Semtech Announces Fourth Quarter Results

CAMARILLO, Calif.--(BUSINESS WIRE)--Feb. 25, 2003--Semtech Corporation (Nasdaq: SMTC) today announced results for its fiscal year 2003 fourth quarter that ended January 26, 2003.

Sales for the fourth quarter of fiscal year 2003 were \$44.5 million and net income was \$8.1 million or 11 cents per diluted share. Sales for the fourth quarter of fiscal year 2002 were \$46.4 million and net income was \$8.7 million or 11 cents per diluted share.

Semtech ended fiscal year 2003 with \$247.5 million in cash and marketable securities, net of outstanding debt. Operating cash flow for the fiscal year was \$62.7 million and \$20.5 million for the fourth quarter.

Sales for all of fiscal year 2003 were \$193.0 million, up from \$191.2 million in the prior fiscal year. Net income for fiscal year 2003 was \$42.2 million or 54 cents per diluted share, which compared to net income of \$26.0 million or 33 cents per diluted share in fiscal year 2002.

Edgar Filing: SEMTECH CORP - Form 8-K

Earnings before taxes for fiscal year 2003 include \$1.2 million of one-time costs for an expected loss on a sub-lease and asset impairment, \$12.7 million of gain on the repurchase of convertible subordinated notes, and the sale of \$1.3 million of inventory that was previously written-off. Included in the prior fiscal year pre-tax results were one-time costs of \$16.7 million for the write-down of inventory, headcount reductions and a Superfund settlement, and \$2.3 million of gain on the repurchase of convertible subordinated notes.

Fourth Quarter Commentary

Fourth quarter shipments of Portable Power Management Products grew 44 percent sequentially and Protection Products shipments increased 3 percent over the prior quarter. Sales of Power Management Products used in desktop and server applications were approximately flat quarter-on-quarter. As forecasted, shipments of Power Management Products used in computer gaming systems and Test and Measurement Products declined from the third quarter.

New orders, excluding Semtech's Test and Measurement Product line, increased about 8 percent in the fourth quarter compared to the third quarter, and the book-to-bill ratio for non-test products was 1.08. New orders for Portable Power Products represented 53 percent of all Power Management bookings, while Networking and Industrial Power Products orders represented 10 percent. Orders for Test and Measurement Products declined substantially in the fourth quarter, but are forecasted to grow in the first quarter.

Jack Poe, Chairman and CEO commented, "Semtech's Protection and Power Management product lines continue to do well, despite difficult market conditions. The use of Power, Protection and Human Input Devices in notebook, cellular phone and other portable applications is gaining traction, and now represents about 44 percent of net sales.

"The outlook for fiscal year 2004 is for growth in both sales and operating income. We anticipate growth will be driven by broad strength in portable applications, the recovery of lost market-share in the desktop computer market, and a very modest improvement in capital equipment and IT spending that should benefit Semtech's Test and Measurement and Advanced Communications product lines," commented Mr. Poe.

Design Wins and Growth Opportunities

Design wins in the fourth quarter were up sequentially, totaling 510 designs with annual potential revenue of \$65.0 million. Cellular phones were again the largest end application in new designs, followed by notebook computers and desktop computers. Portable Power Management was the largest product segment in terms of design win dollars, followed by Protection Products. Design wins recorded in the quarter for Power Management Products used in desktop, server and graphic applications totaled \$12.7 million. Semtech's Combi-Sense(TM) multiphase power management topology continues to be well received in the desktop marketplace.

First Quarter Outlook

Semtech estimates that net sales for the first quarter of fiscal year 2004 will be flat to up slightly from the fourth quarter. Turns orders (orders received and shipped in the same quarter) of approximately 53 percent are required to achieve this forecast. Gross margin in the first quarter is expected to be comparable to the level achieved in the fourth quarter. Earnings are forecasted to be 11 cents per diluted share.

Buyback Update

Semtech recently increased its buyback program by \$75.0 million, raising the total amount of the current buyback program to \$275.0 million. To date, the Company has bought back \$232.5 million in convertible subordinated notes and common stock under this program, including \$53.5 million face value of its convertible subordinated debentures subsequent to the end of the fourth quarter.

About Semtech

Semtech Corporation is a leading supplier of analog and mixed-signal semiconductors used in a wide range of computer, industrial and communication applications.

Safe Harbor Provision

Statements contained in this release that are not historical facts are forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements, including projections and forecasts for revenue and gross margin, involve risks and uncertainties that could cause actual results to differ materially from those projected. These risks and uncertainties include worldwide economic and political conditions, the timing and duration of semiconductor market upturns or downturns, demand for personal computers, cellular phones and automated test equipment, demand for semiconductor devices in general, competitors' actions, relations with large strategic customers and suppliers, manufacturing costs and yields, demand for the Company's products in particular, and risks associated with the businesses of major customers. Other factors that may cause actual results to differ from the forward-looking statements contained in this press release and that may affect the Company's prospects in general are described in the Company's filings with the Securities and Exchange Commission. The Company undertakes no obligation to update or revise forward-looking statements to reflect subsequent events or changed assumptions or circumstances.
