Notes to Financial Statements

(U.S. Dollars)

June 30, 2003 (unaudited)

1. BASIS OF PRESENTATION

These unaudited financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America for interim financial information. These financial statements are condensed and do not include all disclosures required for annual financial statements. The organization and business of the Company, accounting policies followed by the Company and other information are contained in the notes to the Company's audited financial statements filed as part of the Company's December 31, 2002 Form 10-KSB.

In the opinion of the Company's management, these financial statements reflect all adjustments necessary to present fairly the Company's financial position at June 30, 2003 and December 31, 2002 and the results of its operations for the three months and six months ended June 30, 2003 and 2002 and cash flows for the six months ended June 30, 2003 and 2002. The results of operations for the three months and six months ended June 30, 2003 are not necessarily indicative of the results to be expected for the entire fiscal year.

2. RESOURCE EXPENDITURES

The Company signed an agreement dated July 8, 2002 with White Energy Corp. ("White") providing for the Company to acquire oil and gas lease holdings ("the Leases") in the Northern Powder River Basin of Montana. Under the terms of the Agreement, the total purchase price for acquisition of an 82% Net Revenue Interest in the "Prospect" which covers approximately 80,291 net acres is \$1,286,161 U.S. plus 100,000 shares of the Company's common stock.

As of June 30, 2003, the Company has paid a total of \$128,616 U.S. cash to White and contractually owns 100% of the interest in the leases while White at the same time reserves an Overriding Royalty Interest in the Leases, resulting in the delivery of an 82% Net Revenue interest to the Company. Title to the Leases will not be transferred until the balance of the payments has been made. The Company and White are currently negotiating a new schedule for the balance of the payment.

This purchase agreement expired during the period ended June 30, 2003.

3. EQUITY TRANSACTIONS

(a) In February 2003, the Company issued 250,000 shares of common stock with a par value of \$0.001 each for \$25,000 cash.

(b) In February 2003, the Company issued 333,333 shares of common stock with a par value of \$0.001 each from \$40,000 of subscriptions received in fiscal 2002. Subscriptions received in fiscal 2002 were used to settle the initial deposits required under the terms of the Agreement for Sale and Purchase of Prospect and Leases.

(c) In February 2003, the Company issued 916,667 units from \$165,000 of subscriptions received in fiscal 2002. Each unit consists of one share of common stock and one stock purchase warrant. The warrants are exercisable at \$0.24 within two years from date of issuance.

3. EQUITY TRANSACTIONS (Continued)

(d) In March 2003, the Company issued 2,120,000 shares of common stock with a par value of \$0.001 each for settlement of \$106,000 debt.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Certain statements in this report, including statements in the following discussion which are not statements of historical fact, are what are known as "forward looking statements," which are basically statements about the future. For that reason, these statements involve risk and uncertainty since no one can accurately predict the future. Words such as "plans," "intends," "will," "hopes," "seeks," "anticipates," "expects" and the like often identify such forward looking statements, but are not the only indication that a statement is a forward-looking statement. Such forward looking statements include statements concerning our plans and objectives with respect to the present and future operations of the Company, and statements which express or imply that such present and future operations will or may produce revenues, income or profits. Numerous factors and future events could cause the Company to change such plans and objectives or fail to successfully implement such plans or achieve such objectives, or cause such present and future operations to fail to produce revenues, income or profits.

Therefore, the reader is advised that the following discussion should be considered in light of the discussion of risks and other factors contained in this report on Form 10QSB and in the Company's other filings with the Securities and Exchange Commission. No statements contained in the following discussion should be construed as a guarantee or assurance of future performance or future results.

Plan of Operations

As of June 30, 2003, the company remains in the development stage. It has minimal capital resources presently available to meet its obligations or to continue its efforts to develop its business. As a result, there is substantial doubt about the Company's ability to continue as a going concern.

Until June 30, 2002, the Company focused on developing business related to reselling of a product line of miniaturized micro-chips suitable for insertion into inanimate objects or under the skin of animals. To develop this business, the Company estimated that it would require approximately \$250,000 within a twelve-month period to meet overhead (rent, salaries and operational expenses) and to pay expenses connected with marketing (cost of goods sold and purchase of inventory). This included approximately \$50,000 to launch dynamic link relationships with major markets and to produce and circulate brochures and initial advertising announcements, and approximately \$200,000 in working capital to cover general overhead and to provide liquidity during the 12-months following launch of its product.

The Company was not able to raise the funds required for micro-chip sales. There is no assurance given the uncertain nature of the capital markets, that it will be able to obtain the necessary funds. The Company changed its focus and has been looking at other business opportunities and will continue to look at other possible business combinations.

In July 2002, Safe ID Corporation signed an agreement with White Energy Corp. of Billings, Montana, U.S.A., to acquire approximately 91,771 acres of oil and gas lease holdings in the Northern Powder River Basin of Montana. The Company made non-refundable payments totaling \$128,616 U.S. to White Energy Corp. under the terms of this agreement, in order to secure the property and to contractually acquire a 100% interest in the property. However, the Company was not able to raise the necessary funds (estimated to be \$2.5 to \$3 million) for additional property and lease payments and an initial drilling commitment. As a result, the agreement signed July 12, 2002 expired on March 1, 2003.

Although the initial agreement expired, the Company continued to have some discussions with White Energy during the second quarter of 2003 concerning the possible renegotiation of the agreement. However, the Company finally concluded that, due to market conditions, it would not be able to raise funds for the White Energy project. As a result, prior to the end of the second quarter of 2003, the Company discontinued further discussions with White Energy and began the process of evaluating other potential projects and considering the feasibility of raising capital for the purpose of completing an acquisition and commencing operations.

Subsequent to the end of the second quarter, on July 14, 2003 the Company signed a letter of intent with Essentially Yours Industries, Inc. ("EYI") of Las Vegas, Nevada. As of the date of filing of this report on Form 10QSB, a definitive agreement has not yet been signed, but the Company is proceeding with efforts to raise the capital which it must raise as a condition precedent to completing the transaction with EYI. Although there is no guarantee that the

Company will be able to raise the capital needed to complete the transaction with EYI, the Company believes that improved market conditions may make it possible to do so through a private placement offering of its shares. As a result, the Company currently anticipates that it will execute a definitive agreement with EYI during the third quarter of 2003, and that it will complete a business combination transaction with EYI during the fourth quarter of 2003.

If an agreement is finalized with EYI in accordance with the terms outlined in the letter of intent, it would result in a change of control of the Company by the issuance of over 84,000,000 shares to EYI shareholders in a merger or share exchange transaction.

EYI, Inc., is an 8 year old company that markets an exclusive brand of nutritional supplements through radio, TV, internet, brick and mortar placement and aggressive direct selling. EYI estimates sales at \$16,000,000 this year.

The Company believes that it currently has sufficient funds to allow it to pay the costs associated with filing periodic reports and maintaining its status as a reporting company for the remainder of the 2003 fiscal year. However, it does not currently have the funds which will be needed to allow it to pursue the acquisition of EYI or any other business opportunity it may subsequently identify. Accordingly, there is no assurance that it will be able to complete the acquisition of EYI.

ITEM 3. CONTROLS AND PROCEDURES

The Company's Chief Executive Officer and Chief Financial Officer (or those persons performing similar functions), after evaluating the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-14(c) and 15d-14(c) under the Securities Exchange Act of 1934, as amended) as of a date within 90 days before the filing date of this quarterly report (the "Evaluation Date"), have concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures were effective to ensure the timely collection, evaluation and disclosure of information relating to the Company that would potentially be subject to disclosure under the Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated thereunder. There were no significant changes in the Company's internal controls or in other factors that could significantly affect the internal controls subsequent to the Evaluation Date.
