If any other matters properly come before the Annual Meeting, the proxies will vote upon such matters according to their judgment.

The Company encourages the personal attendance of its stockholders at the Annual Meeting, and execution of the accompanying proxy will not affect a stockholder's right to attend the Annual Meeting and to vote his or her shares in person. VOTING SECURITIES AND PRINCIPAL STOCKHOLDERS

General

The Board has fixed the close of business on September 26, 2011 as the record date (the “Record Date”) for the Annual Meeting. Only holders of record of the outstanding shares of Common Stock at the close of business on the Record Date are entitled to notice of and to vote at the Annual Meeting and any adjournment(s) thereof. At the close of business on September 26, 2011, there were 15,066,345 shares of Common Stock outstanding and entitled to be voted at the Annual Meeting. The Common Stock is the only class of stock entitled to vote at the Annual Meeting. Each share of Common Stock is entitled to one vote on each matter presented to the stockholders. Cumulative voting is not permitted by Common Stock shareholders of the Company.

Quorum and Vote Required

The presence, in person or by proxy, of a majority of the total shares of Common Stock issued and outstanding at the close of business on the Record Date is necessary to constitute a quorum for transaction of business at the Annual Meeting. Assuming the existence of a quorum, pursuant to our bylaws, the affirmative vote of a plurality of the shares of Common Stock present, either in person or represented by proxy, and entitled to vote at the Annual Meeting is required to elect directors. With respect to matters other than the election of directors, our bylaws provide that, if a quorum is present, the affirmative vote of a majority of the shares of Common Stock present, either in person or represented by proxy, and entitled to vote at the Annual Meeting is required to decide any such matter brought before such meeting, except as otherwise provided by our Certificate of Incorporation or applicable law. Accordingly, a majority of the shares of Common Stock represented in person or by proxy at the Annual Meeting must be cast in favor of the proposal for the non-binding approval of executive compensation and the frequency of future say-on-pay non-binding advisory votes on executive compensation in order for such proposals to be approved by our stockholders. If a quorum is not present in person or by proxy, the Annual Meeting may be adjourned until a quorum is obtained.

Abstentions are counted toward the calculation of a quorum and will have the same effect as a vote against a proposal. Broker non-votes occur when a broker or nominee holding shares for a beneficial owner does not vote on a non-routine proposal because the broker or nominee has not received voting instructions from the beneficial owner and does not have discretionary voting power with respect to such proposal. Rule 452 of the New York Stock Exchange, which has been adopted by the NASDAQ stock market, provides that a broker or other nominee holding shares for a beneficial owner may generally vote on routine matters, but not non-routine matters, without receiving voting instructions. Under Rule 452, the uncontested election of directors (Proposal 1), the non-binding advisory vote on executive compensation (Proposal 2), and the non-binding advisory vote on the frequency of future non-binding advisory votes on executive compensation (Proposal 3) are considered non-routine matters. If you do not provide such voting instructions, your shares will not be voted for Proposals 1, 2, and 3. Please provide instructions to your brokers or nominee on how to vote your shares.

Board's Leadership Structure and Role in Risk Oversight

Director Independence The Board has determined that each of Messrs. Parker, Dalton, Holmes and Zerrillo is an "independent director" within the meaning of the applicable rules of the SEC and the NASDAQ Capital Market (the "NASDAQ"). The Audit Committee, Compensation Committee and Corporate Governance Committee of the Board are composed entirely of independent directors.

Succession and Transition In conjunction with the September 30, 2010 retirement of the Company's prior Chairman and Chief Executive Officer, (Dr. Burton J. Kunik) the Board determined, at this time, that it is in the best interest of the Company for the position of the Chairman to be filled by an independent director. On September 7, 2010, Dr. Burton Kunik, Founder of the Company, announced his retirement and that he would not stand for reelection as a member of the Board at the Annual Meeting. David P. Tusa was appointed to the role of Chief Executive Officer effective September 30, 2010.

Mr. Tusa has been with the Company for over eight years and has been a key player in driving the Company's growth, strengthening the balance sheet and ensuring efficiency in operations. Mr. Tusa has been instrumental in the development and management of the Company's Medical Waste Management System™ program with a U. S. Government agency. The Board believes Mr. Tusa's primary role should be to manage the day-to-day operations of the Company. Mr. Tusa has extensive knowledge of the day-to-day operations of the Company and his focus continues to be on expanding the Company's customer base and expanding relationships with existing customers.

F. Gardner Parker was appointed Chairman of the Board (the "Chairman") in November 2010. The Chairman is expected to organize the Board activities to enable the Board to effectively guide, oversee and hold management accountable. To fulfill that role, the Chairman is expected to create and maintain an effective working relationship

with the Chief Executive Officer and other members of the Board; provide the Chief Executive Officer on-going direction as to Board needs, interest and opinions; and ensure that the Board agenda is appropriately directed to the matters of greatest importance to the Company. The Chairman is expected to preserve the distinction between management and oversight, ensuring that management develops a corporate strategy and the Board of Directors reviews and expresses its views on the corporate strategy. In addition the Chairman's roles include but are not limited to the following, (i) advising the Chief Executive Officer as to an appropriate schedule of Board meetings, (ii) seeking to ensure that the directors can perform their duties responsibly while not interfering with on-going Company operations, (iii) approving with the Chief Executive Officer an agenda and the meeting schedules for the Board of Directors and Board Committee meetings, (iv) advising the Chief Executive Officer as to the quality, quantity and timeliness of the information submitted to the Board by the Company's management that is necessary or appropriate for the directors to effectively and responsibly perform their duties, (v) calling meetings of the directors, and (vi) acting as the principal liaison between the directors and the Chief Executive Officer on sensitive issues.

Board's Role in Risk Oversight The Board is responsible for determining the ultimate direction of our business, determining the principles of our business strategy and policies and promoting the long-term interests of the Company. The Board possesses and exercises oversight authority over the business, subject to our governing documents and applicable law, but delegates day-to-day management of the Company to our Chief Executive Officer and our other executive officers. This structure requires clear and timely communication between the Chief Executive Officer and Chairman regarding management decisions that will impact the Board. Viewed from this perspective, the Board generally oversees risk management, and the Chief Executive Officer and other executive officers manage the material risks that we face. The Board focuses on the most significant risks facing the Company and the Company's general risk management strategy, and also ensures that risks undertaken by the Company are consistent with such strategy.

Risks falling within this area would include but are not limited to business ethics, general business and industry risks, operating risks and financial risks. We have not concentrated within our executive officers responsibility for all risk management in a single risk management officer, but rather rely on various executive and other management personnel to understand, assess, mitigate and generally manage material risks that we face in various areas including capital expenditure plans, liquidity, operations and health, safety and environmental. As necessary, the Chief Executive Officer and other executive officers report to the Board and its committees, as appropriate, regarding material risk and the management of risk facing the Company. The Board monitors the risk management information provided to it and provides feedback to management from time to time.

The Audit Committee assists the Board in the oversight of the integrity of the Company's financial statements and various matters relating to our publicly available financial information and our internal and independent auditors. The Audit Committee also evaluates related party transactions and potential conflicts of interest for the Company as they arise. The Audit Committee's role includes receiving information from our employees and others regarding public disclosure, our internal controls over financial reporting and material violations of law. Risks associated with retaining and incentivizing management fall within the scope of the authority of the Compensation Committee, which assists the Board in reviewing and administering compensation, benefits, and incentive and equity-based compensation plans. These committees periodically receive reports from management regarding management's assessment of risks and report regularly to the full Board regarding such risks.

Meetings, Committees and Committee Reports

Board and Committee Meetings The Board meets on a quarterly basis and holds special meetings whenever circumstances require. The Board held four regularly scheduled quarterly meetings and no special meetings during the fiscal year ended June 30, 2011. The independent Board members meet in executive sessions at each quarterly and special Board of Directors meeting. During 2011, each of the directors attended at least 75% of the aggregate number of meetings of the Board and the committees on which he served that were held during the period in which he served as a director or committee member. The Company does not have a policy regarding director attendance at the Company's Annual Meeting of Stockholders. All of the directors attended the Company's 2010 Annual Meeting of Stockholders.

Committees of the Board - The Board currently has three standing committees: Audit, Compensation and Corporate Governance.

Audit Committee Report. The information contained in this report shall not be deemed to be "soliciting material" or "filed" or incorporated by reference in future filings with the SEC, or subject to liabilities of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), except to the extent that we specifically request that the information be treated as soliciting material or specifically incorporate it by reference into a document filed under the Securities Act of 1933, as amended (the "Securities Act"), or the Exchange Act.

The Audit Committee's purpose is to assist the Board in its oversight of the Company's internal controls and financial statements and the audit process. The Board, in its business judgment, has determined that all members of the Audit Committee are "independent," as required by applicable standards of the SEC and NASDAQ. The Audit Committee operates pursuant to a written charter adopted by the Board. The charter of the Audit Committee is available on the Company's website. The address of the Company's website is <http://www.sharpsinc.com>. Messrs. Dalton, Parker and Zerillo (Chairman) are the current members of the Audit Committee. The Board has determined that Mr. Parker is an independent director who, in light of his experience detailed above, qualifies as an audit committee financial expert, as that term is defined by the SEC and the applicable listing standards of the NASDAQ. The Audit Committee is responsible for pre-approving all services provided by the Company's independent registered public accounting firm, UHY.

Management is responsible for the preparation, presentation and integrity of the Company's financial statements, accounting and financial reporting principles and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The Company's independent registered public accounting firm, UHY, is responsible for performing an audit of (1) the Company's consolidated financial statements in accordance with the standards of the Public Company Accounting and Oversight Board (United States) and (2) the Company's internal control over financial reporting based on criteria established in the Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). In performing its oversight role, the Audit Committee has reviewed and discussed the audited financial statements with management and the independent registered public accounting firm. The Audit Committee has also discussed with the independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards ("SAS") No. 61, Communication with Audit Committees, and related interpretations, as amended and currently in effect. The Audit Committee has received the written disclosures and the letter from the independent registered public accounting firm required by PCAOB Rule 3526. The Audit Committee has also considered whether the provision of non-audit services by the independent registered public accounting firm is compatible with maintaining its independence and has discussed with the independent registered public accounting firm its independence.

In overseeing the preparation of the Company's financial statements and internal control over financial reporting, the Audit Committee met with both management and UHY to review and discuss all financial statements prior to their issuance, all assessments of internal control over financial reporting, and to discuss significant accounting issues. Based on the reports, review and discussions described in this report, the Audit Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2011.

The Corporate Governance Committee is appointed by the Board to ensure that the Board is appropriately constituted to meet its fiduciary obligations to the Company and its stockholders. The Corporate Governance Committee assists in monitoring and shaping the corporate governance of the Company and assists the Board in connection with Board nominations matters. The Corporate Governance Committee evaluates the structure and membership of the Board and its committees and assesses the qualifications of prospective nominees to the Board. In addition, the Board evaluates each individual in the context of the Board as a whole, with the objective of recommending individuals that can best perpetuate the success of our business and represent stockholder interests through the exercise of sound business judgment using their diversity of experience in these various areas. The Board of Directors oversees Chief Executive Officer and senior management succession planning. The process focuses on building management depth, considers continuity and stability within the Company, and responds to the Company’s evolving needs and changing circumstances.

The Board of Directors does not specifically consider diversity in regards to ethnicity, gender, race, or age in assessing the qualifications of director nominees nor does it have a policy regarding diversity of nominee candidates. However, as stated above, the committee does consider the diversity of professional experiences and the background of nominees, both individually, and in the context of the whole board. The Corporate Governance Committee periodically reviews and assesses the adequacy of the Company’s Code of Ethics and makes recommendations to the Board regarding any amendments, modifications or waivers of the provisions thereof.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis is intended to provide context for the decisions underlying the compensation reported in the Summary Compensation Table included below in this proxy statement for the Company's Chief Executive Officer ("CEO"), Chief Financial Officer ("CFO"), and three executive officers who had the highest total compensation for 2011 as set forth in such table (these five executive officers being collectively referred to below as the "Named Executive Officers"). This Compensation Discussion and Analysis will discuss corporate and individual performance targets and goals for senior executive officers, including the Named Executive Officers. These targets and goals are disclosed in the limited context of the Company's executive compensation program. You should not interpret them as statements of the Company's expectations or as any form of guidance. We caution you not to apply the statements or disclosures in the Compensation and Discussion Analysis in any other context.

Overview of 2011 Company Performance Fiscal 2011 was a year in which the Company refined its strategic focus, aligned resources to better address a targeted sales and marketing strategy and increased the intensity in the Company's efforts to capture the large market opportunities for our innovative medical waste and unused medication management solutions. The realigned sales and marketing efforts include a more deliberate, targeted and multi-layered approach with constant promotional, sales and awareness programs that maximize broader market reach through the internet and other electronic media. Many facets of these efforts are beginning to generate results including: (i) the launch during fiscal year 2011 of the TakeAway Environmental Return System™ in almost half of the 60,000 retail pharmacies in the U.S., (ii) the introduction of the Complete Needle™ Collection & Disposal System in August 2011, (iii) the announcement in August 2011 of two new Pharmaceutical market patient support programs that will generate revenues in fiscal year 2012, and (iv) an increase in revenue in the fourth quarter of fiscal year 2011 of 21.2% over the prior year.

The Company's growth strategies are focused on the Retail, Pharmaceutical, Professional and Government (both Core and U.S. Government contract) markets. The Company also serves the Home Healthcare, Assisted Living/Hospitality and Other markets. Excluding the impact of the U.S. Government contract (which had decreased billings due to the expected conversion from the production to the maintenance phase of the contract), customer billings grew 7.5% due to increases in all core markets except for Pharmaceutical. Although the Pharmaceutical market did not experience growth in the year ended June 30, 2011, the Company expects growth in the future from two new patient support program awards announced in August 2011 which will launch in the December 2011 quarter and roll out over the following six-to-nine month period.

For the year, SG&A expense was \$9.8 million. Excluding certain special items related to a legal settlement and severance costs, which totaled about \$400 thousand on a pre-tax basis, SG&A for the 2011 fiscal year was \$9.4 million compared with \$8.8 million for the prior year, an increase of about \$600 thousand, or 7%, reflecting the investments in our inside and online sales activity, refocused sales and marketing efforts, and selectively managing personnel to maximize capabilities and align with our strategic focus offset by cost reductions resulting from a cost savings initiative implemented in December 2010.

While focused on growing the business during the year, the Company maintained a strong balance sheet with over \$18 million in cash and \$20 million in working capital at June 30, 2011. As of June 30, 2011, the Company had no debt and a \$5 million bank line of credit.

The Company believes that the initiatives discussed in this section and launched in fiscal year 2011 will be critical components to achieving expected revenue growth in fiscal year 2012 and beyond.

2011 Compensation Actions Related to Named Executive Officers During the year ended June 30, 2011 and as detailed more in the Summary Compensation Table, the following compensation related actions occurred:

- Options were granted to Mr. Dance, Senior Vice President of Sales & Marketing.
- Options were granted to Mr. Aladwani, Vice President of Quality Control/Assurance and his base compensation was increased from \$160,000 to \$170,000.
- Mr. Davis was promoted to a Named Executive Officer role. He received a base compensation increase and a grant of options in connection with his promotion.
- No annual incentives were paid out in 2011.

Role of the Compensation Committee The Compensation Committee's overall goal is to develop executive compensation policies that are consistent with, and linked to, the Company's strategic business objectives and values. The Compensation Committee approves the design of, assesses the effectiveness of and administers executive compensation programs in support of the Company's compensation policies. At least annually, the Company's Chief Executive Officer reports to the Compensation Committee an evaluation of executive performance and a recommendation regarding salary and other remuneration for executives. The Compensation Committee considers these evaluations and recommendations during its regularly scheduled sessions, and may choose to adopt the recommendations or modify them at its sole discretion. The Compensation Committee reviews and approves all salary arrangements and other remuneration for executives, evaluates executive performance and considers related matters.

Compensation Philosophy The Company's executive compensation policies have four primary objectives: to attract and retain highly competent executives to manage the Company's business, to offer executives appropriate incentives for accomplishment of the Company's business objectives and strategy, to encourage stock ownership by executives to enhance mutuality of interest with stockholders and to maximize long-term stockholder value.

Elements of Compensation The key elements of the Company's executive compensation are base salary, annual incentives and long-term incentives. These key elements are addressed separately below. In determining compensation, the Compensation Committee considers all elements of an executive's total compensation package.

Base Salary Base salaries for executives are determined initially by evaluating the executive's level of responsibility, prior experience, breadth of knowledge, internal equity issues and external pay practices. Increases to base salaries are driven primarily by individual performance. Individual performance is evaluated based on sustained levels of individual contribution to the Company. When evaluating individual performance, the Compensation Committee considers the executive's efforts in promoting Company values, continuing educational and management training, improving product quality, developing relationships with customers and vendors and demonstrating leadership abilities among co-workers.

Annual Incentives Each year, the Compensation Committee evaluates the performance of the Company as a whole, as well as the performance of each individual executive. Factors considered include Company performance versus expectations, as well as individual accomplishments. The Compensation Committee does not utilize formalized mathematical formulae, nor does it assign weightings to these factors. The Compensation Committee, in its sole discretion, determines the amount, if any, of incentive payments to each executive. The Compensation Committee believes that the Company's performance versus expectations and individual accomplishments require subjectivity on the part of the Committee when determining incentive payments.

Table of Contents

The Compensation Committee has adopted the Executive Incentive Compensation Plan (the “EICP Plan”) effective for the fiscal years ended June 30, 2011 and 2010. The EICP Plan is designed to allow eligible executive full-time employees to share in achievements based on attainment of pre-established Company financial performance as well as achievement of individual goals. The EICP Plan is also designed to motivate and reward eligible participants whose performance is considered by the Compensation Committee to be critical and integral to the overall success of the Company. Key provisions of the EICP Plan are described as follows:

- **Eligibility and the EICP Plan Year - Eligibility** is determined by the Compensation Committee. For the fiscal years ended June 30, 2011 and 2010, participation in the EICP Plan was limited to the Company’s Chief Executive Officer, Chief Financial Officer and Senior Vice President of Sales and Marketing. The Compensation Committee may, at its sole discretion, add other Company executives as participants to the EICP Plan.
- **Elements of the EICP Plan** - Each eligible participant has a target bonus, calculated as a specified percentage of that executive’s then current annual salary. For the fiscal years ended June 30, 2011 and 2010, the specified percentage of participant’s annual salary was 60% for each of the Chief Executive Officer, Chief Financial Officer and Senior Vice President of Sales and Marketing. The bonus amount will be computed based upon achievement of goals in three categories: (1) positioning the Company for future growth, (2) the achievement of fiscal year budgeted earnings and (3) achievement of fiscal year budgeted revenues.
- **Individual Performance Element (determines 25% of target bonus)** - The computation of this portion of the target bonus will be based upon accomplishments of the Company and the executive participants designed to position the Company for future growth. The Compensation Committee will review accomplishments prepared by executive participants and determine achievement of the goal in their sole discretion.
- **Earnings Performance Element (determines 25% of target bonus)** - Achievement of this element will be based upon the Company meeting the budgeted net earnings goal for the respective fiscal year.
- **Revenue Performance Element (determines 50% of target bonus)** - Achievement of this element will be based upon the Company meeting the budgeted consolidated revenue goal for the respective fiscal year. With respect to the Senior Vice President of Sales and Marketing one-half of this element will be based upon achievement by the Company of its budgeted revenue goal for its Core Business (excludes MWMS-related revenues) and one-half based upon achievement by the Company of its budgeted revenue goal for the consolidated revenues of the Company.
- **Eligibility and Payments to Participants** - The participant must be an active, full-time employee of the Company on the last day of the fiscal year for which the incentive award is earned to be entitled to the bonus.
- **Awards** shall be paid in cash less applicable taxes, no later than five (5) days after the public release of the Company’s annual fiscal year-end financial results or such earlier date as deemed appropriate by the Compensation Committee.

The EICP Plan, as described in this section, represents the general guidelines the Compensation Committee presently intends to utilize to determine executive incentive compensation. If, however, at the sole discretion of the Compensation Committee, the Company’s best interest is served by applying different guidelines in special or for unusual circumstances, it reserves the right to do so. The Compensation Committee reserves the right to amend or discontinue the EICP Plan at any time in the best interests of the Company and its shareholders. Without in anyway limiting the foregoing rights of the Company, should a material business event, significant customer contract, acquisition, disposition or change in control occur during the EICP Plan period, the Compensation Committee reserves the right to amend or supplement the EICP Plan following such event in such manner as the Compensation Committee, in its sole discretion, deems appropriate.

The Compensation Committee shall have full power and authority to interpret and administer the EICP Plan and shall be the sole arbiter of all manners of interpretation and application of the EICP Plan and the Compensation Committee’s determination shall be final. Any inconsistencies that may occur between the EICP Plan provisions and the calculation of the incentive results will be interpreted and resolved on an individual basis by the Compensation Committee.

Table of Contents

In addition to the EICP Plan, executive participants will recommend to the Committee a fiscal year bonus pool for non-executive employees.

Long-Term Incentives The Company's long-term compensation philosophy provides that long-term incentives should relate to improvement in stockholder value, thereby creating a mutuality of interests between executives and stockholders. Additionally, the Compensation Committee believes that the long-term security of executives is critical for the perpetuation of the Company. Long-term incentives are currently provided to executives through the Company's 2010 Stock Plan and if applicable, the 1993 Stock Plan, in the form of stock options and restricted stock awards. Key features of these Stock Plans are included under the caption "Equity Compensation Plan Information."

Stock options, when awarded, have been granted at an option price not less than the fair market value of the Common Stock on the date of grant. Accordingly, stock options have value only if the price of the Common Stock appreciates after the date the options are granted. The design focuses executives on the creation of stockholder value over the long-term and encourages equity ownership in the Company.

There are 711,626 stock options issued under the 1993 Stock Plan (with a weighted average exercise price of \$4.40) which remain outstanding subsequent to the replacement of the 1993 Stock Plan.

Sharps Compliance Corp. 2010 Stock Plan

General. The 2010 Stock Plan, approved by the stockholders of the Company, is intended to advance the best interests of the Company and its stockholders by providing those persons who have substantial responsibility for the management and growth of the Company with additional performance incentives and an opportunity to obtain or increase their proprietary interest in the Company, thereby encouraging them to continue in their employment or affiliation with the Company. The Plan permits the grant of incentive stock options ("ISOs"), nonqualified stock options ("NQSOs"), restricted stock, restricted stock unit awards ("RSUs"), other stock-based awards and cash-based awards (individually or collectively, the "Awards"). Grants of ISOs are intended to satisfy the requirements of Section 422 of the Internal Revenue Code of 1986 as amended (the "Internal Revenue Code"). The 2010 Stock Plan includes a forfeiture provision which allows the Administrator, under certain circumstances, to cancel unexercised stock awards previously granted to a participant.

Shares Subject to the 2010 Stock Plan. The 2010 Stock Plan provides for the issuance of up to 1,000,000 shares of the Company's common stock, of which 754,000 are available for issuance under the 2010 Stock Plan.

Administration. The 2010 Stock Plan is administered by the Compensation Committee, except in the case of awards issued to Directors, which are administered by the Board (individually or collectively, the "Administrator"). Subject to

the terms of the 2010 Stock Plan, the Administrator has the authority to determine the persons to whom Awards will be granted; the number and exercise price of shares of stock covered in each Award; the terms, provisions and conditions of each Award; acceleration of vesting; and all other determinations and actions necessary to properly administer the plan. The Administrator may authorize one or more officers of the Company to designate employees to receive Awards as well as the size of such Awards, subject to certain limitations.

Table of Contents

Eligibility. Awards may be granted to employees and directors of the Company, except for ISOs which can only be awarded to key employees. Awards other than ISOs may also be granted to persons who are expected to become key employees within six months.

Awards. Options and Restricted Stock Awards may be granted under the 2010 Stock Plan at the discretion of the Administrator. The Administrator specifies the terms and any restrictions on the awards. Other Awards may be granted under the 2010 Stock Plan at the discretion of the Administrator including RSUs and cash based awards. However, these have not been awarded in the past and are not expected to be used under existing incentive plans.

Change in Capital Structure. The existence of outstanding Awards shall not affect in any way the right or power of the Company or its shareholders to make or authorize any or all adjustments, recapitalizations, reorganizations or other changes in the Company's capital structure or its business, any merger or consolidation of the Company, any issue of bonds, debentures, preferred or prior preference shares ahead of or affecting the Company's Common Stock or stock rights, the dissolution or liquidation of the Company, any sale or transfer of all or any part of its assets or business or any other corporate act or proceeding, whether of a similar character or otherwise.

Change in Control. In the event of an occurrence of a change in control of the Company as defined in the 2010 Stock Plan, all outstanding ISOs and NQSOs and Restricted Stock Awards granted under the Plan will become fully vested and exercisable and all risk of forfeiture restrictions applicable thereto shall lapse. The effect, if any, of a change in control of the Company on any other Award granted under the Plan will be determined in accordance with the award agreement applicable to such award.

Federal Income Tax Consequences. The following discussion summarizes certain federal income tax consequences of the issuance and receipt of options and awards pursuant to the Plan under the law as in effect on the date of this proxy statement. The rules governing the tax treatment of such options and awards are quite technical, so the following discussion of tax consequences is necessarily general in nature and is not complete. In addition, statutory provisions are subject to change, as are their interpretations, and their application may vary in individual circumstances. This summary does not purport to cover all federal employment tax or other federal tax consequences associated with the Plan, nor does it address state, local, or non-U.S. taxes.

A participant generally is not required to recognize income on the grant of an Award other than a cash-based award. Instead, ordinary income generally is recognized on the date the option is exercised, or in the case of restricted stock awards, upon the issuance of shares and/or the payment of cash pursuant to the terms of the awards. In general, the amount of ordinary income required to be recognized is (a) in the case of an option, an amount equal to the excess, if any, of the fair market value of shares on the exercise date over the exercise price and (b) in the case of restricted stock awards, the amount of cash and/or the fair market value of any shares received in respect thereof, plus the amount of taxes withheld from such amounts. Upon payment of a cash-based award, a participant is required to recognize ordinary income in the amount of the award.

Termination and Amendment of the 2010 Stock Plan. The Board of Directors may terminate or amend the 2010 Stock Plan in any respect or at any time, except that no amendment requiring stockholder approval will be effective without approval of the stockholders as required by applicable law or stock exchange rules.

Sharps Compliance Corp. 1993 Stock Plan In November 2010, the stockholders of the Company approved the 2010 Stock Plan which replaced the 1993 Stock Plan. As of September 26, 2011, there are 711,626 stock options issued previously under the 1993 Stock Plan which remain outstanding subsequent to the replacement of the 1993 Stock Plan with the 2010 Stock Plan. These stock options have a weighted average exercise price of \$4.40 per share.

Non-Binding Advisory Vote on Executive Compensation - PROPOSAL TWO (2)

Section 951 of the Dodd-Frank Wall Street Reform and Consumer Protection Act requires the SEC to adopt rules requiring the Company to seek a non-binding advisory vote from our stockholders to approve the compensation awarded to our executive officers disclosed pursuant to Section 14A of the Exchange Act and Item 402 of Regulation S-K.

The Company’s overall goal is to develop executive compensation policies that are consistent with, and linked to, the Company’s strategic business objectives and values. The Company’s executive compensation policies have four primary objectives: to attract and retain highly competent executives to manage the Company’s business, to offer executives appropriate incentives for accomplishment of the Company’s business objectives and strategy, to encourage stock ownership by executives to enhance mutuality of interest with stockholders and to maximize long-term stockholder value. The key elements of the Company’s executive compensation are base salary, annual incentives, and long-term incentives.

A detailed discussion of the Company’s executive compensation in 2011 is set forth under the captions “Executive Compensation” and “Compensation Discussion and Analysis.” Stockholders are encouraged to read this material in its entirety to obtain an informed understanding of our executive compensation program.

This proposal, commonly referred to as “say-on-pay,” enables stockholders the opportunity to express their views regarding the Company’s executive compensation program in general and not of any one or more particular elements of that program. Stockholders have the opportunity to vote for, against, or abstain from voting on approval of 2011 executive compensation. This vote is a non-binding advisory vote on 2011 executive compensation. Accordingly, the following resolution will be submitted for a stockholder vote at the 2011 Annual Meeting:

RESOLVED, that the stockholders of Sharps Compliance Corp. approve, on an advisory basis, the compensation of the Company’s Named Executive Officers, as disclosed pursuant to Item 402 of Securities Exchange Commission Regulation S-K, including the Compensation Discussion and Analysis, the compensation tables and narrative disclosures.

The Board recommends that Stockholders vote “For” approval, on an advisory basis, of 2011 executive compensation. The Compensation Committee and the full Board intend to consider and take into account the outcome of this non-binding advisory vote in making future executive compensation decisions.

Non-Binding Advisory Vote to Recommend the Frequency of Future Non-Binding Advisory Votes on Executive Compensation – PROPOSAL THREE (3)

Section 951 of the Dodd-Frank Wall Street Reform and Consumer Protection Act requires the SEC to adopt rules requiring the Company to seek a non-binding advisory vote from our stockholders to determine the frequency with which the Company’s stockholders will vote to approve the compensation awarded to our executive officers pursuant to Section 14A of the Exchange Act.

Table of Contents

Accordingly, the Company is providing stockholders with the opportunity to cast a non-binding advisory vote on the frequency of future "say on pay" advisory votes, similar to the prior proposal, as either once every year, every two years, every three years or abstain from voting.

Because the vote is advisory and not a vote to approve or disapprove the Board's recommendation, the vote will not be binding upon the Board or the Compensation Committee. However, the Compensation Committee will carefully consider the outcome of the vote when deciding how often to conduct future stockholder advisory votes on executive compensation. The Board believes that an annual advisory vote on executive compensation will enhance stockholder communication and provide the Company with regular feedback on its executive compensation practices and philosophy. The Board of Directors recommends a vote in favor of holding future advisory say-on-pay votes annually (once every year).
