On October 12, 2015, IGI Laboratories Inc., a Delaware corporation (the “**Company**”) entered into asset purchase agreements (each, a “**Purchase Agreement**” and together, the “**Purchase Agreements**”) and certain other ancillary agreements with Alveda Pharmaceuticals Inc. (the “**Seller**”) for the purchase of the Seller’s rights, title, and interest in the development, production, marketing, import and distribution of certain pharmaceutical products. The Company agreed to purchase the intellectual property-related assets of the Seller, including certain contracts, goodwill, product registrations and books and records, pursuant to the terms of one Purchase Agreement and the non-intellectual property-related assets of Seller, including certain accounts receivable, inventory, prepaid expenses, capital assets, contracts, operational permits, books and records, and certain intellectual property, pursuant to the terms of the other Purchase Agreement. Certain employees of the Seller will be retained by the Company following the closing of the transaction.

The aggregate purchase price to be satisfied on the closing of the transaction in accordance with the terms of the Purchase Agreements will be approximately \$47,000,000 CAD in cash and agreed assumed liabilities associated with the Purchased Assets. The closing of the transaction is contingent on the satisfaction of certain closing conditions by the Company and by the Seller, as set out in the Purchase Agreements. The parties anticipate that the transaction will close approximately thirty days after signing. Under the terms of the Purchase Agreements, the Company has agreed to indemnify the Seller and the Seller has agreed to indemnify the Company against certain liabilities.
