Other Terms:

Reopening of Issue. The Company may, from time to time and without the consent of the noteholders, reopen an issue of notes and issue additional notes having the same terms and conditions (including maturity, interest payment terms and CUSIP number) as notes issued on an earlier date, except for the issue date, issue price and, if applicable, the first payment of interest. After such additional notes are issued, they will be fungible with the notes issued on such earlier date.

Optional Redemption. The Notes may be redeemed at any time at the option of AvalonBay, in whole or in part, upon notice of not more than 45 and not less than 15 days prior to the date fixed for redemption (each, a Redemption Date), at a Redemption Price equal to the sum of (i) the principal amount of the Notes being redeemed, plus accrued interest thereon to the Redemption Date and (ii) the Make-Whole Amount, if any, with respect to such Notes. If the Notes are redeemed on or after 90 days (in the case of the 2026 Notes) or 180 days (in the case of the 2046 Notes) prior to the applicable Stated Maturity Date (in each case, the Par Call Date), the Redemption Price will equal 100% of the principal amount of the applicable series of Notes being redeemed plus accrued interest thereon to the Redemption Date.

Acceleration of Maturity; Make-Whole Amount. If an Event of Default with respect to the Notes of any series that are then outstanding occurs and is continuing, and pursuant to Section 2.7 of the Amended and Restated Third Supplemental Indenture dated as of July 10, 2000 (the Third Supplemental Indenture), the Trustee or the Holders of not less than 25% in principal amount of the then outstanding Notes of the applicable series shall have declared the principal amount (or, if the Notes of the applicable series are Original Issue Discount Securities or Indexed Securities, such portion of the principal as may be specified in the terms hereof) of all the Notes of the applicable series to be due and payable immediately, by a notice in writing to AvalonBay (and to the Trustee if given by the Holders), then upon any such declaration such principal, or specified portion thereof, plus accrued interest to the date the Notes of the applicable series are paid, plus the Make-Whole Amount on the applicable series of Notes, shall become immediately due and payable. With respect to the Notes of the applicable series, if an Event of Default set forth in Section 501(6) of the Indenture, dated as of January 16, 1998, between AvalonBay and the Trustee (the Indenture) occurs and is continuing, such that pursuant to Section 2.7 of the Third Supplemental Indenture all the Notes of the applicable series are immediately due and payable, without notice to AvalonBay, at the principal amount thereof (or, if the Notes of the applicable series are Original Issue Discount

Securities or Indexed Securities, such portion of the principal as may be specified in the terms of the applicable series of Notes), plus accrued interest to the date the applicable series of Notes are paid, then the Make-Whole Amount on the applicable series of Notes shall also be immediately due and payable.

Definitions. Terms used but not defined herein shall have the meanings set forth in the Indenture and the Third Supplemental Indenture. The following terms shall have the following meanings:

Make-Whole Amount means, in connection with any optional redemption or accelerated payment of any Note, the excess, if any, of (i) the aggregate present value as of the date of such redemption or accelerated payment of each dollar of principal being redeemed or paid and the amount of interest (exclusive of interest accrued to the date of redemption or accelerated payment) that would have been payable in respect of such dollar to the applicable Par Call Date, determined by discounting, on a semi-annual basis, such principal and interest at the applicable Reinvestment Rate (determined on the third Business Day preceding the date such notice of Redemption is given or declaration of acceleration is made) from the respective dates on which such principal and interest would have been payable if such redemption or accelerated payment had been made on the applicable Par Call Date, over (ii) the aggregate principal amount of the Notes being redeemed or paid.

Edgar Filing: AVALONBAY COMMUNITIES INC - Form FWP

Reinvestment Rate means, in the case of the 2026 Notes, twenty (20) basis points and, in the case of the 2046 Notes, twenty-five (25) basis points, plus in each case the arithmetic mean of the yields under the respective headings This Week and Last Week published in the Statistical Release under the caption Treasury Constant Maturities for the maturity (rounded to the nearest month) corresponding to the remaining life to the applicable Par Call Date, as of the payment date of the principal being redeemed or paid. If no maturity exactly corresponds to such maturity, yields for the two published maturities most closely corresponding to such maturity shall be calculated pursuant to the immediately preceding sentence and the applicable Reinvestment Rate shall be interpolated or extrapolated from such yields on a straight-line basis, rounding in each of such relevant periods to the nearest month. For such purposes of calculating the applicable Reinvestment Rate, the most recent Statistical Release published prior to the date of determination of the Make-Whole Amount shall be used.

Statistical Release means the statistical release designated H.15(519) or any successor publication which is published weekly by the Federal Reserve System and which establishes yields on actively traded United States government securities adjusted to constant maturities or, if such statistical release is not published at the time of any determination of the Make-Whole Amount, then such other reasonably comparable index which shall be designated by AvalonBay.
