Item 1.01. Entry into a Material Definitive Agreement.

On June 30, 2011, Forest Oil Corporation (“Forest” or the “Company”) entered into a third amended and restated credit facility totaling \$1,500,000,000, with a syndicate of banks led by JPMorgan Chase Bank, N.A. (the “Credit Facility”). The Credit Facility matures in June 2016. Subject to the agreement of Forest and the applicable lenders, the size of the Credit Facility may be increased by \$300,000,000, to a total of \$1,800,000,000.

The Company’s availability under the Credit Facility will be governed by a borrowing base (the “Borrowing Base”) which currently is set \$1,250,000,000. The determination of the Borrowing Base is made by the lenders in their sole discretion taking into consideration the estimated value of Forest’s oil and gas properties in accordance with the lenders’ customary practices for oil and gas loans. The Borrowing Base is re-determined semi-annually and the available borrowing amount could be increased or decreased as a result of such re-determinations. In addition, the Company and the lenders each have discretion at any time, but not more often than once during any calendar year, to have the Borrowing Base re-determined.

The Borrowing Base also will be subject to change in the event that:

Forest or any of its Restricted Subsidiaries (as defined in the Credit Facility) issue senior notes, in which case the Borrowing Base will immediately be reduced by an amount equal to 25% of the stated principal amount of such issued senior notes, excluding any senior notes that Forest or any of its Restricted Subsidiaries may issue to refinance existing senior notes, if any; or

Forest sells oil and gas properties included in the Borrowing Base having a fair market value in excess of 10% of the Borrowing Base then in effect.

The Borrowing Base is subject to other automatic adjustments.

Borrowings under the Credit Facility will bear interest at one of two rates that may be elected by the Company. Borrowings will bear interest at:

The greatest of (i) the prime rate announced by JPMorgan Chase Bank, N.A., (ii) the federal funds effective rate from time to time plus ½ of 1%, and (iii) the one-month rate applicable to dollar deposits in the London interbank market for one, two, three or six months (as selected by Forest) (the “LIBO Rate”) plus 1%, plus, in the case of each of clauses (i), (ii) and (iii), 50 to 150 basis points depending on Borrowing Base utilization; or

The LIBO Rate as adjusted for statutory reserve requirements (the “Adjusted LIBO Rate”), plus 150 to 250 basis points, depending on Borrowing Base utilization.

The Credit Facility includes terms and covenants that place limitations on certain types of activities, including restrictions or requirements with respect to additional debt, liens, asset sales, hedging activities, investments, dividends, mergers and acquisitions, and include financial covenants. Interest rates and collateral requirements under the Credit Facility will vary based on Forest’s credit ratings and financial condition, as governed by certain financial tests.

Under certain conditions, amounts outstanding under the Credit Facility may be accelerated. Bankruptcy and insolvency events with respect to Forest or certain of its subsidiaries will result in an automatic acceleration of the indebtedness under the Credit Facility. Subject to notice and cure periods in certain cases, other events of default under either of the Credit Facilities will result in acceleration of the indebtedness under the facilities at the option of the lenders. Such other events of default include non-payment, breach of warranty, non-performance of obligations

under the Credit Facility (including financial covenants), default on other indebtedness, certain pension plan events, certain adverse judgments, change of control, a failure of the liens securing the credit facilities and an event of default under the Canadian Facility.

The Credit Facility is collateralized by Forest's assets. Forest is required to mortgage, and grant a security interest in, 75% of the present value of the proved oil and gas properties and related assets of Forest and its U.S. subsidiaries. If Forest's corporate credit ratings by Moody's and S&P meet pre-established levels, the security requirements would cease to apply and at Forest's request the banks would release their liens and security interest on Forest's properties.

The foregoing description of the Credit Agreement is qualified in its entirety to the full text of the Credit Facility, a copy of which is attached to this report as Exhibit 10.1.

From time to time, the Company and the syndication agents, documentation agents, global administrative agent and the other lenders party to the Credit Facility, engage in other transactions, including securities offerings where such parties or their affiliates, may serve as an underwriter or initial purchaser of Forest's securities or serve as counterparties to Forest's hedging arrangements.

Item 2.02. Results of Operations and Financial Condition.
