Consolidated Financial Results for the First Quarter Ended June 30, 2008

Tokyo, July 29, 2008 -- Sony Corporation today announced its consolidated results for the first quarter ended June 30, 2008 (April 1, 2008 to June 30, 2008).

- 1 Consolidated sales remained unchanged year-on-year; local currency sales increased 8%.
- In the Game segment, performance improved significantly and operating income was recorded.

 In the Electronics segment, operating income decreased year-on-year mainly due to increased price competition and a decrease in equity in net income of affiliated companies.
- BRAVIA LCD_{TM} television profitability improved.

Unless otherwise specified, all amounts are presented on the basis of Generally Accepted Accounting Principles in the U.S. ("U.S. GAAP").

^{*} U.S. dollar amounts have been translated from yen, for convenience only, at the rate of \(\pm\)106=U.S.\(\pm\)1, the approximate Tokyo foreign exchange market rate as of June 30, 2008.

^{**} Sony periodically reviews the presentation of its financial information to ensure that it is consistent with the way management views its consolidated operations. Since Sony considers Sony Ericsson Mobile Communications AB ("Sony Ericsson"), S-LCD Corporation ("S-LCD") and SONY BMG MUSIC ENTERTAINMENT ("SONY BMG") (which together constitute a majority of Sony's equity investments) to be integral to Sony's operations, Sony determined the most appropriate method to report equity in net income or loss of all affiliated companies was as a component of operating income, effective from the first quarter of the fiscal year ending March 31, 2009. Of the above equity affiliates, the equity earnings from Sony Ericsson and S-LCD are recorded within the operating income of the Electronics segment and the equity earnings from SONY BMG are recorded within All Other. In connection with this reclassification, consolidated operating income, operating income of each segment and consolidated income before

income taxes for the first quarter of the fiscal year ended March 31, 2008 have been reclassified to conform with the current quarter presentation.

Consolidated Results for the First Quarter Ended June 30, 2008

Sales and operating revenue ("sales") increased 0.1% compared to the same quarter of the previous fiscal year ("year-on-year").

Electronics segment sales increased 0.7% year-on-year due to an increase in sales of products such as BRAVIA LCD televisions. In the Game segment, sales increased 16.8% year-on-year primarily as a result of an increase in sales of PLAYSTATION®3 ("PS3") and PSP® (PlayStation Portable) ("PSP"). In the Pictures segment, there was a 31.0% decrease in sales year-on-year primarily because no film released theatrically in the current quarter performed as strongly as Spider-Man 3, which was released in the same quarter of the prior year. In the Financial Services segment, although revenue from insurance premiums at Sony Life Insurance Co., Ltd. ("Sony Life") increased, revenue decreased by 1.0% year-on-year due to a decrease in net valuation gains from convertible bonds in the general account and lower net gains from investments in the separate account.

On a local currency basis, consolidated sales increased 8% year-on-year. For references to sales on a local currency basis, see Note on page 8.

Operating income decreased 39.5% year-on-year.

In the Electronics segment, operating income decreased mainly due to increased price competition and a decrease in equity in net income for Sony Ericsson. In the Game segment, operating income was recorded compared with an operating loss recorded in the same quarter of the previous fiscal year mainly due to improved profitability of the PS3 business resulting from PS3 hardware cost reductions and increased sales of PS3 software, as well as strong sales of PSP hardware. In the Pictures segment, an operating loss was recorded mainly due to the decrease in theatrical revenues and a significant increase in theatrical marketing expenses year-on-year related to upcoming film releases. In the Financial Services segment, operating income decreased year-on-year mainly due to a decline in net valuation gains from convertible bonds in the general account of Sony Life.

Restructuring charges of ¥0.6 billion (\$5 million) were recorded as operating expenses this quarter compared to ¥3.4 billion in the same quarter of the previous year.

Equity in net income of affiliated companies recorded within operating income decreased 89.8% year-on-year to \(\frac{\text{\$}}{2.2}\) billion (\(\frac{\text{\$}}{21}\) million). Sony recorded equity in net income for Sony Ericsson of \(\frac{\text{\$}}{40.6}\) billion (\(\frac{\text{\$}}{5}\) million), a decrease of \(\frac{\text{\$}}{17.1}\) billion year-on-year primarily due to a less favorable product mix, especially in Europe, increased overall price competition, and higher R&D investments as a percentage of sales. Sony recorded equity in net loss of \(\frac{\text{\$}}{2.5}\) billion (\(\frac{\text{\$}}{24}\) million) for SONY BMG, a deterioration of \(\frac{\text{\$}}{3.8}\) billion from the equity in net income recorded in the same quarter of the previous year reflecting the impact of the continued decline of the worldwide physical music market, higher restructuring costs and the non-recurrence of a prior year gain on sale of an interest in a joint venture of SONY BMG. Equity in net income of \(\frac{\text{\$}}{2.6}\) billion (\(\frac{\text{\$}}{24}\) million) was recorded for S-LCD, a joint-venture with Samsung Electronics Co., Ltd., a year-on-year increase of \(\frac{\text{\$}}{1.1}\) billion.

Income before income taxes was ¥62.9 billion (\$594 million), a year-on-year decrease of 40.5%, due to the decrease in operating income discussed above.

Income taxes: During the quarter, Sony recorded ¥19.0 billion (\$180 million) of income taxes resulting in an effective tax rate of 30.2%. The effective tax rate was lower than the Japanese statutory tax rate mainly due to the reversal of valuation allowances at certain Sony subsidiaries as the tax benefits previously not recognized are now expected to be realized.

Minority interest in income of consolidated subsidiaries was ¥8.9 billion (\$84 million), compared with a ¥0.4 billion loss in the same quarter of the previous fiscal year. Minority interest income was recorded during the quarter due to

the decrease in ownership of Sony Financial Holdings Inc. ("SFH") by Sony Corporation from 100% to 60% as a result of the global initial public offering of SFH shares in October 2007.

As a result of the changes in the items discussed above, net income decreased 47.4% year-on-year to ¥35.0 billion (\$330 million).

Operating Performance Highlights by Business Segment

"Sales and operating revenue" in each business segment represents sales and operating revenue recorded before intersegment transactions are eliminated. "Operating income (loss)" in each business segment represents operating income (loss) reported before intersegment transactions and unallocated corporate expenses are eliminated.

Electronics (Billions of yen, millions of U.S. dollars) First quarter ended June 30

| | | Change in | | | |
|-----------------------------|---|-----------|-----------|----------|--------|
| | | 2007 | 2008 | yen | 2008 |
| Sales and operating revenue | ¥ | 1,429.3 | ¥ 1,439.1 | +0.7% \$ | 13,577 |
| Operating income | | 103.5 | 44.4 | -57.2 | 418 |

Unless otherwise specified, all amounts are on a U.S. GAAP basis.

Sales increased by 0.7% year-on-year (a 9% increase on a local currency basis) to ¥1,439.1 billion (\$13,577 million) due to higher sales of products including BRAVIA LCD televisions, which saw increased unit sales in all regions. This was partially offset by the negative impact from the appreciation of the yen against the U.S. dollar. Sales to outside customers increased 2.6% year-on-year.

Operating income decreased by 57.2% year-on-year to ¥44.4 billion (\$418 million). This decrease was largely due to increased price competition and a decrease in equity in net income for Sony Ericsson. With regard to products within the Electronics segment, although BRAVIA LCD television profitability improved due to a significant increase in unit sales, Cyber-shotTM compact digital cameras and Handycam® video cameras, both of which met intensified competition from other companies and decelerated market growth for these products in developed countries, as well as VAIOTM PCs, which suffered unit price declines, experienced a decrease in profit.

Inventory, as of June 30, 2008, was \(\pm\)1,016.0 billion (\(\pm\)9,585 million), an increase of \(\pm\)87.6 billion, or 9.4%, compared with the level as of June 30, 2007 and an increase of \(\pm\)193.9 billion, or 23.6%, compared with the level as of March 31, 2008.

Operating Results for Sony Ericsson Mobile Communications AB

The following operating results for Sony Ericsson, which is accounted for by the equity method as Sony Corporation's ownership percentage is 50%, are not consolidated in Sony's consolidated financial statements. However, Sony believes that this disclosure provides additional useful analytical information to investors regarding operating performance of Sony. As previously stated, the equity earnings of Sony Ericsson are included in operating income of the Electronics segment.

| Income before taxes | | 327 | 8 | -98 |
| Net income | | 220 | 6 | -97 |

Sales for the quarter ended June 30, 2008 decreased 9% year-on-year due to unfavorable exchange rate fluctuations, continued slowing market growth in mid- to high-end phones, and increased competition. Income before taxes for the quarter decreased significantly year-on-year due to a less favorable product mix, with particular impact in Europe, increased overall price competition and higher R&D investments as a percentage of sales. As a result, Sony recorded equity in net income of ¥0.6 billion (\$5 million).

Game (Billions of yen, millions of U.S. dollars) First quarter ended June 30

| | | Change in | | | |

| Operating income (loss) | | (29.2) | 5.4 | - | 51 |

Unless otherwise specified, all amounts are on a U.S. GAAP basis.

Sales increased 16.8% year-on-year (a 25% increase on a local currency basis) to \(\frac{4}{2}\)29.6 billion (\(\frac{5}{2}\),166 million).

Hardware: Overall hardware sales increased as a result of an increase in sales of PS3 and PSP. Sales of PlayStation®2 ("PS2") decreased year-on-year.

Software: Despite an increase in PS3 and PSP software sales, overall software sales decreased as a result of a decrease in PS2 software sales.

Operating income of ¥5.4 billion (\$51 million) was reported, compared to an operating loss of ¥29.2 billion reported in the same quarter of the previous year. The improvement in operating performance in the current quarter was primarily due to an improvement in the operating performance of the PS3 business as a result of PS3 hardware cost reductions and increased sales of PS3 software, as well as strong sales of PSP hardware.

Worldwide hardware unit sales (increase/decrease year-on-year):

--> PS2: 1.51 million units (a decrease of 1.15 million units)
--> PSP: 3.72 million units (an increase of 1.59 million units)
--> PS3: 1.56 million units (an increase of 0.86 million units)

Worldwide software unit sales (increase/decrease year-on-year):

--> PS2: 19.3 million units (a decrease of 11.8 million units)
--> PSP: 11.8 million units (an increase of 2.0 million units)
--> PS3: 22.8 million units (an increase of 18.1 million units)

Inventory, as of June 30, 2008, was \\$159.5 \text{ billion} (\\$1,505 \text{ million}), which represents a \\$67.5 \text{ billion, or 29.7%, decrease compared with the level as of June 30, 2007 due to a decrease in PS3 hardware inventory. Inventory decreased by \\$22.0 \text{ billion, or 12.1%, compared with the level as of March 31, 2008.}

| Operating income (loss) | | 4.6 | (8.3) | - | (78) |

Unless otherwise specified, all amounts are reported on a U.S. GAAP basis. The results presented above are a yen-translation of the results of Sony Pictures Entertainment ("SPE"), a U.S.-based operation which aggregates the results of its worldwide subsidiaries. Management analyzes the results of SPE in U.S. dollars, so discussion of certain portions of its results are specified as being on "a U.S. dollar basis."

Sales decreased 31.0% year-on-year (a 20% decrease on a U.S. dollar basis). The decrease is primarily due to the strong worldwide theatrical performance of Spider-Man 3 in the same quarter of the previous fiscal year. In the current quarter, there was no comparable major film released theatrically. The film that contributed most significantly to motion picture revenues during the current quarter was You Don't Mess with the Zohan. Partially offsetting the motion picture revenue decrease, television revenues increased year-on-year due to higher advertising revenues from several international channels.

An operating loss of ¥8.3 billion (\$78 million) was recorded as compared to operating income of ¥4.6 billion in the same quarter of the previous fiscal year. The decrease in operating results is due, in part, to the same factors contributing to the lower motion picture revenues noted above. In addition, theatrical marketing expenses related to upcoming film releases were significantly higher than those recorded in the prior year's first quarter. Television operating income benefited from the higher advertising revenues noted above.

Financial Services

| Operating income | | 33.8 | 30.6 | -9.4 | 288 | |

In Sony's Financial Services segment, results include SFH, Sony Life, Sony Assurance Inc., Sony Bank Inc. ("Sony Bank") and Sony Finance International Inc. Unless otherwise specified, all amounts are reported on a U.S. GAAP basis. Therefore, the results of Sony Life shown below differ from the results that SFH and Sony Life disclose on a Japanese statutory basis. As a result of the global initial public offering of SFH shares in October 2007, Sony Corporation's ownership percentage in SFH is 60%. Consolidated results for SFH continue to be presented in Sony's consolidated financial statements along with a minority interest component.

Financial service revenue decreased 1.0% year-on-year due to a decrease in revenue at Sony Life. Revenue at Sony Life was ¥155.2 billion (\$1,464 million), a ¥6.6 billion or 4.1% decrease year-on-year. Revenue decreased due to a decrease in net valuation gains from convertible bonds in the general account and lower net gains from investments in the separate account. Partially offsetting this was an increase in revenue from insurance premiums reflecting an increase in insurance-in-force.

Operating income decreased 9.4% year-on-year as the result of a decline in operating income at Sony Life. Operating income at Sony Life was ¥27.6 billion (\$260 million), a ¥7.0 billion or 20.3% decrease year-on-year. This decrease

was mainly due to a decline in net valuation gains from convertible bonds in the general account which more than offset the contribution from increased revenue from insurance premiums at Sony Life.

| Operating income | | 8.9 | 6.7 | -24.3 | 64 | |

Unless otherwise specified, all amounts are on a U.S. GAAP basis.

Sales increased 9.5% year-on-year, mainly due to the recognition of revenue from a settlement payment related to copyright infringement claims, higher fee revenue from broadband connection services, especially fiber-optic, at So-net Entertainment Corporation and an increase in sales at Sony Music Entertainment (Japan) Inc. ("SMEJ").

Sales at SMEJ increased year-on-year mainly as a result of an increase in music download sales and animation DVD sales. SMEJ's best-selling albums during the current quarter included I LOVED YESTERDAY by YUI and TOKYO STAR by Miliyah Kato.

Operating income decreased 24.3% year-on-year due to deterioration in equity in net income (loss) for SONY BMG. This decrease was partially offset by the above-mentioned recognition of revenue from a settlement payment related to copyright infringement claims.

Operating Results for SONY BMG MUSIC ENTERTAINMENT

The following operating results for SONY BMG, which is accounted for by the equity method as Sony Corporation's ownership percentage is 50%, are not consolidated in Sony's consolidated financial statements. However, Sony believes that this disclosure provides additional useful analytical information to investors regarding operating performance of Sony. As previously stated, the equity earnings of SONY BMG are included in operating income of All Other.

| Income (loss) before income taxes | 31 | (42) | - |
| Net income (loss) | 21 | (49) | - |

Sales for the quarter ended June 30, 2008 decreased by 6% year-on-year primarily due to the continued decline in the physical music market worldwide not being fully offset by growth in digital product sales. A loss before income taxes of \$42 million was recorded for the current quarter compared to income before income taxes of \$31 million recorded in the same quarter of the previous year. The decrease in profitability reflects the impact of decline in revenue due to continuing difficult industry-wide market conditions, a year-on-year increase in restructuring costs of \$46 million and the non-recurrence of the prior year gain on sale of an interest in a joint venture of SONY BMG. As a result, equity in net loss of \$2.5 billion (\$24 million) was recorded by Sony. Best selling releases during the quarter included Usher's Here I Stand, Leona Lewis' Spirit and Neil Diamond's Home Before Dark.

6

In August 2004, Sony combined its recorded music business outside of Japan with the recorded music business of Bertelsmann AG, forming SONY BMG, after receiving antitrust approval from, among others, the European Commission. On December 3, 2004, Impala, an international association of 2,500 independent recorded music companies, appealed the European Commission's clearance decision to the EU Court of First Instance ("CFI"). On July 13, 2006, the CFI annulled the Commission's decision to allow the merger to go forward, requiring the Commission to re-examine the transaction. In October 2006, Sony Corporation of America and Bertelsmann AG filed an appeal of the CFI's judgment to the Court of Justice of the European Communities ("ECJ"). On July 10, 2008, the ECJ rendered judgment on that appeal, setting aside the CFI's judgment and referring the case back to the CFI for further consideration. In the meantime, on October 3, 2007, following its re-examination of the merger, the Commission had rendered a second clearance decision reaffirming the conclusion reached in 2004 that the transaction raised no competition concerns. On June 16, 2008, Impala announced it had filed an appeal of that second clearance decision. Sony Corporation of America has filed an application to intervene in that appeal.

Cash Flows

For Consolidated Statements of Cash Flows, charts showing Sony's cash flow information for all segments, all segments excluding the Financial Services segment and the Financial Services segment alone, please refer page to F-3 and F-9 respectively.

Operating Activities: During the current quarter, there was a net cash outflow of \(\frac{\text{\$\frac{4}}}{216.9}\) billion (\(\frac{\text{\$\frac{5}}}{2.047}\) million) in operating activities, an increase of \(\frac{\text{\$\frac{4}}}{123.0}\) billion, or 130.9 percent year-on-year. For all segments, excluding the Financial Services segment, \(\frac{\text{\$\frac{4}}}{26.0}\) billion (\(\frac{\text{\$\frac{4}}}{2.472}\) million) of net cash was used in operating activities, a deterioration of \(\frac{\text{\$\frac{4}}}{126.2}\) billion, or 92.9 percent year-on-year. The Financial Services segment had a net cash inflow of \(\frac{\text{\$\frac{4}}}{48.5}\) billion (\(\frac{\text{\$\frac{4}}}{457}\) million) from operating activities, an improvement of \(\frac{\text{\$\frac{4}}}{6.9}\) billion, or 16.7 percent year-on-year.

During the current quarter, with respect to all segments excluding the Financial Services segment, the major cash outflow factors included increases in income tax payments and inventory (particularly within the Electronics segment). This exceeded cash inflow which included a cash contribution from net income, after taking into account depreciation and amortization, and an increase in notes and accounts payable, trade. The Financial Services segment generated net cash mainly from an increase in revenue from insurance premiums reflecting a steady increase in insurance-in-force at Sony Life.

Compared with the same quarter of the previous fiscal year, within all segments, excluding the Financial Services segment, net cash used increased during the current quarter mainly as a result of an increase in income tax payments. Within the Financial Services segment, net cash generated increased mainly due to an increase in revenue from insurance premiums reflecting a steady increase in insurance-in-force at Sony Life.

Investing Activities: During the current quarter, Sony used ¥214.3 billion (\$2,021 million) of net cash in investing activities, a decrease of ¥185.5 billion, or 46.4 percent year-on-year. For all segments, excluding the Financial Services segment, ¥42.9 billion (\$405 million) of net cash was used in investing activities, a decrease of ¥67.8 billion, or 61.2 percent year-on-year. The Financial Services segment used ¥185.0 billion (\$1,745 million) in net cash, a decrease of ¥106.3 billion, or 36.5 percent year-on-year.

During the current quarter, with respect to all segments excluding the Financial Services segment, payments for items such as purchases of manufacturing equipment in the Electronics segment and the acquisitions of Gracenote, Inc. and 2waytraffic N.V. exceeded proceeds generated mainly from the sales of semiconductor fabrication equipment. Within the Financial Services segment, payments for investments and advances, carried out primarily at Sony Life, and at Sony Bank, where operations are expanding, exceeded proceeds from the maturities of marketable securities, sales of securities investments and collections of advances.

Compared with the same quarter of the previous fiscal year, net cash used in investing activities decreased within all segments, excluding the Financial Services segment, primarily due to the sales of semiconductor fabrication equipment. On the other hand, net cash used in investing activities within the Financial Services segment decreased significantly year-on-year due to a decrease in payments for investments and advances, carried out primarily at Sony Life.

In all segments, excluding the Financial Services segment, net cash used by operating and investing activities combined was ¥304.9 billion (\$2,877 million), an increase of ¥58.4 billion compared to net cash used of ¥246.5 billion in the same quarter of the previous fiscal year.

Financing Activities: During the current quarter, ¥113.7 billion (\$1,072 million) of net cash was provided by financing activities, a decrease of ¥17.7 billion, or 13.5 percent year-on-year. For all segments, excluding the Financial Services segment, there was a net cash outflow of ¥1.9 billion (\$18 million) in financing activities, a decrease of ¥39.9 billion compared to a net cash inflow of ¥37.9 billion in the same quarter of the previous fiscal year. This was primarily due to decrease in proceeds from borrowings year-on-year. In the Financial Services segment, as a result of an increase in policyholder accounts at Sony Life and an increase in deposits from customers at Sony Bank, financing activities generated ¥125.8 billion (\$1,187 million) of net cash, an increase of ¥29.9 billion, or 31.1 percent year-on-year.

Total Cash and Cash Equivalents: Accounting for the above factors and the effect of fluctuations in the exchange rate, the total outstanding balance of cash and cash equivalents at the end of the current quarter was ¥787.8 billion (\$7,432 million), a decrease of ¥298.7 billion, or 27.5 percent compared with the balance as of March 31, 2008. This is an increase of ¥337.4 billion, or 74.9 percent compared with the balance as of June 30, 2007. The outstanding balance of cash and cash equivalents of all segments, excluding the Financial Services segment, was ¥660.7 billion (\$6,234 million), a decrease of ¥288.0 billion, or 30.4 percent compared with the balance as of March 31, 2008. This is an increase of ¥333.6 billion, or 102.0 percent compared with the balance as of June 30, 2007. Within the Financial Services segment, the outstanding balance of cash and cash equivalents was ¥127.0 billion (\$1,198 million), a decrease of ¥10.7 billion, or 7.8 percent compared with the balance as of March 31, 2008. This is an increase of ¥3.8 billion, or 3.1 percent compared with the balance as of June 30, 2007.

Note

During the quarter ended June 30, 2008, the average value of the yen was ¥103.6 against the U.S. dollar and ¥161.9 against the euro, which was 15.7% higher against the U.S. dollar and 0.4% lower against the euro, compared with the average rates for the same quarter of the previous fiscal year.

Sales on a local currency basis described herein reflect sales obtained by applying the yen's monthly average exchange rate in the same quarter of the previous fiscal year to local currency-denominated monthly sales in the current quarter. Sales on a local currency basis are not reflected in Sony's consolidated financial statements and are not measures conforming with U.S. GAAP. Sony does not believe that these measures are a substitute for U.S. GAAP measures. However, Sony believes that disclosing sales information on a local currency basis provide additional useful analytical information to investors regarding operating performance of Sony.

Outlook for the Fiscal Year ending March 31, 2009

^{*}In connection with the change in reporting of equity in net income of affiliated companies as a component of operating income, the above figures for change from March 31, 2008 actual results are calculated based on the results for the fiscal year ended March 31, 2008, which have been reclassified to conform with the current forecast presentation. The figures for the May forecast are also reclassified to conform with the current forecast presentation.

Assumed foreign currency exchange rates for the remainder of the fiscal year: approximately ¥105 to the U.S. dollar and approximately ¥162 to the euro. (Assumed foreign exchange rates for the fiscal year at the time of the May forecast: approximately ¥100 to the U.S. dollar and approximately ¥158 to the euro.)

The principal reasons for the revisions are as follows:

- 1. With regard to equity in net income of affiliated companies recorded within operating income, we revised our outlook from ¥70 billion to ¥10 billion as the operating results for Sony Ericsson are expected to be significantly lower than the May forecast.
- 2. Operating income for the first quarter slightly exceeded our forecast due to the yen exchange rate depreciating against the U.S. dollar and euro, more than the assumed exchange rates as of May, and favorable results in the Game segment.
- 3. With regard to sales and operating income for the remainder of the fiscal year, the revision of assumed foreign exchange rates to reflect a depreciating yen compared to the May forecast has a positive impact. However, a more cautious outlook about the business environment for the Electronics segment compared to the May forecast has a negative impact.

Our forecast for capital expenditures, depreciation and amortization, and research and development expenses, as per the table below, is unchanged from the forecast announced on May 14, 2008.

The above table is a breakdown of Electronics sales and operating revenue to customers in the Business Segment Information on page F-4.

The Electronics segment is managed as a single operating segment by Sony's management. However, Sony believes that the information in this table

is useful to investors in understanding the product categories in this business segment.

Commencing April 1, 2008, Sony has partially realigned its product category configuration in the Electronics segment. Accordingly, results for the same

period of the previous fiscal year

have been reclassified.

Condensed Financial Services Financial Statements

The results of the Financial Services segment are included in Sony's consolidated financial statements. The following schedules show unaudited condensed financial statements for the Financial Services segment and all other segments excluding Financial Services. These presentations are not in accordance with U.S. GAAP, which is used by Sony to prepare its consolidated financial statements. However, because the Financial Services segment is different in nature from Sony's other segments, Sony believes that a comparative presentation may be useful in understanding and analyzing Sony's consolidated financial statements. Transactions between the Financial Services segment and Sony without Financial Services are eliminated in the consolidated figures shown below.

(Notes)

- 1.U.S. dollar amounts have been translated from yen, for convenience only, at the rate of ¥106 = U.S. \$1, the approximate Tokyo foreign exchange market rate as of June 30, 2008.
- 2. As of June 30, 2008, Sony had 1,006 consolidated subsidiaries (including variable interest entities). It has applied the equity accounting method for 65 affiliated companies.
- 3. Weighted-average number of outstanding shares used for computation of earnings per share of common stock are as follows. The dilutive effect in the weighted-average number of outstanding shares mainly resulted from convertible bonds.

| Weighted-average number of outstanding shares | (Thousands of shares) | | | | | |

| — Diluted | 1,052,584 | 1,051,148 | | | | |

4. Sony's comprehensive income is comprised of net income and other comprehensive income. Other comprehensive income includes changes in unrealized gains or losses on securities, unrealized gains or losses on derivative instruments, pension liabilities adjustments and foreign currency translation adjustments. Net income, other comprehensive income and comprehensive income for the first quarters ended June 30, 2008 were as follows:

| | (Millions of yen, millions of U.S. dollars) First quarter ended June 30 | | | | | | | |

- 5. Sony periodically reviews the presentation of its financial information to ensure that it is consistent with the way management views the consolidated operations. Since Sony considers its equity investments to be integral to its operations, effective April 1, 2008, Sony reports equity in net income of affiliated companies as a component of operating income. Prior to April 1, 2008, equity in net income of affiliated companies was shown after minority interest in income (loss) of consolidated subsidiaries before net income in Sony's consolidated results of operations. As a result of the reclassification, operating income and income before income taxes increased by ¥21,965 million (\$207 million) and ¥2,240 million (\$21 million) for the first quarters ended June 30, 2007 and 2008, respectively. The reclassification did not affect net income for the first quarters ended June 30, 2007 and 2008, respectively.
- 6. In September 2006, the FASB issued FAS No. 157, "Fair Value Measurements". FAS No. 157 establishes a framework for measuring fair value, clarifies the definition of fair value, and expands disclosures about the use of fair value measurements. FAS No. 157 applies under other accounting pronouncements that require or permit fair value measurements and does not require any new fair value measurements. In February 2008, the FASB issued FASB Staff Positions ("FSP") FAS 157-1, "Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or

Measurement under Statement 13" and FSP FAS 157-2, "Effective Date of FASB Statement No. 157". FSP FAS 157-1 removes certain leasing transactions from the scope of FAS No. 157. FSP FAS 157-2 partially delays the effective date of FAS No. 157 for one year for certain nonfinancial assets and liabilities. Sony adopted FAS No. 157 on April 1, 2008 with regards to financial assets and liabilities. The adoption of FAS No. 157 as it relates to financial assets and liabilities did not have a material impact on Sony's consolidated results of operations and financial position. Sony is currently evaluating the impact for nonfinancial assets and liabilities.

- 7. In February 2007, the FASB issued FAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities". FAS No. 159 permits companies to choose to measure, on an instrument-by-instrument basis, financial instruments and certain other items at fair value that are not currently required to be measured at fair value. The fair value measurement election is irrevocable and subsequent changes in fair value must be recorded in earnings. Sony adopted FAS No. 159 on April 1, 2008. Sony did not elect the fair value option for any assets or liabilities, which were not previously carried at fair value. Accordingly, the adoption of FAS No. 159 had no impact on Sony's consolidated financial statements. However, its effects on future periods will depend on the nature of instruments held by Sony and its elections under the provisions of FAS No. 159.
- 8. Sony estimates the annual effective tax rate ("ETR") derived from a projected annual net income before taxes and calculates interim period income tax provision based on the year-to-date income tax provision computed by applying the ETR to the year-to-date net income before taxes at the end of each interim period. The income tax provision based on the ETR reflects anticipated income tax credits and net operating loss carryforwards, however, it excludes income tax provision related to significant unusual or extraordinary transactions. Such income tax provision will be separately reported from the provision based on the ETR in the interim period in which they occur.
