**Item 2.05 Costs Associated with Exit or Disposal Activities.**

As part of its previously announced Restructuring, Lear has continued consolidation and census actions. In the first six months of 2007, these actions resulted in net charges of \$50.6 million, consisting of employee termination costs of \$42.5 million, fixed asset impairment charges of \$6.8 million, contract termination costs of (\$7.3) million (including a net pension and other postretirement benefit plan curtailment gain of \$12.2 million) and other costs of \$8.6 million (including \$4.7 million of estimated manufacturing inefficiency costs resulting from the Restructuring). The severance and other incremental costs represent cash charges, while the asset impairment charges represent non-cash charges. Cash payments related to the Restructuring totaled \$66.8 million in the first six months of 2007.

Although all aspects of the Restructuring have not been finalized, the Company continues to expect to incur total pretax costs of approximately \$300 million through 2007 in connection with the Restructuring, of which \$254.7 million of costs have been incurred to date. Lear continues to estimate that approximately 90% of the restructuring costs will result in cash expenditures.
