that was precipitated by legislation in New York. Net favorable prior year reserve development in the first six months of 2012 was primarily driven by the same factors described above and by better than expected loss experience in the general liability product line for accident years 2004 through 2009, which reflected what the Company believes are more favorable legal and judicial environments than the Company previously expected.

Table of Contents

Amortization of Deferred Acquisition Costs

Amortization of deferred acquisition costs in the second quarter of 2013 was \$481 million, \$16 million or 3% higher than in the same period of 2012. Amortization of deferred acquisition costs in the first six months of 2013 was \$956 million, \$24 million or 3% higher than in the same 2012 period.

General and Administrative Expenses

General and administrative expenses in the second quarter of 2013 were \$511 million, \$7 million or 1% higher than in the same period of 2012. General and administrative expenses in the first six months of 2013 were \$1.03 billion, \$26 million or 3% higher than in the same period of 2012. The increases in both periods of 2013 were primarily driven by increases in employee- and technology-related expenses.

Income Tax Expense

Income tax expense in the second quarter of 2013 was \$137 million, \$55 million or 67% higher than in the same period of 2012, primarily reflecting the \$200 million increase in underwriting margins (including the impact of decreases in catastrophe losses and net favorable prior year reserve development), partially offset by a reduction in income tax expense of \$43 million resulting from the resolution of prior year tax matters. Income tax expense in the first six months of 2013 was \$345 million, \$45 million or 15% higher than in the same period of 2012, primarily reflecting the \$214 million increase in underwriting margins, partially offset by the resolution of prior year tax matters in the second quarter of 2013.

GAAP Combined Ratio

The GAAP combined ratio of 96.2% in the second quarter of 2013 was 6.8 points lower than the GAAP combined ratio of 103.0% in the same period of 2012. The GAAP combined ratio of 92.9% in the first six months of 2013 was 3.4 points lower than the GAAP combined ratio of 96.3% in the same period of 2012.

The loss and loss adjustment expense ratio of 65.3% in the second quarter of 2013 was 5.7 points lower than the loss and loss adjustment expense ratio of 71.0% in the same period of 2012. Catastrophe losses in the second quarters of 2013 and 2012 accounted for 4.9 points and 8.8 points, respectively, of the loss and loss adjustment expense ratio. Net favorable prior year reserve development in the second quarters of 2013 and 2012 provided 1.8 points and 2.0 points of benefit, respectively, to the loss and loss adjustment expense ratio. The 2013 second quarter underlying loss and loss adjustment expense ratio was 2.0 points lower than the 2012 ratio on the same basis, reflecting the improvement in underlying underwriting margins discussed in the Overview section above.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

The loss and loss adjustment expense ratio of 61.6% in the first six months of 2013 was 2.8 points lower than the loss and loss adjustment expense ratio of 64.4% in the same period of 2012. Catastrophe losses in the first six months of 2013 and 2012 accounted for 3.1 points and 5.3 points, respectively, of the loss and loss adjustment expense ratio. Net favorable prior year reserve development in the first six months of 2013 and 2012 provided 2.8 points and 5.3 points of benefit, respectively, to the loss and loss adjustment expense ratio. The underlying loss and loss adjustment expense ratio in the first six months of 2013 was 3.1 points lower than the 2012 ratio on the same basis, reflecting the improvement in underlying underwriting margins discussed in the Overview section above.

The underwriting expense ratio of 30.9% for the second quarter of 2013 was 1.1 points lower than the underwriting expense ratio of 32.0% in the same period of 2012. In the first six months of 2013, the underwriting expense ratio of 31.3% was 0.6 points lower than the underwriting expense ratio of 31.9% in the same 2012 period, primarily reflecting the impact of growth in earned premiums in both periods of 2013.

Table of Contents*Written Premiums*

The Business Insurance segment's gross and net written premiums by market were as follows:

(in millions)	Gross Written Premiums				
	Three Months Ended June 30,		Six Months Ended June 30,		
	2013	2012	2013	2012

Total Business Insurance	\$ 3,068	\$ 3,026	\$ 6,328	\$ 6,126	

In Business Insurance Core, gross and net written premiums in the second quarter of 2013 increased by 2% and 1%, respectively, over the same period of 2012. Gross and net written premiums in the first six months of 2013 increased by 4% and 3%, respectively, over the same period of 2012. The increases in gross and net written premiums in both periods of 2013 were concentrated in National Accounts, Industry-Focused Underwriting, Commercial Accounts and Target Risk Underwriting and were driven by rate increases. Overall business retention rates in the second quarter of 2013 remained strong but slightly lower than in the same period of 2012. In the first six months of 2013, business retention rates remained strong and were level with the same period of 2012. Renewal premium changes comprising both renewal rate changes and insured exposure growth and new business levels were virtually level with the second quarter and first six months of 2012. Renewal rate changes continued to exceed expected loss cost trends.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

Select Accounts. Net written premiums of \$709 million in the second quarter of 2013 decreased by 2% from the same period of 2012. Net written premiums of \$1.43 billion in the first six months of 2013 decreased by less than 1% from the same period of 2012. Business retention rates in the second quarter and first six months of 2013 remained strong and were slightly higher than in the same periods of 2012. Renewal premium changes remained positive in the second quarter and were level with the same period of 2012. Renewal premium changes for the first six months of 2013 increased over the same period of 2012, primarily due to renewal rate increases. New business volume in the second quarter and first six months of 2013 declined from the same periods of 2012.

Commercial Accounts. Net written premiums of \$732 million in the second quarter of 2013 increased by 2% over the same period of 2012. Net written premiums of \$1.64 billion in the first six months of 2013 increased by 4% over the same period of 2012. Business retention rates in the second quarter of 2013 remained strong and were slightly lower than in the second

Table of Contents

quarter of 2012. In the first six months of 2013, business retention rates remained strong and were level with the same period of 2012. Renewal premium changes in the second quarter of 2013 increased over the same period of 2012. Renewal premium changes in the first six months of 2013 were virtually level with the same period of 2012. New business volumes in the second quarter and first six months of 2013 increased compared with the same periods of 2012.

National Accounts. Net written premiums of \$242 million in the second quarter of 2013 increased by 7% over the same period of 2012. Net written premiums of \$519 million in the first six months of 2013 increased by 13% over the same period of 2012. Business retention rates remained strong in the second quarter and first six months of 2013 but were lower than in the same periods of 2012. Renewal premium changes in the second quarter and first six months of 2013 remained positive but were slightly lower than in the same periods of 2012. New business volumes in the second quarter and first six months of 2013 increased over the same period of 2012. Growth in workers' compensation residual market pools also contributed to premium growth in both periods of 2013.

Industry-Focused Underwriting. Net written premiums of \$653 million in the second quarter of 2013 increased by 3% over the same period of 2012. Net written premiums of \$1.35 billion in the first six months of 2013 increased by 5% over the same period of 2012. Premium increases in both periods of 2013 were concentrated in the Construction business unit.

Target Risk Underwriting. Net written premiums of \$500 million in the second quarter of 2013 increased by 3% over the same period of 2012. Net written premiums of \$948 million in the first six months of 2013 increased by 4% over the same period of 2012. Premium growth in the second quarter of 2013 was concentrated in the National Property business unit, whereas net written premium growth in the first six months of 2013 was concentrated in the Inland Marine and National Property business units.

Specialized Distribution. Net written premiums of \$232 million in the second quarter of 2013 declined by 4% from the same period of 2012. Net written premiums of \$436 million in the first six months of 2013 declined by 3% from the same period of 2012.

Financial, Professional & International Insurance

Results of the Company's Financial, Professional & International Insurance segment were as follows:

(dollars in millions)	Three Months Ended		Six Months Ended	
	2013	June 30, 2012	2013	June 30, 2012
Revenues				
Earned premiums	\$ 751	\$ 766	\$ 1,486	\$ 1,503
Net investment income	91	99	183	203
Fee income		1		1
Other revenues	5	5	10	13
Total revenues	\$ 847	\$ 871	\$ 1,679	\$ 1,720

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

Total claims and expenses	\$	651	\$	616	\$	1,258	\$	1,265
Operating income	\$	154	\$	182	\$	317	\$	331
Loss and loss adjustment expense ratio		43.9%		39.1%		42.4%		42.5%
Underwriting expense ratio		42.4		40.9		41.9		41.3
GAAP combined ratio		86.3%		80.0%		84.3%		83.8%

Overview

Operating income in the second quarter of 2013 was \$154 million, \$28 million or 15% lower than operating income of \$182 million in the second quarter of 2012, primarily reflecting the pretax impact of (i) an increase in catastrophe losses, (ii) lower net favorable prior year reserve development and (iii) a decline in net investment income, partially offset by (iv) higher

Table of Contents

underlying underwriting margins. The increase in underlying underwriting margins were driven by earned pricing increases that exceeded loss cost trends and a lower level of what the Company defines as large losses, partially offset by the impact of lower business volume and higher general and administrative expenses. Partially offsetting this net pretax decrease was the related tax benefit. Additionally, operating income in the second quarter of 2013 benefited from a reduction in income tax expense resulting from the resolution of prior year tax matters. The effective tax rate in the second quarter of 2013 decreased from the same period of 2012. This resulted from the impact of the resolution of prior year tax matters discussed above, and interest on municipal bonds, which is effectively taxed at a rate that is lower than the corporate tax rate of 35%, comprising a higher percentage of pretax income due to a decrease in the underwriting gain. Catastrophe losses in the second quarters of 2013 and 2012 were \$46 million and \$4 million, respectively. Catastrophe losses in the second quarter of 2013 primarily resulted from floods in Alberta, Canada. Net favorable prior year reserve development in the second quarter of 2013 was \$72 million, compared with \$96 million in the same period of 2012.

Operating income in the first six months of 2013 was \$317 million, \$14 million or 4% lower than operating income of \$331 million in the same period of 2012, primarily reflecting the same factors described above. Catastrophe losses in the first six months of 2013 were \$46 million, compared with \$4 million in the same period of 2012. Net favorable prior year reserve development in the first six months of 2013 was \$130 million, compared with \$142 million in the same period of 2012.

Earned Premiums

Earned premiums in the second quarter of 2013 were \$751 million, \$15 million or 2% lower than in the same period of 2012. Earned premiums in the first six months of 2013 were \$1.49 billion, \$17 million or 1% lower than in the same period of 2012. The declines in both periods of 2013 primarily reflected the impact of a decrease in net written premiums over the preceding twelve months.

Net Investment Income

Net investment income in the second quarter of 2013 was \$91 million, \$8 million or 8% lower than in the same period of 2012. Net investment income in the first six months of 2013 was \$183 million, \$20 million or 10% lower than in the same period of 2012. Included in the Financial, Professional & International Insurance segment are certain legal entities whose invested assets and related net investment income are reported exclusively in this segment and not allocated among all business segments. Refer to the Net Investment Income section of Consolidated Results of Operations herein for a discussion of the decline in the Company's consolidated net investment income in the second quarter and first six months of 2013 as compared with the same periods of 2012. In addition, refer to note 2 of notes to the Company's consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 for a discussion of the Company's net investment income allocation methodology.

Claims and Expenses

Claims and Claim Adjustment Expenses

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

Claims and claim adjustment expenses in the second quarter of 2013 were \$332 million, \$30 million or 10% higher than in the same period of 2012, primarily reflecting (i) an increase in catastrophe losses and (ii) a decline in net favorable prior year reserve development, partially offset by (iii) reduced loss cost trends, (iv) the impact of lower business volume and (v) lower levels of large losses. Catastrophe losses in the second quarter of 2013 were \$46 million, primarily resulting from floods in Alberta, Canada, compared with \$4 million in the same period of 2012. Net favorable prior year reserve development in the second quarter of 2013 was \$72 million, compared with \$96 million in the same period of 2012. Net favorable prior year reserve development in the second quarter of 2013 was concentrated in Bond & Financial Products and primarily reflected better than expected results for the surety business for accident years 2003 and prior, 2006 through 2008, and 2010. In Bond & Financial Products in the second quarter of 2012, net favorable prior year reserve development primarily reflected better than expected results for the surety business for accident years 2008 through 2010 and better than expected results for the management liability business for accident years 2007 and prior. In International in the second quarter of 2012, net favorable prior year reserve development primarily reflected better than expected loss experience in the Company's operation at Lloyd's in the marine and aviation business units across multiple accident years.

Claims and claim adjustment expenses in the first six months of 2013 were \$634 million, \$9 million or 1% lower than in the same 2012 period, primarily reflecting (i) reduced loss cost trends, (ii) the impact of lower business volume and (iii) lower levels of large losses, largely offset by (iv) an increase in catastrophe losses and (v) a decline in net favorable prior year reserve development. Catastrophe losses in the first six months of 2013 were \$46 million, compared with \$4 million in the

Table of Contents

same period of 2012. Net favorable prior year reserve development in the first six months of 2013 was \$130 million and was driven by the factors described above for the second quarter in Bond & Financial Products, as well as better than expected loss experience in the first quarter of 2013 in Canada and in the Company's operations at Lloyd's. Net favorable prior year reserve development in the first six months of 2012 was \$142 million and was driven by the factors described above for the second quarter, as well as net favorable prior year reserve development in the first quarter of 2012 in both Bond & Financial Products and International. In Bond & Financial Products, net favorable prior year reserve development in the first quarter of 2012 primarily reflected better than expected results for accident years 2006 through 2008 for the contract surety business. In International, net favorable prior year reserve development in the first quarter of 2012 reflected better than expected loss experience in Canada, primarily in the surety and property lines of business for recent accident years and better than expected development in the Company's operation at Lloyd's in the marine and accident and special risks business units for recent accident years.

Amortization of Deferred Acquisition Expenses

Amortization of deferred acquisition costs in the second quarter of 2013 was \$147 million, \$2 million or 1% lower than in the same period of 2012. Amortization of deferred acquisition costs in the first six months of 2013 was \$290 million, \$2 million or less than 1% lower than in the same 2012 period.

General and Administrative Expenses

General and administrative expenses in the second quarter of 2013 were \$172 million, \$7 million or 4% higher than in the same period of 2012. General and administrative expenses in the first six months of 2013 were \$334 million, \$4 million or 1% higher than in the same period of 2012. The increase in both periods of 2013 primarily resulted from legal expenses related to the Company's recently announced agreement to acquire The Dominion of Canada General Insurance Company.

Income Tax Expense

Income tax expense in the second quarter of 2013 was \$42 million, \$31 million or 42% lower than in the same period of 2012, primarily reflecting the \$51 million decrease in underwriting margins and a reduction in income tax expense of \$15 million resulting from the resolution of prior year tax matters. Income tax expense in the first six months of 2013 was \$104 million, \$20 million or 16% lower than in the same period of 2012, primarily reflecting the reduction in income tax expense resulting from the resolution of prior year tax matters in the second quarter of 2013 and the \$11 million decrease in underwriting margins.

GAAP Combined Ratio

The GAAP combined ratio of 86.3% in the second quarter of 2013 was 6.3 points higher than the GAAP combined ratio of 80.0% in the same period of 2012. The GAAP combined ratio of 84.3% in the first six months of 2013 was 0.5 points higher than the GAAP combined ratio of 83.8% in the same period of 2012.

The loss and loss adjustment expense ratio of 43.9% in the second quarter of 2013 was 4.8 points higher than the loss and loss adjustment expense ratio of 39.1% in the same period of 2012. Catastrophe losses in the second quarters of 2013 and 2012 accounted for 6.1 points and 0.4 points, respectively, of the loss and loss adjustment expense ratio. The 2013 and 2012 second quarter ratios included 9.7 points and 12.5 points of benefit, respectively, from net favorable prior year reserve development. The 2013 second quarter underlying loss and loss adjustment expense ratio was 3.7 points lower than the 2012 ratio on the same basis, reflecting the improvement in underlying underwriting margins discussed in the Overview section above.

The loss and loss adjustment expense ratio of 42.4% in the first six months of 2013 was 0.1 points lower than the loss and loss adjustment expense ratio of 42.5% in the same period of 2012. Catastrophe losses in the first six months of 2013 and 2012 accounted for 3.1 points and 0.2 points, respectively, of the loss and loss adjustment expense ratio. The 2013 and 2012 year-to-date ratios included 8.8 points and 9.4 points of benefit, respectively, from net favorable prior year reserve development. The underlying loss and loss adjustment expense ratio in the first six months of 2013 was 3.6 points lower than the 2012 ratio on the same basis, reflecting the improvement in underlying underwriting margins discussed in the Overview section above.

The underwriting expense ratio of 42.4% in the second quarter of 2013 was 1.5 points higher than the underwriting expense ratio of 40.9% in the same period of 2012. In the first six months of 2013, the underwriting expense ratio of 41.9% was 0.6 points higher than the underwriting expense ratio of 41.3% in the same period of 2012. The increases in both periods of 2013

Table of Contents

primarily reflected the legal expenses related to the Company's recently announced agreement to acquire The Dominion of Canada General Insurance Company, as well as the decline in earned premiums.

Written Premiums

The Financial, Professional & International Insurance segment's gross and net written premiums by market were as follows:

(in millions)	Gross Written Premiums					
	Three Months Ended June 30,			Six Months Ended June 30,

Bond & Financial Products	\$ 531	\$ 524	\$ 926	\$ 881		
International	318	316	570	563		
Total Financial, Professional & International Insurance	\$ 849	\$ 840	\$ 1,496	\$ 1,444		

The Financial, Professional & International Insurance segment's gross and net written premiums in the second quarter of 2013 increased by 3% and 1%, respectively, over the same period of 2012. In the first six months of 2013, gross and net written premiums increased by 2% and 4%, respectively, over the same period of 2012. The higher rate of growth in gross written premiums compared with growth in net written premiums in the second quarter of 2013 primarily reflected the impact of an increase in ceded premiums related to certain contract surety business in Bond & Financial Products for which a higher proportion of premiums is ceded to reinsurers. The lower rate of growth in gross written premiums compared with growth in net written premiums in the first six months of 2013 compared with the same period of 2012 primarily reflected the impact of lower reinsurance costs (resulting from price decreases and slightly higher retention levels) in Bond & Financial Products in the first quarter of 2013, partially offset by the higher ceded premiums in the second quarter of 2013 discussed above.

Net written premiums in Bond & Financial Products in the second quarter of 2013 were \$531 million, \$7 million or 1% higher than in the same period of 2012, primarily driven by higher contract surety volume and rate increases in the management liability business. Net written premiums in the first six months of 2013 were \$926 million, \$45 million or 5% higher than in the same period of 2012, primarily driven by the same factors impacting the second quarter, as well as the lower reinsurance costs discussed above. Excluding the surety line of business, for which the following are not relevant measures, business retention rates in the second quarter and first six months of 2013 remained strong but

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

were lower than in the same periods of 2012. Renewal premium changes in the second quarter and first six months of 2013 remained positive and were higher than in the same periods of 2012, primarily driven by positive renewal rate changes that exceeded expected loss cost trends. New business volume in the second quarter and first six months of 2013 declined from the same periods of 2012.

Net written premiums in International in the second quarter of 2013 were \$318 million, virtually level with the same period of 2012. Net written premiums in the first six months of 2013 were \$570 million, \$7 million or 1% higher than in the same period of 2012. Excluding the surety line of business, for which the following are not relevant measures, business retention rates in the second quarter of 2013 remained strong and were virtually level with the same period of 2012. In the first six months of 2013, business retention rates remained strong and were slightly higher than in the same period of 2012. Renewal premium changes in the second quarter and first six months of 2013 were positive and increased over the same periods of 2012, as renewal rate changes remained positive but were lower than in the same periods of 2012, while insured exposures increased over the same periods of 2012. New business volume in the second quarter and first six months of 2013 increased compared with the same periods of 2012.

Table of Contents**Personal Insurance**

Results of the Company's Personal Insurance segment were as follows:

Overview

Operating income in the second quarter of 2013 was \$142 million, \$125 million higher than operating income of \$17 million in the same period of 2012. The improvement in operating income primarily reflected the pretax impacts of (i) a decline in catastrophe losses and (ii) higher underlying underwriting margins, partially offset by (iii) a decline in net investment income. The higher underlying underwriting margins resulted from the impact of earned pricing that exceeded loss cost trends and lower non-catastrophe weather-related losses. Partially offsetting this net pretax improvement was the related tax expense. Additionally, operating income in the second quarter of 2013 benefited from a reduction in income tax expense resulting from the resolution of prior year tax matters. The effective tax rate in the second quarter of 2013 increased from the same period of 2012. This resulted from interest on municipal bonds, which is effectively taxed at a rate that is lower than the corporate tax rate of 35%, comprising a lower percentage of pretax income due to an increase in the underwriting gain, partially offset by the resolution of prior year tax matters in the second quarter of 2013. Catastrophe losses in the second quarters of 2013 and 2012 were \$146 million and \$293 million, respectively. Net favorable prior year reserve development in the second quarters of 2013 and 2012 was \$65 million and \$67 million, respectively.

Operating income in the first six months of 2013 was \$339 million, \$214 million higher than operating income of \$125 million in the same period of 2012. The improvement was driven by the same factors described above for the second quarter of 2013, as well as an increase in net favorable prior year reserve development. Catastrophe losses in the first six months of 2013 were \$210 million, compared with \$408 million in

the same period of 2012. Net favorable prior year reserve development in the first six months of 2013 was \$125 million, compared with \$77 million in the same period of 2012.

Earned Premiums

Earned premiums in the second quarter of 2013 were \$1.83 billion, \$69 million or 4% lower than in the same period of 2012. Earned premiums in the first six months of 2013 were \$3.67 billion, \$139 million or 4% lower than in the same period of 2012. The decreases in both periods of 2013 reflected lower net written premiums over the preceding twelve months.

Table of Contents

Net Investment Income

Net investment income in the second quarter of 2013 was \$94 million, \$9 million or 9% lower than in the same period of 2012. Net investment income in the first six months of 2013 was \$185 million, \$22 million or 11% lower than in the same period of 2012. Refer to the Net Investment Income section of the Consolidated Results of Operations discussion herein for a description of the factors contributing to the decline in the Company's consolidated net investment income in the second quarter and first six months of 2013 compared with the same periods of 2012. In addition, refer to note 2 of notes to the Company's consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 for a discussion of the Company's net investment income allocation methodology.

Claims and Expenses

Claims and Claim Adjustment Expenses

Claims and claim adjustment expenses in the second quarter of 2013 were \$1.19 billion, \$245 million or 17% lower than in the same period of 2012. The decrease primarily reflected (i) a decline in catastrophe losses, (ii) lower non-catastrophe weather-related losses and (iii) the impact of lower business volume, partially offset by (iv) the impact of loss cost trends. Catastrophe losses in the second quarter of 2013 were \$146 million, compared with \$293 million in the same period of 2012. Net favorable prior year reserve development in the second quarter of 2013 was \$65 million, compared with \$67 million in the same period of 2012. Net favorable prior year reserve development in the second quarter of 2013 was primarily driven by better than expected loss experience in the Homeowners and Other product line for accident year 2012 for both catastrophe and non-catastrophe weather-related losses and other non-weather-related losses. Net favorable prior year reserve development in the second quarter of 2012 was primarily driven by better than expected loss experience related to catastrophe losses incurred in 2011, as well as favorable loss experience in accident years 2007 through 2011 for the umbrella line of business in the Homeowners and Other product line.

Claims and claim adjustment expenses in the first six months of 2013 were \$2.29 billion, \$457 million or 17% lower than in the same period of 2012, primarily reflecting the same factors described above, as well as an increase in net favorable prior year reserve development. Catastrophe losses in the first six months of 2013 and 2012 were \$210 million and \$408 million, respectively. Net favorable prior year reserve development in the first six months of 2013 and 2012 was \$125 million and \$77 million, respectively, driven by the same factors described above, as well as net favorable development in the first quarter of 2013 in the Homeowners and Other product line for accident year 2011 for both non-catastrophe weather-related losses and catastrophe losses.

Amortization of Deferred Acquisition Costs

Amortization of deferred acquisition costs in the second quarter of 2013 was \$322 million, \$40 million or 11% lower than in the same period of 2012. Amortization of deferred acquisition costs in the first six months of 2013 was \$652 million, \$71 million or 10% lower than in the same period of 2012. The decrease in both periods of 2013 reflected the decline in earned premiums compared with the same periods of 2012, a reclassification of fee income related to the National Flood Insurance Program from general and administrative expenses to a component of acquisition costs to conform to the presentation prescribed by insurance regulators, and lower fixed-value commission expense.

General and Administrative Expenses

General and administrative expenses in the second quarter of 2013 were \$241 million, \$22 million or 10% higher than in the same period of 2012. General and administrative expenses in the first six months of 2013 were \$473 million, \$40 million or 9% higher than in the same period of 2012. The increase in both periods of 2013 included an increase in contingent commission expense due to the increase in the number of agents reverting to a contingent commission compensation program and the impact of the reclassification of fee income described above, partially offset by a decline in other operating expenses.

Income Tax Expense

Income tax expense in the second quarter of 2013 was \$48 million, \$59 million higher than in the same period of 2012, primarily reflecting the \$194 million increase in underwriting margins (including the impact of a decrease in catastrophe losses and a decrease in net favorable prior year reserve development) compared with the same period of 2012, partially offset by a reduction in income tax expense of \$5 million resulting from the resolution of prior year tax matters. Income tax expense in the first six months of 2013 was \$136 million, \$111 million higher than in the same period of 2012, primarily reflecting the \$349 million increase in underwriting margins, partially offset by the resolution of prior year tax matters in the second quarter of 2013.

Table of Contents*GAAP Combined Ratio*

The GAAP combined ratio of 94.5% in the second quarter of 2013 was 10.3 points lower than the GAAP combined ratio of 104.8% in the same period of 2012. The GAAP combined ratio of 91.9% in the first six months of 2013 was 9.4 points lower than the GAAP combined ratio of 101.3% in the same period of 2012.

The loss and loss adjustment expense ratio of 64.9% in the second quarter of 2013 was 10.5 points lower than the loss and loss adjustment expense ratio of 75.4% in the same period of 2012. Catastrophe losses accounted for 8.0 points and 15.3 points of the loss and loss adjustment expense ratios in the second quarters of 2013 and 2012, respectively. The loss and loss adjustment expense ratio for the second quarters of 2013 and 2012 both included 3.5 points of benefit from net favorable prior year reserve development. The 2013 second quarter underlying loss and loss adjustment expense ratio was 3.2 points lower than the 2012 ratio on the same basis, reflecting the improvement in underlying underwriting margins discussed in the *Overview* section above.

The loss and loss adjustment expense ratio of 62.4% in the first six months of 2013 was 9.7 points lower than the loss and loss adjustment expense ratio of 72.1% in the same period of 2012. Catastrophe losses accounted for 5.7 points and 10.7 points of the loss and loss adjustment expense ratios in the first six months of 2013 and 2012, respectively. The loss and loss adjustment expense ratio for the first six months of 2013 and 2012 included 3.4 points and 2.1 points of benefit, respectively, from net favorable prior year reserve development. The 2013 six-month underlying loss and loss adjustment expense ratio was 3.4 points lower than the 2012 ratio on the same basis, reflecting the improvement in underlying underwriting margins discussed in the *Overview* section above.

The underwriting expense ratio of 29.6% for the second quarter of 2013 was 0.2 points higher than the underwriting expense ratio of 29.4% in the same period of 2012. In the first six months of 2013, the underwriting expense ratio of 29.5% was 0.3 points higher than the underwriting expense ratio of 29.2% in the same 2012 period. The increases in both periods of 2013 primarily reflected the decrease in earned premiums discussed above.

Agency Written Premiums

Personal Insurance's gross and net written premiums by product line were as follows for its Agency business, which comprises business written through agents, brokers and other intermediaries and represents almost all of the Personal Insurance segment's gross and net written premiums:

(in millions)	Gross Written Premiums							
	Three Months Ended			Six Months Ended				
	2013	June 30,	2012	2013	June 30,	2012		
Agency Automobile	\$	838	\$	903	\$	1,673	\$	1,807
Agency Homeowners and Other		1,119		1,135		2,008		2,047
Total Agency Personal Insurance	\$	1,957	\$	2,038	\$	3,681	\$	3,854

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

(in millions)	Net Written Premiums							
	Three Months Ended			Six Months Ended				
	2013	June 30,	2012	2013	June 30,	2012		
Agency Automobile	\$	834	\$	899	\$	1,665	\$	1,799
Agency Homeowners and Other		1,033		1,064		1,853		1,919
Total Agency Personal Insurance	\$	1,867	\$	1,963	\$	3,518	\$	3,718

In both the second quarter and first six months of 2013, gross agency net written premiums were 4% lower than in the respective periods of 2012. In both the second quarter and first six months of 2013, net agency written premiums were 5% lower than in the respective periods of 2012. Renewal rate changes continued to exceed expected loss cost trends, assuming weather patterns consistent with the company's expectations.

Table of Contents

In both the second quarter and first six months of 2013 in the Agency Automobile line of business, net written premiums were 7% lower than in the same periods of 2012. Business retention rates remained strong in both periods of 2013 but were slightly lower than in the respective periods of 2012. Renewal premium changes remained positive in the second quarter and first six months of 2013 and increased over the same periods of 2012, primarily driven by renewal rate changes. New business levels in the second quarter and first six months of 2013 declined from the same periods of 2012.

In both the second quarter and first six months of 2013 in the Agency Homeowners and Other line of business, net written premiums were 3% lower than in the same periods of 2012. Business retention rates remained strong in both periods of 2013 but were slightly lower than in the respective periods of 2012. Renewal premium changes remained positive in the second quarter and first six months of 2013 and increased over the same periods of 2012, primarily driven by renewal rate changes. New business levels in the second quarter and first six months of 2013 declined from the same periods of 2012.

For its Agency business, the Personal Insurance segment had approximately 6.8 million and 7.5 million active policies at June 30, 2013 and 2012, respectively.

Direct to Consumer Written Premiums

In its direct to consumer business, net written premiums in the second quarter and first six months of 2013 were \$40 million and \$79 million, respectively, slightly higher than in the respective periods of 2012. The direct to consumer business had 162,000 active policies at June 30, 2013, an increase of 5% over the same date in 2012.

Interest Expense and Other

(in millions)	Three Months Ended		Six Months Ended	
	2013	June 30, 2012	2013	June 30, 2012
Operating loss	\$ (59)	\$ (66)	\$ (122)	\$ (134)

The operating loss for Interest Expense and Other in the second quarter of 2013 was \$59 million, compared with \$66 million in the same period of 2012. The operating loss for Interest Expense and Other in the first six months of 2013 was \$122 million, compared with \$134 million in the same period of 2012. After-tax interest expense in the second quarter and first six months of 2013 was \$56 million and \$116 million, respectively, compared with \$63 million and \$125 million, respectively, in the same periods of 2012. The declines in both periods of 2013 reflected lower average levels of debt outstanding as a result of debt repayments over the previous twelve months.

ASBESTOS CLAIMS AND LITIGATION

The Company believes that the property and casualty insurance industry has suffered from court decisions and other trends that have expanded insurance coverage for asbestos claims far beyond the original intent of insurers and policyholders. The Company has received and continues to receive a significant number of asbestos claims from the Company's policyholders (which includes others seeking coverage under a policy). Factors underlying these claim filings include intensive advertising by lawyers seeking asbestos claimants and the continued focus by plaintiffs on previously peripheral defendants. The focus on these defendants is primarily the result of the number of traditional asbestos defendants who have sought bankruptcy protection in previous years. In addition to contributing to the overall number of claims, bankruptcy proceedings may increase the volatility of asbestos-related losses by initially delaying the reporting of claims and later by significantly accelerating and increasing loss payments by insurers, including the Company. The bankruptcy of many traditional defendants has also caused increased settlement demands against those policyholders who are not in bankruptcy but remain in the tort system. Currently, in many jurisdictions, those who allege very serious injury and who can present credible medical evidence of their injuries are receiving priority trial settings in the courts, while those who have not shown any credible disease manifestation are having their hearing dates delayed or placed on an inactive docket. Prioritizing claims involving credible evidence of injuries, along with the focus on previously peripheral defendants, contributes to the claims

Table of Contents

and claim adjustment expense payment patterns experienced by the Company. The Company's asbestos-related claims and claim adjustment expense experience also has been impacted by the unavailability of other insurance sources potentially available to policyholders, whether through exhaustion of policy limits or through the insolvency of other participating insurers.

The Company continues to be involved in coverage litigation concerning a number of policyholders, some of whom have filed for bankruptcy, who in some instances have asserted that all or a portion of their asbestos-related claims are not subject to aggregate limits on coverage. In these instances, policyholders also may assert that each individual bodily injury claim should be treated as a separate occurrence under the policy. It is difficult to predict whether these policyholders will be successful on both issues. To the extent both issues are resolved in a policyholder's favor and other Company defenses are not successful, the Company's coverage obligations under the policies at issue would be materially increased and bounded only by the applicable per-occurrence limits and the number of asbestos bodily injury claims against the policyholders. Although the Company has seen a moderation in the overall risk associated with these lawsuits, it remains difficult to predict the ultimate cost of these claims.

Many coverage disputes with policyholders are only resolved through settlement agreements. Because many policyholders make exaggerated demands, it is difficult to predict the outcome of settlement negotiations. Settlements involving bankrupt policyholders may include extensive releases which are favorable to the Company but which could result in settlements for larger amounts than originally anticipated. There also may be instances where a court may not approve a proposed settlement, which may result in additional litigation and potentially less beneficial outcomes for the Company. As in the past, the Company will continue to pursue settlement opportunities.

In addition to claims against policyholders, proceedings have been launched directly against insurers, including the Company, by individuals challenging insurers' conduct with respect to the handling of past asbestos claims and by individuals seeking damages arising from alleged asbestos-related bodily injuries. It is possible that the filing of other direct actions against insurers, including the Company, could be made in the future. It is difficult to predict the outcome of these proceedings, including whether the plaintiffs will be able to sustain these actions against insurers based on novel legal theories of liability. The Company believes it has meritorious defenses to these claims and has received favorable rulings in certain jurisdictions.

TPC had entered into settlement agreements, which are subject to a number of contingencies, in connection with a number of these direct action claims (Direct Action Settlements). For a full discussion of these settlement agreements, see the "Asbestos Direct Action Litigation" section of note 12 of notes to the unaudited consolidated financial statements in this report.

The Company's quarterly asbestos reserve reviews include an analysis of exposure and claim payment patterns by policyholder category, as well as recent settlements, policyholder bankruptcies, judicial rulings and legislative actions. The Company also analyzes developing payment patterns among policyholders in the Home Office, Field Office and Assumed Reinsurance and Other categories as well as projected reinsurance billings and recoveries. In addition, the Company reviews its historical gross and net loss and expense paid experience, year-by-year, to assess any emerging trends, fluctuations, or characteristics suggested by the aggregate paid activity. Conventional actuarial methods are not utilized to establish asbestos reserves nor have the Company's evaluations resulted in any way of determining a meaningful average asbestos defense or indemnity payment.

Because each policyholder presents different liability and coverage issues, the Company generally reviews the exposure presented by each policyholder at least annually. Among the factors which the Company may consider in the course of this review are: available insurance coverage, including the role of any umbrella or excess insurance the Company has issued to the policyholder; limits and deductibles; an analysis of the policyholder's potential liability; the jurisdictions involved; past and anticipated future claim activity and loss development on pending

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

claims; past settlement values of similar claims; allocated claim adjustment expense; potential role of other insurance; the role, if any, of non-asbestos claims or potential non-asbestos claims in any resolution process; and applicable coverage defenses or determinations, if any, including the determination as to whether or not an asbestos claim is a products/completed operation claim subject to an aggregate limit and the available coverage, if any, for that claim.

Net asbestos paid losses in the first six months of 2013 were \$100 million, compared with \$114 million in the same period of 2012. Net asbestos reserves were \$2.28 billion at June 30, 2013, compared with \$2.33 billion at June 30, 2012.

Table of Contents

See Uncertainty Regarding Adequacy of Asbestos and Environmental Reserves.

ENVIRONMENTAL CLAIMS AND LITIGATION

The Company has received and continues to receive claims from policyholders who allege that they are liable for injury or damage arising out of their alleged disposition of toxic substances. Mostly, these claims are due to various legislative as well as regulatory efforts aimed at environmental remediation. For instance, the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), enacted in 1980 and later modified, enables private parties as well as federal and state governments to take action with respect to releases and threatened releases of hazardous substances. This federal statute permits the recovery of response costs from some liable parties and may require liable parties to undertake their own remedial action. Liability under CERCLA may be joint and several with other responsible parties.

The Company has been, and continues to be, involved in litigation involving insurance coverage issues pertaining to environmental claims. The Company believes that some court decisions have interpreted the insurance coverage to be broader than the original intent of the insurers and policyholders. These decisions often pertain to insurance policies that were issued by the Company prior to the mid-1980s. These decisions continue to be inconsistent and vary from jurisdiction to jurisdiction. Environmental claims when submitted rarely indicate the monetary amount being sought by the claimant from the policyholder, and the Company does not keep track of the monetary amount being sought in those few claims which indicate a monetary amount.

The resolution of environmental exposures by the Company generally occurs through settlements with policyholders as opposed to claimants. Generally, the Company strives to extinguish any obligations it may have under any policy issued to the policyholder for past, present and future environmental liabilities and extinguish any pending coverage litigation dispute with the policyholder. This form of settlement is commonly referred to as a buy-back of policies for future environmental liability. In addition, many of the agreements have also extinguished any insurance obligation which the Company may have for other claims, including but not limited to asbestos and other cumulative injury claims. The Company and its policyholders may also agree to settlements which extinguish any liability arising from known specified sites or claims. Where appropriate, these agreements also include indemnities and hold harmless provisions to protect the Company. The Company's general purpose in executing these agreements is to reduce the Company's potential environmental exposure and eliminate the risks presented by coverage litigation with the policyholder and related costs.

Table of Contents

In establishing environmental reserves, the Company evaluates the exposure presented by each policyholder and the anticipated cost of resolution, if any. In the course of this analysis, the Company generally considers the probable liability, available coverage, relevant judicial interpretations and historical value of similar exposures. In addition, the Company considers the many variables presented, such as: the nature of the alleged activities of the policyholder at each site; the number of sites; the total number of potentially responsible parties at each site; the nature of the alleged environmental harm and the corresponding remedy at each site; the nature of government enforcement activities at each site; the ownership and general use of each site; the overall nature of the insurance relationship between the Company and the policyholder, including the role of any umbrella or excess insurance the Company has issued to the policyholder; the involvement of other insurers; the potential for other available coverage, including the number of years of coverage; the role, if any, of non-environmental claims or potential non-environmental claims in any resolution process; and the applicable law in each jurisdiction. The evaluation of the exposure presented by a policyholder can change as information concerning that policyholder and the many variables presented is developed. Conventional actuarial techniques are not used to estimate these reserves.

In its review of environmental reserves, the Company considers: past settlement payments; changing judicial and legislative trends; its reserves for the costs of litigating environmental coverage matters; the potential for policyholders with smaller exposures to be named in new clean-up actions for both on- and off-site waste disposal activities; the potential for adverse development; the potential for additional new claims beyond previous expectations; and the potential higher costs for new settlements.

The duration of the Company's investigation and review of these claims and the extent of time necessary to determine an appropriate estimate, if any, of the value of the claim to the Company vary significantly and are dependent upon a number of factors. These factors include, but are not limited to, the cooperation of the policyholder in providing claim information, the pace of underlying litigation or claim processes, the pace of coverage litigation between the policyholder and the Company and the willingness of the policyholder and the Company to negotiate, if appropriate, a resolution of any dispute pertaining to these claims. Because these factors vary from claim-to-claim and policyholder-by-policyholder, the Company cannot provide a meaningful average of the duration of an environmental claim. However, based upon the Company's experience in resolving these claims, the duration may vary from months to several years.

The Company continues to receive notices from policyholders tendering claims for the first time, frequently under policies issued prior to the mid-1980's. These policyholders continue to present smaller exposures, have fewer sites and are lower tier defendants. Further, in many instances, clean-up costs have been reduced because regulatory agencies are willing to accept risk-based site analyses and more efficient clean-up technologies. Over the past several years, the Company has experienced generally favorable trends in the number of new policyholders tendering environmental claims for the first time and in the number of pending declaratory judgment actions relating to environmental matters. However, the degree to which those favorable trends have continued has been less than anticipated. In addition, reserve development on existing environmental claims has been greater than anticipated. As a result of these factors, the Company increased its net environmental reserves by \$65 million and \$90 million in the second quarters of 2013 and 2012, respectively.

Net environmental paid losses in the first six months of 2013 and 2012 were \$24 million and \$44 million, respectively. At June 30, 2013, approximately 94% of the net environmental reserve (approximately \$365 million) was carried in a bulk reserve and included unresolved environmental claims, incurred but not reported environmental claims and the anticipated cost of coverage litigation disputes relating to these claims. The bulk reserve the Company carries is established and adjusted based upon the aggregate volume of in-process environmental claims and the Company's experience in resolving those claims. The balance, approximately 6% of the net environmental reserve (approximately \$23 million), consists of case reserves.

Table of Contents

The following table displays activity for environmental losses and loss expenses and reserves:

(at and for the six months ended June 30, in millions)	2013	2012

UNCERTAINTY REGARDING ADEQUACY OF ASBESTOS AND ENVIRONMENTAL RESERVES

As a result of the processes and procedures discussed above, management believes that the reserves carried for asbestos and environmental claims at June 30, 2013 are appropriately established based upon known facts, current law and management's judgment. However, the uncertainties surrounding the final resolution of these claims continue, and it is difficult to determine the ultimate exposure for asbestos and environmental claims and related litigation. As a result, these reserves are subject to revision as new information becomes available and as claims develop. The continuing uncertainties include, without limitation, the risks and lack of predictability inherent in complex litigation, any impact from the bankruptcy protection sought by various asbestos producers and other asbestos defendants, a further increase or decrease in the cost to resolve, and/or the number of, asbestos and environmental claims beyond that which is anticipated, the role of any umbrella or excess policies the Company has issued, the resolution or adjudication of disputes pertaining to the amount of available coverage for asbestos and environmental claims in a manner inconsistent with the Company's previous assessment of these claims, the number and outcome of direct actions against the Company, future developments pertaining to the Company's ability to recover reinsurance for asbestos and environmental claims and the unavailability of other insurance sources potentially available to policyholders, whether through exhaustion of policy limits or through the insolvency of other participating insurers. In addition, uncertainties arise from the insolvency or bankruptcy of policyholders and other defendants. It is also not possible to predict changes in the legal, regulatory and legislative environment and their impact on the future development of asbestos and environmental claims. This environment could be affected by changes in applicable legislation and future court and regulatory decisions and interpretations, including the outcome of legal challenges to legislative and/or judicial reforms establishing medical criteria for the pursuit of asbestos claims. It is also difficult to predict the ultimate outcome of complex coverage disputes until settlement negotiations near completion and significant legal questions are resolved or, failing settlement, until the dispute is adjudicated. This is particularly the case with policyholders in bankruptcy where negotiations often involve a large number of claimants and other parties and require court approval to be effective. As part of its continuing analysis of asbestos and environmental reserves, the Company continues to study the implications of these and other developments. (Also see note 12 of notes to the unaudited consolidated financial statements in this report).

Because of the uncertainties set forth above, additional liabilities may arise for amounts in excess of the Company's current reserves. In addition, the Company's estimate of claims and claim adjustment expenses may change. These additional liabilities or increases in estimates, or a range of either, cannot now be reasonably estimated and could result in income statement charges that could be material to the Company's operating results in future periods.

Table of Contents

INVESTMENT PORTFOLIO

The Company's invested assets at June 30, 2013 were \$71.27 billion, of which 93% was invested in fixed maturity and short-term investments, 1% in equity securities, 1% in real estate and 5% in other investments. Because the primary purpose of the investment portfolio is to fund future claims payments, the Company employs a conservative investment philosophy. A significant majority of funds available for investment are deployed in a widely diversified portfolio of high quality, liquid taxable U.S. government, tax-exempt U.S. municipal and taxable corporate and U.S. agency mortgage-backed bonds.

The carrying value of the Company's fixed maturity portfolio at June 30, 2013 was \$62.84 billion. The Company closely monitors the duration of its fixed maturity investments, and investment purchases and sales are executed with the objective of having adequate funds available to satisfy the Company's insurance and debt obligations. The weighted average credit quality of the Company's fixed maturity portfolio, both including and excluding U.S. Treasury securities, was Aa2 at both June 30, 2013 and December 31, 2012. Below investment grade securities represented 3.2% and 3.1% of the total fixed maturity investment portfolio at June 30, 2013 and December 31, 2012, respectively. The average effective duration of fixed maturities and short-term securities was 3.6 (3.8 excluding short-term securities) at June 30, 2013 and 3.2 (3.4 excluding short-term securities) at December 31, 2012. The increase in the average effective duration of the Company's fixed maturities and short-term securities at June 30, 2013 when compared to year-end 2012 primarily reflected an increase in interest rates during the first six months of 2013. See the Outlook section in Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations.

Obligations of States, Municipalities and Political Subdivisions

The Company's fixed maturity investment portfolio at June 30, 2013 and December 31, 2012 included \$37.07 billion and \$38.68 billion, respectively, of securities which are obligations of states, municipalities and political subdivisions (collectively referred to as the municipal bond portfolio). The municipal bond portfolio is diversified across the United States, the District of Columbia and Puerto Rico and includes general obligation and revenue bonds issued by states, cities, counties, school districts and similar issuers. Included in the municipal bond portfolio at June 30, 2013 and December 31, 2012 were \$9.93 billion and \$9.03 billion, respectively, of advance refunded or escrowed-to-maturity bonds (collectively referred to as pre-refunded bonds), which are bonds for which an irrevocable trust has been established to fund the remaining payments of principal and interest. Such escrow accounts are verified as to their sufficiency by an independent verification agent of the underwriter, issuer or trustee and are almost exclusively comprised of U.S. Treasury securities. Moody's Investors Service has assigned negative outlooks to municipal securities in both the state sector and local government sector within the United States.

The Company bases its investment decision on the underlying credit characteristics of the municipal security. While its municipal bond portfolio includes a number of securities that were enhanced by third-party insurance for the payment of principal and interest in the event of an issuer default, the Company does not rely on enhanced credit characteristics provided by such third-party insurance as part of its investing decisions. The downgrade during 2008 and 2009 of credit ratings of insurers of these securities resulted in a corresponding downgrade in the ratings of many such securities to the underlying rating of the respective security. Of the insured municipal securities in the Company's investment portfolio at June 30, 2013, approximately 99% were rated at A3 or above, and approximately 91% were rated at Aa3 or above, without the benefit of insurance. The Company believes that a loss of the benefit of insurance would not result in a material adverse impact on the Company's results of operations, financial position or liquidity, due to the underlying credit strength of the issuers of the securities, as well as the Company's ability and intent to hold the securities. The average credit rating of the underlying issuers of these securities was Aa2 at June 30, 2013. The average credit rating of the entire municipal bond portfolio was Aa1 at June 30, 2013 with and without the enhancement provided by third-party insurance.

Mortgage-Backed Securities, Collateralized Mortgage Obligations and Pass-Through Securities

The Company's fixed maturity investment portfolio at June 30, 2013 and December 31, 2012 included \$2.60 billion and \$3.00 billion, respectively, of residential mortgage-backed securities including pass-through-securities and collateralized mortgage obligations (CMOs), all of which are subject to prepayment risk (either shortening or lengthening of duration).

Table of Contents

While prepayment risk for securities and its effect on income cannot be fully controlled, particularly when interest rates move dramatically, the Company's investment strategy generally favors securities that reduce this risk within expected interest rate ranges. Included in the totals at June 30, 2013 and December 31, 2012 were \$1.19 billion and \$1.44 billion, respectively, of GNMA, FNMA and FHLMC (excluding FHA project loans) guaranteed residential mortgage-backed pass-through securities classified as available for sale. Also included in those totals were residential CMOs classified as available for sale with a fair value of \$1.41 billion and \$1.56 billion, at June 30, 2013 and December 31, 2012, respectively. Approximately 43% of the Company's CMO holdings at both June 30, 2013 and December 31, 2012 were guaranteed by or fully collateralized by securities issued by GNMA, FNMA or FHLMC. The average credit rating of the \$805 million and \$893 million of non-guaranteed CMO holdings at June 30, 2013 and December 31, 2012, respectively, was B1 and B2, respectively. The average credit rating of all of the above securities was A1 at both June 30, 2013 and December 31, 2012.

The Company makes investments in residential CMOs that are either guaranteed by GNMA, FNMA or FHLMC, or if not guaranteed, are senior or super-senior positions within their respective securitizations. Both guaranteed and non-guaranteed residential CMOs allocate the distribution of payments from the underlying mortgages among different classes of bondholders. In addition, non-guaranteed residential CMOs provide structures that allocate the impact of credit losses to different classes of bondholders. Senior and super-senior CMOs are protected, to varying degrees, from credit losses as those losses are initially allocated to subordinated bondholders. The Company's investment strategy is to purchase CMO tranches that are expected to offer the most favorable return given the Company's assessment of associated risks. The Company does not purchase residual interests in CMOs.

Alternative Documentation Mortgages and Sub-Prime Mortgages

At June 30, 2013 and December 31, 2012, the Company's fixed maturity investment portfolio included collateralized mortgage obligations backed by alternative documentation mortgages and asset-backed securities collateralized by sub-prime mortgages with a collective fair value of \$325 million and \$347 million, respectively (comprising less than 1% of the Company's total fixed maturity investments at both dates). The Company defines sub-prime mortgage-backed securities as investments in which the underlying loans primarily exhibit one or more of the following characteristics: low FICO scores, above-prime interest rates, high loan-to-value ratios or high debt-to-income ratios. Alternative documentation securitizations are those in which the underlying loans primarily meet the government-sponsored entities' requirements for credit score but do not meet the government-sponsored entities' guidelines for documentation, property type, debt and loan-to-value ratios. The average credit rating on these securities and obligations held by the Company was Ba2 and Ba1 at June 30, 2013 and December 31, 2012, respectively.

Commercial Mortgage-Backed Securities and Project Loans

At June 30, 2013 and December 31, 2012, the Company held commercial mortgage-backed securities (including FHA project loans) of \$485 million and \$453 million, respectively. The Company does not believe this portfolio exposes it to a material adverse impact on its results of operations, financial position or liquidity, due to the portfolio's relatively small size and the underlying credit strength of these securities.

Equity Securities Available for Sale, Real Estate and Short-Term Investments

See note 1 of notes to the Company's consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 for further information about these invested asset classes.

Other Investments

At June 30, 2013 and December 31, 2012, the carrying value of the Company's other investments was \$3.41 billion and \$3.43 billion, respectively. The Company's other investments are primarily comprised of private equity limited partnerships, hedge funds, real estate partnerships, joint ventures, mortgage loans, venture capital (through direct ownership and limited partnerships) and trading securities, which are subject to more volatility than the Company's fixed maturity investments. These asset classes have historically provided a higher return than fixed maturities but are subject to more volatility.

Table of Contents**CATASTROPHE REINSURANCE COVERAGE**

The Company's catastrophe reinsurance coverage is discussed in the Reinsurance section of Part I Item 1 Business in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. Except as discussed below, there have been no material changes to the Company's catastrophe reinsurance coverage from that reported in the Annual Report.

General Catastrophe Reinsurance Treaty. The Company utilizes a general catastrophe reinsurance treaty with unaffiliated reinsurers to help manage its exposure to losses resulting from catastrophes. The general catastrophe reinsurance treaty covers the accumulation of net property losses arising out of one occurrence. The treaty covers all of the Company's exposures in the United States and Canada and their possessions, and waters contiguous thereto, the Caribbean and Mexico. The treaty only provides coverage for terrorism events in limited circumstances and excludes entirely losses arising from nuclear, biological, chemical or radiological attacks.

The following table summarizes the Company's coverage under its General Catastrophe Reinsurance Treaty, effective for the period July 1, 2013 through June 30, 2014, as well as certain other catastrophe-related coverages, other than coverage related to the General Catastrophe Aggregate Excess of Loss Treaty which is described in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Layer of Loss	Reinsurance Coverage In-Force
\$0 - \$1.5 billion	Loss 100% retained by the Company, except for certain losses covered by the Earthquake Excess-of-Loss Reinsurance Treaty as described below.
\$1.5 billion - \$2.25 billion	53.3% (\$400 million) of loss covered by treaty; 46.7% (\$350 million) of loss retained by the Company. Additionally, certain losses incurred in the Northeastern United States are covered by the reinsurance agreements related to the Catastrophe Bonds as described below.
Greater than \$2.25 billion	100% of loss retained by the Company, except for certain losses incurred in the Northeastern United States, which are covered by the reinsurance agreements related to the Catastrophe Bonds and Northeast General Catastrophe Reinsurance Treaty as described below.

Catastrophe Bonds. The Company has catastrophe protection through a reinsurance agreement with Longpoint Re II that expires in December 2013, and two reinsurance agreements with Long Point Re III that expire in June 2015 and May 2016, respectively. In connection with each reinsurance agreement, Longpoint Re II or Long Point Re III (as applicable) issued notes (generally referred to as catastrophe bonds) to investors in an amount equal to the full coverage provided under the respective reinsurance agreement as described below.

The attachment point for index-based losses and the maximum limit under the Company's reinsurance agreement with Longpoint Re II that expires in December 2013 were reset in April 2013. Accordingly, for the period May 1, 2013 through December 18, 2013, the Company will be entitled to begin recovering amounts under the reinsurance agreement if the index-based losses in the covered area for a single occurrence reach an initial attachment amount of \$3.393 billion. The full \$250 million coverage amount of the reinsurance agreement is available on a

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

proportional basis until such index-based losses reach a maximum \$4.234 billion. Covered losses under the agreement are limited to losses from hurricanes in the following geographic locations: Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island and Vermont.

The attachment point, maximum limit and insurance percentage under the Company's reinsurance agreement with Long Point Re III that expires in June 2015 were reset in April 2013. Accordingly, for the period May 1, 2013 through April 30, 2014, the Company will be entitled to begin recovering amounts under the reinsurance agreement if the losses in the covered

Table of Contents

area for a single occurrence reach an initial attachment amount of \$1.817 billion. The full \$250 million coverage amount is available on a proportional basis until covered losses reach a maximum \$2.427 billion. Covered losses under the agreement are limited to losses from hurricanes in the following geographic locations: Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Virginia and Vermont. The coverage is limited to specified property and related coverages in the Company's Personal Insurance segment, and within the Select Accounts and Commercial Accounts market groups within the Company's Business Insurance segment.

On May 16, 2013, Long Point Re III successfully completed a second offering to unrelated investors of \$300 million aggregate principal amount of catastrophe bonds. In connection with the offering, the Company and Long Point Re III entered into a three-year reinsurance agreement providing for coverage up to \$300 million for losses from a northeast hurricane. The business covered by the reinsurance agreement is a subset of the Company's overall insurance portfolio, comprising property insurance and related coverages spread across the following geographic locations: Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Virginia and Vermont. The coverage is limited to specified property coverage written in the Company's Personal Insurance segment, and within the Select Accounts and the Commercial Accounts market groups within the Company's Business Insurance segment. Coverage under the agreement is limited to losses from hurricanes and is initially subject to a \$1.25 billion retention, after which the Company is entitled to recover up to \$300 million on a proportional basis until covered losses reach a maximum \$1.80 billion limit. The attachment point and maximum limit will be reset annually, with the ability of the Company to adjust the expected loss of the coverage layer (the difference between the attachment point and the maximum limit) within a predetermined range. Similar to the first arrangement with Long Point Re III, the proceeds of the offering were deposited in a separate reinsurance trust account. The permitted investments for such proceeds are materially the same type as in the first offering by Long Point Re III.

Long Point Re III is structured similarly to Longpoint Re II but uses an indemnity reinsurance agreement instead of an index-based dual trigger reinsurance agreement. The Company is not the primary beneficiary of either Longpoint Re II or Long Point Re III and accordingly, does not consolidate these entities in the Company's consolidated financial statements. The reinsurance agreements are accounted for as reinsurance.

See the Catastrophe Reinsurance section of Part I Item 1 Business in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 for more details, including a discussion of the structure of and accounting for both Longpoint Re II and Long Point Re III.

Other Catastrophe Reinsurance Treaties. In addition to its general catastrophe treaty and its multi-year catastrophe bond program, the Company also is party to a northeast general catastrophe reinsurance treaty, a general catastrophe aggregate excess-of-loss reinsurance treaty, an earthquake excess-of-loss reinsurance treaty and several international reinsurance treaties.

- *Northeast General Catastrophe Reinsurance Treaty.* The northeast general catastrophe treaty provides up to \$600 million of coverage, subject to a \$2.25 billion retention, for certain losses arising from hurricanes, tornados, hail storms, earthquakes and winter storm or freeze losses from Virginia to Maine for the period July 1, 2013 through June 30, 2014. Losses from a covered event (occurring over several days) anywhere in the United States, Canada, the Caribbean and Mexico and waters contiguous thereto may be used to satisfy the retention. Recoveries under the catastrophe bond programs (if any) would be first applied to reduce losses subject to this treaty.

- *General Catastrophe Aggregate Excess-of-Loss Reinsurance Treaty* See Reinsurance section of Part I Item 1 Business in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

- *Earthquake Excess-of-Loss Reinsurance Treaty.* The earthquake excess-of-loss treaty provides for up to \$200 million of coverage, subject to a \$160 million retention, for earthquake losses incurred under policies written by the National Property, Technology and Public Sector business units and the Commercial Accounts market group in the Company's Business Insurance segment for the period July 1, 2013 through June 30, 2014.

The Company regularly reviews its catastrophe reinsurance coverage and may adjust such coverage in the future.

Table of Contents**REINSURANCE RECOVERABLES**

For a description of the Company's reinsurance recoverables, refer to Reinsurance Recoverables in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

The following table summarizes the composition of the Company's reinsurance recoverables:

(in millions)	June 30, 2013	December 31, 2012
Gross reinsurance recoverables on paid and unpaid claims and claim adjustment expenses	\$ 5,029	\$ 5,256
Allowance for uncollectible reinsurance	(247)	(258)
Net reinsurance recoverables	4,782	4,998
Mandatory pools and associations	1,950	2,549
Structured settlements	3,155	3,165
Total reinsurance recoverables	\$ 9,887	\$ 10,712

The \$216 million decline in net reinsurance recoverables since December 31, 2012 primarily reflected the impact of cash collections, including commutation agreements, and the impact of net favorable prior year reserve development in the first six months of 2013.

OUTLOOK

The following discussion provides outlook information for certain key drivers of the Company's results of operations and capital position.

Premiums. The Company's earned premiums are a function of net written premium volume. Net written premiums comprise both renewal business and new business and are recognized as earned premium over the life of the underlying policies. When business renews, the amount of net written premiums associated with that business may increase or decrease (renewal premium change) as a result of increases or decreases in rate and/or insured exposures, which the Company considers as a measure of units of exposure (such as the number and value of vehicles or properties insured). Net written premiums from both renewal and new business, and therefore earned premiums, are impacted by competitive market conditions as well as general economic conditions, which, particularly in the case of the Business Insurance segment, affect audit premium adjustments, policy endorsements and mid-term cancellations. Net written premiums are also impacted by the structure of reinsurance programs and related costs.

Given the possibility that more active weather patterns such as the Company experienced in a number of recent periods may continue, as well as the possibility that interest rates may remain low for some period of time, along with the current level of profitability in certain of its product lines, the Company has undertaken various efforts, and expects to undertake additional efforts, to improve its underwriting margins. These efforts include seeking improved rates where the Company believes it is appropriate, as well as improved terms and conditions, on many of its

insurance products, and also include other initiatives, such as reducing operating expenses and acquisition costs. In particular, in the Agency Automobile line of business, given new business levels, the Company has undertaken various actions, and expects to undertake additional actions, to reduce expenses and costs in order to improve underwriting margins and enable it to have a more competitively-priced product. The Agency Automobile line of business has been negatively impacted by various factors, including the use of price comparison technology by agents and brokers as discussed below. The Company's actions include, among other things, an announced plan to reduce certain claim and other insurance expenses, with the majority of the impact in the Agency Automobile line of business. That plan is intended to result in annualized savings of \$140 million pre-tax in 2015 when fully implemented. It is also expected to result in a restructuring charge of approximately \$16 million, \$10 million of which is expected to be incurred in the third quarter of 2013.

These and other actions with respect to Agency Automobile or our other business units may not be successful and/or may result in lower retention and new business levels and therefore lower business volumes. If these actions are not effective, the Company may need to explore other actions or initiatives to improve its competitive position and profitability. Refer to Part I Item 1A Risk Factors The intense competition that we face could harm our ability to maintain or increase our business volumes and our profitability and Disruptions to our relationships with our independent agents and brokers could adversely affect us in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Overall, the Company expects retention levels (the amount of expiring premium that renews, before the impact of renewal premium changes) will remain strong relative to historical experience. The Company also expects to continue to achieve, in the aggregate, price increases on renewal business during the remainder of 2013 and into 2014 that generally exceed loss cost trends. In the Business Insurance segment, the Company expects that renewal premium changes during the remainder of 2013 and into 2014 will be broadly consistent with the levels attained in the first six months of 2013 and will be driven by both positive renewal rate changes and, subject to the economic uncertainties discussed below, growth in insured exposures. In the

Table of Contents

Financial, Professional & International Insurance segment, the Company expects that renewal premium changes during the remainder of 2013 and into 2014 will be broadly consistent with the first six months of 2013. With respect to surety, the Company expects written premium volume in 2013 and into 2014 to be broadly consistent with the levels attained in 2012. In the Personal Insurance segment, the Company expects both Agency Automobile and Agency Homeowners and Other renewal premium changes during the remainder of 2013 and into 2014 will decline as compared to the first six months of 2013, but the Company expects such renewal premium changes will remain positive and exceed underlying loss cost trends, assuming weather patterns and other loss trends consistent with the Company's expectations. Renewal premium changes for both Agency Automobile and Agency Homeowners and Other in the remainder of 2013 and into 2014 are expected to be driven by both positive renewal rate changes (based on the Company's actions to file for rate increases) and, subject to the economic uncertainties discussed below, growth in insured exposures. The need for state regulatory approval for changes to personal property and casualty insurance prices, as well as competitive market conditions, may impact the timing and extent of renewal premium changes.

The pricing environment for new business generally has less of an impact on underwriting profitability than renewal rate changes, given the volume of new business relative to renewal business. Property and casualty insurance market conditions are expected to remain competitive during the remainder of 2013 and into 2014 for new business, not only in Business Insurance and Financial, Professional & International Insurance, but especially in Personal Insurance, where price comparison technology used by agents and brokers, sometimes referred to as comparative raters, has facilitated the process of generating multiple quotes, thereby increasing price comparison on new business and, increasingly, on renewal business.

Modest economic growth in the United States experienced in 2011 and 2012, as well as in the first six months of 2013, may or may not continue, or may continue at a slower rate for an extended period of time. In addition, some economic conditions, such as employment rates, may continue to be weak. Future actions or inactions of the United States government, such as a failure to increase the government debt limit or a shutdown of the federal government, could increase the actual or perceived risk that the U.S. may not ultimately pay its obligations when due and may disrupt financial markets. Further, general uncertainty regarding the U.S. Federal budget and taxes has added to the uncertainty regarding economic conditions generally.

If weak economic conditions persist or deteriorate, the resulting low levels of economic activity could impact exposure changes at renewal and the Company's ability to write business at acceptable rates. Additionally, low levels of economic activity could adversely impact audit premium adjustments, policy endorsements and mid-term cancellations after policies are written. All of the foregoing, in turn, could adversely impact net written premiums during the remainder of 2013 and into 2014 and, since earned premiums lag net written premiums, earned premiums could be adversely impacted later in 2013 and into 2014.

Underwriting Gain/Loss. The Company's underwriting gain/loss can be significantly impacted by catastrophe losses and net favorable or unfavorable prior year reserve development, as well as underlying underwriting margins.

Catastrophe and other weather-related losses are inherently unpredictable from period to period. The Company experienced significant catastrophe and other weather-related losses in a number of recent periods which adversely impacted its results of operations. The Company's results of operations would continue to be adversely impacted if significant catastrophe and other weather-related losses were to occur during the remainder of 2013 and into 2014.

For the last several years, the Company's results have included significant amounts of net favorable prior year reserve development, although at lower levels in some recent years, driven by better than expected loss experience in all of the Company's segments. The lower level of net favorable prior year reserve development in a number of recent periods may have been in part due to the Company's reserve estimation process

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

incorporating those factors that led to the higher levels of net favorable prior year reserve development in previous years. If that trend continues, the better than expected loss experience may continue at these recent lower levels, or even lower levels. However, given the inherent uncertainty in estimating claims and claim adjustment expense reserves, loss experience could develop such that the Company recognizes higher or lower levels of favorable prior year reserve development, no favorable prior year reserve development or unfavorable prior year reserve development in future periods. In addition, the ongoing review of prior year claims and claim adjustment expense reserves, or other changes in current period circumstances, may result in the Company revising current year loss estimates upward or downward in future periods of the current year.

Table of Contents

In Business Insurance, the Company expects that the anticipated impact of increases in renewal premium changes, partially offset by consistent modest loss cost trends, and assuming weather patterns consistent with the Company's expectations, will likely result in underlying underwriting margins during the remainder of 2013 and into 2014 that are higher than in 2012 and the first six months of 2013. In Financial, Professional & International Insurance, the Company expects that the anticipated impact of lower underlying losses due to recent underwriting actions in the segment and positive renewal premium changes in Bond & Financial Products will likely result in underlying underwriting margins during the remainder of 2013 and into 2014 that are broadly consistent with the first six months of 2013. In Personal Insurance, the Company anticipates underlying underwriting margins during the remainder of 2013 and into 2014 that are broadly consistent with 2012 and the first six months of 2013. In Agency Automobile, the Company anticipates an improvement in underlying underwriting margins during the remainder of 2013 and into 2014 compared to 2012 and the first six months of 2013 due to the anticipated impact of continued positive renewal premium changes, partially offset by loss cost trends. In Agency Homeowners and Other, the Company anticipates a modest decline in underlying underwriting margins during the remainder of 2013 and into 2014 compared to 2012 and the first six months of 2013, reflecting a return to non-catastrophe weather-related loss levels and loss cost trends consistent with the Company's expectations, partially offset by the anticipated impact of continued positive renewal premium changes. Also in Personal Insurance, the Company's direct to consumer initiative, the distribution channel that the Company launched in 2009, while intended to enhance the Company's long-term ability to compete successfully in a consumer-driven marketplace, is expected to remain unprofitable for a number of years as this book of business grows and matures.

Investment Portfolio. The Company expects to continue to focus its investment strategy on maintaining a high-quality investment portfolio and a relatively short average effective duration. The average effective duration of fixed maturities and short-term securities was 3.6 (3.8 excluding short-term securities) at June 30, 2013. By the end of the second quarter of 2013, based upon the outlook for interest rates as compared to the carrying cost of these positions, the Company closed all of its short positions in U.S. Treasury futures, which it uses to manage the duration of its fixed maturity portfolio to reduce the Company's exposure to a decrease in its book value resulting from an increase in interest rates. The Company may once again enter into short positions in U.S. Treasury futures in future periods. The Company continually evaluates its investment alternatives and mix. Currently, the majority of the Company's investments are comprised of a widely diversified portfolio of high-quality, liquid taxable U.S. government, tax-exempt U.S. municipal and taxable corporate and U.S. agency mortgage-backed bonds.

The Company also invests much smaller amounts in equity securities, real estate, private equity limited partnerships, hedge funds, real estate partnerships, joint ventures, mortgage loans, venture capital (through direct ownership and limited partnerships) and trading securities. These investment classes have the potential for higher returns but also the potential for higher degrees of risk, including less stable rates of return and less liquidity.

Net investment income is a material contributor to the Company's results of operations. Interest rates remain at very low levels by historical standards. Based on the current interest rate environment, the Company estimates that the impact of lower reinvestment yields on the Company's fixed maturity portfolio could, in the remainder of 2013 and into 2014, result in approximately \$25 million of lower after-tax net investment income from that portfolio on a quarterly basis as compared to the corresponding prior year quarter. Given recent general economic and investment market conditions, the Company expects investment income from the non-fixed maturity portfolio for the remainder of 2013 will be lower than the second half of 2012. If general economic conditions and/or investment market conditions deteriorate in the remainder of 2013, the Company could also experience a further reduction in net investment income and/or significant realized investment losses, including impairments. For further discussion of the Company's investment portfolio, see *Investment Portfolio* in this report. For a discussion of the risks to the Company's business during or following a financial market disruption and risks to the Company's investment portfolio, see the risk factors entitled *During or following a period of financial market disruption or economic downturn, our business could be materially and adversely affected* and *Our investment portfolio may suffer reduced returns or material realized or unrealized losses* included in *Part I Item 1A Risk Factors* in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Capital Position. The Company believes it has a strong capital position and, as part of its ongoing efforts to create shareholder value, expects to continue to return capital not needed to support its business operations to its shareholders. The Company expects that, generally over time, the combination of dividends to common shareholders and common share repurchases will likely not exceed operating income. In addition, the timing and actual number of shares to be repurchased in the future will depend on a variety of additional factors, including the Company's

financial position, earnings, share price, catastrophe losses, maintaining capital levels commensurate with the Company's desired ratings from independent rating

Table of Contents

agencies, funding of the Company's qualified pension plan, capital requirements of the Company's operating subsidiaries, legal requirements, regulatory constraints, other investment opportunities (including mergers and acquisitions and related financings), market conditions and other factors. For information regarding the Company's common share repurchases in 2013, see "Liquidity and Capital Resources" in this report.

The Company had a net after-tax unrealized investment gain of \$1.53 billion in its fixed maturity investment portfolio at June 30, 2013. While the Company does not attempt to predict future interest rate movements, a rising interest rate environment would reduce the market value of fixed maturity investments and, therefore, reduce shareholders' equity, and a declining interest rate environment would have the opposite effects. For a discussion of the risks to the Company's business during or following a financial market disruption and risks to the Company's investment portfolio, see the risk factors entitled "During or following a period of financial market disruption or economic downturn, our business could be materially and adversely affected" and "Our investment portfolio may suffer reduced returns or material realized or unrealized losses" included in Part I, Item 1A "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

On June 10, 2013, the Company entered into a definitive agreement to acquire all of the issued and outstanding shares of The Dominion of Canada General Insurance Company (The Dominion) from E-L Financial Corporation Limited for an aggregate cash purchase price of C\$1.125 billion (approximately US\$1.1 billion), subject to adjustment to reflect changes in shareholder's equity prior to the closing, including a downward adjustment to reflect an anticipated pre-closing dividend. The transaction is expected to close in the fourth quarter of 2013, subject to regulatory approvals and other customary closing conditions. The Dominion primarily markets personal lines and small commercial insurance business in Canada. The Company is expected to fund the transaction, subject to market conditions, through a combination of debt and/or preferred stock financing and internal resources.

Many of the statements in this "Outlook" section are forward-looking statements, which are subject to risks and uncertainties that are often difficult to predict and beyond the Company's control. Actual results could differ materially from those expressed or implied by such forward-looking statements. Further, such forward-looking statements speak only as of the date of this report and the Company undertakes no obligation to update them. See "Forward Looking Statements." For a discussion of potential risks and uncertainties that could impact the Company's results of operations or financial position, see "Item 1A Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 and "Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Estimates" in this report.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity is a measure of a company's ability to generate sufficient cash flows to meet the cash requirements of its business operations and to satisfy general corporate purposes when needed. The liquidity requirements of the Company have been met primarily by funds generated from premiums, fees, income received on investments and investment maturities. Cash provided from these sources is used primarily for claims and claim adjustment expense payments, operating expenses, debt servicing, taxes, shareholder dividends and, in recent years, for common share repurchases. The timing and amount of catastrophe claims are inherently unpredictable. Such claims increase liquidity requirements. The timing and amount of reinsurance recoveries may be affected by reinsurer solvency and reinsurance coverage disputes. Additionally, the variability of asbestos-related claim payments, as well as the volatility of potential judgments and settlements arising out of litigation, may also result in increased liquidity requirements. It is the opinion of the Company's management that the Company's future liquidity needs will be adequately met from all of the above sources.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

At June 30, 2013, total cash and short-term invested assets aggregating \$2.05 billion and having a weighted average maturity of 54 days were held in the United States by the holding company. These assets are sufficient to meet the holding company's current liquidity requirements and are in excess of the Company's minimum target level, comprising the Company's estimated annual pretax interest expense and common shareholder dividends, and currently totaling approximately \$1.1 billion. These liquidity requirements primarily include shareholder dividends, debt service and, from time to time, contributions to its qualified domestic pension plan.

The holding company is not dependent on dividends or other forms of repatriation from its foreign operations to support its liquidity needs. U.S. income taxes have not been recognized on substantially all of the Company's foreign operations' undistributed earnings as of June 30, 2013, as such earnings are intended to be permanently reinvested in those operations. Furthermore, taxes paid to foreign governments on these earnings may be used as credits against the U.S. tax on dividend distributions if such earnings were to be distributed to the holding company. The amount of undistributed earnings from foreign operations and related taxes on those undistributed earnings were not material to the Company's financial position or liquidity at June 30, 2013.

Table of Contents

On June 7, 2013, the Company entered into a five-year, \$1.0 billion revolving credit agreement with a syndicate of financial institutions, replacing its three-year \$1.0 billion credit agreement that was due to expire on June 10, 2013. For additional information regarding terms and covenants in this credit agreement, see note 7 of notes to the unaudited consolidated financial statements in this report. This credit agreement also supports the Company's \$800 million commercial paper program, of which \$100 million was outstanding at June 30, 2013. The Company is not reliant on its commercial paper program to meet its operating cash flow needs.

On June 19, 2013, the Company filed a shelf registration statement with the Securities and Exchange Commission. For additional information regarding this shelf registration statement, see note 8 of notes to the unaudited consolidated financial statements in this report.

The Company currently utilizes uncollateralized letters of credit issued by major banks with an aggregate limit of approximately \$382 million to provide much of the capital needed to support its obligations at Lloyd's. If uncollateralized letters of credit are not available at a reasonable price or at all in the future, the Company can collateralize these letters of credit or may have to seek alternative means of supporting its obligations at Lloyd's, which could include utilizing holding company funds on hand.

Operating Activities

Net cash flows provided by operating activities in the first six months of 2013 and 2012 were \$1.25 billion and \$1.27 billion, respectively.

Investing Activities

Net cash flows provided by investing activities were \$92 million in the first six months of 2013, compared with net cash flows used in investing activities of \$81 million in the same period of 2012. The Company's consolidated total investments at June 30, 2013 decreased by \$2.57 billion or 3% from year-end 2012, primarily reflecting the impact of a decline in net unrealized appreciation of investments due to an increase in interest rates.

Financing Activities

Net cash flows used in financing activities in the first six months of 2013 and 2012 were \$1.36 billion and \$1.17 billion, respectively. The totals in both periods primarily reflected common share repurchases, dividends to shareholders and debt repayments, partially offset by the proceeds from employee stock option exercises.

Dividends. Dividends paid to shareholders were \$366 million and \$341 million in the first six months of 2013 and 2012, respectively. The declaration and payment of future dividends to holders of the Company's common stock will be at the discretion of the Company's board of directors and will depend upon many factors, including the Company's financial position, earnings, capital requirements of the Company's

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

operating subsidiaries, legal requirements, regulatory constraints and other factors as the board of directors deems relevant. Dividends will be paid by the Company only if declared by its board of directors out of funds legally available, subject to any other restrictions that may be applicable to the Company. On July 23, 2013, the Company announced that it declared a regular quarterly dividend of \$0.50 per share, payable September 30, 2013, to shareholders of record on September 10, 2013.

Share Repurchase Authorization. The Company's board of directors has approved common share repurchase authorizations under which repurchases may be made from time to time in the open market, pursuant to pre-set trading plans meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934, in private transactions or otherwise. The authorizations do not have a stated expiration date. The timing and actual number of shares to be repurchased in the future will depend on a variety of factors, including the Company's financial position, earnings, share price, catastrophe losses, maintaining capital levels commensurate with the Company's desired ratings from independent rating agencies, funding of the Company's qualified pension plan, capital requirements of the Company's operating subsidiaries, legal requirements, regulatory constraints, other investment opportunities (including mergers and acquisitions and related financings), market conditions and other factors. During the three months and six months ended June 30, 2013, the Company repurchased 3.6 million and 7.3 million shares, respectively, under its share repurchase authorization, for a total cost of \$300 million and \$600 million, respectively. The average cost per share repurchased was \$82.99 and \$81.99, respectively. At June 30, 2013, the Company had \$1.56 billion of capacity remaining under the share repurchase authorization.

Table of Contents

Capital Structure. The following table summarizes the components of the Company's capital structure at June 30, 2013 and December 31, 2012.

(in millions)	June 30, 2013	December 31, 2012
Debt:		
Short-term	\$ 100	\$ 600
Long-term	5,761	5,761
Net unamortized fair value adjustments and debt issuance costs	(9)	(11)
Total debt	5,852	6,350
Shareholders' equity:		
Common stock and retained earnings, less treasury stock	24,170	23,169
Accumulated other comprehensive income	720	2,236
Total shareholders' equity	24,890	25,405
Total capitalization	\$ 30,742	\$ 31,755

The following table provides a reconciliation of total capitalization excluding net unrealized gain on investments to total capitalization presented in the foregoing table.

(dollars in millions)	June 30, 2013	December 31, 2012
Total capitalization excluding net unrealized gain on investments	\$ 29,050	\$ 28,652
Net unrealized gain on investments, net of taxes	1,692	3,103
Total capitalization	\$ 30,742	\$ 31,755
Debt-to-total capital ratio	19.0%	20.0%
Debt-to-total capital ratio excluding net unrealized gain on investments	20.1%	22.2%

The debt-to-total capital ratio excluding net unrealized gain on investments is calculated by dividing (a) debt by (b) total capitalization excluding net unrealized gains and losses on investments, net of taxes. Net unrealized gains and losses on investments can be significantly impacted by both interest rate movements and other economic factors. Accordingly, in the opinion of the Company's management, the debt-to-total capital ratio calculated on this basis provides another useful metric for investors to understand the Company's financial leverage position. The Company's ratio of debt-to-total capital (excluding after-tax net unrealized investment gains) was 20.1% at June 30, 2013, within the Company's target range of 15% to 25%.

RATINGS

Ratings are an important factor in assessing the Company's competitive position in the insurance industry. The Company receives ratings from the following major rating agencies: A.M. Best Company (A.M. Best), Fitch Ratings (Fitch), Moody's Investors Service (Moody's) and Standard & Poor's (S&P). The following rating agency actions were taken with respect to the Company since April 23, 2013, the date on which the Company's Form 10-Q for the quarter ended March 31, 2013 was filed with the Securities and Exchange Commission. For additional discussion of ratings, see the Ratings section of Part I Item 1 Business in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

- On May 22, 2013, S&P affirmed all ratings of the Company. The outlook for all ratings is stable.
- On May 30, 2013, A.M. Best affirmed all ratings of the Company. The outlook for all ratings of the Company was revised to positive from stable (except the outlooks for The Premier Insurance Company of Massachusetts, First Trenton Indemnity Company and First Floridian Auto and Home Insurance Company, all of which remained stable).
- On June 10, 2013, Fitch affirmed all ratings of the Company. The outlook for all ratings is stable.

Table of Contents**CRITICAL ACCOUNTING ESTIMATES**

For a description of the Company's critical accounting estimates, refer to Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Estimates in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. The Company considers its most significant accounting estimates to be those applied to claims and claim adjustment expense reserves and related reinsurance recoverables, investment valuation and impairments, and goodwill and other intangible assets impairments. Except as shown in the table below, there have been no material changes to the Company's critical accounting estimates since December 31, 2012.

Claims and Claim Adjustment Expense Reserves

The table below displays the Company's gross claims and claim adjustment expense reserves by product line. Additional liabilities may arise for amounts in excess of the current related reserves. In addition, the Company's estimate of claims and claim adjustment expenses may change. These additional liabilities or increases in estimates, or a range of either, cannot now be reasonably estimated and could result in income statement charges that could be material to the Company's operating results in future periods. In particular, a portion of the Company's gross claims and claim adjustment expense reserves (totaling \$2.97 billion at June 30, 2013) are for asbestos and environmental claims and related litigation. While the ongoing review of asbestos and environmental claims and associated liabilities considers the inconsistencies of court decisions as to coverage, plaintiffs' expanded theories of liability and the risks inherent in complex litigation and other uncertainties, in the opinion of the Company's management, it is possible that the outcome of the continued uncertainties regarding these claims could result in liability in future periods that differs from current reserves by an amount that could be material to the Company's future operating results. See the preceding discussion of Asbestos Claims and Litigation and Environmental Claims and Litigation.

Gross claims and claim adjustment expense reserves by product line were as follows:

(in millions)	June 30, 2013			December 31, 2012		
	Case	IBNR	Total	Case	IBNR	Total
General liability	\$ 5,512	\$ 8,842	\$ 14,354	\$ 5,525	\$ 9,109	\$ 14,634
Commercial property	799	713	1,512	992	638	1,630
Commercial multi-peril	1,999	1,736	3,735	2,018	1,723	3,741
Commercial automobile	2,331	1,216	3,547	2,343	1,241	3,584
Workers compensation	9,784	7,763	17,547	9,684	7,589	17,273
Fidelity and surety	425	935	1,360	479	934	1,413
Personal automobile	1,923	681	2,604	1,980	722	2,702
Homeowners and personal other	690	735	1,425	1,335	809	2,144
International and other	2,026	1,478	3,504	2,216	1,551	3,767
Property-casualty	25,489	24,099	49,588	26,572	24,316	50,888
Accident and health	32		32	34		34
Claims and claim adjustment expense reserves	\$ 25,521	\$ 24,099	\$ 49,620	\$ 26,606	\$ 24,316	\$ 50,922

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

The \$1.30 billion decrease in gross claims and claim adjustment expense reserves since December 31, 2012 primarily reflected payments related to significant catastrophe losses incurred in 2012, the impact of net favorable prior year reserve development and payments related to operations in runoff, including asbestos and environmental claims.

Asbestos and environmental reserves are included in the General liability, Commercial multi-peril and International and other lines in the summary table above. Asbestos and environmental reserves are discussed separately; see Asbestos Claims and Litigation , Environmental Claims and Litigation and Uncertainty Regarding Adequacy of Asbestos and Environmental Reserves.

FUTURE APPLICATION OF ACCOUNTING STANDARDS

See note 1 of notes to the Company's unaudited consolidated financial statements contained in this quarterly report for a discussion of recently issued accounting pronouncements.

Table of Contents

FORWARD-LOOKING STATEMENTS

This report contains, and management may make, certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical facts, may be forward-looking statements. Words such as may, will, should, likely, anticipates, expects, intends, plans, projects, believes, estimates and similar expressions are used to identify these statements. Specifically, statements about the Company's share repurchase plans, expected margin improvement, future pension plan contributions and the potential impact of investment markets and other economic conditions on the Company's investment portfolio and underwriting results, among others, are forward looking, and the Company may also make forward-looking statements about, among other things:

- its results of operations and financial condition (including, among other things, premium volume, premium rates, net and operating income, investment income and performance, loss costs, return on equity, and expected current returns and combined ratios);
- the sufficiency of the Company's asbestos and other reserves;
- the impact of emerging claims issues as well as other insurance and non-insurance litigation;
- the cost and availability of reinsurance coverage;
- catastrophe losses;
- the impact of investment, economic and underwriting market conditions;
- strategic initiatives, including initiatives to improve profitability and competitiveness; and
- the potential closing date and impact of its merger and acquisition transactions, including the acquisition of The Dominion of Canada General Insurance Company (The Dominion), and the financing plans related to such transactions.

The Company cautions investors that such statements are subject to risks and uncertainties, many of which are difficult to predict and generally beyond the Company's control, that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements.

Some of the factors that could cause actual results to differ include, but are not limited to, the following:

- catastrophe losses could materially and adversely affect the Company's results of operations, its financial position and/or liquidity, and could adversely impact the Company's ratings, the Company's ability to raise capital and the availability and cost of reinsurance;
- during or following a period of financial market disruption or economic downturn, the Company's business could be materially and adversely affected;

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

- if actual claims exceed the Company's claims and claim adjustment expense reserves, or if changes in the estimated level of claims and claim adjustment expense reserves are necessary, the Company's financial results could be materially and adversely affected;
- the Company's investment portfolio may suffer reduced returns or material realized or unrealized losses;
- the Company's business could be harmed because of its potential exposure to asbestos and environmental claims and related litigation;
- the Company is exposed to, and may face adverse developments involving, mass tort claims such as those relating to exposure to potentially harmful products or substances;
- the effects of emerging claim and coverage issues on the Company's business are uncertain;
- the intense competition that the Company faces could harm its ability to maintain or increase its business volumes and profitability;
- the Company may not be able to collect all amounts due to it from reinsurers and reinsurance coverage may not be available to the Company in the future at commercially reasonable rates or at all;
- the Company is exposed to credit risk in certain of its business operations;
- within the United States, the Company's businesses are heavily regulated by the states in which it conducts business, including licensing and supervision, and changes in regulation may reduce the Company's profitability and limit its growth;
- changes in federal regulation could impose significant burdens on the Company and otherwise adversely impact the Company's results;

Table of Contents

- a downgrade in the Company's claims-paying and financial strength ratings could adversely impact the Company's business volumes, adversely impact the Company's ability to access the capital markets and increase the Company's borrowing costs;
- the inability of the Company's insurance subsidiaries to pay dividends to the Company's holding company in sufficient amounts would harm the Company's ability to meet its obligations, pay future shareholder dividends or make future share repurchases;
- disruptions to the Company's relationships with its independent agents and brokers could adversely affect the Company;
- the Company's efforts to develop new products or expand in targeted markets may not be successful and may create enhanced risks;
- changes in U.S. tax laws or in the tax laws of other jurisdictions in which the Company operates could adversely impact the Company;
- the Company may be adversely affected if its pricing and capital models provide materially different indications than actual results;
- the Company's business success and profitability depend, in part, on effective information technology systems and on continuing to develop and implement improvements in technology;
- if the Company experiences difficulties with technology, data security and/or outsourcing relationships, the Company's ability to conduct its business could be negatively impacted;
- the Company is subject to a number of risks associated with its business outside the United States;
- new regulations outside of the U.S., including in the European Union, could adversely impact the Company's results of operations and limit its growth;
- acquisitions and integration of acquired businesses, including the Company's planned acquisition of The Dominion, may result in operating difficulties and other unintended consequences;
- changes to existing accounting standards may adversely impact the Company's reported results;
- the Company could be adversely affected if its controls to ensure compliance with guidelines, policies and legal and regulatory standards are not effective;
- the Company's businesses may be adversely affected if it is unable to hire and retain qualified employees;
- loss of or significant restriction on the use of credit scoring in the pricing and underwriting of Personal Insurance products could reduce the Company's future profitability;
- the Company's repurchase plans depend on a variety of factors, including the Company's financial position, earnings, share price, catastrophe losses, maintaining capital levels commensurate with the Company's desired ratings from independent rating agencies, funding of the Company's qualified pension plan, capital requirements of the Company's operating subsidiaries, legal requirements, regulatory constraints, other investment opportunities (including mergers and acquisitions and related financings), market conditions and other factors;
- the Company may not achieve the anticipated benefits of its transactions or its strategic initiatives, including in Personal Insurance, or complete a transaction that is subject to closing conditions; and
- conditions in the capital markets may not be suitable for the Company to incur additional indebtedness and/or to issue preferred stock to finance its merger and acquisition transactions, including the acquisition of The Dominion.

The Company's forward-looking statements speak only as of the date of this report or as of the date they are made, and the Company undertakes no obligation to update forward-looking statements. For a more detailed discussion of these factors, see the information under the caption "Risk Factors" in the Company's most recent annual report on Form 10-K filed with the Securities and Exchange Commission and "Management's Discussion and Analysis of Financial Condition and Results of Operations" herein and in the Company's most recent annual report on Form 10-K.

WEBSITE AND SOCIAL MEDIA DISCLOSURE

From time to time, the Company may use its website and/or social media outlets, such as Facebook and Twitter, as distribution channels of material company information. Financial and other important information regarding the Company is routinely accessible through and posted on the Company's website at <http://investor.travelers.com>, its Facebook page at <https://www.facebook.com/travelers> and its Twitter account (@TRV_Insurance) at https://twitter.com/TRV_Insurance. In addition, you may automatically receive email alerts and other information about the Company when you enroll your email address by visiting the "Email Alert Service" section at <http://investor.travelers.com>.

Table of Contents

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For the Company's disclosures about market risk, please see "Quantitative and Qualitative Disclosures About Market Risk" in Part II, Item 7A of the Company's 2012 Annual Report on Form 10-K filed with the Securities and Exchange Commission. There have been no material changes to the Company's disclosures about market risk in Part II, Item 7A of the Company's 2012 Annual Report on Form 10-K.

Item 4. CONTROLS AND PROCEDURES

The Company maintains disclosure controls and procedures (as that term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act)) that are designed to ensure that information required to be disclosed in the Company's reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of June 30, 2013. Based upon that evaluation and subject to the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2013, the design and operation of the Company's disclosure controls and procedures were effective to accomplish their objectives at the reasonable assurance level.

In addition, there was no change in the Company's internal control over financial reporting (as that term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended June 30, 2013 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

The information required with respect to this item can be found under "Contingencies" in note 12 of notes to the Company's unaudited consolidated financial statements contained in this quarterly report and is incorporated by reference into this Item 1.

Item 1A. RISK FACTORS

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

For a discussion of the Company's potential risks or uncertainties, please see "Risk Factors" in Part I, Item 1A of the Company's 2012 Annual Report on Form 10-K filed with the Securities and Exchange Commission. In addition, please see "Management's Discussion and Analysis of Financial Condition and Results of Operations," "Outlook" and "Critical Accounting Estimates" herein and in the 2012 Form 10-K. Other than described below, there have been no material changes to the risk factors disclosed in Part I, Item 1A of the Company's 2012 Annual Report on Form 10-K.

Changes to existing accounting standards may adversely impact our reported results. As a U.S.-based SEC reporting company, we are currently required to prepare our financial statements in accordance with U.S. Generally Accepted Accounting Principles (US GAAP), as promulgated by the Financial Accounting Standards Board (FASB). During the last several years, the Securities and Exchange Commission (SEC) has been evaluating whether, when and how International Financial Reporting Standards (IFRS) should be incorporated into the U.S. financial reporting system, including for companies such as us. The FASB and the International Accounting Standards Board (IASB) have also embarked on a long-term project to converge US GAAP and IFRS. In June 2012, the FASB issued a statement that indicated that based on the nature and totality of differences between the FASB's and IASB's views, it is not likely that the two boards will achieve convergence on their joint project on the accounting for insurance contracts. The FASB further noted that the FASB and IASB have very different perspectives on the project. In June 2013, each board issued for comment an exposure draft on the accounting for insurance contracts that has significant differences from the other board's draft as well as from current US GAAP. Both exposure drafts propose changes that, if ultimately adopted, could significantly impact the accounting by insurers, including the Company, for premiums and unearned premium reserves, the liability for claims and claims adjustment expenses, reinsurance, and deferred acquisition costs. Upon completion of the comment period, both boards will review the comments received and will re-deliberate the guidance before issuing a final standard. As a result of this, it is currently unclear what changes, if any, may be

Table of Contents

made to the accounting for insurance contracts under US GAAP as a result of this project, and we are not able to predict whether we will choose to, or be required to, adopt IFRS or how the adoption of IFRS (or the convergence of US GAAP and IFRS, including the project on the accounting for insurance contracts) may impact our financial statements in the future. Changes in accounting standards, particularly those that specifically apply to insurance company operations, may impact the content and presentation of our reported financial results and could cause increased volatility in reported earnings and other adverse consequences to our reported financial results, and decrease comparability of our reported results with other insurers.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The table below sets forth information regarding repurchases by the Company of its common stock during the periods indicated.

ISSUER PURCHASES OF EQUITY SECURITIES

Period Beginning	Period Ending	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Approximate dollar value of shares that may yet be purchased under the plans or programs
April 1, 2013	April 30, 2013	4,720	\$ 84.68		\$ 1,859,184,125
May 1, 2013	May 31, 2013	716,315	\$ 84.00	713,152	\$ 1,799,283,403
June 1, 2013	June 30, 2013	2,901,900	\$ 82.74	2,901,760	\$ 1,559,178,027
Total		3,622,935	\$ 83.00	3,614,912	\$ 1,559,178,027

The Company's board of directors has approved common share repurchase authorizations under which repurchases may be made from time to time in the open market, pursuant to pre-set trading plans meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934, in private transactions or otherwise. The authorizations do not have a stated expiration date. The timing and actual number of shares to be repurchased in the future will depend on a variety of factors, including the Company's financial position, earnings, share price, catastrophe losses, maintaining capital levels commensurate with the Company's desired ratings from independent rating agencies, funding of the Company's qualified pension plan, capital requirements of the Company's operating subsidiaries, legal requirements, regulatory constraints, other investment opportunities (including mergers and acquisitions), market conditions and other factors.

The Company acquired 8,023 shares during the three months ended June 30, 2013 that were not part of the publicly announced share repurchase authorization. These shares consisted of shares retained to cover payroll withholding taxes in connection with the vesting of restricted stock awards and shares used by employees to cover the exercise price of certain stock options that were exercised.

Item 5. OTHER INFORMATION

Executive Ownership and Sales. All of the Company's executive officers hold equity in the Company in excess of the required level under the Company's executive stock ownership policy. For a summary of this policy as currently in effect, see "Compensation Discussion and Analysis - Stock Ownership Guidelines" in the Company's proxy statement filed with the Securities and Exchange Commission on April 9, 2013. From time to time, some of the Company's executives may determine that it is advisable to diversify their investments for personal financial planning reasons, or may seek liquidity for other reasons, and may sell shares of common stock of the Company in the open market, in private transactions or to the Company. To effect such sales, some of the Company's executives have entered into, and may in the future enter into, trading plans designed to comply with the Company's Securities Trading Policy and the provisions of Rule 10b5-1 under the Securities Exchange Act of 1934. The trading plans will not reduce any of the executives' ownership of the Company's shares below the applicable executive stock ownership guidelines. The Company does not undertake any obligation to report Rule 10b5-1 plans that may be adopted by any employee or director of the Company in the future, or to report any modifications or termination of any publicly announced plan. As of the date of this report, none of the Company's named executive officers (i.e., an executive officer named in the compensation disclosures in the Company's proxy statement) has a Rule 10b5-1 trading plan that remains in effect.
