## **Section 1 - Conflict Mineral Disclosure**

### **Item 1.01 Conflict Minerals Disclosure and Report**

Stoneridge, Inc. (the “Company”) evaluated the product lines in its three reportable segments, and in good faith determined that some products it manufactured or contracted to manufacture in 2014 contained tantalum, tin, tungsten and/or gold (collectively “Conflict Minerals”). These Conflict Minerals are necessary to the functionality or production of some Company products.

The Company does not purchase Conflict Minerals directly from smelters or mines. Therefore, the Company conducted a reasonable good faith country of origin inquiry regarding Conflict Minerals included in parts sourced from our suppliers to determine whether these Conflict Minerals originated in the Democratic Republic of the Congo (“DRC”) or an adjoining country or arose from recycled or scrap sources. Following and in conjunction with the source of origin inquiry, the Company also conducted due diligence on the source and chain of custody of Conflict Minerals.

Based upon the results of the due diligence performed for the year ended December 31, 2014, the Company is unable to exclude the presence of Conflict Minerals (as defined in Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (“Dodd-Frank Act”)) in certain of its products or to determine the origin of any Conflict Minerals used in some of the Company’s manufactured products. Accordingly, the Company cannot exclude the possibility that some of its products contain Conflict Minerals which may have originated in the DRC or an adjoining country (as defined in Section 1502 of the Dodd-Frank Act). As a result, the Company is filing a Conflict Minerals Report (“CMR”) as Exhibit 1.01 to this Form SD.

#### Conflict Minerals Disclosures
