Item 2.02 Results of Operations and Financial Condition.

On May 7, 2013, CA, Inc. (the “Company”) issued a press release announcing its financial results for the fiscal quarter and fiscal year ended March 31, 2013. A copy of the press release is attached as Exhibit 99.1 hereto and is incorporated herein by reference.

In accordance with General Instruction B.2. of Form 8-K, the information in this Current Report on Form 8-K furnished pursuant to Item 2.02, including Exhibit 99.1, shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liability of that section, and it shall not be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such a filing.

Item 2.05 Costs Associated with Exit or Disposal Activities.

On May 1, 2013, the Company’s Board of Directors approved a re-balancing plan (the “Fiscal 2014 Plan”) to better align its business priorities. The Fiscal 2014 Plan comprises the termination of approximately 1,200 employees and global facilities consolidations. The Company intends to fill most of the positions involved in the re-balancing over the next 12 months with new employees that have skills to enable the Company to better focus its resources on priority products and market segments. The Fiscal 2014 Plan includes streamlining the Company’s sales structure to eliminate redundancies while maintaining its focus on customers. In addition, the Company will be consolidating its development sites into development hubs to promote collaboration and agile development. Actions under the Fiscal 2014 Plan are expected to be substantially completed by the end of fiscal year 2014. Under the Fiscal 2014 Plan, the Company expects to incur a pre-tax charge of approximately \$150 million (including severance costs of approximately \$120 million and global facilities consolidation costs of approximately \$30 million). The Company expects future cash expenditures from the charge to be approximately \$150 million, the majority of which are expected to be incurred by the Company during fiscal year 2014.

protect the Company's intellectual property rights and source code; risks associated with sales to government customers; access to software licensed from third parties; risks associated with the use of software from open source code sources; events or circumstances that would require us to record an impairment charge relating to our goodwill or capitalized software and other intangible asset balances; access to third-party code and specifications for the development of code; third-party claims of intellectual property infringement or royalty payments; fluctuations in the number, terms and duration of the Company's license agreements as well as the timing of orders from customers and channel partners; the failure to renew large license transactions on a satisfactory basis; changes in market conditions or the Company's credit ratings; fluctuations in foreign currencies; the failure to effectively execute the Company's workforce reductions, workforce re-balancing and facility consolidations; successful outsourcing of various functions to third parties; potential tax liabilities; acquisition opportunities that may or may not arise; and other factors described more fully in the Company's filings with the Securities and Exchange Commission.
