election in increments of 25% will be credited to a 10-year U. S. Treasury bond equivalent account. The directors are fully vested in their accounts. Accruals will be made to these accounts through the fifteenth anniversary of service on the Board of Directors. Upon termination from service as a director, the value of the Company Common Stock equivalent account will be determined using the final average market value of the Company's shares for the prior 180 calendar days, inclusive of appreciation for the effect of dividends. The value of the bond equivalent account will be the sum of the credits and interest to the date of termination. Benefits will then be paid to the retired director equally over the subsequent 180 months or the length of service, whichever is shorter. However, in the event of death, benefits will continue to be paid to the director's beneficiary for a maximum of ten (10) years, which includes any period of payment before death.

Additionally, a tax preparation and planning fee of \$5,000 is included for Mr. Corrado.

(2) Ms. Culligan was hired on January 8, 2001.

(3) Mr. Corrado retired as an officer of the Company, from the Board of Directors and as an employee on February 23, 2002, March 19, 2002 and May 20, 2002, respectively. Mr. Sturken retired as an officer of the Company and as an employee on February 25, 2002 and April 9, 2002, respectively.

Employment and Termination Agreements

The Company is a party to employment agreements with each of Ms. Culligan and Ms. Magliari (the "Employment Agreements") which provide for minimum base annual salaries of \$575,000 and \$375,000, respectively. The Employment Agreements for Ms. Culligan and Ms. Magliari have initial termination dates of January 8, 2004 and October 31, 2003, respectively; provided, however, that they provide for a rolling eighteen (18) month term commencing July 8, 2002 for Ms. Culligan and May 1, 2002 for Ms. Magliari. The Employment Agreements also provide for participation in Company benefit programs (including bonus programs) and

Edgar Filing: GREAT ATLANTIC & PACIFIC TEA CO INC - Form DEFR14A

services, facilities and perquisites appropriate to their positions, including without limitation, the Executive Medical Plan.

Following termination other than for cause, permanent total disability, death or a resignation not for Good Reason and in the absence of a Change of Control (as such terms are defined in the Employment Agreements), each executive is entitled to receive (i) eighteen (18) equal monthly payments of one-twelfth of annual base salary plus average bonus and (ii) continued insurance coverage for such eighteen (18) month period. In addition, the Employment Agreements provide for a pro rata bonus for the year of termination.

12

Under the Change of Control provisions of the Employment Agreements, the separation pay is increased to three (3) times the executive's final base salary plus the bonus amount and is payable in lump sum. Additionally, the insurance continuation is extended to three (3) years. These provisions apply to terminations without cause or resignations for Good Reason occurring within thirteen (13) months following a Change of Control and for any reason during the thirty (30) days beginning on the first anniversary of a Change of Control. The Employment Agreements also provide for gross-up payments to the executive with respect to any excise tax on golden parachute payments.

Mr. Corrado resigned as an officer of the Company as of February 23, 2002, and as a member of the Company's Board of Directors as of March 19, 2002. In connection with such resignations, the Company and Mr. Corrado entered into a letter agreement on February 22, 2002 pursuant to which Mr. Corrado continued as a non-executive employee of the Company until May 20, 2002 in order to provide certain transition services and retired on that date. Pursuant to the letter agreement, Mr. Corrado became entitled upon his retirement to (i) the eighteen (18) months of severance benefits and other benefits provided under his employment agreement, which are the same as those indicated in the Employment Agreements above, except that Mr. Corrado's employment agreement also provided for life insurance coverage equal to three (3) times his base salary upon attainment of age 62, a credit for twenty years of service under Supplemental Executive Retirement Plan ("SERP"), *infra*, and a SERP benefit unreduced for early retirement prior to age 65 and (ii) employer provided executive medical coverage for three (3) years following his retirement. In addition, the Company agreed to vest the stock options granted to Mr. Corrado on March 20, 2001, covering 110,000 shares of the Company's Common Stock, and to allow these options to be exercised until the third anniversary of Mr. Corrado's retirement.

Mr. Sturken resigned from his positions with the Company on February 25, 2002 and as an employee on April 9, 2002. In connection with Mr. Sturken's resignation, Mr. Sturken became entitled to the eighteen (18) months of severance benefits and other benefits provided under his employment agreement, which are the same as those indicated in the Employment Agreements above.

- (1) The options vest 100% on the third anniversary of the grant date. All grants have a ten-year term.
 - (2) Based on total grants during Fiscal 2001 of 1,498,513.
 - (3) These values were calculated using the Black-Scholes option pricing model. The Black-Scholes model is a complicated mathematical formula which is widely used and accepted for valuing traded stock options. The model is premised on immediate exercisability and transferability of the options. This is not generally true for the Company's options granted to executive officers and other employees. Therefore, the values shown are purely theoretical and do not reflect the market value of the Company's stock at a future date. In addition to the stock prices at time of grants and exercise prices, which are identical, and the ten-year term of each option, the following assumptions were used to calculate the values shown for options granted during Fiscal 2001, expected dividend yield of 0.0, expected stock price volatility of 55%, risk-free rate of return of 4.07% and 5.54% and a weighted average of seven (7) years from date of grant to date of exercise. If the

Named Executive Officers realize the grant date values shown in the table, such values will be less than 1% of the total stockholder appreciation.

The table above indicates the amount of annual benefit payable to a person at age 65 in the specified final average remuneration and years-of-service classifications under the SERP, except that such benefits do not reflect the requisite reduction for any applicable Social Security, or other Company retirement benefits. SERP is an unfunded defined benefit final average pay plan that covers, among the Named Executive Officers, Messrs. Corrado and Sturken and Ms. Culligan.

The compensation covered by SERP is base salary, the "Annual Salary" reflected in the Summary Compensation Table, computed as an average of such base salary over the highest compensated five (5) years of employment during the last ten (10) years. The benefit is computed at the rate of 3% for Messrs. Corrado and Sturken for each year up to twenty (20) years of service, and for Ms. Culligan, 4% for each year up to fifteen (15) years of service, all with a maximum benefit of up to 60% of such average base salary. Estimated or actual credited years of service at retirement for each participating Named Executive Officer are: Mr. Corrado, eighteen (18) years; Mr. Sturken, eighteen (18) years; Ms. Culligan, fifteen (15) years.

PERFORMANCE GRAPH

The following performance graph compares the five-year cumulative total stockholder return (assuming reinvestment of dividends) of the Company's Common Stock to the Standard & Poor's 500 Index and the UBS Warburg Dillon Read Index of Supermarkets, which is comprised of the Company, Albertson's, Inc., The Kroger Co., Safeway, Inc. and Winn-Dixie Stores, Inc., as its peer group. Delhaize America, Inc. (formerly Food Lion, Inc.) was removed from the Peer Group because of its acquisition in April, 2001 by Delhaize Group, a company organized under the laws of the Kingdom of Belgium. The performance graph assumes \$100 is invested in the Company's Common Stock, the Standard & Poor's 500 Index and the UBS Warburg Dillon Read Index on February 22, 1997, and that dividends paid during the period were reinvested to purchase additional shares.

REPORT OF THE COMPENSATION COMMITTEE

The Company's Compensation Committee approves the compensation of all executive officers and other key employees and acts as the Committee for the Company's Stock Option and Long-Term Incentive and Share Award Plans.

Overview of Compensation Philosophy and Program

The Compensation Committee, which consists entirely of independent directors, establishes the salaries and other compensation of the executive officers and other key employees of the Company, including the CEO and other Named Executive Officers.

The Company executive compensation program consists of salaries, annual incentives and long-term incentive compensation. It is designed to:

- o for both the short and long-term, retain and motivate executive officers, compensate them competitively, and reward them for their contributions to the Company's success;
- o link each executive officer's compensation to both the performance of the Company and the leadership demonstrated by the individual executive; and
- o recognize consistently the level of performance with the appropriate level of compensation.

Evaluation of Executive Officer Performance in Fiscal 2001

Although the Compensation Committee considers "performance against" both financial and non-financial objectives to establish executive compensation levels, it does not rely solely on predetermined formulae or a limited set of criteria when it evaluates the performance of the Company's executives. There are three primary financial measures reviewed: sales; income before tax; and Return on Capital Employed ("ROCE"). In addition to these three financial measurements, the Compensation Committee considered the executives' performance against the following:

Edgar Filing: GREAT ATLANTIC & PACIFIC TEA CO INC - Form DEFR14A

- o achievement of operational excellence;
- o implementation of the business process initiatives;
- o reduction of costs;
- o identification and execution of profitable growth opportunities;
- o aligning and strengthening the organization through implementation of performance management; and
- o growing shareholder value through improving profitability, EPS growth, and liquidity.

The Compensation Committee has concluded after a thorough review of the measurements that executive management met or exceeded its short-term objectives and made considerable progress toward its long-term goals. The Company made quarterly improvements in operating earnings and returned to net profitability in the fourth quarter; as well, it achieved fifteen (15) consecutive quarters of improved comparable store sales and improved market share. Strengthening its financial flexibility the Company issued new ten-year notes to retire other debt, and completed on schedule the disposition of under-performing assets. The Company significantly advanced its business process initiatives. And, finally, as measured independently, the Company achieved considerable improvement in the satisfaction of its employees.

Total Compensation

To establish target total compensation levels of the Company's executives, the Compensation Committee considers competitive market total compensation. The Company periodically examines competitors' pay practices to ensure that the Company's compensation policies continue to enable it to attract outstanding new people, and motivate and retain current valuable employees. The total compensation package for each executive is comprised of three (3) components: salary; an annual incentive; and a long-term incentive -- a detailed discussion of each follows. To establish target total compensation levels of the Company's executives, the Compensation Committee considers competitive market total compensation. The Company, therefore, periodically examines competitors' pay practices to ensure that the Company's compensation policies continue to enable it to both motivate and retain current valuable employees and attract new employees with critical skill sets. The target salary and annual incentive levels are set at the median of the individual executive's competitive peer group.

16

The Compensation Committee intends to continue its practice of compensating executives based on performance against designated goals and strategies -- Pay for Performance -- consistent with compensation practices throughout the Company.

Salaries

The Compensation Committee considers several criteria in establishing salaries of the executives, including the Named Executive Officers. Key factors affecting the Compensation Committee's judgment include the nature and scope of the executives' responsibilities, and their effectiveness in leading the Company's initiatives. The Compensation Committee also considers the compensation practices and performances of other major corporations that are most likely to compete with the Company for the services of executives. In addition, business unit performance is a factor used to determine the salaries of executives with responsibility for business units.

Edgar Filing: GREAT ATLANTIC & PACIFIC TEA CO INC - Form DEFR14A

Annual Incentive

The Company's Annual Incentive Plan ("Plan") provided target annual incentive awards for 2001 contingent upon the attainment of the following performance goals: sales, profitability, ROCE and the executive's individual performance. Twenty percent of each executive's incentive was based on the attainment of sales goals, 20% on the attainment of profit goals, 35% on the attainment of ROCE goals and 25% on achieving individual performance goals.

Long Term Incentive

The Company's 1994 Stock Option Plan authorizes grants through March 17, 2004 of up to 1,500,000 shares for stock options and tandem or independent Stock Appreciation Rights ("SARs"). The 1998 Long Term Incentive Plan and Share Award Plan authorizes grants through July 13, 2008 of up to 5,000,000 shares for stock options, SARs, restricted stock and other stock based awards.

Discussion of Fiscal 2001 Compensation for the Chief Executive Officer

The Compensation Committee recommends the compensation level of the CEO. Taking into account all of the factors described in this report, the CEO's annual salary for Fiscal 2001 was increased to \$752,000, effective October 1, 2001, with an annual incentive bonus target of \$409,000. Under the criteria described above, the CEO received 120% of his incentive bonus target.

The annual incentive payment to the CEO was determined by results against objectives for sales, profit, ROCE and individual goals, as mentioned above. The performance results for Fiscal 2001 yielded an annual incentive of 112% of his incentive bonus target. The Compensation Committee awarded the CEO an additional amount of \$31,920 (8% of his bonus target) in view of dramatic improvement in the Company's performance.

Compliance with Internal Revenue Code Section 162(m)

Section 162(m) of the Internal Revenue Code, enacted in 1993, subject to certain exceptions, disallows a tax deduction to public companies for compensation over \$1,000,000 paid to the CEO and the four (4) other most highly compensated executives at fiscal year end. The exceptions to the \$1,000,000 deduction limit include compensation paid under preexisting employment agreements and performance-based compensation meeting certain requirements. Except in the case of Mr. Haub, the Company expects the salary and bonus of each Named Executive Officer for the 2002 fiscal year to be less than \$1,000,000 and the compensation payable to such officers therefore should be fully deductible. With respect to Mr. Haub, it is possible that a small portion of his bonus may not be deductible under Section 162(m) for the 2002 fiscal year. The Company's 1994 Stock Option Plan and the 1998 Long Term Incentive and Share Award Plan have been tailored to comply with the provisions of Section 162(m) so that amounts received upon the exercise of options and SARs thereunder should be exempt from Section 162(m) limitations.

As a matter of practice, the Compensation Committee intends to set performance-based goals annually under the Company's variable compensation plans and to deduct compensation paid under these plans to the extent consistent with the provisions of Section 162(m). However, if complying with Section 162(m) conflicts with what

the Compensation Committee believes is in the best interest of the Company and its stockholders, the Committee may conclude that paying non-deductible

Edgar Filing: GREAT ATLANTIC & PACIFIC TEA CO INC - Form DEFR14A

compensation is more consistent with the stockholders' best interests.

AUDIT COMMITTEE

The Audit Committee operates pursuant to a charter, a copy of which is attached to this proxy as Appendix A. The Board of Directors, in its business judgment, has determined that the members of the Audit Committee are "independent," as defined in the corporate governance listing standards of the New York Stock Exchange.

Report of the Audit Committee

The Audit Committee met with the independent public accountants, management and internal auditors to assure that such accountants, management and internal auditors were carrying out their respective responsibilities. The Committee reviewed the performance and fees of the independent public accountants prior to recommending their appointment, and met with them to discuss the scope and results of their audit work, including the adequacy of internal controls and the quality of financial reporting. The Committee discussed with the independent public accountants their judgments regarding the quality and acceptability of the Company's accounting principles, the clarity of its disclosures and the degree of aggressiveness or conservatism of its accounting principles and underlying estimates. The Committee discussed with and received a letter from the independent public accountants confirming their independence. Both the independent public accountants and the internal auditors had full access to the Committee, including regular meetings without management present. Additionally, the Committee reviewed and discussed the audited financial statements with management and recommended to the Board of Directors that these financial statements be included in the Company's Form 10-K filing with the Securities and Exchange Commission ("SEC").

INDEPENDENT PUBLIC ACCOUNTANTS

The Board of Directors, upon the Audit Committee's recommendation, has appointed Deloitte & Touche LLP, independent auditors, as the Company's independent auditors for the fiscal year ending February 22, 2003. A representative of Deloitte & Touche LLP will be present at the Annual Meeting, will be given an opportunity to make a statement and will be available to respond to questions.

Audit Fees

Edgar Filing: GREAT ATLANTIC & PACIFIC TEA CO INC - Form DEFR14A

The aggregate fees billed by Deloitte & Touche LLP for professional services rendered for the audit of the Company's annual financial statements for Fiscal 2001 and for the reviews of the financial statements included in the Company's quarterly reports on Form 10-Q for Fiscal 2001 were \$1,500,000.

18

Financial Information Systems Design and Implementation Fees

Deloitte & Touche LLP rendered no professional services to the Company for information technology services relating to the financial information systems design and implementations in Fiscal 2001.

All Other Fees

The aggregate fees billed by Deloitte & Touche LLP for services rendered to the Company, other than services described above under "Audit Fees", for Fiscal 2001, were \$1,025,000, including audit related services of approximately \$705,000 and non-audit related services of \$320,000. Audit related services includes fees for (i) consents, (ii) comfort letters, (iii) reviews of, and required procedures related to, SEC filings, (iv) audits of employee benefit plans, (v) audits for German GAAP purposes and (vi) accounting consultations. Non-Audit related services includes fees for (i) reviews of tax returns, (ii) tax consulting and (iii) compliance services and other non-audit services.

Relationship with Independent Auditors

As part of its duties, the Audit Committee also considered and determined that the provision of services, other than audit services, during Fiscal 2001 by Deloitte & Touche LLP is compatible with maintaining the independence of Deloitte & Touche LLP.

ITEM 2--STOCKHOLDER PROPOSAL FOR A CHANGE OF AUDITORS EVERY FOUR YEARS

A stockholder (Chris Rossi, P.O Box 249, Boonville, California 95415, who has owned shares of the Company's common stock with a market value of at least \$17,500 continuously for the preceding year) has notified the Company of his intention to propose the following resolution at the Annual Meeting:

"RESOLVED, that the shareholders of The Great Atlantic & Pacific Tea Company, Inc., request the Board of Directors take the necessary steps to amend the company's governing instruments to adopt the following: Beginning on the 2003 Great Atlantic & Pacific fiscal year, the present auditing firm will be changed and every (4) years a new auditing firm will be hired."

In support of the resolution, the stockholder has submitted the following statement:

"Our country was founded on the principle of checks and balances of open competition. We have all profited handsomely from these principles. When a person, a company or a government entity has a monopoly all types of abuses occur. One reason there are no checks and balances, no competition to keep

Edgar Filing: GREAT ATLANTIC & PACIFIC TEA CO INC - Form DEFR14A

things in line and on the up and up. Auditors are hired by a company, usually forever. We all fight hard and do a lot of questionable practices to hold our job. When it comes to our living, things get real serious. People think that cooking the books and coverups, only happen to small companies. Let me site a few massive examples. The \$50 billion lost in the savings and loan debacle. The fall of the Bank of Barrings in England. One of its most prestigious and oldest banks. The Orange County, California bankruptcy. Recently, the Enron Corporation collapse. All because auditors covered them up until they were a complete disaster. Thousands of people losing some or all of their money. And that's just a few of the many big and small fiascos. Why did they cook the books? The same reason we all fear. They did not want to lose their jobs. Whether, it is a million dollar C.E.O. or the \$20,000 a year clerk, the fear is the same. When management tells us their auditors are doing a wonderful [sic] job, it means they're doing the books the way management wants them to do them."

"With this proposal a new auditor will be coming on every 4 years. The new auditor will not cover up someone elses "boo boos". With the old auditor knowing this they will stay on the straight and narrow. Lastly, just look at your government. If they had some method like this we would probably not be in the mess were in. That's the most compelling reason to vote for the proposal."

The Board of Directors, having considered this stockholder proposal, believes that it is not in the best interests of the Company's stockholders and, accordingly, recommends that you vote AGAINST the proposal for the following reasons:

19

Organizations such as the SEC have investigated this issue many times and every time, have reached the same conclusion -- mandatory auditor rotation is neither necessary nor appropriate. Mandatory audit rotation will remove the ability of the Board of Directors to determine who they believe the Company should engage as its auditors, reduce audit quality and efficiency and increase costs. Moreover, professional standards require the rotation of the lead audit partner on an engagement, thereby compelling a fresh perspective without the upheaval, risk and unnecessary costs associated with a complete change in audit firms.

First, the Board of Directors' and Audit Committee's discretion, subject to applicable fiduciary duties, to determine the Company's independent auditors is essential to discharge their responsibilities to the Company and the stockholders. The Board of Directors recognizes the important role that auditor independence plays in ensuring the integrity of the Company's financial statements and protecting stockholder interests. The Board of Directors continually reviews its relationship with its auditors, the services they provide and the Company's policies and procedures that are designed to ensure auditor independence. Moreover, the Audit Committee, which consists of four (4) independent directors, operates according to a written charter in compliance with New York Stock Exchange rules and meets with the auditors on a regular basis regarding any relationships or services that may have an impact on auditor objectivity and independence.

Second, a detailed and solid understanding of the Company's business, operations, systems, legal structure and accounting practices is essential for an auditor to perform an effective audit. An auditor develops this knowledge

Edgar Filing: GREAT ATLANTIC & PACIFIC TEA CO INC - Form DEFR14A

over years of time and experience with the Company. It cannot be gained immediately. An auditor becomes so integrally related to the audit that retaining the auditor over a period of years results in significant cost savings to the Company and higher quality audit and advice. Requiring the Company to change auditing firms every four (4) years would mean that the Company's auditors would never have the chance to obtain the knowledge necessary to perform a truly effective audit. Every four (4) years, the Company would eliminate any advantages of working with an auditor that already knows its business and people and would have to start from scratch and focus on educating a new auditor, resulting in a tremendous disruption to the Company's normal work flow.

Lastly, the auditor must comply with professional auditor independence standards and internal control procedures, each of which ensure that the auditor conducts its audits in an objective and impartial manner, including the mandatory rotation of the engagement partner, an independent partner review of each audit, periodic review by another major accounting firm of its system of quality control for its auditing practice and the annual delivery to the Audit Committee of a written report confirming the auditors' independence.

In light of the protective measures in place that are designed to ensure the independence of the Company's auditors, mandatory auditor rotation is unnecessary and would result in substantial costs to the Company, decreased effectiveness and a lower quality of audits, as well as significant inefficiencies in performing those audits. The Board of Directors and the Audit Committee best address auditor independence through vigilant and careful consideration of the Company's auditors, and not by requiring the Company to unnecessarily incur substantial costs every four (4) years to rotate auditors without any benefit.

The Board of Directors believes that this stockholder proposal, if adopted, would impede the Board of Directors' ability to exercise its business judgment and could be seriously detrimental to the Company and its stockholders. The persons named in the enclosed form of the proxy have indicated they intend to vote AGAINST this proposal unless directed otherwise.

For the reasons stated above, the Board of Directors recommends a vote AGAINST this stockholder proposal.

20

STOCKHOLDER PROPOSALS

The Company will consider including a stockholder's proposal in the proxy statement and form of proxy for the Annual Meeting of Stockholders for the fiscal year ending February 22, 2003 if it receives such proposal at the principal office of the Company no later than January 24, 2003. In order for a proposal submitted outside of Rule 14a-8 of the Exchange Act to be considered "timely" within the meaning of Rule 14a-14(c), such proposal must be received by April 9, 2003.

APPENDIX A

AUDIT COMMITTEE CHARTER

Organization

There shall be a Committee of the Board of Directors of The Great Atlantic & Pacific Tea Company, Inc. (the "Company" or the "Corporation") to be known as the Audit Committee. The Audit Committee shall be composed of three or more directors who are independent of the management and of the Corporation and are free of any relationship that, in the opinion of the Board of Directors, would interfere with their exercise of independent judgment as committee members. Each member of the Committee shall have sufficient financial literacy to enable that member to discharge the responsibilities of a Committee member, and at least one such member shall have financial expertise. The Board of Directors shall determine whether or not a Committee member has "financial literacy" and/or "financial expertise." The Audit Committee shall comply with all applicable rules and regulations of the Securities and Exchange Commission and the New York Stock Exchange.

Purpose

The Committee's primary purpose is to assist the Board of Directors in fulfilling its oversight responsibilities by reviewing the financial information which will be provided to the stockholders and others, the system of internal controls which management and the Board of Directors have established, and the audit process.

It is not the responsibility of the Audit Committee to plan or conduct audits, to prepare the Company's financial statements or to determine that the Company's financial statements conform with generally accepted accounting principles. Management is responsible for the preparation of the Company's financial statements and the independent auditors are responsible for auditing those financial statements. It is also not the responsibility of the Audit Committee to assure compliance with laws and regulations and the Company's code

of conduct. Management is responsible for assuring compliance with applicable laws and regulations and with the Company's code of conduct.

Relationship with Independent Auditors

The Company's independent auditors are ultimately accountable to the Board of Directors and the Audit Committee, and the Board of Directors and the Audit Committee have the ultimate authority and responsibility to select, evaluate, and, where appropriate, replace the independent auditors. Additionally, the Audit Committee will:

1. Obtain from the independent auditors each year a formal written statement delineating all relationships between auditors and the Company;
2. Periodically engage in a dialogue with the independent auditors regarding any disclosed relationships or services which may impact the objectivity and independence of the auditors; and
3. Recommend that the Board of Directors take appropriate action in response to the independent auditor's report to oversee and satisfy itself of the auditor's independence.

Responsibilities

In carrying out its responsibilities, the Audit Committee believes its policies and procedures should remain flexible, in order to best react to changing conditions and to ensure to the directors and stockholders that the corporate accounting and reporting practices of the Corporation are in accordance with all requirements and are of the highest quality.

In carrying out these responsibilities, the Audit Committee will:

1. Provide an open avenue of communication between the internal auditors, the independent auditors, the Board of Directors, and Company management.
2. Review and reassess the adequacy of the Committee's charter annually.
3. Meet four times per year or more frequently as circumstances require. The Committee may ask members of management or others to attend meetings and provide pertinent information as necessary.
4. Appoint, together with the Board of Directors, a firm of certified public accountants to conduct the audits of the financial statements of the Company, and its subsidiaries, for the fiscal year in which they are appointed.
5. Meet with the independent auditors and financial management of the Company to review the scope and fees of the proposed audit for the current year and the audit procedures to be utilized.
6. Review the annual financial statements of the Company prior to submission to the Board of Directors and the Annual Report on Form 10-K prior to submission to the Securities and Exchange Commission.

Edgar Filing: GREAT ATLANTIC & PACIFIC TEA CO INC - Form DEFR14A

7. Issue annually a report to be included in the Company's proxy statement as required by the rules of the Securities and Exchange Commission.
8. Review the internal audit function of the Corporation including the independence and authority of its reporting obligations, the proposed audit plans for the coming year, and the coordination of such plans with the independent auditors.
9. Receive prior to each meeting, a summary of findings from completed internal audits and a progress report on the proposed internal audit plan, with explanations for any deviations from the original plan.
10. In order to foster open communications, provide sufficient opportunity for the internal and independent auditors to meet with the members of the Audit Committee without members of management present. Among the items to be discussed in these meetings are the independent auditors' evaluation of the Company's financial, accounting and auditing personnel, and the cooperation that the independent auditors received during the course of the audit.
11. Examine and consider such other matters in relation to the internal and external audit of the Company's accounts and in relation to the financial affairs of the Company and its books of account as the Committee determines to be desirable or as requested by the Board of Directors.
12. Submit the minutes of all meetings of the Audit Committee to, or review the matters discussed at each Committee meeting with, the Board of Directors.
13. Discuss with management, the internal auditors and the independent auditors, the quality of and compliance with the Company's internal controls.
