

Silver Eagle Acquisition Corp.
Form 424B1
July 26, 2013

Filed Pursuant to Rule 424(b)(1)
Registration No. 333-189498

PROSPECTUS

SILVER EAGLE ACQUISITION CORP.

\$300,000,000
30,000,000 Units

Silver Eagle Acquisition Corp. is a newly organized blank check company formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this prospectus as our initial business combination. We have not identified any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target.

This is an initial public offering of our securities. Each unit has an offering price of \$10.00 and consists of one share of our common stock and one warrant. Each warrant entitles the holder thereof to purchase one-half of one share of our common stock at a price of \$5.75 per half share, subject to adjustment as described in this prospectus. The warrants will become exercisable on the later of 30 days after the completion of our initial business combination and 12 months from the closing of this offering, and will expire five years after the completion of our initial business combination or earlier upon redemption or liquidation, as described in this prospectus. We have also granted the underwriters a 45-day option to purchase up to an additional 4,500,000 units to cover over-allotments, if any.

We will provide our stockholders with the opportunity to redeem all or a portion of their shares of our common stock upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account described below as of two business days prior to the consummation of our initial business combination, including interest, less franchise and income taxes payable, divided by the number of then outstanding shares of common stock that were sold as part of the units in this offering, which we refer to collectively as our public shares, subject to the limitations described herein. If we are unable to complete our business combination within 21 months from the closing of this offering, or 24 months from the closing of this offering if we have executed a letter of intent, agreement in principle or definitive agreement for an initial business combination within 21 months from the closing of this offering but have not completed the initial business combination within such 21-month period, we will redeem 100% of the public shares at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses), less franchise and income taxes payable, divided by the number of then outstanding public shares, subject to applicable law and as further described herein.

Our sponsor and Dennis A. Miller have committed to purchase an aggregate of 15,000,000 warrants at a price of \$0.50 per warrant, or \$7.5 million in the aggregate, in a private placement that will close simultaneously with the closing of this offering. We refer to these warrants throughout this prospectus as the private placement warrants. Our sponsor has agreed to purchase 95% of these warrants and Mr. Miller has agreed to purchase 5% of these warrants.

Currently, there is no public market for our units, common stock or warrants. We have been approved to have our units listed on the NASDAQ Capital Market, or NASDAQ, under the symbol EAGLU on or promptly after the date of this prospectus. The common stock and warrants comprising the units will begin separate trading on the 52nd day following the date of this prospectus unless Deutsche Bank Securities Inc. informs us of its decision to allow earlier separate trading, subject to our filing a Current Report on Form 8-K with the Securities and Exchange Commission, or the SEC, containing an audited balance sheet reflecting our receipt of the gross proceeds of this offering and issuing a press release announcing when such separate trading will begin. Once the securities comprising the units begin separate trading, we expect that the common stock and warrants will be listed on NASDAQ under the symbols EAGL and EAGLW, respectively.

We are an emerging growth company under applicable federal securities laws and will be subject to reduced public company reporting requirements. Investing in our securities involves a high degree of risk. See Risk Factors beginning on page 26 for a discussion of information that should be considered in connection with an investment in our securities. Investors will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings.

Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	Per Unit	Total
Public offering price	\$ 10.00	\$ 300,000,000
Underwriting discounts and commissions ⁽¹⁾	\$ 0.55	\$ 16,500,000
Proceeds, before expenses, to us	\$ 9.45	\$ 283,500,000

Includes \$0.36 per unit, or approximately \$10,750,000 (or up to \$0.38 per unit, or up to approximately \$13,225,000 if the underwriters' over-allotment option is exercised in full) in the aggregate payable to the underwriters for deferred underwriting commissions to be placed in a trust account located in the United States as described herein. The deferred commissions will be released to the underwriters only on completion of an initial business combination, in an amount equal to the difference between (a) the product of the number of shares of common stock sold as part of the units in this offering and \$0.55 and (b) the maximum up front portion of the underwriting discounts and commission of \$5,750,000 (subject to adjustment) as described in this prospectus, payable upon the closing of the offering. Does not include certain fees and expenses payable to the underwriters in connection with this offering. See also Underwriting beginning on page 134 for a description of compensation and other items of value payable to the underwriters.

(1) Of the \$307.5 million in proceeds we receive from this offering and the sale of the private placement warrants described in this prospectus, or approximately \$352.5 million if the underwriters' over-allotment option is exercised in full, \$300 million (\$10.00 per unit), or approximately \$345.0 million if the underwriters' over-allotment option is exercised in full (\$10.00 per unit), will be deposited into a trust account with Continental Stock Transfer & Trust Company acting as trustee, and \$7.5 million will be used to pay expenses in connection with the closing of this offering and for working capital following the closing of this offering. Except for the withdrawal of interest to pay income taxes, if any, and a one-time release of amounts necessary to pay Delaware franchise taxes for 2013 on a timely basis, as described herein, our amended and restated certificate of incorporation provides that none of the funds held in trust will be released from the trust account until the earlier of (i) the completion of our initial business combination or (ii) the redemption of our public shares if we are unable to complete our business combination within 21 months from the closing of this offering (or 24 months, as applicable), subject to applicable law. The proceeds deposited in the trust account could become subject to the claims of our creditors, if any, which could have priority over the claims of our public stockholders.

The underwriters are offering the units for sale on a firm commitment basis. The underwriters expect to deliver the units to the purchasers on or about July 30, 2013.

SUMMARY

This summary only highlights the more detailed information appearing elsewhere in this prospectus. As this is a summary, it does not contain all of the information that you should consider in making an investment decision. You should read this entire prospectus carefully, including the information under Risk Factors and our financial statements and the related notes included elsewhere in this prospectus, before investing.

Unless otherwise stated in this prospectus, references to:

we, us, company or our company are to Silver Eagle Acquisition Corp.;
public shares are to shares of our common stock sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market);
public stockholders are to the holders of our public shares, including our initial stockholders and management team to the extent our initial stockholders and/or members of our management team purchase public shares, provided that each initial stockholder s and member of our management team s status as a public stockholder shall only exist with respect to such public shares;
our management or our management team are to our executive officers and directors;
our sponsor are to Global Eagle Acquisition LLC, a Delaware limited liability company;
our founder shares refer to shares of our common stock initially purchased by our sponsor and Dennis A. Miller in a private placement prior to this offering;
our private placement warrants are to the warrants issued to our sponsor and Dennis A. Miller in a private placement simultaneously with the closing of this offering; and
our initial stockholders are to holders of our founder shares prior to this offering.
Unless we tell you otherwise, the information in this prospectus assumes that the underwriters will not exercise their over-allotment option.

General

We are a newly organized blank check company incorporated as a Delaware corporation and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this prospectus as our initial business combination. We have not identified any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target.

We will seek to capitalize on the substantial deal sourcing, investing and operating expertise of our management team to identify, acquire and operate media or entertainment businesses, including providers of content, with high growth potential in the United States or internationally, although we may pursue acquisition opportunities in other sectors.

Our amended and restated certificate of incorporation prohibits us from effectuating a business combination with another blank check company or similar company with nominal operations.

Our Management Team

Our chairman and chief executive officer, Harry E. Sloan, our president, Jeff Sagansky, and our chief financial officer, James A. Graf, have extensive operating and deal-making experience with prominent global media companies.

In 2011, Messrs. Sloan, Sagansky and Graf founded Global Eagle Acquisition Corp., or Global Eagle Acquisition, a blank check company formed for substantially similar purposes as

1

TABLE OF CONTENTS

our company. Mr. Sloan served as chairman and chief executive officer, Mr. Sagansky served as president and Mr. Graf served as chief financial officer, secretary and treasurer. Global Eagle Acquisition completed its initial public offering in May 2011, in which it sold approximately 19,000,000 units, each consisting of one share of common stock and one warrant, for an offering price of \$10.00 per unit, generating aggregate proceeds of approximately \$190 million. Global Eagle Acquisition completed its business combination in January 2013, acquiring 100% of the shares of Row 44, Inc., or Row 44, and 86% of the shares of Advanced Inflight Alliance AG, or AIA. Row 44 is a leading satellite-based broadband services provider to the global commercial airline industry. The Row 44 in-cabin system and communications link currently provides airline passengers with Internet access, live television, shopping and flight and destination information. With its entertainment system currently installed on more than 480 aircraft worldwide, Row 44 services the largest fleet of satellite-based Wi-Fi connected planes that operate over land and sea. AIA is the leading provider of content services, products and solutions for the in-flight entertainment (IFE) market.

AIA's subsidiaries are market leaders and pioneers in the IFE content industry, providing movies and TV programming, audio, games, applications and creative solutions to approximately 130 of the world's most important commercial airlines. The transaction facilitated access into the multi-billion dollar in-flight content and connectivity market. Row 44 extends AIA's customer reach through its growing Wi-Fi installed base. AIA's content purchasing power is expected to substantially enhance the quality of the content provided by Row 44's platform. The transaction also created the ability to seek to consolidate players in both connectivity and content businesses. In the transaction, all major shareholders in both Row 44 and AIA rolled their interests for shares in Global Eagle Acquisition, and Global Eagle Acquisition entered into backstop agreements with PAR Investment Partners, L.P., and Putnam Capital Spectrum Fund and Equity Fund for an aggregate commitment of over \$70 million. After the business combination, the company was renamed Global Eagle Entertainment Inc., or GEE. Messrs. Sloan and Sagansky are independent directors of GEE. Upon the closing of the business combination, each outstanding Global Eagle Acquisition unit separated into its component parts of one share of common stock and one warrant. GEE's common stock is traded on NASDAQ under the symbol ENT and its public warrants are quoted on the OTC Market under the symbol ENTWW. The closing prices of GEE's common stock and public warrants on July 23, 2013 were \$11.03 and \$1.90, respectively.

In addition, the high and low market prices for GEE's common stock for the first quarter of 2013 were \$10.44 and \$8.11, and for the second quarter of 2013 were \$10.49 and \$7.96. The high and low market prices of GEE's public warrants for the first quarter of 2013 were \$1.68 and \$0.55, and for the second quarter of 2013 were \$1.75 and \$1.00.

Mr. Sloan was appointed chairman and chief executive officer of Metro-Goldwyn-Mayer Studios Inc., or MGM, by a consortium comprised of private equity investors, Comcast Corporation and Sony Corporation of America, one year after they agreed to acquire MGM through a leveraged buyout in September 2004. He served as chairman and chief executive officer from October 2005 to August 2009, and thereafter continued as non-executive chairman until December 2010. During his tenure, Mr. Sloan revived key MGM movie franchises, including James Bond, Rocky and The Pink Panther, restarted and rebuilt MGM's theatrical and television distribution and marketing units and launched numerous MGM television channels in the United States and internationally. Prior to MGM, Mr. Sloan founded and operated SBS Broadcasting, S.A., or SBS, serving as chairman and chief executive officer from 1990 until August 2001 and then executive chairman until October 2005. Beginning with a personal investment of approximately \$5,000,000, Mr. Sloan transformed SBS, through a series of acquisitions and organic growth, into a leading pan-European broadcaster, with, as of 2005, 16 television stations, 21 premium pay channels and 11 radio networks, reaching 100 million people. Mr. Sloan oversaw the initial public offering of SBS in 1993 and its eventual sale to private investors in 2005 for \$2.5 billion. Prior to founding SBS, Mr. Sloan served as co-chairman of New World Entertainment Ltd., or New World, an independent motion picture and television production company. Mr. Sloan led a group that originally purchased New World in 1983 for

TABLE OF CONTENTS

\$2,000,000. Mr. Sloan extended the company's business into television production, ultimately growing New World into one of the largest producers of U.S. primetime television. Mr. Sloan led a number of transactions while at New World, including New World's initial public offering in 1985, its acquisition of Marvel Entertainment Group, Inc., in 1986, and New World's sale to private investors in 1989 for \$260,000,000.

Jeff Sagansky brings over 30 years of senior-level media and entertainment industry management experience. Mr. Sagansky currently serves as co-founder and chairman of Hemisphere Capital Management LLC, a private motion picture and television finance company, deploying more than \$300 million in debt and equity across four investment funds. Mr. Sagansky was formerly chief executive officer and then vice chairman of Paxson Communications Corporation, or Pax, from 1998 to 2003, where he launched the PAX TV program network in 1998. Under his leadership, PAX TV became a highly rated family-friendly television network with distribution growing from 60% of U.S. television households to almost 90% in only four years. In addition, Mr. Sagansky drove substantial improvement in the network's financial performance with compounded annual revenue growth of 24% and compounded annual gross income growth of 30% from 1998 to 2002. Prior to joining Pax, Mr. Sagansky was co-president of Sony Pictures Entertainment, or SPE, from 1996 to 1998 where he was responsible for SPE's strategic planning and worldwide television operations. While at SPE, he spearheaded SPE's acquisition, in partnership with Liberty Media Corporation and other investors, of Telemundo Network Group, LLC, or Telemundo. The transaction generated significant returns for SPE as Telemundo was sold to the National Broadcasting Company, Inc., for over six times its original investment less than three years later. Previously, as executive vice president of Sony Corporation of America, or SCA, Mr. Sagansky oversaw the 1997 merger of SCA's Loews Theaters unit with the Cineplex Odeon Corporation to create one of the world's largest movie theater companies, and the highly successful U.S. launch of the Sony Playstation video game console. Prior to joining SCA, Mr. Sagansky was president of CBS Entertainment from 1990 to 1994, where he engineered CBS's ratings rise from third to first place in eighteen months. Mr. Sagansky previously served as president of production and then president of TriStar Pictures, where he developed and oversaw production of a wide variety of successful films.

Initial Business Combination

Our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination. If our board is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm that is a member of the Financial Industry Regulatory Authority, or FINRA, with respect to the satisfaction of such criteria.

We anticipate structuring our initial business combination so that the post-transaction company in which our public stockholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses. We may, however, structure our initial business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or shareholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on

valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we

3

TABLE OF CONTENTS

issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of the 80% of net assets test. If the business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses even if the acquisitions of the target businesses are not closed simultaneously.

We believe the following general criteria and guidelines are important in evaluating prospective target businesses, but we may decide to enter into a business combination with a target business that does not meet these criteria and guidelines.

Media and Entertainment Industry Targets. We will seek to acquire one or more businesses involved in the media or entertainment industries, including providers of content. We believe our management's significant operating and deal-making experience and relationships with companies in this space will give us a number of competitive advantages and will present us with a substantial number of potential business combination targets. The factors we will consider include growth prospects, competitive dynamics, opportunities for consolidation, need for capital investment and barriers to entry. We will analyze the strengths and weaknesses of target businesses relative to their competitors. We will seek to acquire one or more businesses that demonstrate advantages when compared to their competitors, which may help to protect their market position and profitability.

High-Growth Markets. We will seek out opportunities in faster-growing segments of developed markets and emerging international markets. Our management has extensive experience operating media businesses and leading transactions in international markets.

Business with Revenue and Earnings Growth Potential. We will seek to acquire one or more businesses that have multiple, diverse potential drivers of revenue and earnings growth, including but not limited to a combination of development, production, digital and distribution capabilities and balance sheet management. We will focus on assets that currently are undervalued or sub-optimally managed, including those undergoing debt or operational restructuring, where our management is well-positioned to unlock their value.

Companies with Potential for Strong Free Cash Flow Generation. We will seek to acquire one or more businesses that have the potential to generate strong and stable free cash flow.

These criteria are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management may deem relevant. In the event that we decide to enter into a business combination with a target business that does not meet the above criteria and guidelines, we will disclose that the target business does not meet the above criteria in our stockholder communications related to our initial business combination, which, as discussed in this prospectus, would be in the form of tender offer or proxy solicitation materials, as applicable, that we would file with the Securities and Exchange Commission, or the SEC. In evaluating a prospective target business, we expect to conduct an extensive due diligence review which will encompass, among other things, meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspections of facilities, as well as reviewing financial and other information which

TABLE OF CONTENTS

will be made available to us. In addition, although we intend to focus on identifying business combination candidates in the media or entertainment sectors, we will consider a business combination outside of the media or entertainment sectors if a business combination candidate is presented to us and we determine that such candidate offers an attractive investment opportunity for our company.

Sourcing of Potential Business Combination Targets

We believe our management team's significant operating and transaction experience and relationships with companies in our target sectors will provide us with a substantial number of potential business combination targets. Over the course of their careers, the members of our management team have developed a broad network of contacts and corporate relationships around the world. This network has grown through the activities of our management team sourcing, acquiring and financing businesses, the reputation of our management team for integrity and fair dealing with sellers, financing sources and target management teams and the experience of our management team in executing transactions under varying economic and financial market conditions.

In addition, members of our management team have developed contacts from serving on the boards of directors of prominent media companies. For example, Mr. Sloan was appointed to serve on the board of Promotora de Informaciones, S.A., or PRISA, Spain's largest media conglomerate, after its 2010 business combination with Liberty Acquisition Corp. (which was a blank check company), and he has been a director of ZeniMax Media Inc., an independent producer of interactive gaming and web content, since 1999. Previously, Mr. Sloan held directorships at Lions Gate Entertainment Corp., an independent motion picture and television production company and ProSieben Sat.1 Media AG, a European media conglomerate which acquired SBS in 2007. Mr. Sagansky currently serves on the boards of Starz and Scripps Networks Interactive, Inc., two publicly traded media companies. He previously served as non-executive chairman of the board of RHI Entertainment, Inc., a producer of original made-for-television movies and miniseries and also previously served on the boards of American Media Inc., an owner and operator of celebrity and health & fitness media publications, and Lions Gate Entertainment. In his capacity as an active private investor, Mr. Sagansky maintains board positions on a number of private media and entertainment companies.

This network has provided our management team with a flow of referrals that has resulted in numerous transactions which were proprietary or where a limited group of investors were invited to participate in the sale process. We believe that the network of contacts and relationships of our management team will provide us important sources of investment opportunities. In addition, we anticipate that target business combination candidates will be brought to our attention from various unaffiliated sources, including investment market participants, private equity funds and large business enterprises seeking to divest non-core assets or divisions.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, executive officers or directors, or making the acquisition through a joint venture or other form of shared ownership with our sponsor, executive officers or directors. In the event we seek to complete an initial business combination with a target that is affiliated with our sponsor, executive officers or directors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking or accounting firm that is a member of FINRA that such an initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

As more fully discussed in Management Conflicts of Interest, if any of our executive officers or directors becomes aware of a business combination opportunity that falls within the line of business of any entity to which he or she has

pre-existing fiduciary or contractual obligations, he or she may be required to present such business combination opportunity to

5

TABLE OF CONTENTS

such entity prior to presenting such business combination opportunity to us. All of our executive officers currently have certain relevant fiduciary duties or contractual obligations that may take priority over their duties to us.

Corporate Information

Our executive offices are located at 1450 2nd Street, Suite 247, Santa Monica, CA 90401 and our telephone number is (310) 209-7280.

We are an emerging growth company, as defined in Section 2(a) of the Securities Act of 1933, as amended, or the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an emerging growth company can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an emerging growth company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.0 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our common stock that is held by non-affiliates exceeds \$700 million as of the prior June 30th, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three-year period. References herein to emerging growth company shall have the meaning associated with it in the JOBS Act.

TABLE OF CONTENTS

The Offering

In making your decision on whether to invest in our securities, you should take into account not only the backgrounds of the members of our management team, but also the special risks we face as a blank check company and the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. You will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. You should carefully consider these and the other risks set forth in the section below entitled Risk Factors beginning on page 26 of this prospectus.

Securities offered

30,000,000 units, at \$10.00 per unit, each unit consisting of:

one share of common stock; and

one warrant.

NASDAQ symbols

Units: EAGLU

Common Stock: EAGL

Warrants: EAGLW

Trading commencement and separation of common stock and warrants

The units will begin trading on or promptly after the date of this prospectus. The common stock and warrants comprising the units will begin separate trading on the 52nd day following the date of this prospectus unless Deutsche Bank Securities Inc. informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the shares of common stock and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component pieces. Holders will need to have their brokers contact our transfer agent in order to separate the units into shares of common stock and warrants.

Separate trading of the common stock and warrants is prohibited until we have filed a Current Report on Form 8-K

In no event will the common stock and warrants be traded separately until we have filed a Current Report on Form 8-K with the SEC containing an audited balance sheet reflecting our receipt of the gross proceeds at the closing of this offering. We will file the Current Report on Form 8-K promptly after the closing of this offering, which is anticipated to take place three business days from the date of this prospectus. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.

7

TABLE OF CONTENTS

Units:

Number outstanding before this offering	0
Number outstanding after this offering	30,000,000 ⁽¹⁾

Common stock:

Number outstanding before this offering	8,625,000 ⁽²⁾
Number outstanding after this offering	37,500,000 ⁽¹⁾

Warrants:

Number of private placement warrants to be sold in a private placement simultaneously with this offering	15,000,000 ⁽¹⁾
Number of warrants to be outstanding after this offering and the private placement	45,000,000 ⁽¹⁾

Exercisability

Each warrant offered in this offering is exercisable to purchase one-half of one share of our common stock.

No fractional shares will be issued upon exercise of the warrants. If, upon exercise of the warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number the number of shares of common stock to be issued to the warrant holder.

Exercise price

\$5.75 per half share (\$11.50 per whole share), subject to adjustments as described herein.

Exercise period

The warrants will become exercisable on the later of:

30 days after the completion of our initial business combination, and

12 months from the closing of this offering;

provided in each case that we have an effective registration statement under the Securities Act covering the shares of common stock issuable upon exercise of the warrants and a current prospectus relating to them is available (or we permit holders to exercise their warrants on a cashless basis under the circumstances specified in

(1) Assumes no exercise of the underwriters' over-allotment option and the forfeiture by our sponsor and Dennis A. Miller of 1,125,000 founder shares.

(2) This number includes up to 1,125,000 shares that are subject to forfeiture by our sponsor and Dennis A. Miller depending on the extent to which the underwriters' over-allotment option is exercised, and between 1,875,000 and 2,156,250 shares that are subject to forfeiture in the future by our initial stockholders, as described under Founder shares below.

TABLE OF CONTENTS

the warrant agreement) and such shares are registered, qualified or exempt from registration under the securities, or blue sky, laws of the state of residence of the holder.

We are not registering the shares of common stock issuable upon exercise of the warrants at this time. However, we have agreed to use our best efforts to file and have an effective registration statement covering the shares of common stock issuable upon exercise of the warrants, to maintain a current prospectus relating to those shares of common stock until the warrants expire or are redeemed, as specified in the warrant agreement; provided, that if our common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a covered security under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so a cashless basis in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement or register or qualify the shares under blue sky laws.

The warrants will expire at 5:00 p.m., New York City time, five years after the completion of our initial business combination or earlier upon redemption or liquidation. On the exercise of any warrant, the warrant exercise price will be paid directly to us and not placed in the trust account.

Redemption of warrants

Once the warrants become exercisable, we may redeem the outstanding warrants (except as described herein with respect to the private placement warrants):

in whole and not in part;

at a price of \$0.01 per warrant;

upon a minimum of 30 days prior written notice of redemption, which we refer to as the 30-day redemption period; and

if, and only if, the last sale price of our common stock equals or exceeds \$24.00 per share for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which we send the notice of redemption to the warrant holders.

We will not redeem the warrants unless an effective registration statement under the Securities Act covering the shares of common stock issuable upon exercise of the warrants is effective and a current prospectus relating to those shares of common stock is available throughout the 30-day redemption period, except if the warrants may be exercised on a cashless basis and such cashless exercise is exempt from registration under the Securities Act. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable

TABLE OF CONTENTS

to register or qualify the underlying securities for sale under all applicable state securities laws.

If we call the warrants for redemption as described above, our management will have the option to require all holders that wish to exercise warrants to do so on a cashless basis. In determining whether to require all holders to exercise their warrants on a cashless basis, our management will consider, among other factors, our cash position, the number of warrants that are outstanding and the dilutive effect on our stockholders of issuing the maximum number of shares of common stock issuable upon the exercise of our warrants. In such event, each holder would pay the exercise price by surrendering the warrants for that number of shares of common stock equal to the quotient obtained by dividing (x) the product of the number of shares of common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the fair market value (defined below) by (y) the fair market value. The fair market value shall mean the average reported last sale price of the common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants. Please see the section entitled Description of Securities Warrants Public Stockholders Warrants for additional information.

None of the private placement warrants will be redeemable by us so long as they are held by the initial purchasers of the private placement warrants or their permitted transferees.

Founder shares

On April 11, 2013, our sponsor and Dennis A. Miller purchased an aggregate of 10,000,000 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.003 per share. Our sponsor purchased 9,500,000 founder shares and Mr. Miller purchased 500,000 founder shares. Prior to the initial investment in the Company of \$25,000 by the sponsor and Dennis A. Miller, the Company had no assets, tangible or intangible. The purchase price of the founder shares was determined by dividing the amount of cash contributed to the Company by the number of founder shares issued. The number of founder shares issued was determined based on the initial expectation that the total size of this offering would be 40,000,000 units and therefore that such founder shares would represent 20% of the outstanding shares after this offering. Thereafter, we determined to reduce the size of this offering to 25,000,000 units, and on June 18, 2013, our sponsor and Mr. Miller returned to us at no cost, on a pro rata basis, an aggregate of 2,812,500 shares, which we cancelled. On July 10, 2013, our sponsor and Mr. Miller transferred 35,000 founder shares on a pro rata basis to each of James M. McNamara and Ernest Del, each of whom paid a purchase price of \$175 for their respective shares (at the same per-share

TABLE OF CONTENTS

purchase price initially paid by our sponsor and Mr. Miller) and agreed to serve on our board of directors upon the closing of this offering. The transfer of founder shares to the independent directors was made in reliance upon an exemption from the registration requirements of the Securities Act pursuant to the so-called 4(a)(1)-½ exemption. On July 22, 2013, in connection with the increase of the size of the offering, we effected a stock dividend of 0.2 shares for each outstanding share of common stock, resulting in our initial stockholders holding an aggregate of 8,625,000 shares of our common stock. Each of our independent directors thereafter transferred at no cost 6,650 shares to our sponsor and 350 shares to Mr. Miller. If we increase or decrease the size of the offering pursuant to Rule 462(b) under the Securities Act, we will effect another stock dividend or a share contribution back to capital, as applicable, immediately prior to the consummation of the offering in such amount as to maintain the ownership of our initial stockholders at 20.0% of our issued and outstanding shares of our common stock upon the consummation of this offering. Our initial stockholders will collectively own 20% of our issued and outstanding shares after this offering (assuming they do not purchase any units in this offering). Up to 1,125,000 founder shares will be subject to forfeiture by our sponsor and Mr. Miller depending on the extent to which the underwriters' over-allotment option is exercised. Our sponsor will forfeit 95% of these shares (up to 1,068,750 shares) and Mr. Miller will forfeit 5% of these shares (up to 56,250 shares). In addition, a portion of the founder shares in an amount equal to 25% of the founders shares, or 5% of our issued and outstanding shares after this offering and any exercise of the underwriters' over-allotment option, which we refer to as the founder earnout shares, will be subject to forfeiture by our initial stockholders. The number of founder earnout shares will be between 1,875,000 and 2,156,250, depending on the exercise of the underwriters' over-allotment option. The founder earnout shares will be subject to forfeiture as follows:

Half of the founder earnout shares (between 937,500 and 1,078,125 shares, depending on the extent to which the underwriters' over-allotment option is exercised) will be subject to forfeiture by our initial stockholders on the fifth anniversary of the completion of our initial business combination unless following our initial business combination the last sales price of our common stock equals or exceeds \$12.50 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period or we complete a liquidation, merger, stock exchange or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for

TABLE OF CONTENTS

consideration in cash, securities or other property which equals or exceeds \$12.50 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like); and

Half of the founder earnout shares (between 937,500 and 1,078,125 shares, depending on the extent to which the underwriters' over-allotment option is exercised) will be subject to forfeiture by our initial stockholders on the fifth anniversary of the completion of our initial business combination unless following our initial business combination the last sales price of our common stock equals or exceeds \$15.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period or we complete a liquidation, merger, stock exchange or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for consideration in cash, securities or other property which equals or exceeds \$15.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like).

25% of the founder shares held by each initial stockholder are founder earnout shares. If any founder earnout shares are required to be forfeited, our initial stockholders will forfeit their founder earnout shares on a pro rata basis according to the percentage of founder earnout shares held by such initial stockholder.

The founder shares are identical to the shares of common stock included in the units being sold in this offering, except that:

the founder shares are subject to certain transfer restrictions, as described in more detail below, and

our initial stockholders have entered into letter agreements with us, pursuant to which they have agreed (i) to waive their redemption rights with respect to their founder shares and public shares in connection with the completion of our initial business combination and (ii) to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 21 months (or 24 months, as applicable) from the closing of this offering (although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our business combination within the prescribed time

TABLE OF CONTENTS

frame). If we submit our initial business combination to our public stockholders for a vote, our initial stockholders have agreed to vote their founder shares and any public shares purchased during or after this offering in favor of our initial business combination.

Transfer restrictions on founder shares

Our initial stockholders have agreed not to transfer, assign or sell any of their founder shares until the earlier to occur of: (A) one year after the completion of our initial business combination or (B) the date on which we complete a liquidation, merger, stock exchange or other similar transaction after our initial business combination that results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property (except as described herein under Principal Stockholders Transfers of Common Stock and Warrants). We refer to such transfer restrictions throughout this prospectus as the lock-up. Notwithstanding the foregoing, if the last sales price of our common stock equals or exceeds \$12.50 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period, 50% of the founder shares will be released from the lock-up, and if the last sales price of our common stock equals or exceeds \$15.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period, the remaining 50% of the founder shares will be released from the lock-up.

Private placement warrants

Our sponsor and Dennis A. Miller have committed, pursuant to a written agreement, to purchase an aggregate of 15,000,000 private placement warrants, each exercisable to purchase one-half of one share of our common stock at \$5.75 per half share, at a price of \$0.50 per warrant, or \$7,500,000 in the aggregate, in a private placement that will occur simultaneously with the closing of this offering. Our sponsor has agreed to purchase 95% of these warrants and Mr. Miller has agreed to purchase 5% of these warrants. The purchase price of the private placement warrants will be added to the proceeds from this offering to be held in the trust account. If we do not complete our initial business combination within 21 months from the closing of this offering (or 24 months, as applicable), the proceeds of the sale of the private placement warrants will be used to fund the redemption of our public shares (subject to the requirements of applicable law) and the private placement warrants will expire worthless. The private placement warrants will be non-redeemable so long as they are held by their initial purchasers or their permitted transferees (except as described below under Principal Stockholders Transfers of Founder Shares and Private

TABLE OF CONTENTS

Placement Warrants). If the private placement warrants are held by holders other than their initial purchasers or their permitted transferees, the private placement warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering.

Transfer restrictions on private placement warrants

The private placement warrants (including the common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination and they will be non-redeemable so long as they are held by the initial purchasers of the private placement warrants or their permitted transferees (except as described herein under Principal Stockholders Transfers of Common Stock and Warrants).

Proceeds to be held in trust account

Of the \$307.5 million in proceeds we receive from this offering and the sale of the private placement warrants described in this prospectus, or approximately \$352.5 million if the underwriters over-allotment option is exercised in full, \$300 million (\$10.00 per unit), or approximately \$345.0 million (\$10.00 per unit) if the underwriters over-allotment option is exercised in full, will be deposited into a segregated trust account located in the United States at JP Morgan Chase Bank, N.A. with Continental Stock Transfer & Trust Company acting as trustee, and \$7.5 million will be used to pay expenses in connection with the closing of this offering and for working capital following this offering. The proceeds to be placed in the trust account include approximately up to \$10,750,000 (or approximately up to \$13,225,000 if the underwriters over-allotment option is exercised in full) in deferred underwriting commissions.

Except for the withdrawal of interest to pay income taxes, if any, and a one-time release of amounts necessary to pay Delaware franchise taxes for 2013 on a timely basis, which franchise tax we expect will equal approximately \$180,000, based on current rates, our amended and restated certificate of incorporation, as discussed below and subject to the requirements of law and stock exchange rules, provides that none of the funds held in the trust account will be released from the trust account until the earlier of (i) the completion of our initial business combination and (ii) the redemption of 100% of our public shares if we are unable to complete our initial business combination within 21 months from the closing of this offering (or 24 months from the closing of this offering if we have executed a letter of intent, agreement in principle or definitive agreement for an initial business combination within 21 months from the closing of this offering but have not completed the initial business

TABLE OF CONTENTS

combination within such 21-month period). Based on current interest rates, we do not expect that the interest earned on the trust account, net of income taxes, will be sufficient to pay Delaware franchise taxes for 2013. Accordingly, after the payment of such franchise taxes from amounts held in the trust account, the amount per public share held in the trust account will be reduced to approximately \$9.99 per share. The proceeds deposited in the trust account could become subject to the claims of our creditors, if any, which could have priority over the claims of our public stockholders.

Anticipated expenses and funding sources

Unless and until we complete our initial business combination, no proceeds held in the trust account will be available for our use, except for the withdrawal of interest to pay income taxes, if any, and a one-time release of amounts necessary to pay Delaware franchise taxes for 2013 on a timely basis, which we expect will equal approximately \$180,000, based on current rates. Unless and until we complete our initial business combination, we may pay our expenses only from:

the net proceeds of this offering not held in the trust account, which will be approximately \$1,000,000 in working capital after the payment of approximately \$750,000 in expenses relating to this offering; and

any loans or additional investments from our sponsor, members of our management team or their affiliates or other third parties, although they are under no obligation to advance funds or invest in us, and provided any such loans will not have any claim on the proceeds held in the trust account unless such proceeds are released to us upon completion of a business combination.

Conditions to completing our initial business combination

There is no limitation on our ability to raise funds privately or through loans in connection with our initial business combination. Our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of our assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination. If our board is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking or accounting firm that is a member of FINRA. We will complete our initial business combination only if the post-transaction company in which our public stockholders own shares will own or acquire 50% or more of the outstanding voting securities of the target or is

TABLE OF CONTENTS

otherwise not required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the business combination transaction. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of the 80% of net assets test, provided that in the event that the business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses even if the acquisitions of the target businesses are not closed simultaneously.

Permitted purchases of public shares by our affiliates

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our initial stockholders, directors, executive officers, advisors or their affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. If they engage in such transactions, they will not make any such purchases when they are in possession of any material nonpublic information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Securities Exchange Act of 1934, as amended, or the Exchange Act. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.

Redemption rights for public stockholders upon completion of our initial business combination

We will provide our stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of our initial business combination, including interest, less franchise

TABLE OF CONTENTS

and income taxes payable, divided by the number of then outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. There will be no redemption rights upon the completion of our initial business combination with respect to our warrants. Our initial stockholders have entered into letter agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and any public shares they may acquire during or after this offering in connection with the completion of our business combination.

Manner of conducting redemptions

We will provide our stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination either (i) in connection with a stockholder meeting called to approve the business combination or (ii) by means of a tender offer. The decision as to whether we will seek stockholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek stockholder approval under the law or stock exchange listing requirement. Asset acquisitions and stock purchases would not typically require stockholder approval while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our outstanding common stock or seek to amend our amended and restated certificate of incorporation would require stockholder approval. We intend to conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC unless stockholder approval is required by law or stock exchange listing requirement or we choose to seek stockholder approval for business or other legal reasons.

If a stockholder vote is not required and we do not decide to hold a stockholder vote for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation:

conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers, and

file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

TABLE OF CONTENTS

Upon the public announcement of our business combination, if we elect to conduct redemption pursuant to the tender offer rules, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase shares of our common stock in the open market, in order to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public shareholders not tendering more than a specified number of public shares, which number will be based on the requirement that we may not redeem public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's penny stock rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete the initial business combination.

If, however, stockholder approval of the transaction is required by law or stock exchange listing requirement, or we decide to obtain stockholder approval for business or other legal reasons, we will:

conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules, and

file proxy materials with the SEC.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the business combination. In such case, our initial stockholders have agreed to vote their founder shares and any public shares purchased during or after this offering in favor of our initial business combination. Each public stockholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction.

Our amended and restated certificate of incorporation provides that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's penny stock rules) or any greater net tangible asset or cash requirement which may be

TABLE OF CONTENTS

contained in the agreement relating to our initial business combination. For example, the proposed business combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all shares of common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, and all shares of common stock submitted for redemption will be returned to the holders thereof.

Limitation on redemption rights of stockholders holding 10% or more of the shares sold in this offering if we hold stockholder vote

Notwithstanding the foregoing redemption rights, if we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a group (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 10% of the shares sold in this offering. We believe the restriction described above will discourage stockholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to redeem their shares as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder holding more than an aggregate of 10% of the shares sold in this offering could threaten to exercise its redemption rights against a business combination if such holder's shares are not purchased by us or our management at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders' ability to redeem to no more than 10% of the shares sold in this offering, we believe we will limit the ability of a small group of stockholders to unreasonably attempt to block our ability to complete our business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, we

19

TABLE OF CONTENTS

would not be restricting our stockholders' ability to vote all of their shares (including all shares held by those stockholders that hold more than 10% of the shares sold in this offering) for or against our business combination.

Release of funds in trust account on closing of our initial business combination

On the completion of our initial business combination, all amounts held in the trust account will be released to us. We will use these funds to pay amounts due to any public stockholders who exercise their redemption rights as described above under "Redemption rights for public stockholders upon completion of our initial business combination," to pay the underwriters their deferred underwriting commissions, to pay all or a portion of the consideration payable to the target or owners of the target of our initial business combination and to pay other expenses associated with our initial business combination. If our initial business combination is paid for using stock or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of post-transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

Redemption of public shares and distribution and liquidation if no initial business combination

Our sponsor, executive officers, directors and director nominees have agreed that we will have only 21 months from the closing of this offering to complete our initial business combination (or 24 months from the closing of this offering if we have executed a letter of intent, agreement in principle or definitive agreement for an initial business combination within 21 months from the closing of this offering but have not completed the initial business combination within such 21-month period). If we are unable to complete our initial business combination within such 21-month period (or 24-month period), we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses), less franchise and income taxes payable, divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders

20

TABLE OF CONTENTS

(including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our business combination within the 21-month time period (or 24-month time period, as applicable).

Our initial stockholders have entered into letter agreements with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 21 months from the closing of this offering (or 24 months from the closing of this offering if we have executed a letter of intent, agreement in principle or definitive agreement for an initial business combination within 21 months from the closing of this offering but have not completed the initial business combination within such 21-month period). However, if our initial stockholders acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted 21-month (or 24-month, as applicable) time frame.

The underwriters have agreed to waive their rights to their deferred underwriting commission held in the trust account in the event we do not complete our initial business combination within 21 months from the closing of this offering (or 24 months, as applicable) and, in such event, such amounts will be included with the funds held in the trust account that will be available to fund the redemption of our public shares.

Our sponsor, executive officers, directors and director nominees have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 21 months from the closing of this offering (or 24 months, as applicable), unless we provide our public stockholders with the opportunity to redeem their shares of common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest, less franchise and income taxes payable, divided by the number of then outstanding public shares. However, we

TABLE OF CONTENTS

may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's penny stock rules).

Limited payments to insiders

There will be no finder's fees, reimbursements or cash payments made to our sponsor, officers or directors, or our or their affiliates, for services rendered to us prior to or in connection with the completion of our initial business combination, other than the following payments, none of which will be made from the proceeds of this offering held in the trust account prior to the completion of our initial business combination:

Repayment of up to an aggregate of \$200,000 in loans made to us by our sponsor to cover offering-related and organizational expenses;

Consulting fees payable to our chief financial officer, James A. Graf, or an entity owned or controlled by Mr. Graf, of \$15,000 per month, payable commencing on the date of this prospectus, plus, in the event that Mr. Graf is no longer receiving medical insurance from an employer, an additional amount per month to reimburse Mr. Graf for the purchase of such insurance, for services prior to the closing of our initial business combination (regardless of the amount of services provided), including preparation of our financial statements, SEC filings, financial due diligence of targets for our initial business combination and negotiations of an agreement for our initial business combination;

Reimbursement for office space, secretarial and administrative services provided to members of our management team by our sponsor, members of our sponsor and members of our management team or their affiliates, in an amount not to exceed \$10,000 per month, in the event such space and/or services are utilized and we do not pay a third party directly for such services;

Reimbursement for any out-of-pocket expenses related to identifying, investigating and completing an initial business combination; and

Repayment of loans which may be made by our sponsor or an affiliate of our sponsor or certain of our officers and directors to finance transaction costs in connection with an intended initial business combination, the terms of which have not been determined nor have any written agreements been executed with respect thereto.

TABLE OF CONTENTS

Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers or directors, or our or their affiliates.

Audit Committee

We have established and will maintain an audit committee, which initially will be composed of a majority of independent directors and, within one year of the date of this offering, will be composed entirely of independent directors to, among other things, monitor compliance with the terms described above and the other terms relating to this offering. If any noncompliance is identified, then the audit committee will be charged with the responsibility to immediately take all action necessary to rectify such noncompliance or otherwise to cause compliance with the terms of this offering. For more information, see the section entitled Management Committees of the Board of Directors Audit Committee.

23

TABLE OF CONTENTS

Risks

We are a newly formed company that has conducted no operations and has generated no revenues. Until we complete our initial business combination, we will have no operations and will generate no operating revenues. In making your decision whether to invest in our securities, you should take into account not only the background of our management team, but also the special risks we face as a blank check company. This offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. Accordingly, you will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. For additional information concerning how Rule 419 blank check offerings differ from this offering, please see Proposed Business Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419. You should carefully consider these and the other risks set forth in the section entitled Risk Factors beginning on page 26 of this prospectus.

TABLE OF CONTENTS

Summary Financial Data

The following table summarizes the relevant financial data for our business and should be read with our financial statements, which are included in this prospectus. We have not had any significant operations to date, so only balance sheet data is presented.

	April 19, 2013	
	Actual	As Adjusted
Balance Sheet Data:		
Working capital (deficiency)	\$20,000	\$290,270,000
Total assets	\$45,000	\$301,020,000
Total liabilities	\$25,000	\$10,750,000
Value of common stock that may be redeemed in connection with our initial business combination (\$10.00 per share)	\$	\$285,269,990
Stockholders' equity ⁽¹⁾	\$20,000	\$5,000,010

(1) Excludes shares subject to redemption in connection with our initial business combination.

The as adjusted information gives effect to the sale of the units in this offering, the sale of the private placement warrants, repayment of up to an aggregate of \$200,000 in loans made to us by our sponsor and the payment of the estimated expenses of this offering. The as adjusted total assets amount includes the \$300.0 million held in the trust account (\$345.0 million if the underwriter's over-allotment option is exercised in full) for the benefit of our public stockholders, which amount, less deferred underwriting commissions, will be available to us only upon the completion of our initial business combination within 21 months from the closing of this offering (or 24 months from the closing of this offering if we have executed a letter of intent, agreement in principle or definitive agreement for an initial business combination within 21 months from the closing of this offering but have not completed the initial business combination within such 21-month period). The as adjusted working capital and as adjusted total assets include up to \$10.75 million being held in the trust account (up to approximately \$13.2 million if the underwriters' over-allotment option is exercised in full) representing deferred underwriting commissions. The underwriters will not be entitled to any interest accrued on the deferred underwriting discounts and commissions.

If no business combination is completed within 21 months from the closing of this offering (or 24 months, as applicable), the proceeds then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses), less franchise and income taxes payable, will be used to fund the redemption of our public shares. Our initial stockholders have entered into letter agreements with us, pursuant to which they have agreed to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within such 21-month time period (or 24-month period, as applicable).

TABLE OF CONTENTS

RISK FACTORS

An investment in our securities involves a high degree of risk. You should consider carefully all of the risks described below, together with the other information contained in this prospectus, before making a decision to invest in our units. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment.

We are a newly formed development stage company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.

We are a recently formed development stage company with no operating results, and we will not commence operations until obtaining funding through this offering. Because we lack an operating history, you have no basis upon which to evaluate our ability to achieve our business objective of completing our initial business combination with one or more target businesses. We have no plans, arrangements or understandings with any prospective target business concerning a business combination and may be unable to complete our business combination. If we fail to complete our business combination, we will never generate any operating revenues.

Our public stockholders may not be afforded an opportunity to vote on our proposed business combination, which means we may complete our initial business combination even though a majority of our public stockholders do not support such a combination.

We may not hold a stockholder vote before we complete our initial business combination unless the business combination would require stockholder approval under applicable law or stock exchange listing requirement or if we decide to hold a stockholder vote for business or other legal reasons. Accordingly, we may complete our initial business combination even if holders of a majority of our public shares do not approve of the business combination we complete. Please see the section entitled **Proposed Business Stockholders May Not Have the Ability to Approve Our Initial Business Combination** for additional information.

If we seek stockholder approval of our initial business combination, our initial stockholders have agreed to vote in favor of such initial business combination, regardless of how our public stockholders vote.

Unlike many other blank check companies in which the initial stockholders agree to vote their founder shares in accordance with the majority of the votes cast by the public stockholders in connection with an initial business combination, our initial stockholders have agreed to vote their founder shares, as well as any public shares purchased

during or after this offering, in favor of our initial business combination. Our initial stockholders will own up to 20% of our outstanding shares of common stock immediately following the completion of this offering. Accordingly, if we seek stockholder approval of our initial business combination, it is more likely that the necessary stockholder approval will be received than would be the case if our initial stockholders agreed to vote their founder shares in accordance with the majority of the votes cast by our public stockholders.

Your only opportunity to affect the investment decision regarding a potential business combination will be limited to the exercise of your right to redeem your shares from us for cash, unless we seek stockholder approval of the business combination.

At the time of your investment in us, you will not be provided with an opportunity to evaluate the specific merits or risks of one or more target businesses. Since our board of directors may complete a business combination without seeking stockholder approval, public stockholders may not have the right or opportunity to vote on the business combination, unless we seek such stockholder vote. Accordingly, your only opportunity to affect the investment decision regarding a potential business combination may be limited to exercising your

TABLE OF CONTENTS

redemption rights within the period of time (which will be at least 20 business days) set forth in our tender offer documents mailed to our public stockholders in which we describe our initial business combination.

The ability of our public stockholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into a business combination with a target.

We may seek to enter into a business combination transaction agreement with a prospective target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public stockholders exercise their redemption rights, we would not be able to meet such closing condition and, as a result, would not be able to proceed with the business combination. Furthermore, in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's penny stock rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. Consequently, if accepting all properly submitted redemption requests would cause our net tangible assets to be less than \$5,000,001 or such greater amount necessary to satisfy a closing condition as described above, we would not proceed with such redemption and the related business combination and may instead search for an alternate business combination. Prospective targets will be aware of these risks and, thus, may be reluctant to enter into a business combination transaction with us.

The ability of our stockholders to exercise redemption rights with respect to a large number of our shares may not allow us to complete the most desirable business combination or optimize our capital structure.

At the time we enter into an agreement for our initial business combination, we will not know how many stockholders may exercise their redemption rights, and therefore will need to structure the transaction based on our expectations as to the number of shares that will be submitted for redemption. If our business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, we will need to reserve a portion of the cash in the trust account to meet such requirements, or arrange for third party financing. In addition, if a larger number of shares are submitted for redemption than we initially expected, we may need to restructure the transaction to reserve a greater portion of the cash in the trust account or arrange for third party financing. Raising additional third party financing may involve dilutive equity issuances or the incurrence of indebtedness at higher than desirable levels. The above considerations may limit our ability to complete the most desirable business combination available to us or optimize our capital structure.

The ability of our stockholders to exercise redemption rights with respect to a large number of our shares could increase the probability that our initial business combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your stock.

Your only opportunity to affect the investment decision regarding a potential business combination will be limited to t

If our business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, the probability that our initial business combination would be unsuccessful is increased. If our initial business combination is unsuccessful, you would not receive your pro rata portion of the trust account until we liquidate the trust account. If you are in need of immediate liquidity, you could attempt to sell your stock in the open market; however, at such time our stock may trade at a discount to the pro rata amount per share in the trust account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with our redemption until we liquidate or you are able to sell your stock in the open market.

TABLE OF CONTENTS

The requirement that we complete our initial business combination within the prescribed time frame may give potential target businesses leverage over us in negotiating a business combination and may decrease our ability to conduct due diligence on potential business combination targets as we approach our dissolution deadline, which could undermine our ability to complete our business combination on terms that would produce value for our stockholders.

Any potential target business with which we enter into negotiations concerning a business combination will be aware that we must complete our initial business combination within 21 months from the closing of this offering (or 24 months from the closing of this offering if we have executed a letter of intent, agreement in principle or definitive agreement for an initial business combination within 21 months from the closing of this offering but have not completed the initial business combination within such 21-month period). Consequently, such target business may obtain leverage over us in negotiating a business combination, knowing that if we do not complete our initial business combination with that particular target business, we may be unable to complete our initial business combination with any target business. This risk will increase as we get closer to the timeframe described above. In addition, we may have limited time to conduct due diligence and may enter into our initial business combination on terms that we would have rejected upon a more comprehensive investigation.

We may not be able to complete our initial business combination within the prescribed time frame, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and liquidate

Our sponsor, executive officers and directors have agreed that we must complete our initial business combination within 21 months from the closing of this offering (or 24 months, as applicable). We may not be able to find a suitable target business and complete our initial business combination within such time period. If we have not completed our initial business combination within such time period, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses), less franchise and income taxes payable, divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

The requirement that we complete our initial business combination within the prescribed time frame may give poten

If we seek stockholder approval of our initial business combination, our sponsor, directors, executive officers, advisors and their affiliates may elect to purchase shares from public stockholders, which may influence a vote on a proposed business combination and reduce the public float of our common stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our sponsor, directors, executive officers, advisors or their affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination, although they are under no obligation to do so. Such a purchase may include a contractual acknowledgement that such stockholder, although still the record holder of our shares is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. In the event that our sponsor, directors, executive officers, advisors or their affiliates purchase shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. The purpose of such purchases could be to vote such shares in favor of the business combination and thereby increase the likelihood of obtaining stockholder approval of the business

TABLE OF CONTENTS

combination or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our business combination, where it appears that such requirement would otherwise not be met. This may result in the completion of our business combination that may not otherwise have been possible.

In addition, if such purchases are made, the public float of our common stock and the number of beneficial holders of our securities may be reduced, possibly making it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

If a stockholder fails to receive notice of our offer to redeem our public shares in connection with our business combination, or fails to comply with the procedures for tendering its shares, such shares may not be redeemed.

We will comply with the tender offer rules or proxy rules, as applicable, when conducting redemptions in connection with our business combination. Despite our compliance with these rules, if a stockholder fails to receive our tender offer or proxy materials, as applicable, such stockholder may not become aware of the opportunity to redeem its shares. In addition, the tender offer documents or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will describe the various procedures that must be complied with in order to validly tender or redeem public shares. In the event that a stockholder fails to comply with these procedures, its shares may not be redeemed. See Proposed Business Business Strategy Tendering stock certificates in connection with a tender offer or redemption rights.

You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. To liquidate your investment, therefore, you may be forced to sell your public shares or warrants, potentially at a loss.

Our public stockholders will be entitled to receive funds from the trust account only upon the earlier to occur of: (i) our completion of an initial business combination, and then only in connection with those shares of our common stock that such stockholder properly elected to redeem, subject to the limitations described herein, and (ii) the redemption of our public shares if we are unable to complete an initial business combination within 21 months from the closing of this offering (or 24 months, as applicable), subject to applicable law and as further described herein. In addition, if our plan to redeem our public shares if we are unable to complete an initial business combination within 21 months (or 24 months, as applicable) from the closing of this offering is not completed for any reason, compliance with Delaware law may require that we submit a plan of dissolution to our then-existing stockholders for approval prior to the distribution of the proceeds held in our trust account. In that case, public stockholders may be forced to wait beyond 21 months (or 24 months, as applicable) from the closing of this offering before they receive funds from our trust account. In no other circumstances will a public stockholder have any right or interest of any kind in the trust account. Accordingly, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

NASDAQ may delist our securities from trading on its exchange, which could limit investors ability to make transactions in our securities and subject us to additional trading restrictions.

We have been approved to have our units listed on NASDAQ on or promptly after the date of this prospectus and our common stock and warrants on or promptly after their date of separation. Although after giving effect to this offering we expect to meet, on a pro forma basis, the minimum initial listing standards set forth in the NASDAQ listing standards, we cannot assure you that our securities will be, or will continue to be, listed on NASDAQ in the future or prior to our initial business combination. In order to continue listing our securities on NASDAQ prior to our initial business combination, we must maintain certain financial, distribution and stock price levels. Generally, we must maintain a minimum amount in stockholders equity (generally \$2,500,000) and a minimum number of holders of our securities (generally 300)

TABLE OF CONTENTS

round-lot holders). Additionally, in connection with our initial business combination, we will be required to demonstrate compliance with NASDAQ's initial listing requirements, which are more rigorous than NASDAQ's continued listing requirements, in order to continue to maintain the listing of our securities on NASDAQ. For instance, our stock price would generally be required to be at least \$4.00 per share and our stockholders' equity would generally be required to be at least \$5.0 million. We cannot assure you that we will be able to meet those initial listing requirements at that time.

If NASDAQ delists our securities from trading on its exchange and we are not able to list our securities on another national securities exchange, we expect our securities could be quoted on an over-the-counter market. If this were to occur, we could face significant material adverse consequences, including:

a limited availability of market quotations for our securities;
reduced liquidity for our securities;

a determination that our common stock is a penny stock which will require brokers trading in our common stock to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;

a limited amount of news and analyst coverage; and
a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as covered securities. Because we expect that our units and eventually our common stock and warrants will be listed on NASDAQ, our units, common stock and warrants will be covered securities. Although the states are preempted from regulating the sale of our securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. While we are not aware of a state having used these powers to prohibit or restrict the sale of securities issued by blank check companies, certain state securities regulators view blank check companies unfavorably and might use these powers, or threaten to use these powers, to hinder the sale of securities of blank check companies in their states. Further, if we were no longer listed on NASDAQ, our securities would not be covered securities and we would be subject to regulation in each state in which we offer our securities.

You will not be entitled to protections normally afforded to investors of many other blank check companies.

Since the net proceeds of this offering and the sale of the private placement warrants are intended to be used to complete an initial business combination with a target business that has not been identified, we may be deemed to be a blank check company under the United States securities laws. However, because we will have net tangible assets in excess of \$5,000,000 upon the successful completion of this offering and the sale of the private placement warrants and will file a Current Report on Form 8-K, including an audited balance sheet demonstrating this fact, we are exempt from rules promulgated by the SEC to protect investors in blank check companies, such as Rule 419. Accordingly, investors will not be afforded the benefits or protections of those rules. Among other things, this means our units will be immediately tradable and we will have a longer period of time to complete our business combination than do companies subject to Rule 419. Moreover, if this offering were subject to Rule 419, that rule would prohibit the release of any interest earned on funds held in the trust account to us unless and until the funds in the trust account were released to us in connection with our completion of an initial business combination. For a more detailed comparison of our offering to offerings that

TABLE OF CONTENTS

comply with Rule 419, please see Proposed Business Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a group of stockholders are deemed to hold in excess of 10% of our common stock, you will lose the ability to redeem all such shares in excess of 10% of our common stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a group (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 10% of the shares sold in this offering, which we refer to as the Excess Shares. However, we would not be restricting our stockholders' ability to vote all of their shares (including Excess Shares) for or against our business combination. Your inability to redeem the Excess Shares will reduce your influence over our ability to complete our business combination and you could suffer a material loss on your investment in us if you sell Excess Shares in open market transactions. Additionally, you will not receive redemption distributions with respect to the Excess Shares if we complete our business combination. And as a result, you will continue to hold that number of shares exceeding 10% and, in order to dispose of such shares, would be required to sell your stock in open market transactions, potentially at a loss.

Because of our limited resources and the significant competition for business combination opportunities, it may be more difficult for us to complete our initial business combination. If we are unable to complete our initial business combination, our public stockholders may receive only \$10.00 per share on our redemption, and our warrants will expire worthless.

We expect to encounter intense competition from other entities having a business objective similar to ours, including private investors (which may be individuals or investment partnerships), other blank check companies and other entities, domestic and international, competing for the types of businesses we intend to acquire. Many of these individuals and entities are well-established and have extensive experience in identifying and effecting, directly or indirectly, acquisitions of companies operating in or providing services to various industries. Many of these competitors possess greater technical, human and other resources or more local industry knowledge than we do and our financial resources will be relatively limited when contrasted with those of many of these competitors. While we believe there are numerous target businesses we could potentially acquire with the net proceeds of this offering and the sale of the private placement warrants, our ability to compete with respect to the acquisition of certain target businesses that are sizable will be limited by our available financial resources. This inherent competitive limitation

If we seek stockholder approval of our initial business combination and we do not conduct redemptions pursuant to

gives others an advantage in pursuing the acquisition of certain target businesses. Furthermore, if we are obligated to pay cash for the shares of common stock redeemed and, in the event we seek stockholder approval of our business combination, we make purchases of our common stock in the open market, potentially reducing the resources available to us for our initial business combination. Any of these obligations may place us at a competitive disadvantage in successfully negotiating a business combination. If we are unable to complete our initial business combination, our public stockholders may receive only \$10.00 per share on our redemption, and our warrants will expire worthless.

If the net proceeds of this offering not being held in the trust account are insufficient to allow us to operate for at least the next 21 months (or 24 months, as applicable), we may be unable to complete our initial business combination.

The funds available to us outside of the trust account may not be sufficient to allow us to operate for at least the next 21 months (or 24 months, as applicable), assuming that our initial business combination is not completed during that time. We believe that, upon closing of this offering, the funds available to us outside of the trust account, will be sufficient to allow us to

TABLE OF CONTENTS

operate for at least the next 21 months (or 24 months, as applicable); however, we cannot assure you that our estimate is accurate. Of the funds available to us, we could use a portion of the funds available to us to pay fees to consultants to assist us with our search for a target business. We could also use a portion of the funds as a down payment or to fund a no-shop provision (a provision in letters of intent designed to keep target businesses from shopping around for transactions with other companies on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into a letter of intent where we paid for the right to receive exclusivity from a target business and were subsequently required to forfeit such funds (whether as a result of our breach or otherwise), we might not have sufficient funds to continue searching for, or conduct due diligence with respect to, a target business. If we are unable to complete our initial business combination, our public stockholders may only receive \$10.00 per share on our redemption, and our warrants will expire worthless.

If the net proceeds of this offering not being held in the trust account are insufficient, it could limit the amount available to fund our search for a target business or businesses and complete our initial business combination and we will depend on loans from our sponsor or management team to fund our search, to pay our franchise and income taxes and to complete our business combination.

Of the net proceeds of this offering, only approximately \$1,000,000 will be available to us initially outside the trust account to fund our working capital requirements. In the event that our offering expenses exceed our estimate of \$750,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$750,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount. If we are required to seek additional capital, we would need to borrow funds from our sponsor, management team or other third parties to operate or may be forced to liquidate. Neither our sponsor, members of our management team nor any of their affiliates is under any obligation to advance funds to us in such circumstances. Any such advances would be repaid only from funds held outside the trust account or from funds released to us upon completion of our initial business combination. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. Consequently, our public stockholders may only receive \$10.00 per share on our redemption of our public shares, and our warrants will expire worthless.

Subsequent to our completion of our initial business combination, we may be required to subsequently take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and our stock price, which could cause you to lose some or all of your investment.

If the net proceeds of this offering not being held in the trust account are insufficient to allow us to operate ~~46~~ at least

Even if we conduct extensive due diligence on a target business with which we combine, we cannot assure you that this diligence will surface all material issues that may be present inside a particular target business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of the target business and outside of our control will not later arise. As a result of these factors, we may be forced to later write-down or write-off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining post-combination debt financing. Accordingly, any stockholders who choose to remain stockholders following the business combination could suffer a reduction in the value of their

TABLE OF CONTENTS

shares. Such stockholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the tender offer materials or proxy statement relating to the business combination contained an actionable material misstatement or material omission.

If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share.

Our placing of funds in the trust account may not protect those funds from third party claims against us. Although we will seek to have all vendors, service providers (other than our independent accountants), prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, such parties may not execute such agreements, or even if they execute such agreements they may not be prevented from bringing claims against the trust account, including, but not limited to, fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative.

Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Upon redemption of our public shares, if we are unable to complete our business combination within the prescribed timeframe, or upon the exercise of a redemption right in connection with our business combination, we will be required to provide for payment of claims of creditors that were not waived that may be brought against us within the 10 years following redemption. Accordingly, the per-share redemption amount received by public stockholders could be less than the \$10.00 per share initially held in the trust account, due to claims of such creditors. Messrs. Sloan and Sagansky have agreed that they will be jointly and severally liable to us if and to the extent any claims by a vendor for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amounts in the trust account to below the lesser of (i) \$10.00 per share and (ii) the actual amount per share held in the trust account as of the date of the liquidation of the trust account, in each case less franchise and income taxes payable, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, Messrs. Sloan and Sagansky will not be responsible to the extent of any liability for such third party claims. However, we have not asked Messrs. Sloan and Sagansky to reserve for such indemnification obligations and we cannot assure you that Messrs. Sloan and Sagansky would be able to satisfy those obligations. None of our other officers or directors will indemnify us for claims by third parties including, without

If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share re

limitation, claims by vendors and prospective target businesses.

33

TABLE OF CONTENTS

Our directors may decide not to enforce the indemnification obligations of Messrs. Sloan and Sagansky, resulting in a reduction in the amount of funds in the trust account available for distribution to our public stockholders.

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.00 per share and (ii) the actual amount per share held in the trust account as of the date of the liquidation of the trust account, in each case less franchise and income taxes payable, and Messrs. Sloan and Sagansky assert that they are unable to satisfy their joint and several obligations or that they have no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against Messrs. Sloan or Sagansky to enforce their indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against Messrs. Sloan and Sagansky to enforce their indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in any particular instance. If our independent directors choose not to enforce these indemnification obligations, the amount of funds in the trust account available for distribution to our public stockholders may be reduced below \$10.00 per share.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, a bankruptcy court may seek to recover such proceeds, and the members of our board of directors may be viewed as having breached their fiduciary duties to our creditors, thereby exposing the members of our board of directors and us to claims of punitive damages.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a preferential transfer or a fraudulent conveyance. As a result, a bankruptcy court could seek to recover all amounts received by our stockholders. In addition, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or having acted in bad faith, thereby exposing itself and us to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors.

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the claims of creditors in such proceeding may have priority over the claims of our stockholders and the per-share

Our directors may decide not to enforce the indemnification obligations of Messrs. Sloan and Sagansky, resulting in

amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our business combination.

If we are deemed to be an investment company under the Investment Company Act, our activities may be restricted, including:

restrictions on the nature of our investments; and
restrictions on the issuance of securities,

each of which may make it difficult for us to complete our business combination.

TABLE OF CONTENTS

In addition, we may have imposed upon us burdensome requirements, including:

registration as an investment company;
adoption of a specific form of corporate structure; and
reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations.

In order not to be regulated as an investment company under the Investment Company Act, unless we can qualify for an exclusion, we must ensure that we are engaged primarily in a business other than investing, reinvesting or trading of securities and that our activities do not include investing, reinvesting, owning, holding or trading investment securities constituting more than 40% of our assets (exclusive of U.S. government securities and cash items) on an unconsolidated basis. Our business will be to identify and complete a business combination and thereafter to operate the post-transaction business or assets for the long term. We do not plan to buy businesses or assets with a view to resale or profit from their resale. We do not plan to buy unrelated businesses or assets or to be a passive investor.

We do not believe that our anticipated principal activities will subject us to the Investment Company Act. To this end, the proceeds held in the trust account may only be invested in United States government securities within the meaning of Section 2(a)(16) of the Investment Company Act having a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations. Pursuant to the trust agreement, the trustee is not permitted to invest in other securities or assets. By restricting the investment of the proceeds to these instruments, and by having a business plan targeted at acquiring and growing businesses for the long term (rather than on buying and selling businesses in the manner of a merchant bank or private equity fund), we intend to avoid being deemed an investment company within the meaning of the Investment Company Act. This offering is not intended for persons who are seeking a return on investments in government securities or investment securities. The trust account is intended as a holding place for funds pending the earlier to occur of either: (i) the completion of our primary business objective, which is a business combination; or (ii) absent a business combination, our return of the funds held in the trust account to our public stockholders as part of our redemption of the public shares. If we do not invest the proceeds as discussed above, we may be deemed to be subject to the Investment Company Act. If we were deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to complete a business combination. If we are unable to complete our initial business combination, our public stockholders may only receive \$10.00 per share on our redemption, and our warrants will expire worthless.

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, investments and results of operations.

We are subject to laws and regulations enacted by national, regional and local governments. In particular, we will be required to comply with certain SEC and other legal requirements. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly. Those laws and regulations and their interpretation and application may also change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business and results of operations.

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute

Our stockholders may be held liable for claims by third parties against us to the extent of distributions received by them upon redemption of their shares.

Under the Delaware General Corporation Law, or DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a

TABLE OF CONTENTS

dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within 21 months from the closing of this offering (or 24 months from the closing of this offering if we have executed a letter of intent, agreement in principle or definitive agreement for an initial business combination within 21 months from the closing of this offering but have not completed the initial business combination within such 21-month period) may be considered a liquidation distribution under Delaware law. If a corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution. However, it is our intention to redeem our public shares as soon as reasonably possible following the 21st month from the closing of this offering (or 24th month, as applicable) in the event we do not complete our business combination and, therefore, we do not intend to comply with those procedures.

Because we will not be complying with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the 10 years following our dissolution. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers, etc.) or prospective target businesses. If our plan of distribution complies with Section 281(b) of the DGCL, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would likely be barred after the third anniversary of the dissolution. We cannot assure you that we will properly assess all claims that may be potentially brought against us. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend beyond the third anniversary of such date. Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within 21 months from the closing of this offering (or 24 months, as applicable) is not considered a liquidation distribution under Delaware law and such redemption distribution is deemed to be unlawful, then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidation distribution.

We may not hold an annual meeting of stockholders until after the consummation of our initial business combination.

In accordance with NASDAQ corporate governance requirements, we are not required to hold an annual meeting until one year after our first fiscal year end following our listing on NASDAQ. Under Section 211(b) of the Delaware General Corporation Law, we are, however, required to hold an annual meeting of stockholders for the purposes of electing directors in accordance with our bylaws unless such election is made by written consent in lieu of such a meeting. We may not hold an annual meeting of stockholders to elect new directors prior to the consummation of our initial business combination, and thus we may not be in compliance with Section 211(b) of the Delaware General Corporation Law, which requires an annual meeting. Therefore, if our stockholders want us to hold an annual meeting prior to the consummation of our initial business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the Delaware General Corporation Law.

We may not hold an annual meeting of stockholders until after the consummation of our initial business combination.

TABLE OF CONTENTS

We are not registering the shares of common stock issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time, and such registration may not be in place when an investor desires to exercise warrants, thus precluding such investor from being able to exercise its warrants and causing such warrants to expire worthless.

We are not registering the shares of common stock issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time. However, under the terms of the warrant agreement, we have agreed to use our best efforts to file a registration statement under the Securities Act covering such shares and maintain a current prospectus relating to the common stock issuable upon exercise of the warrants. We cannot assure you that we will be able to do so if, for example, any facts or events arise which represent a fundamental change in the information set forth in the registration statement or prospectus, the financial statements contained or incorporated by reference therein are not current or correct or the SEC issues a stop order. If the shares issuable upon exercise of the warrants are not registered under the Securities Act, we will be required to permit holders to exercise their warrants on a cashless basis. However, no warrant will be exercisable for cash or on a cashless basis, and we will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, unless an exemption is available. Notwithstanding the above, if our common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a covered security under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a cashless basis in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement or register or qualify the shares under blue sky laws. In no event will we be required to net cash settle any warrant, or issue securities or other compensation in exchange for the warrants in the event that we are unable to register or qualify the shares underlying the warrants under the Securities Act or applicable state securities laws. If the issuance of the shares upon exercise of the warrants is not so registered or qualified or exempt from registration or qualification, the holder of such warrant shall not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In such event, holders who acquired their warrants as part of a purchase of units will have paid the full unit purchase price solely for the shares of common stock included in the units. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying shares of common stock for sale under all applicable state securities laws.

The grant of registration rights to our initial stockholders and holders of our private placement warrants may make it more difficult to complete our initial business combination, and the future exercise of such rights may adversely affect the market price of our common stock.

Pursuant to an agreement to be entered into concurrently with the issuance and sale of the securities in this offering, our initial stockholders and their permitted transferees can demand that we register the founder shares, holders of our private placement warrants and their permitted transferees can demand that we register the private placement warrants and the shares of common stock issuable upon exercise of the private placement warrants and holders of warrants that

We are not registering the shares of common stock issuable upon exercise of the warrants under the Securities Act

may be issued upon conversion of working capital loans may demand that we register such warrants or the common stock issuable upon conversion of such warrants. The registration rights will be exercisable with respect to the founder shares and the private placement warrants and the shares of common stock issuable upon exercise of such private placement warrants. We will bear the cost of registering these securities. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of our common stock. In addition, the existence of the registration rights may make our initial business combination more costly or difficult to conclude. This is because the stockholders of the target business may increase the equity stake they seek in the combined entity or ask for more cash consideration to offset the negative

TABLE OF CONTENTS

impact on the market price of our common stock that is expected when the securities owned by our initial stockholders, holders of our private placement warrants or their respective permitted transferees are registered.

Because we are not limited to a particular industry sector or any specific target businesses with which to pursue our initial business combination, you will be unable to ascertain the merits or risks of any particular target business operations.

We will seek to complete a business combination with an operating company in the media or entertainment industries but may also pursue acquisition opportunities in other sectors, except that we will not, under our amended and restated certificate of incorporation, be permitted to effectuate our business combination with another blank check company or similar company with nominal operations. Because we have not yet identified or approached any specific target business with respect to a business combination, there is no basis to evaluate the possible merits or risks of any particular target business operations, results of operations, cash flows, liquidity, financial condition or prospects. To the extent we complete our business combination, we may be affected by numerous risks inherent in the business operations with which we combine. For example, if we combine with a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by the risks inherent in the business and operations of a financially unstable or a development stage entity. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all of the significant risk factors or that we will have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business. We also cannot assure you that an investment in our units will ultimately prove to be more favorable to investors than a direct investment, if such opportunity were available, in a business combination target. Accordingly, any stockholders who choose to remain stockholders following the business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the tender offer materials or proxy statement relating to the business combination contained an actionable material misstatement or material omission.

We may seek investment opportunities in industries outside of the media or entertainment industries (which industries may or may not be outside of our management's area of expertise).

Although we intend to focus on identifying business combination candidates in the media or entertainment sectors and we will not initially actively seek to identify business combination candidates in other sectors (which sectors may be outside our management's area of expertise), we will consider a business combination outside of the media or entertainment industries if a business combination candidate is presented to us and we determine that such candidate offers an attractive investment opportunity for our company or we are unable to identify a suitable candidate in the media or entertainment industries after having expended a reasonable amount of time and effort in an attempt to do so. Although our management will endeavor to evaluate the risks inherent in any particular business combination candidate, we cannot assure you that we will adequately ascertain or assess all of the significant risk factors. We also cannot assure you that an investment in our units will not ultimately prove to be less favorable to investors in this offering than a direct investment, if an opportunity were available, in a business combination candidate. In the event

Because we are not limited to a particular industry sector or any specific target businesses with which to pursue our

we elect to pursue an investment outside of the media or entertainment industries, our management's expertise may not be directly applicable to its evaluation or operation, and the information contained herein regarding the media and entertainment industries would not be relevant to an understanding of the business that we elect to acquire.

TABLE OF CONTENTS

Although we identified general criteria and guidelines that we believe are important in evaluating prospective target businesses, we may enter into our initial business combination with a target does not meet such criteria and guidelines, and as a result, the target business with which we enter into our initial business combination may not have attributes entirely consistent with our general criteria and guidelines.

Although we have identified general criteria and guidelines for evaluating prospective target businesses, it is possible that a target business with which we enter into our initial business combination will not have all of these positive attributes. If we complete our initial business combination with a target that does not meet some or all of these guidelines, such combination may not be as successful as a combination with a business that does meet all of our general criteria and guidelines. In addition, if we announce a prospective business combination with a target that does not meet our general criteria and guidelines, a greater number of stockholders may exercise their redemption rights, which may make it difficult for us to meet any closing condition with a target business that requires us to have a minimum net worth or a certain amount of cash. In addition, if stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other legal reasons, it may be more difficult for us to attain stockholder approval of our initial business combination if the target business does not meet our general criteria and guidelines. If we are unable to complete our initial business combination, our public stockholders may only receive \$10.00 per share on our redemption, and our warrants will expire worthless.

We may seek investment opportunities with a financially unstable business or an entity lacking an established record of sales or earnings.

To the extent we complete our initial business combination with a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by numerous risks inherent in the operations of the business with which we combine. These risks include volatile revenues or earnings and difficulties in obtaining and retaining key personnel. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we may not be able to properly ascertain or assess all of the significant risk factors and we may not have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business.

We are not required to obtain an opinion from an independent investment banking or accounting firm, and consequently, you may have no assurance from an independent source that the price we are paying for the business is fair to our stockholders from a financial point of view.

Unless we complete our business combination with an affiliated entity, we are not required to obtain an opinion from an independent investment banking or accounting firm that the price we are paying is fair to our stockholders from a financial point of view. If no opinion is obtained, our stockholders will be relying on the judgment of our board of directors, who will determine fair market value based on standards generally accepted by the financial community. Such standards used will be disclosed in our tender offer documents or proxy solicitation materials, as applicable, related to our initial business combination.

We may issue additional common or preferred shares to complete our initial business combination or under an employee incentive plan after completion of our initial business combination, which would dilute the interest of our stockholders and likely present other risks.

Our amended and restated certificate of incorporation authorizes the issuance of up to 400,000,000 shares of common stock, par value \$0.0001 per share, and 1,000,000 shares of preferred stock, par value \$0.0001 per share. Immediately after this offering, there will be 362,500,000 (assuming that the underwriters have not exercised their over-allotment option) authorized but unissued shares of common stock available for issuance and not reserved for issuance upon exercise of outstanding warrants. We may issue a substantial number of additional shares of common or preferred stock to complete our initial business combination or

TABLE OF CONTENTS

under an employee incentive plan after completion of our initial business combination, however our amended and restated certificate of incorporation provides, among other things, that prior to our initial business combination, we may not issue additional shares of capital stock that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote on any initial business combination. The issuance of additional shares of common or preferred stock:

may significantly dilute the equity interest of investors in this offering;
may subordinate the rights of holders of common stock if preferred stock is issued with rights senior to those afforded our common stock;
could cause a change in control if a substantial number of common stock is issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors; and
may adversely affect prevailing market prices for our units, common stock and/or warrants.

Resources could be wasted in researching acquisitions that are not completed, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public stockholders may only receive \$10.00 per share on our redemption, and our warrants will expire worthless.

We anticipate that the investigation of each specific target business and the negotiation, drafting and execution of relevant agreements, disclosure documents and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys and others. If we decide not to complete a specific initial business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, if we reach an agreement relating to a specific target business, we may fail to complete our initial business combination for any number of reasons including those beyond our control. Any such event will result in a loss to us of the related costs incurred which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public stockholders may only receive \$10.00 per share on our redemption, and our warrants will expire worthless.

We are dependent upon our executive officers and directors and their loss could adversely affect our ability to operate.

Our operations are dependent upon a relatively small group of individuals and, in particular, our executive officers and directors. We believe that our success depends on the continued service of our officers and directors, at least until we have completed our business combination. In addition, our executive officers and directors are not required to commit any specified amount of time to our affairs and, accordingly, will have conflicts of interest in allocating management time among various business activities, including identifying potential business combinations and monitoring the related due diligence. We do not have an employment agreement with, or key-man insurance on the life of, any of our directors or executive officers. The unexpected loss of the services of one or more of our directors or executive officers could have a detrimental effect on us.

We may issue additional common or preferred shares to complete our initial business combination or under an empl

Our ability to successfully effect our initial business combination and to be successful thereafter will be totally dependent upon the efforts of our key personnel, some of whom may join us following our initial business combination. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.

Our ability to successfully effect our business combination is dependent upon the efforts of our key personnel. The role of our key personnel in the target business, however, cannot presently be ascertained. Although some of our key personnel may remain with the target business in senior management or advisory positions following our business combination, it is likely that some or all of the management of the target business will remain in place. While we

TABLE OF CONTENTS

intend to closely scrutinize any individuals we engage after our business combination, we cannot assure you that our assessment of these individuals will prove to be correct. These individuals may be unfamiliar with the requirements of operating a company regulated by the SEC, which could cause us to have to expend time and resources helping them become familiar with such requirements.

Our key personnel may negotiate employment or consulting agreements with a target business in connection with a particular business combination. These agreements may provide for them to receive compensation following our business combination and as a result, may cause them to have conflicts of interest in determining whether a particular business combination is the most advantageous.

Our key personnel may be able to remain with the company after the completion of our business combination only if they are able to negotiate employment or consulting agreements in connection with the business combination. Such negotiations would take place simultaneously with the negotiation of the business combination and could provide for such individuals to receive compensation in the form of cash payments and/or our securities for services they would render to us after the completion of the business combination. The personal and financial interests of such individuals may influence their motivation in identifying and selecting a target business. However, we believe the ability of such individuals to remain with us after the completion of our business combination will not be the determining factor in our decision as to whether or not we will proceed with any potential business combination. There is no certainty, however, that any of our key personnel will remain with us after the completion of our business combination. We cannot assure you that any of our key personnel will remain in senior management or advisory positions with us. The determination as to whether any of our key personnel will remain with us will be made at the time of our initial business combination.

We may have a limited ability to assess the management of a prospective target business and, as a result, may effect our initial business combination with a target business whose management may not have the skills, qualifications or abilities to manage a public company.

When evaluating the desirability of effecting our initial business combination with a prospective target business, our ability to assess the target business' management may be limited due to a lack of time, resources or information. Our assessment of the capabilities of the target's management, therefore, may prove to be incorrect and such management may lack the skills, qualifications or abilities we suspected. Should the target's management not possess the skills, qualifications or abilities necessary to manage a public company, the operations and profitability of the post-combination business may be negatively impacted. Accordingly, any stockholders who choose to remain stockholders following the business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them,

Our key personnel may negotiate employment or consulting agreements with a target business in connection with a

or if they are able to successfully bring a private claim under securities laws that the tender offer materials or proxy statement relating to the business combination contained an actionable material misstatement or material omission.

The officers and directors of an acquisition candidate may resign upon completion of our initial business combination. The loss of a business combination target's key personnel could negatively impact the operations and profitability of our post-combination business.

The role of an acquisition candidate's key personnel upon the completion of our initial business combination cannot be ascertained at this time. Although we contemplate that certain members of an acquisition candidate's management team will remain associated with the acquisition candidate following our initial business combination, it is possible that members of the management of an acquisition candidate will not wish to remain in place.

TABLE OF CONTENTS

Our executive officers and directors will allocate their time to other businesses thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to complete our initial business combination.

Our executive officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for a business combination and their other businesses. We do not intend to have any full-time employees prior to the completion of our business combination. Each of our executive officers is engaged in several other business endeavors for which he may be entitled to substantial compensation and our executive officers are not obligated to contribute any specific number of hours per week to our affairs. Our independent directors also serve as officers and board members for other entities. If our executive officers and directors other business affairs require them to devote substantial amounts of time to such affairs in excess of their current commitment levels, it could limit their ability to devote time to our affairs which may have a negative impact on our ability to complete our initial business combination. For a complete discussion of our executive officers and directors other business affairs, please see Management Directors and Executive Officers.

If our executive officers and directors other business affairs require them to devote substantial amounts of time to such affairs in excess of their current commitment levels, it could limit their ability to devote time to our affairs which may have a negative impact on our ability to complete our initial business combination.

Certain of our executive officers and directors are now, and all of them may in the future become, affiliated with entities engaged in business activities similar to those intended to be conducted by us and, accordingly, may have conflicts of interest in allocating their time and determining to which entity a particular business opportunity should be presented.

Although none of our executive officers or directors is currently associated with other blank check companies, our management team was affiliated with Global Eagle Acquisition, a blank check company that completed a business combination in January 2013 in which it acquired 100% of the shares of Row 44 and 86% of the shares of AIA. Messrs. Sloan and Sagansky remain affiliated with the combined company, GEE, as independent directors, and Mr. Graf remains affiliated with GEE as a Special Advisor. Further, our executive officers and directors may in the future become affiliated with entities, including, among others, blank check companies or public and private companies, private equity funds, venture capital funds, hedge funds and other investment vehicles and capital pools, which may be engaged in business activities similar to those intended to be conducted by us. Additionally, our executive officers and directors may become aware of business opportunities which may be appropriate for presentation to us and the other entities to which they owe fiduciary duties. Accordingly, they may have conflicts of interest in determining to which entity time should be allocated or a particular business opportunity should be presented. We cannot assure you that these conflicts will be resolved in our favor. As a result, a potential target business may be presented to another entity prior to its presentation to us, which could have a negative impact on our ability to successfully complete our initial business combination.

The officers and directors of an acquisition candidate may resign upon completion of our initial business combination.

For a complete discussion of our executive officers and directors' business affiliations and the potential conflicts of interest that you should be aware of, please see Management Directors and Executive Officers, Management Conflicts of Interest and Certain Relationships and Related Transactions.

Our executive officers, directors, security holders and their respective affiliates may have competitive pecuniary interests that conflict with our interests.

We have not adopted a policy that expressly prohibits our directors, executive officers, security holders or affiliates from having a direct or indirect pecuniary or financial interest in any investment to be acquired or disposed of by us or in any transaction to which we are a party or have an interest. In fact, we may enter into a business combination with a target business that is

TABLE OF CONTENTS

affiliated with our sponsor, our directors or executive officers, although we do not intend to do so. Nor do we have a policy that expressly prohibits any such persons from engaging for their own account in business activities of the types conducted by us. Accordingly, such persons or entities may have a conflict between their interests and ours.

We may engage in a business combination with one or more target businesses that have relationships with entities that may be affiliated with our executive officers, directors or existing holders which may raise potential conflicts of interest.

In light of the involvement of our sponsor, executive officers and directors with other entities, we may decide to acquire one or more businesses affiliated with our sponsor, executive officers and directors. Our directors also serve as officers and board members for other entities, including, without limitation, those described under

Management Conflicts of Interest. Such entities may compete with us for business combination opportunities. Our sponsor, officers and directors are not currently aware of any specific opportunities for us to complete our business combination with any entities with which they are affiliated, and there have been no preliminary discussions concerning a business combination with any such entity or entities. Although we will not be specifically focusing on, or targeting, any transaction with any affiliated entities, we would pursue such a transaction if we determined that such affiliated entity met our criteria for a business combination as set forth in Proposed Business Effecting our initial business combination Selection of a target business and structuring of our initial business combination and such transaction was approved by a majority of our disinterested directors. Despite our agreement to obtain an opinion from an independent investment banking firm regarding the fairness to our company from a financial point of view of a business combination with one or more domestic or international businesses affiliated with our executive officers, directors or existing holders, potential conflicts of interest still may exist and, as a result, the terms of the business combination may not be as advantageous to our public stockholders as they would be absent any conflicts of interest.

Since our sponsor, executive officers and directors will lose their entire investment in us if our business combination is not completed, a conflict of interest may arise in determining whether a particular business combination target is appropriate for our initial business combination.

On April 11, 2013, our sponsor and Dennis A. Miller purchased an aggregate of 10,000,000 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.003 per share. The number of founder shares issued was determined based on the initial expectation that the total size of this offering would be 40,000,000 units and therefore that such founder shares would represent 20% of the outstanding shares after this offering. Thereafter, we determined to reduce the size of this offering to 25,000,000 units, and on June 18, 2013, our sponsor and Mr. Miller returned to us at no cost, on a pro rata basis, an aggregate of 2,812,500 shares, which we cancelled. On July 10, 2013, our sponsor and Mr. Miller transferred 35,000 founder shares on a pro rata basis to each of James M. McNamara and Ernest Del, each of whom paid a purchase price of \$175 for their respective shares (at the same per-share purchase price initially paid by our sponsor and Mr. Miller) and agreed to serve on our board of directors upon the closing of this offering. The transfer of founder shares to the independent directors was made in reliance upon an exemption from the registration requirements of the Securities Act pursuant to the so-called 4(a)(1)-½ exemption. On July 22, 2013, in connection with the increase of the size of the offering, we effected a stock dividend of 0.2 shares for each outstanding

Our executive officers, directors, security holders and their respective affiliates may have competitive pecuniary inter

share of common stock, resulting in our initial stockholders holding an aggregate of 8,625,000 shares of our common stock. Each of our independent directors thereafter transferred at no cost 6,650 shares to our sponsor and 350 shares to Mr. Miller. The founder shares will be worthless if we do not complete an initial business combination. In addition, our sponsor and Mr. Miller have committed to purchase an aggregate of 15,000,000 private placement warrants, each exercisable for one-half of one share of our common stock at \$5.75 per half share, for a purchase price of \$7,500,000, or \$0.50 per warrant, that will also be worthless if we do not complete a business combination. In addition, between 1,875,000 and 2,156,250 founder earnout shares (depending on the extent to which the underwriters' over-allotment option is exercised) will be subject to forfeiture by our

TABLE OF CONTENTS

initial stockholders as follows: (i) half of the founder earnout shares (between 937,500 and 1,078,125 shares, depending on the extent to which the underwriters' over-allotment option is exercised) will be subject to forfeiture on the fifth anniversary of the completion of our initial business combination unless following our initial business combination the last sales price of our common stock equals or exceeds \$12.50 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period or we complete a liquidation, merger, stock exchange or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for consideration in cash, securities or other property which equals or exceeds \$12.50 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like); and (ii) half of the founder earnout shares (between 937,500 and 1,078,125 shares, depending on the extent to which the underwriters' over-allotment option is exercised) will be subject to forfeiture on the fifth anniversary of the completion of our initial business combination unless following our initial business combination the last sales price of our common stock equals or exceeds \$15.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period or we complete a liquidation, merger, stock exchange or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for consideration in cash, securities or other property which equals or exceeds \$15.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like). 25% of the founder shares held by each initial stockholder are founder earnout shares. If any founder earnout shares are required to be forfeited, our initial stockholders will forfeit their founder earnout shares on a pro rata basis according to the percentage of founder earnout shares held by such initial stockholder. The personal and financial interests of our executive officers and directors may influence their motivation in identifying and selecting a target business combination, completing an initial business combination and influencing the operation of the business following the initial business combination.

We may issue notes or other debt securities, or otherwise incur substantial debt, to complete a business combination, which may adversely affect our leverage and financial condition and thus negatively impact the value of our stockholders investment in us.

Although we have no commitments as of the date of this prospectus to issue any notes or other debt securities, or to otherwise incur outstanding debt, we may choose to incur substantial debt to complete our business combination. We and our officers have agreed that we will not incur any indebtedness unless we have obtained from the lender a waiver of any right, title, interest or claim of any kind in or to the monies held in the trust account. As such, no issuance of debt will affect the per share amount available for redemption from the trust account. Nevertheless, the incurrence of debt could have a variety of negative effects, including:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our common stock;

We may issue notes or other debt securities, or otherwise incur substantial debt, to complete a business combination 70

TABLE OF CONTENTS

using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

We may only be able to complete one business combination with the proceeds of this offering and the sale of the private placement warrants, which will cause us to be solely dependent on a single business which may have a limited number of products or services. This lack of diversification may negatively impact our operations and profitability.

The net proceeds from this offering and the private placement of warrants will provide us with \$300 million (or \$345 million if the underwriters' over-allotment option is exercised in full) that we may use to complete our business combination (excluding up to \$10.75 million, or up to approximately \$13.2 million if the over-allotment option is exercised in full, of deferred underwriting commissions being held in the trust account).

We may effectuate our business combination with a single target business or multiple target businesses simultaneously or within a short period of time. However, we may not be able to effectuate our business combination with more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By completing our initial business combination with only a single entity, our lack of diversification may subject us to numerous economic, competitive and regulatory developments. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several business combinations in different industries or different areas of a single industry. Accordingly, the prospects for our success may be:

solely dependent upon the performance of a single business, property or asset, or
dependent upon the development or market acceptance of a single or limited number of products, processes or services.

This lack of diversification may subject us to numerous economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our business combination.

We may attempt to simultaneously complete business combinations with multiple prospective targets, which may hinder our ability to complete our business combination and

We may only be able to complete one business combination with the proceeds of this offering and the sale of the private placement warrants.

give rise to increased costs and risks that could negatively impact our operations and profitability.

If we determine to simultaneously acquire several businesses that are owned by different sellers, we will need for each of such sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other business combinations, which may make it more difficult for us, and delay our ability, to complete our initial business combination. With multiple business combinations, we could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence investigations (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies

TABLE OF CONTENTS

in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

We may attempt to complete our initial business combination with a private company about which little information is available, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

In pursuing our acquisition strategy, we may seek to effectuate our initial business combination with a privately held company. By definition, very little public information exists about private companies, and we could be required to make our decision on whether to pursue a potential initial business combination on the basis of limited information, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

Our management may not be able to maintain control of a target business after our initial business combination. We cannot provide assurance that, upon loss of control of a target business, new management will possess the skills, qualifications or abilities necessary to profitably operate such business.

We may structure a business combination so that the post-transaction company in which our public stockholders own shares will own less than 100% of the equity interests or assets of a target business, but we will only complete such business combination if the post-transaction company acquires 50% or more of the outstanding voting securities of the target or otherwise acquire a controlling interest in the target sufficient for us not to be required to register as an investment company under the Investment Company Act. We will not consider any transaction that does not meet such criteria. Even if the post-transaction company owns 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares of common stock in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% interest in the target. However, as a result of the issuance of a substantial number of new shares of common stock, our stockholders immediately prior to such transaction could own less than a majority of our outstanding shares of common stock subsequent to such transaction. In addition, other minority stockholders may subsequently combine their holdings resulting in a single person or group obtaining a larger share of the company's stock than we initially acquired. Accordingly, this may make it more likely that our management will not be able to maintain our control of the target business.

We do not have a specified maximum redemption threshold. The absence of such a redemption threshold may make it possible for us to complete a business combination with which a

We may attempt to complete our initial business combination with a private company about which little information is

substantial majority of our stockholders do not agree.

Our amended and restated certificate of incorporation does not provide a specified maximum redemption threshold, except that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (such that we are not subject to the SEC's penny stock rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. As a result, we may be able to complete our business combination even though a substantial majority of our public stockholders do not agree with the transaction and have redeemed their shares or, if we seek stockholder approval of our initial business combination and do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, have entered into privately negotiated agreements to sell their shares to our sponsor, officers, directors, advisors or their affiliates. In the event the aggregate cash consideration we would be required to pay for all shares of common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, all shares of common

TABLE OF CONTENTS

stock submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination.

The exercise price for the public warrants is higher than in many similar blank check company offerings in the past, and, accordingly, the warrants are more likely to expire worthless.

The exercise price of the public warrants is higher than is typical in many similar blank check companies in the past. Historically, the exercise price of a warrant was generally a fraction of the purchase price of the units in the initial public offering. The exercise price for our public warrants is \$5.75 per half share, or \$11.50 per whole share. As a result, the warrants are less likely to ever be in the money and more likely to expire worthless.

In order to effectuate our initial business combination, blank check companies have, in the recent past, amended various provisions of their charters and modified governing instruments. We cannot assure you that we will not seek to amend our amended and restated certificate of incorporation or governing instruments in a manner that will make it easier for us to complete our initial business combination that our stockholders may not support.

In order to effectuate a business combination, blank check companies have, in the recent past, amended various provisions of their charters and modified governing instruments. For example, blank check companies have amended the definition of business combination, increased redemption thresholds and changed industry focus. We cannot assure you that we will not seek to amend our charter or governing instruments in order to effectuate our initial business combination.

The provisions of our amended and restated certificate of incorporation that relate to our pre-business combination activity (and corresponding provisions of the agreement governing the release of funds from our trust account) may be amended with the approval of holders of 65% of our common stock, which is a lower amendment threshold than that of some other blank check companies. It may be easier for us, therefore, to amend our amended and restated certificate of incorporation to facilitate the completion of an initial business combination

The exercise price for the public warrants is higher than in many similar blank check company offerings in the past,

that some of our stockholders may not support.

Some other blank check companies have a provision in their charter which prohibits the amendment of certain of its provisions, including those which relate to a company's pre-business combination activity, without approval by a certain percentage of the company's stockholders. In those companies, amendment of these provisions requires approval by between 90% and 100% of the company's public stockholders. Our amended and restated certificate of incorporation provides that any of its provisions related to pre-business combination activity (including the requirement to deposit proceeds of this offering and the private placement of warrants into the trust account and not release such amounts except in specified circumstances, and to provide redemption rights to public stockholders as described herein) may be amended if approved by holders of 65% of our common stock, and corresponding provisions of the trust agreement governing the release of funds from our trust account may be amended if approved by holders of 65% of our common stock. In all other instances, our amended and restated certificate of incorporation may be amended by holders of a majority of our common stock, subject to applicable provisions of the DGCL or applicable stock exchange rules. Our initial stockholders, who will collectively beneficially own up to 20% of our common stock upon the closing of this offering (assuming they do not purchase any units in this offering), will participate in any vote to amend our amended and restated certificate of incorporation and/or trust agreement and will have the discretion to vote in any manner they choose. As a result, we may be able to amend the provisions of our amended and restated certificate of incorporation which govern our pre-business combination behavior more easily than some other blank check companies, and this may increase our ability to complete a business combination with which you do not agree. Our stockholders may pursue remedies against us for any breach of our amended and restated certificate of incorporation.

Our sponsor, executive officers, directors and director nominees have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and

TABLE OF CONTENTS

restated certificate of incorporation that would affect the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 21 months from the closing of this offering (or 24 months from the closing of this offering if we have executed a letter of intent, agreement in principle or definitive agreement for an initial business combination within 21 months from the closing of this offering but have not completed the initial business combination within such 21-month period), unless we provide our public stockholders with the opportunity to redeem their shares of common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest, less franchise and income taxes payable, divided by the number of then outstanding public shares. These agreements are contained in letter agreements that we have entered into with our sponsor, executive officers, directors and director nominees. Our stockholders are not parties to, or third-party beneficiaries of, these agreements and, as a result, will not have the ability to pursue remedies against our sponsor, executive officers, directors or director nominees for any breach of these agreements. As a result, in the event of a breach, our stockholders would need to pursue a stockholder derivative action, subject to applicable law.

We may be unable to obtain additional financing to complete our initial business combination or to fund the operations and growth of a target business, which could compel us to restructure or abandon a particular business combination. If we are unable to complete our initial business combination, our public stockholders may only receive \$10.00 per share on our redemption, and our warrants will expire worthless.

Although we believe that the net proceeds of this offering and the sale of the private placement warrants will be sufficient to allow us to complete our initial business combination, because we have not yet identified any prospective target business we cannot ascertain the capital requirements for any particular transaction. If the net proceeds of this offering and the sale of the private placement warrants prove to be insufficient, either because of the size of our initial business combination, the depletion of the available net proceeds in search of a target business, the obligation to repurchase for cash a significant number of shares from stockholders who elect redemption in connection with our initial business combination or the terms of negotiated transactions to purchase shares in connection with our initial business combination, we may be required to seek additional financing or to abandon the proposed business combination. We cannot assure you that such financing will be available on acceptable terms, if at all. The current economic environment has made it especially difficult for companies to obtain acquisition financing. To the extent that additional financing proves to be unavailable when needed to complete our initial business combination, we would be compelled to either restructure the transaction or abandon that particular business combination and seek an alternative target business candidate. If we are unable to complete our business combination, our public stockholders may only receive \$10.00 per share on our redemption, and our warrants will expire worthless. In addition, even if we do not need additional financing to complete our business combination, we may require such financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target business. None of our officers, directors or stockholders is required to provide any financing to us in connection with or after our business combination.

Our initial stockholders control a substantial interest in us and thus may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support.

Upon closing of this offering, our initial stockholders will own 20% of our issued and outstanding shares of common stock (assuming they do not purchase any units in this offering). Accordingly, they may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support, including amendments to our amended and restated certificate of incorporation. If our initial stockholders purchase any units in this offering or if our initial stockholders purchase any additional shares of common stock in the aftermarket

TABLE OF CONTENTS

or in privately negotiated transactions, this would increase their control. Neither our initial stockholders nor, to our knowledge, any of our officers or directors, have any current intention to purchase additional securities, other than as disclosed in this prospectus. Factors that would be considered in making such additional purchases would include consideration of the current trading price of our common stock. In addition, our board of directors, whose members were elected by our sponsor, is and will be divided into three classes, each of which will generally serve for a term of three years with only one class of directors being elected in each year. We may not hold an annual meeting of stockholders to elect new directors prior to the completion of our business combination, in which case all of the current directors will continue in office until at least the completion of the business combination. If there is an annual meeting, as a consequence of our staggered board of directors, only a minority of the board of directors will be considered for election and our initial stockholders, because of their ownership position, will have considerable influence regarding the outcome. Accordingly, our initial stockholders will continue to exert control at least until the completion of our business combination.

Our initial stockholders paid an aggregate of \$25,000, or approximately \$0.003 per founder share (after giving effect to our July 2013 stock dividend), and, accordingly, you will experience immediate and substantial dilution from the purchase of our common stock.

The difference between the public offering price per share (allocating all of the unit purchase price to the common stock and none to the warrant included in the unit) and the pro forma net tangible book value per share of our common stock after this offering constitutes the dilution to you and the other investors in this offering. Our initial stockholders acquired the founder shares at a nominal price, significantly contributing to this dilution. Upon closing of this offering, and assuming no value is ascribed to the warrants included in the units, you and the other public stockholders will incur an immediate and substantial dilution of approximately 94.4% (or \$9.44 per share, assuming no exercise of the underwriters' over-allotment option), the difference between the pro forma net tangible book value per share of \$0.56 and the initial offering price of \$10.00 per unit.

We may amend the terms of the warrants in a manner that may be adverse to holders with the approval by the holders of at least 65% of the then outstanding public warrants.

Our warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 65% of the then outstanding public warrants to make any change that adversely affects the interests of the registered holders. Accordingly, we may amend the terms of the warrants in a manner adverse to a holder if holders of at least 65% of the then outstanding public warrants approve of such amendment. Although our ability to amend the terms of the warrants with the consent of at least 65% of the then outstanding public warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the warrants, shorten the exercise period or decrease the number of shares of our common stock purchasable upon exercise of a warrant.

Our initial stockholders paid an aggregate of \$25,000, or approximately \$0.003 per founder share (after giving effect to our July 2013 stock dividend), and, accordingly, you will experience immediate and substantial dilution from the purchase of our common stock.

We may redeem your unexpired warrants prior to their exercise at a time that is disadvantageous to you, thereby making your warrants worthless.

We have the ability to redeem outstanding warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.01 per warrant, provided that the last reported sales price of our common stock equals or exceeds \$24.00 per share for any 20 trading days within a 30 trading-day period ending on the third trading day prior to proper notice of such redemption provided that on the date we give notice of redemption. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. Redemption of the outstanding warrants could force you (i) to exercise your warrants and pay the exercise price therefor at a time when it may be disadvantageous for you

TABLE OF CONTENTS

to do so, (ii) to sell your warrants at the then-current market price when you might otherwise wish to hold your warrants or (iii) to accept the nominal redemption price which, at the time the outstanding warrants are called for redemption, is likely to be substantially less than the market value of your warrants. None of the private placement warrants will be redeemable by us so long as they are held by their initial purchasers or their permitted transferees.

Our warrants may have an adverse effect on the market price of our common stock and make it more difficult to effectuate our business combination.

We will be issuing warrants to purchase 15,000,000 shares of our common stock (or up to 17,250,000 shares of common stock if the underwriters' over-allotment option is exercised in full) as part of the units offered by this prospectus and, simultaneously with the closing of this offering, we will be issuing in a private placement an aggregate of 15,000,000 private placement warrants, each exercisable to purchase one-half of one share of common stock at \$5.75 per half share. In addition, if the sponsor makes any working capital loans, it may convert those loans into up to an additional 2,000,000 private placement warrants, at the price of \$0.50 per warrant. To the extent we issue shares of common stock to effectuate a business transaction, the potential for the issuance of a substantial number of additional shares of common stock upon exercise of these warrants could make us a less attractive acquisition vehicle to a target business. Such warrants, when exercised, will increase the number of issued and outstanding shares of our common stock and reduce the value of the shares of common stock issued to complete the business transaction. Therefore, our warrants may make it more difficult to effectuate a business transaction or increase the cost of acquiring the target business.

The private placement warrants are identical to the warrants sold as part of the units in this offering except that, so long as they are held by their initial purchasers or their permitted transferees, (i) they will not be redeemable by us, (ii) they (including the common stock issuable upon exercise of these warrants) may not, subject to certain limited exceptions, be transferred, assigned or sold by the sponsor until 30 days after the completion of our initial business combination and (iii) they may be exercised by the holders on a cashless basis.

Because each warrant is exercisable for only one-half of one share of our common stock, the units may be worth less than units of other blank check companies.

Each warrant is exercisable for one-half of one share of common stock. No fractional shares will be issued upon exercise of the warrants. If, upon exercise of the warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number the number of shares of common stock to be issued to the warrant holder. This is different from other offerings similar to ours whose units include one share of common stock and one warrant to purchase one whole share. We have established the components of the units in this way in order to alleviate the dilutive effect of the warrants and make us a more attractive merger partner for target businesses. Therefore, this unit structure may cause our units to be worth less than if it included a warrant to purchase one whole share.

The determination of the offering price of our units and the size of this offering is more arbitrary than the pricing of securities and size of an offering of an operating company in a particular industry. You may have less assurance, therefore, that the offering price of our units properly reflects the value of such units than you would have in a typical offering of an operating company.

Prior to this offering there has been no public market for any of our securities. The public offering price of the units and the terms of the warrants were negotiated between us and the underwriters. In determining the size of this offering, management held customary organizational meetings with representatives of the underwriters, both prior to our inception and thereafter, with respect to the state of capital markets, generally, and the amount the underwriters believed they reasonably could raise on our behalf. Factors considered in determining the size of this offering, prices and terms of the units, including the common stock and warrants underlying the units, include:

TABLE OF CONTENTS

the history and prospects of companies whose principal business is the acquisition of other companies;
prior offerings of those companies;
our prospects for acquiring an operating business at attractive values;
a review of debt to equity ratios in leveraged transactions;
our capital structure;
an assessment of our management and their experience in identifying operating companies;
general conditions of the securities markets at the time of this offering; and
other factors as were deemed relevant.

Although these factors were considered, the determination of our offering price is more arbitrary than the pricing of securities of an operating company in a particular industry since we have no historical operations or financial results.

There is currently no market for our securities and a market for our securities may not develop, which would adversely affect the liquidity and price of our securities.

There is currently no market for our securities. Stockholders therefore have no access to information about prior market history on which to base their investment decision. Following this offering, the price of our securities may vary significantly due to one or more potential business combinations and general market or economic conditions. Furthermore, an active trading market for our securities may never develop or, if developed, it may not be sustained. You may be unable to sell your securities unless a market can be established and sustained.

Because we must furnish our stockholders with target business financial statements, we may lose the ability to complete an otherwise advantageous initial business combination with some prospective target businesses.

The federal proxy rules require that a proxy statement with respect to a vote on a business combination meeting certain financial significance tests include historical and/or pro forma financial statement disclosure in periodic reports. We will include the same financial statement disclosure in connection with our tender offer documents, whether or not they are required under the tender offer rules. These financial statements may be required to be prepared in accordance with, or be reconciled to, accounting principles generally accepted in the United States of America, or GAAP, or international financing reporting standards, or IFRS, depending on the circumstances and the historical financial statements may be required to be audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), or PCAOB. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such statements in time for us to disclose such statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame.

We are an emerging growth company within the meaning of the Securities Act, and if we take advantage of certain exemptions from disclosure requirements available to emerging growth companies, this could make our securities less attractive to

There is currently no market for our securities and a market for our securities may not develop, which would adversely

investors and may make it more difficult to compare our performance with other public companies.

We are an emerging growth company within the meaning of the Securities Act, as modified by the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive

TABLE OF CONTENTS

compensation and shareholder approval of any golden parachute payments not previously approved. As a result, our stockholders may not have access to certain information they may deem important. We could be an emerging growth company for up to five years, although circumstances could cause us to lose that status earlier, including if the market value of our common stock held by non-affiliates exceeds \$700 million as of any June 30 before that time, in which case we would no longer be an emerging growth company as of the following December 31. We cannot predict whether investors will find our securities less attractive because we will rely on these exemptions. If some investors find our securities less attractive as a result of our reliance on these exemptions, the trading prices of our securities may be lower than they otherwise would be, there may be a less active trading market for our securities and the trading prices of our securities may be more volatile.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. We have elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accountant standards used.

Compliance obligations under the Sarbanes-Oxley Act may make it more difficult for us to effectuate our business combination, require substantial financial and management resources, and increase the time and costs of completing an acquisition.

Section 404 of the Sarbanes-Oxley Act requires that we evaluate and report on our system of internal controls beginning with our Annual Report on Form 10-K for the year ending December 31, 2014. Only in the event we are deemed to be a large accelerated filer or an accelerated filer will we be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. Further, for as long as we remain an emerging growth company, we will not be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. The fact that we are a blank check company makes compliance with the requirements of the Sarbanes-Oxley Act particularly burdensome on us as compared to other public companies because a target company with which we seek to complete our business combination may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of its internal controls. The development of the internal control of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

Provisions in our amended and restated certificate of incorporation and Delaware law may inhibit a takeover of us,

which could limit the price investors might be willing to pay in the future for our common stock and could entrench management.

Our amended and restated certificate of incorporation contains provisions that may discourage unsolicited takeover proposals that stockholders may consider to be in their best interests. These provisions include a staggered board of directors and the ability of the board of directors to designate the terms of and issue new series of preferred shares, which may make more difficult the removal of management and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

TABLE OF CONTENTS

We are also subject to anti-takeover provisions under Delaware law, which could delay or prevent a change of control. Together these provisions may make more difficult the removal of management and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

The statements contained in this prospectus that are not purely historical are forward-looking statements. Our forward-looking statements include, but are not limited to, statements regarding our or our management team's expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words anticipate, believe, continue, could, estimate, expect, may, might, plan, possible, potential, predict, project, should, would and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. Forward-looking statements in this prospectus may include, for example, statements about:

- our ability to complete our initial business combination;
- our success in retaining or recruiting, or changes required in, our officers, key employees or directors following our initial business combination;
- our officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial business combination, as a result of which they would then receive expense reimbursements;
- our potential ability to obtain additional financing to complete our initial business combination;
- our pool of prospective target businesses;
- the ability of our officers and directors to generate a number of potential investment opportunities;
- our public securities' potential liquidity and trading;
- the lack of a market for our securities;
- the use of proceeds not held in the trust account or available to us from interest income on the trust account balance; or
- our financial performance following this offering.

The forward-looking statements contained in this prospectus are based on our current expectations and beliefs concerning future developments and their potential effects on us. There can be no assurance that future developments affecting us will be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the heading "Risk Factors" beginning on page 26. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

TABLE OF CONTENTS**USE OF PROCEEDS**

We are offering 30,000,000 units at an offering price of \$10.00 per unit. We estimate that the net proceeds of this offering together with the funds we will receive from the sale of the private placement warrants will be used as set forth in the following table.

	Without Over-Allotment Option	Over-Allotment Option Exercised
Gross proceeds		
Gross proceeds from units offered to public ⁽¹⁾	\$ 300,000,000	\$ 345,000,000
Gross proceeds from private placement warrants offered in the private placement	7,500,000	7,500,000
Total gross proceeds	\$ 307,500,000	\$ 352,500,000
Offering expenses ⁽²⁾		
Underwriting commissions (2% of gross proceeds from units offered to public (up to \$5.75 million), excluding deferred portion) ⁽³⁾	\$ 5,750,000	\$ 5,750,000
Legal fees and expenses	300,000	300,000
Printing and engraving expenses	40,000	40,000
Accounting fees and expenses	40,000	40,000
SEC/FINRA Expenses	110,000	110,000
Travel and road show	90,000	90,000
NASDAQ listing and filing fees	75,000	75,000
Directors and officers insurance	95,000	95,000
Total offering expenses	\$ 750,000	\$ 750,000
Proceeds after offering expenses	\$ 301,000,000	\$ 346,000,000
Held in trust account ⁽³⁾	\$ 300,000,000	\$ 345,000,000
% of public offering size	100%	100%
Not held in trust account	\$ 1,000,000	\$ 1,000,000

The following table shows the use of the approximately \$1,000,000 of net proceeds not held in the trust account⁽⁴⁾.

	Amount	% of Total	
Legal, accounting, due diligence, travel, and other expenses in connection with any business combination ⁽⁵⁾	250,000	25.0	%
Legal and accounting fees related to regulatory reporting obligations	100,000	10.0	%
NASDAQ and other regulatory fees	55,000	5.5	%
Payment for office space, administrative and support services	100,000	10.0	%
Directors and officers insurance	95,000	9.5	%
Consulting, travel and miscellaneous expenses incurred during search for initial business combination target	300,000	30.0	%
Working capital to cover miscellaneous expenses	100,000	10.0	%
Total	\$ 1,000,000	100.0	%

(1) Includes amounts payable to public stockholders who properly redeem their shares in connection with our successful completion of our initial business combination.

In addition, a portion of the offering expenses have been paid from the proceeds of loans from our sponsor of up to (2) \$200,000 as described in this prospectus. These loans will be repaid upon completion of this offering out of the \$750,000 of offering proceeds that has

TABLE OF CONTENTS

been allocated for the payment of offering expenses other than underwriting commissions. In the event that offering expenses are less than set forth in this table, any such amounts will be used for post-closing working capital expenses.

The underwriters have agreed to defer underwriting commissions of approximately 3.6% to 3.8% (depending on the extent to which the underwriters over-allotment option is exercised) of the gross proceeds of this offering. Upon completion of our initial business combination, up to \$10,750,000, which constitutes the underwriters deferred commissions (or up to \$13,225,000 if the underwriters over-allotment option is exercised in full) will be paid to the underwriters from the funds held in the trust account, and the remaining funds will be released to us and can be used to pay all or a portion of the purchase price of the business or businesses with which our initial business combination occurs or for general corporate purposes, including payment of principal or interest on indebtedness incurred in connection with our initial business combination, to fund the purchases of other companies or for working capital. The underwriters will not be entitled to any interest accrued on the deferred underwriting discounts and commissions.

These expenses are estimates only. Our actual expenditures for some or all of these items may differ from the estimates set forth herein. For example, we may incur greater legal and accounting expenses than our current estimates in connection with negotiating and structuring our business combination based upon the level of complexity of such business combination. In the event we identify a business combination target in a specific industry subject to specific regulations, we may incur additional expenses associated with legal due diligence and the engagement of special legal counsel. In addition, our staffing needs may vary and as a result, we may engage a number of consultants to assist with legal and financial due diligence. We do not anticipate any change in our intended use of proceeds, other than fluctuations among the current categories of allocated expenses, which fluctuations, to the extent they exceed current estimates for any specific category of expenses, would not be available for our expenses.

Includes estimated amounts that may also be used in connection with our business combination to fund a no shop provision and commitment fees for financing.

Of the \$307.5 million in proceeds we receive from this offering and the sale of the private placement warrants described in this prospectus, or approximately \$352.5 million if the underwriters over-allotment option is exercised in full, \$300 million (\$10.00 per unit), or approximately \$345.0 million if the underwriters over-allotment option is exercised in full (\$10.00 per unit), will be deposited into a trust account with Continental Stock Transfer & Trust Company acting as trustee, and \$7.5 million will be used to pay expenses in connection with the closing of this offering and for working capital following this offering. The proceeds held in the trust account will be invested only in U.S. government treasury bills with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. We estimate the interest earned on the trust account will be approximately \$30,000 per year, assuming an interest rate of 0.01% per year. We will not be permitted to withdraw any of the principal or interest held in the trust account, except for the withdrawal of interest to pay income taxes, if any, and a one-time release of amounts necessary to pay Delaware franchise taxes for 2013 on a timely basis, until the earlier of (i) the completion of our initial business combination or (ii) the redemption of 100% of our public shares if we are unable to complete a business combination within 21 months (or 24 months, as applicable) from the closing of this offering (subject to the requirements of law). Based on current interest rates, we do not expect that the interest earned on the trust account, net of income taxes, will be sufficient to pay Delaware franchise taxes for 2013. Accordingly, after the payment of such franchise taxes from amounts held in the trust account, the amount per public share held in the trust account will be reduced to approximately \$9.99 per share.

The net proceeds held in the trust account may be used as consideration to pay the sellers of a target business with which we ultimately complete our business combination. If our initial business combination is paid for using stock or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our

TABLE OF CONTENTS

business combination, we may apply the balance of the cash released from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

We believe that amounts not held in trust will be sufficient to pay the costs and expenses to which such proceeds are allocated. This belief is based on the fact that while we may begin preliminary due diligence of a target business in connection with an indication of interest, we intend to undertake in-depth due diligence, depending on the circumstances of the relevant prospective acquisition, only after we have negotiated and signed a letter of intent or other preliminary agreement that addresses the terms of a business combination. However, if our estimate of the costs of undertaking in-depth due diligence and negotiating a business combination is less than the actual amount necessary to do so, we may be required to raise additional capital, the amount, availability and cost of which is currently unascertainable. If we are required to seek additional capital, we could seek such additional capital through loans or additional investments from our sponsor, members of our management team or their affiliates, but such persons are not under any obligation to advance funds to, or invest in, us.

Commencing on the date of this prospectus, we have agreed to pay Mr. Graf, or an entity owned and controlled by him, a monthly consulting fee of \$15,000 plus, in the event that Mr. Graf is no longer receiving medical insurance from an employer, an additional amount per month to reimburse Mr. Graf for the purchase of such insurance, for services prior to the completion of our initial business combination, (regardless of the amount of services provided) including preparation of our financial statements, SEC filings, financial due diligence of targets for our initial business combination and negotiations of an agreement for our initial business combination. We expect that Mr. Graf will devote a majority of his monthly business time (at least 76 hours) on average to providing us these services, although Mr. Graf will be entitled to receive the full monthly consulting fee irrespective of the amount of services he provides in a given month. We will reimburse our sponsor for office space, secretarial and administrative services provided to members of our management team by our sponsor, members of our sponsor, and members of our management team or their affiliates, in an amount not to exceed \$10,000 per month in the event such space and/or services are utilized and we do not pay a third party directly for such services. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

Prior to the closing of this offering, our sponsor has agreed to loan us up to \$200,000 to be used for a portion of the expenses of this offering. These loans are non-interest bearing, unsecured and are due at the earlier of October 1, 2013 or the closing of this offering. The loan will be repaid upon the closing of this offering out of the \$750,000 of offering proceeds that has been allocated to the payment of offering expenses.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts out of the proceeds of the trust account released to us. Otherwise, such loans would be repaid only out of funds held outside the trust account. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used to repay such loaned amounts. Up to \$1,000,000 of such loans may be convertible into warrants of the post business combination entity at a price of \$0.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans.

TABLE OF CONTENTS

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our sponsor, directors, officers, advisors or their affiliates may also purchase shares in privately negotiated transactions either prior to or following the completion of our initial business combination. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. If they engage in such transactions, they will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.

We may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's penny stock rules) and the agreement for our business combination may require as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public stockholders exercise their redemption rights so that we cannot satisfy the net tangible asset requirement or any net worth or cash requirements, we would not proceed with the redemption of our public shares or the business combination, and instead may search for an alternate business combination.

A public stockholder will be entitled to receive funds from the trust account only upon the earlier to occur of: (i) our completion of an initial business combination, and then only in connection with those shares of our common stock that such stockholder properly elected to redeem, subject to the limitations described herein or (ii) the redemption of our public shares if we are unable to complete our business combination within 21 months following the closing of this offering (or 24 months from the closing of this offering if we have executed a letter of intent, agreement in principle or definitive agreement for an initial business combination within 21 months from the closing of this offering but have not completed the initial business combination within such 21-month period), subject to applicable law and as further described herein and any limitations (including but not limited to cash requirements) created by the terms of the proposed business combination. In no other circumstances will a public stockholder have any right or interest of any kind to or in the trust account.

Our initial stockholders have entered into letter agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and public shares in connection with the completion of our initial business combination. In addition, our initial stockholders have agreed to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our business combination within the prescribed time frame. However, if our sponsor or any of our officers, directors or affiliates acquires public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the prescribed time frame.

TABLE OF CONTENTS

DIVIDEND POLICY

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of our initial business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial business combination. The payment of any cash dividends subsequent to our initial business combination will be within the discretion of our board of directors at such time. On July 22, 2013, in connection with the increase of the size of the offering, we effected a stock dividend of 0.2 shares for each outstanding share of common stock, resulting in our initial stockholders holding an aggregate of 8,625,000 shares of our common stock. In addition, our board of directors is not currently contemplating and does not anticipate declaring any other stock dividends in the foreseeable future, except if we increase the size of the offering pursuant to Rule 462(b) under the Securities Act, in which case we will effect a stock dividend immediately prior to the consummation of the offering in such amount as to maintain the ownership of our stockholders prior to this offering at 20.0% of our issued and outstanding shares of our common stock upon the consummation of this offering. Further, if we incur any indebtedness in connection with our business combination, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

TABLE OF CONTENTS**DILUTION**

The difference between the public offering price per share of common stock, assuming no value is attributed to the warrants included in the units we are offering pursuant to this prospectus or the private placement warrants, and the pro forma net tangible book value per share of our common stock after this offering constitutes the dilution to investors in this offering. Such calculation does not reflect any dilution associated with the sale and exercise of warrants, including the private placement warrants, which would cause the actual dilution to the public stockholders to be higher, particularly where a cashless exercise is utilized. Net tangible book value per share is determined by dividing our net tangible book value, which is our total tangible assets less total liabilities (including the value of common stock which may be redeemed for cash), by the number of outstanding shares of our common stock.

At April 19, 2013, our net tangible book value was \$0, or approximately \$0.00 per share of common stock. After giving effect to the sale of 30,000,000 shares of common stock included in the units we are offering by this prospectus, the sale of the private placement warrants and the deduction of underwriting commissions and estimated expenses of this offering, our pro forma net tangible book value at April 19, 2013 would have been \$5,000,010 or \$0.56 per share, representing an immediate increase in net tangible book value (as decreased by the value of the approximately 28,526,999 shares of common stock that may be redeemed for cash and assuming no exercise of the underwriters' over-allotment option) of \$9.44 per share to our initial stockholders as of the date of this prospectus and an immediate dilution of \$10.00 per share or 100% to our public stockholders not exercising their redemption rights. Total dilution to public stockholders from this offering will be \$9.44 per share (or \$9.52 if the underwriters' over-allotment option is exercised in full).

The following table illustrates the dilution to the public stockholders on a per-share basis, assuming no value is attributed to the warrants included in the units or the private placement warrants:

Public offering price		\$ 10.00
Net tangible book value before this offering	\$	
Increase attributable to public stockholders	9.44	
Decrease attributable to public shares subject to redemption	(10.00)	
Pro forma net tangible book value after this offering and the sale of the private placement warrants		\$ 0.56
Dilution to public stockholders		\$ 9.44

TABLE OF CONTENTS

For purposes of presentation, we have reduced our pro forma net tangible book value after this offering (assuming no exercise of the underwriters' over-allotment option) by \$285,269,990 because holders of up to approximately 95% of our public shares may redeem their shares for a pro rata share of the aggregate amount then on deposit in the trust account at a per share redemption price equal to the amount in the trust account as set forth in our tender offer or proxy materials (initially anticipated to be the aggregate amount held in trust two days prior to the commencement of our tender offer or stockholders meeting, including interest less franchise and income taxes payable), divided by the number of shares of common stock sold in this offering.

The following table sets forth information with respect to our initial stockholders and the public stockholders:

	Shares Purchased		Total Consideration		Average Price per Share
	Number	Percentage	Amount	Percentage	
Initial Stockholders ⁽¹⁾	7,500,000	20.00 %	\$ 25,000	0.0001 %	\$ 0.003
Public Stockholders	30,000,000	80.00	300,000,000	99.9999	\$ 10.00
	37,500,000	100.0 %	\$ 300,025,000	100.0 %	

Adjusted to reflect the number of shares outstanding after giving effect to the stock dividend approved by our (1)board of directors in July 2013. Assumes an aggregate of 1,125,000 shares held by our sponsor and Dennis A. Miller have been forfeited.

The pro forma net tangible book value per share after the offering is calculated as follows:

Numerator:

Net tangible book value before this offering	\$
Proceeds from this offering and sale of the private placement warrants, net of expenses	\$ 301,000,000
Offering costs excluded from net tangible book value before this offering	\$ 20,000
Less: deferred underwriters' commissions payable	\$(10,750,000)
Less: amount of common stock subject to redemption to maintain net tangible assets of \$5,000,001	\$(285,269,990)
	\$ 5,000,010

Denominator:

Shares of common stock outstanding prior to this offering	8,625,000
Shares forfeited if over-allotment is not exercised	(1,125,000)
Shares of common stock included in the units offered	30,000,000
Less: shares subject to redemption to maintain net tangible assets of \$5,000,001	(28,526,999)
	8,973,001

TABLE OF CONTENTS**CAPITALIZATION**

The following table sets forth our capitalization at April 19, 2013, and as adjusted to give effect to the filing of our amended and restated certificate of incorporation, the sale of our units in this offering and the private placement warrants and the application of the estimated net proceeds derived from the sale of such securities:

	April 19, 2013	
	Actual	As Adjusted ⁽¹⁾
Deferred underwriting discounts and commissions	\$	\$ 10,750,000
Common stock subject to redemption; 0 shares actual; 28,526,999 shares as adjusted ⁽²⁾		285,269,990
Stockholders' equity (deficit):		
Preferred stock, \$0.0001 par value, 1,000,000 shares authorized; none issued or outstanding		
Common stock, \$0.0001 par value, 100,000,000 shares authorized; 8,625,000 shares issued and outstanding, actual; 400,000,000 shares authorized; 8,973,001 shares issued and outstanding (excluding 28,526,999 shares subject to redemption), as adjusted ⁽³⁾	863	898
Additional paid-in capital	24,137	4,999,112
Deficit accumulated during the development stage	(5,000)	
Total stockholders' equity	20,000	5,000,010
Total capitalization	\$20,000	\$ 301,020,000

(1) Assumes the over-allotment option has not been exercised and the resulting forfeiture of 1,125,000 founder shares held by our sponsor and Dennis A. Miller has occurred.

Upon the completion of our initial business combination, we will provide our stockholders with the opportunity to redeem their public shares for cash equal to their pro rata share of the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of the initial business combination, including interest, less franchise and income taxes payable, subject to the limitations described herein whereby our net tangible assets will be maintained at a minimum of \$5,000,001 and any limitations (including, but not limited to, cash requirements) created by the terms of the proposed business combination.

Share amounts have been retroactively restated to reflect the contribution to the Company of 2,812,500 shares by (3) the Company's initial stockholders on June 18, 2013 and the stock dividend of 1,437,500 shares declared by the Company on July 22, 2013.

TABLE OF CONTENTS

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We are a blank check company incorporated on April 11, 2013 as a Delaware corporation and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses. We have not identified any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions directly or indirectly, with respect to identifying any business combination target. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the private placement of the private placement warrants, our capital stock, debt or a combination of cash, stock and debt.

The issuance of additional shares of our stock in a business combination:

- may significantly dilute the equity interest of investors in this offering;
- may subordinate the rights of holders of common stock if preferred stock is issued with rights senior to those afforded our common stock;
- could cause a change in control if a substantial number of shares of our common stock is issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the stock ownership or voting rights of a person seeking to obtain control of us; and
- may adversely affect prevailing market prices for our common stock and/or warrants.

Similarly, if we issue debt securities, it could result in:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and

TABLE OF CONTENTS

limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

As indicated in the accompanying financial statements, at April 19, 2013, we had approximately \$25,000 in cash and deferred offering costs of \$20,000. Further, we expect to continue to incur significant costs in the pursuit of our acquisition plans. We cannot assure you that our plans to raise capital or to complete our initial business combination will be successful.

Results of Operations and Known Trends or Future Events

We have neither engaged in any operations nor generated any revenues to date. Our only activities since inception have been organizational activities and those necessary to prepare for this offering. Following this offering, we will not generate any operating revenues until after completion of our initial business combination. We will generate non-operating income in the form of interest income on cash and cash equivalents after this offering. There has been no significant change in our financial or trading position and no material adverse change has occurred since the date of our audited financial statements. After this offering, we expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses. We expect our expenses to increase substantially after the closing of this offering.

Liquidity and Capital Resources

Our liquidity needs have been satisfied to date through receipt of \$25,000 from the sale of the founder shares to our sponsor. We estimate that the net proceeds from (i) the sale of the units in this offering, after deducting offering expenses of approximately \$750,000, underwriting commissions of \$5,750,000 (including if the underwriters over-allotment option is exercised in full) (excluding deferred underwriting commissions of up to \$10,750,000 (or up to \$13,225,000 if the underwriters over-allotment option is exercised in full), and (ii) the sale of the private placement warrants for a purchase price of \$7,500,000 will be \$301.0 million (or \$346.0 million if the underwriters over-allotment option is exercised in full). Approximately \$300 million (or \$345 million if the underwriters over-allotment option is exercised in full) will be held in the trust account, which includes up to \$10,750,000 (or up to \$13,225,000 if the underwriters over-allotment option is exercised in full) of deferred underwriting commissions. The remaining approximately \$1,000,000 will not be held in the trust account. In the event that our offering expenses exceed our estimate of \$750,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$750,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

We intend to use substantially all of the funds held in the trust account, including any amounts representing interest earned on the trust account (less franchise and income taxes payable and deferred underwriting commissions) to complete our initial business combination. We may withdraw interest to pay income taxes, if any, and to make a one-time release of funds from the trust account to pay Delaware franchise taxes for 2013 on a timely basis. We estimate our annual franchise tax obligations, based on the number of shares of our common stock authorized and outstanding after the completion of this offering, to be \$180,000, which is the maximum amount of annual franchise taxes payable by us as a Delaware corporation. Our annual income tax obligations will depend on the amount of interest and other income earned on the amounts held in the trust account. Based on current interest rates, we do not expect that the interest earned on the trust account, net of income taxes, will be sufficient to pay Delaware franchise taxes for 2013. Accordingly, after the payment of such franchise taxes from amounts held in the trust account, the amount per public share held in the trust account will be reduced to approximately \$9.99 per share. To the extent that

our capital stock or debt is used, in whole or

64

TABLE OF CONTENTS

in part, as consideration to complete our initial business combination, the remaining proceeds held in the trust account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

Prior to the completion of our initial business combination, we will have available to us the approximately \$1,000,000 of proceeds held outside the trust account. We will use these funds to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a business combination.

In order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,000,000 of such loans may be convertible into warrants of the post business combination entity at a price of \$0.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans.

We expect our primary liquidity requirements during that period to include approximately \$250,000 for legal, accounting, due diligence, travel and other expenses associated with structuring, negotiating and documenting successful business combinations; \$100,000 for legal and accounting fees related to regulatory reporting requirements; \$55,000 for NASDAQ and other regulatory fees; \$300,000 for consulting, travel and miscellaneous expenses incurred during the search for a business combination target; \$95,000 for directors and officers insurance premiums; and approximately \$100,000 for general working capital that will be used for miscellaneous expenses and reserves. We will also reimburse our sponsor for office space, secretarial and administrative services provided to members of our management team by our sponsor, members of our sponsor, and members of our management team or their affiliates in an amount not to exceed \$10,000 per month in the event such space and/or services are utilized and we do not pay a third party directly for such services.

These amounts are estimates and may differ materially from our actual expenses. In addition, we could use a portion of the funds not being placed in trust to pay commitment fees for financing, fees to consultants to assist us with our search for a target business or as a down payment or to fund a no-shop provision (a provision designed to keep target businesses from shopping around for transactions with other companies on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into an agreement where we paid for the right to receive exclusivity from a target business, the amount that would be used as a down payment or to fund a no-shop provision would be determined based on the terms of the specific business combination and the amount of our available funds at the time. Our forfeiture of such funds (whether as a result of our breach or otherwise) could result in our not having sufficient funds to continue searching for, or conducting due diligence with respect to, prospective target businesses.

We do not believe we will need to raise additional funds following this offering in order to meet the expenditures required for operating our business. However, if our estimates of the costs of identifying a target business, undertaking in-depth due diligence and negotiating an initial business combination is less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our business combination.

TABLE OF CONTENTS

Moreover, we may need to obtain additional financing either to complete our business combination or because we become obligated to redeem a significant number of our public shares upon completion of our business combination, in which case we may issue additional securities or incur debt in connection with such business combination. Subject to compliance with applicable securities laws, we would only complete such financing simultaneously with the completion of our business combination. In the current economic environment, it has become especially difficult to obtain acquisition financing. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. In addition, following our initial business combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

Controls and Procedures

We are not currently required to maintain an effective system of internal controls as defined by Section 404 of the Sarbanes-Oxley Act. We will be required to comply with the internal control requirements of the Sarbanes-Oxley Act for the fiscal year ending December 31, 2013. Only in the event that we are deemed to be a large accelerated filer or an accelerated filer would we be required to comply with the independent registered public accounting firm attestation requirement. Further, for as long as we remain an emerging growth company as defined in the JOBS Act, we intend to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirement.

Prior to the closing of this offering, we have not completed an assessment, nor have our auditors tested our systems, of internal controls. We expect to assess the internal controls of our target business or businesses prior to the completion of our initial business combination and, if necessary, to implement and test additional controls as we may determine are necessary in order to state that we maintain an effective system of internal controls. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding the adequacy of internal controls. Many small and mid-sized target businesses we may consider for our business combination may have internal controls that need improvement in areas such as:

- staffing for financial, accounting and external reporting areas, including segregation of duties;
reconciliation of accounts;
- proper recording of expenses and liabilities in the period to which they relate;
evidence of internal review and approval of accounting transactions;
- documentation of processes, assumptions and conclusions underlying significant estimates; and
documentation of accounting policies and procedures.

Because it will take time, management involvement and perhaps outside resources to determine what internal control improvements are necessary for us to meet regulatory requirements and market expectations for our operation of a target business, we may incur significant expense in meeting our public reporting responsibilities, particularly in the areas of designing, enhancing, or remediating internal and disclosure controls. Doing so effectively may also take longer than we expect, thus increasing our exposure to financial fraud or erroneous financing reporting.

Once our management's report on internal controls is complete, we will retain our independent auditors to audit and render an opinion on such report when required by Section 404. The independent auditors may identify additional issues concerning a target business's internal controls while performing their audit of internal control over financial reporting.

TABLE OF CONTENTS

Quantitative and Qualitative Disclosures about Market Risk

The net proceeds of this offering and the sale of the private placement warrants held in the trust account will be invested in U.S. government treasury bills with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

Related Party Transactions

On April 11, 2013, our sponsor and Dennis A. Miller purchased an aggregate of 10,000,000 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.003 per share. The number of founder shares issued was determined based on the initial expectation that the total size of this offering would be 40,000,000 units and therefore that such founder shares would represent 20% of the outstanding shares after this offering. Our sponsor purchased 9,500,000 founder shares and Mr. Miller purchased 500,000 founder shares. The purchase price of the founder shares was determined by dividing the amount of cash contributed to the Company by the number of founder shares issued. Thereafter, we determined to reduce the size of this offering to 25,000,000 units, and on June 18, 2013, our sponsor and Mr. Miller returned to us at no cost, on a pro rata basis, an aggregate 2,812,500 shares, which we cancelled. On July 10, 2013, our sponsor and Mr. Miller transferred 35,000 founder shares on a pro rata basis to each of James M. McNamara and Ernest Del, each of whom paid a purchase price of \$175 for their respective shares (at the same per-share purchase price initially paid by our sponsor and Mr. Miller) and agreed to serve on our board of directors upon the closing of this offering. The transfer of founder shares to the independent directors was made in reliance upon an exemption from the registration requirements of the Securities Act pursuant to the so-called 4(a)(1)-½ exemption. Mr. Miller and Mr. McNamara previously served as independent directors of Global Eagle Acquisition, a company founded by Messrs. Sloan, Sagansky and Graf. On July 22, 2013, in connection with the increase of the size of the offering, we effected a stock dividend of 0.2 shares for each outstanding share of common stock, resulting in our initial stockholders holding an aggregate of 8,625,000 shares of our common stock. Each of our independent directors thereafter transferred at no cost 6,650 shares to our sponsor and 350 shares to Mr. Miller. If we increase or decrease the size of the offering pursuant to Rule 462(b) under the Securities Act, we will effect another stock dividend or a share contribution back to capital, as applicable, immediately prior to the consummation of the offering in such amount as to maintain the ownership of our initial stockholders at 20.0% of our issued and outstanding shares of our common stock upon the consummation of this offering.

Commencing on the date of this prospectus, we have agreed to pay Mr. Graf, or an entity owned and controlled by him, a monthly consulting fee of \$15,000 plus, in the event that Mr. Graf is no longer receiving medical insurance from an employer, an additional amount per month to reimburse Mr. Graf for the purchase of such insurance, for services prior to the completion of our initial business combination, (regardless of the amount of services provided) including preparation of our financial statements, SEC filings, financial due diligence of targets for our initial business combination and negotiations of an agreement for our initial business combination. We expect that Mr. Graf will devote a majority of his monthly business time (at least 76 hours) on average to providing us these services, although Mr. Graf will be entitled to receive the full monthly consulting fee irrespective of the amount of services he provides in a given month. We will also reimburse our sponsor for office space, secretarial and administrative services provided to members of our management team by our sponsor, members of our sponsor, and members of our management team or their affiliates, in an amount not to exceed \$10,000 per month in the event such space and/or services are utilized and we do not pay a third party directly for such services. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

TABLE OF CONTENTS

Prior to the closing of this offering, our sponsor has agreed to loan us up to \$200,000 to be used for a portion of the expenses of this offering. In May 2013, our sponsor advanced an aggregate of \$100,000 to our company under an unsecured promissory note. These loans are non-interest bearing, unsecured and are due at the earlier of October 1, 2013 or the closing of this offering. The loan will be repaid upon the closing of this offering out of the \$750,000 of offering proceeds that has been allocated to the payment of offering expenses.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,000,000 of such loans may be convertible into warrants of the post business combination entity at a price of \$0.50 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans.

Our sponsor and Mr. Miller have committed to purchase an aggregate of 15,000,000 private placement warrants at a price of \$0.50 per warrant (\$7.50 million in the aggregate) in a private placement that will occur simultaneously with the closing of this offering. Each private placement warrant entitles the holder to purchase one-half of one share of our common stock at \$5.75 per half share. Our initial stockholders will be permitted to transfer the private placement warrants held by them to certain permitted transferees, including our executive officers and directors and other persons or entities affiliated with or related to them, but the transferees receiving such securities will be subject to the same agreements with respect to such securities as the initial purchasers. Otherwise, these warrants will not, subject to certain limited exceptions, be transferable or salable until 30 days after the completion of our business combination. The private placement warrants will be non-redeemable so long as they are held by our initial purchasers or their permitted transferees. The private placement warrants may also be exercised by the initial purchasers or their permitted transferees for cash or on a cashless basis. Otherwise, the private placement warrants have terms and provisions that are identical to those of the warrants being sold as part of the units in this offering.

Pursuant to a registration rights agreement we will enter into with our initial stockholders and initial purchasers of the private placement warrants on or prior to the closing of this offering, we may be required to register certain securities for sale under the Securities Act. These holders are entitled under the registration rights agreement to make up to three demands that we register certain of our securities held by them for sale under the Securities Act. In addition, these holders have the right to include their securities in other registration statements filed by us. However, the registration rights agreement provides that we will not permit any registration statement filed under the Securities Act to become effective until they are released from their lockup restrictions, as described herein. We will bear the costs and expenses of filing any such registration statements.

Off-Balance Sheet Arrangements; Commitments and Contractual Obligations; Quarterly Results

As of April 19, 2013, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K and did not have any commitments or contractual obligations. No unaudited quarterly operating data is included in this prospectus as we have conducted no operations to date.

JOBS Act

On April 5, 2012, the JOBS Act was signed into law. The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We will qualify as an emerging growth company and under the JOBS Act will be allowed to comply with new or revised accounting pronouncements based on the effective date for private

68

TABLE OF CONTENTS

(not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, our financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an emerging growth company, we choose to rely on such exemptions we may not be required to, among other things, (i) provide an auditor's attestation report on our system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor's report providing additional information about the audit and the financial statements (auditor discussion and analysis), and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO's compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of our initial public offering or until we are no longer an emerging growth company, whichever is earlier.

TABLE OF CONTENTS

PROPOSED BUSINESS

Introduction

We are a newly organized blank check company incorporated on April 11, 2013 as a Delaware Corporation formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses. We have not identified any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with respect to identifying any business combination target.

Business Strategy

While we may pursue an acquisition opportunity in any business industry or sector, we intend to focus on identifying a business combination opportunity in industries or sectors that complement our management team's background, and to capitalize on the ability of our management team to identify, acquire and operate a business, focusing on the media and entertainment sectors in the United States or globally. We believe our management team is well positioned to take advantage of the growing set of investment opportunities focused in the media and entertainment sectors, to create value for our stockholders, and that our contacts and sources, ranging from owners of private and public companies, private equity funds, investment bankers, attorneys, accountants and business brokers in these sectors will allow us to generate attractive acquisition opportunities. Our amended and restated certificate of incorporation prohibits us from effectuating a business combination with another blank check company or similar company with nominal operations.

Our Management Team

Our chairman and chief executive officer, Harry E. Sloan, our president, Jeff Sagansky, and our chief financial officer, James A. Graf, have extensive operating and deal-making experience with prominent global media companies.

In 2011, Messrs. Sloan, Sagansky and Graf founded Global Eagle Acquisition Corp., or Global Eagle Acquisition, a blank check company formed for substantially similar purposes as our company. Mr. Sloan served as chairman and chief executive officer, Mr. Sagansky served as president and Mr. Graf serves as chief financial officer, secretary and treasurer. Global Eagle Acquisition completed its initial public offering in May 2011, in which it sold approximately 19,000,000 units, each consisting of one share of common stock and one warrant, for an offering price of \$10.00 per unit, generating aggregate proceeds of approximately \$190 million. Global Eagle Acquisition completed its business combination in January 2013, acquiring Row 44, Inc., or Row 44, and 86% of the shares of Advanced Inflight Alliance AG, or AIA. Row 44 is a leading satellite-based broadband services provider to the global commercial airline industry. The Row 44 in-cabin system and communications link currently provides airline passengers with Internet access, live television, shopping and flight and destination information. With its entertainment system currently installed on more than 480 aircraft worldwide, Row 44 services the largest fleet of satellite-based Wi-Fi connected planes that operate over land and sea. AIA is the leading provider of content services, products and solutions for the in-flight entertainment (IFE) market. AIA's subsidiaries are market leaders and pioneers in the IFE content industry, providing movies and TV programming, audio, games, applications and creative solutions to approximately 130 of the world's most important commercial airlines. The transaction facilitated access into the multi-billion dollar in-flight content and connectivity market. Row 44 extends AIA's customer reach through its growing Wi-Fi installed base. AIA's content purchasing power is expected to substantially enhance the quality of the content provided by Row 44's platform. The transaction also created the ability to seek to consolidate players in both connectivity and content businesses. In the transaction, all major shareholders in both Row 44 and AIA rolled their interests for shares in

Global Eagle Acquisition, and Global Eagle Acquisition entered into backstop agreements with PAR Investment Partners, L.P., and Putnam Capital Spectrum Fund and Equity Fund for an aggregate commitment of over \$70 million. Messrs. Sloan and Sagansky

70

TABLE OF CONTENTS

are independent directors of the combined company, which has been renamed Global Eagle Entertainment Inc., or GEE. Upon the closing of the business combination, each outstanding Global Eagle Acquisition unit separated into its component parts of one share of common stock and one warrant. GEE's common stock is traded on NASDAQ under the symbol ENT and its public warrants are quoted on the OTC Market under the symbol ENTWW. The closing prices of GEE's common stock and public warrants on July 23, 2013 were \$11.03 and \$1.90, respectively. In addition, the high and low market prices for GEE's common stock for the first quarter of 2013 were \$10.44 and \$8.11, and \$10.49 and \$7.96 for the second quarter of 2013. The high and low market prices of GEE's public warrants for the first quarter of 2013 were \$1.68 and \$0.55, and \$1.75 and \$1.00 for the second quarter of 2013.

Mr. Sloan was appointed chairman and chief executive officer of Metro-Goldwyn-Mayer Studios Inc., or MGM, by a consortium comprised of private equity investors, Comcast Corporation and Sony Corporation of America, one year after they agreed to acquire MGM through a leveraged buyout in September 2004. He served as chairman and chief executive officer from October 2005 to August 2009, and thereafter continued as non-executive chairman until December 2010. During his tenure, Mr. Sloan revived key MGM movie franchises, including James Bond, Rocky and The Pink Panther, restarted and rebuilt MGM's theatrical and television distribution and marketing units and launched numerous MGM television channels in the United States and internationally. Prior to MGM, Mr. Sloan founded and operated SBS Broadcasting, S.A., or SBS, serving as chairman and chief executive officer from 1990 until August 2001 and then executive chairman until October 2005. Beginning with a personal investment of approximately \$5,000,000, Mr. Sloan transformed SBS, through a series of acquisitions and organic growth, into a leading pan-European broadcaster, with, as of 2005, 16 television stations, 21 premium pay channels and 11 radio networks, reaching 100 million people. Mr. Sloan oversaw the initial public offering of SBS in 1993 and its eventual sale to private investors in 2005 for \$2.5 billion. Prior to founding SBS, Mr. Sloan served as co-chairman of New World Entertainment Ltd., or New World, an independent motion picture and television production company. Mr. Sloan led a group that originally purchased New World in 1983 for \$2,000,000. Mr. Sloan extended the company's business into television production, ultimately growing New World into one of the largest producers of U.S. primetime television. Mr. Sloan led a number of transactions while at New World, including New World's initial public offering in 1985, its acquisition of Marvel Entertainment Group, Inc., in 1986, and New World's sale to private investors in 1989 for \$260,000,000.

Jeff Sagansky brings over 30 years of senior-level media and entertainment industry management experience. Mr. Sagansky currently serves as co-founder and chairman of Hemisphere Capital Management LLC, a private motion picture and television finance company, deploying more than \$300 million in debt and equity across four investment funds. Mr. Sagansky was formerly chief executive officer and then vice chairman of Paxson Communications Corporation, or Pax, from 1998 to 2003, where he launched the PAX TV program network in 1998. Under his leadership, PAX TV became a highly rated family-friendly television network with distribution growing from 60% of U.S. television households to almost 90% in only four years. In addition, Mr. Sagansky drove substantial improvement in the network's financial performance with compounded annual revenue growth of 24% and compounded annual gross income growth of 30% from 1998 to 2002. Prior to joining Pax, Mr. Sagansky was co-president of Sony Pictures Entertainment, or SPE, from 1996 to 1998 where he was responsible for SPE's strategic planning and worldwide television operations. While at SPE, he spearheaded SPE's acquisition, in partnership with Liberty Media Corporation and other investors, of Telemundo Network Group, LLC, or Telemundo. The transaction generated significant returns for SPE as Telemundo was sold to the National Broadcasting Company, Inc., for over six times its original investment less than three years later. Previously, as executive vice president of Sony Corporation of America, or SCA, Mr. Sagansky oversaw the 1997 merger of SCA's Loews Theaters unit with the Cineplex Odeon Corporation to create one of the world's largest movie theater companies, and the highly successful U.S. launch of the Sony Playstation video game console. Prior to joining SCA, Mr. Sagansky was president of CBS Entertainment

TABLE OF CONTENTS

from 1990 to 1994, where he engineered CBS's ratings rise from third to first place in eighteen months. Mr. Sagansky previously served as president of production and then president of TriStar Pictures, where he developed and oversaw production of a wide variety of successful films.

Initial Business Combination

Our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination. If our board is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm that is a member of the Financial Industry Regulatory Authority, or FINRA, with respect to the satisfaction of such criteria.

We anticipate structuring our business combination so that the post-transaction company in which our public stockholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses. We may, however, structure our business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or shareholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of the 80% of net assets test. If the business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses even if the acquisitions of the target businesses are not closed simultaneously.

We believe the following general criteria and guidelines are important in evaluating prospective target businesses, but we may decide to enter into a business combination with a target business that does not meet these criteria and guidelines.

Media and Entertainment Industry Targets. We will seek to acquire one or more businesses involved in the media or entertainment industries, including providers of content. We believe our management's significant operating and deal-making experience and relationships with companies in this space will give us a number of competitive advantages and will present us with a substantial number of potential business combination targets. The factors we will consider include growth prospects, competitive dynamics, opportunities for consolidation, need for capital investment and barriers to entry. We will analyze the strengths and weaknesses of target businesses relative to their competitors. We will seek to acquire one or more businesses that demonstrate advantages when compared to their competitors, which may help to protect their market position and profitability.

TABLE OF CONTENTS

High-Growth Markets. We will seek out opportunities in faster-growing segments of developed markets and emerging international markets. Our management has extensive experience operating media businesses and leading transactions in international markets.

Business with Revenue and Earnings Growth Potential. We will seek to acquire one or more businesses that have multiple, diverse potential drivers of revenue and earnings growth, including but not limited to a combination of development, production, digital and distribution capabilities and balance sheet management. We will focus on assets that currently are undervalued or sub-optimally managed, including those undergoing debt or operational restructuring, where our management is well-positioned to unlock their value.

Companies with Potential for Strong Free Cash Flow Generation. We will seek to acquire one or more businesses that have the potential to generate strong and stable free cash flow.

These criteria are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management may deem relevant. In the event that we decide to enter into a business combination with a target business that does not meet the above criteria and guidelines, we will disclose that the target business does not meet the above criteria in our stockholder communications related to our initial business combination, which, as discussed in this prospectus, would be in the form of tender offer or proxy solicitation materials, as applicable, that we would file with the SEC. In evaluating a prospective target business, we expect to conduct an extensive due diligence review which will encompass, among other things, meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspections of facilities, as well as reviewing financial and other information which will be made available to us. In addition, although we intend to focus on identifying business combination candidates in the media or entertainment sectors, we will consider a business combination outside of the media or entertainment sectors if a business combination candidate is presented to us and we determine that such candidate offers an attractive investment opportunity for our company or we are unable to identify a suitable candidate in the media or entertainment industries after having expended a reasonable amount of time and effort in an attempt to do so.

Sourcing of Potential Business Combination Targets

We believe our management team's significant operating and transaction experience and relationships with companies in our target sectors will provide us with a substantial number of potential business combination targets. Over the course of their careers, the members of our management team have developed a broad network of contacts and corporate relationships around the world. This network has grown through the activities of our management team sourcing, acquiring and financing businesses, the reputation of our management team for integrity and fair dealing with sellers, financing sources and target management teams and the experience of our management team in executing transactions under varying economic and financial market conditions.

In addition, members of our management team have developed contacts from serving on the boards of directors of prominent media companies. For example, Mr. Sloan was appointed to serve on the board of Promotora de Informaciones, S.A., or PRISA, Spain's largest media conglomerate, after its 2010 business combination with Liberty Acquisition Corp. (which was a blank check company), and he has been a director of ZeniMax Media Inc., an independent producer of interactive gaming and web content, since 1999. Previously, Mr. Sloan held directorships at Lions Gate Entertainment Corp., an independent motion picture and television production company and ProSieben Sat.1 Media AG, a European media conglomerate which acquired SBS in 2007. Mr. Sagansky currently serves on the boards of Starz and Scripps

TABLE OF CONTENTS

Networks Interactive, Inc., two publicly traded media companies. He previously served as non-executive chairman of the board of RHI Entertainment, Inc., a producer of original made-for-television movies and miniseries and also previously served on the boards of American Media Inc., an owner and operator of celebrity and health & fitness media publications, and Lions Gate Entertainment. In his capacity as an active private investor, Mr. Sagansky maintains board positions on a number of private media and entertainment companies.

This network has provided our management team with a flow of referrals that has resulted in numerous transactions which were proprietary or where a limited group of investors were invited to participate in the sale process. We believe that the network of contacts and relationships of our management team will provide us important sources of investment opportunities. In addition, we anticipate that target business candidates will be brought to our attention from various unaffiliated sources, including investment market participants, private equity funds and large business enterprises seeking to divest non-core assets or divisions.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, executive officers or directors, or making the acquisition through a joint venture or other form of shared ownership with our sponsor, executive officers or directors. In the event we seek to complete an initial business combination with a target that is affiliated with our sponsor, executive officers or directors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking or accounting firm that is a member of FINRA that such an initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

As more fully discussed in Management Conflicts of Interest, if any of our executive officers becomes aware of a business combination opportunity that falls within the line of business of any entity to which he or she has pre-existing fiduciary or contractual obligations, he or she may be required to present such business combination opportunity to such entity prior to presenting such business combination opportunity to us. All of our executive officers currently have certain relevant fiduciary duties or contractual obligations that may take priority over their duties to us.

Status as a public company

We believe our structure will make us an attractive business combination partner to target businesses. As an existing public company, we offer a target business an alternative to the traditional initial public offering through a merger or other business combination. In this situation, the owners of the target business would exchange their shares of stock in the target business for shares of our stock or for a combination of shares of our stock and cash, allowing us to tailor the consideration to the specific needs of the sellers. Although there are various costs and obligations associated with being a public company, we believe target businesses will find this method a more certain and cost effective method to becoming a public company than the typical initial public offering. In a typical initial public offering, there are additional expenses incurred in marketing, road show and public reporting efforts that may not be present to the same extent in connection with a business combination with us.

Furthermore, once a proposed business combination is completed, the target business will have effectively become public, whereas an initial public offering is always subject to the underwriters' ability to complete the offering, as well as general market conditions, which could prevent the offering from occurring. Once public, we believe the target business would then have greater access to capital and an additional means of providing management incentives consistent with stockholders' interests. It can offer further benefits by augmenting a company's profile among potential new customers and vendors and aid in attracting talented employees.

We are an emerging growth company, as defined in the JOBS Act. We will remain an emerging growth company until

the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross

74

TABLE OF CONTENTS

revenue of at least \$1.0 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our common stock that is held by non-affiliates exceeds \$700 million as of the prior June 30th, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three-year period.

Financial Position

With funds available for a business combination initially in the amount of \$289,250,000, after payment of up to \$10,750,000 of deferred underwriting fees (or \$331,775,000 after payment of up to \$13,225,000 of deferred underwriting fees if the underwriters' over-allotment option is exercised in full), we offer a target business a variety of options such as creating a liquidity event for its owners, providing capital for the potential growth and expansion of its operations or strengthening its balance sheet by reducing its debt ratio. Because we are able to complete our business combination using our cash, debt or equity securities, or a combination of the foregoing, we have the flexibility to use the most efficient combination that will allow us to tailor the consideration to be paid to the target business to fit its needs and desires. However, we have not taken any steps to secure third party financing and there can be no assurance it will be available to us.

Effecting our initial business combination

General

We are not presently engaged in, and we will not engage in, any operations for an indefinite period of time following this offering. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the private placement of the private placement warrants, our capital stock, debt or a combination of these as the consideration to be paid in our initial business combination. We may seek to complete our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, which would subject us to the numerous risks inherent in such companies and businesses.

If our initial business combination is paid for using stock or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our business combination or used for redemptions of purchases of our common stock, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

We have not identified any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions with respect to identifying any business combination target. From the period prior to our formation through the date of this prospectus, there have been no communications or discussions between any of our officers, directors or our sponsor and any of their potential contacts or relationships regarding a potential initial business combination. Additionally, we have not engaged or retained any agent or other representative to identify or locate any suitable acquisition candidate, to conduct any research or take any measures, directly or indirectly, to locate or contact a target business. Accordingly, there is no current basis for investors in this offering to evaluate the possible merits or risks of the target business with which we may ultimately complete our initial business combination. Although our management will assess the risks inherent in a particular target business with which we may combine, we cannot assure you that this assessment will result in our identifying all risks that a target business may encounter. Furthermore, some of those risks may be outside of our control, meaning that we can do nothing to control or reduce the chances that those risks will adversely impact a target business.

We may seek to raise additional funds through a private offering of debt or equity securities in connection with the completion of our initial business combination, and we may effectuate

75

TABLE OF CONTENTS

our initial business combination using the proceeds of such offering rather than using the amounts held in the trust account. Subject to compliance with applicable securities laws, we would complete such financing only simultaneously with the completion of our business combination. In the case of an initial business combination funded with assets other than the trust account assets, our tender offer documents or proxy materials disclosing the business combination would disclose the terms of the financing and, only if required by law, we would seek stockholder approval of such financing. There are no prohibitions on our ability to raise funds privately or through loans in connection with our initial business combination. At this time, we are not a party to any arrangement or understanding with any third party with respect to raising any additional funds through the sale of securities or otherwise.

Sources of target businesses

We anticipate that target business candidates will be brought to our attention from various unaffiliated sources, including investment bankers, private investment funds and other members of the financial and media and entertainment communities. Target businesses may be brought to our attention by such unaffiliated sources as a result of being solicited by us through calls or mailings. These sources may also introduce us to target businesses in which they think we may be interested on an unsolicited basis, since many of these sources will have read this prospectus and know what types of businesses we are targeting. Our officers and directors, as well as their affiliates, may also bring to our attention target business candidates that they become aware of through their business contacts as a result of formal or informal inquiries or discussions they may have, as well as attending trade shows or conventions. In addition, we expect to receive a number of proprietary deal flow opportunities that would not otherwise necessarily be available to us as a result of the track record and business relationships of our officers and directors. While we do not presently anticipate engaging the services of professional firms or other individuals that specialize in business acquisitions on any formal basis, we may engage these firms or other individuals in the future, in which event we may pay a finder's fee, consulting fee or other compensation to be determined in an arm's length negotiation based on the terms of the transaction. We will engage a finder only to the extent our management determines that the use of a finder may bring opportunities to us that may not otherwise be available to us or if finders approach us on an unsolicited basis with a potential transaction that our management determines is in our best interest to pursue. Payment of finder's fees is customarily tied to completion of a transaction, in which case any such fee will be paid out of the funds held in the trust account. In no event, however, will our sponsor or any of our existing officers or directors, or any entity with which they are affiliated, be paid any finder's fee, consulting fee or other compensation prior to, or for any services they render in order to effectuate, the completion of our initial business combination (regardless of the type of transaction that it is), other than a monthly consulting fee of \$15,000 payable commencing on the date of this prospectus plus, in the event that Mr. Graf is no longer receiving medical insurance from an employer, an additional amount per month to reimburse Mr. Graf for the purchase of such insurance, payable to Mr. Graf, or an entity owned and controlled by him, for services prior to the completion of our initial business combination, (regardless of the amount of services provided) including preparation of our financial statements, SEC filings, financial due diligence of targets for our initial business combination and negotiations of an agreement for our initial business combination. None of our sponsor, executive officers or directors, or any of their respective affiliates, will be allowed to receive any compensation, finder's fees or consulting fees from a prospective business combination target in connection with a contemplated acquisition of such target by us. Although some of our officers and directors may enter into employment or consulting agreements with the post-transaction company following our initial business combination, the presence or absence of any such arrangements will not be used as a criterion in our selection process of an acquisition candidate.

We are not prohibited from pursuing an initial business combination with a business combination target that is affiliated with our sponsor, officers or directors or making the acquisition through a joint venture or other form of shared ownership with our sponsor, officers

TABLE OF CONTENTS

or directors. In the event we seek to complete our initial business combination with an business combination target that is affiliated with our sponsor, executive officers or directors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking firm which is a member of FINRA, that such an initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

Selection of a target business and structuring of our initial business combination

Our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of our assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination. The fair market value of the target or targets will be determined by our board of directors based upon one or more standards generally accepted by the financial community, such as discounted cash flow valuation or value of comparable businesses. If our board is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from independent investment banking firm that is a member of FINRA with respect to the satisfaction of such criteria. Subject to this requirement, our management will have virtually unrestricted flexibility in identifying and selecting one or more prospective target businesses, although we will not be permitted to effectuate our initial business combination with another blank check company or a similar company with nominal operations. In any case, we will only complete an initial business combination in which we own or acquire 50% or more of the outstanding voting securities of the target or are otherwise not required to register as an investment company under the Investment Company Act. If we own or acquire less than 100% of the equity interests or assets of a target business or businesses, the portion of such business or businesses that are owned or acquired by the post-transaction company is what will be valued for purposes of the 80% of net assets test. There is no basis for investors in this offering to evaluate the possible merits or risks of any target business with which we may ultimately complete our business combination.

To the extent we effect our business combination with a company or business that may be financially unstable or in its early stages of development or growth we may be affected by numerous risks inherent in such company or business. Although our management will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all significant risk factors.

In evaluating a prospective target business, we expect to conduct an extensive due diligence review which will encompass, among other things, meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspection of facilities, as well as a review of financial and other information which will be made available to us.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of a prospective target business with which our business combination is not ultimately completed will result in our incurring losses and will reduce the funds we can use to complete another business combination. We will not pay any finders or consulting fees to members of our management team, or any of their respective affiliates, for services rendered to or in connection with our business combination.

Lack of business diversification

For an indefinite period of time after completion of our initial business combination, the prospects for our success may depend entirely on the future performance of a single business. Unlike other entities that have the resources to complete business combinations with multiple entities in one or several industries, it is probable that we will not have the resources to

77

TABLE OF CONTENTS

diversify our operations and mitigate the risks of being in a single line of business. By completing our business combination with only a single entity, our lack of diversification may:

subject us to negative economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact on the particular industry in which we operate after our initial business combination, and cause us to depend on the marketing and sale of a single product or limited number of products or services.

Limited ability to evaluate the target s management team

Although we intend to closely scrutinize the management of a prospective target business when evaluating the desirability of effecting our business combination with that business, our assessment of the target business management may not prove to be correct. In addition, the future management may not have the necessary skills, qualifications or abilities to manage a public company. Furthermore, the future role of members of our management team, if any, in the target business cannot presently be stated with any certainty. While it is possible that one or more of our directors will remain associated in some capacity with us following our business combination, it is unlikely that any of them will devote their full efforts to our affairs subsequent to our business combination. Moreover, we cannot assure you that members of our management team will have significant experience or knowledge relating to the operations of the particular target business.

We cannot assure you that any of our key personnel will remain in senior management or advisory positions with the combined company. The determination as to whether any of our key personnel will remain with the combined company will be made at the time of our initial business combination.

Following a business combination, we may seek to recruit additional managers to supplement the incumbent management of the target business. We cannot assure you that we will have the ability to recruit additional managers, or that additional managers will have the requisite skills, knowledge or experience necessary to enhance the incumbent management.

Stockholders may not have the ability to approve our initial business combination

We may conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC. Therefore we do not intend to seek stockholder approval before we effect our initial business combination as not all business combinations require stockholder approval under applicable state law.

However, we will seek stockholder approval, if it is required by law or applicable stock exchange rule, or we may decide to seek stockholder approval for business or other legal reasons. Presented in the table below is a graphic explanation of the types of initial business combinations we may consider and whether stockholder approval is currently required under Delaware law for each such transaction.

Type of Transaction	Whether Stockholder Approval is Required
Purchase of assets	No
Purchase of stock of target not involving a merger with the company	No
Merger of target into a subsidiary of the company	No

Merger of the company with a target

Yes

Under NASDAQ's listing rules, stockholder approval would be required for our initial business combination if, for example:

We issue common stock that will be equal to or in excess of 20% of the number of shares of our common stock then outstanding;

78

TABLE OF CONTENTS

Any of our directors, officers or substantial shareholders (as defined by NASDAQ rules) has a 5% or greater interest (or such persons collectively have a 10% or greater interest), directly or indirectly, in the target business or assets to be acquired or otherwise and the present or potential issuance of common stock could result in an increase in outstanding common shares or voting power of 5% or more; or

The issuance or potential issuance of common stock will result in our undergoing a change of control.

Permitted purchases of our securities

In the event we seek stockholder approval of our business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our sponsor, directors, officers, advisors or their affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. They will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. Such a purchase may include a contractual acknowledgement that such stockholder, although still the record holder of our shares is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. In the event that our sponsor, directors, officers, advisors or their affiliates purchase shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.

The purpose of such purchases would be to (i) vote such shares in favor of the business combination and thereby increase the likelihood of obtaining stockholder approval of the business combination or (ii) to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our business combination, where it appears that such requirement would otherwise not be met. This may result in the completion of our business combination that may not otherwise have been possible.

In addition, if such purchases are made, the public float of our common stock may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

Our sponsor, officers, directors and/or their affiliates anticipate that they may identify the stockholders with whom our sponsor, officers, directors or their affiliates may pursue privately negotiated purchases by either the stockholders contacting us directly or by our receipt of redemption requests submitted by stockholders following our mailing of proxy materials in connection with our initial business combination. To the extent that our sponsor, officers, directors, advisors or their affiliates enter into a private purchase, they would identify and contact only potential selling stockholders who have expressed their election to redeem their shares for a pro rata share of the trust account or vote against the business combination.

Redemption rights for public stockholders upon completion of our initial business combination

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of common stock upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of the initial business combination, including interest, but less franchise and income taxes payable, divided by the number of then

TABLE OF CONTENTS

outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. Our initial stockholders have entered into letter agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and any public shares they may hold in connection with the completion of our business combination.

Manner of Conducting Redemptions

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of common stock upon the completion of our initial business combination either (i) in connection with a stockholder meeting called to approve the business combination or (ii) by means of a tender offer. The decision as to whether we will seek stockholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek stockholder approval under the law or stock exchange listing requirement. Asset acquisitions and stock purchases would not typically require stockholder approval while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our outstanding common stock or seek to amend our amended and restated certificate of incorporation would require stockholder approval. We intend to conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC unless stockholder approval is required by law or stock exchange listing requirement or we choose to seek stockholder approval for business or other legal reasons.

If a stockholder vote is not required and we do not decide to hold a stockholder vote for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation:

conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers, and

file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our business combination, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase shares of our common stock in the open market if we elect to redeem our public shares through a tender offer, to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public stockholders not tendering more than a specified number of public shares which are not purchased by our sponsor, which number will be based on the requirement that we may not redeem public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's penny stock rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete the initial business combination.

If, however, stockholder approval of the transaction is required by law or stock exchange listing requirement, or we decide to obtain stockholder approval for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation:

TABLE OF CONTENTS

conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules, and file proxy materials with the SEC.

In the event that we seek stockholder approval of our initial business combination, we will distribute proxy materials and, in connection therewith, provide our public stockholders with the redemption rights described above upon completion of the initial business combination.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the business combination. In such case, our initial stockholders have agreed to vote their founder shares and any public shares purchased during or after this offering in favor of our initial business combination. Each public stockholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction. In addition, our initial stockholders have entered into letter agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and public shares in connection with the completion of a business combination.

Our amended and restated certificate of incorporation provides that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's penny stock rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. For example, the proposed business combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all shares of common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, and all shares of common stock submitted for redemption will be returned to the holders thereof.

Limitation on redemption upon completion of our initial business combination if we seek stockholder approval

Notwithstanding the foregoing, if we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a group (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 10% of the shares sold in this offering, which we refer to as the Excess Shares. We believe this restriction will discourage stockholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to exercise their redemption rights against a proposed business combination as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder holding more than an aggregate of 10% of the shares sold in this offering could threaten to exercise its redemption rights if such holder's shares are not purchased by us or our management at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders' ability to redeem no more than 10% of the shares sold in this offering, we believe we will limit the ability of a small group of stockholders to unreasonably attempt to block our ability to complete our business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash.

TABLE OF CONTENTS

However, we would not be restricting our stockholders' ability to vote all of their shares (including Excess Shares) for or against our business combination.

Tendering stock certificates in connection with a tender offer or redemption rights

We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in street name, to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents or proxy materials mailed to such holders, or up to two business days prior to the vote on the proposal to approve the business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically using Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, at the holder's option. The tender offer or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements. Accordingly, a public stockholder would have from the time we send out our tender offer materials until the close of the tender offer period, or up to two days prior to the vote on the business combination if we distribute proxy materials, as applicable, to tender its shares if it wishes to seek to exercise its redemption rights. Given the relatively short exercise period, it is advisable for stockholders to use electronic delivery of their public shares.

There is a nominal cost associated with the above-referenced tendering process and the act of certificating the shares or delivering them through the DWAC System. The transfer agent will typically charge the tendering broker \$35.00 and it would be up to the broker whether or not to pass this cost on to the redeeming holder. However, this fee would be incurred regardless of whether or not we require holders seeking to exercise redemption rights to tender their shares. The need to deliver shares is a requirement of exercising redemption rights regardless of the timing of when such delivery must be effectuated.

The foregoing is different from the procedures used by many blank check companies. In order to perfect redemption rights in connection with their business combinations, many blank check companies would distribute proxy materials for the stockholders' vote on an initial business combination, and a holder could simply vote against a proposed business combination and check a box on the proxy card indicating such holder was seeking to exercise his or her redemption rights. After the business combination was approved, the company would contact such stockholder to arrange for him or her to deliver his or her certificate to verify ownership. As a result, the stockholder then had an option window after the completion of the business combination during which he or she could monitor the price of the company's stock in the market. If the price rose above the redemption price, he or she could sell his or her shares in the open market before actually delivering his or her shares to the company for cancellation. As a result, the redemption rights, to which stockholders were aware they needed to commit before the stockholder meeting, would become option rights surviving past the completion of the business combination until the redeeming holder delivered its certificate. The requirement for physical or electronic delivery prior to the meeting ensures that a redeeming holder's election to redeem is irrevocable once the business combination is approved.

Any request to redeem such shares, once made, may be withdrawn at any time up to the date set forth in the tender offer materials or the date of the stockholder meeting set forth in our proxy materials, as applicable. Furthermore, if a holder of a public share delivered its certificate in connection with an election of redemption rights and subsequently decides prior to the applicable date not to elect to exercise such rights, such holder may simply request that the transfer agent return the certificate (physically or electronically). It is anticipated that the funds to be distributed to holders of our public shares electing to redeem their shares will be distributed promptly after the completion of our business combination.

If our initial business combination is not approved or completed for any reason, then our public stockholders who elected to exercise their redemption rights would not be entitled to

82

TABLE OF CONTENTS

redeem their shares for the applicable pro rata share of the trust account. In such case, we will promptly return any certificates delivered by public holders who elected to redeem their shares.

If our initial proposed business combination is not completed, we may continue to try to complete a business combination with a different target until 21 months from the closing of this offering (or 24 months from the closing of this offering if we have executed a letter of intent, agreement in principle or definitive agreement for an initial business combination within 21 months from the closing of this offering but have not completed the initial business combination within such 21-month period).

Redemption of public shares and liquidation if no initial business combination

Our sponsor, executive officers and directors have agreed that we will have only 21 months from the closing of this offering to complete our initial business combination (or 24 months, as applicable). If we are unable to complete our business combination within such 21-month period (or 24-month period, as applicable), we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses), less franchise and income taxes payable, divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our business combination within the 21-month time period (or 24-month time period if we have executed a letter of intent, agreement in principle or definitive agreement for an initial business combination within 21 months from the closing of this offering but have not completed the initial business combination within such 21-month period).

Our initial stockholders have entered into letter agreements with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 21 months from the closing of this offering (or 24 months from the closing of this offering if we have executed a letter of intent, agreement in principle or definitive agreement for an initial business combination within 21 months from the closing of this offering but have not completed the initial business combination within such 21-month period). However, if our initial stockholders acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted 21-month (or 24-month, as applicable) time period.

Our sponsor, executive officers, directors and director nominees have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 21 months from the closing of this offering (or 24 months, as applicable), unless we provide our public stockholders with the opportunity to redeem their shares of common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest, but less franchise and income taxes payable, divided by the number of then outstanding public shares. However, we may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's penny stock rules).

We expect that all costs and expenses associated with implementing our plan of dissolution, as well as payments to any creditors, will be funded from amounts remaining out of

83

TABLE OF CONTENTS

the approximately \$1,000,000 of proceeds held outside the trust account, although we cannot assure you that there will be sufficient funds for such purpose. However, if those funds are not sufficient to cover the costs and expenses associated with implementing our plan of dissolution, to the extent that there is any interest accrued in the trust account not required to pay franchise and income taxes on interest income earned on the trust account balance, we may request the trustee to release to us an additional amount of up to \$100,000 of such accrued interest to pay those costs and expenses.

If we were to expend all of the net proceeds of this offering, other than the proceeds deposited in the trust account, and without taking into account interest, if any, earned on the trust account, the per-share redemption amount received by stockholders upon our dissolution would be \$10.00. The proceeds deposited in the trust account could, however, become subject to the claims of our creditors which would have higher priority than the claims of our public stockholders. We cannot assure you that the actual per-share redemption amount received by stockholders will not be less than \$10.00. Under Section 281(b) of the DGCL, our plan of dissolution must provide for all claims against us to be paid in full or make provision for payments to be made in full, as applicable, if there are sufficient assets. These claims must be paid or provided for before we make any distribution of our remaining assets to our stockholders. While we intend to pay such amounts, if any, we cannot assure you that we will have funds sufficient to pay or provide for all creditors' claims.

Although we will seek to have all vendors, service providers (other than our independent accountants), prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, there is no guarantee that they will execute such agreements or even if they execute such agreements that they would be prevented from bringing claims against the trust account including but not limited to fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain an advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative. Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. In order to protect the amounts held in the trust account, Messrs. Sloan and Sagansky have agreed that they will be jointly and severally liable to us if and to the extent any claims by a vendor for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amounts in the trust account to below the lesser of (i) \$10.00 per share and (ii) the actual amount per share held in the trust account as of the date of the liquidation of the trust account, in each case less franchise and income taxes payable, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third party, Messrs. Sloan and Sagansky will not be responsible to the extent of any liability for such third party claims. We cannot assure you, however, that

TABLE OF CONTENTS

Messrs. Sloan and Sagansky would be able to satisfy those obligations. None of our officers will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.00 per share and (ii) the actual amount per share held in the trust account as of the date of the liquidation of the trust account, in each case less franchise and income taxes payable, and Messrs. Sloan and Sagansky assert that they are unable to satisfy their joint and several indemnification obligations or that they have no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against Messrs. Sloan and Sagansky to enforce their indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against Messrs. Sloan and Sagansky to enforce their indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in any particular instance. Accordingly, we cannot assure you that due to claims of creditors the actual value of the per-share redemption price will not be less than \$10.00 per share.

We will seek to reduce the possibility that Messrs. Sloan and Sagansky will have to indemnify the trust account due to claims of creditors by endeavoring to have all vendors, service providers (other than our independent accountants), prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to monies held in the trust account. Messrs. Sloan and Sagansky will also not be liable as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. We will have access to up to approximately \$1,000,000 from the proceeds of this offering with which to pay any such potential claims (including costs and expenses incurred in connection with our liquidation, currently estimated to be no more than approximately \$100,000). In the event that we liquidate and it is subsequently determined that the reserve for claims and liabilities is insufficient, stockholders who received funds from our trust account could be liable for claims made by creditors. In the event that our offering expenses exceed our estimate of \$750,000, we may fund such excess with funds from the funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$750,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

Under the DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our business combination within 21 months (or 24 months, as applicable) from the closing of this offering may be considered a liquidation distribution under Delaware law. If the corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution.

Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our business combination within 21 months from the closing of this offering (or 24 months, as applicable), is not considered a liquidation distribution under Delaware law and such redemption distribution is deemed to be unlawful, then pursuant to Section 174 of the DGCL, the

TABLE OF CONTENTS

statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidation distribution. If we are unable to complete our business combination within 21 months from the closing of this offering (or 24 months, as applicable), we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses), less franchise and income taxes payable, divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Accordingly, it is our intention to redeem our public shares as soon as reasonably possible following our 21st month (or 24th month, as applicable) and, therefore, we do not intend to comply with those procedures. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend well beyond the third anniversary of such date.

Because we will not be complying with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the subsequent 10 years. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers, etc.) or prospective target businesses. As described above, pursuant to the obligation contained in our underwriting agreement, we will seek to have all vendors, service providers (other than our independent accountants), prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account. As a result of this obligation, the claims that could be made against us are significantly limited and the likelihood that any claim that would result in any liability extending to the trust account is remote. Further, Messrs. Sloan and Sagansky may be liable only to the extent necessary to ensure that the amounts in the trust account are not reduced below the lesser of (i) \$10.00 per share and (ii) the actual amount per share held in the trust account as of the date of the liquidation of the trust account, in each case less franchise and income taxes payable, less any per-share amounts distributed from our trust account to our public stockholders in the event we are unable to complete our business combination within 21 months (or 24 months, as applicable) from the closing of this offering and will not be liable as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third party, Messrs. Sloan and Sagansky will not be responsible to the extent of any liability for such third-party claims.

If we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, we cannot assure you we will be able to return \$10.00 per share to our public stockholders. Additionally, if we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a preferential transfer or a fraudulent conveyance. As a result, a bankruptcy court could seek to recover all amounts received by our stockholders. Furthermore, our board may be viewed as having breached its fiduciary duty to our creditors and/or may have acted in bad faith, and thereby

TABLE OF CONTENTS

exposing itself and our company to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons.

Our public stockholders will be entitled to receive funds from the trust account only in the event of the redemption of our public shares if we do not complete our business combination within 21 months (or 24 months, as applicable) from the closing of this offering or if they redeem their respective shares for cash upon the completion of the initial business combination. In no other circumstances will a stockholder have any right or interest of any kind to or in the trust account. In the event we seek stockholder approval in connection with our initial business combination, a stockholder's voting in connection with the business combination alone will not result in a stockholder's redeeming its shares to us for an applicable pro rata share of the trust account. Such stockholder must have also exercised its redemption rights described above.

Comparison of redemption or purchase prices in connection with our initial business combination and if we fail to complete our business combination.

The following table compares the redemptions and other permitted purchases of public shares that may take place in connection with the completion of our initial business combination and if we are unable to complete our business combination within 21 months from the closing of this offering (or 24 months from the closing of this offering if we have executed a letter of intent, agreement in principle or definitive agreement for an initial business combination within 21 months from the closing of this offering but have not completed the initial business combination within such 21-month period).

TABLE OF CONTENTS

<p>Calculation of redemption price</p>	<p>Redemptions in Connection with our Initial Business Combination</p> <p>Redemptions at the time of our initial business combination may be made pursuant to a tender offer or in connection with a stockholder vote. The redemption price will be the same whether we conduct redemptions pursuant to a tender offer or in connection with a stockholder vote. In either case, our public stockholders may redeem their public shares for cash equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of the initial business combination (which is initially anticipated to be \$10.00 per share), including interest less franchise and income taxes payable, divided by the number of then outstanding public shares, subject to the limitation that no redemptions will take place if all of the redemptions would cause our net tangible assets to be less than \$5,000,001 and any limitations (including but not limited to cash requirements) agreed to in connection with the negotiation of terms of a proposed business combination.</p>	<p>Other Permitted Purchases of Public Shares by our Affiliates</p> <p>If we seek stockholder approval of our initial business combination, our sponsor, directors, officers, advisors or their affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following completion of our initial business combination. There is no limit to the prices that our sponsor, directors, officers, advisors or their affiliates may pay in these transactions.</p>	<p>Redemptions if we fail to Complete an Initial Business Combination</p> <p>If we are unable to complete our business combination within 21 months from the closing of this offering (or 24 months, as applicable), we will redeem all public shares at a per-share price, payable in cash, equal to the aggregate amount, then on deposit in the trust account (which is initially anticipated to be \$10.00 per share), including interest (less up to \$100,000 of interest to pay dissolution expenses) less franchise and income taxes payable, divided by the number of then outstanding public shares.</p>

TABLE OF CONTENTS

Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419

The following table compares the terms of this offering to the terms of an offering by a blank check company subject to the provisions of Rule 419. This comparison assumes that the gross proceeds, underwriting commissions and underwriting expenses of our offering would be identical to those of an offering undertaken by a company subject to Rule 419, and that the underwriters will not exercise their over-allotment option. None of the provisions of Rule 419 apply to our offering.

	Terms of Our Offering	Terms Under a Rule 419 Offering
Escrow of offering proceeds	Approximately \$300,000,000 of the net proceeds of this offering and the sale of the private placement warrants will be deposited into a trust account located in the United States with Continental Stock Transfer & Trust Company acting as trustee.	Approximately \$300,000,000 of the offering proceeds, representing the gross proceeds of this offering, would be required to be deposited into either an escrow account with an insured depository institution or in a separate bank account established by a broker-dealer in which the broker-dealer acts as trustee for persons having the beneficial interests in the account.
Investment of net proceeds	Approximately \$300,000,000 of the net proceeds of this offering and the sale of the private placement warrants held in trust will be invested only in U.S. government treasury bills with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act. Interest on proceeds from the trust account to be paid to stockholders is reduced by	Proceeds could be invested only in specified securities such as a money market fund meeting conditions of the Investment Company Act or in securities that are direct obligations of, or obligations guaranteed as to principal or interest by, the United States.
Receipt of interest on escrowed funds	(i) any income or franchise taxes paid or payable and (ii) in the event of our liquidation for failure to complete our initial business combination within the allotted time, up to \$100,000 of net interest that may be released to us should we have no or insufficient working capital to fund the costs and expenses of our dissolution and liquidation.	Interest on funds in escrow account would be held for the sole benefit of investors, unless and only after the funds held in escrow were released to us in connection with our completion of a business combination.

TABLE OF CONTENTS

	Terms of Our Offering	Terms Under a Rule 419 Offering
Limitation on fair value or net assets of target business	Our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of our assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination.	The fair value or net assets of a target business must represent at least 80% of the maximum offering proceeds.
Trading of securities issued	The units will begin trading on or promptly after the date of this prospectus. The common stock and warrants comprising the units will begin separate trading on the 52 nd day following the date of this prospectus unless Deutsche Bank Securities Inc. informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. We will file the Current Report on Form 8-K promptly after the closing of this offering, which is anticipated to take place three business days from the date of this prospectus. If the over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the over-allotment option.	No trading of the units or the underlying common stock and warrants would be permitted until the completion of a business combination. During this period, the securities would be held in the escrow or trust account.
Exercise of the warrants	The warrants cannot be exercised until the later of 30 days after the completion of our initial business combination or 12 months from the closing of this offering.	The warrants could be exercised prior to the completion of a business combination, but securities received and cash paid in connection with the exercise would be deposited in the escrow or trust account.

TABLE OF CONTENTS

<p>Election to remain an investor</p>	<p>Terms of Our Offering We will provide our public stockholders with the opportunity to redeem their public shares for cash equal to their pro rata share of the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of our initial business combination, including interest, less franchise and income taxes payable, upon the completion of our initial business combination, subject to the limitations described herein. We may not be required by law to hold a stockholder vote. If we are not required by law and do not otherwise decide to hold a stockholder vote, we will, pursuant to our amended and restated certificate of incorporation, conduct the redemptions pursuant to the tender offer rules of the SEC and file tender offer documents with the SEC which will contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, we hold a stockholder vote, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the business combination. Additionally, each public stockholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction.</p>	<p>Terms Under a Rule 419 Offering A prospectus containing information pertaining to the business combination required by the SEC would be sent to each investor. Each investor would be given the opportunity to notify the company in writing, within a period of no less than 20 business days and no more than 45 business days from the effective date of a post-effective amendment to the company's registration statement, to decide if he, she or it elects to remain a stockholder of the company or require the return of his, her or its investment. If the company has not received the notification by the end of the 45th business day, funds and interest or dividends, if any, held in the trust or escrow account are automatically returned to the stockholder. Unless a sufficient number of investors elect to remain investors, all funds on deposit in the escrow account must be returned to all of the investors and none of the securities are issued.</p>
---------------------------------------	--	--

TABLE OF CONTENTS

	Terms of Our Offering	Terms Under a Rule 419 Offering
Business combination deadline	<p>If we are unable to complete an initial business combination within 21 months from the closing of this offering (or 24 months, as applicable), we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses), less franchise and income taxes payable, divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.</p>	<p>If an acquisition has not been completed within 21 months after the effective date of the company's registration statement, funds held in the trust or escrow account are returned to investors.</p>

TABLE OF CONTENTS

	Terms of Our Offering	Terms Under a Rule 419 Offering
Release of funds	Except for the withdrawal of interest to pay income taxes, if any, and a one-time release of an estimated \$180,000 to pay Delaware franchise taxes for 2013 on a timely basis, none of the funds held in trust will be released from the trust account until the earlier of (i) the completion of our initial business combination or (ii) the redemption of 100% of our public shares if we are unable to complete a business combination within the required time frame (subject to the requirements of applicable law).	The proceeds held in the escrow account are not released until the earlier of the completion of a business combination or the failure to effect a business combination within the allotted time.

Competition

In identifying, evaluating and selecting a target business for our business combination, we may encounter intense competition from other entities having a business objective similar to ours, including other blank check companies, private equity groups and leveraged buyout funds, and operating businesses seeking strategic acquisitions. Many of these entities are well established and have extensive experience identifying and effecting business combinations directly or through affiliates. Moreover, many of these competitors possess greater financial, technical, human and other resources than us. Our ability to acquire larger target businesses will be limited by our available financial resources. This inherent limitation gives others an advantage in pursuing the acquisition of a target business. Furthermore, our obligation to pay cash in connection with our public stockholders who exercise their redemption rights may reduce the resources available to us for our initial business combination and our outstanding warrants, and the future dilution they potentially represent, may not be viewed favorably by certain target businesses. Either of these factors may place us at a competitive disadvantage in successfully negotiating an initial business combination.

Facilities

We currently lease our executive offices at 1450 2nd Street, Suite 247, Santa Monica, CA 90401 from a third party. We consider our current office space adequate for our current operations.

Employees

We currently have three executive officers. These individuals are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time they will devote in any time period will vary based on whether a target business has been selected for our initial business combination and the stage of the business combination process we are in. We do not intend to have any full time employees prior to the completion of our initial business combination.

Periodic Reporting and Financial Information

We will register our units, common stock and warrants under the Exchange Act and have reporting obligations, including the requirement that we file annual, quarterly and current

94

TABLE OF CONTENTS

reports with the SEC. In accordance with the requirements of the Exchange Act, our annual reports will contain financial statements audited and reported on by our independent registered public accountants.

We will provide stockholders with audited financial statements of the prospective target business as part of the tender offer materials or proxy solicitation materials sent to stockholders to assist them in assessing the target business. In all likelihood, these financial statements will need to be prepared in accordance with GAAP. We cannot assure you that any particular target business identified by us as a potential acquisition candidate will have financial statements prepared in accordance with GAAP or that the potential target business will be able to prepare its financial statements in accordance with GAAP. To the extent that this requirement cannot be met, we may not be able to acquire the proposed target business. While this may limit the pool of potential acquisition candidates, we do not believe that this limitation will be material.

We will be required to evaluate our internal control procedures for the fiscal year ending December 31, 2014 as required by the Sarbanes-Oxley Act. Only in the event we are deemed to be a large accelerated filer or an accelerated filer will we be required to have our internal control procedures audited. A target company may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of their internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

Legal Proceedings

There is no material litigation, arbitration or governmental proceeding currently pending against us or any members of our management team in their capacity as such, and we and the members of our management team have not been subject to any such proceeding in the 12 months preceding the date of this prospectus.

TABLE OF CONTENTS**MANAGEMENT****Directors and Executive Officers**

Our directors, executive officers and director nominees are as follows:

Name	Age	Position
Harry E. Sloan	62	Chairman and Chief Executive Officer
Jeff Sagansky	60	President
James A. Graf	48	Vice President, Chief Financial Officer, Treasurer and Secretary
James M. McNamara	59	Director Nominee
Ernest Del	63	Director Nominee

Harry E. Sloan has been our Chairman and Chief Executive Officer since April 11, 2013. Mr. Sloan served as chairman and chief executive officer from February 2011 to January 2013 of Global Eagle Acquisition, which completed its business combination in which it purchased Row 44 and 86% of the shares of AIA in January 2013, and he remains a director of the combined company, Global Eagle Entertainment Inc. From October 2005 to August 2009, Mr. Sloan served as Chairman and Chief Executive Officer of Metro-Goldwyn-Mayer, Inc., or MGM, a motion picture, television, home entertainment, and theatrical production and distribution company, and thereafter continued as non-executive chairman until December 2010. He was appointed by a consortium comprised of private equity investors, Comcast Corporation and Sony Corporation of America one year after they agreed to acquire MGM through a leveraged buyout in September 2004. MGM filed for protection under Chapter 11 of the United States Bankruptcy Code in November 2010 pursuant to a pre-packaged plan of reorganization, which was confirmed by a federal bankruptcy court in December 2010. From 1990 to 2001, Mr. Sloan was Chairman and Chief Executive Officer of SBS Broadcasting, S.A., or SBS, a European broadcasting group, operating commercial television, premium pay channels, radio stations and related print businesses in Western and Central and Eastern Europe, which he founded in 1990 and continued as Executive Chairman until 2005. In 1999, SBS became the largest shareholder of Lions Gate Entertainment Corp., or Lions Gate, an independent motion picture and television production company. Mr. Sloan served as chairman of the board of Lions Gate from April 2004 to March 2005. From 1983 to 1989, Mr. Sloan was Co-Chairman of New World Entertainment Ltd., an independent motion picture and television production company. In January 2011, Mr. Sloan joined the board of Promotora de Informaciones, S.A., or PRISA, Spain's largest media conglomerate which owns El Pais, the leading newspaper in the Spanish-speaking world, as well as pay television, radio and digital properties. He has served on the board of ZeniMax Media Inc., an independent producer of interactive gaming and web content, since 1999. Mr. Sloan was appointed by President Ronald Reagan in 1987 to the President's Advisory Council on Trade and Policy Negotiations (ACTPN). He currently serves on the UCLA Anderson School of Management Board of Visitors and the Executive Board of UCLA Theatre, Film and Television. Mr. Sloan received his Juris Doctor from Loyola Law School in 1976 and his Bachelor of Arts degree from the University of California, Los Angeles in 1971. Mr. Sloan's designation as chairman of our board of directors was based upon his extensive background and experience as an executive in the media and entertainment industries and his substantial experience in identifying and acquiring a wide variety of businesses. Mr. Sloan is the brother-in-law of James A. Graf, our Vice President, Chief Financial Officer, Treasurer and Secretary.

Jeff Sagansky has been our President since April 11, 2013. Mr. Sagansky served as president from February 2011 to January 2013 of Global Eagle Acquisition and he is a director of Global Eagle Entertainment Inc. Mr. Sagansky has served as Chairman of Hemisphere Film Capital, a private motion picture and television finance company, since 2008.

From February 2009 to April 2011, he served as non-executive Chairman of RHI Entertainment, Inc., which develops, produces and distributes original made-for-television movies and miniseries. From January 2007 through December 2011, he served as Chairman of Elm Tree Partners, a private casino development company, and from September 2007 to February 2009, he served as Co-

TABLE OF CONTENTS

Chairman of Peace Arch Entertainment Group, Inc., or Peace Arch, a Canadian production and sales company. He also served as interim chief executive officer of Peace Arch from November 2007 to July 2008. From December 2002 to August 2003, he was Vice Chairman of Paxson Communications Corporation, a television network and stations group. From 1998 to 2002, Mr. Sagansky served as Chief Executive Officer of Paxson Communications Corporation. Prior to joining Paxson Communications Corporation, Mr. Sagansky was Co-President of Sony Pictures Entertainment, or SPE, a motion picture, television, and home entertainment production and distribution company which is a subsidiary of Sony Corporation of America, or SCA, from 1996 to 1998 where he was responsible for SPE's strategic planning and worldwide television operations. Prior to his position with SPE, Mr. Sagansky served as executive vice president of SCA, which he joined in 1994. Prior to joining SCA, Mr. Sagansky was President of CBS Entertainment, a television network, from 1990 to 1994. Mr. Sagansky previously served as president of production and then president of TriStar Pictures, a motion picture and television production and distribution company, from 1985 to 1989. He is currently a director of Starz and Scripps Networks Interactive, Inc., two publicly traded media companies. Mr. Sagansky earned a Bachelor of Arts degree from Harvard College and a Masters in Business degree from Harvard Business School.

James A. Graf has been our Vice President, Chief Financial Officer, Treasurer and Secretary since April 11, 2013. Mr. Graf served as Vice President, Chief Financial Officer, Treasurer and Secretary of Global Eagle Acquisition from February 2011 to January 2013 and he is a Special Advisor to Global Eagle Entertainment Inc. Since April 2013, Mr. Graf has been a director of Mark Sutherland Media LLC d/b/a Static Beach. Since late 2008, Mr. Graf has served as a managing director of TC Capital Pte. Ltd., a Singapore-based corporate finance advisory firm. From 2007 to 2008, Mr. Graf was engaged as a consultant to provide financial advisory services to Metro-Goldwyn-Mayer, Inc. In 2001, Mr. Graf founded and became Chief Executive Officer of Praeдея Solutions, Inc., an enterprise software company with operations in the United States, Malaysia and Ukraine. Praeдея Solutions, Inc. was sold in 2006 to a Mergent Inc, a wholly-owned subsidiary of Xinhua Finance Ltd., and was re-named Mergent Data Technology, Inc. Prior to founding Praeдея, Mr. Graf was a managing director at Merrill Lynch, an investment bank, in Singapore from 1998 to 2000 and a consultant to Merrill Lynch in 2001. From 1996 to 1998, Mr. Graf served as a director and then managing director and President of Deutsche Bank's investment banking entity in Hong Kong, Deutsche Morgan Grenfell (Hong Kong) Ltd. From 1993 to 1996, he was a vice president at Smith Barney in Hong Kong and Los Angeles. From 1987 to 1993, Mr. Graf was an analyst and then associate at Morgan Stanley in New York, Los Angeles, Hong Kong and Singapore. Mr. Graf received a Bachelor of Arts degree from the University of Chicago in 1987. Mr. Graf is the brother-in-law of Harry E. Sloan, our chairman and chief executive officer.

James M. McNamara has agreed to serve on our board of directors upon the closing of this offering. Mr. McNamara served as a director from May 2011 to January 2013 of Global Eagle Acquisition. In 2005, Mr. McNamara founded Panamax Films, LLC, a film production company that has an output deal with Lions Gate Films to produce films for the U.S. Latino and Greater Latin American film going audiences, and he is currently its chairman. In 2008, Mr. McNamara joined Cinelatino, Inc., a premium Spanish language film channel in the United States, where he serves as non-executive chairman and in 2010, he joined as non-executive chairman of Pantelion Films, a Latino Hollywood studio that is a partnership between Lions Gate Entertainment and Grupo Televisa, a Spanish language media company. From 1999 to 2005, Mr. McNamara was president and chief executive officer at Telemundo Communications Group, Inc., the operator of Telemundo, a Spanish-language broadcast network. From April 1996 to June 1998, Mr. McNamara was the president of Universal Television Enterprises, or Universal, a television production company where his responsibilities included domestic syndication first-run programming and international sales. Mr. McNamara joined Universal from New World, where he served as chief executive officer from 1991 to 1995 and senior vice president, executive vice president and then president of New World International from 1986 to 1991. Mr. McNamara

TABLE OF CONTENTS

served as a director of Jump TV, a leading IPTV company providing a comprehensive suite of technology and services to content owners and aggregators, from 2006 to 2008 as well as SBS from 1996 to 2005 and Film Roman, Inc., a producer of animated television programming from 1997 to 1999. Mr. McNamara currently serves as a director of Hemisphere Media Group, Inc. and also is contracted to provide development, production and maintenance of programming, affiliate relations, identification and negotiation of carriage opportunities, and the development, identification and negotiation of new business initiatives, including sponsorship.

Mr. McNamara received his Masters degree from the American Graduate School of International Management and undergraduate degree in business administration and political science from Rollins College. Mr. McNamara's designation as a director was based upon his twenty-five years of experience as a leading international film and television executive, extensive broadcast experience in the United States and Latin America and wide management experience in both large and small companies.

Ernest Del has agreed to serve on our board of directors upon the closing of this offering. Mr. Del has been the President and member of the Board of Directors of ZeniMax Media Inc., a global video-game and media content company based in Rockville, MD, since December 1999. Mr. Del has also served in the additional capacity of President, ZeniMax Europe Ltd., based in London, since April 2011. Mr. Del brings many years of experience in entertainment law, having represented top talent and executives at major television networks, film and television studios and production companies worldwide. Mr. Del is a founding partner of the Los Angeles-area law firm Del, Shaw, Moonves, Tanaka, Finkelstein & Lezcano. His career in law commenced in 1976 with Wyman, Bautzer, Rothman & Kuchel, initially as an anti-trust attorney before moving into the entertainment arena there. Mr. Del is also a member of the Board of Directors of Delivery Agent, Inc., a San Francisco-based pioneer in t-commerce and other emerging media applications. He graduated with degrees in economics and political science from the University of California at Berkeley (1973) and earned his law degree from Stanford University Law School (1976).

Mr. Del's designation as a director was based upon his extensive experience as an attorney in the media and entertainment industries and his significant experience in leadership roles both as an executive and as a board member of emerging media companies.

Number and Terms of Office of Officers and Directors

Our board of directors is divided into three classes with only one class of directors being elected in each year and each class (except for those directors appointed prior to our first annual meeting of stockholders) serving a three-year term. The term of office of the first class of directors, consisting of James M. McNamara, will expire at our first annual meeting of stockholders. The term of office of the second class of directors, consisting of Ernest Del, will expire at the second annual meeting of stockholders. The term of office of the third class of directors, consisting of Harry E. Sloan, will expire at the third annual meeting of stockholders.

Our officers are appointed by the board of directors and serve at the discretion of the board of directors, rather than for specific terms of office. Our board of directors is authorized to appoint persons to the offices set forth in our amended and restated bylaws as it deems appropriate. Our amended and restated bylaws provide that our officers may consist of a chairman of the board, chief executive officer, president, chief financial officer, vice presidents, secretary, treasurer and such other offices as may be determined by the board of directors.

Collectively, through their positions described above, our officers and directors have extensive experience. These individuals will play a key role in identifying and evaluating prospective acquisition candidates, selecting the target businesses, and structuring, negotiating and completing their acquisition.

TABLE OF CONTENTS

Director Independence

NASDAQ listing standards require that a majority of our board of directors be independent. Our board of directors has determined that James M. McNamara and Ernest Del are independent directors as defined in the NASDAQ listing standards and applicable SEC rules. Our independent directors will have regularly scheduled meetings at which only independent directors are present.

Executive Officer and Director Compensation

None of our executive officers or directors received any compensation (cash or non-cash) for services rendered. Commencing on the date of this prospectus, we have agreed to pay Mr. Graf, or an entity owned and controlled by him, a monthly consulting fee of \$15,000 plus, in the event that Mr. Graf is no longer receiving medical insurance from an employer, an additional amount per month to reimburse Mr. Graf for the purchase of such insurance, for services prior to the completion of our initial business combination, (regardless of the amount of services provided) including preparation of our financial statements, SEC filings, financial due diligence of targets for our initial business combination and negotiations of an agreement for our initial business combination. We expect that Mr. Graf will devote a majority of his monthly business time (at least 76 hours) on average to providing us these services, although Mr. Graf will be entitled to receive the full monthly consulting fee irrespective of the amount of services he provides in a given month. Additionally, we will reimburse our sponsor for office space, secretarial and administrative services provided to members of our management team by our sponsor, members of our sponsor, and members of our management or their affiliates, in an amount not to exceed \$10,000 per month in the event such space and/or services are utilized and we do not pay a third party directly for such services. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees. Other than the described fee, no compensation of any kind, including finder's and consulting fees, will be paid to our sponsor, executive officers and directors, or any of their respective affiliates, for services rendered prior to or in connection with the completion of our initial business combination. However, these individuals will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers or directors, or our or their affiliates.

After the completion of our initial business combination, directors or members of our management team who remain with us, may be paid consulting, management or other fees from the combined company with any and all amounts being fully disclosed to stockholders, to the extent then known, in the tender offer materials or proxy solicitation materials furnished to our stockholders in connection with a proposed business combination. It is unlikely the amount of such compensation will be known at the time, as it will be up to the directors of the post-combination business to determine executive and director compensation. Any compensation to be paid to our officers will be determined, or recommended to the board of directors for determination, either by a compensation committee constituted solely by independent directors or by a majority of the independent directors on our board of directors.

We do not intend to take any action to ensure that members of our management team maintain their positions with us after the completion of our initial business combination, although it is possible that some or all of our executive officers and directors may negotiate employment or consulting arrangements to remain with us after our initial business combination. The existence or terms of any such employment or consulting arrangements to retain their positions with us may influence our management's motivation in identifying or selecting a target business but we do not believe that the ability of our management to remain with us after the completion of our initial business combination will be a determining factor in

TABLE OF CONTENTS

our decision to proceed with any potential business combination. We are not party to any agreements with our executive officers and directors that provide for benefits upon termination of employment.

Committees of the Board of Directors

Our board of directors will have two standing committees: an audit committee and a nominating committee. Subject to phase-in rules and a limited exception, the rules of NASDAQ and Rule 10A of the Exchange Act require that the audit committee of a listed company be comprised solely of independent directors. Subject to phase-in rules and a limited exception, the rules of NASDAQ require that the nominating committee of a listed company be comprised solely of independent directors.

Audit Committee

Prior to the completion of this offering, we will establish an audit committee of the board of directors. Harry E. Sloan, James M. McNamara and Ernest Del will serve as members of our audit committee. Under the NASDAQ listing standards and applicable SEC rules, we are required to have three members of the audit committee, all of whom must be independent, subject to the exception described below. James M. McNamara and Ernest Del are independent. Because we expect to list our securities on NASDAQ in connection with our initial public offering, we have one year from the date of this offering to have our audit committee be comprised solely of independent members. We intend to identify one additional independent director to serve on the audit committee within one year of the closing of this offering, at which time Harry E. Sloan will resign from the committee. We expect such additional director to enter into a letter agreement substantially similar to the letter agreements signed by our director nominees included as exhibits to the registration statement of which this prospectus forms a part.

James M. McNamara will serve as the Chairman of the audit committee. Each member of the audit committee is financially literate and our board of directors has determined that James M. McNamara qualifies as an audit committee financial expert as defined in applicable SEC rules.

The audit committee is responsible for:

meeting with our independent accountants regarding, among other issues, audits, and adequacy of our accounting and control systems;

monitoring the independence of the independent auditor;

verifying the rotation of the lead (or coordinating) audit partner having primary responsibility for the audit and the audit partner responsible for reviewing the audit as required by law;

inquiring and discussing with management our compliance with applicable laws and regulations;

pre-approving all audit services and permitted non-audit services to be performed by our independent auditor, including the fees and terms of the services to be performed;

appointing or replacing the independent auditor;

determining the compensation and oversight of the work of the independent auditor (including resolution of disagreements between management and the independent auditor regarding financial reporting) for the purpose of preparing or issuing an audit report or related work;

establishing procedures for the receipt, retention and treatment of complaints received by us regarding accounting, internal accounting controls or reports which raise material issues regarding our financial statements or accounting policies;

TABLE OF CONTENTS

monitoring compliance on a quarterly basis with the terms of this offering and, if any noncompliance is identified, immediately taking all action necessary to rectify such noncompliance or otherwise causing compliance with the terms of this offering; and

reviewing and approving all payments made to our existing holders, executive officers or directors and their respective affiliates, other than consulting fees payable to our chief financial officer, James A. Graf, or an entity owned or controlled by Mr. Graf, of \$15,000 per month for each month (or portion thereof) plus, in the event that Mr. Graf is no longer receiving medical insurance from an employer, an additional amount per month to reimburse him for the purchase of such insurance for services prior to the closing of our business combination (regardless of the amount of services provided). Any payments made to members of our audit committee will be reviewed and approved by our board of directors, w
