SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2014.

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____.

Commission file number: 000-49796

COMPUTER PROGRAMS AND SYSTEMS, INC.
(Exact Name of Registrant as Specified in Its Charter)

Delaware
(State or Other Jurisdiction of
Incorporation or Organization)

74-3032373
(I.R.S. Employer
Identification No.)

6600 Wall Street, Mobile, Alabama
(Address of Principal Executive Offices)
(251) 639-8100

36695
(Zip Code)

(Registrant's Telephone Number, Including Area Code)

N/A
(Former Name, Former Address and Former Fiscal Year, if Changed Since Last Report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of May 7, 2014, there were 11,163,950 shares of the issuer's common stock outstanding.

COMPUTER PROGRAMS AND SYSTEMS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. BASIS OF PRESENTATION

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC") and include all adjustments that, in the opinion of management, are necessary for a fair presentation of the results of the periods presented. All such adjustments are considered of a normal recurring nature. Quarterly and interim results of operations are not necessarily indicative of annual results.

Certain footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These unaudited condensed consolidated financial statements should be read in conjunction with the audited financial statements of Computer Programs and Systems, Inc. ("CPSI" or the "Company") for the year ended December 31, 2013 and the notes thereto contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Principles of Consolidation

The condensed consolidated financial statements of CPSI include the accounts of TruBridge, LLC ("TruBridge"), a wholly-owned subsidiary of CPSI. All significant intercompany balances and transactions have been eliminated.

2. REVENUE RECOGNITION

The Company recognizes revenue in accordance with accounting principles generally accepted in the United States of America, principally those required by the Software topic and Revenue Recognition subtopic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification (the "Codification") and those prescribed by the SEC.

The Company's revenue is generated from three sources:

• System Sales - the sale of information systems, which includes perpetual software licenses, conversion, installation and training services, hardware and peripherals;

• Support and Maintenance - the provision of system support services, which includes software application support, hardware maintenance, continuing education, "Software as a Service" (or "SaaS") services, and forms and supplies; and

• Business Management, Consulting and Managed IT Services - the provision of business management services, which includes electronic billing, statement processing, payroll processing, accounts receivable management, contract management and insurance services, as well as Internet service provider ("ISP") services and consulting and managed IT services (collectively, "other professional IT services").

System Sales, Software Application Support and Hardware Maintenance

The Company enters into contractual obligations to sell hardware, perpetual software licenses, conversion, installation and training services, and software application support and hardware maintenance services. On average, the Company is able to complete a system installation in three to four weeks. The methods employed by the Company to recognize revenue, which are discussed by element below, achieve results materially consistent with the provisions of Accounting Standards Update ("ASU") 2009-13, Multiple-Deliverable Revenue Arrangements, due to the relatively short period during which there are multiple undelivered elements, the relatively small amount of non-software related elements in the system sale arrangements, and the limited number of contracts in-process at the end of each reporting period. The Company recognizes revenue on the elements noted above as follows:

• Hardware – We recognize revenue for hardware upon shipment. The selling price of hardware is based on management's best estimate of selling price, which consists of cost plus a targeted margin.

• Software application support and hardware maintenance – We have established vendor-specific objective evidence ("VSOE") of the fair value of our software application support and hardware maintenance services by reference to the price our customers are required to pay for the services when sold separately via renewals. Support and maintenance revenue is recognized on a straight-line basis over the term of the maintenance contract, which is generally three to five years.

Table of Contents

Perpetual software licenses and conversion, installation and training services – The selling price of perpetual software licenses and conversion, installation and training services is based on management's best estimate of selling price. In determining management's best estimate of selling price, we consider the following: (1) competitor pricing, (2) supply and demand of installation staff, (3) overall economic conditions, and (4) our pricing practices as they relate to discounts. With the exception of certain arrangements with extended payment terms that were entered into in 2012 and that are not comparable to our historical or current arrangements (see Note 9), the method of recognizing revenue for the perpetual license of the associated modules included in the arrangement, and the related conversion, installation and training services over the term the services are performed, is on a module by module basis as the respective conversion, installation and training for each specific module is completed, as this is representative of the pattern of provision of these services.

SaaS, ISP and Other Professional IT Services

The Company accounts for SaaS services in accordance with the requirements of the Hosting Arrangement section under the Software topic and Revenue Recognition subtopic of the Codification. The Codification states that the software elements of SaaS services should not be accounted for as a hosting arrangement "if the customer has the contractual right to take possession of the software at any time during the hosting period without significant penalty and it is feasible for the customer to either run the software on its own hardware or contract with another party unrelated to the vendor to host the software." Each SaaS contract entered into by the Company includes a system purchase and buyout clause, and this clause specifies the total amount of the system buyout. In addition, a clause is included in the contract which states that should the system be bought out by the customer, the customer would be required to enter into a general support agreement (for post-contract support services) for the remainder of the original SaaS term. Accordingly, the Company has concluded that SaaS customers do not have the right to take possession of the system without significant penalty (i.e., the purchase price of the system), resulting in the determination that these contracts are service contracts for which revenue is recognized when the services are performed.

The Company will occasionally provide ISP and other professional IT services. We consider these services to be non-software elements. The selling price of these services is based on third-party evidence of selling price of similar services. Revenue from this element is recognized as the services are performed.

Business Management Services

Business management services consist of electronic billing services, statement processing services, payroll processing, accounts receivable management services, contract management and insurance services. While business management service arrangements are contracts separate from the system sale and support and maintenance contracts, these contracts are sometimes executed within a short time frame of each other. The amount of the total arrangement allocated to these services is based on VSOE of fair value by reference to the rate at which our customers renew as well as the rate at which the services are sold to customers when the business management services agreement is not executed within a short time frame of the system sale and support and maintenance contracts. If VSOE of fair value does not exist for these services, we allocate arrangement consideration based on third-party evidence ("TPE") of selling price or, if neither VSOE nor TPE is available, estimated selling price. Because the pricing is transaction based (per unit pricing), customers are billed and revenue recognized as services are performed based on transaction levels.

Table of Contents

3. PROPERTY AND EQUIPMENT

Property and equipment are comprised of the following at March 31, 2014 and December 31, 2013:

| | March 31, 2014 | December 31, 2013 |
|--------------------------------|-------------------|----------------------|
| Land | \$2,848,276 | \$2,848,276 |
| Buildings and improvements | 9,389,232 | 9,309,951 |
| Maintenance equipment | 1,607,256 | 1,607,256 |
| Computer equipment | 5,524,304 | 5,524,304 |
| Leasehold improvements | 4,543,559 | 4,543,559 |
| Office furniture and fixtures | 3,597,842 | 3,597,842 |
| Automobiles | 316,398 | 316,398 |
| | 27,826,867 | 27,747,586 |
| Less: accumulated depreciation | (9,445,915) | (8,516,214) |
| Property and equipment, net | \$18,380,952 | \$19,231,372 |

4. OTHER ACCRUED LIABILITIES

Other accrued liabilities are comprised of the following:

| | March 31, 2014 | December 31, 2013 |
|-------------------------|-------------------|----------------------|
| Salaries and benefits | \$3,836,586 | \$2,379,202 |
| Commissions | 786,312 | 718,524 |
| Self-insurance reserves | 661,100 | 706,600 |
| Other | 405,106 | 359,916 |
| | \$5,689,104 | \$4,164,242 |

5. INVESTMENTS

The Company accounts for investments in accordance with FASB Codification topic, Investments – Debt and Equity Securities. Accordingly, investments are classified as available-for-sale securities and are reported at fair value, with unrealized gains and losses excluded from earnings and reported in a separate component of stockholders' equity. The Company's management determines the appropriate classification of investments in fixed income securities at the time of acquisition and re-evaluates the classification at each balance sheet date. An average cost method is used for purposes of determining the cost of investments sold.

Investments are comprised of the following at March 31, 2014:

| | Amortized Cost | Unrealized Gains | Unrealized Losses | Fair Value |
|---|-------------------|---------------------|----------------------|---------------|
| Short-term investments (money market funds and accrued income) | \$1,050,055 | \$— | \$— | \$1,050,055 |
| Obligations of U.S. Treasury, U.S. government corporations and agencies | 3,757,671 | 21,750 | (265) | 3,779,156 |
| Mortgaged-backed securities | 73,926 | 2,460 | — | 76,386 |
| Corporate debt securities | 5,729,669 | 71,231 | (2,087) | 5,798,813 |
| | \$10,611,321 | \$95,441 | \$(2,352) | \$10,704,410 |

Table of Contents

Shown below are the amortized cost and estimated fair value of securities with fixed maturities at March 31, 2014, by contract maturity date. Actual maturities may differ from contractual maturities because issuers of certain securities retain early call or prepayment rights.

| | Amortized Cost | Fair Value |
|----------------|-------------------|---------------|
| Due in 2014 | \$3,177,744 | \$3,206,435 |
| Due in 2015 | 5,955,527 | 6,011,292 |
| Due in 2016 | 1,214,528 | 1,221,853 |
| Due in 2017 | 189,596 | 188,444 |
| Due thereafter | 73,926 | 76,386 |
| | \$10,611,321 | \$10,704,410 |

Investments were comprised of the following at December 31, 2013:

| | Amortized Cost | Unrealized Gains | Unrealized Losses | Fair Value |
|---|-------------------|---------------------|----------------------|---------------|
| Short-term investments (money market funds and accrued income) | \$3,402,921 | \$— | \$— | \$3,402,921 |
| Obligations of U.S. Treasury, U.S. government corporations and agencies | 2,748,721 | 250 | (121) | 2,748,850 |
| Mortgaged-backed securities | 78,540 | 2,572 | — | 81,112 |
| Corporate debt securities | 4,454,107 | 17,038 | (1,402) | 4,469,743 |
| | \$10,684,289 | \$19,860 | \$(1,523) | \$10,702,626 |

The following table shows the Company's investments' gross unrealized losses and fair value, aggregated by investment category and length of time that individual securities have been in a continuous loss position, at March 31, 2014 and December 31, 2013, respectively:

| | At March 31, 2014 | | | | Total | |
|--|--------------------------------------|----------------------|------------------------------------|----------------------|---------------|----------------------|
| | Less than 12 Months Fair Value | Unrealized Losses | 12 Months or More Fair Value | Unrealized Losses | Fair Value | Unrealized Losses |
| Obligations of U.S. Treasury, U.S. government corporations and agencies | \$909,174 | \$(265) | \$— | \$— | \$909,174 | \$(265) |
| Corporate debt securities | 788,564 | (2,087) | — | — | 788,564 | (2,087) |
| | \$1,697,738 | \$(2,352) | \$— | \$— | \$1,697,738 | \$(2,352) |
| | At December 31, 2013 | | | | Total | |
| | Less than 12 Months Fair Value | Unrealized Losses | 12 Months or More Fair Value | Unrealized Losses | Fair Value | Unrealized Losses |
| Obligations of U.S. Treasury, U.S. government corporations and agencies | \$1,321,511 | \$(121) | \$— | \$— | \$1,321,511 | \$(121) |
| Corporate debt securities | 148,911 | (1,022) | 161,270 | (380) | 310,181 | (1,402) |
| | \$1,470,422 | \$(1,143) | \$161,270 | \$(380) | \$1,631,692 | \$(1,523) |

Our investment portfolio, including those securities in unrealized loss positions at March 31, 2014, is comprised almost entirely of investment-grade corporate and government debt securities. The Company does not intend to sell the investments that are in an unrealized loss position, and it is not likely that the Company will be required to sell any investments before recovery of their amortized cost basis. As a result, the Company has determined that the unrealized losses are deemed to be temporary impairments as of March 31, 2014. The Company believes that the unrealized

losses

11

Table of Contents

generally are caused by liquidity discounts and increases in risk premiums required by market participants rather than an adverse change in cash flows or a fundamental weakness in the credit quality of the issuer or underlying assets.

6. NET INCOME PER SHARE

The Company presents both basic and diluted earnings per share (“EPS”) amounts. Basic EPS is calculated by dividing net income by the weighted average number of common shares outstanding during the period presented. Diluted EPS amounts are based upon the weighted average number of common and common equivalent shares outstanding during the period presented. There were no dilutive common equivalent shares outstanding for the three month periods ended March 31, 2014 or March 31, 2013.

7. INCOME TAXES

The Company accounts for income taxes in accordance with FASB’s Codification topic, Income Taxes. Deferred income taxes arise from the temporary differences in the recognition of income and expenses for tax purposes. A valuation allowance is established when the Company believes that it is more likely than not that some portion of its deferred tax assets will not be realized. Deferred tax assets and liabilities are comprised of the following at March 31, 2014 and December 31, 2013:

| | March 31, 2014 | December 31, 2013 |
|---|-------------------|----------------------|
| Deferred tax assets: | | |
| Accounts receivable and financing receivables | \$1,060,577 | \$971,132 |
| Accrued vacation | 1,218,629 | 1,191,286 |
| Stock-based compensation | 767,496 | 491,921 |
| Deferred revenue | 475,435 | 48,383 |
| Accrued liabilities and other | 163,525 | 155,569 |
| Total deferred tax assets | \$3,685,662 | \$2,858,291 |
| Deferred tax liabilities: | | |
| Other comprehensive income | \$35,375 | \$6,967 |
| Depreciation | 2,250,776 | 2,486,032 |
| Total deferred tax liabilities | \$2,286,151 | \$2,492,999 |

Significant components of the Company’s income tax provision in the Condensed Consolidated Statements of Income for the three months ended March 31 are as follows:

| | 2014 | 2013 |
|----------------------------|-------------|-------------|
| Current provision: | | |
| Federal | \$4,479,631 | \$3,234,923 |
| State | 814,039 | 649,366 |
| Deferred provision: | | |
| Federal | (953,640 |) (522,782 |
| State | (108,987 |) (59,747 |
| Total income tax provision | \$4,231,043 | \$3,301,760 |

The difference between income taxes at the U.S. federal statutory income tax rate of 35% and those reported in the Condensed Consolidated Statements of Income for the three months ended March 31 is as follows:

| | 2014 | 2013 |
|---|-------------|-------------|
| Income taxes at U.S. Federal statutory rate | \$4,181,135 | \$3,585,919 |
| State income taxes, net of federal tax effect | 420,138 | 357,261 |
| Domestic production activities deduction | (400,132 |) (353,563 |
| Tax credits | — | (421,467 |
| Other | 29,902 | 133,610 |
| Total income tax provision | \$4,231,043 | \$3,301,760 |

Table of Contents

Our effective tax rate for the three months ended March 31, 2014 was 35.4%, compared to 32.2% for the three months ended March 31, 2013. The federal research and development tax credit expired effective December 31, 2011, but was retroactively extended for amounts incurred from January 1, 2012 through December 31, 2013, when the American Taxpayer Relief Act of 2012 (“ATRA”) was signed into law in January 2013. No tax benefit from these credits was recorded during 2012 as applicable accounting standards require that such benefits are to be recorded in the period that the legislation is enacted. Instead, the Company recognized the full net benefit for the federal research and development tax credit for the entire 2012 fiscal year during the three months ended March 31, 2013, in addition to estimated amounts related to the first quarter of 2013. As the federal research and development tax credit, as extended by the ATRA, expired effective December 31, 2013 and had yet to be extended for fiscal year 2014 as of March 31, 2014, no tax benefit from these credits has been recorded for the three months ended March 31, 2014.

The Company had unrecognized tax benefits of \$1,343,379 related to uncertain tax positions as of March 31, 2014 under the provisions of FASB Codification topic, Income Taxes, which is recorded in income taxes payable within the Condensed Consolidated Balance Sheet. As of March 31, 2014, \$193,690 of accrued interest related to such positions has been recorded. The federal returns for the tax years 2004 through 2009 are currently under examination by the Internal Revenue Service, primarily in relation to research credits and Domestic Production Activities Deduction amounts claimed on those returns, as amended, by the Company. The federal returns for tax years 2010 through 2012 remain open to examination, and the tax years 2006 through 2012 remain open to examination by certain other taxing jurisdictions to which the Company is subject.

8. STOCK-BASED COMPENSATION

Stock-based compensation cost is measured at the grant date based on the fair value of the award, and is recognized as an expense over the employee’s or non-employee director’s requisite service period.

The following table shows total stock-based compensation expense for the three months ended March 31, 2014 and 2013, included in the Condensed Consolidated Statements of Income:

| | Three Months Ended | |
|--|--------------------|-------------------|
| | March 31, 2014 | March 31, 2013 |
| Costs of sales | \$265,249 | \$114,999 |
| Operating expenses | 441,352 | 233,474 |
| Pre-tax stock-based compensation expense | 706,601 | 348,473 |
| Less: income tax effect | 275,574 | 135,904 |
| Net stock-based compensation expense | \$431,027 | \$212,569 |

2005 Restricted Stock Plan

On April 18, 2011, the Compensation Committee of the Board of Directors approved the grant of a total of 100,346 shares of restricted stock, effective April 18, 2011, to certain executive officers of the Company. The grant date fair value was \$60.79 per share. Under the terms of the restricted stock award agreements with the executive officers, the shares of restricted stock are scheduled to vest in five equal annual installments commencing on April 18, 2012 and each April 18 thereafter, assuming that the recipient of the award continues to serve as an executive officer of the Company on each applicable vesting date. Compensation expense for this grant is being recognized on a straight-line basis over five years.

On October 31, 2012, the Compensation Committee of the Board of Directors approved the grant of a total of 12,292 shares of restricted stock, effective October 31, 2012, to two executive officers of the Company. The grant date fair value was \$48.81 per share. Under the terms of the restricted stock award agreements with the executive officers, the shares of restricted stock are scheduled to vest in five equal annual installments commencing on October 31, 2013 and each October 31 thereafter, assuming that the recipient of the award continues to serve as an executive officer of the Company on each applicable vesting date. Compensation expense for this grant is being recognized on a straight-line basis over five years.

On September 25, 2013, the Compensation Committee of the Board of Directors approved the grant of a total of 79,080 shares of restricted stock, effective September 25, 2013, to certain executive officers of the Company. The grant date fair value was \$57.54 per share. Under the terms of the restricted stock award agreements with the

executive officers, the shares of restricted stock are scheduled to vest in four equal annual installments commencing on September 25, 2014 and each September 25 thereafter, assuming that the recipient of the award continues to serve as an executive officer of the Company on each applicable vesting date. Compensation expense for this grant is being recognized on a straight-line basis over four years.

Table of Contents

2012 Restricted Stock Plan for Non-Employee Directors

On June 18, 2012, the Compensation Committee of the Board of Directors approved the grant of 2,160 shares of restricted stock, effective June 18, 2012, to the five non-employee directors of the Company. The grant date fair value was \$55.55 per share. Under the terms of the restricted stock award agreements with the non-employee directors, the shares of restricted stock are scheduled to vest on the third anniversary of the date of grant, assuming that the recipient of the grant continues to serve as a director of the Company on the vesting date. Compensation expense for this grant is being recognized on a straight-line basis over three years.

On March 4, 2013, the Compensation Committee of the Board of Directors approved the grant of a total of 2,390 shares of restricted stock, effective March 4, 2013, to the five non-employee directors of the Company. The grant date fair value was \$52.32 per share. Under the terms of the restricted stock award agreements with the non-employee directors, the shares of restricted stock are scheduled to vest on the third anniversary of the date of grant, assuming that the recipient of the grant continues to serve as a director of the Company on the vesting date. Compensation expense for this grant is being recognized on a straight-line basis over three years.

On January 27, 2014, the Compensation Committee of the Board of Directors approved the grant of a total of 4,808 shares of restricted stock, effective January 27, 2014, to certain of the non-employee directors of the Company. The grant date fair value was \$58.22 per share. Under the terms of the restricted stock award agreements with the non-employee directors, the shares of restricted stock are scheduled to vest on the first anniversary of the date of grant, assuming that the recipient of the grant continues to serve as a director of the Company on the vesting date. Compensation expense for this grant will be recognized on a straight-line basis over one year.

A summary of activity under the 2005 Restricted Stock Plan and the 2012 Restricted Stock Plan for Non-Employee Directors (the "Plans") for the three months ended March 31, 2014 and 2013 is as follows:

| | Three Months Ended March 31, 2014 | | Three Months Ended March 31, 2013 | |
|--|--------------------------------------|--|--------------------------------------|--|
| | Shares | Weighted-Average Grant-Date Fair Value | Shares | Weighted-Average Grant-Date Fair Value |
| Nonvested stock outstanding at beginning of period | 153,674 | \$ 58.15 | 94,729 | \$ 59.12 |
| Granted | 4,808 | 58.22 | 2,390 | 52.32 |
| Vested | — | — | — | — |
| Nonvested stock outstanding at end of period | 158,482 | \$ 58.15 | 97,119 | \$ 58.95 |

As of March 31, 2014, there was \$7,250,751 of unrecognized compensation cost related to non-vested restricted stock granted under the Plans.

9. FINANCING RECEIVABLES

Short-Term Payment Plans

The Company has sold information and patient care systems to certain healthcare providers under short-term payment plans, which typically have expected terms from 3 to 12 months. These receivables, included in the current portion of financing receivables, were comprised of the following on March 31, 2014 and December 31, 2013:

| | March 31, 2014 | December 31, 2013 |
|---------------------------------|-------------------|----------------------|
| Short-term payment plans, gross | \$24,116,393 | \$25,317,770 |
| Less: allowance for losses | (1,205,820) | (1,265,889) |
| Less: unearned income | — | — |
| Short-term payment plans, net | \$22,910,573 | \$24,051,881 |

Table of Contents

Sales-Type Leases

Additionally, the Company leases its information and patient care systems to certain healthcare providers under sales-type leases expiring in various years through 2017. These receivables typically have terms from two to five years, bear interest at various rates, and are usually collateralized by a security interest in the underlying assets. Since the Company has a history of successfully collecting amounts due under the original payment terms of these extended payment arrangements without making any concessions to its customers, the Company satisfies the requirement for revenue recognition. The Company's history with these types of extended payment term arrangements supports management's assertion that revenues are fixed and determinable and collection is probable.

The components of these lease receivables were as follows on March 31, 2014 and December 31, 2013:

| | March 31, 2014 | December 31, 2013 |
|---|-------------------|----------------------|
| Sales-type leases, gross | 1,846,490 | 2,081,512 |
| Less: allowance for losses | (88,860) | (99,301) |
| Less: unearned income | (69,276) | (95,499) |
| Sales-type leases, net | \$1,688,354 | \$1,886,712 |
| Future minimum lease payments to be received subsequent to March 31, 2014 are as follows: | | |
| 2014 | | \$1,040,582 |
| 2015 | | 589,499 |
| 2016 | | 160,150 |
| 2017 | | 56,259 |
| 2018 | | — |
| Thereafter | | — |
| Total minimum lease payments to be received | | 1,846,490 |
| Less unearned income | | (69,276) |
| Net lease receivables | | \$1,777,214 |

Credit Quality of Financing Receivables and Allowance for Credit Losses

The following table is a roll-forward of the allowance for financing credit losses for the three months ended March 31, 2014 and year ended December 31, 2013:

| | Beginning Balance | Provision | Charge-offs | Recoveries | Ending Balance |
|-------------------|----------------------|-------------|--------------|------------|-------------------|
| March 31, 2014 | \$1,365,190 | \$(70,510) | \$— | \$— | \$1,294,680 |
| December 31, 2013 | \$662,315 | \$1,309,160 | \$(606,285) | \$— | \$1,365,190 |

The Company's financing receivables are comprised of a single portfolio segment, as the balances are all derived from short-term payment plan arrangements and sales-type leasing arrangements within our target market of rural and community hospitals. The Company evaluates the credit quality of its financing receivables based on a combination of factors, including, but not limited to, customer collection experience, economic conditions, the customer's financial condition, and known risk characteristics impacting the respective customer base of rural and community hospitals, the most notable of which relate to enacted and potential changes in Medicare and Medicaid reimbursement rates as rural and community hospitals typically generate a significant portion of their revenues and related cash flows from beneficiaries of these programs. In addition to specific account identification, the Company utilizes historical collection experience to establish the allowance for credit losses. Financing receivables are written off only after the Company has exhausted all collection efforts. The Company has been successful in collecting its financing receivables and considers the credit quality of such arrangements to be good, especially as the underlying assets act as collateral for the receivables.

Table of Contents

Customer payments are considered past due if a scheduled payment is not received within contractually agreed upon terms. To facilitate customer collection and credit monitoring efforts, financing receivable amounts are invoiced and reclassified to trade accounts receivable when they become due, with all invoiced amounts placed on nonaccrual status. As a result, all past due amounts related to the Company's financing receivables are included in trade accounts receivable in the accompanying Condensed Consolidated Balance Sheets. The following is an analysis of the age of financing receivables amounts (excluding short-term payment plans) that have been reclassified to trade accounts receivable and were past due as of March 31, 2014 and December 31, 2013:

| | 1 to 90 Days Past Due | 91 to 180 Days Past Due | 181 + Days Past Due | Total Past Due |
|-------------------|--------------------------|----------------------------|------------------------|-------------------|
| March 31, 2014 | \$422,556 | \$89,794 | \$57,429 | \$569,779 |
| December 31, 2013 | \$511,792 | \$85,738 | \$57,429 | \$654,959 |

From time to time, the Company may agree to alternative payment terms outside of the terms of the original financing receivable agreement due to customer difficulties in achieving the original terms. In general, such alternative payment arrangements do not result in a re-aging of the related receivables. Rather, payments pursuant to any alternative payment arrangements are applied to the already outstanding invoices beginning with the oldest outstanding invoices as the payments are received.

Because amounts are reclassified to trade accounts receivable when they become due, there are no past due amounts included within financing receivables in the accompanying Condensed Consolidated Balance Sheets.

The Company utilizes an aging of trade accounts receivable as the primary credit quality indicator for its financing receivables, which is facilitated by the reclassification of customer payment amounts to trade accounts receivable when they become due. The table below categorizes customer financing receivable balances (excluding short term payment plans), none of which are considered past due, according to the age of the oldest related payment outstanding within trade accounts receivable:

| | March 31, 2014 | December 31, 2013 |
|--|-------------------|----------------------|
| Customer balances with amounts reclassified to trade accounts receivable that are: | | |
| 1 to 90 Days Past Due | \$846,472 | \$1,322,823 |
| 91 to 180 Days Past Due | 502,848 | 368,424 |
| 181 + Days Past Due | 37,537 | 37,537 |
| Total customer balances with past due amounts reclassified to trade accounts receivable | \$1,386,857 | \$1,728,784 |
| Total customer balances with no past due amounts reclassified to trade accounts receivable | 390,357 | 257,229 |
| Total financing receivables with contractual maturities of one year or less | 24,116,393 | 25,317,770 |
| Less allowance for losses | (1,294,680) | (1,365,190) |
| Total financing receivables | \$24,598,927 | \$25,938,593 |

First Generation Meaningful Use Installment Plans

During 2012, the Company entered into multiple customer license agreements with payment terms requiring the customer to remit to the Company incentive payments (not to exceed the remaining balance of the contract price) received under the American Recovery and Reinvestment Act of 2009 ("ARRA") for adoption of qualifying electronic health records ("EHRs"), with only nominal payment amounts required until the customer's receipt of such incentive payments ("First Generation Meaningful Use Installment Plans"). If no such incentive payments are received by the customer or if such payments are not sufficient to pay the remaining balance under the arrangement, payments continue at contracted nominal amounts until the balance of the contract price is paid in full. Because of the significant difference in the underlying economics of these arrangements compared to our historical financing receivables, management has determined that these arrangements are not comparable to historical arrangements. In accordance with the Software topic and Revenue Recognition subtopic of the Codification, the Company recognizes revenue related to these arrangements as the amounts become due. Anticipated future cash flows from these 2012 licensing arrangements are excluded from the Company's financing receivables and deferred revenue in the

accompanying Condensed Consolidated Balance Sheets. Direct,

16

Table of Contents

incremental costs in the amount of \$93,879, included as a component of prepaid expenses and other in the accompanying Condensed Consolidated Balance Sheets, have been capitalized as of March 31, 2014 related to these arrangements.

Second Generation Meaningful Use Installment Plans

Beginning in the fourth quarter of 2012, we ceased offering First Generation Meaningful Use Installment Plans to our customers, opting instead for license agreements with payment terms that provide us with greater visibility into and control over the customer's meaningful use attestation process and significantly reducing the maximum timeframe over which customers must satisfy their full payment obligations in purchasing our system ("Second Generation Meaningful Use Installment Plans"). As the overall payment period durations of the Second Generation Meaningful Use Installment Plans are consistent with that of our historical system sale financing arrangements, revenues under the Second Generation Meaningful Use Installment Plans are recognized upon installation of our EHR solution.

Consistent with the terms of the respective agreements, all related amounts are included as a component of financing receivables, current portion, net in the accompanying Condensed Consolidated Balance Sheets and as a component of short-term payment plans within this Note 9.

10. COMMITMENTS AND CONTINGENCIES

From time to time, the Company is involved in routine litigation that arises in the ordinary course of business.

Management does not expect this to have a material adverse effect on the Company's financial statements.

11. FAIR VALUE

FASB Codification topic, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value and expands financial statement disclosures about fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The Codification does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements. The Codification requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The fair values of the Company's available-for-sale securities are based on matrix pricing for the periods ended March 31, 2014 and December 31, 2013, which uses observable market-based inputs (such as benchmark yields) in addition to quoted prices in active markets to derive fair values. As a result, these inputs are classified as Level 2 within the fair value hierarchy. We generally apply fair value techniques on a non-recurring basis associated with (1) valuing potential impairment loss related to financing receivables accounted for pursuant to Codification topic, Leases, and (2) valuing potential impairment loss related to long-lived assets accounted for pursuant to Codification topic, Property, Plant and Equipment, when events or circumstances indicate a possible impairment.

Table of Contents

The following tables summarize the carrying amounts and fair values of certain assets and liabilities at March 31, 2014 and December 31, 2013:

| Description | Carrying Amount at 3/31/2014 | Fair Value at March 31, 2014 Using Quoted Prices in Active Markets for | | |
|---|------------------------------------|---|--|--|
| | | Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
| Available-for-sale securities | | | | |
| Short-term investments (money market funds and accrued income) | \$1,050,055 | \$— | \$1,050,055 | \$— |
| Obligations of U.S. Treasury, U.S. government corporations and agencies | 3,779,156 | — | 3,779,156 | — |
| Mortgage backed securities | 76,386 | — | 76,386 | — |
| Corporate debt securities | 5,798,813 | — | 5,798,813 | — |
| Total available-for-sale securities | \$10,704,410 | \$— | \$10,704,410 | \$— |

| Description | Carrying Amount at 12/31/2013 | Fair Value at December 31, 2013 Using Quoted Prices in Active Markets for | | |
|---|-------------------------------------|--|--|--|
| | | Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
| Available-for-sale securities | | | | |
| Short-term investments (money market funds and accrued income) | \$3,402,921 | \$— | \$3,402,921 | \$— |
| Obligations of U.S. Treasury, U.S. government corporations and agencies | 2,748,850 | — | 2,748,850 | — |
| Mortgage backed securities | 81,112 | — | 81,112 | — |
| Corporate debt securities | 4,469,743 | — | 4,469,743 | — |
| Total available-for-sale securities | \$10,702,626 | \$— | \$10,702,626 | \$— |

Accrued income in the above tables represents earnings due and payable to our investment portfolio at any point in time but not yet received.

The carrying amounts of other financial instruments reported in the balance sheet for current assets and current liabilities approximates their fair values because of the short-term nature of these instruments.

12. RECENT ACCOUNTING PRONOUNCEMENTS

New Accounting Standards Adopted in 2014

There were no new standards required to be adopted during the three months ended March 31, 2014 that are expected to have a material impact on our financial statements.

New Accounting Standards Yet to be Adopted

There are no new standards required to be adopted in future periods that are expected to have a material impact on our financial statements.

13. SUBSEQUENT EVENTS

On May 1, 2014, the Company announced a dividend for the second quarter of 2014 in the amount of \$0.57 per share, payable on May 30, 2014, to stockholders of record as of the close of business on May 15, 2014.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

You should read the following discussion and analysis of our financial condition and results of operations together with the unaudited condensed consolidated financial statements and related notes appearing elsewhere herein.

This discussion and analysis contains forward-looking statements within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified generally by the use of forward-looking terminology and words such as "expects," "anticipates," "estimates," "believes," "predicts," "intends," "plans," "potential," "may," "continue," "should," "will" and words of comparable meaning. Without limiting the generality of the preceding statement, all statements in this report relating to estimated and projected earnings, margins, costs, expenditures, cash flows, growth rates and future financial results are forward-looking statements. We caution investors that any such forward-looking statements are only predictions and are not guarantees of future performance. Certain risks, uncertainties and other factors may cause actual results to differ materially from those projected in the forward-looking statements. Such factors may include:

- overall business and economic conditions affecting the healthcare industry;
- government regulation of the healthcare and health insurance industries;
- government regulation of our products and customers, including changes in healthcare policy affecting Medicare and Medicaid reimbursement rates and qualifying technological standards;
- potential effects of the federal healthcare reform legislation enacted in 2010, and implementing regulations, on the businesses of our hospital customers;
- funding uncertainties associated with, and potential expenditures required by, the American Recovery and Reinvestment Act of 2009 in connection with the adoption of electronic health records;
- saturation of our target market and hospital consolidations;
- changes in customer purchasing priorities, capital expenditures and demand for information technology systems;
- competition with companies that have greater financial, technical and marketing resources than we have;
- failure to develop new technology and products in response to market demands;
- fluctuations in quarterly financial performance due to, among other factors, timing of customer installations;
- failure of our products to function properly resulting in claims for medical losses;
- changes in accounting principles generally accepted in the United States of America;
- breaches of security and viruses in our systems resulting in customer claims against us and harm to our reputation;
- potential intellectual property claims against us;
- general economic conditions, including changes in the financial and credit markets that may affect the availability and cost of credit to us or our customers; and
- interruptions in our power supply and/or telecommunications capabilities.

Additional information concerning these and other factors which could cause differences between forward-looking statements and future actual results is discussed under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the Securities and Exchange Commission.

Background

CPSI was founded in 1979 and specializes in delivering comprehensive healthcare information systems and related services to rural and community hospitals. Our systems and services are designed to support the primary functional areas of a hospital and to enhance access to necessary financial and clinical information. Our comprehensive system enables healthcare providers to improve clinical, financial and administrative processes and outcomes. Our products and services provide solutions in key areas, including patient management, financial accounting, clinical, patient care and enterprise applications. In addition

Table of Contents

to servicing small to medium-sized hospitals, we provide information technology services to other related entities in the healthcare industry, such as nursing homes, home health agencies and physician clinics.

We sell a fully integrated, enterprise-wide financial and clinical hospital information system comprised of all necessary software, hardware, peripherals, forms and office supplies, together with comprehensive customer service and support. We also offer business management, consulting and managed information technology ("IT") services, including electronic billing submissions, patient statement processing and accounts receivable management, as part of our overall information system solution.

Our system currently is installed and operating in over 650 hospitals in 46 states and the District of Columbia. Our customers consist of rural and community hospitals with 300 or fewer beds, with hospitals having 100 or fewer acute care beds comprising approximately 94% of our customers.

Management Overview

Historically we have primarily sought revenue growth through sales of healthcare information technology systems and related services to existing and new customers within our historic target market. Our strategy has produced consistent revenue growth over the long-term, as reflected in five- and ten-year compounded annual growth rates in revenues of approximately 10.9% and 9.5%, respectively, as of the end of our most recently completed fiscal year. Selling new and additional products and services to our existing customer base is an important part of CPSI's future revenue growth. We believe that as our customer base grows, the demand for additional products and services, including business management services, will also continue to grow, supporting further increases in recurring revenues. We also expect to drive revenue growth from new product development that we may generate from our research and development activities.

In January 2013, we announced the formation of TruBridge, LLC ("TruBridge"), a wholly-owned subsidiary of CPSI. TruBridge provides the business management, consulting and managed IT services that historically had been provided by CPSI, with the expectation of expanding both our service offerings and our footprint in this particular marketplace in the future. We expect this strategic initiative to allow us to more fully take advantage of the market opportunities in providing such services by facilitating the expansion of our target market to include the entire rural and community hospital market, no longer limiting the market for our services to hospitals where CPSI already serves as the primary IT vendor.

In addition to revenue growth, our business model is focused on earnings growth. Once a hospital has installed our system, we continue to provide support and maintenance services to the customer on an ongoing basis. These services are typically provided by the same personnel who perform our system installations but at a reduced cost to us, and therefore at an increased gross margin. We also look to increase margins through cost containment measures where appropriate.

As a result of the recent economic recession, continued economic uncertainty and tightened lending standards, hospitals have experienced reduced availability of third-party credit and increased volatility in their investment portfolios. In addition, healthcare organizations with a large dependency on Medicare and Medicaid populations, such as rural and community hospitals, have been impacted by the challenging financial condition of the federal government and many state governments and government programs. Accordingly, we recognize that prospective hospital customers often do not have the necessary capital to make investments in information technology.

Additionally, in response to these challenges, hospitals have become more selective regarding where they invest capital, resulting in a focus on strategic spending that generates a return on their investment. Despite the current economic environment, we believe healthcare information technology is often viewed as more strategically beneficial to hospitals than other possible purchases because the technology offers the possibility of a quick return on investment. Information technology also plays an important role in healthcare by improving safety and efficiency and reducing costs. Additionally, we believe most hospitals recognize that they must invest in healthcare information technology to meet current and future regulatory, compliance and government reimbursement requirements.

As our new system installation customers have expected significant future cash inflows in the form of electronic health record ("EHR") incentive payments from the federal and state governments, we have experienced a significant demand for financing arrangements allowing these customers to minimize the near-term impact on their current cash resources. Our response to such demand has been the implementation of financing arrangements that allow customers

to utilize anticipated cash inflows under the EHR incentive program in satisfaction of their payment obligations in purchasing our EHR solution. These payment terms have been particularly pervasive in the population of our new system installations since 2011, with such arrangements comprising nearly all new system installations during 2013 as this was the last year an eligible hospital could begin participation in the EHR incentive program and receive the full four years of incentive payments under the program. Customers seeking and receiving such financing arrangements comprised less than half of our new system installations during the three months ended March 31, 2014. Historically, we have made financing arrangements available to customers on a case-by-case basis depending upon various aspects of the proposed contract and customer attributes. These financing arrangements include short-term payment plans, longer-term lease financing through us or third-party financing companies, and Software as a

Table of Contents

Service ("SaaS") arrangements. We intend to continue to work with prospective customers to provide for financing arrangements to purchase our systems so long as such arrangements do not adversely affect our financial position or long-term liquidity. We believe that meeting the financial needs of rural and community hospitals while allowing for the profitable expansion of our footprint in this market will remain both an opportunity and a challenge for us in the foreseeable future.

Despite ongoing challenging economic conditions generally, we have not experienced a decline in demand for our products and services, and our collections of receivables remain consistent with historical trends.

American Recovery and Reinvestment Act of 2009

While ongoing challenging economic conditions have impacted and are expected to continue to impact the rural and community hospitals that comprise our target market, we believe that the incentives offered by the American Recovery and Reinvestment Act of 2009 (the "ARRA") for the adoption of qualifying EHRs has increased and will continue to increase demand for healthcare information technology and will have a positive impact on our business prospects through 2015. As of March 31, 2014, incentive payments totaling \$22.9 billion have been made to aid healthcare organizations in modernizing their operations through the acquisition and wide-spread use of healthcare information technology. These incentive payments began in 2011 and will continue through 2015, but if an eligible healthcare provider does not begin to demonstrate meaningful use of an EHR by October 1, 2014, then reimbursement under Medicare will begin to be reduced.

We have been focused on ensuring that we take the necessary steps to meet the needs of rural and community hospitals to help them gain access to the incentives made available under the ARRA. Primary among those steps is ensuring that our technology meets the ARRA's EHR certification requirements. During 2010, both our hospital and medical practice EHR solutions were certified as a complete EHR by CCHIT®. Receiving this certification for both our hospital and medical practice EHR products ensures that both hospitals and providers using our EHR systems can attain "meaningful use" of EHRs and qualify for certain EHR incentives. Continuing this focus on ensuring that our technology meets the ARRA's EHR certification requirements, during 2013 Version 19 of our hospital and medical practice EHR systems were certified by CCHIT® as complete EHRs in compliance with the Office of the National Coordinator for Health Information Technology ("ONC") 2014 Edition criteria. The ONC 2014 Edition criteria support both stage one and stage two meaningful use measures required to qualify eligible hospitals and providers for funding under the ARRA.

According to the most recently available data reported by the ONC and the Centers for Medicare and Medicaid Services ("CMS"), as of February 28, 2014, CPSI is third among all vendors in terms of the number of successful hospital customer attestations for complete EHR systems. As a result of our obtaining the CCHIT® certification and our track record with our hospital customers successfully achieving meaningful use, the ARRA has had and should continue to have a positive impact on our business and the businesses of the rural and community hospitals that comprise our target market.

Health Care Reform

In March 2010, President Obama signed into law the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010, collectively referred to as the "Health Reform Laws." This sweeping legislation implements changes to the healthcare and health insurance industries from 2010 through 2015, with the ultimate goal of requiring substantially all U.S. citizens and legal residents to have qualifying health insurance coverage by 2014 and providing the means by which it will be made available to them. We anticipate that the Health Reform Laws will have little direct impact on our internal operation but may have a significant impact on the businesses of our hospital customers once fully in effect. We have not been able to determine at this point whether the impact will be positive, negative or neutral; however, it is likely that the Health Reform Laws will affect hospitals differently depending upon the populations they service. Rural and community hospitals typically service higher uninsured populations than larger urban hospitals and rely more heavily on Medicare and Medicaid for reimbursement. It remains to be seen whether the increase in the insured populations for rural and community hospitals, as well as the increase in Medicare and Medicaid reimbursements under the ARRA for hospitals that implement EHR technology, will be enough to offset cuts in Medicare and Medicaid reimbursements contained in the Health Reform Laws or as a result of sequestration or other federal legislation.

We believe healthcare initiatives will continue during the foreseeable future. If adopted, some aspects of previously proposed reforms, such as further reductions in Medicare and Medicaid payments, could adversely affect the businesses of our customers and thereby harm our business.

Table of Contents

Deficit Reduction/Sequestration

President Obama signed legislation in August 2011, the Budget Control Act of 2011, to increase the U.S. debt ceiling. This legislation mandates significant cuts in federal spending over the next decade, as the special bipartisan Congressional committee appointed under the legislation failed to take any action on deficit reduction. Although Medicaid is specifically exempted from the federal spending cuts mandated by the legislation, it calls for a reduction of up to 2% in federal Medicare spending, all of which will be achieved by reduced reimbursements to healthcare providers. With the passage of the American Taxpayer Relief Act of 2012, the reduced reimbursements provided for under the Budget Control Act took effect starting on March 1, 2013. As our hospital customers rely heavily on reimbursements from Medicare to fund their operations, this reduction in reimbursement rates, although capped at 2%, could negatively affect the businesses of our customers and our business. As of the date of this filing, we have not experienced significant adverse effects on our business or results from operations from this reduction in reimbursement rates.

As the federal government seeks to further limit deficit spending in the future due to fiscal restraints, it will likely continue to cut entitlement spending programs such as Medicare and Medicaid matching grants which will place further cost pressures on hospitals and other healthcare providers. Furthermore, federal and state budget shortfalls could lead to potential reductions in funding for Medicare and Medicaid. Reductions in reimbursements from Medicare and Medicaid could lead to hospitals postponing expenditures on information technology.

Results of Operations

During the three months ended March 31, 2014, we generated revenues of \$52.1 million from the sale of our products and services, as compared to \$49.5 million in the three months ended March 31, 2013, an increase of 5.1% that is primarily attributed to continued growth in our business management, consulting and managed IT services revenues due to an expansion of service offerings complemented by an expanding customer base for our previously existing service offerings. We installed our core financial and patient accounting system in nine new hospitals in the first three months of 2014 compared to seven in the first three months of 2013. Additionally, our expanding customer base resulted in continued growth in support and maintenance revenues. Our net income for the three months ended March 31, 2014 increased 11.1% from the first three months of 2013, while cash flow from operations increased 138.3%, primarily as a result of decreased utilization of Second Generation Meaningful Use Installment Plans and increased collections of amounts previously recorded under such arrangements.

As mentioned above, our operations have been significantly affected by the EHR incentives offered under the ARRA and the related reduction in Medicare reimbursement rates for those providers that fail to demonstrate meaningful use of EHR by October 1, 2014. "Meaningful use" of EHR under the ARRA refers to a set of core criteria that medical providers must meet in order to prove that they are using their EHR as an effective tool in their practice, plus additional a la carte menu items. Meaningful use is measured in three stages, with each stage representing a level of adoption of EHR. EHR incentive payments to eligible hospitals meeting the stage one criteria began in 2011. Eligible hospitals that did not meet the stage one criteria by October 1, 2013 will experience a decrease in the overall incentive payments for which they are eligible under the incentive program. To achieve the stage one criteria, eligible hospitals are required to meet 14 core objectives and five menu objectives that they select from a total list of 10. Stage two criteria, published in September 2012, became effective at the beginning of the federal government's 2014 fiscal year (October 1, 2013) and require eligible hospitals to meet 16 core objectives and three menu objectives to be selected from a total list of six. Most of the stage one objectives are core objectives under stage two, but the thresholds that providers must meet to satisfy these objectives for stage two have been raised. Stage three criteria (the final rules for which have not yet been published) are expected to become effective at the beginning of the federal government's 2017 fiscal year (October 1, 2016).

In the first year of participation in the EHR incentive program, eligible hospitals are required to report compliance with stage one requirements for a consecutive 90-day period during the federal government's fiscal year to qualify for incentive payments. For subsequent years, the original rules required eligible hospitals to report compliance with meaningful use standards for a full EHR reporting year. However, for fiscal 2014 CMS is permitting a one-time three-month reporting period to allow providers time to adopt EHR technology that is in compliance with the ONC 2014 Edition criteria. For eligible hospitals, this three-month reporting period is fixed to the quarter of the federal

government's fiscal year. As a result of the required deadlines associated with these compliance periods, in order for eligible hospitals to maximize potential EHR incentive payments and avoid the aforementioned reduction in Medicare reimbursement rates for failure to demonstrate meaningful use of EHR by October 1, 2014, our financial results have become and will remain uneven during the term of the ARRA program, with system sales activity relating to ARRA likely being higher in the first two quarters of our fiscal year and lower in the last two quarters of our fiscal year. However, due to the timing of revenue recognition on the remaining \$2.6 million of accumulated unrecognized revenue related to First Generation Meaningful Use Installment Plans as discussed below, our recognition of revenue for the remainder of 2014 may not be in a pattern consistent with changes in system sales activity.

Table of Contents

First Generation Meaningful Use Installment Plans. During 2012, we included language in certain of our customer license agreements that more evenly matched customers' anticipated cash inflows under the EHR incentive program with the necessary cash outflows for purchasing our EHR solution ("First Generation Meaningful Use Installment Plans"). Under these arrangements, a customer is required to remit to us Medicare and Medicaid incentive payments (not to exceed the remaining balance under the arrangement) received for adoption of qualifying EHRs upon receipt of such funds, with only nominal payments required until the customer's receipt of such incentive payments. If no such incentive payments are received by the customer or if such payments are not sufficient to pay the remaining balance under the arrangement, payments continue at contracted nominal amounts until the balance of the contract price is paid in full. EHR incentive payments aside, these nominal payment amounts would result in the overall duration of the payment periods significantly exceeding that of our historical financing arrangements. As a result, revenue from these arrangements is recognized as the amounts become due. As of March 31, 2014, we have remaining accumulated unrecognized revenue of \$2.6 million to be recognized as the amounts become due under these contracts. Of the customers contributing to the \$2.6 million in accumulated unrecognized revenue as of the date of this filing, all have attested to stage one of meaningful use as of the date of this filing, with half of those customers attesting to stage one having already received related first year Medicare and Medicaid incentive payments.

Our experience suggests an average time from successful attestation in stage one to receipt of funds from Medicare under the EHR incentive program of approximately six weeks. Overall with respect to these contracts, we have typically experienced a timeframe of 6 to 12 months from the date of installation to receipt of funds under the EHR incentive program. While those customers contributing to the \$2.6 million of accumulated unrecognized revenue have experienced significantly expanded timeframes from installation to receipt of incentive funds, we do not consider the events giving rise to such timeframe expansion to be indicative of an increased risk of noncompliance with the ARRA requirements, collectibility or eventual revenue recognition. The final new system installation under a First Generation Meaningful Use Installment Plan was performed during the fourth quarter of 2012, and the Company does not expect to offer such payment terms going forward. As a result, aside from the anticipated recognition of the \$2.6 million of accumulated unrecognized revenue as of March 31, 2014, we do not expect First Generation Meaningful Use Installment Plans to have a significant impact on our future financial statements.

Second Generation Meaningful Use Installment Plans. Beginning in the fourth quarter of 2012, we ceased offering First Generation Meaningful Use Installment Plans to our customers, opting instead for license agreements with payment terms that provide us with greater visibility into and control over the customer's meaningful use attestation process and significantly reducing the maximum timeframe over which customers must satisfy their full payment obligations in purchasing our system ("Second Generation Meaningful Use Installment Plans"). Under these arrangements, for the first two years following execution of the contract, a customer is only required to remit to us Medicare and Medicaid incentive payments (not to exceed the remaining balance under the arrangement) received for adoption of a qualifying EHR upon receipt of such funds. Upon the expiration of this two-year period, the remaining balance (if any) is required to be paid in full over a period not to exceed twelve months. As the overall payment period durations of the Second Generation Meaningful Use Installment Plans are consistent with that of our historical system sale financing arrangements, revenues under the Second Generation Meaningful Use Installment Plans are recognized upon installation of our EHR solution.

We expect the demand for financing arrangements to continue for the next few years, but at a lower frequency than that experienced during 2012 and 2013. As a result, our financing receivables balances are expected to continue to decrease as collections of currently outstanding amounts are expected to exceed additional receivables recorded under such arrangements.

Table of Contents

The following table sets forth certain items included in our results of operations for the three months ended March 31, 2014 and 2013, expressed as a percentage of our total revenues for these periods (dollar amounts in thousands):

| | Three Months Ended March 31, | | 2014 | | 2013 | |
|---|------------------------------|---------|------------|---------|--------|---------|
| | Amount | % Sales | Amount | % Sales | Amount | % Sales |
| INCOME DATA: | | | | | | |
| Sales revenues: | | | | | | |
| System sales | \$20,453 | 39.3 | % \$20,722 | 41.8 | % | |
| Support and maintenance | 18,245 | 35.0 | % 17,677 | 35.7 | % | |
| Business management, consulting and managed IT services | 13,396 | 25.7 | % 11,150 | 22.5 | % | |
| Total sales revenues | 52,094 | 100.0 | % 49,549 | 100.0 | % | |
| Costs of sales: | | | | | | |
| System sales | 11,193 | 21.5 | % 13,251 | 26.7 | % | |
| Support and maintenance | 7,374 | 14.2 | % 7,239 | 14.6 | % | |
| Business management, consulting and managed IT services | 9,092 | 17.5 | % 6,940 | 14.0 | % | |
| Total costs of sales | 27,659 | 53.1 | % 27,430 | 55.4 | % | |
| Gross profit | 24,435 | 46.9 | % 22,119 | 44.6 | % | |
| Operating expenses: | | | | | | |

| Provision for income taxes | 4,231 | 8.1 | % 3,302 | 6.7 | % | |
| Net income | \$7,715 | 14.8 | % \$6,943 | 14.0 | % | |

Three Months Ended March 31, 2014 Compared with Three Months Ended March 31, 2013

Revenues. Total revenues for the three months ended March 31, 2014 increased 5.1%, or \$2.5 million, compared to the three months ended March 31, 2013. This was largely attributable to a combined \$2.8 million increase in support and maintenance revenues and business management, consulting and managed IT services revenues due to a larger customer base and increased applications within that customer base requiring support and maintenance services, as well as increased demand for and market acceptance of our business management, consulting and managed IT services. The combined increase in support and maintenance revenues and business management, consulting and managed IT services revenues were partially offset by a \$0.3 million decrease in system sales revenues, primarily caused by a decrease in revenue recognized under First Generation Meaningful Use Installment Plans.

System sales revenues decreased by 1.3%, or \$0.3 million, for the comparative three-month periods. New system installation activity increased slightly from period to period, as we completed financial and patient software system installations at nine new hospital clients in the first quarter of 2014 (one of which was under a SaaS arrangement) compared to seven in the first quarter of 2013 (none of which were under SaaS arrangements). Sales to existing customers, which accounted for 65.8% of our system sales revenues for the first quarter of 2014 compared to 57.3% for the first quarter of 2013, increased 13.4%, or \$1.6 million, as a result of increased installations within our existing customer base of our Physician Documentation application, a critical application in achieving stage two of meaningful use criteria. During 2012, the Company installed systems under First Generation Meaningful Use Installment Plans for which a substantial majority of the consideration is not received or revenue recognized until the customers successfully achieve "meaningful use" designation and receive related stage one ARRA incentive payments. These arrangements resulted in \$0.2 million and \$1.8 million of revenue recognized (net of additional unrecognized revenue

accumulated) during the first quarter of 2014 and 2013, respectively. Excluding the net effect on revenue resulting from these arrangements, adjusted system sales (as hereinafter defined in the "Non-GAAP Financial Measures" section below) increased \$1.4 million, or 7.3%, due to the increase in add-on sales to existing customers. Support and maintenance revenues increased by 3.2%, or \$0.6 million, for the comparative three-month periods. Support service fees increased by 6.1%, or \$1.0 million, due to an increase in recurring revenues as a result of a larger customer base, an

Table of Contents

increase in support fees for add-on business sold to existing customers, and increases in support rates from contractually agreed upon Consumer Price Index (“CPI”) rate increases. The increase in support service fees was partially offset by a 47.6%, or \$0.3 million, decrease in SaaS, hosting and other fees as a result of the high volume during the trailing twelve months of conversions of previously installed SaaS arrangements to perpetual licenses at the customers' request.

Business management, consulting and managed IT services revenues increased by 20.2%, or \$2.2 million, for the comparative three-month periods. We experienced this increase in business management, consulting and managed IT services revenues primarily as a result of an expansion of service offerings complemented by an expanding customer base for our previously existing service offerings. Of our previously existing service offerings, we have experienced growth in customer demand for accounts receivables management (increasing 18.9%, or \$0.6 million) and private pay services (increasing 8.1%, or \$0.2 million) as a result of more effective marketing of these services. The introduction and continued maturation of our recently introduced service offerings has resulted in increased demand for our clinical consulting (increasing 121.7%, or \$0.4 million) and cloud computing services (a component of managed IT services, increasing 49.9%, or \$0.1 million). The introduction of medical coding services (a component of consulting services) in the fourth quarter of 2013 resulted in revenues of \$0.2 million during the three months ended March 31, 2014 compared to none in the three months ended March 31, 2013. We also experienced a \$0.3 million increase in reimbursed travel costs as a result of the increased utilization of our clinical consulting resources.

Costs of Sales. Total costs of sales increased by 0.8%, or \$0.2 million, for the comparative three-month periods. As a percentage of total revenues, costs of sales decreased slightly to 53.1% from 55.4%.

Costs of system sales decreased by 15.5%, or \$2.1 million, for the comparative three-month periods. The decrease in costs of system sales was primarily due to decreases in travel costs and cost of equipment. Travel costs decreased \$1.3 million for the comparative three month periods as the Company's system installations for the first quarter of 2013 were more heavily concentrated in geographic areas requiring higher travel costs. Cost of equipment decreased \$0.5 million as new and add-on installations are becoming progressively less equipment-intensive. The gross margin on system sales increased to 45.3% for the three-month period ended March 31, 2014 from 36.1% in the three-month period ended March 31, 2013. Excluding the net effect on revenue resulting from First Generation Meaningful Use Installment Plans (which were used by the Company in 2012) and the deferral of the related cost of equipment, the adjusted gross margin on system sales (as hereinafter defined in the “Non-GAAP Financial Measures” section below) increased to 44.9% in the three-month period ended March 31, 2014 from 30.2% in the three-month period ended March 31, 2013. The table below summarizes the major components of costs of system sales as a percentage of system sales revenues:

| | Three Months Ended | | | |
|------------------------------|--------------------|---|----------------|---|
| | March 31, 2014 | | March 31, 2013 | |
| Payroll and related expenses | 30.2 | % | 30.4 | % |
| Travel expenses | 12.5 | % | 18.8 | % |
| Cost of equipment | 6.6 | % | 9.0 | % |

Excluding the net effect on revenue and cost of equipment resulting from First Generation Meaningful Use Installment Plans, payroll and related expenses, travel expense, and adjusted cost of equipment (as hereinafter defined in the “Non-GAAP Financial Measures” section below) would represent 30.5%, 12.6% and 6.9%, respectively, of adjusted system sales (as hereinafter defined in the “Non-GAAP Financial Measures” section below) for the first quarter of 2014 compared to 33.3%, 20.6% and 9.6%, respectively, for the first quarter of 2013. Please see the tables set forth below under the caption “Non-GAAP Financial Measures” for a reconciliation of each of these non-GAAP financial measures to the comparable financial measure determined in accordance with generally accepted accounting principles in the United States (“GAAP”).

Costs of support and maintenance increased 1.7%, or \$0.1 million, for the comparative three-month periods, primarily due to an increase in infrastructure equipment purchased and expensed pursuant to our capitalization policies, which were modified during the first quarter of 2014 in response to certain safe harbor provisions included in recently published Internal Revenue Service regulations governing tangible property. The gross margin on support and maintenance revenues increased slightly to 59.6% for the three-month period ended March 31, 2014 from 59.0% for

the three-month period ended March 31, 2013.

Our costs associated with business management, consulting and managed IT services increased 31.3%, or \$2.2 million, for the comparative three-month periods, due primarily to an increase in payroll and related expenses. The gross margin on these services decreased to 32.1% for the three-month period ended March 31, 2014 from 37.9% for the three-month period ended March 31, 2013 due to the disproportionate increase in payroll and related expenses versus revenues. Payroll and related

25

Table of Contents

expenses increased 31.5%, or \$1.4 million, as a result of adding more employees during the trailing twelve months in order to support and develop our growing customer base and increase capacity in advance of anticipated future increases in demand. For similar reasons, we have experienced a \$0.3 million increase in temporary labor costs. We also experienced a \$0.3 million increase in related travel costs, primarily due to the increased volume of clinical consulting engagements and increased sales generation efforts.

Sales and Marketing Expenses. Sales and marketing expenses increased 10.9%, or \$0.4 million, for the comparative three-month periods. This increase was primarily attributable to a \$0.1 million increase in commission expense related to the increase in adjusted system sales, a \$0.1 million increase in stock-based compensation expense as a result of additional grants of restricted stock to our executive officers during the third quarter of 2013, and a \$0.2 million increase in costs associated with collaborative arrangements associated with our membership in CommonWell Health Alliance, in particular relating to the development of interoperability standards for the healthcare information technology industry.

General and Administrative Expenses. General and administrative expenses increased 0.6%, or \$0.1 million, for the comparative three-month periods, as increases in payroll and related costs and costs associated with our defined contribution employee retirement plan have been largely offset by decreases in expenses associated with our self-insured group healthcare plans offered to our employees. Payroll and related costs increased 39.3%, or \$0.5 million, due to increased stock-based compensation costs resulting from additional grants of restricted stock to our executive officers during the third quarter of 2013 and non-employee directors during the first quarter of 2014 and increased costs related to our incentive bonus program for certain members of management as profitability growth has improved from the first quarter of 2013 to the first quarter of 2014. Costs associated with our defined contribution employee retirement plan increased 13.8%, or \$0.2 million, due to an increased number of participants eligible for the Company's discretionary employer matching contribution. Costs associated with our self-insured group healthcare plans decreased as we experienced historically severe claims experience in the first quarter of 2013, with such costs returning to more typical levels during the first quarter of 2014.

As a percentage of total revenues, sales and marketing expenses, and general and administrative expenses decreased to 23.9% for the three-month period ended March 31, 2014 compared to 24.2% for the three-month period ended March 31, 2013.

As a result of the foregoing factors, income before taxes increased by 16.6%, or \$1.7 million, from the three months ended March 31, 2013.

Income Taxes. Our effective income tax rate for the three-month periods ended March 31, 2014 and 2013 was 35.4% and 32.2%, respectively. The federal research and development tax credit expired effective December 31, 2011, but was retroactively extended for amounts incurred from January 1, 2012 through December 31, 2013, when the American Taxpayer Relief Act of 2012 ("ATRA") was signed into law in January 2013. No tax benefit from these credits was recorded during 2012 as applicable accounting standards require that such benefits are to be recorded in the period that the legislation is enacted. Instead, the Company recognized the full net benefit for the federal research and development tax credit for the entire 2012 fiscal year during the three months ended March 31, 2013, in addition to estimated amounts related to the first quarter of 2013. As the federal research and development tax credit, as extended by the ATRA, expired effective December 31, 2013 and has yet to be extended for fiscal year 2014 as of March 31, 2014, no tax benefit from these credits has been recorded for the three months ended March 31, 2014.

Net Income. Net income for the three months ended March 31, 2014 increased by 11.1%, or \$0.8 million, to \$7.7 million, or \$0.69 per basic and diluted share, as compared with net income of \$6.9 million, or \$0.63 per basic and diluted share, for the three months ended March 31, 2013. Net income represented 14.8% of revenue for the three months ended March 31, 2014, as compared to 14.0% of revenue for the three months ended March 31, 2013.

Liquidity and Capital Resources

As of March 31, 2014, we had cash and cash equivalents of \$18.5 million, compared to \$6.8 million at March 31, 2013. This increase in cash and cash equivalents is mostly due to a significant increase in net cash provided by operating activities and a significant decrease in cash used for investing activities, as discussed below. Management believes that cash and investments plus cash generated from our normal operating activities should be adequate to fund our business for at least the next twelve months. Our principal source of liquidity has been cash provided by

operating activities. Cash provided by operating activities has been used primarily to fund the growth in our business and return cash to stockholders in the form of dividends. We believe that paying dividends is an effective way of providing an investment return to our stockholders and a beneficial use of our cash. However, the declaration of dividends by CPSI is subject to the discretion of our Board of Directors. Our Board of Directors will continue to take into account such matters as general business conditions, our financial results and such other factors as our Board of Directors may deem relevant.

Table of Contents

Net cash provided by operating activities for the three months ended March 31, 2014 was \$13.2 million, compared to \$5.5 million for the three months ended March 31, 2013. This 138.3% increase in net cash provided by operating activities far outpaces our 11.1% increase in net income from the first three months of 2013 to the first three months of 2014 and primarily results from the combined effects of decreased utilization of Second Generation Meaningful Use Installment Plans in the first quarter of 2014 compared to the first quarter of 2013 and a significant increase in collections made pursuant to those arrangements during the first quarter of 2014.

As previously stated, for the first two years following execution of such an arrangement, customers are only required to remit to us Medicare and Medicaid incentive payments (not to exceed the remaining balance under the arrangement) received for adoption of a qualifying EHR upon receipt of such funds. All seven of our new customer installations during the first quarter of 2013 were under Second Generation Meaningful Use Installment Plans, resulting in significant increases in our financing receivables balances. Of the nine new customer installations during the first quarter of 2014, only four were under Second Generation Meaningful Use Plans while one was under a SaaS arrangement, with the remaining four containing more traditional payment terms resulting in payments due as the respective installations are completed. Our collections of amounts due under Second Generation Meaningful Use Installment Plans increased from \$1.0 million during the first quarter of 2013 to \$6.4 million during the first quarter of 2014, as these arrangements were relatively new in 2013 with very few of these customers having completed the attestation period and administrative actions necessary to receive related incentive payments as of March 31, 2013. The prevalence of these arrangements during the remainder of 2013 has resulted in an expanded population of customers under such arrangements and, when coupled with successful attestations in the trailing twelve months, has resulted in an increased volume of customers receiving incentive payments and, consequently, significantly higher collections during the first quarter of 2014.

We continue to experience customers seeking financing arrangements for system installations, in particular due to the desire and ability of customers to minimize the near-term impact that purchasing our system will have on their current cash resources by utilizing cash inflows expected under the EHR incentive program. We expect this demand for financing arrangements for system installations to continue during the next twelve months, which could result in increases in our financing receivables, although at lower levels than that experienced during 2013. The potential increase in financing receivables, although offset by periodic collections of previously outstanding amounts, could temporarily have a negative impact on our net cash provided by operating activities.

Net cash used in investing activities totaled less than \$0.1 million for the three months ended March 31, 2014, compared to \$2.0 million for the three months ended March 31, 2013. We used cash for the purchase of \$2.0 million of property and equipment during the first three months of 2013, with nearly half of that amount related to the build-out of our new facility in Fairhope, Alabama. Capital expenditures were less than \$0.1 million during the first three months of 2014, and we do not anticipate the need for significant capital expenditures during the remainder of 2014.

Net cash used in financing activities totaled \$6.3 million for the three months ended March 31, 2014, compared to \$5.6 million for the three months ended March 31, 2013. During the three months ended March 31, 2014, we increased our dividend rate 11.8% to \$0.57 per share from \$0.51 per share.

Our days sales outstanding, which represents the average collection time for accounts receivable, for the three months ended March 31, 2014 and 2013 were 45 and 38 days, respectively.

We currently do not have a bank line of credit or other credit facility in place. Because we have no debt, we are not subject to contractual restrictions or other influences on our operations, such as payment demands and restrictions on the use of operating funds that are typically associated with debt. If we borrow money in the future, we will likely be subject to operating and financial covenants that could limit our ability to operate as profitably as we have in the past. Defaults under applicable loan agreements could result in the demand by lenders for immediate payment of substantial funds and substantial restrictions on expenditures, among other things. Additional capital, if needed, may not be available on terms favorable to us, or at all.

Our future capital requirements will depend upon a number of factors, including the rate of growth of our sales, cash collections from our customers and future investments in fixed assets. We believe that our available cash and cash equivalents, investments and anticipated cash generated from operations will be sufficient to meet our operating

requirements for at least the next 12 months.

Backlog

Backlog consists of revenues we reasonably expect to recognize over the next twelve months under existing contracts, and excludes amounts to be recognized in subsequent periods related to First Generation Meaningful Use Installment Plans. The revenues to be recognized may relate to a combination of one-time fees for system sales and recurring fees for support and maintenance, business management, consulting and managed IT services. As of March 31, 2014, we had a twelve-month

Table of Contents

backlog of approximately \$53.2 million in connection with non-recurring system purchases and approximately \$117.2 million in connection with recurring payments under support and maintenance, business management, consulting and managed IT services. As of March 31, 2013, we had a twelve-month backlog of approximately \$46.9 million in connection with non-recurring system purchases and approximately \$110.8 million in connection with recurring payments under support and maintenance, business management, consulting and managed IT services. Our backlog increase is the result of new contracts signed in the trailing twelve months to be installed over the next twelve months, as well as an increase in our customer base for recurring business.

Off Balance Sheet Arrangements

We had no off-balance sheet arrangements, as defined by Item 303(a)(4) of SEC Regulation S-K, as of March 31, 2014.

The Company has other lease rights and obligations that it accounts for as operating leases that may be reclassified as balance sheet arrangements under accounting pronouncements currently being considered by the Financial Accounting Standards Board ("FASB").

Critical Accounting Policies

Our Management Discussion and Analysis is based upon our Condensed Consolidated Financial Statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make subjective or complex judgments that may affect the reported financial condition and results of operations. We base our estimates on historical experience and other assumptions that we believe to be reasonable in the circumstances, the results of which form the basis for making judgments about the reported values of assets, liabilities, revenues, expenses and other financial amounts that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. We continually evaluate the information used to make these estimates as our business and the economic environment change.

In our Annual Report on Form 10-K for the year ended December 31, 2013, we identified our critical accounting policies related to revenue recognition, allowance for doubtful accounts, allowance for credit losses and estimates. There have been no significant changes to these critical accounting policies for the three months ended March 31, 2014.

Non-GAAP Financial Measures

We have included in the discussion under the caption "Three Months Ended March 31, 2014 Compared with Three Months Ended March 31, 2013" above financial measures that were not prepared in accordance with GAAP. Any analysis of non-GAAP financial measures should be made only in conjunction with results presented in accordance with GAAP. Below, we define each of these non-GAAP financial measures, provide a reconciliation of each non-GAAP financial measure to the most directly comparable financial measure calculated in accordance with GAAP, and discuss the reasons that we believe this information is useful to management and may be useful to investors. We use the non-GAAP financial measures "adjusted gross margin on system sales," "adjusted cost of equipment," and "adjusted system sales." Management believes these non-GAAP financial measures provide our Board of Directors, investors, potential investors, securities analysts and others with useful information to evaluate our performance because they exclude the impact of unrecognized revenue, recognized revenue and related deferral of cost of equipment resulting from our use of First Generation Meaningful Use Installment Plans. First Generation Meaningful Use Installment Plans were new to the Company in 2012, resulting in the Company not having sufficient experience with comparable arrangements to establish evidence of a standard business practice of historically collecting under the original payment terms of such contracts without making concessions. As a result, the provisions of the Software topic and Revenue Recognition subtopic of the FASB Accounting Standards Codification result in a conclusion that the fee is not fixed or determinable and, as a result, the revenue is to be recognized as the amounts become due. Because the timing of our recognition of revenue under First Generation Meaningful Use Installment Plans is not related to any remaining obligation on the part of the Company, the Company and our Board of Directors use these non-GAAP financial measures to evaluate our performance relative to other periods. We believe that the most directly comparable GAAP measures to adjusted gross margin on system sales, adjusted cost of equipment, and adjusted system sales are gross margin on system sales, cost of equipment, and system sales, respectively.

Table of Contents

Set forth below are reconciliations of adjusted gross margin on system sales, adjusted cost of equipment, and adjusted system sales to the comparable financial measures calculated in accordance with GAAP (dollar amounts in thousands):

Adjusted Gross Margin on System Sales

| | Three Months Ended | |
|--|--------------------|-------------------|
| | March 31, 2014 | March 31, 2013 |
| Gross margin on system sales | \$9,260 | \$7,471 |
| Add: Unrecognized revenue accumulated related to First Generation Meaningful Use Installment Plans | 11 | 483 |
| Less: Revenue recognized related to First Generation Meaningful Use Installment Plans | (165 |) (2,293 |
| Less: Deferred cost of equipment related to First Generation Meaningful Use Installment Plans | — | (9 |
| Add: Amortization of deferred cost of equipment related to First Generation Meaningful Use Installment Plans | 11 | 53 |
| Adjusted gross margin on system sales | \$9,117 | \$5,705 |
| Adjusted Cost of Equipment | | |

| | Three Months Ended | |
|---|--------------------|-------------------|
| | March 31, 2014 | March 31, 2013 |
| Cost of equipment | \$1,347 | \$1,859 |
| Add: Deferred cost of equipment related to First Generation Meaningful Use Installment Plans | — | 9 |
| Less: Amortization of deferred cost of equipment related to First Generation Meaningful Use Installment Plans | (11 |) (53 |
| Adjusted cost of equipment | \$1,336 | \$1,815 |
| Adjusted System Sales | | |

| | Three Months Ended | |
|--|--------------------|-------------------|
| | March 31, 2014 | March 31, 2013 |
| System sales | \$20,453 | \$20,722 |
| Add: Unrecognized revenue accumulated related to First Generation Meaningful Use Installment Plans | 11 | 483 |
| Less: Revenue recognized related to First Generation Meaningful Use Installment Plans | (165 |) (2,293 |
| Adjusted system sales | \$20,299 | \$18,912 |

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Our exposure to market risk relates primarily to the potential change in the value of our investment portfolio as a result of fluctuations in interest rates. The primary purpose of our investment activities is to preserve principal while maximizing the income we receive from our investments without significantly increasing risk of loss. As of March 31, 2014, our investment portfolio consisted of a variety of financial instruments, primarily including, but not limited to, money market securities and high quality government and corporate obligations. It is our intent to ensure the safety and preservation of our invested principal funds by limiting default risk, market risk and reinvestment risk. We do not hold financial instruments for trading or other speculative purposes. The securities in our investment portfolio are classified as available-for-sale and, consequently, are recorded on our balance sheet at fair market value with their related unrealized gain or loss reflected as a component of accumulated other comprehensive income (loss) in stockholders' equity.

Table of Contents

Investments in both fixed rate and floating rate interest earning instruments carry a degree of interest rate risk. Fixed rate securities may have their fair market value adversely impacted due to a rise in interest rates, while floating rate securities may produce less income than expected if interest rates fall. Due in part to these factors, our future investment income may fall short of expectation due to changes in interest rates or we may suffer losses in principal if forced to sell securities which have declined in market value due to changes in interest rates.

We believe that the market risk arising from our holdings of these financial instruments is minimal. Due to the conservative allocation of our investment portfolio, we do not believe that an immediate 10% increase in interest rates would have a material effect on the fair market value of our portfolio. Additionally, since we believe we have the ability to liquidate this portfolio, we do not expect our operating results or cash flows to be materially affected to any significant degree by a sudden change in market interest rates on our investment portfolio. We do not utilize derivative financial instruments to manage our interest rate risks.

The table that follows presents fair values of principal amounts and weighted average interest rates for our investment portfolio as of March 31, 2014.

| | Aggregate Fair Value | Weighted Average Interest Rate | |
|--|-------------------------|--------------------------------------|---|
| Cash and Cash Equivalents: | | | |
| Cash and cash equivalents | \$ 18,549,241 | — | % |
| Short-Term Investments: (1) | | | |
| Accrued income | \$37,651 | — | % |
| Money market funds | 1,012,404 | 0.05 | % |
| Obligations of the U.S. Treasury, U.S government corporations and agencies | 1,000,705 | 0.52 | % |
| Corporate debt securities | 3,106,559 | 2.79 | % |
| Total short-term investments | \$5,157,319 | | |
| Long-Term Investments: (2) | | | |
| Obligations of the U.S. Treasury, U.S government corporations and agencies | \$2,778,451 | 1.14 | % |
| Mortgage backed securities | 76,386 | 1.63 | % |
| Corporate debt securities | 2,692,254 | 1.83 | % |
| Total long-term investments | \$5,547,091 | | |

(1) Reflects instruments with a contractual maturity of less than one year.

(2) Reflects instruments with a contractual maturity of one year or more.

As of March 31, 2014, the Company had no borrowings and, therefore, is not subject to interest rate risks related to debt instruments.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to provide reasonable assurance that the information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Because of the inherent limitations to the effectiveness of any system of disclosure controls and procedures, no evaluation of disclosure controls and procedures can provide absolute assurance that all control issues and instances of fraud, if any, with a company have been prevented or detected on a timely basis. Even disclosure controls and procedures determined to be effective can only provide reasonable assurance that their objectives are achieved.

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) pursuant to Rule 13a-15 of the Exchange Act. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at the reasonable assurance

level.

PART II
OTHER INFORMATION

Item 1. Legal Proceedings.

From time to time, we are involved in routine litigation that arises in the ordinary course of business. We are not currently involved in any claims outside the ordinary course of business that are material to our financial condition or results of operations.

Item 1A. Risk Factors.

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2013, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem immaterial also may materially adversely affect our business, financial condition or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Not applicable.

Item 3. Defaults Upon Senior Securities.

Not applicable.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.

Item 6. Exhibits.

3.1 Certificate of Incorporation (filed as Exhibit 3.4 to CPSI's Registration Statement on Form S-1 (Registration No. 333-84726) and incorporated herein by reference)

3.2 Amended and Restated Bylaws (filed as Exhibit 3 to CPSI's Current Report on Form 8-K dated October 28, 2013 and incorporated herein by reference)

31.1 Certification of the Chief Executive Officer pursuant to Rule 13a-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

31.2 Certification of the Chief Financial Officer pursuant to Rule 13a-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

32.1 Certifications of the Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
