EXPLANATORY NOTE:

On December 23, 2004, the company elected to be regulated as a Business Development Company (BDC) as outlined in the Investment Company Act of 1940 by filing a Form N-54A. As a BDC, the Company is no longer eligible to report on Form 10-QSB because it is an investment company and, therefore, does not qualify as a small business issuer. The Company has therefore elected to file this amended Form 10Q/A to properly present its financial information to comply with Regulation S-X.

FRANCHISE CAPITAL CORPORATION
 NOTES TO UNAUDITED FINANCIAL STATEMENTS
 FOR THE PERIOD ENDED MARCH 31, 2005 AND MARCH 31, 2004

1. ORGANIZATION AND BASIS OF PRESENTATION

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the instructions for Form 10-Q/A and Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. All adjustments that, in the opinion of management, are necessary for a fair presentation of the results of operations for the interim periods have been made and are of a recurring nature unless otherwise disclosed herein. The results of operations for the three months ended March 31, 2005, are not necessarily indicative of the results that will be realized for the entire fiscal year. These financial statements should be read in conjunction with the Company's Annual Report on Form 10-KSB for the year ended June 30, 2004.

a. General

Franchise Capital Corporation (the "Company") a Nevada corporation, was incorporated on July 6, 2001 as Cortex Systems, Inc. In December of 2004 the Company changed its name to Franchise Capital Corporation, to more accurately reflect its true business nature. The Company invests in developing and franchising casual dining restaurants. The Company is seeking to acquire additional investments within this industry and has acquired the rights to at least one concept. To date, the Company has had no revenues associated with these activities. Effective December 23, 2004, the Company as an internally managed, closed end investment company elected to be treated as a business development company under the Investment Company Act of 1940, as amended.

As a business development company, we provide long-term debt and equity investment capital to support the expansion of companies in the casual, fast food restaurant industry. We generally invest in private, small to middle market companies that lack access to public capital or whose securities may not be marginable. Today, our investment and lending activity is generally focused in private finance.

Our investment portfolio consists primarily of equity investments in companies, which may or may not constitute a controlling equity interest. At March 31, 2005 our investment portfolio totaled \$799,244 at fair value. Our investment objective is to achieve current income.

The Company did not elect to be treated for federal income tax purposes as a

Edgar Filing: Franchise Capital Corp. - Form 10-Q/A

regulated investment company under the Internal Revenue Code.

b. Going Concern

The Company faces many operating and industry challenges. There is no meaningful operating history to evaluate the Company's prospects for successful operations. Future losses for the Company are anticipated. The proposed plan of operations would include seeking an operating entity with which to merge. Even if successful, a merger may not result in cash flow sufficient to finance the continued expansion of a business.

9

The accompanying financial statements reflect the accounts of Franchise Capital Corporation, and the related results of operations. In accordance with Article 6 of Regulation S-X under the Securities Act of 1933 and Securities Exchange Act of 1934, the Company does not consolidate portfolio company investments in which the Company has a controlling interest. These financial statements have been prepared assuming that the Company will continue as a going concern. The Company has incurred material operating losses, has continued operating cash flow deficiencies and has working capital deficit at March 31, 2005. These factors raise substantial doubt about the Company's ability to continue as a going concern. The Company believes that it will be successful in the management of its investment portfolio. However, the Company will likely require additional debt or equity capital in order to implement its business plan. The accompanying financial statements do not include any adjustments that might result from this uncertainty.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Franchise Capital Corporation changed to a Business Development Company, effective December 23, 2004. Therefore, the prior periods are no longer directly comparable. The balance sheet as of March 31, 2005, is presented to reflect the change to a BDC. The statements of operations for the periods ended December 31, 2004, are presented as if the all of the Company's portfolio companies are consolidated through the last day of the period. The Company determined that the effect of segregating operations for December 18, through December 31, would not be material. The Company's Board of Directors determined that absent any other operating information, all investments are valued at fair market value.

CASH AND CASH EQUIVALENTS - Cash and cash equivalents include all short-term liquid investments that are readily convertible to known amounts of cash and have original maturities of three months or less.

INCOME TAXES - The Company provides for income taxes based on the provisions of Statement of Financial Accounting Standards No. 109, ACCOUNTING FOR INCOME TAXES, which among other things, requires that recognition of deferred income taxes be measured by the provisions of enacted tax laws in effect at the date of financial statements.

USE OF ESTIMATES - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

INCOME (LOSS) PER COMMON SHARE - Basic income per share is computed using the weighted average number of shares of common stock outstanding for the period. The Company has a complex capital structure and therefore there is a presentation for diluted loss per share.

Edgar Filing: Franchise Capital Corp. - Form 10-Q/A

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS -

In October 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations," which requires companies to record the fair value of a liability for asset retirement obligations in the period in which they are incurred. The statement applies to a company's legal obligations associated with the retirement of a tangible long-lived asset that results from the acquisition, construction, and development or through the normal operation of a long-lived asset. When a liability is initially recorded, the company would capitalize the cost, thereby increasing the carrying amount of the related asset. The capitalized asset retirement cost is depreciated over the life of the respective

10

asset while the liability is accreted to its present value. Upon settlement of the liability, the obligation is settled at its recorded amount or the company incurs a gain or loss. The statement is effective for fiscal years beginning after June 30, 2002. The Company does not expect the adoption to have a material impact to the Company's financial position or results of operations.

In October 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". Statement 144 addresses the accounting and reporting for the impairment or disposal of long-lived assets. The statement provides a single accounting model for long-lived assets to be disposed of. New criteria must be met to classify the asset as an asset held-for-sale. This statement also focuses on reporting the effects of a disposal of a segment of a business. This statement is effective for fiscal years beginning after December 15, 2001. The Company does not expect the adoption to have a material impact to the Company's financial position or results of operations.

In July 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated With Exit or Disposal Activities". This Standard requires costs associated with exit or disposal activities to be recognized when they are incurred. The requirements of SFAS No. 146 apply prospectively after December 31, 2002, and as such, the Company cannot reasonably estimate the impact of adopting these new rules.

In December 2002, the FASB issued SFAS No. 148, Accounting for Stock-Based Compensation - Transaction and Disclosure, which provides alternative methods of transition for a voluntary change to fair value based method of accounting for stock-based employee compensation as prescribed in SFAS 123, Accounting for Stock-Based Compensation. Additionally, SFAS No. 148 requires more prominent and more frequent disclosures in financial statements about the effects of stock-based compensation. The provisions of this statement are effective for fiscal years ending after December 15, 2002, with early application permitted in certain circumstances.

In November 2002, the FASB issued Interpretation No. 45 ("FIN 45"), Guarantor's Accounting and Disclosure Requirements for Guarantees, including Indirect Guarantees of Indebtedness of Others. FIN 45 requires a company, at the time it issues a guarantee, to recognize an initial liability for the fair value of obligations assumed under the guarantees and elaborates on existing disclosure requirements related to guarantees and warranties. The initial recognition requirements are effective for the Company during the third quarter ending March 31, 2003. The adoption of FIN 45 did not have an impact on the Company's financial position or results of operations.

In January 2003, the FASB issued FASB Interpretation No. 46 ("FIN 46"), Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51. FIN 46 requires certain variable interest entities to be consolidated by the primary beneficiary of the entity if the equity investors in the entity do not have the characteristics of a controlling financial interest or do not have

Edgar Filing: Franchise Capital Corp. - Form 10-Q/A

sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. FIN 46 is effective for all new variable interest entities created or acquired after January 31, 2003. For variable interest entities created or acquired prior to February 1, 2003, the provisions of FIN 46 must be applied for the first interim or annual period beginning after June 15, 2003. The adoption of FIN 46 did not have an impact on the Company's financial position or results of operations.

3. ACCOUNTING CHANGE

As a result of the Company converting to a Business Development Company, the Company changed its accounting principles. The primary difference relates to the accounting for investments. The investments that were previously consolidated, are now reflected at the estimated fair value of those investments. The Company

11

estimated that the investments at cost approximate fair value. The effect of recoding those investments at the original cost and adjusting for the previously recorded consolidated net losses of those investments was \$598,253.

4. CONVERTIBLE DEBENTURE

During the year ended June 30, 2004 the Company issued a 2-year 7.5% convertible debenture to Golden Gate Investors, Inc. "Golden Gate" amounting to \$85,000 with interest payable monthly and due June 9, 2006. The debenture also included non-detachable warrants for 2,500,000 shares of common stock. During the three months ended December 31, 2004, this debenture was increased to \$177,438. Upon approval of the Company's change to a Business Development Company, the warrants were cancelled. As of March 31, 2005, we currently owe \$238,177.

Subsequent to March 31, 2005, the Company contacted Golden Gate regarding what we believe may be securities law violations in connection with transactions involving the convertible debenture and its related warrants and agreements. Among other things, the Company believes Golden Gate violated Section 16 of the Securities Exchange Act of 1934 when they converted nearly 12% of the Company's outstanding shares and immediately resold shares in the market. The Company has terminated all agreements with Golden Gate, and is currently seeking legal counsel to advise it regarding pursuing Golden Gate for short swing profits resulting from the purchase and sale of shares.

On October 14, 2004 the Company issued a six month convertible debenture amounting to \$25,000, with interest payable at the end of the term. The debenture may be converted, at the option of the holder, into common shares of the Company. The conversion price is 50% of the closing bid on the day the Company receives notice of conversion. The debenture may be converted, at the option of the Company, into common shares of the Company. The conversion price is 50% of the closing bid on the day the Company receives notice of conversion.

On October 4, 2004, the Company issued a six month convertible debenture amounting to \$25,000, with interest payable at the end of the term. The debenture may be converted, at the option of the holder, into common shares of the Company. The conversion price is 50% of the closing bid on the day the Company receives notice of conversion. The debenture may be converted, at the option of the Company, into common shares of the Company. The conversion price is 50% of the closing bid on the day the Company receives notice of conversion. As of March 31, 2005 a total of 900,000 shares of common stock were issued as partial redemption of this debenture. Total balance at March 31, 2005 is \$20,500.

On December 1, 2004, the Company issued a twelve month convertible debenture amounting to \$50,000, with interest of \$1,250 payable quarterly beginning March

Edgar Filing: Franchise Capital Corp. - Form 10-Q/A

1, 2005. The debenture may be converted, at the option of the holder, into common shares of the Company. The conversion price is 50% of the closing bid on the day the Company receives notice of conversion. The debenture may be converted, at the option of the Company, into common shares of the Company. The conversion price is 50% of the closing bid on the day the Company receives notice of conversion.

For the debentures issued in the period ended December 31, 2004, the Company computed the beneficial conversion feature to be equal to the face amount of the debentures. The \$100,000 discount is being amortized over the terms of the debt. During the three month period ended March 31, 2005, \$46,035 of the discount was amortized leaving a remaining discount of \$53,965.

Subsequent to March 31, 2005, the Company was notified by the Securities and Exchange Commission ("Commission") that the debentures issued by the Company were considered "senior securities" as defined by the Investment Company Act of

12

1940. Franchise Capital Corporation believed at the time the debentures issued were not senior securities. As a result, the Company may not be in compliance with Section 18 of the Investment Company Act of 1940 which required that the Company maintain net assets to senior security coverage of at least 200%. Further, the Company was informed that the convertible nature of the debentures made them subject to Section 61 of the Investment Company Act which requires, among other things, that rights to acquire common stock:

- * Expire within 10 years from date of grant
- * Are approved by a vote of shareholders, and
- * Are exercisable at a price not less than the fair market value on the date of grant.

The convertible debentures did not comply with these provisions of Section 61 at the time they were issued. The Company is in negotiations with the remaining debenture holder to restructure the obligation into a format that is compliant with the Investment Company Act.

5. CAPITAL STOCK

The Company declared a 6 for 1 stock split during the year ended June 30, 2003. The number of shares presented in these financial statements has been retroactively restated for all periods to reflect this stock split.

During the three months ended December 31, 2003, the Company sold 125,000 shares of its common stock for \$55,000. In connection with this sale of common stock, the Company also granted 137,500 warrants to acquire the Company's common stock at \$0.50 per share.

Also during the three months ended December 31, 2003, the Company granted 275,000 shares of its common stock to consultants as consideration for services rendered. The shares were valued at the trading price of the common shares aggregating to \$99,966.

Additionally, during the three months ended December 31, 2003, the Company granted 675,000 shares of its common stock to consultants as consideration for services rendered. The shares were valued at the trading price of the common shares aggregating to \$247,500.

The Company reacquired 15,535,000 shares of its common stock in the three month period ended December 31, 2003. The Company entered into an agreement to acquire all of the outstanding shares of "ICEBERG FOOD SYSTEMS, CORP." ("IFSC"). IFSC was owned by a former officer and director of the Company. The only holdings of IFSC

Edgar Filing: Franchise Capital Corp. - Form 10-Q/A

were 30,000,000 shares of the Company's common stock. As part of the agreement, IFSC distributed 14,465,000 shares of the Company's common stock to its shareholder. IFSC then became a wholly owned subsidiary of the Company with its only holdings being the remaining 15,535,000 shares of the Company's common stock. Effectively, the transaction was an acquisition of treasury stock by the Company. In exchange, the Company would assume a commitment to raise capital and develop the Iceberg Drive-In concept. The rights to develop that concept were previously held by IFSC. The Company is to assist IFSC in providing up to \$1,130,000. The Company has accounted for this transaction as an acquisition of treasury stock through the issuance of a note payable of \$1,130,000.

During the three months ended September 30, 2004, the Company sold 140,000 shares of its common stock for \$35,000.

13

Also during the three months ended September 30, 2004, the Company granted 3,050,000 shares of its common stock to consultants as consideration for services rendered. The shares were valued at the trading price of the common shares aggregating to \$602,275.

On October 13, 2004, the Company negotiated a consulting agreement with Javelin Holdings, Inc. The agreement with Javelin provides for \$15,000 upon execution of the agreement, \$15,000 cash and a \$30,000 60 day Convertible Note upon successful filing of requisite SEC documents. In addition, Javelin receives 5% of any Preferred Class of stock created for the benefit of the Company, 10% of any bridge financing and 5% of any subsequent funding. During October, 2004, Javelin earned finders fee of \$5,000 from the Company for two short-term convertible debentures in the amount of \$25,000 each.

In November 2004, the Company converted its Preferred Series B stock into common stock. This conversion resulted in the retiring of all Preferred Series B stock, and issuance of 10,000,000 shares of common stock.

In December, 2004, the Company approved a reverse 1 for 10 common stock split.

In conjunction with the transactions discussed in Note 4, the Company issued an aggregate of 5,015,000 shares of its common stock.

Effective December 17, 2004, the Company designated 30,000,000 shares of Series C Preferred Stock. The Series C Preferred Stock is non-interest bearing, does not have voting rights and is not entitled to receive dividends. Each share of Series C issued can be converted into Common Stock on a 1:1 basis. In the event of a liquidation event, the Series C stock automatically converts into common stock based on the foregoing formula. By designation, the Series C Preferred Stock is not affected by forward or reverse splits of the Company's common stock or other adjustments to the Company's capital structure. The Series C is entitled to name three members of the Company's Board of Directors at all times. During the quarter ended December 31, 2004, the Company issued a total of 13,500,000 shares of Series C Preferred Stock for services rendered prior to the Company's election to become a business development company.

Subsequent to March 31, 2005, the Company was notified by the Securities and Exchange Commission ("Commission") that the terms of the Series C Preferred Stock issued by the Company may be in violation of Section 23 of the Investment Company Act of 1940. As a result, the Series C holders agreed to a 1:10 reverse split of the Series C stock corresponding to the similar 1:10 reverse split of the Company's common stock on January 14, 2005. Further, the Company has restructured the terms of the Series C Preferred Stock. Most significantly, the rights of the Series C Preferred Stock to convert to common stock and provisions in the Series C Preferred Stock affording protections against capital reorganization were eliminated.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information contained in this section should be read in conjunction with the Selected Financial and Other Data, the Selected Operating Data and our Financial Statements and notes thereto appearing elsewhere in this Quarterly Report. This Quarterly Report, including the Management's Discussion and Analysis of Financial Condition and Results of Operations, contains forward-looking statements that involve substantial risks and uncertainties. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates and projections about our industry, our beliefs, and our assumptions. Words such as "anticipates", "expects", "intends", "plans", "believes", "seeks", and "estimates" and variations of these words and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties, and other factors, some of which are beyond our control and difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements including without limitation (1) any future economic downturn could impair our customers' ability to repay our loans and increase our non-performing assets, (2) economic downturns can disproportionately impact certain sectors in which we concentrate, and any future economic downturn could disproportionately impact the industries in which we concentrate causing us to suffer losses in our portfolio and experience diminished demand for capital in these industry sectors, (3) a contraction of available credit and/or an inability to access the equity markets could impair our lending and investment activities, (4) interest rate volatility could adversely affect our results, (5) the risks associated with the possible disruption in the Company's operations due to terrorism and (6) the risks, uncertainties and other factors we identify from time to time in our filings with the Securities and Exchange Commission, including our Form 10-Ks, Form 10-Qs and Form 8-Ks. Although we believe that the assumptions on which these forward-looking statements are based are reasonable, any of those assumptions could prove to be inaccurate, and as a result, the forward-looking statements based on those assumptions also could be incorrect. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this Quarterly Report should not be regarded as a representation by us that our plans and objectives will be achieved. You should not place undue reliance on these forward-looking statements, which apply only as of the date of this Quarterly Report.

OVERVIEW

Franchise Capital Corporation. is a solutions-focused financial services company providing financing and advisory services to small and medium-sized companies throughout the United States primarily in the restaurant franchising industry. Effective December 23, 2004, we became an internally managed, non-diversified, closed-end investment company that elected to be treated as a business development company under the Investment Company Act of 1940. Franchise Capital Corporation will not elect to be treated for federal income tax purposes as a regulated investment company under the Internal Revenue Code with the filing of its federal corporate income tax return for 2004.

PORTFOLIO COMPOSITION AND ASSET QUALITY

Our primary business is lending to and investing in businesses, primarily in the restaurant franchising industry, through investments in senior debt, subordinated debt and equity-based investments, including warrants and equity appreciation rights. Though we intend to increase our level of subordinated debt and equity-based investments, we expect a substantial majority of our portfolio

Edgar Filing: Franchise Capital Corp. - Form 10-Q/A

will continue to consist of investments in portfolio companies. The total fair value of investments in non-publicly traded securities was \$799,244 and \$315,709 at March 31, 2005 and December 31, 2004, respectively (exclusive of unearned income).

15

The following table summarizes Franchise Capital Corporation's assets held and income from Majority Owned Companies, Controlled Companies and Other Affiliates:

	March 31, 2005 ----	December 31, 2004 ----
ASSETS HELD:		
Majority Owned Companies (a):		
Investments in and advances to	799,244	619,099
Controlled Companies (b):		
Other Affiliates (c):		
Loans at fair value	--	--
Equity Investments at fair value	--	--
	Nine Months Ended March 31,	
	2005	2004 ----
INCOME RECOGNIZED:		
From Majority Owned Companies (a):		
Interest and fee income	--	--
From Controlled Companies (b):		
From Other Affiliates (c): 1		
Interest and fee income	--	--
Net change in unrealized appreciation (depreciation) on investments	286,771	--
Realized losses on investments	--	--

- (a) Majority owned companies are generally defined under the Investment Company Act of 1940 as companies in which Franchise Capital Corporation owns more than 50% of the voting securities of the company.
- (b) Controlled companies are generally defined under the Investment Company Act of 1940 as companies in which Franchise Capital Corporation owns more than 25% but not more than 50% of the voting securities of the company.
- (c) Other affiliates are generally defined under the Investment Company Act of 1940 as companies in which Franchise Capital Corporation owns at least 5% but not more than 25% of the voting securities of the company.

ASSET QUALITY

Asset quality is generally a function of our underwriting and ongoing management of our investment portfolio. As a business development company, our loans and equity investments are carried at market value or, in the absence of market value, at fair value as determined by our board of directors in good faith on a quarterly basis. As of March 31, 2005 and December 31, 2004, unrealized appreciation on investments totaled \$259,758 and \$0, respectively. For additional information on the change in unrealized depreciation on investments,

16

see the section entitled "Reconciliation of Net Operating Income to Net Increase (Decrease) in Stockholders' Equity from Earnings".

Edgar Filing: Franchise Capital Corp. - Form 10-Q/A

We monitor loan concentrations in our portfolio, both on an individual loan basis and on a sector or industry basis, to manage overall portfolio performance due to specific customer issues or specific industry issues.

We monitor individual customer's financial trends in order to assess the appropriate course of action with respect to each customer and to evaluate overall portfolio quality. We closely monitor the status and performance of each individual investment on a quarterly and, in some cases, a monthly or more frequent basis. Because we are a provider of long-term privately negotiated investment capital to growth-oriented companies and we actively manage our investments through our contract structure, we do not believe that contract exceptions such as breaches of contractual covenants or late delivery of financial statements are necessarily an indication of deterioration in the credit quality or the need to pursue remedies or an active workout of a portfolio investment.

When a loan becomes 90 days or more past due, or if we otherwise do not expect the customer to be able to service its debt and other obligations, we will, as a general matter, place the loan on non-accrual status and cease recognizing interest income on that loan until all principal has been paid. However, we may make exceptions to this policy if the investment is well secured and in the process of collection.

As of March 31, 2005 and December 31, 2004, none of the loans to our other affiliates were on non-accrual status.

When principal and interest on a loan is not paid within the applicable grace period, we will contact the customer for collection. At that time, we will make a determination as to the extent of the problem, if any. We will then pursue a commitment for immediate payment and will begin to more actively monitor the investment. We will formulate strategies to optimize the resolution process and will begin the process of restructuring the investment to better reflect the current financial performance of the customer. Such a restructuring may involve deferring payments of principal and interest, adjusting interest rates or warrant positions, imposing additional fees, amending financial or operating covenants or converting debt to equity. In general, in order to compensate us for any enhanced risk, we receive appropriate compensation from the customer in connection with a restructuring. During the process of monitoring a loan that is out of compliance, we will in appropriate circumstances send a notice of non-compliance outlining the specific defaults that have occurred and preserving our remedies, and initiate a review of the collateral. When a restructuring is not the most appropriate course of action, we may determine to pursue remedies available under our loan documents or at law to minimize any potential losses, including initiating foreclosure and/or liquidation proceedings.

OPERATING INCOME

Operating income includes interest income on commercial loans, advisory fees and other income. Interest income is comprised of commercial loan interest at contractual rates and upfront fees that are amortized into income over the life of the loan. Most of our loans contain lending features that adjust the rate margin based on the financial and operating performance of the borrower, which generally occurs quarterly.

The change in operating income from the nine months ended March 31, 2005 compared to the same period in 2004 is attributable to the following items:

(Due to the conversion to a Business Development Company, effective December 23, 2005, the periods are not directly comparable.)

Edgar Filing: Franchise Capital Corp. - Form 10-Q/A

NINE MONTHS ENDED

MARCH 31, 2005

CHANGE DUE TO:

Asset growth	\$259,758
Increase in fee income	0
Interest and other income	8,881
Manufacturing income	0

Total change in operating income	\$268,639
	=====

Total operating income for the nine months ended March 31, 2005 increased \$268,639 to \$308,284 from \$39,645 for the nine months ended March 31, 2005. Operating income for the three months ended March 31, 2005 increased \$841,381, to \$154,063 from \$(687,318) for the three months ended March 31, 2005.

OPERATING EXPENSES

Operating expenses include interest expense on borrowings, including amortization of deferred debt issuance costs, employee compensation, and general and administrative expenses.

The change in operating expenses from the nine months March 31, 2005 compared to the same period in 2004 is attributable to the following items:

NINE MONTHS ENDED

MARCH 31, 2005 VS. 2004

CHANGE DUE TO:

Advertising & Selling	(0)
Interest Expense	88,709
Depreciation & Amortization	(19)
Salaries and benefits	31,305
General and administrative expense	(420,952)

Total change in operating expense	\$(300,957)
	=====

Total operating expenses for the nine months ended March 31, 2005 decreased \$300,957 to \$800,192 from \$1,101,149 for the nine months ended March 31, 2005. General and administrative expenses decreased \$300,957 for the nine months ended March 31, 2005 as compared to the same period in 2004 primarily due to a decrease in the Company's reliance on outside consultants. Total operating expenses decreased \$594,445 to \$105,695 for the 3 months ended March 31, 2005, from \$700,140 for the three months ended March 31, 2004.

18

NET OPERATING INCOME

Net operating income/loss before investment gains and losses (NOI) for the nine months ended March 31, 2005 totaled (\$377,584) compared with a loss of \$(1,084,895) for the nine months ended March 31, 2004.

NET INVESTMENT GAINS AND LOSSES

Edgar Filing: Franchise Capital Corp. - Form 10-Q/A

There were no realized gains or losses for the three and nine months ended March 31, 2005.

The net change in unrealized appreciation (depreciation) on investments of \$259,758 for the nine months ended March 31, 2005 consisted of \$259,758 of net appreciation less \$0 advanced to controlled companies. The appreciation is related to additional equity interest granted an increase in the valuation of Kokopelli Franchise Company who commenced operations, and Fathom Business Systems, Inc., who continues to increase sales.

INCOME TAXES

We are taxed under Subchapter C of the Internal Revenue Code. We did not elect to be a regulated investment company under Subchapter M of the Internal Revenue Code with the filing of our federal corporate income tax return for 2004.

NET INCOME

Net income (loss) totaled \$63,823 and \$(124,195) for the three months and nine months ended March 31, 2005 compared to \$(687,318) and \$(1,084,895) for the three months and nine months ended March 31, 2004.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

CASH, CASH EQUIVALENTS AND CASH, SECURITIZATION ACCOUNTS

At March 31, 2005 and December 31, 2004, we had \$15,836 and \$2,213, respectively, in cash and cash equivalents. Our objective is to maintain sufficient cash on hand to cover current funding requirements and operations.

LIQUIDITY AND CAPITAL RESOURCES

We expect our cash on hand, future equity offerings, and cash generated from operations to be adequate to meet our cash needs at our current level of operations. We generally fund new originations using cash on hand, borrowings under our credit facilities and equity financings.

During the third quarter of 2005, the Company raised \$165,500 by selling 8,573,231 shares of common stock issued under Regulation E.

BORROWINGS

At March 31, 2005, we had aggregate outstanding borrowings of \$446,227.

At December 31, 2004, we had aggregate outstanding borrowings of \$507,741.

See the Notes to the Financial Statements for further discussion of our borrowings.

CRITICAL ACCOUNTING POLICIES

The financial statements are based on the selection and application of significant accounting policies, which require management to make significant estimates and assumptions. We believe that the following are some of the more critical judgment areas in the application of our accounting policies that currently affect our financial condition and results of operations.

INCOME RECOGNITION

Edgar Filing: Franchise Capital Corp. - Form 10-Q/A

Interest on commercial loans is computed by methods that generally result in level rates of return on principal amounts outstanding. When a loan becomes 90 days or more past due, or if we otherwise do not expect the customer to be able to service its debt and other obligations, we will, as a general matter, place the loan on non-accrual status and cease recognizing interest income on that loan until all principal has been paid. However, we may make exceptions to this policy if the investment is well secured and in the process of collection.

In accordance with GAAP, we include in income certain amounts that we have not yet received in cash, such as contractual payment-in-kind (PIK) interest, which represents contractually deferred interest added to the loan balance that is generally due at the end of the loan term. We currently do not have any interest income of this nature, but we may during future periods.

Loan origination fees are deferred and amortized as adjustments to the related loan's yield over the contractual life of the loan. In certain loan arrangements, warrants or other equity interests are received from the borrower as additional origination fees. The borrowers granting these interests are typically non-publicly traded companies. We record the financial instruments received at estimated fair value as determined by our board of directors. Fair values are determined using various valuation models which attempt to estimate the underlying value of the associated entity. These models are then applied to our ownership share considering any discounts for transfer restrictions or other terms which impact the value. Changes in these values are recorded through our statement of operations. Any resulting discount on the loan from recordation of warrant and other equity instruments are accreted into income over the term of the loan.

VALUATION OF INVESTMENTS

At March 31, 2005, approximately 98% of our total assets represented investments recorded at fair value. Value, as defined in Section 2(a)(41) of 1940 Act, is (i) the market price for those securities for which a market quotation is readily available and (ii) for all other securities and assets, fair value is as determined in good faith by the board of directors. Since there is typically no readily ascertainable market value for the investments in our portfolio, we value substantially all of our investments at fair value as determined in good faith by the board of directors pursuant to a valuation policy and a consistent valuation process. Because of the inherent uncertainty of determining the fair value of investments that do not have a readily ascertainable market value, the fair value of our investments determined in good faith by the board of directors may differ significantly from the values that would have been used had a ready market existed for the investments, and the differences could be material.

There is no single standard for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment. Unlike banks, we are not permitted to provide a general reserve for anticipated loan losses. Instead, we

20

must determine the fair value of each individual investment on a quarterly basis. We will record unrealized depreciation on investments when we believe that an investment has become impaired, including where collection of a loan or realization of an equity security is doubtful. Conversely, we will record unrealized appreciation if we believe that the underlying portfolio company has appreciated in value and, therefore, our investment has also appreciated in value, where appropriate.

As a business development company, we invest primarily in illiquid securities including debt and equity securities of private companies. The structure of each debt and equity security is specifically negotiated to enable us to protect our

Edgar Filing: Franchise Capital Corp. - Form 10-Q/A

investment and maximize our returns. We generally include many terms governing interest rate, repayment terms, prepayment penalties, financial covenants, operating covenants, ownership parameters, dilution parameters, liquidation preferences, voting rights, and put or call rights. Our investments are generally subject to some restrictions on resale and generally have no established trading market. Because of the type of investments that we make and the nature of our business, our valuation process requires an analysis of various factors. Our fair value methodology includes the examination of, among other things, the underlying investment performance, financial condition and market changing events that impact valuation.

AT DECEMBER 31, 2004, THE BOARD OF DIRECTORS ELECTED TO EMPLOY A VALUATION METHOD CONSISTING OF COST BASIS FOR THOSE PORTFOLIO COMPANIES THAT WERE NOT YET OPERATIONAL, AND A METHOD OF GROSS REVENUE, NET REVENUE AND NET ASSETS FOR THOSE COMPANIES THAT ARE OPERATIONAL. THE COMPANY WILL EMPLOY INDEPENDENT BUSINESS VALUATION CONSULTANTS TO PROVIDE A VALUATION OF OUR EXISTING PORTFOLIO COMPANIES AND CERTAIN OTHER INVESTMENTS FOR THE YEAR ENDED JUNE 30, 2005.

VALUATION OF LOANS AND DEBT SECURITIES

As a general rule, we do not value our loans or debt securities above cost, but loans and debt securities will be subject to fair value write-downs when the asset is considered impaired. In many cases, our loan agreements allow for increases in the spread to the base index rate if the financial or operational performance of the customer deteriorates or shows negative variances from the customer's business plan and, in some cases, allow for decreases in the spread if financial or operational performance improves or exceeds the customer's plan.

VALUATION OF EQUITY SECURITIES

With respect to private equity securities, each investment is valued using industry valuation benchmarks, and then the value is assigned a discount reflecting the illiquid nature of the investment, as well as our minority, non-control position. When an external event such as a purchase transaction, public offering, or subsequent equity sale occurs, the pricing indicated by the external event will be used to corroborate our private equity valuation. Securities that are traded in the over-the-counter market or on a stock exchange generally will be valued at the prevailing bid price on the valuation date. However, restricted and unrestricted publicly traded securities may be valued at discounts from the public market value due to restrictions on sale, the size of our investment or market liquidity concerns.

RECENT DEVELOPMENT

Kokopelli Franchise Company, LLC, a portfolio company specializing in the franchising of fast, casual sonoran style food, opened its first franchised restaurant in April. As a result, our valuation of Kokopelli Franchise Company

21

was based on the projected operations of the franchise. We anticipate receiving royalty fee income from this and each franchise location as they develop.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest rate sensitivity refers to the change in earnings that may result from the changes in the level of interest rates. Our net interest income can be affected by changes in various interest rates, including LIBOR, prime rates and commercial paper rates.

As a business development company, we use a greater portion of equity to fund our business. Accordingly, other things being equal, increases in interest rates

Edgar Filing: Franchise Capital Corp. - Form 10-Q/A

will result in greater increases in our net interest income and reductions in interest rates will result in greater decreases in our net interest income compared with the effects of interest rate changes on our results under more highly leveraged capital structures.

Currently, we do not engage in hedging activities because we have determined that the cost of hedging the risks associated with interest rate changes outweighs the risk reduction benefit. We monitor this position on an ongoing basis.

ITEM 4. CONTROLS AND PROCEDURES

(a) Within the 90 days prior to the date of this report, Franchise Capital Corporation carried out an evaluation, under the supervision and with the participation of Franchise Capital Corporation's management, including Franchise Capital Corporation's Chief Executive Officer and President and Chief Financial Officer, of the effectiveness of the design and operation of Franchise Capital Corporation's disclosure controls and procedures (as defined in Rule 13a-14 of the Securities Exchange Act of 1934). Based on that evaluation, the Chief Executive Officer and President and the Chief Financial Officer have concluded that Franchise Capital Corporation's current disclosure controls and procedures are effective in timely alerting them of material information relating to Franchise Capital Corporation that is required to be disclosed in Franchise Capital Corporation's SEC filings.

(b) There have not been any significant changes in the internal controls of Franchise Capital Corporation or other factors that could significantly affect these internal controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

PART II -- OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is not presently a party to any legal action.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

There were no material changes in securities for the quarter ended March 31, 2005, other than the debenture conversions previously discussed.

22

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None

ITEM 4. SUBMISSION OF MATTERS TO VOTE OF SECURITY HOLDERS

None

ITEM 5. OTHER INFORMATION

None

ITEM 6. EXHIBITS

(a) The following exhibits are either attached hereto or incorporated herein by reference as indicated:
