PHOENIX FOOTWEAR GROUP, INC.  
Notes to Consolidated Financial Statements

Note 1.

In the opinion of the Company, the accompanying unaudited consolidated financial statements contain adjustments, all of which are of a normal and recurring nature, necessary to present fairly the financial position as of June 30, 2002 and the results of operations and cash flows for the three and six months then ended. The results of operations for the six months ended June 30, 2002 are not necessarily indicative of the results to be expected for the full year.

Note 2.

## Edgar Filing: PHOENIX FOOTWEAR GROUP INC - Form 10-Q

The accounting policies used in preparing these statements are the same as those used in preparing the Company's consolidated financial statements for the year ended December 31, 2001. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's annual report to stockholders for the year ended December 31, 2001.

### Note 3.

Effective January 1, 2002, the Company adopted the provisions of Statement of Financial Accounting Standards (SFAS) No. 142, "Goodwill and Other Intangible Assets". SFAS No. 142 discontinues the practice of amortizing goodwill and indefinite-lived intangible assets and initiates an annual review for impairment. Impairment would be examined more frequently if certain indicators are encountered. Intangible assets with a determinable useful life will continue to be amortized over their useful lives. SFAS No. 142 applies to goodwill and intangible assets acquired after June 30, 2001.

Goodwill amortization totaling \$31,063 and \$142,535 for the quarter and six months ended June 30, 2001, respectively was not recognized in the quarter and six months ended June 30, 2002. There was no impact of impairment during the quarter ended June 30, 2002. The following summary presents unaudited pro-forma consolidated results of operations as if SFAS No. 142 had been adopted at the beginning of 2001 and includes an adjustment for the amount of goodwill amortization. The pro-forma results are for illustrative purposes only.

Quarter Ended June 30, 2001 In thousands, except for per share amounts (unaudited)	Six Months Ended June 30, 2001	Six Months Ended June 30, 2001
Reported net income(loss)	\$(1,227)	\$(1,003)
Add back: goodwill amortization	31	143
	-----	-----
Adjusted net income	\$ 1,196	\$ (860)
	=====	=====
 Basic and Diluted Earnings(loss) per Share:		
Reported earnings(loss) per share	\$ (.79)	\$ (.64)
Add back: goodwill amortization	.02	.09
	-----	-----
Adjusted earnings(loss) per share	\$ (.76)	\$ (.55)
	=====	=====

### Note 4.

In addition to shares outstanding held by the public, the Company's defined contribution 401(k) savings plan holds approximately 390,000 shares which were issued during 2001 in connection with the termination of the defined benefit pension plan. These shares, while eligible to vote, are classified as treasury stock and therefore are not outstanding for purpose of determining per share earnings until the time that such shares are vested in employee accounts. This vesting is occurring over the course of the next six years. For basic income per share for the three months ended June 30, 2002, the shares outstanding include the weighted average number of issued common shares, 2,293,930, less the shares held in treasury, 523,575. For basic income per share on a year to date basis, the shares outstanding include the weighted average number of issued common

## Edgar Filing: PHOENIX FOOTWEAR GROUP INC - Form 10-Q

shares of 2,191,778, less the shares held in treasury, 523,575. For diluted income per share, the shares outstanding include the aforementioned shares for basic income per share as well as dilutive stock options totaling 205,769 shares.

Note 5.

Included in other expenses for the second quarter of 2001 are costs associated with the termination of the Penobscot Shoe Company Retirement Plan, totaling \$1,713,710. During the quarter ended June 30, 2001, the Company completed the termination of its defined benefit pension plan. On the date of termination, the Company received cash totaling \$2,377,600, which was less than the carrying value of the prepaid pension cost asset of \$3,734,670, resulting in a loss of \$1,357,070. This loss was increased by an excise tax totaling \$356,640, which resulted in a total loss on this transaction totaling \$1,713,710.

7

### PHOENIX FOOTWEAR GROUP, INC. Management Discussion & Analysis of Financial Condition and Results of Operations

#### Results of Operations

Six Months and Quarter Ended June 30, 2002 compared to the Six Months and Quarter Ended June 30, 2001:

Net sales for the second quarter of 2002 were \$8.4 million compared to \$8.4 million for the same period in the prior year. Net sales in the second quarter of 2001 included \$1.2 million in sales generated by previously divested brands. The growth rate in the Trotters(R) and SoftWalk(R) brands in the second quarter of 2002 vs. the second quarter of 2001 was approximately 16%.

Gross profits in the second quarter of 2002 were \$3.1 million or 36.5% of net sales as compared to \$3.0 million or 36.1% of net sales in the second quarter of 2001.

Selling, general and administrative expenses as a percentage of net sales was 28.5% or \$2.4 million for the quarter ended June 30, 2002, as compared to 29.8% or \$2.5 million for the same quarter in fiscal 2001. The costs in 2001 include amounts associated with supporting the sales of the previously divested brands.

Included in other expenses for the second quarter of 2001 are costs associated with the termination of the Penobscot Shoe Company Retirement Plan, totaling \$1,713,710. During the quarter ended June 30, 2001, the Company completed the termination of its defined benefit pension plan. On the date of termination, the Company received cash totaling \$2,377,600, which was less than the carrying value of the prepaid pension cost asset of \$3,734,670, resulting in a loss of \$1,357,070. This loss was increased by an excise tax totaling \$356,640, which resulted in a total loss on this transaction totaling \$1,713,710.

8

During the second quarter of 2002, interest expense amounted to \$103,228 as compared to \$517,963 in the same period in 2001. This decrease is a result of the lower outstanding indebtedness. For the six months ended June 30, 2002 interest expense amounted to \$334,866 compared to \$1,009,734 for the same period last year. The reason for the decrease is the decrease in outstanding debt vs.

## Edgar Filing: PHOENIX FOOTWEAR GROUP INC - Form 10-Q

last year. For the six months ended June 30, 2002, the interest expense includes \$31,250 related to a note paid April 11, 2002 and \$45,000 relating to non-recurring costs associated with financing inventory purchases.

The Company's effective tax rate for the second quarter of 2002 is 40% as compared to (28%) in the second quarter of 2001.

During what has been described as a "very tough" early spring season by the industry, both Trotters(R) and SoftWalk(R) brands of the Company have continued to perform well at retail. This is a result of our brands maintaining a focused channel of distribution, growing the business with non-promotional retailers. Management anticipates that the Company will experience continued growth in both brands in the subsequent quarters as compared to the same periods in the previous year.

### Liquidity and Capital Resources

As of June 30, 2002 Phoenix Footwear had working capital of \$7,489,831 vs. working capital of \$5,356,898 at December 31, 2001. Working capital may vary from time to time as a result of seasonal requirements which are heightened during the first and third quarters, the timing of factory shipments and the need to increase inventories and support an in-stock position in anticipation of customers' orders, and the timing of accounts receivable collections.

The consolidated statement of cash flows for the first quarter of 2002 shows a decrease of cash since December 31, 2001. Net cash provided by operations was \$6,655,098, primarily due to the decrease in inventories and accounts receivable.

At the end of the second quarter of 2002, total indebtedness was \$8,164,834 which consisted of: line of credit balance, current of \$1,858,883, notes payable current of \$1,500,000, notes payable non-current of \$3,000,000, and a liability relating to the dissenting shareholders of Penobscot of \$1,805,951.

In the first quarter of 2002 the Company entered into a new loan agreement with its existing bank. The new terms of the agreement were used to determine the current and non-current portions of its long-term debt as of June 30, 2002. The loan agreement consists of a revolving line of credit ("revolver"), a term loan facility in the amount of \$3,000,000, a supplemental loan facility in the amount of \$929,762 and a bridge loan in the amount of \$1,500,000. Under the terms of the new agreement, the borrowing base for the revolver is based on certain balances of accounts receivable and inventory, as defined in the

9

agreement. The maximum credit amount under the revolver is \$12,500,000 minus a \$1.7 million letter of credit available for the dissenting Penobscot shareholders, and will be decreased to \$11,000,000 on July 20, 2002. The revolver expires on December 20, 2005 and has an interest rate of LIBOR plus 225 basis points (LIBOR was 1.8357% on June 30, 2002). Effective January 1, 2003, the interest rate ranges from LIBOR plus 175 to 300 basis points depending on the level of the Company's debt to earnings ratio. The revolver is secured by accounts receivable, inventory and equipment. The term loan is payable through December 20, 2005 and is also secured by accounts receivable, inventory and equipment. The supplemental loan facility is due in 2002 and the bridge loan is due in full on June 30, 2002. The term loan is subject to similar interest rate changes as the revolver.

The Company must meet certain restrictive financial covenants as agreed upon in the facility. Depending on the Company's future growth rate, funds may be

## Edgar Filing: PHOENIX FOOTWEAR GROUP INC - Form 10-Q

required by operating activities. Management is not aware of any known demands, commitments, or events that would materially affect its liquidity. With continued use of its revolving credit facility and internally generated funds, the Company believes its present and currently anticipated sources of capital are sufficient to sustain its anticipated capital needs for the remainder of 2002.

### Notes Regarding Forward-Looking Statements and Analyst Reports

"Forward-looking statements", within the meaning of the Private Securities Litigation Reform Act of 1995 (the "Act"), include certain written and oral statements made, or incorporated by reference, by the Company or its representatives in this report, other reports, filings with the Securities and Exchange Commission (the "S.E.C."), press releases, conferences or otherwise. Such forward-looking statements include, without limitation, any statement that may predict, forecast, indicate, or imply future results, performance, or achievements, and may contain the words "believe", "anticipate", "expect", "estimate", "intend", "plan", "project", "will be", "will continue", "will likely result", or any variations of such words with similar meaning. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and assumptions that are difficult to predict; therefore, actual results may differ materially from those expressed or forecasted in any such forward-looking statements. Investors should carefully review the risk factors set forth in other reports or documents the Company files with the S.E.C., including Forms 10-Q, 10-K, and 8-K. Some of the other risks and uncertainties that should be considered include, but are not limited to, the following: international, national and local general economic and market conditions; the inability to source the Company's products because of adverse political and economic factors or the imposition of trade or duty restrictions; changing consumer preferences; changing fashion trends; intense competition among other footwear brands; demographic changes; popularity of particular designs and products; seasonal and geographic demand for the Company's products; fluctuations and difficulty in forecasting operating results, including without limitation, the ability of the Company to continue, manage and forecast its growth and inventories; risk of unavailability or price increase in raw materials needed to make the Company's products; new product development and commercialization; the ability to secure and

10

protect trademarks; performance and reliability of products; customer service; adverse publicity; the loss of significant customers or suppliers; increase cost of freight and transportation to meet delivery deadlines; changes in business strategy or development plans; general risks of doing business outside the United States; including without limitation, import duties, quotas, tariffs, and political and economic instability; changes in government regulation; liability and other claims asserted against the Company; the ability to attract and retain qualified personnel; the risk of the Company's customers filing bankruptcy and other factors referenced or incorporated by reference in this report and other reports.

The Company operates in a very competitive and rapidly changing environment. New risk factors can arise and it is not possible for management to predict all such risk factors, nor can it assess the impact of all such risk factors on the Company's business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements.

Investors should also be aware that while the Company does, from time to time,

## Edgar Filing: PHOENIX FOOTWEAR GROUP INC - Form 10-Q

communicate with securities analysts, it is against the Company's policy to disclose to them any material non-public information or other confidential commercial information. Accordingly, investors should not assume that the Company agrees with any statement or report issued by any analyst irrespective of the content of the statement or report.

Furthermore, the Company has a policy against issuing or confirming financial forecasts or projections issued by others. Thus, to the extent that reports issued by securities analysts contain any projections, forecasts or opinions, such reports are not the responsibility of the Company.

The Company undertakes no obligation to release publicly the results of any revisions to these forward looking statements that may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
