### **Nuveen Investments to be acquired by TIAA-CREF**

On April 14, 2014, TIAA-CREF announced that it had entered into an agreement to acquire Nuveen Investments, the parent company of your fund's investment adviser, Nuveen Fund Advisors, LLC ("NFAL") and the Nuveen affiliates that act as sub-advisers to the majority of the Nuveen Funds. TIAA-CREF is a national financial services organization with approximately \$569 billion in assets under management (as of March 31, 2014) and is a leading provider of retirement services in the academic, research, medical and cultural fields. Nuveen anticipates that it will operate as a separate subsidiary within TIAA-CREF's asset management business, and that its current leadership and key investment teams will stay in place.

Your fund investment will not change as a result of Nuveen's change of ownership. You will still own the same fund shares and the underlying value of those shares will not change as a result of the transaction. NFAL and your fund's sub-adviser(s) will continue to manage your fund according to the same objectives and policies as before, and we do not anticipate any significant changes to your fund's operations. Under the securities laws, the consummation of the transaction will result in the automatic termination of the investment management agreements between the funds and NFAL and the investment sub-advisory agreements between NFAL and each fund's sub-adviser(s). New agreements will be presented to the funds' shareholders for approval (along with fund reorganizations described elsewhere in this report), and if approved, will take effect upon the consummation of Nuveen's transaction with TIAA-CREF or such later time as shareholder approval is obtained. Shareholder meetings for each fund will be held at 2:00 p.m., Central time, on Friday, September 19, 2014 at the offices of Nuveen Investments, 333 West Wacker Drive, Chicago, Illinois 60606.

Nuveen's transaction with TIAA-CREF is currently expected to close early in the fourth quarter of 2014, but remains subject to other customary closing conditions

## **Chairman's Letter**

### **to Shareholders**

#### **Dear Shareholders,**

After significant growth in 2013, domestic and international equity markets have been less compelling during the first part of 2014. Concerns about deflation, political uncertainty in many places and the potential for more fragile economies to impact other countries have produced uncertainty in the markets.

Europe is beginning to emerge slowly from the recession in mid-2013, with improved GDP and employment trends in some countries. However, Japan's deflationary headwinds have resurfaced; and China shows signs of slowing from credit distress combined with declines in manufacturing and exports. Most recently, tensions between Russia and Ukraine may continue to hold back stocks and support government bonds in the near term.

Despite these headwinds, there are some encouraging signs of forward momentum in the markets. In the U.S., the news is more positive with financial risks slowly receding, positive GDP trends, downward trending unemployment and stronger household finances and corporate spending.

It is in such changeable markets that professional investment management is most important. Investment teams who have experienced challenging markets in the past understand how their asset class can behave in rapidly changing times. Remaining committed to their investment disciplines during these times is a critical component to achieving long-term success. In fact, many strong investment track records are established during challenging periods because experienced investment teams understand that volatile markets place a premium on companies and investment ideas that can weather the short-term volatility. By maintaining appropriate time horizons, diversification and relying on practiced investment teams, we believe that investors can achieve their long-term investment objectives.

As always, I encourage you to communicate with your financial consultant if you have any questions about your investment in a Nuveen Fund. On behalf of the other members of the Nuveen Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

William J. Schneider  
Chairman of the Board  
August 25, 2014

## **Portfolio Managers'**

### **Comments**

NASDAQ Premium Income & Growth Fund Inc. (QQQX)

Dow 30<sup>SM</sup> Premium & Dividend Income Fund Inc. (DPD)

Dow 30<sup>SM</sup> Enhanced Premium & Income Fund Inc. (DPO)

*The Funds feature portfolio management by Nuveen Asset Management, LLC, an affiliate of Nuveen Investments, Inc. Keith Hembre, CFA, and David Friar manage the portfolios.*

*Here the team talks about their management strategies and the performance of the Funds for the six-month reporting period ended June 30, 2014.*

### **What key strategies were used to manage the Funds during this six-month reporting period ended June 30, 2014?**

Each Fund pursues a two-part investment strategy, consisting of an equity strategy and an option overlay strategy.

QQQX's core equity strategy is to invest in an optimized portfolio of equities designed to track the price movement of the NASDAQ-100 Index, a market capitalization weighted index. The option overlay is designed to provide incremental cash flow and serve as a risk management strategy by lowering the overall beta of the Fund. Index call options are written on approximately 20-50% of the Fund's net asset value (NAV).

DPD's core equity strategy is to invest in a portfolio of equities designed to track the price movement of the Dow Jones Industrial Average (DJIA). As the DJIA is a price weighted index, this is accomplished by holding an equal number of shares in each index component. The option overlay is designed to provide incremental cash flow and serve as a risk management strategy by lowering the overall beta of the Fund. Call options are written on all the stocks held in the portfolio, generally between 20%-60% of the notional equity exposure.

DPO's core equity strategy is to invest in a portfolio of equities designed to track the price movement of the DJIA. Total exposure to the equity strategy is augmented by the purchase of other securities or financial instruments, primarily swap contracts, designed to provide additional investment exposure (i.e. leverage) to the return of the DJIA stocks. The option overlay is designed to provide incremental cash flow and serve as a risk management strategy by lowering the overall beta of the Fund. Call options are written on all the stocks held in the portfolio, generally on a pro-rata basis. The overlay percentage is typically between 20%-60% of the total notional exposure of each of the underlying stocks within the portfolio.

DPO may also purchase call options for the purpose of implementing call spreads and similar options strategies. A call spread involves the sale of a call option and the corresponding purchase of a call option on the same underlying security, index or instrument with the same expiration date but with different exercise prices. In entering into call spreads, the Fund generally will sell an at-the-money or slightly out-of-the-money call option and purchase an out-of-the-money call option that has a strike price higher than the strike price of the option written by the Fund. The call spreads utilized by the Fund generally will generate less net option premium than writing calls, but limit the overall risk of the strategy (in rapidly rising

markets) by capping the Fund's liability from the written call while simultaneously allowing for additional upside above the strike price of the purchased call.

## **Portfolio Managers' Comments** (continued)

### **How did the Funds perform during this six-month reporting period ended June 30, 2014?**

The tables in the Performance Overview and Holding Summaries section of this report provide total return performance for the Funds for the six-month, one-year, five-year and since inception periods ended June 30, 2014. For the six-month reporting period ended June 30, 2014, the shares at NAV for DPO outperformed its comparative index, while QQQX and DPD underperformed their comparative indexes.

QQQX seeks to dampen the beta of the overall portfolio by selling call options on a percentage of the Fund's NAV. This strategy provides incremental cash flow to the Fund, and also allows the Fund to participate in any equity market rally for the portion of the Fund's assets that are not included in the call overwrite, typically an amount corresponding to between 20% and 50% of the Fund's assets. Those portions of the Fund subject to overwrite have their upside potential capped at the amount of premium received for the option. The downside is buffered by the amount of the cash flow premium received. In flat or declining markets, the option premium can enhance total returns relative to the benchmark. In rising markets, the options can hurt the Fund's total return relative to the benchmark. The reporting period was marked by rising equity markets. Also impacting performance was the decline in implied volatility during the reporting period, which negatively impacted the premiums received. As a result, while posting positive returns for the reporting period, the Fund underperformed its index. During the reporting period, when we expected equity markets to increase we reduced the overwrite percentage to 20%. At other times, we increased the overwrite percentage to 50% when we anticipated the equity markets to be flat or decline. Overall, this overwrite strategy detracted from performance.

The equity portfolio of DPD is constructed to substantially replicate the securities in the DJIA, and therefore the Fund's performance is expected to be very similar to this measure. As described previously, the Fund seeks to dampen the beta of the overall portfolio by selling call options on a pro-rata percentage of each security held in the portfolio. The options sold provide incremental cash flow in exchange for giving up the potential upside of each stock above the options strike price. The downside is buffered by the amount of the cash flow premium received. In flat or declining markets, the option premium can enhance total returns relative to the benchmark. In rising markets, the options can hurt the Fund's total return relative to the benchmark, which is what occurred during the reporting period. Also impacting performance was the decline in implied volatility during the reporting period, which negatively impacted the premiums received. As a result, while posting positive returns for the reporting period, the Fund underperformed its index. During the reporting period, when we expected equity markets to increase we reduced the overwrite percentage to 20%. At other times, we increased the overwrite percentage to 50% when we anticipated the equity markets to be flat or decline. Overall, this overwrite strategy detracted from performance.

DPO seeks to dampen the beta of the overall portfolio by selling call options on a pro-rata percentage of each name held in the portfolio. The options sold provide incremental cash flow in exchange for giving up the potential upside of each stock above the options strike price. The downside is buffered by the amount of the cash flow premium received. In flat or declining markets, the option premium can enhance total returns relative to the benchmark. In rising markets, the options can hurt the Fund's total return relative to the benchmark, which is what occurred during the reporting period. The Fund also invested approximately 25% of the portfolio in swaps that receive the total return of the DJIA while paying a floating rate of interest, adding leverage and equity exposure to the Fund. The Fund's swaps positively contributed to performance which resulted in the Fund's outperformance versus its index for the reporting period. During the reporting period, when we expected equity markets to increase we reduced the overwrite percentage to 20%. At other times, we increased the overwrite percentage to 50% when we anticipated the equity markets to be flat or decline. As a result, the Fund's call writing ranged from 20% to 50% during the reporting period.

Overall, this overwrite strategy detracted from performance.

In addition, QQQX wrote call options on the NASDAQ Index, whereas DPD and DPO wrote call options on individual stocks, while investing in these same stocks, to enhance returns while foregoing some upside potential. The effect on

Nuveen Investments

6

---

performance for the period was slightly positive, as these option strategies performed better than broad benchmarks that do not sell calls.

### **Proposed Fund Reorganizations and Restructurings**

During the current reporting period, the Nuveen Funds' Board of Directors/Trustees approved a series of proposals designed to simplify and enhance the appeal of its suite of equity option closed-end funds. The proposals, if approved at special shareholder meetings later this year, will create a streamlined set of equity option strategies that offer Fund shareholders an opportunity to participate in the returns of one of three key equity indices with less expected volatility and a measure of downside protection over time. The proposals for the Funds are as follows:

#### **NASDAQ Premium Income & Growth Fund (QQQX)**

- Nuveen Equity Premium Advantage Fund (JLA) (Target Fund) shareholders will be asked to approve a combination with QQQX into a newly created Nuveen NASDAQ 100 Dynamic Overwrite Fund (ticker will remain QQQX); and
- The new combined fund will be managed by Nuveen Asset Management (NAM) investing in an equity portfolio designed to broadly track the return and risk characteristics of the NASDAQ 100 Index using a dynamic call option overwrite strategy with a 55% long-term target overwrite level that may vary between 35% and 75%, based on the portfolio manager's ongoing assessment of market conditions.

#### **Nuveen Dow 30<sup>sm</sup> Premium & Dividend Income Fund Inc. (DPD) and Dow 30<sup>sm</sup> Enhanced Premium & Income Fund Inc. (DPO)**

- DPD and DPO (each a Target Fund) shareholders will be asked to approve a combination into a newly created Nuveen Dow 30<sup>sm</sup> Dynamic Overwrite Fund (DIAX) (Surviving Fund) and;
- DIAX will retain DPD's and DPO's underlying equity strategy seeking to replicate the price movements of the Dow Jones Industrial Average Index but will employ a dynamic call option overwrite strategy with a 55% long-term target overwrite level that may vary between 35% and 75%, based on the portfolio manager's ongoing assessment of market conditions.

See Notes to Financial Statements, Note 1 General Information and Significant Accounting Policies, Fund Reorganizations and Restructurings for further information.

**Fund**

**Leverage**

**IMPACT OF DPO'S LEVERAGE STRATEGY ON PERFORMANCE**

One important factor impacting the return of DPO relative to the index was the Fund's use of leverage through the use of total return swap contracts. QQQX and DPD do not use leverage. DPO uses leverage because our research has shown that, over time, leveraging provides opportunities for additional income and total return for shareholders. However, use of leverage also can expose shareholders to additional volatility. For example, as the prices of securities held by the Fund decline, the negative impact of these valuation changes on NAV and total return is magnified by the use of leverage. Conversely, leverage may enhance returns during periods when the prices of securities held by the Fund generally are rising. Leverage had a positive impact on the performance of DPO over this reporting period. During the period, the Fund held total return swap contracts that receive the total return of the Dow Jones Industrial Average (DJIA) while paying a floating rate of interest, adding leverage and additional equity exposure to the Fund. During the period, the DJIA rose while the additional equity exposure and leverage created by the total return swap contracts contributed positively to performance.

As of June 30, 2014, DPO's percentage of leverage is as shown in the accompanying table.

	<b>DPO</b>
Effective Leverage*	25.46%

\* Effective leverage is the Fund's effective economic leverage, and includes the leverage effects of certain derivative and other investments in the Fund's portfolio that increase the Fund's investment exposure.

**DPO'S LEVERAGE**

*Total Return Swap Contracts*

DPO employs leverage through the use of total return swap contracts. As of June 30, 2014, the Fund had outstanding total return swap contracts with a notional value of \$133,379,360.

Refer to Notes to Financial Statements, Note 3 Portfolio Securities and Investments in Derivatives, Swap Contracts for further details on total return swap contracts.

## Share

### Information

#### **DISTRIBUTION INFORMATION**

The following information regarding each Fund's distributions is current as of June 30, 2014. Each Fund's distribution level may vary over time based on the Fund's investment activities and portfolio investment value changes.

Each Fund has a managed distribution program. The goal of this program is to provide shareholders with relatively consistent and predictable cash flow by systematically converting the Fund's expected long-term return potential into regular distributions. As a result, regular distributions throughout the year are likely to include a portion of expected long-term gains (both realized and unrealized), along with net investment income.

Important points to understand about the managed distribution program are:

- Each Fund seeks to establish a relatively stable distribution rate that roughly corresponds to the projected total return from its investment strategy over an extended period of time. However, you should not draw any conclusions about a Fund's past or future investment performance from its current distribution rate.
- Actual returns will differ from projected long-term returns (and therefore a Fund's distribution rate), at least over shorter time periods. Over a specific timeframe, the difference between actual returns and total distributions will be reflected in an increasing (returns exceed distributions) or a decreasing (distributions exceed returns) Fund net asset value.
- Each distribution is expected to be paid from some or all of the following sources:
  - net investment income (regular interest and dividends),
  - realized capital gains, and
  - unrealized gains, or, in certain cases, a return of principal (non-taxable distributions).
- A non-taxable distribution is a payment of a portion of a Fund's capital. When a Fund's returns exceed distributions, it may represent portfolio gains generated, but not realized as a taxable capital gain. In periods when a Fund's return falls short of distributions, the shortfall will represent a portion of your original principal, unless the shortfall is offset during other time periods over the life of your investment (previous or subsequent) when a Fund's total return exceeds distributions.
- Because distribution source estimates are updated during the year based on a Fund's performance and forecast for its current fiscal year (which is the calendar year for each Fund), estimates on the nature of your distributions provided at the time distributions are paid may differ from both the tax information reported to you in your Fund's IRS Form 1099 statement provided at year end, as well as the ultimate economic sources of distributions over the life of your investment.

**Share Information** (continued)

The following table provides estimated information regarding each Fund's distributions and total return performance for the six months ended June 30, 2014. This information is provided on a tax basis rather than a generally accepted accounting principles (GAAP) basis. This information is intended to help you better understand whether the Funds' returns for the specified time period were sufficient to meet their distributions.

<b>As of June 30, 2014</b>	<b>QQQX</b>	<b>DPD</b>	<b>DPO</b>
Inception date	1/30/07	4/29/05	5/30/07
Six months ended June 30, 2014:			
Per share distribution:			
From net investment income	\$ 0.03	\$ 0.10	\$ 0.07
From realized capital gains	0.06	0.00	0.37
Return of capital	0.58	0.43	0.00
Total per share distribution	\$ 0.67	\$ 0.53	\$ 0.44
Annualized distribution rate on NAV	7.07%	6.42%	6.28%
Current distribution rate*	7.18%	6.64%	6.35%
Average annual total returns:			
6-Month (Cumulative) on NAV	5.94%	2.63%	3.52%
1-Year on NAV	28.50%	14.31%	19.03%
5-Year on NAV	18.21%	15.16%	19.83%
Since inception on NAV	9.92%	7.73%	6.80%

\* Current distribution rate is based on the Funds' current annualized quarterly distribution divided by the Funds' current market price. The Funds' quarterly distributions to its shareholders may be comprised of ordinary income, net realized capital gains and, if at the end of the fiscal year the Funds' cumulative net ordinary income and net realized gains are less than the amount of the Funds' distributions, a return of capital for tax purposes.

**SHARE REPURCHASES**

As of June 30, 2014, and since the inception of the Funds' repurchase programs, the Funds have cumulatively repurchased and retired shares as shown in the accompanying table.

	<b>QQQX</b>	<b>DPD</b>	<b>DPO</b>
Share Cumulatively Repurchase and Retired	0	0	0
Share Authorized for Repurchase	1,850,000	1,200,000	2,785,000

**OTHER SHARE INFORMATION**

As of June 30, 2014, and during the current reporting period, the Funds' share prices were trading at a premium/(discount) to their NAVs as shown in the accompanying table.

	<b>QQQX</b>	<b>DPD</b>	<b>DPO</b>
Share NAV	\$ 18.95	\$ 16.52	\$ 14.02
Share Price	\$ 18.78	\$ 16.02	\$ 13.74
Premium/(Discount) to NAV	(0.90)%	(3.03)%	(2.00)%
6-Month Average Premium/(Discount) to NAV	(0.46)%	(3.91)%	(2.90)%

## Risk

### Considerations

Fund shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation. Shares of closed-end funds are subject to investment risks, including the possible loss of principal invested. Past performance is no guarantee of future results. Fund common shares are subject to a variety of risks, including:

**Investment, Market and Price Risk.** An investment in common shares is subject to investment risk, including the possible loss of the entire principal amount that you invest. Your investment in common shares represents an indirect investment in the corporate securities owned by the Funds, which generally trade in the over-the-counter markets. Shares of closed-end investment companies like the Funds frequently trade at a discount to their NAV. Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

**Leverage Risk.** A Fund's use of leverage creates the possibility of higher volatility for the Fund's per share NAV, market price, and distributions. Leverage risk can be introduced through regulatory leverage (issuing preferred shares or debt borrowings at the Fund level) or through certain derivative investments held in a Fund's portfolio. Leverage typically magnifies the total return of a Fund's portfolio, whether that return is positive or negative. The use of leverage creates an opportunity for increased common share net income, but there is no assurance that a Fund's leveraging strategy will be successful.

**Tax Risk.** The tax treatment of Fund distributions may be affected by new IRS interpretations of the Internal Revenue Code and future changes in tax laws and regulations. This is particularly true for funds employing a managed distribution program.

**Common Stock Risk.** Common stock returns often have experienced significant volatility.

**Derivatives Strategy Risk.** Derivative securities, such as calls, puts, warrants, swaps and forwards, carry risks different from, and possibly greater than, the risks associated with the underlying investments.

**Call Option Risk.** The value of call options sold (written) by the Funds will fluctuate. The Funds may not participate in any appreciation of their equity portfolios as fully as they would if the Funds did not sell call options. In addition, the Funds will continue to bear the risk of declines in the value of their equity portfolios.

**Index Call Option Risk.** Because index options are settled in cash, sellers of index call options, such as the Funds, cannot provide in advance for their potential settlement obligations by acquiring and holding the underlying securities.

**Reinvestment Risk.** If market interest rates decline, income earned from a Fund's portfolio may be reinvested at rates below that of the original bond that generated the income.

**QQQX****NASDAQ Premium Income & Growth Fund, Inc.****Performance Overview and Holding Summaries as of June 30, 2014**

Dow Jones Industrial Average	2.68%	15.56%	17.83%	5.83%

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares. Returns at NAV are net of Fund expenses and assume reinvestment of distributions. Comparative index return information is provided for the Fund's shares at NAV only. Indexes are not available for direct investment.

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications into sectors for reporting ease.

(1) All percentages in the Portfolio of Investments are based on net assets.

(2) Non-income producing; issuer has not declared a dividend within the past twelve months.

(3) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in derivatives.

(4) Other Assets Less Liabilities includes the Value of derivative instruments as listed within Investments in Derivatives as of the end of the reporting period.

(5) For disclosure purposes, Notional Amount is calculated by multiplying the Number of Contracts by the Strike Price by 100.

(6) For fair value measurement disclosure purposes, Common Stock classified as Level 2. See Notes to Financial Statements, Note 2 Investment Valuation and Fair Value Measurements for more information.

ADR American Depositary Receipt.

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications into sectors for reporting ease.

(1) All percentages in the Portfolio of Investments are based on net assets.

(2) A copy of the most recent financial statements for the exchange-traded funds in which the Fund invests can be obtained directly from the Securities and Exchange Commission on its website at <http://www.sec.gov>.

(3) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.

(4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in derivatives.

(5) Other Assets Less Liabilities includes the Value of derivative instruments as listed within Investments in Derivatives as of the end of the reporting period.

(6) For disclosure purposes, Notional Amount is calculated by multiplying the Number of Contracts by the Strike Price by 100.

N/A Not applicable.

ETF Exchange-Traded Fund.

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications into sectors for reporting ease.

(1) All percentages in the Portfolio of Investments are based on net assets.

(2) A copy of the most recent financial statements for the exchange-traded funds in which the Fund invests can be obtained directly from the Securities and Exchange Commission on its website at <http://www.sec.gov>.

(3) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.

(4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in derivatives.

(5) Other Assets Less Liabilities includes the Value and unrealized Appreciation (Depreciation) of derivative instruments as listed within Investments in Derivatives as of the end of the reporting period.

(6) For disclosure purposes, Notional Amount is calculated by multiplying the Number of Contracts by the Strike Price by 100.

(a) Per share Net Investment Income (Loss) is calculated using the average daily shares method.

(b) For the fiscal years ended subsequent to December 31, 2009, Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

For the fiscal years ended subsequent to December 31, 2009, Total Return Based on NAV is the combination of changes in NAV, reinvested dividend income at NAV and reinvested capital gains distributions at NAV, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending NAV. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

For the fiscal years ended December 31, 2009, and prior, the Fund's Total Returns Based on Market Value and NAV reflect the performance of the Fund based on a calculation approved by Fund management of IQ Investment Advisers, LLC, the Funds' previous investment adviser. Total returns based on the calculations described above may have produced substantially different results. Total returns are not annualized.

(c) Portfolio Turnover Rate is calculated based on the lesser of long-term purchases or sales (as disclosed in Note 5 Investment Transactions) divided by the average long-term market value during the period.

(d) For the six months ended June 30, 2014.

\* Annualized.

\*\* Represents distributions paid "From and in excess of net investment income" for the six months ended June 30, 2014, as described in Note 1 General Information and Significant Accounting Policies, Dividends and Distributions to Shareholders.

*See accompanying notes to financial statements.*

## Notes to

### Financial Statements (Unaudited)

#### 1. General Information and Significant Accounting Policies

##### General Information

###### *Fund Information*

The funds covered in this report and their corresponding NASDAQ National Market ("NASDAQ") or New York Stock Exchange ("NYSE") symbols are as follows (each a "Fund" and collectively, the "Funds"):

- NASDAQ Premium Income & Growth Fund Inc. (QQQX) ("NASDAQ Premium Income & Growth (QQQX)")
- Dow 30<sup>SM</sup> Premium & Dividend Income Fund Inc. (DPD) ("Dow 30<sup>SM</sup> Premium & Dividend Income (DPD)")
- Dow 30<sup>SM</sup> Enhanced Premium & Income Fund Inc. (DPO) ("Dow 30<sup>SM</sup> Enhanced Premium & Income (DPO)")

The Funds are registered under the Investment Company Act of 1940, as amended, as diversified closed-end registered investment companies. Shares of NASDAQ Premium Income & Growth (QQQX) are traded on the NASDAQ while shares of Dow 30<sup>SM</sup> Premium & Dividend Income (DPD) and Dow 30<sup>SM</sup> Enhanced Premium & Income (DPO) are traded on the NYSE. NASDAQ Premium Income & Growth (QQQX), Dow 30<sup>SM</sup> Premium & Dividend Income (DPD) and Dow 30<sup>SM</sup> Enhanced Premium & Income (DPO) were organized in the state of Maryland on August 24, 2004, January 18, 2005 and March 5, 2007, respectively.

###### *Investment Adviser*

The Funds' investment adviser is Nuveen Fund Advisors, LLC (the "Adviser"), a wholly-owned subsidiary of Nuveen Investments, Inc. ("Nuveen"). The Adviser is responsible for each Fund's overall investment strategy and asset allocation decisions. The Adviser has entered into sub-advisory agreements with Nuveen Asset Management, LLC (the "Sub-Adviser"), a subsidiary of the Adviser, under which the Sub-Adviser manages the investment portfolios of the Funds.

###### *Agreement and Plan of Merger*

On April 14, 2014, TIAA-CREF, a national financial services organization, announced that it had entered into an agreement (the "Purchase Agreement") to acquire Nuveen, the parent company of the Adviser. The transaction is expected to be completed by the end of the year, subject to customary closing conditions, including obtaining necessary Nuveen fund and client consents sufficient to satisfy the terms of the Purchase Agreement and obtaining customary regulatory approvals. There can be no assurance that the transaction described above will be consummated as contemplated or that necessary conditions will be satisfied.

The consummation of the transaction will be deemed to be an "assignment" (as defined in the Investment Company Act of 1940) of the investment management agreements between the Nuveen funds and the Adviser and the investment sub-advisory agreements between the Adviser and each Nuveen fund's sub-adviser or sub-advisers, and will result in automatic termination of each agreement. It is anticipated that the Board of Directors/Trustees of the Nuveen funds will consider a new investment management agreement with the Adviser and new investment sub-advisory agreements with each sub-adviser.

The transaction is not expected to result in any change in the portfolio management of the Funds or in the Funds' investment objectives or policies.

*Investment Objectives and Principal Investment Strategies*

NASDAQ Premium Income & Growth's (QQQX) investment objective is high current income and capital appreciation. The Fund pursues its investment objective principally through a two-part strategy. First, the Fund will invest, under normal circumstances, substantially all of its net assets in a portfolio of investments (the "NASDAQ Investment Portfolio") designed to closely track the performance, before fees and expenses, of the NASDAQ 100<sup>®</sup> Index (the "Index"). Second, in attempting to generate premium income and reduce the volatility of the Fund's returns, with the intent of improving the Fund's risk-adjusted returns, the Fund will write (sell) call options on the Index, which are fully collateralized by the NASDAQ Investment Portfolio. Under normal circumstances, the notional value of the written options is not expected to exceed 50% of the Fund's net assets.

Dow 30<sup>SM</sup> Premium & Dividend Income's (DPD) investment objective is to provide a high level of current income, with a secondary objective of capital appreciation. The Fund pursues its investment objective principally through a two-part strategy. First, the Fund will invest, under normal circumstances, substantially all of its net assets (including the proceeds of any borrowings for investment purposes) in the thirty stocks included in the Dow Jones Industrial Average<sup>SM</sup> ("DJIA") (the "Stocks") in approximately the amounts such Stocks are weighted in the DJIA and/or in other securities or financial

instruments that are intended to correlate with the DJIA (the "Other Instruments"). Second, the Fund will write (sell) covered call options on some or all of the Stocks or Other Instruments.

Dow 30<sup>SM</sup> Enhanced Premium & Income's (DPO) investment objective is to provide a high level of premium and dividend income and the potential for capital appreciation. Under normal circumstances, the Fund will purchase all of the thirty common stocks included in the DJIA, weighted in approximately the same proportions as in the DJIA ("Dow Stocks"). The Fund will also purchase other securities or financial instruments, primarily swap contracts, designed to provide additional investment exposure (i.e., leverage) to the return of the Dow Stocks ("Additional Dow Exposure"). The Dow Stocks and the Additional Dow Exposure are collectively referred to as "Total Dow Exposure." The Fund also will engage in certain option strategies, primarily consisting of writing (selling) covered call options on some or all of the Dow Stocks ("Options"). The Options will be written on approximately 50% (or less) of the Total Dow Exposure at the time they are written. As a result, generally 50% (or more) of the Fund's Total Dow Exposure will have the potential for full capital appreciation. The portion of the Total Dow Exposure subject to the Options will be limited in the amount of capital appreciation that may be obtained.

### *Proposed Reorganizations and Restructurings*

During the current fiscal period, the Nuveen funds' Board of Directors/Trustees approved a series of proposals designed to simplify and enhance the appeal of its suite of equity option closed-end funds.

The proposals, if approved at special shareholder meetings later this year, will create a streamlined set of equity option strategies that offer Fund shareholders an opportunity to participate in the returns of one of three key equity indices with less expected volatility and a measure of downside protection over time. The proposals for the Funds are as follows:

#### NASDAQ Premium Income & Growth (QQQX)

- Nuveen Equity Premium Advantage Fund (JLA) shareholders will be asked to approve a combination with NASDAQ Premium Income & Growth (QQQX) (each a "Target Fund" and collectively the "Target Funds") into a newly created Nuveen NASDAQ 100 Dynamic Overwrite Fund (NASDAQ symbol will remain QQQX) (the "Acquiring Fund"); and
- The new combined fund will be managed by the Sub-Adviser investing in an equity portfolio designed to broadly track the return characteristics of the NASDAQ 100 Index and using a dynamic call option overwrite strategy with a 55% long-term target overwrite level that may vary between 35% and 75%, based on the portfolio manager's ongoing assessment of market conditions.

#### Dow 30<sup>SM</sup> Premium & Dividend Income (DPD) and Dow 30<sup>SM</sup> Enhanced Premium & Income (DPO)

- Dow 30<sup>SM</sup> Premium & Dividend Income (DPD) and Dow 30<sup>SM</sup> Enhanced Premium & Income (DPO) (each a "Target Fund" and collectively the "Target Funds") shareholders will be asked to approve a combination into a newly created Nuveen Dow 30<sup>SM</sup> Dynamic Overwrite Fund (DIAX) (the "Acquiring Fund") and;
- Nuveen Dow 30<sup>SM</sup> Dynamic Overwrite Fund (DIAX) will retain Dow 30<sup>SM</sup> Premium & Dividend Income's (DPD) and Dow 30<sup>SM</sup> Enhanced Premium & Income's (DPO) underlying equity strategy seeking to replicate the price movements of the DJIA but will employ a dynamic call option overwrite strategy with a 55% long-term target overwrite level that may vary between 35% and 75%, based on the portfolio manager's ongoing assessment of market conditions.

The proposals seek to promote increased investor interest by creating fewer, larger, clearly differentiated investment choices and clarifying intended investment outcomes. This increased interest may, over time, narrow the discount at which each Acquiring Fund's shares trade relative to net asset value ("NAV"), as well as mitigate the potential for persistent longer-term discounts. Additionally, the larger combined funds would be expected to enjoy increased economies of scale and consequently generate on-going fee and expense savings, which may enhance total return for shareholders in the Target Funds.

The Funds' distribution policies will not change if the proposals are approved by Fund shareholders. Each Acquiring Fund will continue to employ a managed distribution policy and make quarterly distributions that seek to convert expected total returns of the fund into regular cash flow. There will be no disruption in the timing of the distributions shareholders receive.

Upon the closing of the reorganization, each Target Fund transfers its assets to the Acquiring Fund in exchange for shares of the Acquiring Fund and the assumption by the Acquiring Fund of the liabilities of the Target Fund. Each Target Fund is then liquidated, dissolved and terminated in accordance with its Declaration of Trust. Shareholders of each Target Fund will become shareholders of the Acquiring Fund. Holders of each Target Fund's shares receive newly issued shares of the Acquiring Fund, the aggregate NAV of which equal the aggregate NAV of the shares of the Target Fund held immediately prior to the restructuring (including for this purpose fractional Acquiring Fund shares to which shareholders would be entitled). Fractional shares are sold on the open market and shareholders receive cash in lieu of such fractional shares.

## **Notes to Financial Statements** (Unaudited) (continued)

### **Significant Accounting Policies**

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with accounting principles generally accepted in the United States ("U.S. GAAP").

#### *Investment Transactions*

Investment transactions are recorded on a trade date basis. Realized gains and losses from investment transactions are determined on the specific identification method, which is the same basis for federal income tax purposes. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to earmark securities in the Funds' portfolios with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. As of June 30, 2014, the Funds had no outstanding when-issued/delayed delivery purchase commitments.

#### *Investment Income*

Dividend income is recorded on the ex-dividend date or, for foreign securities, when information is available. Interest income, which reflects the amortization of premiums and includes accretion of discounts for financial reporting purposes, is recorded on an accrual basis.

#### *Professional Fees*

Professional fees presented on the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment, or to pursue other claims or legal actions on behalf of Fund shareholders. If a refund is received for workout expenditures paid in a prior reporting period, such amounts will be recognized as "Legal fee refund" on the Statement of Operations.

#### *Dividends and Distributions to Shareholders*

Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

Each Fund makes quarterly cash distributions to shareholders of a stated dollar amount per share. Subject to approval and oversight by the Funds' Board of Directors, each Fund seeks to maintain a stable distribution level designed to deliver the long-term return potential of the Fund's investment strategy through regular quarterly distributions (a "Managed Distribution Program"). Total distributions during a calendar year generally will be made from a Fund's net investment income, net realized capital gains and net unrealized capital gains in the Fund's portfolio, if any. The portion of distributions paid attributed to net unrealized gains, if any, is distributed from the Fund's assets and is treated by shareholders as a non-taxable distribution ("Return of Capital") for tax purposes. In the event that total distributions during a calendar year exceed the Fund's total return on NAV, the difference will reduce NAV per share. If the Fund's total return on NAV exceeds total distributions during a calendar year, the excess will be reflected as an increase in NAV per share. The final determination of the source and character of all distributions for the fiscal year are made after the end of the fiscal year and are reflected in the financial statements contained in the annual report as of December 31 each year.

The actual character of distributions made by the Funds during the fiscal year ended December 31, 2013 are reflected in the accompanying financial statements.

The distributions made by the Funds during the six months ended June 30, 2014, are provisionally classified as being "From and in excess of net investment income," and those distributions will be classified as being from net investment income, net realized capital gains and/or a return of capital for tax purposes after the fiscal year end. For purposes of calculating "Undistributed (Over distribution of) net investment income" as of June 30, 2014, the distribution amounts provisionally classified as "From and in excess of net investment income" were treated as being entirely from net investment income. Consequently, the financial statements as of June 30, 2014 reflect an over-distribution of net investment income.

#### *Indemnifications*

Under the Funds' organizational documents, their officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

#### *Netting Agreements*

In the ordinary course of business, the Funds may enter into transactions subject to enforceable master repurchase agreements, International Swaps and Derivative Association, Inc. ("ISDA") master agreements or other similar arrangements ("netting agreements"). Generally, the right to offset in netting agreements allows each Fund to offset any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. Generally, each Fund manages its cash collateral and securities collateral on a counterparty basis.

As of June 30, 2014, the Funds were invested in repurchase agreements, options and swap contracts that are subject to netting agreements and further described in Note 3 Portfolio Securities and Investments in Derivatives.

### *Use of Estimates*

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results may differ from those estimates.

## **2. Investment Valuation and Fair Value Measurements**

The fair value input levels as described below are for fair value measurement purposes.

### **Investment Valuation**

Common stocks and other equity-type securities are valued at the last sales price on the securities exchange on which such securities are primarily traded and are generally classified as Level 1. Securities primarily traded on the NASDAQ are valued at the NASDAQ Official Closing Price and are generally classified as Level 1. However, securities traded on a securities exchange or NASDAQ for which there were no transactions on a given day or securities not listed on a securities exchange or NASDAQ are valued at the quoted bid price and are generally classified as Level 2. Prices of certain American Depositary Receipts ("ADR") held by the Funds that trade in the United States are valued based on the last traded price, official closing price, or the most recent bid price of the underlying non-U.S.-traded stock, adjusted as appropriate for the underlying-to-ADR conversion ratio and foreign exchange rate, and from time-to-time may also be adjusted further to take into account material events that may take place after the close of the local non-U.S. market but before the close of the NYSE, which may represent a transfer from a Level 1 to a Level 2 security.

Prices of fixed-income securities are provided by a pricing service approved by the Nuveen funds' Board of Directors/Trustees. The pricing service establishes a security's fair value using methods that may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2. In pricing certain securities, particularly less liquid and lower quality securities, the pricing service may consider information about a security, its issuer, or market activity, provided by the Adviser. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

Prices of swap contracts are also provided by a pricing service approved by the Nuveen funds' Board of Directors/Trustees using the same methods as described above and are generally classified as Level 2.

Index options are valued at the 4:00 p.m. Eastern Time (ET) close price of the NYSE. The values of exchange-traded options are based on the mean of the closing bid and ask prices. Index and exchange-traded options are generally classified as Level 1. Options traded in the over-the-counter market are valued using an evaluated mean price and are generally classified as Level 2.

Repurchase agreements are valued at contract amount plus accrued interest, which approximates market value. These securities are generally classified as Level 2.

Certain securities may not be able to be priced by the pre-established pricing methods as described above. Such securities may be valued by the Nuveen funds' Board of Directors/Trustees or its designee at fair value. These securities generally include, but are not limited to, restricted securities (securities which may

not be publicly sold without registration under the Securities Act of 1933, as amended) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; debt securities that have gone into default and for which there is no current market quotation; a security whose market price is not available from a pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of a fund's NAV (as may be the case in non-U.S. markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, is not deemed to reflect the security's fair value. As a general principle, the fair value of a security would appear to be the amount that the owner might reasonably expect to receive for it in a current sale. A variety of factors may be considered in determining the fair value of such securities, which may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs. Regardless of the method employed to value a particular security, all valuations are subject to review by the Nuveen funds' Board of Directors/Trustees or its designee.

### **Fair Value Measurements**

Fair value is defined as the price that the Funds would receive upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market

**Notes to Financial Statements** (Unaudited) (continued)

participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The following is a summary of the three-tiered hierarchy of valuation input levels.

**Level 1** Inputs are unadjusted and prices are determined using quoted prices in active markets for identical securities.

**Level 2** Prices are determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

**Level 3** Prices are determined using significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risks associated with investing in those securities. The following is a summary of each Fund's fair value measurements as of the end of the reporting period:

\* Refer to the Fund's Portfolio of Investments for industry classifications and Common Stocks classified as Level 2.

\*\* Represents net unrealized appreciation (depreciation) as reported in the Fund's Portfolio of Investments.

The Nuveen funds' Board of Directors/Trustees is responsible for the valuation process and has delegated the oversight of the daily valuation process to the Adviser's Valuation Committee. The Valuation Committee, pursuant to the valuation policies and procedures adopted by the Board of Directors/Trustees, is responsible for making fair value determinations, evaluating the effectiveness of the funds' pricing policies and reporting to the Board of Directors/Trustees. The Valuation Committee is aided in its efforts by the Adviser's dedicated Securities Valuation Team, which is responsible for administering the daily valuation process and applying fair value methodologies as approved by the Valuation Committee. When determining the reliability of independent pricing services for investments owned by the funds, the Valuation Committee, among other things, conducts due diligence reviews of the pricing services and monitors the quality of security prices received through various testing reports conducted by the Securities Valuation Team.

The Valuation Committee will consider pricing methodologies it deems relevant and appropriate when making a fair value determination, based on the facts and circumstances specific to the portfolio instrument. Fair value determinations generally will be derived as follows, using public or private market information:

(i) If available, fair value determinations shall be derived by extrapolating from recent transactions or quoted prices for identical or comparable securities.

(ii) If such information is not available, an analytical valuation methodology may be used based on other available information including, but not limited to: analyst appraisals, research reports, corporate action information, issuer financial statements and shelf registration statements. Such analytical valuation methodologies may include, but are not limited to: multiple of earnings, discount from market value of a similar freely-traded security, discounted cash flow analysis, book value or a multiple thereof, risk premium/yield analysis, yield to maturity and/or fundamental investment analysis.

The purchase price of a portfolio instrument will be used to fair value the instrument only if no other valuation methodology is available or deemed appropriate, and it is determined that the purchase price fairly reflects the instrument's current value.

For each portfolio security that has been fair valued pursuant to the policies adopted by the Board of Directors/Trustees, the fair value price is compared against the last available and next available market quotations. The Valuation Committee reviews the results of such testing and fair valuation occurrences are reported to the Board of Directors/Trustees.

### 3. Portfolio Securities and Investments in Derivatives

#### Portfolio Securities

##### *Repurchase Agreements*

In connection with transactions in repurchase agreements, it is each Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the counterparty defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

The following table presents the repurchase agreements for the Funds that are subject to netting agreements as of the end of the reporting period, and the collateral delivered related to those repurchase agreements.

Fund	Counterparty	Short-Term Investments, at Value	Collateral Pledged (From) Counterparty*	Net Exposure
<b>NASDAQ Premium Income &amp; Growth (QQQX)</b>	Fixed Income Clearing Corporation	\$ 1,464,527	\$ (1,464,527)	\$
<b>Dow 30<sup>SM</sup> Premium &amp; Dividend Income (DPD)</b>	Fixed Income Clearing Corporation	232,561	(232,561)	
<b>Dow 30<sup>SM</sup> Enhanced Premium &amp; Income (DPO)</b>	Fixed Income Clearing Corporation	18,708,367	(18,708,367)	

\* As of June 30, 2014, the value of the collateral pledged from the counterparty exceeded the value of the repurchase agreements. Refer to the Fund's Portfolio of Investments for details on the repurchase agreements.

##### *Zero Coupon Securities*

A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

### **Investments in Derivatives**

Each Fund is authorized to invest in certain derivative instruments, such as futures, options and swap contracts. Each Fund may limit its investments in futures, options on futures and swap contracts to the extent necessary for the Adviser to claim the exclusion from registration by the Commodity Futures Trading Commission as a commodity pool operator with respect to each Fund. The Funds record derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Funds' investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes.

#### *Options Transactions*

The purchase of options involves the risk of loss of all or a part of the cash paid for the options (the premium). The market risk associated with purchasing options is limited to the premium paid. The counterparty credit risk of purchasing options, however, needs to take into account the current value of the option, as this is the performance expected from the counterparty. When a Fund purchases an option, an amount equal to the premium paid (the premium plus commission) is recognized as a component of "Options purchased, at value" on the Statement of Asset and Liabilities. When a Fund writes an option, an amount equal to the net premium received (the premium less commission) is recognized as a component of "Options written, at value" on the Statement of Assets and Liabilities and is subsequently adjusted to reflect the current value of the written option until the option is exercised or expires or the Fund enters into a closing purchase transaction. The changes in the value of options purchased during the fiscal period are recognized as a component of "Change in net unrealized appreciation (depreciation) of options purchased" on the Statement of Operations. The changes in values of the options written during the reporting period are recognized as a component of "Change in net unrealized appreciation (depreciation) of options written" on the Statement of Operations. When an option is exercised or expires or a Fund enters into a closing purchase transaction, the difference

**Notes to Financial Statements** (Unaudited) (continued)

between the net premium received or paid, and any amount paid at expiration or on executing a closing purchase transaction, including commission, is recognized as a component of "Net realized gain (loss) from options purchased and/or written" on the Statement of Operations. The Fund, as writer of an option, has no control over whether the underlying instrument may be sold (called) or purchased (put) and as a result bears the risk of an unfavorable change in the market value of the instrument underlying the written option. There is also the risk the Fund may not be able to enter into a closing transaction because of an illiquid market.

During the six months ended June 30, 2014, NASDAQ Premium Income & Growth (QQQX) wrote call options primarily on the NASDAQ 100® Index, while investing in a portfolio of equities, to enhance returns while foregoing some upside potential, which is capped at the amount of premium received for each option. Dow 30<sup>SM</sup> Premium & Dividend Income (DPD) and Dow 30<sup>SM</sup> Enhanced Premium & Income (DPO) each wrote options on individual stocks, while investing in these same stocks, to enhance returns while foregoing some upside potential.

The average notional amount of outstanding options written during the six months ended June 30, 2014, were as follows:

	<b>NASDAQ Premium Income &amp; Growth (QQQX)</b>	<b>Dow 30<sup>SM</sup> Premium &amp; Dividend Income (DPD)</b>	<b>Dow 30<sup>SM</sup> Enhanced Premium &amp; Income (DPO)</b>
Average notional amount of outstanding options written*	\$(149,802,500)	\$(73,594,446)	\$(180,485,972)

\* The average notional amount is calculated based on the outstanding notional at the beginning of the fiscal year and at the end of each fiscal quarter within the current fiscal year.

The following table presents the fair value of all options held by the Funds as of June 30, 2014, the location of these instruments on the Statement of Assets and Liabilities and the primary underlying risk exposure.

<b>Underlying Risk Exposure</b>	<b>Derivative Instrument</b>	<b>Location on the Statement of Assets and Liabilities</b>			
		<b>Asset Derivatives</b>		<b>(Liability) Derivatives</b>	
		<b>Location</b>	<b>Value</b>	<b>Location</b>	<b>Value</b>

Nuveen Investments

The following table presents the amount of net realized gain (loss) and change in net unrealized appreciation (depreciation) recognized on options written on the Statement of Operations during the six months ended June 30, 2014, and the primary underlying risk exposure.

Fund	Underlying Risk Exposure	Derivative Instrument	Net Realized Gain (Loss) from Options Written	Change in Net Unrealized Appreciation (Depreciation) of Options Written
<b>NASDAQ Premium Income &amp; Growth (QQQX)</b>	Equity price	Options written	\$ (1,506,617)	\$ (59,186)
<b>Dow 30<sup>SM</sup> Premium &amp; Dividend Income (DPD)</b>	Equity price	Options written	(248,030)	1,256,728
<b>Dow 30<sup>SM</sup> Enhanced Premium &amp; Income (DPO)</b>	Equity price	Options written	(656,655)	3,045,921
<i>Swap Contracts</i>				

Total return swap contracts involve commitments to pay interest in exchange for a market-linked return, both based on specified notional amounts. To the extent the total return of the security or index underlying the transaction exceeds or falls short of offsetting the interest rate obligation, a Fund will receive a payment from or make a payment to the counterparty.

Total return swap contracts are valued daily. A Fund accrues daily the periodic payments expected to be paid and received on each swap contract and recognizes the daily change in the market value of the Fund's contractual rights and obligations under the contracts. The net amount recorded on these transactions for each counterparty is recognized on the Statement of Assets and Liabilities as a component of "Unrealized appreciation or depreciation on total return swaps (,net)" with the change during the fiscal period recognized on the Statement of Operations as a component of "Change in net unrealized appreciation (depreciation) of swaps." Income received or paid by a Fund is recognized as a component of "Net realized gain (loss) from swaps" on the Statement of Operations, in addition to the net realized gains or losses recognized upon the termination of the swap contract, and are equal to the difference between the Fund's basis in the swap and the proceeds from (or cost of) the closing transaction. The amount of the payment obligation is based on the notional amount of the swap contract. Payments received or made at the beginning of the measurement period, if any, are recognized as a component of "Total return swap premiums paid and/or received" on the Statement of Assets and Liabilities.

During the six months ended June 30, 2014, Dow 30<sup>SM</sup> Enhanced Premium & Income (DPO) entered into total return swap contracts that receive the total return of the DJIA while paying a floating rate of interest; adding leverage and additional equity exposure to the Fund. The average notional amount of total return swap contracts outstanding during the six months ended June 30, 2014, was as follows:

	<b>Dow 30<sup>SM</sup> Enhanced Premium &amp; Income (DPO)</b>
Average notional amount of total return swap contracts outstanding*	\$120,451,253

\* The average notional amount is calculated based on the outstanding notional at the beginning of the fiscal year and at the end of each fiscal quarter within the current fiscal year.

The following table presents the fair value of all total return swap contracts held by the Fund as of June 30, 2014, the location of these instruments on the Statement of Assets and Liabilities and the primary underlying risk exposure.

Underlying Derivative Risk	Location on the Statement of Assets and Liabilities			
	Asset Derivatives		(Liability) Derivatives	
Exposure Instrument	Location	Value	Location	Value
<b>Dow 30<sup>SM</sup> Enhanced Premium &amp; Income (DPO)</b>				
Equity price	Swaps		Unrealized depreciation on total return swaps	\$(323,465)

The following table presents the swap contacts, which are subject to netting agreements, and the collateral delivered related to those swap contracts as of June 30, 2014.

Counterparty	Gross Unrealized Appreciation on Total Return Swaps*	Gross Unrealized (Depreciation) on Total Return Swaps*	Amounts Netted on Statement of Assets and Liabilities	Net Unrealized Appreciation (Depreciation) on Total Return Swaps	Collateral Pledged to (from) Counterparty	Net Exposure
<b>Dow 30<sup>SM</sup> Enhanced Premium &amp; Income (DPO)</b>

HSBC Bank		(161,732)		(161,732)		(161,732)
Total	\$	\$ (323,465)	\$	\$ (323,465)	\$	\$(323,465)

\* Represents gross unrealized appreciation (depreciation) for the counterparty as presented in the Fund's Portfolio of Investments.

**Notes to Financial Statements** (Unaudited) (continued)

The following table presents the amount of net realized gain (loss) and change in net unrealized appreciation (depreciation) recognized on swap contracts on the Statement of Operations during the six months ended June 30, 2014, and the primary underlying risk exposure.

<b>Fund</b>	<b>Underlying Risk Exposure</b>	<b>Derivative Instrument</b>	<b>Net Realized Gain (Loss) from Swaps</b>	<b>Change in Net Unrealized Appreciation (Depreciation) of Swaps</b>
<b>Dow 30<sup>SM</sup> Enhanced Premium &amp; Income (DPO)</b>	Equity price	Swaps	\$ 18,639,567	\$ (15,541,306)
<i>Market and Counterparty Credit Risk</i>				

In the normal course of business each Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (counterparty credit risk). The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose each Fund to counterparty credit risk, consist principally of cash due from counterparties on forward, option and swap transactions, when applicable. The extent of each Fund's exposure to counterparty credit risk in respect to these financial assets approximates their carrying value as recorded on the Statement of Assets and Liabilities.

Each Fund helps manage counterparty credit risk by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when each Fund has an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the pre-determined threshold amount.

**4. Fund Shares**

The Funds have not repurchased any of their outstanding shares since the inception of their share repurchase programs.

Transactions in Fund shares were as follows:

	<b>NASDAQ Premium Income &amp; Growth (QQQX)</b>		<b>Dow 30<sup>SM</sup> Premium &amp; Dividend Income (DPD)</b>		<b>Dow 30<sup>SM</sup> Enhanced Premium &amp; Income (DPO)</b>

## 6. Income Tax Information

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its investment company taxable income to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. In any year when a Fund realizes net capital gains, each Fund may choose to distribute all or a portion of its net capital gains to shareholders, or alternatively, to retain all or a portion of its net capital gains and pay federal corporate income taxes on such retained gains.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing certain gains and losses on investment transactions. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts as detailed below. Temporary differences do not require reclassification. Temporary and permanent differences do not impact the NAVs of the Funds.

As of June 30, 2014, the cost and unrealized appreciation (depreciation) of investments (excluding investments in derivatives) as determined on a federal income tax basis, were as follows:

	<b>NASDAQ Premium Income &amp; Growth (QQQX)</b>	<b>Dow 30<sup>SM</sup> Premium &amp; Dividend Income (DPD)</b>	<b>Dow 30<sup>SM</sup> Enhanced Premium &amp; Income (DPO)</b>
Cost of investments	\$173,352,385	\$126,650,384	\$295,109,496
Gross unrealized:			
Appreciation	\$189,547,616	\$76,215,101	\$105,187,886
Depreciation	(2,653,498)	(762,396)	(2,429,478)
Net unrealized appreciation (depreciation) of investments	\$186,894,118	\$75,452,705	\$102,758,408

Permanent differences, primarily due to tax basis earning and profits adjustments, notional principal contracts, and distribution reclass resulted in reclassifications among the Funds' components of net assets as of December 31, 2013, the Funds' last tax year end, as follows:

	<b>NASDAQ Premium Income &amp; Growth (QQQX)</b>	<b>Dow 30<sup>SM</sup> Premium &amp; Dividend Income (DPD)</b>	<b>Dow 30<sup>SM</sup> Enhanced Premium &amp; Income (DPO)</b>
Paid-in surplus	\$(21,001,815)	\$(4,854,076)	\$(19,839,321)
Undistributed (Over-distribution of) net investment income	21,001,515 300	10,108,216 (5,254,140)	19,391,684 447,637

Accumulated net realized gain  
(loss)

The tax components of undistributed net ordinary income and net long-term capital gains as of December 31, 2013, the Funds' last tax year end, were as follows:

	<b>NASDAQ Premium Income &amp; Growth (QQQX)</b>	<b>Dow 30<sup>SM</sup> Premium &amp; Dividend Income (DPD)</b>	<b>Dow 30<sup>SM</sup> Enhanced Premium &amp; Income (DPO)</b>
Undistributed net ordinary income	\$	\$	\$
Undistributed net long-term capital gains			

The tax character of distributions paid during the Funds' last tax year ended December 31, 2013 was designated for purposes of the dividends paid deduction as follows:

	<b>NASDAQ Premium Income &amp; Growth (QQQX)</b>	<b>Dow 30<sup>SM</sup> Premium &amp; Dividend Income (DPD)</b>	<b>Dow 30<sup>SM</sup> Enhanced Premium &amp; Income (DPO)</b>
Distributions from net ordinary income <sup>1</sup>	\$ 1,350,770	\$6,459,028	\$14,785,861
Distributions from net long-term capital gains		5,254,440	
Return of capital	21,001,515	1,071,209	9,505,385

<sup>1</sup> Net ordinary income consists of net taxable income derived from dividends, interest and current year earnings and profits attributable to realized gains.

**Notes to Financial Statements** (Unaudited) (continued)

As of December 31, 2013, the Funds' last tax year end, the following Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as shown in the following table. The losses not subject to expiration will be utilized first by a Fund.

	<b>NASDAQ Premium Income &amp; Growth (QQQX)</b>	<b>Dow 30<sup>SM</sup> Enhanced Premium &amp; Income (DPO)</b>
Expiration:		
December 31, 2017	\$	\$38,633,190
Not subject to expiration	6,115,338	
Total	\$6,115,338	\$38,633,190

During the Funds' last tax year ended December 31, 2013, the following Funds utilized their capital loss carryforwards as follows:

	<b>Dow 30<sup>SM</sup> Premium &amp; Dividend Income (DPD)</b>	<b>Dow 30<sup>SM</sup> Enhanced Premium &amp; Income (DPO)</b>
Utilized capital loss carryforwards	\$3,782,567	\$10,333,636

The Funds have elected to defer last-year losses in accordance with federal income tax rules. These losses are treated as having arisen on the first day of the current fiscal year. The Funds have elected to defer losses as follows:

	<b>NASDAQ Premium Income &amp; Growth (QQQX)</b>	<b>Dow 30<sup>SM</sup> Premium &amp; Dividend Income (DPD)</b>	<b>Dow 30<sup>SM</sup> Enhanced Premium &amp; Income (DPO)</b>
Post-October capital losses <sup>2</sup>	\$ 547,718	\$ 716,079	\$1,788,000
Late-year ordinary losses <sup>3</sup>			

<sup>2</sup> Capital losses incurred from November 1, 2013 through December 31, 2013, the Funds' last tax year end.

<sup>3</sup> Specified losses incurred from November 1, 2013 through December 31, 2013.

**7. Management Fees and Other Transactions with Affiliates**

Each Fund's management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Sub-Adviser is compensated for its services to the Funds from the management fees paid to the Adviser.

Each Fund's management fee consists of two components a fund-level fee, based only on the amount of assets within the Fund, and a complex-level fee, based on the aggregate amount of all eligible fund assets

managed by the Adviser. This pricing structure enables Fund shareholders to benefit from growth in the assets within their respective Fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee for each Fund, payable monthly, is calculated according to the following schedule:

<b>Average Daily Managed Assets*</b>	<b>Fund-Level Fee Rate</b>
For the first \$500 million	.7000%
For the next \$500 million	.6750
For the next \$500 million	.6500
For the next \$500 million	.6250
For managed assets over \$2 billion	.6000

**NASDAQ Premium Income & Growth (QQQX)  
Dow 30<sup>SM</sup> Premium & Dividend Income (DPD)  
Dow 30<sup>SM</sup> Enhanced Premium & Income (DPO)**

Nuveen Investments

The annual complex-level fee for each Fund, payable monthly, is calculated according to the following schedule:

<b>Complex-Level Managed Asset Breakpoint Level*</b>	<b>Effective Rate at Breakpoint Level</b>
\$55 billion	.2000%
\$56 billion	.1996
\$57 billion	.1989
\$60 billion	.1961
\$63 billion	.1931
\$66 billion	.1900
\$71 billion	.1851
\$76 billion	.1806
\$80 billion	.1773
\$91 billion	.1691
\$125 billion	.1599
\$200 billion	.1505
\$250 billion	.1469
\$300 billion	.1445

\* For the fund-level and complex-level fees, managed assets include closed-end fund assets managed by the Adviser that are attributable to certain types of leverage. For these purposes, leverage includes the funds' use of preferred stock and borrowings and certain investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by a TOB trust that has been effectively financed by the trust's issuance of floating rate securities, subject to an agreement by the Adviser as to certain funds to limit the amount of such assets for determining managed assets in certain circumstances. The complex-level fee is calculated based upon the aggregate daily managed assets of all Nuveen funds that constitute "eligible assets." Eligible assets do not include assets attributable to investments in other Nuveen funds and assets in excess of \$2 billion added to the Nuveen fund complex in connection with the Adviser's assumption of the management of the former First American Funds effective January 1, 2011. As of June 30, 2014, the complex-level fee rate for these Funds was .1653%.

The Funds pays no compensation directly to those of its directors who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors has adopted a deferred compensation plan for independent directors that enables directors to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen-advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen-advised funds.

## **8. New Accounting Pronouncement**

*Financial Accounting Standards Board ("FASB") Financial Services Investment Companies (Topic 946): Amendments to the Scope, Measurement, and Disclosure Requirements*

During 2013, the FASB issued Accounting Standards Update ("ASU") 2013-08, "Financial Services Investment Companies (Topic 946): Amendments to the Scope, Measurement, and Disclosure Requirements," which amends the criteria that define an investment company and clarifies the measurement guidance and requires new disclosures for investment companies. ASU 2013-08 is effective for fiscal years beginning on or after December 15, 2013. Management has evaluated the implications of ASU 2013-08 and determined that each Fund's current disclosures already followed this guidance and

therefore it does not have an impact on the Fund's financial statements or footnote disclosures.

## 9. Subsequent Events

As previously described in Note 1 General Information and Significant Accounting Policies, Agreement and Plan of Merger, new agreements will be presented to the Funds' shareholders for approval (along with Fund reorganizations described in Note 1 General Information and Significant Accounting Policies, Proposed Reorganizations and Restructurings), and if approved, will take effect upon the consummation of Nuveen's transaction with TIAA-CREF or such later time as shareholder approval is obtained. Shareholder meetings for each Fund will be held at 2:00 p.m., Central time, on Friday, September 19, 2014 at the offices of Nuveen Investments, 333 West Wacker Drive, Chicago, Illinois 60606.

Nuveen's transaction with TIAA-CREF is currently expected to close early in the fourth quarter of 2014, but remains subject to other customary closing conditions.

### Quarterly Form N-Q Portfolio of Investments Information

Each Fund is required to file its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. You may obtain this information directly from the SEC. Visit the SEC on-line at <http://www.sec.gov> or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC toll-free at (800) SEC-0330 for room hours and operation.

### Nuveen Funds' Proxy Voting Information

You may obtain (i) information regarding how each fund voted proxies relating to portfolio securities held during the most recent twelve-month period ended June 30, without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at [www.nuveen.com](http://www.nuveen.com) and (ii) a description of the policies and procedures that each fund used to determine how to vote proxies relating to portfolio securities without charge, upon request, by calling Nuveen Investments toll free at (800) 257-8787. You may also obtain this information directly from the SEC. Visit the SEC on-line at <http://www.sec.gov>.

### CEO Certification Disclosure

Each Fund's Chief Executive Officer (CEO) has submitted to the New York Stock Exchange (NYSE) the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the SEC the certification of its CEO and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

### Share Information

Each Fund intends to repurchase shares of its own common stock at such times and in such amounts as is deemed advisable. During the period covered by this report, the Funds did not repurchase any of their common shares. Any future repurchases will be reported in the next annual or semi-annual report.

### **FINRA BrokerCheck**

The Financial Industry Regulatory Authority (FINRA) provides information regarding the disciplinary history of FINRA member firms and associated investment professionals. This information as well as an investor brochure describing FINRA BrokerCheck is available to the public by calling the FINRA BrokerCheck Hotline number at (800) 289-9999 or by visiting [www.FINRA.org](http://www.FINRA.org).

## Glossary of Terms

### Used in this Report

n **Average Annual Total Return:** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

n **Beta:** A measure of the variability of the change in the share price for a Fund in relation to a change in the value of the Fund's market benchmark. Securities with betas higher than 1.0 have been, and are expected to be, more volatile than the benchmark; securities with betas lower than 1.0 have been, and are expected to be, less volatile than the benchmark.

n **Dow Jones Industrial Average:** An average that tracks the performance of 30 large cap companies. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

n **Effective Leverage:** Effective leverage is a fund's effective economic leverage, and includes both regulatory leverage (see below) and the leverage effects of certain derivative investments in the fund's portfolio that increase the fund's investment exposure.

n **Gross Domestic Product (GDP):** The total market value of all final goods and services produced in a country/region in a given year, equal to total consumer, investment and government spending, plus the value of exports, minus the value of imports.

n **Leverage:** Leverage is created whenever a fund has investment exposure (both reward and/or risk) equivalent to more than 100% of the investment capital.

n **NASDAQ-100 Index:** An index that includes 100 of the largest domestic and international nonfinancial securities listed on The NASDAQ Stock Market based on market capitalization. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

n **Net Asset Value (NAV) Per Share:** A fund's Net Assets is equal to its total assets (securities, cash, accrued earnings and receivables) less its total liabilities. NAV per share is equal to the fund's Net Assets divided by its number of shares outstanding.

n **Regulatory Leverage:** Regulatory leverage consists of preferred shares issued by or borrowings of a fund. Both of these are part of a fund's capital structure. Regulatory leverage is subject to asset coverage limits set in the Investment Company Act of 1940.

n **Russell 2000® Index:** An index that measures the performance of the small-cap segment of the U.S. equity universe. The Russell 2000 Index is a subset of the Russell 3000® Index representing approximately 10% of the total market capitalization of that index. It includes approximately 2,000 of the smallest securities based on a combination of their market cap and current index membership. The index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

n **S&P 500® Index:** An unmanaged index generally considered representative of the U.S. stock market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or

management fees.

Nuveen Investments  
51

---

**Reinvest Automatically,**

**Easily and Conveniently**

**Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.**

**Nuveen Closed-End Funds Automatic Reinvestment Plan**

Your Nuveen Closed-End Fund allows you to conveniently reinvest distributions in additional Fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding. Just like distributions in cash, there may be times when income or capital gains taxes may be payable on distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

**Easy and convenient**

To make recordkeeping easy and convenient, each quarter you'll receive a statement showing your total distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

**How shares are purchased**

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day immediately prior to the purchase date. Distributions received to purchase shares in the open market will normally be invested shortly after the distribution payment date. No interest will be paid on distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

**Flexible**

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to

another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

**Call today to start reinvesting distributions**

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

Nuveen Investments

## Annual Investment

### Management Agreement Approval Process (Unaudited)

#### I. The Approval Process

The Board of Directors of each Fund (each, a "*Board*" and each Director, a "*Board Member*"), including the Board Members who are not parties to the Funds' advisory or sub-advisory agreements or "interested persons" of any such parties (the "*Independent Board Members*"), is responsible for overseeing the performance of the investment adviser and the sub-adviser to the respective Fund and determining whether to approve or continue such Fund's advisory agreement (each, an "*Original Investment Management Agreement*") between the Fund and Nuveen Fund Advisors, LLC (the "*Adviser*") and sub-advisory agreement (each, an "*Original Sub-Advisory Agreement*" and, together with the Original Investment Management Agreement, the "*Original Advisory Agreements*") between the Adviser and Nuveen Asset Management, LLC (the "*Sub-Adviser*"). Pursuant to the Investment Company Act of 1940, as amended (the "*1940 Act*"), each Board is required to consider the continuation of the respective Original Advisory Agreements on an annual basis. In addition, prior to its annual review, the Board Members were advised of the potential acquisition of Nuveen Investments, Inc. ("*Nuveen*") by TIAA-CREF (the "*Transaction*"). For purposes of this section, references to "Nuveen" herein include all affiliates of Nuveen Investments, Inc. providing advisory, sub-advisory, distribution or other services to the Funds and references to the "Board" refer to the Board of each Fund. In accordance with the 1940 Act and the terms of the Original Advisory Agreements, the completion of the Transaction would terminate each of the Original Investment Management Agreements and the Original Sub-Advisory Agreements. Accordingly, at an in-person meeting held on April 30, 2014 (the "*April Meeting*"), the Board, including all of the Independent Board Members, performed its annual review of the Original Advisory Agreements and approved the continuation of the Original Advisory Agreements for the Funds. Furthermore, in anticipation of the termination of the Original Advisory Agreements that would occur upon the consummation of the Transaction, the Board also approved for each Fund a new advisory agreement (each, a "*New Investment Management Agreement*") between the Fund and the Adviser and a new sub-advisory agreement (each, a "*New Sub-Advisory Agreement*" and, together with the New Investment Management Agreement, the "*New Advisory Agreements*") between the Adviser and the Sub-Adviser, each on behalf of the respective Fund to be effective following the completion of the Transaction and the receipt of the requisite shareholder approval.

As part of a broad initiative of Nuveen to rationalize its fund offerings and eliminate overlapping funds, the Board also approved and recommended that (i) shareholders of NASDAQ Premium Income & Growth Fund, Inc. (the "*NASDAQ Fund*") approve the reorganization of the NASDAQ Fund into Nuveen NASDAQ 100 Dynamic Overwrite Fund, a newly formed Massachusetts business trust to be sub-advised by the Sub-Adviser, and (ii) shareholders of Dow 30<sup>SM</sup> Premium & Dividend Income Fund Inc. (the "*Dow 30 Premium & Dividend Income Fund*") and Dow 30<sup>SM</sup> Enhanced Premium & Income Fund Inc. (the "*Dow 30 Enhanced Premium & Income Fund*") approve the reorganization of the respective Fund into Nuveen Dow 30<sup>SM</sup> Dynamic Overwrite Fund, a newly formed Massachusetts business trust to be sub-advised by the Sub-Adviser (each, a "*Reorganization*" and collectively, the "*Reorganizations*"). As shareholder approval is required for the consummation of the Reorganizations, the Board's review and approval described above included the Original Advisory Agreements and the New Advisory Agreements of each Fund so as to avoid any disruption in advisory services pending shareholder approval of the Reorganizations or if shareholder approval was not obtained for the Reorganizations.

Leading up to the April Meeting, the Independent Board Members had several meetings and deliberations, with and without management from Nuveen present and with the advice of legal counsel, regarding the Original Advisory Agreements, the Transaction and its impact and the New Advisory Agreements. At its

meeting held on February 25-27, 2014 (the "*February Meeting*"), the Board Members met with a senior executive representative of TIAA-CREF to discuss the proposed Transaction. At the February Meeting, the Independent Board Members also established an ad hoc committee comprised solely of the Independent

Nuveen Investments

53

---

**Annual Investment Management Agreement Approval Process** (Unaudited) (continued)

Board Members to monitor and evaluate the Transaction and to keep the Independent Board Members updated with developments regarding the Transaction. On March 20, 2014, the ad hoc committee met telephonically to discuss with management of Nuveen, and separately with independent legal counsel, the terms of the proposed Transaction and its impact on, among other things: the governance structure of Nuveen; the strategic plans for Nuveen; the operations of the Nuveen funds (which include the Funds); the quality or level of services provided to the Nuveen funds; key personnel that service the Nuveen funds and/or the Board and the compensation or incentive arrangements to retain such personnel; Nuveen's capital structure; the regulatory requirements applicable to Nuveen or fund operations; and the Nuveen funds' fees and expenses, including the funds' complex-wide fee arrangement. Following the meeting of the ad hoc committee, the Board met in person (two Independent Board Members participating telephonically) in an executive session on March 26, 2014 to further discuss the proposed Transaction. At the executive session, the Board met privately with independent legal counsel to review its duties with respect to reviewing advisory agreements, particularly in the context of a change of control, and to evaluate further the Transaction and its impact on the Nuveen funds, the Adviser and the Sub-Adviser (collectively, the "*Fund Advisers*" and each, a "*Fund Adviser*") and the services provided. Representatives of Nuveen also met with the Board to update the Board Members on developments regarding the Transaction, to respond to questions and to discuss, among other things: the governance of the Fund Advisers following the Transaction; the background, culture (including with respect to regulatory and compliance matters) and resources of TIAA-CREF; the general plans and intentions of TIAA-CREF for Nuveen; the terms and conditions of the Transaction (including financing terms); any benefits or detriments the Transaction may impose on the Nuveen funds, TIAA-CREF or the Fund Advisers; the reaction from the Fund Advisers' employees knowledgeable of the Transaction; the incentive and retention plans for key personnel of the Fund Advisers; the potential access to additional distribution platforms and economies of scale; and the impact of any additional regulatory schemes that may be applicable to the Nuveen funds given the banking and insurance businesses operated in the TIAA-CREF enterprise. As part of its review, the Board also held a separate meeting on April 15-16, 2014 to review the Nuveen funds' investment performance and consider an analysis provided by the Adviser of each sub-adviser of the Nuveen funds (including the Sub-Adviser) and the Transaction and its implications to the Nuveen funds. During their review of the materials and discussions, the Independent Board Members presented the Adviser with questions and the Adviser responded. Further, the Independent Board Members met in an executive session with independent legal counsel on April 29, 2014 and April 30, 2014.

In connection with their review of the Original Advisory Agreements and the New Advisory Agreements, the Independent Board Members received extensive information regarding the Funds and the Fund Advisers including, among other things: the nature, extent and quality of services provided by each Fund Adviser; the organization and operations of any Fund Adviser; the expertise and background of relevant personnel of each Fund Adviser; a review of each Fund's performance (including performance comparisons against the performance of peer groups and appropriate benchmarks); a comparison of Fund fees and expenses relative to peers; a description and assessment of shareholder service levels for the Funds; a summary of the performance of certain service providers; a review of fund initiatives and shareholder communications; and an analysis of the Adviser's profitability with comparisons to peers in the managed fund business. In light of the proposed Transaction, the Independent Board Members, through their independent legal counsel, also requested in writing and received additional information regarding the proposed Transaction and its impact on the provision of services by the Fund Advisers.

The Independent Board Members received, well in advance of the April Meeting, materials which responded to the request for information regarding the Transaction and its impact on Nuveen and the Nuveen funds including, among other things: the structure and terms of the Transaction; the impact of the

Transaction on Nuveen, its operations and the nature, quality and level of services provided to the Nuveen funds, including, in particular, any changes to those services that the Nuveen funds may experience following the Transaction; the strategic plan for Nuveen, including any financing arrangements following the Transaction and any cost-cutting efforts that may impact services; the organizational structure of TIAA-CREF, including the governance structure of

Nuveen Investments

54

---

Nuveen following the Transaction; any anticipated effect on each Nuveen fund's expense ratios (including changes to advisory and sub-advisory fees) and economies of scale that may be expected; any benefits or conflicts of interest that TIAA-CREF, Nuveen or their affiliates can expect from the Transaction; any benefits or undue burdens or other negative implications that may be imposed on the Nuveen funds as a result of the Transaction; the impact on Nuveen or the Nuveen funds as a result of being subject to additional regulatory schemes that TIAA-CREF must comply with in operating its various businesses; and the costs associated with obtaining necessary shareholder approvals and the bearer of such costs. The Independent Board Members also received a memorandum describing the applicable laws, regulations and duties in approving advisory contracts, including in conjunction with a change of control, from their independent legal counsel.

The materials and information prepared in connection with the review of the Original Advisory Agreements and New Advisory Agreements supplemented the information and analysis provided to the Board during the year. In this regard, throughout the year, the Board, acting directly or through its committees, regularly reviewed the performance and various services provided by the Adviser and Sub-Adviser. The Board met at least quarterly as well as at other times as the need arose. At its quarterly meetings, the Board reviewed reports by the Adviser regarding, among other things, fund performance, fund expenses, premium and discount levels of closed-end funds, the performance of the investment teams and compliance, regulatory and risk management matters. In addition to regular reports, the Adviser provided special reports to the Board or a committee thereof from time to time to enhance the Board's understanding of various topics that impact some or all the Nuveen funds (such as distribution channels, oversight of omnibus accounts and leverage management topics), to update the Board on regulatory developments impacting the investment company industry or to update the Board on the business plans or other matters impacting the Adviser. The Board also met with key investment personnel managing certain Nuveen fund portfolios during the year.

In addition, the Board has created several standing committees (the Executive Committee; the Dividend Committee; the Audit Committee; the Compliance, Risk Management and Regulatory Oversight Committee; the Nominating and Governance Committee; the Open-End Funds Committee; and the Closed-End Funds Committee). The Open-End Funds Committee and Closed-End Funds Committee are intended to assist the full Board in monitoring and gaining a deeper insight into the distinctive business practices of closed-end and open-end funds. These two Committees have met prior to each quarterly Board meeting, and the Adviser provided presentations to these Committees permitting them to delve further into specific matters or initiatives impacting the respective product line.

Further, the Board continued its program of seeking to have the Board Members or a subset thereof visit each sub-adviser to the Nuveen funds and meet key investment and business personnel at least once over a multiple year rotation. In this regard, the Independent Board Members made site visits to certain equity and fixed income teams of the Sub-Adviser in September 2013 and met with the Sub-Adviser's municipal team at the August and November 2013 quarterly meetings.

The Board considered the information provided and knowledge gained at these meetings and visits during the year when performing its annual review of the Original Advisory Agreements and its review of the New Advisory Agreements. The Independent Board Members also were assisted throughout the process by independent legal counsel. During the course of the year and during their deliberations regarding the review of advisory contracts, the Independent Board Members met with independent legal counsel in executive sessions without management present. In addition, it is important to recognize that the management arrangements for the funds are the result of many years of review and discussion between the Independent Board Members and Nuveen fund management and that the Board Members' conclusions may be based, in part, on their consideration of fee arrangements and other factors developed in previous years.

The Board considered all factors it believed relevant with respect to each Fund, including, among other things: (a) the nature, extent and quality of the services provided by the Fund Advisers, (b) the investment performance of the Fund and the Fund

Nuveen Investments

55

---

## **Annual Investment Management Agreement Approval Process (Unaudited) (continued)**

Advisers, (c) the advisory fees and costs of the services to be provided to the Fund and the profitability of the Fund Advisers, (d) the extent of any economies of scale, (e) any benefits derived by the Fund Advisers from the relationship with the Fund and (f) other factors. With respect to the New Advisory Agreements, the Board also considered the Transaction and its impact on the foregoing factors. Each Board Member may have accorded different weight to the various factors in reaching his or her conclusions with respect to a Fund's Original Advisory Agreements and New Advisory Agreements. The Independent Board Members did not identify any single factor as all-important or controlling. The Independent Board Members' considerations were instead based on a comprehensive consideration of all the information presented. The principal factors considered by the Board and its conclusions are described below.

### **A. Nature, Extent and Quality of Services**

#### **1. The Original Advisory Agreements**

In considering renewal of each Original Advisory Agreement, the Independent Board Members considered the nature, extent and quality of the respective Fund Adviser's services, including portfolio management services (and the resulting Fund performance) and administrative services. The Independent Board Members further considered the overall reputation and capabilities of the Adviser and its affiliates, the commitment of the Adviser to provide high quality service to the Funds, their overall confidence in the capability and integrity of the Adviser and its staff and the Adviser's responsiveness to questions and concerns raised by them. The Independent Board Members reviewed materials outlining, among other things: each Fund Adviser's organization and business; the types of services that each Fund Adviser or its affiliates provide to each Fund; the performance record of each Fund (as described in further detail below); and any initiatives Nuveen had taken for the closed-end fund product line.

In considering the services provided by the Fund Advisers, the Board recognized that the Adviser provides a myriad of investment management, administrative, compliance, oversight and other services for the Funds, and the Sub-Adviser generally provides the portfolio advisory services to the Funds under the oversight of the Adviser. The Board considered the wide range of services provided by the Adviser to the Nuveen funds beginning with developing the fund and monitoring and analyzing its performance to providing or overseeing the services necessary to support a fund's daily operations. The Board recognized the Adviser, among other things, provides: (a) product management (such as analyzing ways to better position a fund in the marketplace, maintaining relationships to gain access to distribution platforms and setting dividends); (b) fund administration (such as preparing a fund's tax returns, regulatory filings and shareholder communications; managing fund budgets and expenses; overseeing a fund's various service providers; and supporting and analyzing new and existing funds); (c) Board administration (such as supporting the Board and its committees, in relevant part, by organizing and administering the Board and committee meetings and preparing the necessary reports to assist the Board in its duties); (d) compliance (such as monitoring adherence to a fund's investment policies and procedures and applicable law; reviewing the compliance program periodically and developing new policies or updating existing compliance policies and procedures as considered necessary or appropriate; responding to regulatory requests; and overseeing compliance testing of sub-advisers); (e) legal support (such as preparing or reviewing fund registration statements, proxy statements and other necessary materials; interpreting regulatory requirements and compliance thereof; and maintaining applicable registrations); and (f) investment services (such as overseeing and reviewing sub-advisers and their investment teams; analyzing performance of the funds; overseeing investment and risk management; overseeing the daily valuation process for portfolio securities and developing and recommending valuation policies and methodologies and changes thereto; and participating in fund development, leverage management and the development of

investment policies and parameters). With respect to closed-end funds, the Adviser also monitors asset coverage levels on leveraged funds, manages leverage, negotiates the terms of leverage, evaluates alternative forms and types of

Nuveen Investments

56

---

leverage, promotes an orderly secondary market for common shares and maintains an asset maintenance system for compliance with certain rating agency criteria.

In its review, the Board also considered the new services, initiatives or other changes adopted since the last advisory contract review that were designed to enhance the services and support the Adviser provides to the Nuveen funds. The Board recognized that some initiatives are a multi-year process. In reviewing the activities of 2013, the Board recognized that the year reflected the Adviser's continued focus on fund rationalization for both closed-end and open-end funds, consolidating certain funds through mergers that were designed to improve efficiencies and economies of scale for shareholders, repositioning various funds through updates in their investment policies and guidelines with the expectation of bringing greater value to shareholders, and liquidating certain funds. As in the past, the Board recognized the Adviser's significant investment in its technology initiatives, including the continued progress toward a central repository for fund and other Nuveen product data and implementing a data system to support the risk oversight group enabling it to provide more detailed risk analysis for the Nuveen funds. The Board noted the new data system has permitted more in-depth analysis of the investment risks of the Funds and across the complex providing additional feedback and insights to the investment teams and more comprehensive risk reporting to the Board. The Adviser also conducted several workshops for the Board regarding the new data system, including explaining the risk measures being applied and their purpose. The Board also recognized the enhancements in the valuation group within the Adviser, including centralizing the fund pricing process within the valuation group, trending to more automated and expedient reviews and continuing to expand its valuation team. The Board further considered the expansion of personnel in the compliance department enhancing the collective expertise of the group, investments in additional compliance systems and the updates of various compliance policies.

In addition to the foregoing actions, the Board also considered other initiatives related to the closed-end funds, including the continued investment of considerable resources and personnel dedicated to managing and overseeing the various forms of leverage utilized by certain funds. The Board recognized the results of these efforts included the development of less expensive forms of leverage, expansion of leverage providers, the negotiation of more favorable terms for existing leverage, the enhanced ability to respond to market and regulatory developments and the enhancements to technology systems to manage and track the various forms of leverage. The Board also noted Nuveen's continued capital management services, including executing share repurchase programs, its implementation of data systems that permit more targeted solicitation strategies for fund mergers and more targeted marketing and promotional efforts and its continued focus and efforts to address the discounts of various funds. The Board further noted Nuveen's continued commitment to supporting the secondary market for the common shares of its closed-end funds through a comprehensive communication program designed to further educate the investor and analyst about closed-end funds. Nuveen's support services included, among other things, maintaining and enhancing a closed-end fund website, creating marketing campaigns and educational materials, communicating with financial advisers, sponsoring and participating in conferences, providing educational seminars and programs and evaluating the results of these marketing efforts.

As noted, the Adviser also oversees the Sub-Adviser who provides the portfolio advisory services to the Funds. In reviewing the portfolio advisory services provided to each Fund, the Nuveen Investment Services Oversight Team of the Adviser analyzes the performance of the Sub-Adviser and may recommend changes to the investment team or investment strategies as appropriate. In assisting the Board's review of the Sub-Adviser, the Adviser provides a report analyzing, among other things, the Sub-Adviser's investment team and changes thereto, organization and history, assets under management, the investment team's philosophy and strategies in managing each Fund, developments affecting the Sub-Adviser or the Funds and their performance. In their review of the Sub-Adviser, the Independent Board Members considered, among other things, the experience and qualifications of the relevant investment personnel, their

investment philosophy and strategies, the Sub-Adviser's organization

Nuveen Investments  
57

---

## **Annual Investment Management Agreement Approval Process (Unaudited) (continued)**

and stability, its capabilities and any initiatives taken or planned to enhance its current capabilities or support potential growth of business and, as outlined in further detail below, the performance of the Funds. The Independent Board Members also reviewed portfolio manager compensation arrangements to evaluate each Fund Adviser's ability to attract and retain high quality investment personnel, preserve stability, and reward performance while not providing an inappropriate incentive to take undue risks.

Given the importance of compliance, the Independent Board Members also considered Nuveen's compliance program, including the report of the chief compliance officer regarding the Nuveen funds' compliance policies and procedures; the resources dedicated to compliance; the record of compliance with the policies and procedures; and Nuveen's supervision of the Funds' service providers. The Board recognized Nuveen's commitment to compliance and strong commitment to a culture of compliance. Given the Adviser's emphasis on monitoring investment risk, the Board has also appointed two Independent Board Members as point persons to review and keep the Board apprised of developments in this area and work with applicable Fund Adviser personnel.

Based on their review, the Independent Board Members found that, overall, the nature, extent and quality of services provided to each Fund under the respective Original Advisory Agreement were satisfactory.

## **2. The New Advisory Agreements**

In evaluating the nature, quality and extent of the services expected to be provided by the Fund Advisers under the New Investment Management Agreements and the New Sub-Advisory Agreements, the Board Members concluded that no diminution in the nature, quality and extent of services provided to each Fund and its shareholders by the respective Fund Advisers is expected as a result of the Transaction. In making their determination, the Independent Board Members considered, among other things: the expected impact, if any, of the Transaction on the operations, facilities, organization and personnel of each Fund Adviser; the ability of each Fund Adviser to perform its duties after the Transaction, including any changes to the level or quality of services provided to the Funds; the potential implications of any additional regulatory requirements imposed on the Fund Advisers or the Nuveen funds following the Transaction; and any anticipated changes to the investment and other practices of the Nuveen funds.

The Board noted that the terms of each New Investment Management Agreement, including the fees payable thereunder, are substantially identical to those of the Original Investment Management Agreement relating to the same Fund. Similarly, the terms of each New Sub-Advisory Agreement, including fees payable thereunder, are substantially identical to those of the Original Sub-Advisory Agreement relating to the same Fund. The Board considered that the services to be provided and the standard of care under the New Investment Management Agreements and the New Sub-Advisory Agreements are the same as the corresponding original agreements. The Board Members noted the Transaction also does not alter the allocation of responsibilities between the Adviser and the Sub-Adviser. The Sub-Adviser will continue to furnish an investment program, make investment decisions and place all orders for the purchase and sale of securities, all on behalf of each Fund and subject to oversight of the Board and the Adviser. The Board noted that TIAA-CREF did not anticipate any material changes to the advisory, sub-advisory or other services provided to the Nuveen funds as a result of the Transaction. The Independent Board Members recognized that there were not any planned "cost cutting" measures that could be expected to reduce the nature, extent or quality of services. The Independent Board Members further noted that there were currently no plans for material changes to senior personnel at Nuveen or key personnel who provide services to the Nuveen funds and the Board following the Transaction. The key personnel who have responsibility for the Nuveen funds in each area, including portfolio management, investment oversight,

fund management, fund operations, product management, legal/compliance and board support functions, are expected to be the same following the Transaction, although such personnel may have additional reporting requirements to TIAA-CREF. The Board also considered the anticipated incentive plans designed to retain such key personnel. Notwithstanding the foregoing, the Board

Nuveen Investments  
58

---

Members recognized that personnel changes may occur in the future as a result of normal business developments or personal career decisions.

The Board Members also considered Nuveen's proposed governance structure following the Transaction and noted that Nuveen was expected to remain a stand-alone business within the TIAA-CREF enterprise and operate relatively autonomously from the other TIAA-CREF businesses, but would receive the general support and oversight from certain TIAA-CREF functional groups (such as legal, finance, internal audit, compliance, and risk management groups). The Board recognized, however, that Nuveen may be subject to additional reporting requirements as it keeps TIAA-CREF abreast of developments affecting the Nuveen business, may be required to modify certain of its reports, policies and procedures as necessary to conform to the practices followed in the TIAA-CREF enterprise and may need to collaborate with TIAA-CREF with respect to strategic planning for its business.

In considering the implications of the Transaction, the Board Members also recognized the reputation and size of TIAA-CREF and the benefits that the Transaction may bring to the Nuveen funds and Nuveen. In this regard, the Board recognized, among other things, that the increased resources and support that may be available to Nuveen from TIAA-CREF and the improved capital structure of Nuveen Investments, Inc. (the parent of the Adviser) that would result from the significant reduction in its debt level may reinforce and enhance Nuveen's ability to provide quality services to the Nuveen funds and to invest further into its infrastructure.

Further, with the consummation of the Transaction, the Board recognized the enhanced distribution capabilities for the Nuveen funds as the funds may gain access to TIAA-CREF's distribution network, particularly through TIAA-CREF's retirement platform and institutional client base. The Board also considered that investors in TIAA-CREF's retirement platform may choose to roll their investments as they exit their retirement plans into the Nuveen funds. The Independent Board Members recognized the potential cost savings to the benefit of all shareholders of the Nuveen funds from reduced expenses as assets in the Nuveen fund complex rise pursuant to the complex-wide fee arrangement described in further detail below.

Based on their review, the Independent Board Members found that the expected nature, extent and quality of services to be provided to each Fund under its New Advisory Agreements were satisfactory and supported approval of the New Advisory Agreements.

## **B. The Investment Performance of the Funds and Fund Advisers**

### **1. The Original Advisory Agreements**

The Board, including the Independent Board Members, considered the performance history of each Fund over various time periods. The Board reviewed reports, including an analysis of each Fund's performance and the applicable investment team. In considering each Fund's performance, the Board recognized that a fund's performance can be reviewed through various measures including the fund's absolute return, the fund's return compared to the performance of other peer funds and the fund's performance compared to its respective benchmark. Accordingly, the Board reviewed, among other things, each Fund's historic investment performance as well as information comparing the Fund's performance information with that of other funds (the "*Performance Peer Group*") and with recognized and/or customized benchmarks (*i.e.*, generally benchmarks derived from multiple recognized benchmarks) for the quarter, one-, three- and five-year periods ending December 31, 2013, as well as performance information reflecting the first quarter of 2014. With respect to closed-end funds, the Independent Board Members also reviewed historic premium and discount levels, including a summary of actions taken to address or discuss other

developments affecting the secondary market discounts of various funds. This information supplemented the Nuveen fund performance information provided to the Board at each of its quarterly meetings.

Nuveen Investments

59

---

### **Annual Investment Management Agreement Approval Process** (Unaudited) (continued)

In evaluating performance, the Board recognized several factors that may impact the performance data as well as the consideration given to particular performance data.

- The performance data reflects a snapshot in time, in this case as of the end of the most recent calendar year or quarter. A different performance period, however, could generate significantly different results.
- Long-term performance can be adversely affected by even one period of significant underperformance so that a single investment decision or theme has the ability to disproportionately affect long-term performance.
- The investment experience of a particular shareholder in a fund will vary depending on when such shareholder invests in such fund, the class held (if multiple classes offered in the fund) and the performance of the fund (or respective class) during that shareholder's investment period.
- The usefulness of comparative performance data as a frame of reference to measure a fund's performance may be limited because the Performance Peer Group, among other things, does not adequately reflect the objectives and strategies of the fund, has a different investable universe, or the composition of the peer set may be limited in size or number as well as other factors. In this regard, the Board noted that the Adviser classified the Performance Peer Groups of the Nuveen funds from highly relevant to less relevant. For funds classified with less relevant Performance Peer Groups, the Board considered the fund's performance compared to its benchmark to help assess the fund's comparative performance. A fund was generally considered to have performed comparably to its benchmark if the fund's performance was within certain thresholds compared to the performance of its benchmark and was considered to have outperformed or underperformed its benchmark if the fund's performance was beyond these thresholds for the one- and three-year periods, subject to certain exceptions.<sup>1</sup> While the Board is cognizant of the relative performance of a fund's peer set and/or benchmark(s), the Board evaluated fund performance in light of the respective fund's investment objectives, investment parameters and guidelines and considered that the variations between the objectives and investment parameters or guidelines of the fund with its peers and/or benchmarks result in differences in performance results. Further, for funds that utilize leverage, the Board understands that leverage during different periods can provide both benefits and risks to a portfolio as compared to an unlevered benchmark.

With respect to any Nuveen funds for which the Board has identified performance concerns, the Board monitors such funds closely until performance improves, discusses with the Adviser the reasons for such results, considers those steps necessary or appropriate to address such issues and reviews the results of any efforts undertaken. The Board is aware, however, that shareholders chose to invest or remain invested in a fund knowing that the Adviser manages the fund and knowing the fund's fee structure.

In considering the performance data, the Independent Board Members noted that the Funds had demonstrated generally favorable performance in comparison to peers. In this regard, the Board noted that the NASDAQ Fund and the Dow 30 Enhanced Premium & Income Fund each had performed in the first quartile over the one-, three- and five-year periods and the Dow 30 Premium & Dividend Income Fund had performed in the first quartile over the one- and three-year periods and in the second quartile over the five-year period. Notwithstanding the foregoing, the Board approved and recommended to the respective shareholders each Reorganization to, among other things, eliminate product overlap and create a single, highly scaled offering better aligned with investor needs and preferences.

Based on their review, the Independent Board Members determined that each Fund's investment performance had been satisfactory.

i The Board recognized that the Adviser considered a fund to have outperformed or underperformed its benchmark if the fund's performance was higher or lower than the performance of the benchmark by the following thresholds: for open-end funds (+/- 100 basis points for equity funds excluding index funds; +/- 30 basis points for tax exempt fixed income funds; +/- 40 basis points for taxable fixed income funds) and for closed-end funds (assuming 30% leverage) (+/- 130 basis points for equity funds excluding index funds; +/- 39 basis points for tax exempt funds and +/- 52 basis points for taxable fixed income funds).

Nuveen Investments

60

---

## **2. The New Advisory Agreements**

With respect to the performance of each Fund, the Board considered that the portfolio investment personnel responsible for the management of the respective Fund portfolios were expected to continue to manage such portfolios following the completion of the Transaction and the investment strategies of the Funds were not expected to change as a result of the Transaction (subject to changes unrelated to the Transaction that are approved by the Board and/or shareholders, such as in connection with the Reorganizations). Accordingly, the findings regarding performance outlined above for the Original Advisory Agreements are applicable to the review of the New Advisory Agreements.

## **C. Fees, Expenses and Profitability**

### **1. Fees and Expenses**

The Board evaluated the management fees and expenses of each Fund, reviewing, among other things, such Fund's gross management fees, net management fees and net expense ratios in absolute terms as well as compared to the fees and expenses of a comparable universe of funds provided by an independent fund data provider (the "*Peer Universe*") and any expense limitations.

The Independent Board Members further reviewed the methodology regarding the construction of the applicable Peer Universe. In reviewing the comparisons of fee and expense information, the Independent Board Members took into account that in certain instances various factors such as the limited size and particular composition of the Peer Universe (including the inclusion of other Nuveen funds in the peer set); expense anomalies; changes in the funds comprising the Peer Universe from year to year; levels of reimbursement or fee waivers; the timing of information used; and the differences in the type and use of leverage may impact the comparative data thereby limiting somewhat the ability to make a meaningful comparison with peers.

In reviewing the fee schedule for a fund, the Independent Board Members also considered the fund-level and complex-wide breakpoint schedules (described in further detail below) and any fee waivers and reimbursements provided by Nuveen. In reviewing fees and expenses (excluding leverage costs and leveraged assets for the closed-end funds), the Board considered the expenses and fees to be higher if they were over 10 basis points higher, slightly higher if they were approximately 6 to 10 basis points higher, in line if they were within approximately 5 basis points higher than the peer average and below if they were below the peer average of the Peer Universe. In reviewing the reports, the Board noted that the majority of the Nuveen funds were at, close to or below their peer average based on the net total expense ratio. The Independent Board Members observed that the Funds had net management fees and net expense ratios (including fee waivers and expense reimbursements) below their respective peer averages.

Based on their review of the fee and expense information provided, the Independent Board Members determined that each Fund's management fees (as applicable) to a Fund Adviser were reasonable in light of the nature, extent and quality of services provided to the Fund.

### **2. Comparisons with the Fees of Other Clients**

The Board recognized that all Nuveen funds have a sub-adviser, either affiliated or non-affiliated, and therefore the overall fund management fee can be divided into two components, the fee retained by the Adviser and the fee paid to the sub-adviser. In general terms, the fee to the Adviser reflects the administrative and other services it provides to support the Nuveen fund (as described above) and, while some administrative services may occur at the sub-adviser level, the fee to the sub-adviser generally

reflects the portfolio management services provided by the sub-adviser. The Independent Board Members considered the fees a Fund Adviser assesses to the Funds compared to that of other clients. With respect to non-municipal funds, such other clients of a Fund Adviser may include: separately managed accounts (both retail and institutional accounts), foreign investment

Nuveen Investments  
61

---

### **Annual Investment Management Agreement Approval Process (Unaudited) (continued)**

funds offered by Nuveen, collective trust funds, and funds that are not offered by Nuveen but are sub-advised by one of Nuveen's investment management teams.

The Independent Board Members reviewed the nature of services provided by the Adviser, including through its affiliated sub-advisers and the average fee the affiliated sub-advisers assessed such clients as well as the range of fees assessed to the different types of separately managed accounts (such as retail, institutional or wrap accounts) to the extent applicable to the respective sub-adviser. In their review, the Independent Board Members considered the differences in the product types, including, but not limited to: the services provided, the structure and operations, product distribution and costs thereof, portfolio investment policies, investor profiles, account sizes and regulatory requirements. In evaluating the comparisons of fees, the Independent Board Members noted that the fee rates charged to the Nuveen funds and other clients vary, among other things, because of the different services involved and the additional regulatory and compliance requirements associated with registered investment companies, such as the Funds. The Independent Board Members noted that, as a general matter, higher fee levels reflect higher levels of service, increased investment management complexity, greater product management requirements and higher levels of risk or a combination of the foregoing. The Independent Board Members further noted, in particular, that the range of services provided to the Funds (as discussed above) is generally much more extensive than that provided to separately managed accounts. Many of the additional administrative services provided by the Adviser are not required for institutional clients. The Independent Board Members also recognized that the management fee rates of the foreign funds advised by the Adviser may vary due to, among other things, differences in the client base, governing bodies, operational complexities and services covered by the management fee. Given the inherent differences in the various products, particularly the extensive services provided to the Funds, the Independent Board Members believe such facts justify the different levels of fees.

### **3. Profitability of Fund Advisers**

In conjunction with their review of fees, the Independent Board Members also considered the profitability of Nuveen for its advisory activities and its financial condition. The Independent Board Members reviewed the revenues and expenses of Nuveen's advisory activities for the last two calendar years, the allocation methodology used in preparing the profitability data, an analysis of the key drivers behind the changes in revenues and expenses that impacted profitability in 2013 and Nuveen's consolidated financial statements for 2013. The Independent Board Members noted this information supplemented the profitability information requested and received during the year to help keep them apprised of developments affecting profitability (such as changes in fee waivers and expense reimbursement commitments). In this regard, the Independent Board Members noted that two Independent Board Members served as point persons to review the profitability analysis and methodologies employed, and any changes thereto, and to keep the Board apprised of such changes. The Independent Board Members also considered Nuveen's revenues for advisory activities, expenses and profit margin compared to that of various unaffiliated management firms.

In reviewing profitability, the Independent Board Members noted the Adviser's continued investment in its business with expenditures to, among other things, upgrade its investment technology and compliance systems and provide for additional personnel and other resources. The Independent Board Members recognized the Adviser's continued commitment to its business should enhance the Adviser's capacity and capabilities in providing the services necessary to meet the needs of the Nuveen funds as they grow or change over time. In addition, in evaluating profitability, the Independent Board Members also noted the subjective nature of determining profitability which may be affected by numerous factors including the allocation of expenses and that various allocation methodologies may each be reasonable but yield

different results. Further, the Independent Board Members recognized the difficulties in making comparisons as the profitability of other advisers generally is not publicly available, and the profitability information that is available for certain advisers or management firms may not be representative of the industry and may be affected by, among other things, an adviser's particular business mix, capital costs, size,

Nuveen Investments

62

---

types of funds managed and expense allocations. Notwithstanding the foregoing, the Independent Board Members noted the Adviser's adjusted operating margin appears to be reasonable in relation to other investment advisers and sufficient to operate as a viable investment management firm meeting its obligations to the Nuveen funds. Based on their review, the Independent Board Members concluded that the Adviser's level of profitability for its advisory activities was reasonable in light of the services provided.

With respect to sub-advisers affiliated with Nuveen, including the Sub-Adviser, the Independent Board Members reviewed such sub-advisers' revenues, expenses and profitability margins (pre- and post-tax) for their advisory activities and the methodology used for allocating expenses among the internal sub-advisers. Based on their review, the Independent Board Members were satisfied that the Sub-Adviser's level of profitability was reasonable in light of the services provided.

In evaluating the reasonableness of the compensation, the Independent Board Members also considered other amounts paid to a Fund Adviser by the funds as well as indirect benefits (such as soft dollar arrangements), if any, the Fund Adviser and its affiliates receive or are expected to receive that are directly attributable to the management of a Nuveen fund. See Section E below for additional information on indirect benefits the Fund Advisers may receive as a result of its relationship with a Nuveen fund. Based on their review of the overall fee arrangements of each Fund, the Independent Board Members determined that the advisory fees and expenses of the Funds were reasonable.

#### **4. The New Advisory Agreements**

As noted above, the terms of the New Advisory Agreements are substantially identical to their corresponding Original Advisory Agreements. The fee schedule, including the breakpoint schedule and complex-wide fee schedule, in each New Advisory Agreement is identical to that under the corresponding Original Advisory Agreement. The Board Members also noted that Nuveen has committed for a period of two years from the date of closing the Transaction not to increase contractual management fee rates for any Nuveen fund. This commitment shall not limit or otherwise affect mergers or liquidations of any funds in the ordinary course. Based on the information provided, the Board Members did not believe that the overall expenses would increase as a result of the Transaction. In addition, the Board Members recognized that the Nuveen funds may gain access to the retirement platform and institutional client base of TIAA-CREF, and the investors in the retirement platforms may roll their investments into one or more Nuveen funds as they exit their retirement plans. The enhanced distribution access may result in additional sales of the Nuveen funds resulting in an increase in total assets under management in the complex and a corresponding decrease in overall management fees if additional breakpoints at the fund-level or complex-wide level are met. Based on its review, the Board determined that the management fees and expenses under each New Advisory Agreement were reasonable.

Further, other than from a potential reduction in the debt level of Nuveen Investments, Inc., the Board recognized that it is difficult to predict with any degree of certainty the impact of the Transaction on Nuveen's profitability. Given the fee schedule was not expected to change under the New Advisory Agreements, however, the Independent Board Members concluded that each Fund Adviser's level of profitability for its advisory activities under the respective New Advisory Agreements would continue to be reasonable in light of the services provided.

#### **D. Economies of Scale and Whether Fee Levels Reflect These Economies of Scale**

##### **1. The Original Advisory Agreements**

With respect to economies of scale, the Independent Board Members have recognized the potential benefits resulting from the costs of a fund being spread over a larger asset base, although economies of scale are difficult to measure and predict with precision, particularly on a fund-by-fund basis. One method to help ensure the shareholders share in these benefits is to include

Nuveen Investments  
63

---

## **Annual Investment Management Agreement Approval Process (Unaudited) (continued)**

breakpoints in the advisory fee schedule. Generally, management fees for funds in the Nuveen complex are comprised of a fund-level component and a complex-level component, subject to certain exceptions. Accordingly, the Independent Board Members reviewed and considered the applicable fund-level breakpoints in the advisory fee schedules that reduce advisory fees as asset levels increase. Further, the Independent Board Members noted that, although closed-end funds may from time-to-time make additional share offerings, the growth of their assets would occur primarily through the appreciation of such funds' investment portfolios.

In addition to fund-level advisory fee breakpoints, the Board also considered the Nuveen funds' complex-wide fee arrangement. Pursuant to the complex-wide fee arrangement, the fees of the funds in the Nuveen complex are reduced as the assets in the fund complex reach certain levels. The complex-wide fee arrangement seeks to provide the benefits of economies of scale to fund shareholders when total fund complex assets increase, even if assets of a particular fund are unchanged or have decreased. The approach reflects the notion that some of Nuveen's costs are attributable to services provided to all its funds in the complex and therefore all funds benefit if these costs are spread over a larger asset base.

Based on their review, the Independent Board Members concluded that the breakpoint schedules and complex-wide fee arrangement (as applicable) were acceptable and reflect economies of scale to be shared with shareholders when assets under management increase.

### **2. The New Advisory Agreements**

As noted, the Independent Board Members recognized that the fund-level and complex-wide schedules will not change under the New Advisory Agreements. Assets in the funds advised by TIAA-CREF or its current affiliates will not be included in the complex-wide fee calculation. Nevertheless, the Nuveen funds may have access to TIAA-CREF's retirement platform and institutional client base. The access to this distribution network may enhance the distribution of the Nuveen funds which, in turn, may lead to reductions in management and sub-advisory fees if the Nuveen funds reach additional fund-level and complex-wide breakpoint levels. Based on their review, including the considerations in the annual review of the Original Advisory Agreements, the Independent Board Members determined that the fund-level breakpoint schedules and complex-wide fee schedule continue to be appropriate and desirable in ensuring that shareholders participate in the benefits derived from economies of scale under the New Advisory Agreements.

### **E. Indirect Benefits**

#### **1. The Original Advisory Agreements**

In evaluating fees, the Independent Board Members received and considered information regarding potential "fall out" or ancillary benefits the respective Fund Adviser or its affiliates may receive as a result of its relationship with each Fund. In this regard, with respect to closed-end funds, the Independent Board Members considered any revenues received by affiliates of the Adviser for serving as co-manager in initial public offerings of new closed-end funds as well as revenues received in connection with secondary offerings.

In addition to the above, the Independent Board Members considered whether the Fund Advisers received any benefits from soft dollar arrangements whereby a portion of the commissions paid by a fund for brokerage may be used to acquire research that may be useful to a Fund Adviser in managing the assets

of the fund and other clients. Each Fund's portfolio transactions are allocated by the Sub-Adviser. Accordingly, the Independent Board Members considered that the Sub-Adviser may benefit from its soft dollar arrangements pursuant to which it receives research from brokers that execute the applicable Fund's portfolio transactions. With respect to any fixed income securities, however, the Board recognized that such securities generally trade on a principal basis that does not generate soft dollar credits. Similarly, the Board recognized that the research received pursuant to soft dollar arrangements by the Sub-Adviser may also benefit the Funds and their shareholders to the extent the

Nuveen Investments

64

---

research enhances the ability of the Sub-Adviser to manage the Funds. The Independent Board Members noted that the Sub-Adviser's profitability may be somewhat lower if it did not receive the research services pursuant to the soft dollar arrangements and had to acquire such services directly.

Based on their review, the Independent Board Members concluded that any indirect benefits received by a Fund Adviser as a result of its relationship with the Funds were reasonable and within acceptable parameters.

## **2. The New Advisory Agreements**

The Independent Board Members noted that, as the applicable policies and operations of the Fund Advisers with respect to the Nuveen funds were not anticipated to change significantly after the Transaction, such indirect benefits should remain after the Transaction. The Independent Board Members further noted the benefits the Transaction would provide to TIAA-CREF and Nuveen, including a larger-scale fund complex, certain shared services (noted above) and a broader range of investment capabilities, distribution capabilities and product line. Further, the Independent Board Members noted that Nuveen Investments, Inc. (the parent of the Adviser) would benefit from an improved capital structure through a reduction in its debt level.

## **F. Other Considerations for the New Advisory Agreements**

In addition to the factors above, the Board Members also considered the following with respect to the Nuveen funds:

- Nuveen would rely on the provisions of Section 15(f) of the 1940 Act. In this regard, to help ensure that an unfair burden is not imposed on the Nuveen funds, Nuveen has committed for a period of two years from the date of the closing of the Transaction not to increase contractual management fee rates for any fund. This commitment shall not limit or otherwise affect mergers or liquidations of any funds in the ordinary course.
- The Nuveen funds would not incur any costs in seeking the necessary shareholder approvals for the New Investment Management Agreements or the New Sub-Advisory Agreements (except for any costs attributed to seeking shareholder approvals of fund specific matters unrelated to the Transaction, such as election of Board Members or changes to investment policies, in which case a portion of such costs will be borne by the applicable funds).
- The reputation, financial strength and resources of TIAA-CREF.
- The long-term investment philosophy of TIAA-CREF and anticipated plans to grow Nuveen's business to the benefit of the Nuveen funds.
- The benefits to the Nuveen funds as a result of the Transaction including: (i) increased resources and support available to Nuveen as well as an improved capital structure that may reinforce and enhance the quality and level of services it provides to the funds; (ii) potential additional distribution capabilities for the funds to access new markets and customer segments through TIAA-CREF's distribution network, including, in particular, its retirement platforms and institutional client base; and (iii) access to TIAA-CREF's expertise and investment capabilities in additional asset classes.

## **G. Other Considerations**

The Independent Board Members did not identify any single factor discussed previously as all-important or controlling. The Board Members, including the Independent Board Members, unanimously concluded that the terms of each Original Advisory Agreement and New Advisory Agreement are fair and reasonable, that the respective Fund Adviser's fees are reasonable in light of the services provided to each Fund and that the Original Advisory Agreements be renewed and the New Advisory Agreements be approved.

Nuveen Investments

65

---

**Annual Investment Management Agreement Approval Process** (Unaudited) (continued)

**II. Approval of Interim Advisory Agreements**

At the April Meeting, the Board Members, including the Independent Board Members, unanimously approved for each Fund an interim advisory agreement (the "*Interim Investment Management Agreement*") between the respective Fund and the Adviser and an interim sub-advisory agreement (the "*Interim Sub-Advisory Agreement*") between the Adviser and the Sub-Adviser. If necessary to assure continuity of advisory services, each respective Interim Investment Management Agreement and Interim Sub-Advisory Agreement will take effect upon the closing of the Transaction if shareholders have not yet approved the corresponding New Investment Management Agreement or New Sub-Advisory Agreement. The terms of each Interim Investment Management Agreement and Interim Sub-Advisory Agreement are substantially identical to those of the corresponding Original Investment Management Agreement and New Investment Management Agreement and the corresponding Original Sub-Advisory Agreement and New Sub-Advisory Agreement, respectively, except for certain term and fee escrow provisions. In light of the foregoing, the Board Members, including the Independent Board Members, unanimously determined that the scope and quality of services to be provided to the Funds under the respective Interim Investment Management Agreements and Interim Sub-Advisory Agreements are at least equivalent to the scope and quality of services provided under the applicable Original Investment Management Agreements and Original Sub-Advisory Agreements.
