TIGER X MEDICAL, INC.

Notes to Condensed Consolidated Financial Statements June 30, 2012 (Unaudited)

NOTE 1 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Tiger X Medical, Inc. ("Tiger X" or the "Company"), formerly known as Cardo Medical, Inc., previously operated as an orthopedic medical device company specializing in designing, developing and marketing high performance reconstructive joint devices and spinal surgical devices.

As discussed below in the discontinued operations section, we sold our Reconstructive and Spine Divisions during the quarter ended June 30, 2011. Our continuing operations include the collection and management of our royalty income earned in connection with the Asset Purchase Agreement with Arthrex, as well as continuing to promote our former products sold to Arthrex and seek a joint venture partner or buyer for the remaining intellectual property owned by the Company. The Company will also be evaluating future investment opportunities and uses for its cash.

Basis of Presentation

The accompanying condensed consolidated balance sheet as of December 31, 2011, which has been derived from the Company's audited financial statements as of that date, and the unaudited condensed consolidated financial information of the Company as of June 30, 2012 and for the three and six months ended June 30, 2012 and 2011, has been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q and Article 8-03 of Regulation S-X. In the opinion of management, such financial information includes all adjustments considered necessary for a fair presentation of the Company's financial position at such date and the operating results and cash flows for such periods. Operating results for the interim period ended June 30, 2012 are not necessarily indicative of the results that may be expected for the entire year.

Certain information and footnote disclosure normally included in financial statements in accordance with generally accepted accounting principles have been omitted pursuant to the rules of the United States Securities and Exchange Commission ("SEC"). These unaudited financial statements should be read in conjunction with our audited financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011 filed on March 29, 2012.

Principles of Consolidation

The condensed consolidated financial statements include the accounts of Tiger X Medical, Inc., Accelerated Innovation, Inc. ("Accelerated"), Uni-Knee LLC ("Uni") and Cervical Xpand LLC ("Cervical"). All significant intercompany transactions have been eliminated in consolidation.

Discontinued Operations

On October 7, 2010, the Company's management and Board of Directors decided to put substantially all of its assets up for sale. The assets determined to be held for sale were inventories, intellectual properties, and property and equipment of its reconstructive products line (the "Reconstructive Division") and spine products line (the "Spine Division"). The Company decided to put the assets of its Reconstructive and Spine Divisions up for sale primarily because it did not have sufficient working capital, and was not able to procure such financial resources through equity or debt financing, in order to fully execute a profitable sales strategy.

On January 24, 2011, the Company entered into an Asset Purchase Agreement with Arthrex, Inc. ("Arthrex") (the agreement being the "Arthrex Asset Purchase Agreement"), pursuant to which the Company agreed to sell the assets of the Reconstructive Division to Arthrex. The Arthrex Asset Purchase Agreement also provides for the Company to receive royalty payments equal to 5% of net sales of the Company's products made by Arthrex on a quarterly basis for a term up to and including the 20th anniversary of the closing date. During the three and six months ended June 30, 2012, the Company received total royalty payments of \$17,000 and \$28,000 from Arthrex and reflected this payment as revenue on the accompanying condensed consolidated statements of operations.

The Company completed the sale of the Reconstructive Division on June 10, 2011. The total cash consideration received by the Company from Arthrex amounted to \$14,586,000, which was comprised of \$9,960,000 plus inventory with a value of \$2,908,000 and property and equipment with a value of \$1,718,000. From this amount, \$1,159,000 was deposited with an escrow agent to be held for twelve months for any potential adjustments to the purchase price relating to future adjustments to the value of the inventory and property and equipment and other unasserted claims. The total gain on the sale of the Reconstructive Division assets as of June 30, 2011 amounted to \$10,527,000, which represents the excess of the cash consideration over the carrying amount of the assets sold of \$4,059,000.

On April 4, 2011, the Company entered into and closed an Asset Purchase Agreement with Altus Partners, LLC, a Delaware limited liability company ("Altus"), pursuant to which the Company sold substantially all of the assets of the Spine Division in exchange for cash consideration of \$3,000,000 (the "Altus Asset Purchase Agreement"). Pursuant to the terms of the Altus Asset Purchase Agreement, \$2,700,000 of the purchase price was paid at the closing and \$300,000 was deposited into escrow with an escrow agent for a period of 90 days from the closing date (assuming there are no disputes) to be used for any adjustments to the closing value of the Company's inventory and property and equipment. The total gain on the sale of the Spine Division assets as of June 30, 2011 amounted to \$2,286,000.

The total gain associated with the above sales of the assets of the Reconstructive and Spine divisions amounted to \$12,253,000, which is presented net of the income tax expense effect of \$560,000.

Pursuant to the sale transaction with Arthrex, the total aggregate amount remaining in escrow accounts as of December 31, 2011 was \$900,000, which is reflected as restricted cash on the accompanying condensed consolidated balance sheets. As of June 30, 2012, there were no amounts remaining in the escrow accounts relating to the sales transaction with Arthrex or Altus.

Total sales associated with the discontinued Reconstructive and Spine Divisions reported as discontinued operations for the three months ended June 30, 2012 and 2011, were \$0 and \$214,000, respectively. Total sales associated with the discontinued Reconstructive and Spine Divisions reported as discontinued operations for the six months ended June 30, 2012 and 2011, were \$0 and \$761,000, respectively. The total pretax loss associated with the discontinued Reconstructive and Spine Divisions, including the discontinued corporate support for those activities, reported as discontinued operations for the three months ended June 30, 2012 and 2011, were \$0 and \$1,170,000, respectively. The total pretax loss associated with the discontinued Reconstructive and Spine Divisions, including the discontinued corporate support for those activities, reported as discontinued operations for the six months ended June 30, 2012 and 2011, were \$0 and \$1,366,000, respectively. The continuing operations reflected are expenses associated with business insurance, legal and accounting fees that the Company will continue to incur.

Use of Estimates

Financial statements prepared in accordance with U.S. GAAP require management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Among other things, management makes estimates relating to allowances for doubtful accounts, share-based payments and deferred income tax assets. Given the short operating history of Tiger X, actual results could differ from those estimates.

Revenue Recognition

The Company's revenue consists of royalty revenue from the Arthrex Asset Purchase Agreement, which is recognized as the amount becomes known and collectability is reasonably assured.

Net Income (Loss) Per Share

Basic net income (loss) per share is computed by using the weighted-average number of common shares outstanding during the period. Diluted net income (loss) per share is computed giving effect to all dilutive potential common shares that were outstanding during the period. Dilutive potential common shares consist of incremental common shares issuable upon exercise of stock options or warrants. No dilutive potential common shares are included in the computation of any diluted per share amount when a loss from continuing operations is reported by the Company because they are anti-dilutive.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases as well as operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The likelihood of realizing the tax benefits related to a potential deferred tax asset is evaluated, and a valuation allowance is recognized to reduce that deferred tax asset if it is more likely than not that all or some portion of the deferred tax asset will not be realized. Deferred tax assets and liabilities are calculated at the beginning and end of the year; the change in the sum of the deferred tax asset, valuation allowance and deferred tax liability during the year generally is recognized as a deferred tax expense or benefit. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in operations in the period that includes the enactment date.

The Company evaluates the accounting for uncertainty in income tax recognized in its financial statements and determines whether it is more likely than not that a tax position will be sustained upon examination by the appropriate taxing authorities before any part of the benefit is recorded in its financial statements. For those tax positions where it is "not more likely than not" that a tax benefit will be sustained, no tax benefit is recognized. Where applicable, associated interest and penalties are also recorded. The Company has not accrued for any such uncertain tax positions as of June 30, 2012 (unaudited) or December 31, 2011.

Reclassifications

Certain amounts from prior periods have been reclassified to conform to the current period presentation due to the treatment of discontinued operations.

Concentration of Credit Risk

The cash and cash equivalents held in the Company's business money market and escrow bank accounts are with local and national banking institutions and subjected to current FDIC insurance limits of \$250,000 per banking institution. As of June 30, 2012, the Company bank balances in these bank accounts exceeded the insured amount by \$12,582,000.

Recent Accounting Pronouncements

There are no recently issued accounting pronouncements that the Company has yet to adopt that are expected to have a material effect on its financial position, results of operations, or cash flows.

NOTE 2 — SHARE BASED PAYMENT

On August 29, 2008, the Company issued options to certain employees and Board members to purchase membership units in the Company. The options give the grantees the right to purchase up to 2,398,400 shares of the Company's common stock at an exercise price of \$0.23 per share. The options vest 20% each year over a five-year period and expire after ten years. The weighted average grant date fair value of options granted was \$0.13 per option. Stock option compensation recognized for the three months ended June 30, 2012 and 2011 in the accompanying condensed consolidated statements of operations amounted to \$2,000 and \$11,000, respectively. Stock option compensation recognized for the six months ended June 30, 2012 and 2011 in the accompanying condensed consolidated statements of operations amounted to \$4,000 and \$22,000, respectively.

As a result of the sale of substantially all of the Company's assets in the second quarter of 2011, other than the CEO, the Company no longer has any employees. As a result, the only options expected to vest are those held by the Company's Board of Directors and CEO. As a result, the estimated forfeiture rate has been adjusted to 75.6%.

A summary of stock option activity as of June 30, 2012, and changes during the period then ended is presented below.

NOTE 3 — STOCKHOLDERS' EQUITY

Our authorized capital consists of 750,000,000 shares of common stock and 50,000,000 shares of preferred stock. Our preferred stock may be designated into series pursuant to authority granted by our Certificate of Incorporation, and on

approval from our Board of Directors. As of June 30, 2012 and December 31, 2011, we did not have any preferred stock issued.

ITEM 2 — MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The discussion and analysis of our financial condition and results of operations are based on our financial statements, which we have prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported revenues and expenses during the reporting periods. On an ongoing basis, we evaluate estimates and judgments, including those described in greater detail below. We base our estimates on historical experience and on various other factors that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

As used in this "Management's Discussion and Analysis of Financial Condition and Results of Operation," except where the context otherwise requires, the term "we," "us," "our" or "Tiger X" refers to the business of Tiger X Medical, Inc.

The following discussion should be read together with the information contained in the unaudited condensed consolidated financial statements and related notes included in Item 1, "Financial Statements," in this Form 10-Q. All dollar amounts are in thousands unless otherwise specified.

Overview

Tiger X Medical, Inc. ("Tiger X" or the "Company"), formerly known as Cardo Medical, Inc., previously operated as an orthopedic medical device company specializing in designing, developing and marketing high performance reconstructive joint devices and spinal surgical devices. As discussed below, in January 2011 we entered into an asset purchase agreement to sell substantially all of our assets in the Reconstructive Division to Arthrex. We completed the sale of the Reconstructive Division assets during the second quarter of 2011. Additionally, we completed the sale of substantially all of the assets in the Spine Division in April 2011. Our continuing operations include the collection and management of our royalty income earned in connection with the Asset Purchase Agreement with Arthrex, as well as continuing to promote our former products sold to Arthrex and seek a joint venture partner or buyer for the remaining intellectual property owned by the Company. The Company will also be evaluating future investment opportunities and uses for its cash.

We are headquartered in Los Angeles, California. Our common stock is quoted on the National Association of Securities Dealers, Inc.'s, Over-the-Counter Bulletin Board, or the OTC Bulletin Board with a trading symbol of CDOM.OB.

Critical Accounting Policies

Use of Estimates

Financial statements prepared in accordance with United States generally accepted accounting principles ("U.S. GAAP") require management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Among other things, management makes estimates relating to allowances for doubtful accounts, share-based payments, and deferred income tax assets. Given the short operating history of Tiger X since discontinuing its operations, actual results could differ from those estimates.

Discontinued Operations

On October 7, 2010, the Company's management and Board of Directors decided to put substantially all of its assets up for sale. The assets determined to be held for sale were inventories, intellectual properties, and property and equipment of its reconstructive products line (the "Reconstructive Division") and spine products line (the "Spine Division"). The Company decided to put the assets of its Reconstructive and Spine Divisions up for sale primarily because it did not have sufficient working capital, and was not able to procure such financial resources through equity or debt financing, in order to fully execute a profitable sales strategy.

On January 24, 2011, the Company entered into an Asset Purchase Agreement with Arthrex, Inc. ("Arthrex") (the agreement being the "Arthrex Asset Purchase Agreement"), pursuant to which the Company agreed to sell the assets of the Reconstructive Division to Arthrex. The Arthrex Asset Purchase Agreement also provides for the Company to receive royalty payments equal to 5% of net sales of the Company's products made by Arthrex on a quarterly basis for a term up to and including the 20th anniversary of the closing date. During the three and six months ended June 30, 2012, the Company received total royalty payments of \$17,000 and \$28,000 from Arthrex and reflected this payment as revenue on the accompanying condensed consolidated statements of operations.

The Company completed the sale of the Reconstructive Division on June 10, 2011. The total cash consideration received by the Company from Arthrex amounted to \$14,586,000, which was comprised of \$9,960,000 plus inventory with a value of \$2,908,000 and property and equipment with a value of \$1,718,000. From this amount, \$1,159,000 was deposited with an escrow agent to be held for twelve months for any potential adjustments to the purchase price relating to future adjustments to the value of the inventory and property and equipment and other unasserted claims. The total gain on the sale of the Reconstructive Division assets as of June 30, 2011 amounted to \$10,527,000, which represents the excess of the cash consideration over the carrying amount of the assets sold of \$4,059,000.

On April 4, 2011, the Company entered into and closed an Asset Purchase Agreement with Altus Partners, LLC, a Delaware limited liability company ("Altus"), pursuant to which the Company sold substantially all of the assets of the Spine Division in exchange for cash consideration of \$3,000,000 (the "Altus Asset Purchase Agreement"). Pursuant to the terms of the Altus Asset Purchase Agreement, \$2,700,000 of the purchase price was paid at the closing and \$300,000 was deposited into escrow with an escrow agent for a period of 90 days from the closing date (assuming there are no disputes) to be used for any adjustments to the closing value of the Company's inventory and property and equipment. The total gain on the sale of the Spine Division assets as of June 30, 2011 amounted to \$2,286,000.

The total gain associated with the above sales of the assets of the Reconstructive and Spine divisions amounted to \$12,253,000, which is presented net of the income tax expense effect of \$560,000.

Pursuant to the sale transaction with Arthrex, the total aggregate amount remaining in escrow accounts as of December 31, 2011 was \$900,000, which is reflected as restricted cash on the accompanying condensed consolidated balance sheets. As of June 30, 2012, there were no amounts remaining in the escrow accounts relating to the sales transaction with Arthrex or Altus.

Total sales associated with the discontinued Reconstructive and Spine Divisions reported as discontinued operations for the three months ended June 30, 2012 and 2011, were \$0 and \$214,000, respectively. Total sales associated with the discontinued Reconstructive and Spine Divisions reported as discontinued operations for the six months ended June 30, 2012 and 2011, were \$0 and \$761,000, respectively. The total pretax loss associated with the discontinued Reconstructive and Spine Divisions, including the discontinued corporate support for those activities, reported as discontinued operations for the three months ended June 30, 2012 and 2011, were \$0 and \$1,170,000, respectively. The total pretax loss associated with the discontinued Reconstructive and Spine Divisions, including the discontinued corporate support for those activities, reported as discontinued operations for the six months ended June 30, 2012 and 2011, were \$0 and \$1,366,000, respectively. The continuing operations reflected are expenses associated with business insurance, legal and accounting fees that the Company will continue to incur.

Revenue Recognition

The Company's revenue consists of royalty revenue from the Arthrex Asset Purchase Agreement, which is recognized as the amount becomes known and collectability is reasonably assured.

Recent Accounting Updates

There are no recently issued accounting updates that we have yet to adopt that are expected to have a material effec
